GOOD NEWS FOR THE SICK!

VITAL MESSAGE TO THE SUFFERING!!!

An Exceptional Opportunity To Hear An Eloquent Orator

INTERESTING, ENTERTAINING, INSTRUCTIVE

TEN FREE PUBLIC LECTURES

**By Colonel Dinshah, The Originator Of The Marvelous
Spectro-Chrome Metry**

**That gives Near-Miraculous Results In The Conquering Of Human
Disorders, Many Declared "Hopeless And Incurable"
According To Other Methods.**

You are cordially invited to attend the sequence of Health Lectures, in the **Ball Room** of the **Hotel Tuller, Park and Adams, Detroit, Michigan, as our guest, without incurring any obligation.**

You will have exceptionally enlightening instruction in the Normalation of Persistent Disorders, such as Tuberculosis, Cancer, Diabetes, Syphilis, Paralysis, Fevers, Arthritis, Inflammations and other scourges of humanity, for which other Healing Systems can do very little. The actual facts will startle you. The Originator of Spectro-Chrome Metry, will help you from the platform to help yourself, in solving your personal problems. Do not miss this opportunity; it is worth any inconvenience to hear the Originator, who is a recognized Researcher and noted Academician.

The name of Colonel Dinshah P. Ghadiali, Ex-Commander, New York Police Reserve Air Service, is well known as an independent, fearless orator. He is the holder of numerous Honorary Degrees and Diplomas conferred on him; he was the first in 1896 to speak on the X-Rays in New York and has to his credit numerous revolutionizing inventions including the **Photokinephone**, the forerunner of the modern Electric Talking Motion Picture Machine. His scientific erudition and astonishing grip of the most difficult and delicate subjects, have for the past 46 years been receiving unequivocal recognition. His eloquence and logic are unique and his methods of presentation extremely convincing and gratifying. His hearers are spellbound with the force of Truth and his denunciation of pseudo-scientific humbugs never fails to rivet attention.

COMPLETE PROGRAM

Sunday, October 4, 1936—2 P. M. to 5 P. M.

LECTURE 1—Rainbow Message Decoded; Conception, Development And Perfection Of The Science Of Spectro-Chrome Metry.

Sunday, October 4, 1936—8 P. M. to 11 P. M.

LECTURE 2—Attainment Of Automatic Precision In Healing; Scientific Fundamentals Of Spectro-Chrome Metry.

Monday, October 5, 1936—2 P. M. to 5 P. M.

LECTURE 3—Digging Our Graves With The Teeth; Rational Food Of Man In Spectro-Chrome Metry.

Monday, October 5, 1936—8 P. M. to 11 P. M.

LECTURE 4—Immutable Laws Of Karma And Reincarnation; Their Government Of Health As Demonstrated In Spectro-Chrome Metry.

Tuesday, October 6, 1936—2 P. M. to 5 P. M.

LECTURE 5—Construction And Destruction In The Human Body; Marvelous Controlling Potency Of Spectro-Chrome.

Tuesday, October 6, 1936—8 P. M. to 11 P. M.

LECTURE 6—Spectro-Chrome In The Home; Case Reports And Experiences With Spectro-Chrome.

Wednesday, October 7, 1936—2 P. M. to 5 P. M.

LECTURE 7—Health Impairment By Wrong Habits; Their Possible Mutation By Spectro-Chrome.

Wednesday, October 7, 1936—8 P. M. to 11 P. M.

LECTURE 8—Sex Problems; Their Complex Character Solved By Spectro-Chrome.

Thursday, October 8, 1936—2 P. M. to 5 P. M.

LECTURE 9—Sun, Moon And Earth; Their Unrecognized Influence On Humans Unraveled By Spectro-Chrome Metry.

Thursday, October 8, 1936—8 P. M. to 11 P. M.

LECTURE 10—Service To Suffering Mankind; Its Fulfillment By Spectro-Chrome.

AN AMAZING FACT

Learn How To Plug Your Health From The Electric Light Socket!!!

Spectro-Chrome is not a mere Patented Apparatus, but, a complete System Of Healing for Self-Help and Self-Use; its value and merits have stood the rigid tests of over 16 years, even in Law Courts.

Classed in the same rank of utility as the Telegraph, Telephone, Radio and similar revolutionizing inventions, Spectro-Chrome scattered all prior conceptions and set a new pace in Healing by its Automatic Precision and unparalleled simplicity.

All Lectures Are Free To The Public

The subject matter of the Lectures will be illustrated with the Stereopticon and Scientific Experiments for elucidation. The Lectures will be an "intellectual banquet" never to be forgotten and will open the eyes to numerous problems affecting human life and welfare.

NOTICE TO THE PUBLIC

We distinctly desire the Public to understand that:—

- (a) **NO SMOKING WILL BE ALLOWED.**
- (b) Writing any part of speeches, discussions or any transactions at any time of the Lectures is *positively forbidden* and any person endeavoring to do so, will be promptly expelled.
- (c) Questions will be permitted after each Discourse, if pertinent to the subject of the Lecture.
- (d) Colonel Dinshah IS NOT IN THE PRACTICE OF MEDICINE, CONDUCTS NO CLINICS, GIVES NO PERSONAL CONSULTATIONS AND ACCEPTS NO GIFT, PRESENT, CONTRIBUTION, FEE, DONATION, COMPENSATION, TIP, GRATUITY, INDUCEMENT OR TOKEN, OF ANY KIND WHATEVER, FROM ANY PERSON, DIRECTLY OR INDIRECTLY. He is glad to serve Suffering Mankind through the fruits of his laborious researches.
- (e) We reserve the absolute right of refusing admission to or removing from the premises any person, thought undesirable by us, without giving any reason. **EXPULSED AFFILIATES WILL NOT BE ADMITTED TO ANY LECTURE.**

Ten Free Public Lectures By Colonel Dinshah On
SPECTRO-CHROME METRY

Ball Room, Hotel Tuller, Detroit, Michigan

Sunday, OCTOBER 4, 1936 To Thursday OCTOBER 8, 1936.

SUGAR IN DIABETES A JOKE

What fear the Medical Doctors infused in the mind of the public and how successfully Spectro-Chrome exploded that nonsense of Sugar in Diabetes, may well be gathered from the following, which comes from an intelligent Purchaser who followed our Free Guidance. He says:—

“I have had Sugar Diabetes for about 15 years and I will say I am feeling fine but, I still have Sugar; the Railroad Doctor requires me to report to him once a month for a Urinal Test and if I have Sugar he will not let me work till I am Sugar free, so I have to go on a ‘strict diet’ for two to four days before I report to him; I can test myself for Sugar so I do not go to him till I am free.”

Among other matters we wrote to him in the Free Guidance:—

“The report sent by you was duly read by our President Colonel Dinshah and he had a big laugh about it at your attitude toward your Railroad Doctor. Passing of Sugar in the Urine happens to all heavy mental workers, many pregnant women, persons with financial worries and the like and in our work we exploded the idea that passing Sugar is Diabetes. In this connection, if you study SPECTRO-CHROME METRY ENCYCLOPAEDIA, Chapter 92, Page 975 of the Third Volume, you will find the whole medical humbug fully exposed.

“You continue with Spectro-Chrome as you have been diligently doing and you will live yet long to bless Spectro-Chrome.

“You really need to eat Sugar instead of abstaining from it and it would not be a bad idea to test out the hollowness of medical work by taking to your Railroad Physician a bottle of Cow’s Urine (or your wife’s Urine) than your own, so he may have his fill of the test.”

In some hospitals, they started to use our teachings and feed Sugar, without crediting the Originator. It will not be long before the Sufferers will revolt against the Insulin frauds.

HOME LIFE IN MICHIGAN

A girl of 11, Mildred Saddison, of Sturgis, Michigan, was missed 4 days when the Police finally found her in her dog kennel living with 6 puppies. She said she preferred living in the doghouse, to drudgery in housework. What degradation has housework that so many girls and women shun it? What will life be without a house?

Michigan is not a pauper state by any means; will its educators investigate the true cause of what this girl insinuated? Perhaps the educators need education themselves to cope with the sources of social evil, because of orthodox wrong conceptions or ultra-ancient methods in dealing with modernism. The nut is loose somewhere in civilization.

SPECTRO-CHROME SMILES

Viewpoint—"Is one donation a day enough or shall I take two donations?"

Smile—"It depends upon what kind of politician you are."

Viewpoint—"I purposely became pregnant to give a sister to my boy."

Smile—"Good idea, but that should not have been your worry, as he would probably take somebody else's sister later anyway."

Viewpoint—"My son brought me a lovely roach from a fishing trip, but I would not break your rules so presented it to a neighbor."

Smile—"Let the neighbor get the Itch; you deserve commendation."

Viewpoint—"Full history of the case is as follows:—Married at 24."

Smile—"Spectro-Chrome Institute is not a Divorce Court."

Viewpoint—"My heart seems to bubble and gurgle."

Smile—"There must be some soap in it."

Viewpoint—"We desire to have a baby and preferably 'Twins', what will you advise?"

Smile—"Mother of the Dionne family will be more suitable for multiple birth advice; we had six, but one at a time."

Viewpoint—"His breeding is short when he walks."

Smile—"What does he breed?"

Viewpoint—"My appendix was removed and repaired outside."

Smile—"Let us know the name and address of the Doctor who replaced it."

Viewpoint—"Have been married two months, but did not reach climax."

Smile—"You are looking for quick results in a usually unwanted direction."

Viewpoint—"I am a rabid stenographer."

Smile—"Green Systemic will remove the danger of Hydrophobia."

Viewpoint—"In my field, corn grows 14 feet high in Vineland, New Jersey."

Smile—"Congratulations for the active Pituitary Gland in your dead hogs."

FIRST CLEVELAND OHIO PLANET

(HOTEL HOLLENDEN, CLEVELAND, OHIO)

Meeting Of Thursday, August 6, 1936

Reported By:— FRED E. OSBORNE, Recorder

The first order of business was the installation of Officers by Bessie A. Hasenau, Third Trustee of the Scientific Order of Spectro-Chrome Metrists.

William J. Hasenau was affirmed as the Deputy and Fred E. Osborne as the Recorder. Then John H. Winchester was recommended to the Board Of Trustees as Sub-Deputy.

The meeting was opened by the Deputy for suggestions or questions on the cases for Tonation to relieve suffering mankind by the use of Spectro-Chrome; also the proper food to eat to attain best results.

Alice K. asked the question, "In the Tonation of the Sufferer with the Spectro-Chrome, should the Sufferer lie down or should they sit?" In the discussion, the fact was brought out there is more comfort in lying down than sitting up because the Body is relaxed.

The question was asked to explain the Itisometer. This question by John W. was answered by Bessie H. giving an invitation to the Affiliates to come and see her Equipment.

"Are there any people who live wholly on a vegetable diet?" Asked by Felix M. Yes, there are many who do; the doing away with meat can be accomplished by the use of dry Peas or Lima or Navy Beans as a replacement food.

"What about the value of foods?" Eat the kind of food which is to produce the proper chemistry in the Body. The Ratioanl Food Of Man, Nuts, Fruits, Vegetables. Omit White Sugar, White Flour, Tobacco, Intoxicants, Tea, Coffee, Drugs, Eggs, Fish.

Nettie B. asked the question, "Would the Lemon Attuned Color Wave be good for Circulation in a broken foot? Magenta is used for the Circulation; Lemon to clear the condition after the recent (acute) stage is over. For the recent stage use Turquoise or Blue.

More questions were asked by John W. "Is there any harm in sleeping on the face? Should one sleep on the side or the back? What about the Rockefeller Institute where it was proven that one turns from side to side in sleeping?" Tonations are given with the Sufferer lying on the side. Most people sleep on the side, few on the Stomach or Back.

EDITORIAL

REMARKS

You made a good beginning. Continue the educational work. Fol-

low the report routine of other Planets. The meeting should last at least 2 hours to be of benefit. Each session, have some volunteer to read a Chapter from Spectro-Chrome Metry Encyclopaedia. Discuss on the theme. Give your own experiences. Exchange views thereon. Thus, you will serve the good interests of the Order and exemplify the Objects.

FATAL ERROR

By:—BEATRICE K., Kansasville, Wisconsin.

“We bought a Spectro-Chrome machine a year ago last August. If we had known of the machine sooner, I’m sure it would have cured my husband, but, at the time we purchased the machine, he had a case of far advanced Tuberculosis. He passed away July 28, ’36, but one thing I’m sure of Spectro-Chrome sure prolonged his life.”

Life and Death are transitions in the Laws of Evolution and Spectro-Chrome can not give eternal life, but, the above echo of the harassed mind of a good woman, who had she known about Spectro-Chrome before, would have succeeded in normalating her husband and assuredly he would have lived through his Disorder.

Spectro-Chrome is not only a powerful normalator, but, is the greatest preventative of any method of Healing. The confidence engendered in the mind, by having a Spectro-Chrome in the home, can solely be appreciated by one who used it successfully and saw it bringing the most refractory and hopeless conditions to normalcy.

In San Francisco, California, The San Francisco Daily News, in its issue of Saturday, March 22, 1924, in giving a two column description of Spectro-Chrome, called the apparatus, “The Modern Alladin’s Lamp” and styled the Originator as the “Rainbow Doctor”. Little did the writer of that article think then, that the “Rainbow” will actually be used successfully in homes in cases where even the Medical Doctors failed to accomplish anything.

The Sacred Message of the Rainbow, mentioned in the Holy Bible by which the Almighty God made a Covenant with man, is actually decoded in Spectro-Chrome, which is bringing in homes health and happiness by relieving them from the life-long clutches of the terrible Medical Octopus. It was predicted in Genesis Chapter 9, verses 8 to 17. No power of the Earth can stop Spectro-Chrome, for it is the realization of His glory and His majesty.

MALAGA INVADED

The six sons ran with blanched faces to the father roaring “The Fascists invaded Malaga! What shall we do? Shall we fly to India?”

The father calmly read the morning paper; it was true, but that was Malaga, Spain. Spectro-Chrome Malaga has Italians, but, they are peaceful farmers minding their own business as neutral Americans should. So the boys went back to study and the father to more work.

FIRST DETROIT MICHIGAN PLANET

(HOTEL TULLER, DETROIT, MICHIGAN)

Meeting Of Thursday, August 16, 1936

Successful Use Of Spectro-Chrome In:—Diabetes, Fever, Horse Kick On Face, Rapid Heart, Loss Of Vitality.

Reported By:—GREETA O. PECK, Deputy.

Sub-Deputy Stella Harter was in the chair.

Sara C. said her mother is getting along well.

Leslie N. suggested the Rational Food Of Man is one of the main things. Also told of a Diabetes case, that is coming along well.

G. told about his 2 year old boy, who had Fever; Kardoscil 122, Spiroscil 27. One Tonation of Blue and 2 Yellow normalated.

Edwin L. told of a Sufferer being troubled with gas; the Doctor gave her "Color Light" treatments.

Selma V. had experience of her son being kicked on the face by a horse, used Turquoise Local, Green front and Magenta on Area 18 for 2 days. A week later he seemed to fail and lost ambition, his Kardoscil 42, Spiroscil 13; had 3 Tonations of Scarlet on Area 4 and was normalated; went back to work in two weeks.

Stella H. told of a woman having a rapid heart; she tonated with Green; her Kardoscil was 96 and went up to 110. Also a man having Diabetes used 2 Green and 1 Magenta; lost 5 lbs. in 3½ days; followed with Yellow and is holding his own.

Jessie N. stated to follow Colonel Dinshah's advice and he also says the system will only pick up the Attuned Color Wave that is needed. The mental attitude helps a good deal; also told of a young girl who had lost vitality through hard study. She was normalated with 5 Tonations of Green and Magenta.

Robert S. asked if he could use 2 different Color Waves on Front and Back the same time? For instance, he is using 1 Blue on Front and 1 Turquoise on Back.

EDITORIAL

REMARKS

Please, always send the names of the Affiliates at each meeting.

Medical Doctors are using many types of so-called "Color Lamps", which though they are "color", have no Science or Automatic precision in them. Many are sheer imitations and intended for restricted use in some Disorder according to some medical "diagnosis". However, in time even their efforts will indirectly help our cause, though in many cases their quackery and empiricism is blamed on our work.

by public ignorance. Be on the sharp lookout for such.

Food and Spectro-Chrome work hand in hand. Mental attitude too influences the Normalation.

With two Equipments, Front and Back Tonations may be simultaneously irradiated. We shall supply such compound Spectro-Chromes when a sufficient demand is created.

KNOCK! KNOCK! WHO?

Milwaukee, Wisconsin.

Spectro-Chrome Institute,
Malaga, New Jersey.

Gentlemen:

The writer just thought up a good "Knock! Knock!" for your Spectro-Chrome Smiles. One hears so much of this knock knock business over the radio and otherwise that I got busy on one myself, namely:—

Knock! Knock!

Who's there?

Dinshah!

Dinshah who?

Dinshah (din'tcha) know that Spectro-Chrome is the way to health?

Cordially yours,

Alfred Z.

P. S. I am enjoying the best of health. At present I am tonating a cousin of mine who lost sight of her right eye a few weeks ago. The doctors informed her that they fear the other eye will also be affected. Spectro-Chrome for one week has made it possible for her to distinguish objects faintly already. I am confident she will be O. K. very soon.

Alfred Z.

EDITORIAL

REMARKS

Thank you for your kind interest. Your cousin will surely be benefited if she follows our Free Guidance. However your "Knock! Knock!" started us on the warpath too. Here is ours:—

Knock! Knock!

Who's there?

Dinshah!

Dinshah who?

Dinshah know who knocked the bottom of the Medical Trust?

FULL MOON AND EYES

Robert Ripley in "Believe It Or Not" of August 6, 1936 issue of The Evening Bulletin of Philadelphia, Pennsylvania states that George M. Curry of the Pittsburgh Symphony Orchestra has Blue eyes which turn Brown when the Moon is full. It seems the scientific mind is slowly coming to the way of thinking emphasized in the Spectro-Chrome Favorscope. It is NOT a fad, fancy or whim—Spectro-Chrome is a grim reality whose axioms and postulates destroy known conceptions of what till now was named "science".

DANGER SIGNAL IN SCHOOL

An examination was made in a certain American school, of the physical condition of the children. Here is the analysis:—

Condition	Per Cent.
Defective Teeth	92
Tonsil Trouble (removal advised)	37
Tonsil Trouble (already removed)	28
Tonsil Trouble (not seriously affected)	35
Evidence of Rickets	8
Poor Posture	87

The tragedy lies in mal-nutrition. Carnivorous food, tobacco, alcohol and the use of dopes and drugs are causing havoc in these days of heavy strain and forced mentality. Spectro-Chrome Metry points to the correct way for health. The school directors should aim at clean, nutritious food and cleaner habits.

MILWAUKEE WISCONSIN HAS INFLUENZA

Some children died in Milwaukee, Wisconsin, of so-called "Influenza."

As usual, the Medical Doctors grabbed the opportunity and laid the blame on cats and contacts. Dr. John P. Koehler, the Health Commissioner disagreed with many views, but urged the parents to call Medical Doctors at once to avoid the spread of the "Infection".

The whole theory and practice of Medicine is plain Bosh. The fear implanted in the mind of the public creates more havoc than otherwise. If the Children's Hospital and Isolation Hospitals will install some Spectro-Chromes, there will be no epidemics. We are willing and ready to give them FREE.

Turquoise Systemic will do the work with Magenta on Area 4.

FIRST ST. LOUIS MISSOURI PLANET

(HOTEL MELBOURNE, ST. LOUIS, MISSOURI)

Meeting Of Thursday, August 6, 1936**Successful Use Of Spectro-Chrome In:—Skin Disorder, Boil.***Reported By:—CHARLES H. STIERMANN, Recorder*

Recorder Charles H. Steirmann was in the chair.

A letter from Scientific Order Of Spectro-Chrome Metrists read announcing the "Silver Jubilee" to be held in Detroit, Michigan under dates of August 14, 15, 16, 1936. Circulars were received covering program in detail; they were distributed to those present for attention and information.

William D. again reported the case of a Sufferer with sore on leg that opens and closes. This was reported last meeting. The Sore had again healed, but as it comes and goes in cycles and wishing to bring it to a complete Normalation, Orange was used to open, but failed. He then used Green and sore opened again. After opening, he used Orange Local and Lemon Systemic. This case is of several years standing and William D. is aiming for complete drainage before attempting to seal with Indigo.

A question arose about arthritic and rheumatic conditions and how to tonate. Charles S. said these were Persistent Disorders and not of recent origin. Lemon Systemic and as warmth usually was soothing to affected Areas, the warmth Color Wave Red might be used locally.

William D. asked how long should one tonate after Normalation had been effected in maintaining a normal condition and balance.

John M. reported the case of his wife brought to the attention of the meeting some two or three meetings ago. The Sufferer was pothered with Blisters on upper arm and a few on lower arm. They were of five or six years' standing and most annoying in hot weather and dreadfully itchy. These blisters broke from time to time and exuded a sticky fluid. Skin specialists failed completely in this case. Now; the past two months, approximately though passing through the most heated term of Summer, at which time it was always at its worst, there has been no further trouble and seems to be perfectly normalated. Two Tonations a day were taken, Lemon Systemic and Blue Local.

Joseph H. said that when he had the Boil on his elbow reported

two months ago, he used Yellow as well as Orange and found it a great help as a drawing agent.

William D. said we were about to enter the Hay Fever season and for the benefit of Members it might be well to suggest what Color Wave to use to tonate. Charles S. suggested inasmuch as Hay Fever from its recurrence was persistent in nature, Lemon Systemic and Turquoise Local be used. It was also suggested to look to the Area 4 condition and use Magenta.

Thomas S. sought information on taking Kardoscil and Spiroscil. A brief session was held in showing how this was done, the time of count being figured on a one minute basis. It seems there is some difficulty regarding this matter and the time is well spent in elucidation to Affiliates.

Some little discussion was held on charging of water by the At-tuned Color Waves and benefits to be obtained by such practice. Colonel Dinshah has such Equipment and speaks of its merits in Spectro-Chrome Home Guide.

EDITORIAL

REMARKS

William D. is now on the right track, but the conditions of food and abstention from tobacco smoke and the like **MUST** be observed to gauge duly the value of Spectro-Chrome. We do not believe in patch work, but in eradication.

Arthritis simply means "Joint Inflammation". Apply to it the same principle as in any other Inflammation. Rheumatism also is in the same category. It is an "Inflammatory Fever". The same rules of Rubor, Calor, Tumor, Dolor apply. Refer to Spectro-Chrome Metry Encyclopaedia, Volume 2, Chapters 54, 55, 56, 57.

Many so-called cases of "Hay Fever" arise from floor rugs, feather pillows, furs and fly screens.

For method of measuring Kardoscil and Spiroscil refer to Spectro-Chrome Home Guide, page 91.

Be ready for the Sixteenth Annual Convention, beginning November 28, 1936 and two subsequent days, in Convention Hall, Hotel Melbourne, St. Louis, Missouri. The usual education will be provided.

Suggestions about making this Annual Convention a telling success should be sent promptly to us. We are always ready to listen and friends should not feel shy of expressing their views. There is room for improvement in all management and we are prepared for all suggestions, to insure success.

DUMB DIAGNOSIS VERSUS PRECISE SPECTRO-CHROME

Emma S. from Milwaukee, Wisconsin, sent us a very illuminating report about the condition of her mother, aged 71. Her sketch is so well written that we print it as a token of what ails the public and why we denounce the Medical Racket with such emphatic vigor. She wrote:—

“Conditions confronting on June 1, 1936:— Excruciating pain in head; Lumps forming on head wherever pain occurred; Left Eye closed; unable to move Left Eyeball toward nose; Left side of Throat numb; Cords in back of neck stiff, mother being unable to hold head upright for very long; Jaws so tired could barely open mouth; unable to sleep; Constipated for 40 years.

“Diagnosis and Doctors’ Opinions:—Dr. William K., (family physician), ‘Neuritis, nerve condition; Strychnine administered in small doses for a long period of time, works wonders.’

Dr. William A., ‘Nerve condition; see Oculist about Eye.’

Dr. U. D., Oculist, ‘The condition is secondary to some other condition; see a Neurologist.’

“Dr. P. Neurologist, ‘Third and Fifth Nerves affected. A Stroke, you may soon expect another.’

“Dr. William K. again, ‘Bell’s Palsy, Thrombosis; the Disorder is progressive, we must make her comfortable.’

“Treatment given: Strychnine, Iodine, Morphine, Sleeping Powders minus narcotics, the effect of which wore off in less than 2 hours. Dr. William A. gave mother 3 Infra-Red treatments of 15 and 20 minutes each and 3 Ultra-Violet Treatments of 1 to 5 minutes each; 1 Injection for Anaemia.

“Reaction to medicine:—Stomach was so upset that mother would refrain from taking the medicine for a few days to give her stomach a chance to ‘come back’. A puff or swelling in different parts of the face every day. Pain worse than ever.

“I rented a Spectro-Chrome on June 1, 1936 and under the capable direction and patience of the Spectro-Chrome Normalator, the reaction to Spectro-Chrome was as follows upto August 1, 1936, when received my own Equipment:—

“More sleep after the first Tonation than all the while with powders. Pain gone after commencing Tonation. Lumps gone. Eye open. Able to move Eyeball in every direction. Jaws much improved; can open mouth wider when yawning and can chew better. Throat only a bit numb now. Cords in back of the neck improved. Better able to hold head up. Bowels beginning to respond; two natural movements to date.

“My attention was attracted to the date Spectro-Chrome was

patented, i. e. July 7, 1925. It happens that my mother was born on July 7, 1865!

“The feeling of anxiety which my husband and I felt for my mother while she was under the Doctor’s care, has changed to a feeling of confidence and calm since we have been introduced to Spectro-Chrome. It surely has proven itself. The high caliber and sincerity of your Organization impressed me from the very beginning as did your Constitution.”

The above represents what actually Spectro-Chrome is replacing. Used according to instructions, Spectro-Chrome performs near-miracles, where other methods signally fail.

Spectro-Chrome is covered by many patents, the latest having been issued by the United States Of America, on April 28, 1936, Number 2,038,784.

Our thanks to Emma S. for her kind opinion of our activities. We must maintain the high reputation of Spectro-Chrome at all costs and hazards.

MEDICAL HUMBUGS OF 1936

Detroit, Michigan.

Editor, Spectro-Chrome:

During the last week I collected a few newspaper cuts, which I forgot to bring to the lectures. We surely would have gotten a great “kick” out of it. Here are some extracts:—

1—Operations free as prizes offered by Cleveland Osteopathic Society! First prize, free major surgical operation; second prize, free obstetric service; third prize, free tonsillectomy and adenoidectomy. All prizes were transferable (including mother-in-law). Who got the prizes?

2—Alcohol injections in the arm for Pneumonia. Reported from India and experimented by American Medical Association. Are they sure it went into the arm?

3—Dr. Walter P. Gardner, Assistant Superintendent of the State Hospital at Fergus Falls, Minnesota, says, “None is definitely sane or insane.” True that is why they trust the Doctors.

4—Dr. Anderson of the British Medical Association declares that of all professional men, the Medical Doctors are found to be the shortest lived. No wonder, if they use the same medicine as they give to the Sufferers.

5—Barbers were once the Surgeons, hence their sign of the Red, Blue and White pole, Red being the Artery, Blue, being the Vein and White the Sufferer bled till bleached. The situation did not change yet.

FIRST MILWAUKEE WISCONSIN PLANET

(HOTEL WISCONSIN, MILWAUKEE, WISCONSIN)

Meeting Of Thursday, August 6, 1936

Successful Use Of Spectro-Chrome In:—Paralysis, Sores, Hodgkin's Disorder, Splenitis, Dropsy, Backache, Female Disorder, Fainting, Leaky Heart, High Blood Pressure, Calculus, Swelling, Pink Eye, Headache, Bee Sting, Sprain, Welding Flash.

Reported By:—CAROLINE ZIMMERLING, Recorder.

Literature concerning the Special Rally to be held at Detroit, Michigan was distributed at the door. Deputy Otto H. Lutz was in the chair.

Otto L. made the announcement that Lena Held was reinstated as a Member into the Scientific Order Of Spectro-Chrome Metrists. This news was received gladly by the members of the meeting.

Chapters 82 and 83 of the Spectro-Chrome Encyclopaedia on Spectro-Chrome In Paralysis and Spectro-Chrome in Melancholia, were read by the Deputy.

The Deputy reported a case of Paralysis that he tonated. It was in a man of 35 years of age. This man was completely paralyzed, even to the point of not being able to urinate. After 4 Tonations, he was able to do this and in 3 months was able to sit up. He then had braces made to assist him and was able after a short while to go back to work. He used Green, Lemon and Yellow.

Hedwig N.'s grandchild has Sores all over her body. Salve they were using on her simply spread the Disorder. After giving the child 3 Green Tonations and 3 Lemon, the child was normal; there are no scars even.

Frank B. talked about his little boy. He said the boy is getting along well, even if the progress is slow. He has much more muscular development, a good appetite, is walking much better now, although he still needs a very little assistance. His powers of observation are better as are his other mental powers. He has his 2 Tonations a day and Frank B. has great hopes the boy will be absolutely normal in time.

Otto L. gave the case of William W., a man of 36 who had to walk with a cane and tried everything for about a year. After 2 weeks of Spectro-Chrome Tonations, he walked downstairs himself and

says that he will stick to Spectro-Chrome. Another case was that of a man of 56 who had a stroke. After 2½ weeks of Spectro-Chrome, he was able to sleep well and had a good appetite, although his eyes still were very glassy, so his family decided to stop giving him Tonations.

Frank B. told of a case for which he recommended Spectro-Chrome. It was one of "Hodgkin's Disease". Good results were obtained. The eight or nine year old boy's tongue would extend from his mouth during sleep and he would run a temperature; also the pulse was very slow. They succeeded in raising the Kardoscil almost to normal and were able to control the temperature with Blue.

The Deputy gave a case of a man who had pains in his Spleen. By Spectro-Chrome in one hour he went away smiling and whistling.

Another case reported by him was that of a man with Dropsy, who reduced the size of his waistline about 5 inches in 4 weeks, by Spectro-Chrome. Green and Yellow were used, then Violet, Lemon and Yellow with Magenta on Areas 4 and 18.

Frank B. volunteered to read at the next meeting Chapters 84 and 85 of the Spectro-Chrome Metry Encyclopaedia, on Spectro-Chrome In Indigestion and Foolery Of Fly Philosophy.

The Deputy gave another case of a man who was a physical director and by strenuous exercise strained the ligaments in his back. After the fourth Tonation he was doing an Adagio Dance. He had only 2 Lemon and 2 Green Tonations.

Another of the Deputy's cases, was that of Julia W., aged 36, who had a Female Disorder and was burning with Fever. Her temperature was brought down in 20 minutes with the Blue Attuned Color Wave.

On Martha S., another of the Deputy's cases, Green with Magenta on Area 4 are being used to remedy a condition of Fainting. She takes only 2 Tonations a week and did not have a real attack since starting Tonations. She is well pleased.

Frank B. said he knew a man of 66, who weighs about 237 lbs. who cannot take Tonations. It riles him very much. The Deputy said it was the filth in the Body that did this.

Caroline Z. gave a report of the case of a woman with Leakage of the Heart, High Blood Pressure and Dropsy. All Medicines were stopped immediately upon beginning the use of Spectro-Chrome and from that time on she had no spells of being bedridden. Now, after using Spectro-Chrome, faithfully for about a year, she recently had an

examination for Life Insurance and was pronounced physically perfect. The woman is some 70 years of age.

Kurt B. gave a report of his own case. Indigo did not help a Pain in Areas 9 and 18, so he used Turquoise Systemic. This did not help so with the aid of the Deputy's Itisometer, he determined that the Infra-Green was needed. He used Lemon Systemic and Purple on Area 4 and the next day passed two Stones. When the Stones were gone, the bleeding also disappeared.

Otto L. said his wife's ankles were swollen. It took 3 weeks of Green, Lemon and Yellow Systemic with Magenta on Areas 4 and 18 to normalate her. Ate nothing during this time but fresh vegetables and very sparingly of that.

Otto L. then read about Gland Stimulating Colors from the Spectro-Chrome magazine of May, 1923, Volume 2, No. 5.

Hilda S. gave the case of the little girl with Pink Eye. The Eye closed completely, was running and very painful. Ten minutes of Indigo and the pain was all gone! Green was found to be too glaring for her, so the Frosted Slide was used over it. Several Green Tonations were given and the child was normal again.

Hedwig N. said her daughter had good results for Headaches with the use of only one Turquoise Local.

The Deputy's wife was stung in a finger by a bee. Green Systemic removed all the swelling and pain.

Carrie M. told of the man of 76 who fell and sprained his arm. He could not lift it. She gave him an Orange Tonation 3 times and then a Turquoise Local; while under the beam she saw a lump move up the arm and disappear.

Otto L. gave another case of a man who fell on concrete and broke the nose. He lost about a pint of Blood. His daughter gave him a Tonation even before an ambulance could arrive to take him to the hospital. The Doctor came and removed a bone from his nose. The Equipment was used on him 4 hours continually. There was no bump and it all healed nicely.

John S. spoke of a man who got Welding Flashes in his eye; had 2 Blue Tonations and went back to work.

EDITORIAL

REMARKS

High Blood Pressure is not a Disorder, but a condition produced from other causes. Our Purple, Magenta and Scarlet, judiciously ir-

radiated Local, with Lemon Systemic, will overcome all Circulatory Disturbances.

Fainting indicates faulty Circulation.

SPECIAL RALLY FOR SILVER JUBILEE

Spectro-Chrome Radio Broadcasting Station Proposed

The Originator of Spectro-Chrome Metry, arrived in this country on his first tour, on Sunday February 16, 1896, delivered scores of scientific lectures on the X-Rays and the like and returned to India in a few months. On his second visit he arrived in New York, N. Y., on Wednesday, August 9, 1911 and on Friday June 15, 1917 was naturalized as a citizen.

The presentation of Spectro-Chrome Metry to the World, was made in the World Building, New York, N. Y., on Monday April 26, 1920, in his private lecture hall. The Central Office then moved there from Hillsdale, New Jersey, where the Science was originated. A year later, the Central Office was located in Philadelphia, Pennsylvania, whence on Thursday, July 10, 1924, it made its home in Malaga, New Jersey, where its Plant is at present situated.

Our First Detroit Michigan Planet held a Special Rally, in the Small Ball Room of the Hotel Tuller, Detroit, Michigan, for three days beginning Friday, August 14, 1936, to celebrate the Silver Jubilee of the arrival of Colonel Dinshah P. Ghadiali, the Originator of the Science Of Automatic Precision. A large and intelligent audience was present at each of the six meetings and numerous case reports were given by Purchasers of Spectro-Chrome co:relating with the lectures of Colonel Dinshah. Most of the reports pertained to Persistent Disorders declared "hopeless and incurable" and given over by the Medical Doctors or their Hospitals.

Catherine Ivanowski, a Christian missionary, spoke on the wonderful relief she obtained in Buffalo, New York, by the use of Spectro-Chrome.

Elizabeth Geyer extolled Spectro-Chrome because of the good results attained in her own case and that of her young daughter.

Lucille E. Greenham spoke about her visit to the Spectro-Chrome Institute Plant in Malaga, New Jersey and expressed her views about the work.

Magdalene Arnold spoke about the benefit her husband derived from Spectro-Chrome in Sciatica. He was a cripple for many years and now is in perfect health. He would give his life for Spectro-Chrome.

Rev. Fred C. Pillsbury spoke of how he came to the city in a helpless condition and would have gone to the hospital for an operation, when Spectro-Chrome was brought to his attention and he recovered his health completely.

Albert E. Greenham addressed the meeting on the merits of Spectro-Chrome. He said he would part with everything but Spectro-Chrome. He regretted that the Planet Members did not have enough notice ahead or the audience would have filled the big Ball Room.

Colonel Dinshah jested that if he would guarantee the audience he would return next month. Numerous voices clamored for further knowledge of Spectro-Chrome, the main Ball Room was engaged by our President and all promised hearty co:operation. (The complete program is printed in the current issue). On being questioned, Albert E. Greenham guaranteed placing 10 Orders for Spectro-Chrome.

Christina Keim expressed her favorable impressions on the value of Spectro-Chrome.

Maggie Barron spoke enthusiastically about her favorable experience in the family, with Spectro-Chrome.

Much merriment was produced and the audience roared with laughter, when the subject of Gland Therapy was expounded. The climax was reached when one of the Members gave his personal experience of the number of Placentas (afterbirths) of parturient women collected from the hospitals and taken in pails to certain biological laboratories for conversion into pills or powders for feeding women as Medicine!!!

Dinshah spoke about the abominable idea of "Auto Therapy" and his comments on "One Lick A Day" produced another volley of applause and laughter. He showed how fallacious the Gland Therapy and similar "therapies" were, by showing a bottle of "Hormotone", said to contain the extracts of the Pituitary, Thyroid, Ovary and Testes combined! The bottle had 100 tablets, with such "wonderful" combination having both male and female potency!!! He said he did not need any Hormotone, but, if some desexed, unsexed, devitalized, double-sexed hermaphrodite American wanted it, he may have the tablets free of charge! None volunteered for the marvelous medical gift!

To enhance the spread of correct knowledge of Spectro-Chrome and the underlying principles that made Health, Dinshah was seriously considering the erection of a powerful Spectro-Chrome Radio Broadcasting Station. The proposition was received with enthusiasm. Steps are being taken to install one.

Greta O. Peck, of Windsor, Ontario, Canada, Deputy of the

First Detroit Michigan Planet delivered a short address on the last night's session. She said:—"Colonel Dinshah speaks Truth greater and more powerful than perhaps many of you ever heard. Just ask, as you listen, that your ears be opened to hear and your understanding enlarged to comprehend the wisdom you shall hear.

"Without Light a Universe could not be. The Light is supreme, the Light is everywhere and in the Light exist all things. All the way down the centuries, in every age as far back as there is any record of humanity, the wise and great ones are portrayed with a radiation of Light about them emanating from the head and body of each. That Light is real, just as real as the electric Light in your homes. All individuals like to be out of doors, because the greater Light from the Sun contains that which makes them happy. They intuitively like it and feel that they require it.

"Does it not seem reasonable that a Healing System which uses Light as its agent is God's system? All things in Nature are simple, calm, peaceful and obedient to natural Laws. We find Spectro-Chrome just that. This afternoon you were taught how 176 Fevers and 213 Inflammations are normalated with one Attuned Color Wave. No great large names to confuse, nothing given to aggravate the suffering. Instead, all becomes calm and peaceful within a very short time.

"A member of my family was ordered to the hospital to be operated on **at once** for Appendicitis. When we were called, all was confusion, tears, despair—such pain, something had to be done, but, they were in no condition financially for a big doctor bill and hospital bill. When we suggested trying Spectro-Chrome, the Medical Doctor of course said he couldn't be held responsible for any consequences which might follow. Yet, by Spectro-Chrome, within an hour the pain was all gone and did not return and the Sufferer who was 75 years of age is active and well. That was over a year ago."

A telegram from Otto H. Lutz, Deputy, First Milwaukee Wisconsin Planet was read, "Congratulations and best wishes for your Silver Jubilee."

The audience gathered around Dinshah and gave their personal greetings vociferously. After thanking all and expressing cordial appreciation of their endeavors, the final session closed on Sunday, August 16, 1936, at 11 P. M.

As usual, Dinshah had to return to the Central Office by automobile, but, before leaving he requested the independent Field Solicitors to send in more Orders so he may travel in his own airplane and escape traffic delays! Time counts in life.
