CHILDREN TONATE WITH SPECTRO-CHROME

Successful use of Spectro-Chrome in Measles, Partial Blindness, Burn, Bee Sting, Cut, Bleeding, Heart Disorder, Diabetes, Asthma, Bladder Inflammation, Constipation, Bed-wetting, Gall Bladder Disorder.

By:—CARL I., Oconomowoc, Wisconsin.

Spectro-Chrome has been used in our family with the greatest success and it is mainly due to the Normalation of my wife from a severe Gall Bladder Disorder that I decided to make Spectro-Chrome Metry my life work. I personally had many occasions to be convinced of its beneficial effects (Fever, Lumbago, etc.). During the Measles epidemic, our four children made the parade under Turquoise and Blue and on the fourth day they hopped around without any sign of Measles.

My father-in-law, who lives with us, was relieved of Partial Blindness of 3 months standing, in 9 Tonations.

A Burn by an electric iron yielded to Blue, in my wife and even a Bee Sting suffered by one of my boys, gave up its "sting" to Turquoise in 10 minutes.

Even our four children, ages 11 to 16, know how to use the Attuned Color Waves. When my wife and myself came home one evening at 11 P. M., from a "gospel" tour of Spectro-Chrome, the boy of 13 had his head under Indigo, with a 4 inch cut in his head. He had fallen from a broken swing and his head had encountered a log that was in the way. We were greeted by him with a smile, saying, "Father, you don't have to scold me any more; the bleeding has stopped." Two more Tonations and "No Plasters" did the trick.

Spectro-Chrome is the supreme Healing System. John H. of Jefferson, Wisconsin purchased a Spectro-Chrome, about 6 weeks ago. He had a severe Heart Disorder, a light case of Diabetes, swollen ankles upto knees; also had to sit up frequently during the night to prevent choking, due probably to an asthmatic condition. Last week, according to a so-called examination or check-up by his Medical Doctor his Heart sounded good, his body color had surprisingly improved, the swelling had subsided and a Blood Test came back from the Wisconsin General Hospital as 100 per cent. perfect; the Blood Pressure also was normal. But above all, during the past 3 weeks, the Sufferer who adheres strictly to the "Rational Food Of Man" system, has his natural uninterrupted sleep. The man feels so much improved

in his general condition, that he could not refrain to "show up" to his former family Doctor by an examination.

H. of Hartland, Wisconsin has a son 12 years old, who suffered from Asthma since boyhood. The Equipment was purchased last year in August and the youngster has not had an attack since that time. He went with his parents to Florida, was sick with Measles and in connection had his first attack again. But since Tonations were resumed, all is well.

Mrs. H. of Watertown, Wisconsin bought an Equipment about 4 months ago. The Sufferer had a persistent Inflammation of Bladder (no control over pressure). Constipation; claims to be normal since 2 months. Her boy, 18 years old, a farmhand, suffered from persistent Bed-Wetting since childhood and therefore could not hold any job. The boy took 2 Tonations daily for 2 months and during the past 9 weeks, no "accident" happened and he is working on a farm now.

F. bought a Cabinet 6 weeks ago. His wife was in bed for 3 weeks with Gall Bladder Disorder and operation, according to the Medical Doctor, was imperative. The Equipment was installed on Sunday. Tuesday the Sufferer, according to her husband, fainted twice and Thursday she was up making meals and doing the shopping. The purchaser claims—by right and evidence—that Spectro-Chrome saved him the price of an operation and his wife's Gall Bladder.—E. P.

MISSOURI WOMAN NORMALATED BY SPECTRO-CHROME VICTIM OF EIGHT SURGICAL OPERATIONS

By:—EDITH O. S.—Marshall, Missouri.

I have been the victim of Surgery 8 times! Four Goitre operations and Gall Bladder removed. Since the Gall Bladder was removed, I found myself in a worse condition than before, with Stomach trouble, Bowel trouble, Headaches and Vomiting. Took all kinds of Medicine and tried everything to get relief but, without avail.

I purchased a Spectro-Chrome and used it (about 18 months ago). From the very first Tonation, I improved in health and really took ten years younger and feel like living. I sleep and eat, but there are no Drugs on my shelves. I discarded all.

A friend had Appendicitis. Medical Doctors cared for her over a week without any improvement. I gave her 3 Tonations with Turquoise and she felt well and ready for work.

It is the only safe and sane method of healing and a marvelous discovery for humanity.—E. P.

FIRST MILWAUKEE WISCONSIN PLANET

Meeting Of Thursday, June 6, 1935.

(Hotel Wisconsin, Milwaukee, Wisconsin.)

Successful Use Of Spectro-Chrome In:—Facial Paralysis, Sprained Ankle, Leg Pain, Tuberculosis, Heart Kidney and Bladder Disorders, Rheumatism, Chronic Bronchitis, Croup, Cold, Diabetes, Gall Stones, Constipation, Sinusitis, Sore Gums, Neuritis, Insomnia.

Medical Doctor said "You will not be able to close your Eye for about 6 weeks." Spectro-Chrome did it in 1 hour!

One User Says:—"The machine did wonders for her!"

Another User Says:—"I will not sell my Spectro-Chrome for \$1,000.00!"

Reported By:—CAROLINE ZIMMERLING, Recorder

Caroline Zimmerling, the newly appointed Recorder, was introduced and affirmed according to Rule 33 of the Constitution And Rules.

Otto H. Lutz read Chapters 60, 61, 62, on Disorders Of Vision, Disorders Of Olfaction And Gustation and Disorders Of Audition, from Spectro-Chrome Metry Encyclopaedia, Volume 2.

Rudolf B. reported a case of a woman who was afflicted with Paralysis of the Face and Eye on the right side. The Medical Doctor said she would not be able to close her eye for about six weeks. In one hour with Spectro-Chrome, she was able to close her eye. Her face became mobile in about two weeks. His wife had sprained Ankle. Turquoise was used successfully.

Otto H. Lutz reported that nine Tonations of Lemon normalized a man of 52, who had severe pain in his legs.

Clara L. reported that she has been using her Spectro-Chrome for about a year. At that time, she was not in very good condition, but she is getting along well now. Green, Lemon, Yellow and Orange, were used in this case which is one of a Tubercular character. She was in a Sanatorium before using Spectro-Chrome. She said that the machine did wonders for her.

Lizzie R., of Rochester, Wisconsin, has her Equipment about 3 months. She bought her own Equipment after receiving good results from Spectro-Chrome Tonations. She is very much satisfied with it. She is using it for Heart, Kidney and Bladder Disorders and Rheumatism.

Gerhardt N. is using his Equipment every day.

Last July Berta B. got her Equipment. She is getting results in a case of Bronchitis of twenty years standing. It was the first winter for some years that she really felt quite well.

Adeline C. reported that Green normalated a case of a little girl with Croup. The girl was out of school only two days. For Colds, she uses Green and Lemon with very good results and for Colds in children, she uses Turquoise, with equally good results.

A great deal of success has been the experience of Laura G., in Diabetes, Bright's Disease, Gallstones and many other Disorders. She has been tonating for about two years and says she uses Spectro-Chrome exclusively. She says she finds that one must use real common sense in tonating. She found that in Chronic cases, she got good results by going to the Ultra-Green Division, after getting a good start with the Infra-Green Division. She says that since Miss N. R. is no longer visiting Spectro-Chrome users, her time is almost entirely consumed in giving advice and suggestions to users who call her up for this purpose and she feels that she can not let them down. She says she has been in the healing profession since the age of sixteen and while she thinks Spectro-Chrome is wonderful, especially in the cases of Asthma, Arthritis and Rheumatism, she finds that it is difficult to judge only by the Spectro-Chrome Home Guide. She feels that the advice given is not adequate.

Joe L. has had his Equipment since last July. His wife had a growth which Indigo Local helped. She followed the advice received from Spectro-Chrome Institute, which was Indigo Local and Orange Systemic, but felt that the Orange was too strong so started on Green.

E. B. got his Equipment for his father's use. He received advice from Spectro-Chrome Institute, Green, Lemon and Yellow. He feels that the Equipment did for his father so much good that it may have saved his life.

For about three months, John D. (not Rockefeller) has his Equipment. He uses it for Constipation and says it is doing a very good job of it. Two or three Tonations normalated the condition. He has been using Green, Lemon, Orange and Magenta. Not for \$1,000.-00 would he sell his Equipment if he could not get another. His wife had good results in Rheumatism of 25 years.

A Sinus condition of 5 to 10 years' standing is responding well to Spectro-Chrome Tonation in the case of William K. The first week, he used Green alone; then, he used Lemon Systemic and Magenta Local.

After the intermission, Walter H. rose and said that he purchased his Spectro-Chrome on December 13, 1933, just after he returned from Mayo Brothers. Having studied Medicine and Electrical Engineering, he could readily see the merit of this Science. His first Tonation was two hours long and it made him feel so well that he went out and enjoyed himself. He says it put him back on his feet entirely in a short time. About three weeks ago, his wife had Pto-
maine Poisoning. Spectro-Chrome normalated this condition. He reported a case of Scarlet Fever; the Temperature of the Sufferer was reduced from 105.3 to 99 Degrees in a few hours by the use of Violet. This person was normal in a few days. He said he found a number of people who were not satisfied with their Equipments. He felt this was due to the fact that they did not understand the use of their Equipments. He feels that we should have more discussions in the Planet Meetings concerning certain ailments. He then made a motion that at the Planet Meetings Normalators be allowed to advise people or that people be allowed to get advice from Normalators. He said he wants to give advice. The motion was seconded.

Marie W. said she came to the meeting with a heart full of resentment. She wanted to know what the status of a Member was. She said people could not learn anything from the Spectro-Chrome Home Guide. She said she wants to learn from discussion in the group.

Walter H. rose again and said that he had a case of Mucous Colitis and Arthritis. He took the Inflammation out of the body first with the Ultra-Green Division and then worked right down the Infra-Green Division with Systemic Tonations after that.

Dorothea G. wanted to have a rising vote taken to voice the sentiments of the group on the subject of more discussion and advice. Edna C. also felt that more discussion was needed. She said she came away from Hales Corners, Wisconsin, to learn something about Spectro-Chrome.

Betty W. reported of a woman of 65, who broke her shoulder and elbow. These parts were set, but the pains were very bad because Rheumatism had set in. Spectro-Chrome was used on her. Three weeks of Indigo did not relieve her, so Orange was used with very good success. Besides the Orange Local and Magenta on Areas 4 and 18, Green and Lemon Systemic were also used. She also reported of a man of 59, who had Rheumatism in his hand and arm. Green Systemic and Indigo Local were used successfully. Another case of a woman with Sore Gums, in which Green Systemic and Indigo Local, with Magenta on Areas 4 and 18 were used to normalate was reported.

E. A. Ernest then gave a short talk about the "complaints"

that were made, saying if the Spectro-Chrome Institute did not allow us to have more discussions and give out advice, it was merely to protect us as well as Spectro-Chrome, from the corrupt Laws of the United States Of America made by the Medical Trust. He also said that if there be any doubt as to the course of procedure in tonating, Page 81 of Spectro-Chrome Home Guide, whereon is stated that Green is to be used first in all cases, will answer the purpose. He said that out of over 1,000 Spectro-Chromes in use in Milwaukee County, there were only 15 or 20 complaints, which were from people who did not do as they were supposed to do. He said if the General Advice Charts were not answered, it was because they were not properly filled.

Michael S. has his Spectro-Chrome about six weeks. He is using it for Sluggish Liver, Spleen, Arthritis, Swollen Feet. He said that sight seems to be failing since using Spectro-Chrome; is following Guidance from Spectro-Chrome Institute faithfully.

Spectro-Chrome has been used by Alma H. since last Fall. She used it for Neuritis, Running Ear, Bronchitis and Sleeplessness, She has had very good results. She started with Green and went to the Orange. About 5 or 6 Tonations gave results. For Sleep, she used Green; in about a week she was very much better. Her Yelping Dog (reported in last issue) was very much improved.

We suggest that instead of reading so many Chapters, the Planet Deputy ask for a vote of the Members present each time as to just **one** item for that evening's study. Then, have somebody with a loud and clear voice read that part from the Spectro-Chrome Metry Encyclopaedia and request the entire assembly to join in discussion for elucidation of points not comprehended. Anything dubious in the minds of the Affiliates, which none present could satisfactorily explain, may then be reported by the Recorder to the Principal Office. The explanation given by the Principal Office Staff may be read at the next meeting. Such systematic procedure will produce educational results .

Laura G. should not interfere with Purchasers who are under the Free Guidance of Spectro-Chrome Institute. N. R. was stopped by Spectro-Chrome Institute from visiting the homes of Purchasers and tendering Guidance, which frequently conflicted with the Guidance given by Spectro-Chrome Institute. Laura G. had better keep her hands off similarly, because, she will be likely to create uninten-

tional troubles between the Purchasers and Spectro-Chrome Institute. Spectro-Chrome Home Guide and Spectro-Chrome Metry Encyclopaedia have more information in them than all that Spectro-Chrome Normalators ever will be enabled to give and as Laura G. is an Agent of Ernest Distributing Company, she is bound by the Agreement Rules of Spectro-Chrome Institute with Ernest Distributing Company, which clearly debar all such Guidance interference.

The Board Of Trustees of Scientific Order Of Spectro-Chrome Metrists wrote a very plain letter to the First Milwaukee Planet Commission, setting forth the details to avoid any unpleasant misunderstanding; this letter was to be read by the Recorder Caroline Zimmerling at the Planet Meeting of July 4, 1935. It is printed verbatim below:—

Tuesday, July, 2nd 1935,
Chronos: Red 45 White

Miss Caroline Zimmerling,
2356 LeFeber Avenue,
WAUWATOSA, WISCONSIN.

Dear Miss Zimmerling:

1. We shall thank you to read this communication at the meeting of the 4th current.
2. Notwithstanding repeated notices and long communications, our Affiliates still persist in mixing communications of Spectro-Chrome Institute and the Scientific Order of Spectro-Chrome Metrists.
3. All communications regarding Planet activities as well as SPECTRO-CHROME magazine should be addressed to the Scientific Order of Spectro-Chrome Metrists.
4. All communications regarding Spectro-Chrome Equipments, Spectro-Chrome Slides, Spectro-Chrome General Advice Charts and such other matters should be sent to Spectro-Chrome Institute.
5. No communications should be addressed to any specific name or person; all communications should be addressed solely to the particular corporate name.
6. In any communication or complaint in which both Organizations may be involved, the matters should be segregated and separate communications should be addressed to each.
7. The reason for all these regulations is that both are separate corporations under distinct State Laws and their officers and files are different. Hence, our Affiliates will do well not to mix one with the other, especially in matters of sending remittances.
8. During the past few months we have been constantly receiving communications that the activities of the First Milwaukee Wisconsin Planet are not satisfactory to a certain number of individuals. These individuals are Graduates of Spectro-Chrome Institute and are Spectro-Chrome Normalators in active practice. Their major complaint is that the Affiliates do not receive the educational benefit they ought to receive at the meetings. However, they forget that it is entirely upto the Affiliates to make meetings interesting by introducing educational questions in Spectro-Chrome Metry and discussing various subjects from SPECTRO-CHROME METRY ENCYCLOPAEDIA and practical case reports on the floor.
9. Many seem to believe that all discussion was debarred by us; this is a misconception on their part. Instead of the Deputy reading a series of Chapters in a desultory manner and declaring a recess, it is our opinion that by a vote of the Planet a certain Chapter should be chosen each time or a certain part of a Chapter may be so selected or a certain theme or disorder may be picked and its various aspects discussed and thrashed thoroughly by the Members present. It is essential to note at this point that the voting power rests solely with full-fledged Graduate Members who have the Green Ticket and are in active standing thereby. Provisional Members who are Affiliates purely by courtesy have no voting power and while they are permitted as Sympathizers to take part in the discussion, they should not be allowed to have any voice whatsoever in the management of the Planet.

10. Free discussions are always welcome; we even invite caustic criticisms and merciless lashing leveled against us in so far as the management of Planets, but is must be implicitly understood that what is given in our Constitution and Rules must be rigidly maintained and enforced and no violation of any character should be tolerated.

11. A very serious violation was found in the past to be the giving of Attuned Color Wave Guidance to Spectro-Chrome Equipment Purchasers by certain Agents of Ernest Distributing Company, a fact which was in distinct violation of the agreement between Spectro-Chrome Institute and Ernest Distributing Company.

12. You well know that Spectro-Chrome Institute is fighting for its very existence against our bitter opponents and any infraction of any Rule of Spectro-Chrome Institute would at any time launch an Affiliate and through an Affiliate the entire Organization, as well as the Originator into serious troubles.

13. Many Spectro-Chrome Normalators have been reported in the past as tendering Guidance in Attuned Color Waves in full knowledge of the fact that the sufferers to whom they tendered such Advice were under the Free Guidance of Spectro-Chrome Institute. The Free Guidance of Spectro-Chrome Institute is directly under the personal supervision of the Originator and he frequently found to his great regret that such Guidances were antagonistic to the Free Guidance given by Spectro-Chrome Institute. Notwithstanding warnings given, such infractions continued and it is only within the past few days that the infractions seem to be abating because of the strong steps taken by Spectro-Chrome Institute.

14. There is another serious infraction looming. Many Spectro-Chrome Normalators seem to believe that they can copy, duplicate or issue the Favorscope or diagrams issued either by Spectro-Chrome Institute or by us and utilize them either for their personal use or for others. It is necessary to warn that all work in Spectro-Chrome Metry is copyrighted by the Originator and duplicating any Chart for even personal use and hanging it on the wall as a display is a violation under the Copyright Laws and the violator, under our Constitution and Rules is liable to expulsion.

15. All these matters we desire you to place before the Affiliates, as we find the trend of human nature to be negligent to rules and as we aim at harmony and cooperation, it would be to mutual advantage for Affiliates to avoid the specified contingencies.

16. We desire to impress upon the minds of the Affiliates that the little income derived from the Membership Fee is away below that required to pay even the rent of the meeting room; in truth, were we looking only to the financial side of the question, we would be strongly for abolishing the maintaining of Planets. We sincerely hope and believe for such reason that the educational and helping feature of our Planets be borne in mind by all Affiliates and steps be taken to exchange personal views without unnecessary bitterness or friction, thus increasing the value of the Planets and doing good to the sufferers by guiding them in the proper use of Spectro-Chrome, as long as such Guidance does not clash with or antagonize the Rules of Spectro-Chrome Institute.

17. What Spectro-Chrome Institute desires is simply this, that the sales people working for Ernest Distributing Company shall not bring their matters, complaints or squabbles on the floor of the Planet. Such matters should be discussed with the Ernest Distributing Company at the personal meetings and not in the Planet.

18. None stands for freedom of speech more solidly than the Originator; all that he desires is that the Planet be used exclusively for its educational purposes and not for personal complaints against Spectro-Chrome Institute, which has nothing to do, as a corporation, with the Planet.

19. To keep away from the clutches of our opponents, it is essential and vital that no sales person working for Ernest Distributing Company should act as a visiting nurse or go to the homes of sufferers even for Spectro-Chrome Advice.

20. Furthermore, it is also essential and vital to our existence and interests that any deviation from our Constitution and Rules, no matter by whom made, should be promptly reported to the Principal Office at Malaga, New Jersey, so requisite action may be taken to keep all violations out of our Organization and fully insure the safety of the Originator and his work.

21. A duplicate and triplicate of this communication is sent to the Deputy and Sub-Deputy and it will be warmly appreciated if the Planet Commission will please do

what is necessary to avoid friction and misunderstanding.

22. With kind regards and best wishes, we remain

Yours in the Service of Mankind,

BOARD OF TRUSTEES

by

Irene Grace Dinshah,

Secretary

IGD:RF

AIR MAIL

Duplicate to Deputy Otto Lutz

Triplicate to Sub-Deputy Harry Goebel.

SPECIAL DELIVERY

After reading the above letter, any sensible person will admit that the so-called "restrictions" of Spectro-Chrome Institute are well meant safeguards. The Spectro-Chrome Normalators, in their over-enthusiasm, have been worse than our opponents in creating troubles for the Originator. Their attitude does not have his sympathy. It is his desire NOT to encourage the interference of Spectro-Chrome Normalators in dealing with the Sufferers, as his experience proved that many Normalators, like some Medical Doctors, actually let the public linger, so they may reap a richer harvest! Thus, since Spectro-Chrome Institute started direct sales from Maker To Purchaser, interference from all Spectro-Chrome Normalators was cut off and our Planet activities were placed strictly on an educational basis, for the benefit of the Purchasers who were admitted as students in Spectro-Chrome Metry, by Provisional Membership.

Walter H. is another Spectro-Chrome Normalator, who wants to reform the Organization, by running it according to Roberts's Digest! He had better study our Constitution And Rules. Rule 64, Section 19 says, "No Rules Of Debate shall apply except as provided herein." Our Organization is controlled according to **our** methods and those who want to stay with us should follow **our** Rules. If instead of grumbling, all would suggest and follow constructive methods, we should be obliged. None is prevented from writing for Free Guidance from Spectro-Chrome Institute; why then should he, an Agent for Ernest Distributing Company try to act for others? If he studied "Medicine" he ought to realize its short-comings and refrain from trying to run the show of Spectro-Chrome for us. Spectro-Chrome Normalators are NOT Spectro-Chrome Institute and if they will but mind **their own** business, there would be no friction.

Marie W. should read the Constitution And Rules to know her status. She, as a Provisional Member has NO STATUS except

what she got by our courtesy, to be allowed to attend Planet Meetings. She has NO VOICE in the conduct of the Planet and NO VOTE. If she could not learn anything from the Spectro-Chrome Home Guide, she should ask for the Free Guidance. She may start her discussion in the Group and surely someone will enlighten her. She **never asked for any Guidance** and has no right to complain. Our records indicate that she NEVER requested any information—naturally she got none; what right has she to complain?

Dorthea G. was "Out Of Order" and should have been "hammered" down about the voting. Provisional Members are merely "Courtesy members" and are enrolled sheerly as "Students in Spectro-Chrome Metry." They have NO VOICE IN THE CONDUCT OF PLANET AFFAIRS and positively NO VOTE. Refer to Rule 65, Section 6. Edna C. gets the same answer. It were better for our Affiliates to study the Constitution And Rules, than to complain. There is NO REASON to complain, when they do not follow the Regulations and all the time these Provisional Members pay NO FEE, but are given a special privilege Free Of Charge!!!

As many of these so-called "Complaints" were the results of some of Ernest Distributing Company's Agents violating the Rules, we shall be thankful if E. A. Ernest would control his crew from becoming obnoxious in the Planet Meetings. We have numerous reports of the Violations of such Agents and a Warning is issued openly to them, that the constant infraction of Rules will not be tolerated. If such infraction persists, the Board Of Trustees will be compelled to stop such Agents from their Affiliations with the activities of the Planet, a move which will remove absolutely all cause of friction. Most of these Agents are only Provisional Members, without the rights of Normalation and **without** the privilege of voting. What reason then have they to claim that they are better fitted for Guidance in Spectro-Chrome Metry than the Alma Mater that trained thousands like them? Some people certainly presume!

Why should E. A. Ernest or anyone worry about the corruption in the Laws of this country? We repeatedly stated that no Constitutional Government Law can stop the sale of a Patented Apparatus like the Spectro-Chrome and its transportation in Interstate Commerce. Just forget about Laws and their "graft" and place a Spectro-Chrome—In Every Home. **When that happens, we shall be making the Laws!** And then? We shall set an example for Integrity, Public Service and Truth. Look forward to the Future.

FIRST MILWAUKEE WISCONSIN PLANET

Meeting Of Thursday, July 4, 1935
(Hotel Wisconsin, Milwaukee, Wisconsin.)

Bedridden Woman Walked By Spectro-Chrome

Reported By:—CAROLINE ZIMMERLING, Recorder.

The meeting was opened by Otto H. Lutz, Deputy.

A letter from the Board Of Trustees of the Scientific Order Of Spectro-Chrome Metrists, concerning matters pertaining to the meetings of the Planet and discussions at the meetings, was read by the Recorder.

E. A. Ernest and Otto H. Lutz informed the meeting that in the future discussions of various Disorders will again take place in the meetings as previously. This practice was stopped for the past two meetings due to a misunderstanding. In these discussions, Spectro-Chrome Normalators, as well as other Affiliates present will have a voice. It was also stated that the people must still get their Advice from Spectro-Chrome Institute, but, may come to the meetings for discussions.

E. A. Ernest reported a case of a woman, who was bedridden. Her husband asked for Guidance from Spectro-Chrome Institute and until it came read the Instructions from Spectro-Chrome Home Guide. The woman acted accordingly. With five weeks use of Spectro-Chrome, she was walking around the bed without assistance.

There were no other reports. The meeting was cut short because of scanty attendance due to the day being a holiday.

The Affiliates were clamoring to have us hire a larger meeting room. We know better! The time is not yet ripe for increasing expenses.

Why The Mogen David Sign?

All matter printed under an article marked by the above Diagram, indicate comments by the Editor.

This applies to all our issues of Spectro-Chrome. That Grand Sign represents the views of the Editor on any subject below which it is printed.

FIRST DETROIT MICHIGAN PLANET**Meeting Of June 6, 1935.**

(Hotel Tuller, Detroit, Michigan)

Spectro-Chrome Successfully Used In:—Black Eye, Earache, Appendicitis and other Disorders.*Reported By:—JESSIE E. NESS,**First Vice-President, Scientific Order Of Spectro-Chrome Metrists*

John J. W. reported that his boy, of 6, was knocked down by an automobile and his Eyes were completely closed thereby. Indigo enabled the boy to sleep and later Magenta reduced the Swelling. Two Tonations of Scarlet raised the Kardoscil from 72 to 94. The Sufferer is now progressing toward complete recovery.

Martha S. quoted a case of a Black Eye received accidentally. Two Tonations of Blue, followed by Turquoise, improved the condition.

Ervin B. cited the case of his small son, who had Earache, with Fever. Turquoise was used and the Disorder was eliminated in a short time.

Otto H. submitted a favorable report on the case of the young boy already mentioned in prior Planet Meetings. Continued improvement is very noticeable, credit being due solely to Spectro-Chrome.

Albert Greenham mentioned a case of suspected Appendicitis; five Tonations were given in 1 week. After the third, the Pain was gone. Turquoise relieved the accompanying inflammatory condition. The Spiroscil being low, Orange was irradiated and Normalation followed.

Walter H. gave a report of a case of Paralysis of the lower limbs. Since Spectro-Chrome is being used, the Sufferer, a young lad, dreams of playing baseball and running the bases! He even slams out home runs in his dreams. He never sees himself unable to walk or run. Surely, coming events cast their shadows before.

Stella H. praised Spectro-Chrome as producer of wonderful results in sickness, particularizing one of a woman who was very sick, but, who gained 10 pounds in weight and is progressing very nicely.

Edwin L. stated that in trying to purchase a Radiometer at the store of a Detroit Optometrist, he learnt that the gentleman in question kept it in the window to attract passers-by to the other

articles on display. He characterized the merchant as a "Fathead". A Dentist whom he visited admitted he was scared to use the X-Rays in his business and stood as far away from the machine as possible. Another "Fathead"!

The desire for Advice as to the correct Attuned Color Waves to be used in certain Disorders was evident from the questions asked by some of those present. Jessie E. Ness referred them to the Spectro-Chrome Home Guide, supplied free with each Equipment. She also extolled the simplicity of Spectro-Chrome Metry as exemplified in the Infra-Green and Ultra-Green System and recommended all to purchase the Spectro-Chrome Metry Encyclopaedia. The happy possessor of this great work, plus a Spectro-Chrome Equipment, she declared, had no need ever to call a Medical Doctor in time of sickness.

Optometrists are using Spectro-Chrome now! Later, they will all use it for various Eye Disorders. Dentists also are falling in line. They will ALL fall in line, including the Medical Doctors, when the public demand comes from all sides. Time will do its work.

The suggestions of Jessie E. Ness were sensible, but, the main trouble is to MAKE the owner of the Spectro-Chrome Home Guide or the Spectro-Chrome Metry Encyclopaedia read and utilize it. Many who are owners of both, still ask questions which are already explained therein. Water may be brought to the horse, but, how can he be made to imbibe it?

Greeta O. Peck of Sandwich, Ontario, Canada, was appointed to officiate as the Deputy of the First Detroit Michigan Planet, for the current year. Your kind co:operation is requested.

MEDICAL IGNORANCE

Elizabeth Riley, a woman of 37, was taking a Sunbath, in Atlantic City, on the third floor of a house, in 920 Pacific and fell off. Medical Doctors stated that Sunbaths frequently caused "Dizziness". Why? What is the reason? A short study of the Ultra-Violet Rays of the Sun will indicate clearly the havoc created on the Human Body, by indiscriminate exposure to those destructive radiations. The Chapter 65, Page 657, of the Volume 2, Spectro-Chrome Metry Encyclopaedia, on Dangers Of X-Rays And Radium, will be an eye-opener to these so-called learned professionals if they would but leave their egotistical attitude of know-all and study Spectro-Chrome. All their medical acquisition of 6,000 years is condensed in 1,200 pages therein and completely exploded.

MEDICAL DOCTOR PUZZLED BY SPECTRO-CHROME

By:—MARIA I., *Oconomowoc, Wisconsin.*

Spectro-Chrome used with success in Arthritis and Heart Disorder.

I come in contact with cases too numerous to mention. Paula G., of Watertown, Wisconsin, is a good example. Suffering from Arthritis for over 7 years, this girl of 18, terribly retarded in growth, legs rigid, with knees unable to bend, mentally depressed, has progressed wonderfully under the Advice of Spectro-Chrome Institute. Relaxed under the first Tonation of Green, after second day woke up only once or twice at night, which at other times had mounted to 10 or 12. After second week, completely without pain, natural Bowel Movements, mental attitude entirely changed. After 2 months able to kick legs and later able to cross legs at knees. Had severe reaction which brought back Menstruation which had totally stopped. Parents very happy at progress being made.

Ben S. also of the same town, had such severe Heart trouble that his Medical Doctor advised his wife to be prepared for his death at any time. He just followed the Spectro-Chrome Home Guide, Infra-Green Division with plenty of Magenta. After 3½ weeks, he felt so well that he went to his Medical Doctor for an examination. His Heart being pronounced perfect, the Medical Doctor was very puzzled. He knows by now what did it. Believe it or not, but this man claims he never took one Tonation, according to the Favorscope, as he is out on business at all hours! Spectro-Chrome must be good!!!

It is absolutely the last word in Healing Science.—E. P.

SALESMAN HAS STRING OF SUCCESS

User says, "I will not sell my Equipment for \$1,000.00."

By:—WALTER S., *Milwaukee, Wisconsin.*

The following are some people to whom I sold Equipments and who had remarkable results:—

Anna B. has a 9 year old girl, who could not speak and was feebleminded. She had marvelous results.

Frank S. had Heart trouble and is much improved.

Victor H. had Kidney trouble and would now never part with his Equipment.

Andrew K. had Arthritis and in 8 weeks all pain was gone and has never pothered since.

Mrs. J. H. had a Hemorrhage; normalated in 6 weeks and not troubled since.

Theo. W. had Constipation and a pain in his side and is well satisfied with his Equipment.

Paul K. had Hay Fever, Ringing in Ears, Headaches. His wife could not taste or smell; had a pain in the right side. Both are well satisfied and would not sell their Equipment for \$1,000.00.

Marie Z. had Diabetes, which was normalated in 2 months.

R. M. had Constipation, High Blood Pressure, Heart Disorder. Is well satisfied; had wonderful results.

Delida N. had an open leg which healed and a girl had a Stroke which was normalated in 7 weeks. Well satisfied.

I also loaned my Equipment to many people who could not afford to buy one at the present time and all had the most marvelous results.

My views of Spectro-Chrome Metry are that it can not and never will be surpassed as a Healing Art.—E. P.

SUMMER

By:—ROSE FERRARA

Summer has come sings the Robin,
As he swings from the treetop on high,
The Bluebird joins in the chorus,
While the Wren wings her way to the sky.

The Rose whispers joy to the Lily,
As the breeze gently bends low her head,
Daisies gaily dance in the Sunshine
And Pansies gently sway in their beds.

Ah! Yes, it is a pleasant season,
Overflowing with laughter and song,
Sunshine and blue skies above us
And below, blue streams flowing along.

RUNNING EAR NORMALATED BY SPECTRO-CHROME

By:—D. E. O., Glassboro, New Jersey

I am writing this letter just to show my appreciation for "Spectro-Chrome", as my baby girl had a running ear after she had the measles. We used drops and did everything else possible, but she did not get any relief.

One night a woman informed me of "Spectro-Chrome" treatment and of course like any one will try anything to give the child relief. After a few treatments the ear had stopped running and the baby was getting along finely. She has picked up wonderfully since then.

I also took my other little girl who had a "bronchial cold" and after three treatments she was well.

I cannot praise "Spectro-Chrome" too highly and hope other Sufferers will learn of its value.

SPECTRO-CHROME ON SPRAINED ANKLE

A Letter To A Spectro-Chrome Normalator

By:—EVA J., Swedesboro, New Jersey

I know you have been expecting me to return for more Color on my Ankle but the one treatment helped me so much I did not need another.

As you know, I sprained my ankle so badly I could not put my foot on the floor and was almost carried to your Machine. After an hour of Color the pain was much better and on my way home I stopped at my brother-in-law's for a pair of crutches and he promised to bring them to me next morning.

When I stepped out of the car, I found I could walk on my heel and by supper time I was able to walk with the help of a cane.

When the crutches arrived the next morning, I was doing the washing and never used them except to lean on while hanging up the clothes.

People told me I would not be able to walk for a week or more, but thanks to Spectro-Chrome I was only off my feet less than a day. I have not taken Medicine for twelve years, because Spectro-Chrome always hits the right place.

My prayer is that Spectro-Chrome machines will soon be as numerous as radios.

SPECTRO-CHROME NORMALATED TONSILITIS

By:—VIOLA S., Sicklerville, New Jersey

Ever since I was about five years old I have been a victim of Tonsilitis; the last year each attack became worse. I had tried Medical Doctors and other remedies that friends might suggest, all of which gave me relief in time.

A friend of mine knew of these attacks and suggested Spectro-Chrome to me. I went for a treatment during the worst of one of these turns and received relief after an hour. It took the swelling out of my glands and made it possible for me to go to work the next day. Previous to this I had always had to miss a week or more. Thanks to Spectro-Chrome.

SPECTRO-CHROME REMOVED SEVERE PAIN

By:—NATELI V., Monroeville, New Jersey

Sunday I was stricken with a Toothache. I did not sleep a wink that night. I went to the Dentist to have it extracted (it was only a root) but he said it was not in the condition to be taken out, because it was inflamed and abscessed. He said to use Polaris Plasters on it; well I got through that night quite well.

The next day I got it taken out. He didn't hurt me at all, but he forgot to mention what trouble would be ahead. He said to use a plaster on it immediately. I had to have hot water, so I went to Mrs. J——. I did not realize it would pain. By the time I reached Mrs. J—— I was pretty well fed up with pain.

She asked me to take the Colors, so I did not refuse. By this time the Novocaine had left me and I was paining Hail Columbia.

Within an hour and a quarter I was relieved of that awful pain. Boy, I certainly am thankful to Spectro-Chrome, because if it had not been for Spectro-Chrome I would have gone out of my mind!

I believe I could have taken a boxful of Aspirin tablets but still it would do no good.

Thanks to Spectro-Chrome.

FIRST DETROIT MICHIGAN PLANET

Meeting Of Thursday, July 4, 1935

(Hotel Tuller, Detroit, Michigan)

Canadian Medical Doctor said:—“Either operate at once or Appendix would rupture.”

Spectro-Chrome Normalated Appendix Disorder Without Operation!

Reported By:—GREETA O. PECK, Deputy

Jessie E. Ness installed Greeta O. Peck as Deputy.

The new Deputy stressed the importance of remembering the purpose of the Planet Meetings, which is the *study* of Spectro-Chrome Metry. It was resolved that a portion of the Third Volume of the Spectro-Chrome Metry Encyclopaedia be read and studied at each Meeting. Thomas Ness consented to begin with the August meeting.

Jessie Ness brought greetings from S., who is improving wonderfully under Spectro-Chrome. He is now able to turn on his side, use the telephone and has no pain.

Thomas Ness reported the case of a young man who came for Tonation for Sunburn. He was actually scorched. Three Tonations of Turquoise were required—although he was disappointed the first one was not sufficient!

Erwin B. reported that the boy who was hit by the car was normalated and was quite himself again. He was also relieved of Sunburn by Turquoise. Yellow was now used for Constipation.

Jessie Ness spoke of the great importance of following the Rational Food Of Man System as given by Dinshah, even to the use of the various ingredients for their influence on the Chemistry of the Body.

Greeta O. Peck then told of the case of H. P., a woman of 75, who was ordered to the Hospital for an operation for Appendicitis. The Medical Doctor said the Appendix might rupture before morning and it would be serious if it did. Kardoscil was 120, Spirosdil 30. The case was taken out of the Doctor's hands and Spectro-Chrome was used exclusively. Turquoise gave relief within a half hour. Within a few hours, the pain which had been intense, was completely gone. There had been pain and soreness over a large portion of Areas 9 and 10, extending through to Area 19. Some soreness still remained, but, it was confined to a small Area on the Right side of 9 and 10. After five days, Indigo was irradiated on Areas 9 and 10, alternated with Yellow on 18 and 19, with an occasional Magenta on Area 4, as advised by Spectro-Chrome Institute. For the first five days, no food was given; a little water to moisten the lips was given for the first two days and after that all the water that the Sufferer wanted. For the next ten days, nothing but milk food and Limbupani (Lemonade) was given; then, the Rational Food Of Man. The Sufferer improved steadily and not only the so-called "Appendicitis", but several other ailments responded simultaneously to Spectro-Chrome and the Sufferer is better than she has been in a long time.

DEATH OF THOMAS NESS, S. C. N.

Thomas Ness, Spectro-Chrome Normalator, of Detroit, Michigan, while marching in Windsor, Ontario, Canada, in the Orange Parade on Friday, July 12, 1935, collapsed near Erie Street on Ouelette Avenue and was dead when carried into the Hotel Dieu.

Dr. J. M. Young made an examination and pronounced death due to "Heart Failure". No inquest was held.

Thomas Ness was a loyal Spectro-Chrome supporter, born at Kirkaldy, Scotland. He came to this country about 20 years ago. He is survived by a widow Jessie, a son Thomas and two daughters Betty and Deanne, all of whom are Graduates of Spectro-Chrome Institute.

SPECIAL ANNOUNCEMENTS

ERNEST EXCLUSIVE DISTRIBUTORSHIP TERMINATED

You May Earn \$15.00 On Each Spectro-Chrome Sale

For the quick expansion of the Distribution of Spectro-Chrome, by mutual understanding between Spectro-Chrome Institute and Ernest Distributing Company of 3106 North Hackett Avenue, Milwaukee, Wisconsin, the Agreement as Exclusive Distributor For The United States Of America, was terminated on Monday, July 22, 1935.

From that date, Ernest Distributing Company will act as Sole Agent For The State Of Wisconsin only. All other States outside of Wisconsin, will be under the DIRECT SUPERVISION AND CONTROL of Spectro-Chrome Institute.

Until the proper distribution policies for other States be formulated, Spectro-Chrome Institute will pay \$15.00, to any Registered Purchaser of a Spectro-Chrome, who is a Member or Provisional Member of the Scientific Order Of Spectro-Chrome Metrists, who will place a Spectro-Chrome in a home, in any State outside of Wisconsin. This commission sale rule will apply to all Registered Purchasers in good standing. They must send the full price and the commission will be mailed to them promptly.

Here is YOUR OPPORTUNITY to earn \$15.00 on an article of established and proven value. Here is YOUR OPPORTUNITY also for becoming Sole Agent For A State.

Spectro-Chrome—In Every Home, MUST become a reality; the tentacles of the Medical Octopus must be broken. THE MEDICAL DOCTOR MUST LEAVE OUR HOMES. Here is THE OPPORTUNITY.
