TWENTY FIRST ANNIVERSARY CELEBRATION
Special Meetings In Detroit, Michigan

Attuned Color Waves
Spectro-Chrome Metry

In course of life you reach a time,
When Doctor, Lawyer, Priest alike,
Does fail to give the sought relief,
To troubled mind or burdened heart—
Then come to me:
I help you to help yourself.

SPECTRO-CHROME METRY ENCYCLOPAEDIA—VOLUME 2

By:—EMIL W. E., Milwaukee, Wisconsin.

I find it most interesting, because of the understandable way it is put forth and because of its comparisons between the orthodox and empirical methods as practised by the Medical Profession and the mathematically precise methods of Spectro-Chrome Metry.

Also, it gives the exact manner with which to act to obtain the ever accurate results and its departure from the purely theoretical viewpoint.

I know I benefited much and that I like and enjoy the study of Spectro-Chrome Metry more than ever. I am ready to proceed further.—E. P.

“DOCTOR” IN THE HOME!

By:—EMILY U., Elmwood Park, Chicago, Illinois.

We have wonderful results with our Spectro-Chrome. For the past 10 years, I was troubled with Rheumatism and Pain in the Bladder. Most every Winter, I was in bed for 4 to 6 weeks. I could not walk or sit. Since I have the “Doctor” in the house, no more sickness, not even a Cold. Two years ago, my husband got Diabetes and Pain in his right Lung. Since he took his Tonations for it, we have no more “Sugar Factory” in the house. We both are healthy and happy, thanks to the Spectro-Chrome.

TO THE PUBLIC

We accept no gifts or gratuities, as to a Public Servant it is Graft. Send us nothing.

You may send your book for review or opinion; you may send your writings for publication, provided they are not plagiarized or false and bear your signature in ink, with full name and address.

Anonymous communications receive no attention. Submitted articles will not be returned.

All correspondence should be addressed to SPECTRO-CHROME, MALAGA, NEW JERSEY and not to any individual member of our staff.

For the views expressed in signed articles, the writers are responsible; for the opinions in articles bearing no identification, the Editor shoulders the sole responsibility.

FIRST DETROIT MICHIGAN PLANET

(HOTEL TULLER, DETROIT, MICHIGAN)

Meeting Of Thursday, January 2, 1941

Successful Use Of Spectro-Chrome In:—Persistent Disorder, Gall Bladder Disorder, Cough, Cold, Ulcers, Grippe, Athlete's Foot, Burns, Rash.

**Ford Hospital Surgeons Wanted To Amputate Foot;
Spectro-Chrome Normalated In One Week!**

Reported By:—LUCILLE E. GREENHAM, Deputy

Deputy Lucille E. Greenham was in the chair. The Meeting was temporarily called to order in the Small Ball Room.

Our Recorder called upon Grace Dodman to carry on the Educational Program for the evening, on the Tertiary Attuned Color Waves. After a very interesting talk, the floor was opened for discussion.

Case Reports were as follows:—

Effie D. remarked that she is very much pleased with Spectro-Chrome and that her daughter spent over \$500.00 on her son a year and a half ago, but now he is a healthy youngster—thanks to Spectro-Chrome.

Mary N. reported using Violet on Legs, with Orange on Back and Lemon Systemic Front for Congestion.

Ella S. reported Numbness in both Hands. She used Purple.

Elizabeth R. took two Lemon Tonations one morning and went downtown. She had a very severe Headache and her Eyes watered considerably. She felt that the Lemon might have caused this, but as quickly as it came, it left her. She has not been suffering from Nausea that she reported last month. Albert G. believed this might have been just a reaction.

Florence O.'s daughter, 3½ years old, suffering with Gall Bladder Disorder, was using Green and Magenta for three weeks and Turquoise for one week and is now using Lemon. The daughter is improving.

Nettie M.'s son, 7½ years old, suffered with Cough from the time he was 4 years old. He was under the care of a Medical Doctor who called it a "Detroit Nose"—instead of secretion coming down the Nose, it goes into the Throat and creates the Cough. She took the boy to Gladys C. and within four days had such marvelous results that she purchased an Equipment. They used Yellow, Magenta and Green. Her husband said if they never received any more benefit, they are grateful for that alone.

Earl R.'s wife suffered from a Cold, but admitted she cheated on her Food. She used Lemon and Magenta two a day for three days, with good results.

Elmer O.'s brother-in-law had Ulcers of the Stomach for a number of years. He used Yellow and Orange on Areas 8 and 9 and after one week was much improved. After three weeks he gained weight.

Elmer O. had the Grippe, used Lemon Systemic for three Tonations and one Tonation on Areas 17 and 18. He lost no time from work. This was his first Disorder in three years.

Gladys C. reported the case of a man, 28 years old, treated in Ford Hospital one month and confined for one week from Athlete's Foot; he had five holes in Foot with drainage of greenish nature. The Medical Doctors wanted to remove two Toes or even the whole Foot. Tonated with Scarlet on Area 18, Green Systemic Front and Orange Systemic Back, three Tonations a day for one week. This case normalated.

Gladys C. reported another case of a child burned on Face and Hands when stove in home exploded; was rushed to Hospital and treated there first. Parents took the child to Gladys C. There was no sign of Burns after five days of Tonations in which Turquoise was used.

Marie O.'s son noticed after a hair cut some Blisters which spread very rapidly all over his Head and Face. She used Lemon Systemic for two Tonations and one Tonation of Turquoise and the Rash disappeared.

We all hope Colonel Dinshah will make a trip to our City in the near future and perhaps give the Occult Course here. We are certain to have a number of Affiliates attend.

EDITORIAL

REMARKS

Spectro-Chrome is the cheapest Health Insurance. Affiliation with Scientific Order Of Spectro-Chrome Metrists **costs less than 1 Cent a day** and that includes the Favorscope for the year and the Spectro-Chrome Magazine free as well as the privileges of having Free Guidance for all members of one's immediate family from Spectro-Chrome Institute. No medical mutual insurance could afford such benefits and none is commercially possible. Furthermore, such Affiliation has the advantage of attending Planet Meetings wherever and whenever held, besides having direct approach to the Originator of the Science and also of the privilege of acting as an independent Field Solicitor and receiving Commission for placing an Order. The last by itself forms an **income five times more** than the Affiliation Dues.

In reporting, final outcome should be given with the Tona-

tions. Mere mention of a case carries no weight.

Many so-called "Coughs" are the results of Cardiac Disorder and not just "Phlegm". Be guided by Kardoscil and Spiroscil.

Earl R.'s wife did not cheat anybody but herself. She will eventually wake to her error.

Ford Hospital should be and one day will be turned over to Spectro-Chrome Institute, when the automobile magnate is made to realize the Truth of our Science.

The United States is going into War and should have a number of Spectro-Chrome Equipments for the soldiers burnt by fire.

Dinshah will attend two Special Meetings of your Planet, in the Blue Room of the Hotel Tuller, on Monday, March 10 and Tuesday, March 11, 1941, at 8 P. M. Affiliates only will be admitted on presentation of their Cards and signing their names on the record sheets.

FIRST ST. LOUIS MISSOURI PLANET

(HOTEL MELBOURNE, ST. LOUIS, MISSOURI)

Meeting Of Thursday, January 2, 1941

Successful Use Of Spectro-Chrome In:—Paralysis, Swelling, Knee Disorder, Tumor, Arthritis, Kidney Disorder, Headache, Cold, Hemorrhage, Pain, Mental Disorder, Paint Poisoning.

Hospital Nurses Using Spectro-Chrome For Colds!

Reported By:—VIOLA C. JEUDE, Recorder

Deputy Clemens M. P. Neumann was in the chair.

A Central Office communication of December 30, 1940, also the article, "Producing Thirteenth Wave Of Honesty", page 2980 of the October Spectro-Chrome and page 2978 of the "1941 Favorscope" were read and discussed.

This led to a discussion of healing by the method of Color Rays and Charles S. said that in healing by "Colored Glass", there must be some potency, regardless of what kind of glass was employed; that Colonel Dinshah proved this when he used an ordinary glass bottle filled with water on his first Sufferer and got marvelous results. The Deputy replied that by using the single or plain Colors, such as Red, Green, Yellow, Blue and Violet, one would probably get results, but that the trouble arose when the other combinations were used comprising the balance of the twelve Color Waves, as then it is a hit-or-miss proposition and explains why Spectro-Chrome is in a class by itself; that one could not use a glass of 318,000,000,000 Oscillations and another of 368,500,000,000 and that was the secret of Spectro-Chrome, because they are attuned within 30 Degrees of each other. When the

Deputy was young, he worked in a place where there were 160 shades of Yellow and some 70 or 80 of Red, that each of these shades had different Oscillations. He said an ordinary piece of glass about the size of the Spectro-Chrome magazine can be purchased for 5 or 6 cents, whereas the same size glass used in Art Windows costs 3 to 4 dollars and that when Art Windows are broken in some of the famous Cathedrals, they can never be replaced, as the artist who made those particular Colors died and the secret was buried with him. When a glass Slide is broken in the Spectro-Chrome, the whole set must be returned for proper matching and that sometimes only one piece or corner out of a whole sheet of glass can be utilized for the proper tuning and very often a whole new set of Slides is installed unless that particular piece of glass to correspond with those returned is found. Thus, one may understand the time sometimes required for matching.

Nora C., 65 years old, said she had a Paralytic Stroke 3 months ago; half of her Body was paralyzed, her Tongue was so swollen that it extended out of her mouth for 3 weeks and she could not talk, but that she was getting along so well she did not want information for that, but that her Knee is very unruly, as it gives way and she can hardly walk. It feels stiff and there is a drawing sensation in the Calf. She was using Yellow, Lemon and Orange Atcowas and occasionally Magenta on Areas 4 and 18, but not often, but does not get the results that she would like to have. The Deputy asked her if she had any difficulty with her Breathing. She said that at times she is short of Breath, so he advised her to have her daughter take her Kardoscil and Spiroscil, as her Heart may be slow. If this were the case, the Heart action had to be increased and to use Scarlet on 4, Orange Systemic on the Knee. Richard J. at that time said he had counted her Spiroscil (without her knowledge) and said it was 20, but at times in short puffs.

The Deputy then requested Marie J. to take the Kardoscil and she reported 80, but this was irregular. He also advised her to use a foot stool when she sat down, as he said that a woman's lower extremities are ordinarily shorter than a man's.

The Deputy stated for the benefit of the Affiliates that if anyone had Hiccough, to use Orange on Area 8, or for any Cramping condition, as this is due to lack of proper Blood Circulation.

The Deputy reported that a man, 25, was hit on Left Side of Face. Jaw very swollen. Orange was used on Area 1; when he returned for Tonation next day, there was just a slight discoloration. Two Tonations were given and he was well pleased.

Henrietta L. reported her husband fell on his injured Knee and she gave him Turquoise. The Deputy advised her to give Orange instead.

Rosannah B. said a friend of hers had trouble with her Eyes and asked if she could be benefited by Spectro-Chrome. Was told she could be by the Infra-Green Division of the Spectrum; that often when the Body was cleared of the Toxins, the Eyes normalate. She also wanted to know what to use for the Shoulder when it becomes inflamed and was advised Turquoise or, if of long duration, to use Yellow, Lemon or Orange.

The Deputy reported a woman came for Tonations 31 days ago. She could not walk, as she had difficulty when she tried to straighten her Knee. She became disgusted when she did not get relief in three weeks and did not seem to be making progress, but in the last eight days the results were by leaps and bounds. She returned to work.

The Deputy also reported a woman had Lumps in Areas 4 and 5. She had taken tablets for Area 3. She had wonderful results with Spectro-Chrome and said she could not understand why the Medical Doctors do not recommend Spectro-Chrome. Lemon Systemic and Indigo on Areas 4 and 5 were used.

The Deputy reported a woman, a victim of Arthritis and Kidney Disorder, was receiving Tonations. Her condition was very bad; she was given over as hopeless by the Medical Doctors. They said she had only 2 to 6 months to live. Christmas visited mother and they can not understand how she is able to be up.

Charles S. reported that Sunday afternoon he felt as if he were getting Pneumonia; had Headache and felt sick. He took a Yellow Systemic, Magenta on Area 4. Next morning, he still felt sick. Monday evening, he repeated the Tonations and Tuesday, felt better. He said they advise to use Orange for Cramps and Pains, but, he gets better results with Yellow and feels that his condition is due to "Nerves".

The Deputy reported that one evening about 10 o'clock he made himself some garlic soup, but while he was preparing it, his wife cautioned him that she did not think the garlic was good, but he said he did not think there was anything wrong with it just because some of it was brown instead of white. He ate some Spanish Rice with it. He intended to work until about 3 o'clock in the morning, He retired about that time and when he tried to get out of bed he lost his balance. His Head was clear and he did not feel sick, so he thought Areas 8 and 9 were out of balance. He used Orange on Areas 8, 9 and 10. He felt he needed Green. He had to stay in bed Friday, Saturday and Sunday. As long as he was in bed he felt all right, but as soon as he would try to get up, he would lose his balance. He sliced Lemons and sucked and ate the rind. He then began to feel better, so came to the conclusion that the garlic must have poisoned him.

The Deputy reported a woman had Cold 9 days; came for Tonation. Used Spectro-Chrome 5 days and it cleared. Spectro-Chrome

was sold on its merits because the Sufferer said that heretofore she had the Cold all Winter.

Marie J. reported that her mother had a Bloody Discharge from Area 11. She called Eleonore N. for information, was advised to use Indigo. The first Tonation brought Clots and after the second Tonation it stopped and did not recur. Her mother is feeling very well.

The Deputy reported he had a call from Tuberculosis Hospital, that all the nurses had Colds which seemed to drag on; so Spectro-Chrome is being used by one of the attendants with success.

Mary K. reported she has Pains when she sits or walks much, through Area 18 and Hips. She thought at first it was a Sprain, so used Orange. When she did not get relief, Turquoise and then Indigo were used.

The Deputy reported a woman, 50 years old, came for Tona-tions for Mental Disorder. Shoulder, Groins and Knees pained very much and the case was pitiful to see, but it made wonderful progress in 30 days. Turquoise, Violet, Yellow on Areas 8, 9 and 10, then later Lemon, were used.

Henrietta L. asked if a Tooth needed filling, should it be filled. She was advised by all means, as that is Constructive Surgery.

"Warning To Our Affiliates" was read from the Favorscope.

Nathalee B. said her husband was brought home, could hardly walk or talk and could not see clearly. She said she turned on the Green Atcowa and called Eleonore N. for information and in a half hour her husband could talk and he told her it was Paint Poisoning, as he had been painting the ceiling where he was working. He had a Backelim and began to feel better.

The Deputy said years ago he had a like experience. One day before he retired, he used an insecticide to rid the house of roaches or big black water bugs. Then he retired and about 11 o'clock had to get out of bed and sit outside in the air as he felt miserable. This was before he knew about Spectro-Chrome. The next day he had to go to the Medical Doctor, who gave him some pills. He tried to vomit but could not. Then he began to eat Lemons and he started to feel better.

Marie J. reported that her sister's husband was working on a truck and the combination of Carbon Monoxide Gas and Gas from the coal made him very ill. She gave him an Orange Tonation and in 15 minutes he fell asleep. When he awoke the only effects he suffered was a slight Pain over one Temple.

Henrietta L. said her son always gets Headaches when he uses the Yellow for Imbackelim. She was advised to use Orange instead.

Fritz S. reported that he can hardly see out of the Right Eye. It feels as if he is looking through a fog and that the Gland in

back of the Ear was Swollen. Advised Infra-Green Systemic, Yellow on Eye.

Viola J. reported that one Sunday evening about 9 o'clock she was visiting her mother and she started to get severe Pains in Areas 9 and 10. Had a Backelim, but by 9:30 was doubled over with Pain. She started for home and had to be assisted down the stairs and by the time she reached home, she had to crawl up the stairs. Her husband had to assist in undressing and putting her to bed. She was in such severe Pain that when her husband adjusted the covers or touched the bed, she screamed. The affected Areas by this time were very swollen. Thinking it was Indigestion or Congestion in the Alimentary Tract, she used Orange, but her husband thought an Atcowa to allay the Pain should be used. He called the Deputy and he thought Orange was the best. The Pains continued through the night and she was not able to sleep. When they persisted the next morning, Lemon Systemic and Turquoise Systemic and Local were used. The Pains finally began to wear away and by Friday they were gone. They feel sure that if a Medical Doctor had diagnosed the case, he would have pronounced it Intestinal Influenza.

The Deputy asked Clarence R. how his wife was. She was suffering from Malaria. He said her temperature was 99, but she is able to move around and does not have very many chills.

Conversation lead to India Rice. Someone at a previous meeting informed the Affiliates where they could purchase India Rice. Some, after purchasing and trying it, said it was not so good as Dinshah's Dime-A-Meal, so we like to know if you will tell us what grade or brand of India Rice you use.

Fritz S. gave a recipe for Fruit Salad.

EDITORIAL

REMARKS

The Slides of Spectro-Chrome are attuned (matched) according to the system described in Spectro-Chrome Metry Encyclopaedia, Volume 1. Those 5 "pieces of Glass" represent 30 years of thought. Any "color glass" will have some effect, but, Spectro-Chrome is NOT a hit-or-miss method. Furthermore, it is not only the Slides that give the service, but, the Slides used in conjunction with the Science of Spectro-Chrome Metry. A Phonograph has a wax cylinder and needle; try to get music from any old wax cylinder and needle! An Electric Bulb is only a piece of wire in a vacuated or gas-filled globe; make one at home! A Radio is just a few tubes and a loud speaker; put one together and listen to Adolf Hitler! A telephone is solely a magnet covered with insulated wire and topped with a tinplate; combine them and talk to California! Try any of hundreds of such scientific won-

ders. They appear simple, but, when it comes to getting **results**, you will find insuperable difficulties. There is such difficulty in attuning those Slides, that it is preferable for the Originator to match a new Set than to rematch a cracked one.

Hiccough is generally due to disturbance in Area 8.

For Eyes or any Area, Systemic Irradiation should accompany the Local.

Persistent Disorders need time to change the course of events.

Medical Doctors to recommend Spectro-Chrome? As well expect hotel managers to recommend roadhouses, railroads to recommend trucks or gas manufacturers to recommend electric light! Spectro-Chrome is their Nemesis, the ringer of the death knell of their moth-eaten, rum-soaked, morphine-choked, pus-punched profession.

It was not the fault of the Garlic, but, defect in the eyes of the person who prepared that soup! Hereafter, listen to the wife!

Teeth should be kept without cavities. Filling should not have any metal in it, especially any Amalgam of Mercury. Metallic materials in the mouth cause Electrical Currents and are productive of many obscure Disorders. Use non-metallic fillers.

Lead Poisoning is common among painters. Perferably use Zinc Base Paints.

In advising questioners, please ask for complete information Charts and do not give haphazard replies.

There are about 200 varieties of Rice. Use any which is not polished or denatured. The exquisite taste of Dime-A-Meal is through the spicing care and the timed cooking in the Vinag. In the Vinag, you may use own Rice and Yellow Split Peas.

FIRST MILWAUKEE WISCONSIN PLANET

(HOTEL WISCONSIN, MILWAUKEE, WISCONSIN)

Meeting Of Thursday, January 2, 1941

A Meeting Packed With Education

Reported By:—EMMA SCHROEDER, Recorder

Deputy Frank S. Burns was in the chair.

The Deputy regretfully announced the resignation of Caroline Zimmerling, who served the Planet in the capacity of Recorder for a number of years.

The Deputy called for a volunteer to fill the vacancy left by Caroline Z., whereupon Sub-Deputy Kurt Bader stated that he, as a member of the Planet Commission, received a letter from the Board Of Trustees, notifying of the appointment of Emma Schroeder as

the new Recorder. The Deputy said he did not receive his letter to date. The new Recorder presented her credentials and was duly installed by Affirmation under Section 1 of Rule 33 of the Constitution and Rules, by the Deputy.

Correspondence from the Board Of Trustees was then read. Affiliates were reminded that only Affiliation Cards for the current year will be honored at Planet Meetings; also that necessary measures be taken to commence Meetings punctually. Further, it expressed thanks and appreciation to the resigned Recorder for her past co-operation.

The Deputy reminded that it may not always be possible to start Meetings on the minute. There are times when Affiliates come later. The comparing of Signatures also requires considerable time. However, co:operation was promised.

Affiliates were surprised to learn that Colonel Dinshah's Passport was cancelled and that he will soon be touring the United States.

The Deputy requested increased attendance at the Meetings, stating that the purpose of these Meetings is to familiarize Affiliates with the use and technique of Spectro-Chrome and the only way he has of knowing whether benefit is being derived from these Meetings is by the attendance. He requested Affiliates to spread the knowledge of this educational project among friends who are not present. He never loses an opportunity to educate people in this marvelous Science and acquaints them with the basic principles, capabilities and merits of Spectro-Chrome whenever possible.

It was brought out that Drugless Healers, such as Chiropractors, as well as Medical Doctors, possess Equipments and are beginning to realize that Spectro-Chrome has some merit!

The Deputy welcomed the new Affiliates into the Planet. He expressed the opinion that it is difficult to conduct educational training in this group, for the reason that beginners are continually entering the class, whereas many are farther advanced in the Science of Spectro-Chrome Metry.

Theodore M. suggested that it might prove advantageous to all to set aside a certain time at each Meeting during which to answer the questions of beginners, though, in the opinion of the Deputy, beginners are often too hesitant about voicing their sentiments.

Minnette W. stated that Milwaukee Affiliates have every reason to be proud of their Planet, for she comes a distance of sixty-five miles to attend the Meetings and derived much benefit.

The Deputy offered to assist anyone in the sale of an Equipment if his knowledge would aid in convincing a prospect.

Chapter 44, "Sevenfold Human Constitution" of Spectro-Chrome Metry Encyclopaedia was read by the Deputy explaining

each Vehicle as he continued. The Tree Of Sequence was outlined on the board and keen interest was displayed in the Visible and Invisible Physical Vehicles and particularly in the Emotional Vehicle.

The Deputy explained that Emotional Disorders are found difficult to deal with by the Medical Profession, as the Sufferer is reluctant about admitting the cause, which is often hereditary. Where there is Emotional Disorder, Hysteria, Melancholia, Hallucinations and strange obsessions appear in the Sufferer. Those people usually become impatient during Tonation and want immediate results. They are very often the ones who go from one Medical Doctor to another or from one Spectro-Chrome Normalator to another and invariably will not follow instructions. These Disorders have a potency of a terrible character. During Critical Periods they become sometimes uncontrollable.

Otto L. mentioned that case of "Mary losing John" was applicable in such cases.

Emotional activity **above** the normal was also discussed and Kurt B. related his experiences in such cases, stating that the cause is very often "too much high-jumping" (Sex Excess).

The Mental Vehicle also brought forth considerable discussion. The Deputy stated that Thought Forms are created through this Vehicle and that there are no limitations to the Mind, which can be developed into unbounded Areas; 95% of the people do not think and the other 5% think they think. The Mind is unlike any other part of the Body. It is an intangible thing. It cannot be reached or dissected, but it has great possibilities. It is greatly affected by the Medial Principle (the Causal Vehicle) and has every thing to do with our conduct and our decisions. It is what makes one person different from another. It is capable of being projected.

The reading called for a number of questions and considerable discussion was carried on about the Aura, which is being reported, in part, verbatim:—

Theodore M.—Is it necessary to unclouthe the Body to derive benefit from the Sunlight? Does the Aura penetrate the clothing?

Kurt B.—What Aura is he speaking of? The Chemical Aura? That is the reason people wear clothing—to protect their Bodies and to preserve the Radiation.

Deputy—That is the reason Colonel Dinshah always wears a cap.

Kurt B.—Enter a dark room and when your eyes become accustomed to the darkness, say in about fifteen or twenty minutes, you will be able to see the Aura.

Deputy—Colonel Dinshah can determine the condition of the Physical Body by the Aura. He believes in protecting the Body and

inhibiting the escape or waste of radiation. The extent of the Aura varies, depending upon the physical condition of the Sufferer. When a person becomes fear-stricken, the Color of the Aura changes and that is what an animal senses.

Theodore M.—When a hunter goes hunting with his favorite beagle hound, it is the Aura that dog scents.

Otto L.—When a person is sick, Spectro-Chrome swirls into the Aura through the Spleen Area and through interference or reinforcement normalates. Spectro-Chrome works through the Aura.

Deputy—Naturally, through the medium of the Blood Stream.

Kurt B.—It is physical matter that is left as a trail. It is the Emanation that was being sensed by the dog.

Deputy—When a fawn is born, the mother deer leaves it and remains away from it for some time. When the fawn is capable of nursing, instead of the mother approaching closely to the fawn, the fawn approaches only to within a certain distance of the mother, because the fawn emanates an odor or Emanation which the mother detects and which proves to be a protection against carnivorous animals.

Theodore M.—Then the Aura can be readily understood.

The Deputy—Spectro-Chrome recuperates the Organ which is in Imbalance.

Theodore M.—Spectro-Chrome replenishes the lacking Chemicals.

In discussing the Vital Vehicle, the Deputy said, "In Spectro-Chrome Metry we are taught that the sole Energizer is Light and if a cataclysm were to obliterate the Sun, every thing on this Earth would die. Why?"

Kurt B.—Nothing can exist without Light.

Deputy—Is it not a marvelous thing that the Creator was so far-sighted as not to leave it to any individual or group of individuals!

Kurt B.—(In a humorous vein): They are arguing in the Supreme Court whether the Air belongs to you or to the Federal Government!

Deputy—God saw in His Infinite Wisdom what was needed.

Anita E. was puzzled as to whether the White Light which shines from behind the Slides or that from the back of the Equipment interferes. Also, she sought information as to what effect mirrors had in the Tonation Chamber and whether the reflected colored Light from a mirror has any effect on the Sufferer. (Reference to Spectro-Chrome Home Guide did not seem to satisfy the Affiliates and they are anxious for a reply from the Central Office on these two questions.)

Kurt B. informed the Affiliates that any Reflected Light has

only one Sex—one Pole is cut off. He cited his biological experiment with fish in a tank some years ago. In a fish tank you have a perfectly balanced world with Sunlight. In absolute darkness, the fish nearly suffocated in three days. Upon removing them into even a dim Light, they revived and even the odor of the water disappeared in the Light.

Otto L. stated that at one Spectro-Chrome Convention the case of the double Tonation of one man by means of a mirror was related.

Kurt B. advised that White Light in the Tonation Chamber is harmful and that if all White Light be shut out of the Tonation Chamber, the efficiency of Spectro-Chrome would be improved.

Lena H. agreed with Kurt B., for her experience had been similar during her practice.

The Deputy humorously added, "He is always right." (Smiles)

Florence L. covers the back of her Equipment with a black cloth.

The question of an Electric Heater, with its Infra-Red Rays, was discussed and whether those Rays had any effect on the Human Body.

Affiliates were again referred to Spectro-Chrome Home Guide and the Deputy advised not to have the Infra-Red Rays of an Electric Heater fall on the Body under Irradiation.

Theodore M. reported that it is necessary for him to operate his household on a budget, but that he does not have to include Doctor bills or Hospital bills and he was able to purchase a new radio for Christmas, which he calls his Spectro-Chrome Radio, as he purchased it with money the Spectro-Chrome saved him.

While the attendance at this meeting was not as large as usual, due to the proximity of the Holidays and to the fact that all had not renewed their Affiliation to date, there was extreme interest displayed in the discussions and the understanding with which questions were asked and answered, proved that Affiliates are progressing in their comprehension of Spectro-Chrome Metry, as a number of hands was raised in response to the question by the Deputy, "How many present feel they derived some benefit from this Meeting?"

EDITORIAL

REMARKS

Caroline Zimmerling is now Caroline Zimmerling Moore, by marriage. Her loyal services to our Cause deserves the warmest commendation, as she performed her duties as your Recorder zealously and punctually during her long term in office. We have reason to believe the new Recorder Emma Schroeder too will win your good will.

The Meetings **MUST** be started on time. To wait for late comers is not conducive to efficiency. Let one Officer watch for such Affiliates and let the Meetings start on the dot, at 8 P. M. Let the slackers go on the back seats. Ignore their late arrival and do not show consideration about their presence at a late period and you will soon find the attendance improving. Remember this:—Time, tide and Spectro-Chrome wait for no man. Follow this Rule, as a number of complaints was received about the wait and the Board Of Trustees requests compliance with the above slogan, in justice to the punctual Affiliates. Furthermore, the Affiliation Card **MUST** be presented **duly signed** or promptly **lifted and returned** to the Principal Office. That is Rule 43, Sections 4, 5, 11, 12, 13. There is no discretion given in Rule 43, to the Planet Commission and the clauses are mandatory. Here is another slogan to remember:—Sooner lose an unruly Affiliate, than lose the principles under which the Affiliate affiliated.

The White Light from the cowls of the apparatus does not materially dilute the effect of the Attuned Color Wave. The dilution is provided in the Bulb Power. Do **NOT** cover those cowls by a cloth, otherwise, because of the obstruction of the escape of the heated air the Spectro-Chrome will be damaged. One Purchaser did that and had a fire on the Sufferer; use Spectro-Chrome as the maker intended.

The present Spectro-Chrome Cabinets are provided with shaded Cowls and no tampering should be done with the Equipment.

Reflected Light is Polarized Light. Do not fool around with mirrors. However, the room decorations have nothing to do with the Science, because the Atcowa irradiated on the Sufferer is the one to consider.

FIRST MERRILL WISCONSIN PLANET

(NEW BADGER HOTEL, MERRILL, WISCONSIN)

Meeting Of Thursday, January 2, 1941

Successful Use Of Spectro-Chrome In:—Fever, Eczema, Eye Injury, Heart Disorder.

Reported By:—HILDA SCHNEIDER, Recorder pro tem.

Deputy Lydia P. Danner was in the chair.

Chapters 93 and 94, "Blue Of Oxygen" and "Spectro-Chrome In Recent Disorders", from Spectro-Chrome Metry Encyclopaedia were discussed by the Deputy. Turquoise can be used in any Disorder whose Medical name ends with "Itis" or in any Inflammation. The Blue is used for anything with intense Heat, such as Fever, Burns, because in all these cases there is a predominance of Hydrogen and Carbon. Blue, being the Oxygen Wave, will combine with the Hydro-

gen and form water and Carbon Dioxide will be formed from the Carbon, which escapes thus from the involved tissues.

The Deputy also gave examples of Inflammatory Disorders running very high Temperature, which were normalated in a short time by Spectro-Chrome.

Case Reports were as follows:

Kunigunde W., aged 70, had a Temperature of 105 Degrees and was normalated in five days. Blue and Turquoise were used, each Atcowa twice a day. Also once in the night for three nights until Temperature was under control. Then Green, Yellow and Magenta were used for the following week. Sufferer is now up and feeling very well.

Mary R. had a severe case of Eczema. Blue and Turquoise, Lemon, Red and Indigo were used. Itching stopped and Skin cleared.

Robert D. got Emery dust in his Eye. The Pain was so intense that he could not sleep. First Tonation of Indigo on Area 1, he fell asleep and slept for six hours. His Eyes and Nose ran and apparently the Emery dust cleared. After the six hours, he was given another Indigo and later a Turquoise and the Sufferer was normalated.

William A. was successfully normalated after having complicated Heart Disorder. Magenta was used.

Walter B. used Spectro-Chrome for six years and it never failed. During this time he never had a Medical Doctor.

The following questions were asked and were answered by the Deputy:

What Atcowas are to be used for Burns? Answer—Blue and Turquoise.

What Atcowas are to be used for bad Colds? Answer—Such are Recent Disorders and page 61 of SPECTRO-CHROME HOME GUIDE states that recent Disorders respond to Turquoise.

What Atcowas are to be used on a severe Cut? Answer—Turquoise and Green.

EDITORIAL

REMARKS

It is not necessary or advisable to endeavor to rush Normalation by repeated Tonations one after another. Let the Auric Vehicle recover its rhythm. One day and one night Tonation should be ample in any Recent case.

Start advising by using Sufferer Charts completely filled.

United States Congress, Listen To Reason

Kill That H. R. 1776 And Avert Disaster—DINSHAH

HAVE YOU FAITH IN NEWSPAPERS?

Then, You Are Among Uninformed Millions

Smokers Die Earlier Than Abstainers

By:—SHIKE LEVINE, Editor, The Record, Bridgeton, New Jersey

Are you one of the millions who still believe that the newspapers are uncontrolled and published for the benefit of humanity? Or are you one of the thousands of informed people who recognize the Press as a commercial enterprise which prostitutes itself for profit?

Most newspapers in the country receive reports from the Federal Trade Commission. These reports list the guilty commercial enterprises that have signed an agreement with the Federal Trade Commission to cease and desist from misrepresenting the value and benefits of their product. Most reports from the said Commission are complaints against Drug companies for false or exaggerated claims of the therapeutic value of their Drugs.

The announcements from the Federal Trade Commission are NEWS. A newspaper would be rendering a real public service in exposing the fake and dangerous drugs on the market; but, do the newspapers publish the reports? They do not. The prostitute press is subsidized by the Drug companies through advertising and therefore suppresses such legitimate news.

One of the better news stories was the disclosure by Johns Hopkins University that people who were heavy Cigarette Smokers died younger than people who did not smoke. Such a revelation warranted front-page display, but did the press publish the story? It did not. Why? Because it receives millions of dollars in advertising from the Tobacco companies.

Would the press accept advertising intended to benefit the public? No! Consumers Union, a not-for-profit organization that enlightens consumers on the truth about food, clothing, etc., submitted a full-page advertisement to several big daily newspapers. The advertisement was refused. The reason is that the Drug Stores and other commercial houses would be exposed thereby.

Would the press accept an exponence on Spectro-Chrome? Not one line! The Medical Trust and affiliated Trusts have such a grip on the press of the nation, that no newspaper dares accept such publicity, even if proofs were submitted to show the miraculous powers of the Spectro-Chrome.

Do you still believe the press is free and uncontrolled? Limited space prevents further proof, but if additional facts be wanted, refer to Upton Sinclair's "Brass Check" or George Seldes' "In Fact". And if,

after reading those publications, you still be unconvinced that the Press is not free, not concerned about humanity and not a genuine public service, then a Spectro-Chrome Tonation is recommended!

—o—

TWENTY FIRST ANNIVERSARY CELEBRATION

Special Meetings In Detroit, Michigan

This year, our Science of Spectro-Chrome Metry reaches its Majority. From a tiny, unknown baby, it has grown into a sturdy, well-fed, well-nourished, well-respected, powerful adult, whose name is blessed all over this country and elsewhere, by thousands of former Sufferers, now enjoying Health they never expected would be theirs.

There will be two Special Meetings, in the BLUE ROOM, **Hotel Tuller, Detroit, Michigan**, at 8 P. M. sharp, on Monday, March 10, 1941 and Tuesday, March 11, 1941. Both will be open exclusively to our Affiliates and no Strangers will be admitted. Admission will be by presentation of duly signed Affiliation Card and signature on the Roll Sheet, by the Affiliate.

Discussions will cover only the Good Of The Order and there will be no Case Reports or Discourses.

Our President, Colonel Dinshah P. Ghadiali, will be present as the Guest of the Planet and will speak on matters vital to the future of the Cause.

Your presence is earnestly requested.

BOARD OF TRUSTEES

Scientific Order Of Spectro-Chrome Metrists,

by

EVELYN ROMAN,

Secretary.

Tuesday, March 4, 1941
Malaga, New Jersey.

EMPIRE OF THE UNITED STATES OF AMERICA

His Imperial Majesty Franklin D. Roosevelt

Impeachments Needed

With the alleged New Deal entering from the Raw Deal phase into the Rotten Deal phenomenon, the political destructors of the Constitution and the Country, are rushing all kinds of measures to establish our new Empire to rule by dictation all human beings of all countries throughout the World, including the flora and the fauna, without exception. The first measure that should be promptly passed by the Congress, should be to ask for bids to erect a number of Lunatic Asylums and Penitentiaries, to harbor those members of the Congress who are determined to force us into War and bankruptcy by passing the H. R. 1776, called the Lend-Lease Bill. Those men who vote for such an un-American, unpatriotic, ruinous Bill, will deserve impeachment by the people who appointed them, notwithstanding the support of the White House or its occupant, who also should be submitted to the same process by the American Voters.

Because of the lies they uttered during their Presidential Campaign and the false promises they made, President Franklin D. Roosevelt should be rewarded with the (Electric) Chair of the new Empire and Wendell L. Willkie should be made his Prime Minister. Never did a man aspiring for the highest office in the World—President Of The United States Of America—make such a fool and jackass of himself and disgrace his country as this man Wendell L. Willkie. He entered the grogshops of London, England, went behind the bars of the saloons and served as a bartender to cajole and flatter the bombed British populace. That man deserves total repudiation by the Republican Party and that Grand Old Party should show openly its repudiation of him by direct action.

His fate will be like that of Cardinal Woolsey, in trying to serve two masters. He proved a traitor to his party and a worse traitor to his Country, by acting as a clown than a dignified representative of America. Impeach him also.

Meanwhile, let the intelligent Voters of America raise their voice against the entire insane administration, to stop further damage and prevent us from entering the War.
