## FIRST DETROIT MICHIGAN PLANET

(HOTEL TULLER, DETROIT, MICHIGAN)

Meeting Of Thursday, March 4, 1943

**Successful Use Of Spectro-Chrome In:—Diabetes, Hemorrhoids, Calculus, Lumbago, Eye Disorder, Stiffness, Pain, Arthritis, Grippe, Ptomaine Poisoning, Dysentery, Vomiting, Cold.**

*Reported By:—CHARLES J. RENN, Recorder*

Sub-Deputy Sofie Hall was in the Chair.

A communication from the Principal Office was read by the Sub-Deputy, after which a lengthy discussion followed. The Sub-Deputy asked all those that could and cared to help along in this great struggle to do so now, because, it costs real money to fight these battles in the Courts.

The Sub-Deputy asked Norma Fiedler to read the Bill of Complaint and Petition for Temporary Restraint Order which she did very capably, after which a short discussion followed.

Case Reports then followed:—

Walter H. suffered with Diabetes which Spectro-Chrome normalated; he also suffered with Hemorrhoids. Doctors treated him for months, but gave him no relief; used Spectro-Chrome a few weeks which normalated them. He was also troubled with Stone. The Pain was so great that he used to roll on the floor in agony. Tonated with Spectro-Chrome and in three days the Stone passed and he has not been pothered since. Nothing like Spectro-Chrome.

Hendrik L.'s wife suffered with Lumbago and had very bad Eyes. After using Spectro-Chrome the Lumbago went and she doesn't wear glasses.

Elfriede K. said she had a very Stiff Knee which was awfully painful. After a week's Tonation, her Knee was normalated.

Hazel P.'s husband had a bad case of Grippe which she tonated with Turquoise, Lemon and Magenta for two days and he went back to work. She also reported her daughter had a Tooth extracted; used Indigo with wonderful results.

Carmela F.'s uncle had severe Pains in his Legs. Medical Doctor said it was Arthritis. He said he had no faith in Spectro-Chrome, but got one anyway and is now having very good results..

Clara S. reported her sister had Ptomaine Poisoning, Dysentery and severe Vomiting. Tonated with one Orange Systemic and went to work the next morning.

Irma S. said someone put a "Mickey Finn" in her husband's sandwich. He became deathly sick, vomited and had Dysentery. He was tonated with Yellow, Lemon and Magenta; the next day he went back to work feeling O.K.

Aquila M.'s grandson who lives with him had a bad Cold. Atcowas used were Turquoise and Orange with marvelous results. His wife fell over a stool and sprained her Ankle; a few Tonations of Indigo and she was normalated.

The Sub-Deputy read an Article from the Courier-Post of Camden, New Jersey, about Dinshah fighting the Post Office Fraud Order case himself. She said: "I can just picture Dinshah standing up there before the Court defending our case. Thank God that we have him with us."

EDITORIAL

REMARKS

Several good Case Reports of Gladys C. are left out of print, because, there was no identification or address of the Sufferer. This rule is obviously necessary for the protection of the Editor and the reputation of the Organization for integrity.

Aquila M. should be warned against tonating a grandson. The grandson is NOT a member of his Immediate Family. If he should feel justified in the Tonation, he should send full particulars to the Institute and request a Courtesy Dispensation under By-Law 80, Section 4. Without such compliance, he will be considered a Violator.

---

### FIRST MILWAUKEE WISCONSIN PLANET

(HOTEL WISCONSIN, MILWAUKEE, WISCONSIN)

Meeting Of Thursday, March 4, 1943

**Successful Use Of Spectro-Chrome In:—Infection, Rheumatism, Fever, Pain,  
Lumbago, Imbackelim, Impetigo, Sciatica, Bronchitis,  
Exhaustion, Toothache, Stiffness.**

*Reported By:—EMMA SCHROEDER, Recorder.*

Deputy Frank S. Burns occupied the chair.

The communication from President Dinshah was read. Students were requested to urge absentees to display more enthusiasm in this great Cause and in these trying times when our loyalty and interest are being tested. Expressions of amazement and disappointment swept over the audience when it learned that about 1,000 Students did not renew their Affiliation.

Regarding the use of Express in place of the Mails, Sub-Deputy Theodore Mohrhussen informed the Affiliates that there is an Express Agency in West Allis, on 73d and Greenfield. The Recorder let it be known that the main downtown office of the Express Company in Milwaukee, is open all hours for accepting packages, but not for executing Money Orders. She was there on Sunday.

The newspaper article "Colonel Ghadiali, Malaga Healer, acts as own Lawyer in Postal Case," which appeared in the Courier-Post, Camden, New Jersey on Saturday, February 27, 1943 was read by the Deputy.

The Deputy: "You can see from this article that Colonel Dinshah is not resting on his oars and is going to do everything HE can and as members of this Organization we ought to do everything WE can to assist and encourage him in his noble efforts."

The reading of the Bill of Complaint against the Post Office Fraud Order followed.

The Deputy: "You heard the opening shots. What is your opinion? Is there anything about it you observed?"

Theodore Mohrhussen: "The petition which you read to us, is, in my opinion, the only thing that will accomplish the effect we want, that is, to

restore the mailing right of the Institute. None could do any more than Colonel Dinshah did. I am sure he will be able to follow through and we will be able to back him."

The Deputy (to the audience): "Do you feel that is the proper method and do you feel the same way as Mohrhussen?" Audience: "Yes!"

Theodore Mohrhussen continued: "The fact that the case is being taken to a Court of Equity! Do you know that we are just as much affected by this Fraud Order and each one of us has a right to complain in this matter as we are all affected by the revocation of the Mailing Privileges?"

Deputy Burns: "Every member is affected in that he or she is not permitted to send mail in the regular mailing process. Many people considerably removed from large centers, depending on Spectro-Chrome for the correction of a Disorder, rely upon the Central Office and are affected to such an extent that they should complain to the Postmaster General. They are denied a right to which they are entitled."

Rose Helminak: "Why can't we all write letters? I have a letter all ready. I can face them any time and I don't care about what they do to me. I will tell them what I think of them and what Spectro-Chrome has done for me."

Deputy Burns: "Colonel Dinshah presented 27 pounds of evidence which was given no consideration at all and any effort we might pursue would be valueless. At the Convention in January we signed a Petition to Senator Robert M. LaFollette, asking for help and it was returned to Colonel Dinshah with the statement that the Senator was too busy at this time to give attention to the matter. So the Colonel asked the Court to issue a Restraint Order to permit him to receive the Mail. It will depend upon the action of the Court and what decision is rendered. The Planet Commission was in a meeting with Colonel Dinshah, prior to the Convention in January and he outlined his procedure in this particular case and what would be necessary to be done. What we learned from him leads me to believe that, eventually, the mailing rights will be restored, but, it will take time and considerable expense. There is a peculiar condition involved. The Fraud Order was issued upon testimony of a Physicist, two Medical Doctors and a 'Postal Inspector.' Upon presentation of this 'Evidence' the Solicitor gave his 'Opinion' and the Postmaster General issued the Fraud Order preventing mail from reaching the Institute. This case was not heard before a Court. It was nothing more than a Hearing at which even the Defendant was not present. There was no Cross-Examination under the circumstances. Here is the peculiar angle to the whole situation: None can change the Order of the Postmaster General! There are other ways of approaching it and Dinshah is familiar with those ways and this is the first step to approach it in the manner in which he expects to get Justice. There having been no Trial, no Court, only a hearing, it cannot be appealed. To bring this to a Court Action it is necessary to take the steps he is now taking. Eventually a case may evolve which may result in a Trial by Court and release of the decision of the Court. In that particular case, that decision can be appealed to a higher Court in which Dinshah expects to play his card and reobtain the mailing privileges. No doubt, he will inform us, as time goes on and this is the first step which eventually may be decided in one of the higher Courts of the United States. In the meantime, we should be loyal and encourage others to renew Affiliation. The American

people are peculiar. The little matter of having a photo taken and sent in for continuing Affiliation, is sufficient to make them give up the matter. That should not be a burden or a difficulty, to have a picture taken and sent in for a purpose of record and protection to each one concerned. Prior to this method, there have been frauds committed. People sought admission on another's Card, but, with the use of the photo on the card, none but the Affiliate can obtain admission to the Meetings. That is as it should be; otherwise, we might open the Meetings to the general public and the Lord only knows what would happen. That cannot be tolerated and we must remain a closed Organization."

As March First is an important and memorable day in the life of our President Dinshah and marks the anniversary of his release from unjust incarceration in Atlanta Penitentiary, the Recorder read the Good Thought for that day, "Release." Each Good Thought in Colonel Dinshah's book by that name, is a Gem in itself and several others were also read: "Officers", "Sabbath", "Teacher", "Garden", "Links", "Usefulness", "Bath", "Silence", "Spring", "Reputation", "Insult" and "Newspaper". (Applause.)

Case Reports were called and Eleanor L., an ardent lover and enthusiast of our Science, submitted the following:

(1.) Paul F., age 1, had an Infection in his Hand due to biting himself in the thumb. The family Doctor was called, but was out of town. His assistant advised the mother to place the Hand in hot water or apply hot compresses. Following his advice, the Infection spread into the Hand and up into the Arm. The mother of Paul called her mother Grace W., one of our Affiliates and told her what was about it. Grace, an enthusiastic Benefit Student, went to see the baby. She told her daughter the child was dangerously ill and needed quick attention. So she bundled the baby and took the mother Myrtle and the baby and father back to her house. She placed the child under Turquoise. She and the father then came after me. I could not leave just then, so told her to take my Thermometer and take the child's Temperature and come for me right after dinner. She did this. When she returned she said: 'Paul's Temperature is 104 Degrees; his Kardoscil is 88 and Spiroscil 48 and try as I will, it will not come different.' She said: 'Myrtle took it and I took it and we got the same.' My eyes about popped out of my head. I said: 'Good Gracious! The child is gasping!' Grace said: 'I know it! Come quick!' So together we went back to her home. I collaborated Myrtle, then took Paul's Kardoscil. It was 89, Spiroscil 48. Grace had given him a Magenta Tonation on Area 4 before she called for me. So, on the next Favor Period, I tonated with Green Systemic. I said: 'We must stop the Infection from travelling further.' After this Tonation I again took the Kardoscil and it went up to 98, Spiroscil 38; that was at four o'clock in the afternoon. By six o'clock, his Temperature was 100. Swelling was out of the Arm to the Elbow, Redness now being from Elbow to the Hand. The Hand was puffed and Purple in color. The following Tonations were Orange and Yellow Local. One hour after the Yellow was irradiated, the Thumb opened and began to drain. After the Hand started to drain the baby wanted to take food which he refused prior. He took four ounces of milk and eight ounces of water. Before that he had only taken about a teaspoon of water. The Hand drained from one Wednesday to the following Wednesday. It took two weeks to complete Normalation, as a Rash developed on the Body and that took about a week."

(2.) "Rose A., aunt and guardian of Frank G., aged 8, rented a Spectro-Chrome as Collaborator. Frank was very ill with Rheumatic Fever. The Medical Doctor was called in before they came for Spectro-Chrome. He had been ill from Tuesday until Saturday, when she came for Spectro-Chrome. The Fever varied from 102 to 104 Degrees. Kardoscil was 79, Spiroscil 19. Turquoise Systemic, Green Systemic and Magenta on Areas 4 and 18. He was normalated in one week."

(3.) Alice K., aged 29, was also normalated by Spectro-Chrome. She had a Pain in the Leg from the Calf to the Hip and could hardly walk. Lemon Systemic, Indigo Local and Turquoise Systemic, Magenta on Areas 4 and 18 and was normalated in 19 Tonations. Kardoscil 80, Spiroscil 16. (Applause greeted Eleanor L.)

Theodore M. was interested in the baby case, as he is the father of four himself. He wondered how this small baby could become so infected. He said: "There must have been something wrong in the feeding or somewhere, to cause so much Pus to collect. At home, we can tell in one day if our children are not fed according to the Dinshah method."

The Deputy expressed the opinion that many Skin Disorders are stubborn and slow to normalate. He knew of a child where the relatives commenced Tonation with Atcowa Green and natural Elimination followed. The apparent sluggishness was removed.

"Then would you say that Green is the Atcowa for Constipation?" asked an Affiliate.

"Commence with Green and turn to Yellow," replied the Deputy as he explained the process of Elimination saying that putrefaction sets in, when we do not have proper Elimination.

Past Deputy Otto H. L., from whose manner of tonating Sufferers much may be learned, also, submitted the following cases:

(1.) Theodore K., aged 48, male, Lumbago. Tried other methods without results. Spectro-Chrome Orange set him right in one week and he returned to his work.

(2.) Alfred G., age 40, male. No Back Elimination for five days. Spectro-Chrome Orange and Yellow, alternated. Four Tonations produced two "large" Back Eliminations after everything else failed him. Spectro-Chrome set him right.

(3.) Marie G., age 34, female. Has an 8-year-old son with a bad Skin Disorder on Chin and up to the Ears, back of Neck and on Left Thumb, with a very thick crust. His mother said it was called "Impetigo!" Spectro-Chrome Green Systemic, Indigo Local, normalated the boy in two weeks' time. Another healing method was tried first without results.

(4.) Albert W., aged 62, male, Sciatica, of three months' duration. Took Injections four times a week from Medical Doctor, without success. Spectro-Chrome Yellow on Areas 6, 7, 8, 9 and 10, Lemon and Indigo Local were irradiated and he returned to work in 3 weeks.

(5.) Emil B., age 60, male, had what he called "Chronic Bronchitis"—with Loss of Voice. Kardoscil 120, Spiroscil 28. The severe Cough prevented him from sleeping. After Lemon Systemic Front and Back, one week, he started to expel large "chunks" of sputum in quantity. Both feet were swollen. Atcowas Lemon Systemic and Magenta on Areas 4 and 18 were given and he returned to work in six weeks.

(6.) Gordon K., age 25, male. He came in a rundown condition. Pains in Area 1. He was possessed of a "Phobia" and was afraid to cross bridges and also afraid to handle knives. Yellow Systemic was irradi-

ated and he said he felt somewhat better after the first Tonation. The next day, he reported he slept all night which he had not done for weeks. He was normalated in 14 Tonations of the Yellow Attuned Color Wave. (Applause.)

Colonel Dinshah's very best wishes to all Affiliates were conveyed by Anita Enders who said she had spoken by telephone to Colonel Dinshah the preceding evening. (Applause.)

Rose H. said she had a severe Cold on New Year's day and cannot free herself of it. Hoarseness is present. Took Tonations for over two weeks and would like to know what Atcowas to irradiate while awaiting Free Guidance from the Institute. She was advised by Deputy Burns that that is a difficult thing to do without knowledge of the Kardoscil and Spiroscil and other particulars. Rose said at one time it was K. 84, Sp. 18. Atcowa Lemon was suggested.

Eleanor Luedtke emphatically replied that she will always remember Dinshah mentioning that Orange is the Atcowa for stubborn Congestion.

Emma Schroeder also remembered it and recalled that Dinshah stated that the Lemon Wave would "work better" after the use of Orange.

Deputy Burns demonstrated on the blackboard how to go deeper into the Mogen David.

Marie K.'s 17-year-old daughter normalated a Toothache in ten minutes by using Indigo. Another daughter used the same Atcowa for a stiff Neck and the Pain was almost gone the following morning. Marie raised the question as to what Atcowa to use for frozen Ears or Toes. She was advised by the Deputy that the Infra-Green Division of the Spectrum is to be irradiated in such Disorders. There was discussion as to whether Indigo was the proper Atcowa to use in the case of a stiff Neck as the Disorder may have cleared by itself during sleep.

Sub-Deputy Theodore Mohrhussen explained the impurities in the Blood and improper Circulation in such Disorders.

Marie K. asked, "Why do some people require so much more sleep than others? I, for instance, need ten hours and my daughter can get along with only five."

Evert Dahlke: "Proper Food!"

Deputy Burns: "Wrong living!"

Marie K.: "She eats the same as I do and she is my own child. I cannot understand it!"

Deputy Burns: "Before I used Spectro-Chrome, I required eight and ten hours of sleep. Now I seldom retire before midnight and rise at 6:30."

Otto Lutz: "Possibly the daughter is a lighter eater than the mother."

Frederick Kneppreth: "Some cases are slower to respond. When the Sun is not visible very much, it is possible that the Aura becomes affected."

Alice Brown stated her Slides are in Malaga for repair. She had a Cold and used citrus foods in the evening with good results.

Deputy Burns related how a friend, who knew of a "cure-all" for Pain recommended an Aspirin tablet with Baking Soda. That took care of every Pain he ever had. Another friend who became ill on a hunting expedition in the wilds of Canada, tried it and was never so sick in his life!

Olga Lenosek: "Are Contagious Diseases communicable?"

Deputy Burns: "Yes! It depends upon the resistance of the individual."

Ethel Schott: "I wondered if the Eclipse had any effect on Epidemics. Measles are prevalent in our school."

Frederick Kneppreth believed that was one of the reasons why Dinshah advocated sleeping in separate beds, to prevent spread of Contagion.

The Deputy replied to Ethel's question by stating that Dinshah spoke of that at length and how we humans are subject to Epidemics depending upon the action of our Respiratory Organs. When the breathing processes are out of order, we become what the Doctors call "susceptible" to Disorders.

An Affiliate was not clear on "Systemic" Tonations or the length of Tonations. The Deputy informed her.

Dave E.'s wife has severe Sinus Disorder and Headache. She took many Laxatives.

Emma Schroeder finds lubricating the Nostrils with warm Coconut Oil often opens the Sinuses and causes them to drain.

An Affiliate travelled a distance of 86 miles, from Oshkosh, Wisconsin, to attend the Planet Meeting. The Deputy expressed congratulations.

It was an interesting meeting, conducted in a dignified manner and deserving of an even better attendance. The Affiliates present numbered 113.

EDITORIAL

REMARKS

To send any papers by Express, one does not have to make heavy packages. One woman sent with her papers five pound lumps of coal, another expressed ten pounds of lime stone and another dispatched a log of wood! I preserved that log to lambaste some refractory opponent! The proper way is to place your papers in an envelope, gum it and present it at the Railway Express Agency, with request to dispatch it to Dinshah Spectro-Chrome Institute, Malaga, New Jersey, Railroad Station Newfield, New Jersey, in their envelope form 6034—. The Agent will have it sealed and the value may be declared as whatever it may be.

Dinshah and his Irene and the 7 others in his family will never cease serving Mankind. They are working day and night, even more than usual, to save Spectro-Chrome for your service. Be patient and watch the workings of Those Whose Effulgence shines on Truth. As the matter is now before the Court, I refrain from saying anything except publishing open facts. My day will come; the World will accept the message of Spectro-Chrome.

About 1,000 Affiliates did not continue their Affiliation this year, for reasons you know. They might not relish our rigid regulations, but, such ones are better out than in. I want in this Organization solely those who firmly believe in the Science and the Service and the others are out and may stay out. We do not have to go after them. They are on the contrary a detraction to us. One Affiliate—a man—wrote in his

Request For Continuation, "I do not go to the Planet Meetings, because I do not care to listen to the ills of other people!" That self-centered man had better understand that if he does not "care" for others, we have no reason "to care" for him. He may as well keep his three dollars a year to give to a Medical Doctor for a single consultation. I found in life a marvelous Karmic Principle true to the letter, that the more I give to the World, the more I get from the Universal Spirit to give to the World again. Be therefore givers and not gimmies, if you wish to progress in Higher Life. That is what Benign Moses and Jesus did; hence Their glory. Respect Their noble example.

Infection is nothing but the result of the mixing in the Blood Stream of putrid matter. Spectro-Chrome effectively deals with ALL Infections, if intelligently used. The baby probably had food particles on its Teeth in process of Fermentation, the mouth not being rinsed after a meal. In biting, the putrescent particles entered the Skin, thence being carried into the Circulation. The "drain" is nothing but the effort of Nature to throw out the disturbing elements. Spectro-Chrome is competent to act even as a Constructive Surgeon, if one knows its proper use. However, I advise you to stay away from medical views. Our three Volumes of Spectro-Chrome Metry Encyclopædia have all you need for all Disorders to which Mankind is subject. God made One Light with Seven Stages—His humble servant showed you the use—follow the Rules and success and Health will follow in your path.

Grandparents as Benefit Students must not tonate Grandchildren, except under Collaboration signed through a Spectro-Chrome Normalator by one of the parents. This is a strict Rule and must be followed without deviation, to protect the Science. There is no "special Atcowa" for a specific effect. Study carefully the mathematics of Spectro-Chrome in Volume 1 of Spectro-Chrome Metry Encyclopædia. Every Benefit Student should study that subject especially, for a clear comprehension of the Irradiation. The two Antipodals are Violet and Red; they are the generators of all the rest. Dinshah's "Sanslide" or Slideless Spectro-Chrome proves that very thoroughly. It may be marketed after the War is over. Green being a Pituitary Stimulant, may produce Elimination by energizing the other sluggish Organs, because of the governing power of the Pituitary and Yellow has  $\frac{1}{2}$  Green in it anyhow! There is much BEHIND the Science of Spectro-Chrome for which the mind of the Student is not yet ready. It will eventually need a fourth Volume!

The numerous "Phobias" or "Dreads" are mostly psychical in nature. Medical Doctors do not recognize, because they have no knowledge of, the Psychical Vehicle. All their mind is centered in Blood, Pus, Serum, Mucus, Saliva, Urine, Faeces—nothing but "Cadaver" derivatives. The Live Vehicles and their marvelous potencies are hidden from the eyes of these quassi-scientists. Their empirics will NEVER accomplish true Health. Refer about "Phobias" in another article.

Rose H. should be asked about her Food Habits.

Marie K. should learn to differentiate the characteristics of age and youth, surroundings and Sleeping Habits. Insomnia and Restlessness are bound to appear soon or late in persons sleeping together in one bed. Husband and wife sleeping always in one bed is a very unhealthy and bad custom. The movements, warmth, sounds, odors, Aura of one has a clear tendency to disturb the mate. Sleep in separate beds and preferably even in separate rooms. Marriage does not mean or need perpetual snuggle; on the contrary, it is the quickest road to diminution of affec-

tion and sometimes of divorce. Privacy between mates should be respected.

The Slides of Alice Brown went back to her; that will save the expense of eating Lemons!

Aspirin is the Monoacetic Acid Ester of Salicylic Acid and should be thrown into the discard from every family.

Study Disorders Of Childhood for Measles. Eclipse may not cause the "Epidemic," but, its influence on those nearing an eruption may be visibly seen.

I shall have to give a whole Course on this important subject during the next Special Convention. Contagion is the carrying of foul matter into the Blood Stream by physical contact. If one's Blood Circulation and Blood Chemistry be proper by proper living, one need not be worried about "Infections," "Contagions" and other scarecrows. It is one's own self that is the cause of one's own Disorders. Of course, it is easy and more pleasing to pass the blame to another.

Lubricate the whole body and bathe with warm water from the hair of the head to the toes daily, first in the morning and you will have clear Sinuses and a clear mind to think clearly. Use the bucket bath system and NOT the unclean, splash tub method.

You are the first to respond to the suggestion of reporting full names and addresses of Sufferers, for editorial information. Thank you cordially. ALL Planet Reports must be similarly complete for our protection, otherwise the report will NOT be printed.

---

**FIRST ST. LOUIS MISSOURI PLANET**  
(HOTEL MELBOURNE, ST. LOUIS, MISSOURI)  
**Meeting Of Thursday, March 4, 1943**

**Successful Use Of Spectro-Chrome In:—Dizziness, Belching, Flatulence, Pain, Constipation, Headache, Vomiting, Sprain, Stiffness, Peplessness, Dental Disorder, Appendicitis, Cold, Swelling, Hoarseness, Frostbite, Fever, Dyspnea, Diarrhea, Cramp, Nervousness.**

*Reported By:—VIOLA C. JEUDE, Recorder*

Deputy Fred Kohl was in the chair. He asked Chas. Stiermann to read the article which appeared in the Courier-Post, of Camden, N. J., Saturday, February 27, 1943.

Communication from the Principal Office was read by the Recorder. The rough proof of Bill Of Complaint And Petition For Temporary Restraint Order And Injunction In The Federal District Court was discussed.

Case Reports by Clemens N.:—

(1.) Robert P., age 15, Ratio 72-19. Swollen Ankle with constant Fever, was 3 months in bed; still had swollen Ankle; last 2 months Swelling in Right Arm; Medical Doctor drained it, the Joint and no result. M.D. first said it was Rheumatism; boy would sit at home; no interest in anything. Turquoise Systemic, Yellow Areas 6 to 11, Magenta on Areas 4-18, also Scarlet Areas 4-18. Swelling did not recur since Tonation

started. Is an entirely different boy. Mother well pleased and will become an Affiliate.

(2.) Paul L., age 64, Ratio 84-21. Dizzy spells while working, had to sit down followed by cold and hot spells, plenty of Belching and expelling of gases. Yellow and Orange Systemic, Magenta on Area 4-18, normalatated in a few days. Well pleased.

(3.) Blondeia C., age 40. Ratio 72 to 17. Pains in Lower Back to Ankle, very severe; cannot lie on back, Belching and gas in Area 8 but cannot expel it. Suffers from Cold Feet and Constipation since childhood, Headaches and Vomiting spells for days; feels weak cannot stoop down or walk for any distance. Green, Yellow, Orange, Red Systemic, Magenta and Scarlet Area 4-18. Feels much better; no Headache, Vomiting or Belching and is pleased. Had to leave town.

(4.) Thomas H., age 53, Ratio 60 to 24. Sprained Back, Osteopathic treatment to no avail. Orange Systemic Back 1 Tonation and is well.

(5.) Robert S., age 51, Ratio 72 to 18. Had been to M.D. for Stiff Legs, very painful, could hardly stand up. Orange Systemic and Yellow Systemic. Six Tonations, feels fine and can work again.

(6.) William W., age 21, Ratio 72 to 16. Felt draggy, no pep like having a Cold. Turquoise Systemic, 2 Tonations; says he feels fine.

(7.) Lorenz W., aged 84. Ratio 64 to 16. After Tooth Extraction, Pains in Cheek, diagnosed by Dentist, M.D. and Specialist as Nerve Disorder; must operate to cut nerve; Pains will be unbearable, Facial Neuralgia, et cetera, could not eat or drink, suffered much agony. Purple and Indigo on Area 1, Magenta on Area 4. Pains entirely eliminated, went back to Dentist who knew of this "Light" from other Sufferers; he said it must be good!

(8.) Nora A., age 20, Ratio 96 to 20. Terrific Pains in Lower Abdomen and right side, M.D. diagnosed it as Appendicitis. Turquoise on Areas 9-10, Turquoise and Blue Systemic, Magenta on Areas 4-18. Slept for about 5 hours after first Tonation, Pains and Fever normalatated in a few days; well pleased.

(9.) Arthur B., age 69, Ratio 74-16, had Cold; felt Chilly, Sneezing and so on. Turquoise Systemic; one Tonation and feels very much improved.

Cases reported by Nathalee B.:-

(10.) George Brehm, age 50. Ratio 80 to 25, Legs swollen, couldn't sleep or lie; had broken Ribs, was taped, much Pain in breathing and coughing. Lemon Systemic first Tonation, Swelling was gone and Chest relieved. Turquoise Systemic (once only). Lemon, Yellow, Orange, Magenta as Ratio indicated. Good results.

(11.) Clyde K., age 66. Cold, aching limbs, Chest hurt, Throat hoarse and raw, Ratio 64 to 15, Orange Systemic, Ratio 80 to 24. Turquoise Systemic, Magenta 4-18, relieved and able to return to work in 5 days. Frostbitten Fingers responded to Yellow and Orange although slowly. This individual had been a heavy Smoker for over 50 years, but, has not smoked since this holiday season.

(12.) Myrna S., age 2 years 9 months. Fever at night only, delirious, Ratio 130-24. Has breathed unusually since birth; had frequent gasps for Breath causing body to jump. Turquoise Systemic, Magenta, Yellow Area 6-7-8-9-10. No Fever after 5 days, but parents returned Equipment because the Rational Food Of Man plan was not satisfactory to them.

(13.) Emily F., aged 57, wife of Affiliate. Frequent Backelim, aching

of Body, Cramps in Legs, some Vomiting, Ratio 92-18. Orange 6-7-8-9-10-22. Magenta 4-18. Condition relieved in five days. Has long standing Gall Bladder Disorder according to the Medical Doctors.

The Deputy then proceeded with the Educational Program. Figure 38, Attuned Color Waves Of Dinshah, page 300, Spectro-Chrome Metry Encyclopædia was drawn on the Black Board and Deputy gave an able address on the Mogen David and its occult meaning.

The Deputy then explained the Principle Of Wave Motion.

Questions were asked and answered.

Question was asked about Adhesions. The Deputy said he would like Dinshah's opinion on this question.

The Deputy then explained Spectro-Chrome by Primary Fractions.

The Deputy asked Spectro-Chrome Normalators about their experience with the Green Attuned Color Wave. Sub-Deputy Nathalee Britton said just recently children of a neighbor next door had severe Headaches. Turquoise Green and Magenta Atcowas were used, Children had 102 Fever; they did not have proper Elimination, so Yellow and Orange Atcowas were used on Areas 6-7-8-9-10; spots appeared, the Medical Doctor was called and she was dismissed. The Doctor "diagnosed" Scarlet Fever, but, he said it was such a mild case and he was so surprised as they lacked the usual symptoms of Sore Throat, Swollen Glands and no Headache, that he would not put a sign on the door!

She then reported another case:

(14.) Lydia C., age 52, suffered from Imbackelim, Headaches, Nervousness and so called Psoriasis. Green, Lemon, Yellow, Orange, Magenta and Scarlet Areas 4-18 were irradiated and weeping condition came. Turquoise was used, no easing—Green only for 3 months daily with Magenta 4-18, cleared Face and Neck so that woman was able to get an office position. I have waited a year to report because I wanted to see the results continue. Ears do not entirely heal although that ear condition was one lasting from early childhood. Woman does not tonate anymore but is pleased with results inasmuch as the Medical Doctors had not helped her.

The Deputy asked "If all the Color Slides would be taken from you except 3, which would you like to keep?" The answer was "The Red, Green and Violet."

Marie J. reported one of her children being normalated of a hot water Burn. Blue was irradiated.

The Deputy said his 4-year-old son was playing on the floor; he wanted to carry a kettle of boiling water from the stove to the sink and had a premonition something was going to happen. He warned the youngster to move, but the youngster said, "There is plenty of room; Daddy you can pass." As he was passing, somehow or other the kettle fell and spilled and rolled toward the child, burning the sides of his Fingers and Arm; he was placed under the Blue and in about 10 or 15 minutes the child asked if it was all right to get up now it did not hurt any more; no dressing was used except a little cocoanut oil.

Richard J. said he had been trying to get some for some time but even the wholesalers did not have any and informed him they would be out of it for the duration of the War.

Question:—Colonel please answer. What can be used instead of Cocoanut Oil?

EDITORIAL

REMARKS

When any Operation is performed in which Organs or parts of them are removed, there is bound to be some surface adhering to adjacent parts. Nature can not keep empty gaps. Such Adhesions are inconvenient and exasperating sequelæ of Surgery. They are benefited in some cases, by relieving the "tension" with Atcowa Orange.

All so-called Children's Disorders are easily amenable to Spectro-Chrome. We need no "signs" on doors.

Olive Oil is a substitute for Cocoa Nut Oil and if that be not obtainable, Maize Oil may be used. Lubricate Head to Foot and bathe daily with warm water, using very little soap. You will not need Beauty Parlors.

A friendly warning. Your Planet shows a trend toward medical ideas. Avoid all such theories, views and nomenclature as you would avoid Poison Ivy. Have nothing to do with Differential Diagnosis; follow what Spectro-Chrome teaches you and avoid pitfalls.

---

### Spectro-Chrome Metry Encyclopaedia

*By:—LINA F., West New York, New Jersey.*

Volume 2—It is the most fascinating book I had the privilege to study. I enjoyed every minute of it and obtained from it valuable, unusual and unforgettable knowledge. The Sevenfold Constitution Of Man was most interesting. To learn about the Human Body and Mind is my good fortune. It clearly shows sufficient proof that the Science of Spectro-Chrome with its simplicity exceeds any other Healing Science. All of the above would be wasted unless I used it to good advantage by doing good deeds unto others, thus gaining rich experiences for myself.—E. P.

*By:—FRED C. R., New York, New York.*

Never in my whole life, have I been so enthusiastic of reading a book as I am today about Spectro-Chrome Metry Encyclopædia, Volume 2. Most scientific books which I read were boring with technicalities and made me sleepy, while Volume 2 is a Mental Tonic for me. It enlightens my soul with its simple and true facts of knowledge and I shall never part with it for the rest of my natural life.—E. P.

---

### DINING ROOM FUN

Noshervan, the 5 year old son is eating his evening meal, prepared according to Rational Food Of Man system. His mother Irene had already her meal and had gone upstairs for other duties. The baby was still fumbling with his Artichoke in a leisurely manner, when reaching close to the end he suddenly shouted, "Please, mother, come down and take my heart out!"

## FIRST MERRILL WISCONSIN PLANET

(HOTEL BADGER, MERRILL, WISCONSIN)

Meeting Of Thursday, March 4, 1943

### Successful Use Of Spectro-Chrome In:—Tuberculosis

*Reported By:—DOROTHY DENNE NELSON, Recorder*

Deputy Walter Briese was in the chair.

“Serious Warning” from the November 1942 Spectro-Chrome was read. Communication of February 1, 1943 from the Principal Office was reread, because there were so few Affiliates who were able to be present at the prior meeting owing to the inclement weather and snow. The War Model Spectro-Chrome Equipment was discussed.

Communication of March 1, 1943 was read by the Deputy and also the article from the Courier-Post. The Post Office Fraud Order Suit was discussed.

The Chapter on Tuberculosis was read by Emma Klug. Remarks by Lydia Danner followed.

“We have been successful in treating this type of Disorder with Spectro-Chrome. I have been tonating a Sufferer in Gleason, Wisconsin. This Sufferer had x-rays taken. Had her first attack 8 years ago. X-Rays had shown one Lung involved and the other one started. Last Winter, she developed Pneumonia. Was taken to the Hospital. She recovered and had more x-Rays. The second Lung was involved. She was ordered to the Sanatorium as soon as the Pneumonia was checked. In the meantime, she learned of Spectro-Chrome and her husband came to me. She rented an Equipment. It was installed in their home and now she is feeling well. It did not take so very long to stop the Cough. Kardoscil is normal. Turquoise was given until Kardoscil was normal; then Green Systemic. Back and Front. Orange Local on Areas 4, 5 and 17. She is in good Health now and is able to work hard.

Environment is important and also Rational Food.

Case Reports followed:—

Edward K., male, reported that he had an Itch on his Skin from the contact with wood. Took three Tonations and the Itch disappeared and he did not have it since. Turquoise, Lemon and Yellow were used.

Deputy Walter Briese reported, that when he worked in Milwaukee in a shoe factory, there were two girls who developed an Itch and the Skin Specialist could not do anything for them. Lydia D. spoke about a similar Disorder from Rubber. The Doctors could not do anything for the sufferer.

EDITORIAL

REMARKS

Several cases reported in your Planet were omitted from the print, because proper identification and address of the Sufferers were not given.

## FRAUD ORDER REVOCATION CONTRIBUTION

The following voluntary and unsolicited Contributions are hereby acknowledged, in addition to the two lists in prior months:—

- |                           |                        |
|---------------------------|------------------------|
| 296. Charles J. Renn.     | 310. Karl Roemming.    |
| 297. Margaret Rose.       | 311. Johanna Braun.    |
| 298. Madeline Coster.     | 312. Elsie Nehrig.     |
| 299. Clara Schubert.      | 313. Martha E. Bowers. |
| 300. Magdalene Schubert.  | 314. Ann Zastrow.      |
| 301. Catherine O'Donnell. | 315. Max Ihle.         |
| 302. Julia Reber.         | 316. Jessie E. Ness.   |

### FIRST CHICAGO ILLINOIS PLANET

(HOTEL ATLANTIC, CHICAGO, ILLINOIS)

Meeting Of Thursday, March 4, 1943

*Reported By:—ELSIE BEYER, Recorder*

Deputy Wilhelm Weissenbacher was in the chair. Four new Affiliates were introduced. Communication from the Principal Office was read by our Deputy about the Fraud Order.

An article from the Courier-Post about the Fraud Order case was read by the Recorder. Some of the highlights on the Suit were read by Arthur Koegel, jr.

The Deputy explained from Spectro-Chrome Home Guide how the Attuned Color Waves are used for various Disorders.

He said, "Spectro-Chrome acts upon the Physical Body not by Absorption or Penetration, but by a process of Reinforcement or Interference on the Radio-Emanations of the Chemical Body, called the Aura. We can not see the Aura, as ordinary eyes are not trained for it, but it can be seen by certain methods of Interference.

By-Laws 32 to 38 both inclusive were read. Questions were asked on Disorders and answered. Discussions followed.

Systemic and Local Tonations were explained.

In emergency cases, can Affiliates get information from a Spectro-Chrome Normalator if they be under Free Guidance of the Principal Office? We wish for this information from Colonel Dinshah.

The Recorder read an article from the Chicago Tribune on the value of Whole Grain Food, stating that they are essential to good Health.

For years the majority of people have not been getting the proper Food on account of the Refining Processes. She said, that after reading different articles in the newspaper, they proved to her again that Dinshah educates us on the right road to proper eating. She also noticed that since the War and the shortage of meat, the newspapers print many recipes for meat substitutes and also stress the importance of Brown Rice and Legumes.

EDITORIAL

REMARKS

Attention in cases of Emergency, is duly provided in our By-Law 87. Furthermore, a Telephone or Telegram according to the Rules given explicitly in Spectro-Chrome Home Guide, will promptly bring needed information from the Institute. However, one can not be under two directors. By-Law 79, Sections 22 and 23 are plain. One may make the choice.

**What Was Said Of Him 47 Years Ago When Many Of His Opponents Were  
Just Thinking Of Taking Birth!**

**THE NEW YORK TIMES  
Wednesday, March 11, 1896**

**SAYS X RAYS ARE NOT NEW**

**Views Of Dinshah Pestanji Ghadiali, the Indian Scientist.  
Principle An Old One, He Declares.**

**The "Parsee Edison" Says Many Discoveries Are Made In His Country —  
His Plans Here.**

Dinshah Pestanji Ghadiali, known in India as the "Parsee Edison," late electrician to His Highness Maharaj Rana Sahib of Dholpur, Central India, and also late Telephone Superintendent of Dholpur State, is in this city on a tour of the world.

It was Dinshah who electrified the members of the Aldine Club Monday night, on the occasion of their jubilee reception, by impromptu remarks, in the course of which he said the principle of the Rontgen X rays was not new in the East.

Dinshah yesterday explained to a reporter for THE NEW YORK TIMES his name and the Parsee system of nomenclature. "Dinshah" is his own name. It means "Emperor of Religion." "Pestanji" is his father's name. It means "One with the Holy Body." "Ghadiali" explains his occupation. It means "watchmaker."

"A Parsee reading my visiting card," he explained, "would know all about me. He would read 'Dinshah, the son of Pestanji, the watchmaker'."

The Parsee is of slight build, and below the average height. He wears a small black mustache, and his coal-black hair and eyebrows and dark Indian skin are relieved by the large, soft, glowing black eyes common to the East. He talks excellent English, fluent and grammatical. Although not yet twenty-three years old, he has been a lecturer six years on a variety of deep subjects connected with electricity, magnetism, odic force, heat, light, and various phases of the vital forces.

His father, a leading repairer of chronometers in Bombay, being of orthodox views, was opposed to his son's enthusiastic study of electricity and kindred subjects.

"My father went to bed at 10 o'clock," he said. "I used then to creep into the room and begin my studies. I worked all night and when my father rose at 5 o'clock in the morning, I retired to sleep for three hours."

Dinshah's ardor was unquenchable. During the lonely hours of the night he worked away at the manuscript of a book which was to be the first fruits of his studies. His father knew nothing of it. At length it was finished—thirty-two thousand pages in thirty-one chapters, the work of six years and the result of untiring effort. But it shared a fate similar to that which overtook the second volume of Carlyle's "French Revolution." The index was already in the hands of the publishers when the body of the work was stolen with Dinshah's valise at the station of Hyderabad, and nothing has been heard of it since.

Dinshah is not only a Parsee. He is a Zoroastrian. He wears a grand medal of the Independent Order of Good Templars, and is a member of those numerous societies of India and the East which believe that there are latent in man forces of a kind that can raise him to the condition and power of a god, if properly cultivated and developed.

He never leaves his head uncovered, wearing a Parsee turban by day, and a tight-fitting skull cap at night. The magnetic extremities of the body he believes should always be covered, so as to prevent the loss of vital magnetism, which is otherwise always passing out of the body and being wasted.

"From time immemorial," he said, sitting on the edge of his bed in his ascetic quarters, "India has been the home of spiritual culture and spiritual discovery. Most of the discoveries, so-called, of modern Western science, were known in the East ages before. They were laughed at and ridiculed by the scientists of the West, until forced finally to take note of them, they changed their names and paraded them as their own discoveries. Mesmerism and hypnotism, known for several thousand years in India, offer an eloquent example of this.

"The X rays; yes! They are wonderful, indeed, and I am probably the first Parsee to hear of them, for when I left India two months ago, there was no knowledge abroad of the discovery.

"The X ray is a lower manifestation of the astral light on the physical plane, and as such has long been known to Eastern occultists.

"The fourth dimension of matter, or the ultra-gaseous state, otherwise known as the ultra-magnetic state, or the radiant medium, exists everywhere. In the East we have always believed in it. It even exists in the pores of matter, and is capable of permeating the most solid body, so-called. Were the medium not existent, what is cohesion or repulsion? What is gravity? For, without the combining energy of the ultra-gaseous particles, and without their correlative affinity, the whole mass of the world would disintegrate and fall to pieces.

"It has been known all along that light is capable of traveling without air, for the atmosphere extends only some 200 miles above the earth. But light can not travel without vibrations, and the astral light is the vibrations of that ethereal medium which brings the light to our atmosphere.

"Some persons ask, Why can't we see that vibration? Why is it that the Eastern adepts can not show to us that light as ordinary light, &c.? I ask, Has any Western scientist ever seen electricity moving? I might as well say, Let them show it to me or I will not believe in electricity. 'Ah! but it appeals to other senses,' you say. 'We see the effects of electricity

even if we do not see it moving.' Remember, then, electricity is a physical agent. The astral light is an ethereal agent. Physical forces can be recognized by physical means; astral, or ethereal, forces can only be recognized by the ethereal eye, which is only to be developed after passing a certain stage of vigorous mental culture.

"The East has never known in its physical bearing the Rontgen X ray, but has known the very principle that guides it. The Eastern masters of the occult knew the fundamental, hidden, occult principle of the rays. Nobody has ever seen these rays, and they are physical. How can you, then, expect to see the rays which are far more ethereal? It is quite impossible. If you wish to see such things as the students of Eastern yoga see, there is only one thing you can do. That is to develop the latent powers in your own self.

"It seems to me that those who study electricity and magnetism can not but be convinced that even some physical effects of electricity remain up to this time unexplained. The time will perhaps come when these unknown things will be recognized and acknowledged as working forces; when the Western scientists will lay aside some of their prejudices and, with an unbiased mind study the religious and spiritual side of the East, which has ever been and ever will remain the land of mystery."

Dinshah's eyes gleam and flash when he talks, and his face illumines with the ardor of unquenchable enthusiasm.

Before going to San Francisco, on his way back to India, he will deliver lectures in this city. In India, his lectures have included such subjects as "Expenditure of Vital Energy, or, a Comparison Between the East and the West"; "Influence of the Solar System on Man"; "Sound an Ethereal Force"; "Odic Force or Ultra-Magnetism and the Doctrines of Zoroaster"; "Man as Master of Electricity"; "Suicide, a Vice of the Present Day"; "The Magic Power of Words and Incantations", and "Thought is Energy and Will is Power."

"I have come here," he said, "to learn physical powers and to show to the people the existence of spiritual powers."

Dinshah is an ardent admirer of Tesla, with whom he has a slight acquaintance, and of Edison. "Only I pity them", he said, laughing, "because they don't get time even to eat or to enjoy the luxuries of life."

Dinshah was the first lecturer on electric light in India. He says if Tesla were to go there the people would make a hero of him.

(Editorial Remark:—The book mentioned as lost, had 3,200 pages; not 32,000.)

---

## OUR NEW FREE GUIDANCE CHART

In order to reduce pressure on our over-burdened staff, we designed a new type of Free Guidance Chart for answering the usual General Advice Chart. Hitherto, the Spectro-Chrome Irradiation was type-written, but, the prevailing conditions made us invent a novel method for speedier work.

The new Free Guidance Chart is on similar blue paper, on the two vertical edges of which are printed the initials of our twelve Attuned Color Waves and the Numbers of our 22 Areas, as well as the Frequency of Tonation. On the bottom (horizontal) edge are the days for which

to continue Tonation and to report progress. The top (horizontal) edge has 26 directive Articles marked. These Articles are printed in full on the front and back of the sheet. The Irradiation Atcowas and various guiding details are indicated NOT in type as usual, but, by Punched Holes in the appropriate position and by reading where the various Punches are (just like a railroad ticket), all around the four edges, you will quickly get the instructions needed for the Sufferer.

The new system will go into effect Saturday, May 1, 1943. It will save Dinshah's time considerably in giving the service. He is busy printing three more books, announcements of which will appear soon.

**FIRST PORTLAND OREGON PLANET**  
(MASONIC TEMPLE, PORTLAND, OREGON)

**Meeting Of Thursday, March 4, 1943**

*Reported By:—LEWIS BISCHOFF, Recorder*

Deputy Stanley Burroughs was in the chair. He read the Principal Office communication. The Post Office Fraud Order Petition was read. Both were discussed.

The Deputy read an article from a magazine, to show how to succeed in life by setting aim for a particular object.

The Deputy's wife had a still born baby last Autumn. A medical and surgical report was read about her condition. He wondered what Colonel Dinshah would have to say about that report, a copy of which accompanies the Planet Meeting Report.

An Affiliate could not understand how the Sun may have no "Heat" and yet produce so much Heat where He shines. Explanation was given.

EDITORIAL

REMARKS

The Report about the Deputy's wife can receive no attention from the Principal Office, because our Science cognizes solely our methods, which rejected all Differential Diagnosis. That Report should have come with a complete General Advice Chart of that date, made in accordance with our requirements. Then, we should be able to do justice to the Sufferer. Cut medical and surgical views out. The World has had them 6,000 years and is still sick and more sickness is developing.

The "marvelous and miraculous" reports about the efficacy of Spectro-Chrome sent in by your Planet this month, are omitted from the print, because, no full names and addresses were given to the Editor, for identification. While he has full confidence in the Truth of the reports sent, he refuses to shoulder responsibility as a publisher, without having full information in all cases.

## EXPANSION OF OUR RESIDENT QUARTERS HAVE YOUR VACATION AT YOUR INSTITUTE

To accommodate and train our Students in the principles of right living, to restore and maintain their Health, at the same time teaching them the value of the Rational Food Of Man, we expanded our facilities to meet the increasing demand for our Personal Services.

The facilities are open to Benefit Students only, who have their Spectro-Chrome Equipments registered in their own name. Collaborators and Educational Students will not be admitted; relatives of Benefit Students or Non-Affiliates will not be admitted and no admission will be provided for transients or for less than 1 week.

Each Benefit Student will have an individual room, meals, laundry and necessary Spectro-Chrome Tonations, as well as personal Free Guidance by the Originator and Staff. However, Benefit Students unable to help themselves or in need of nursing care, will not be eligible for admission.

The uniform Contribution for the accommodation is \$35.00 per week. Students must send their request with a complete General Advice Chart and await acceptance of reservation before coming. They will have to conform strictly to the Health Regulations of the Institute and must come provided with their full return transportation and their War Ration Books. Beyond the stated uniform Contribution, there are no extras, expenses, tips or gratuities and in order to keep their mental attitude solely on the recovery of their Health, no correspondence will be permitted, except reporting to their family the arrival at and departure from the Institute.

As no inbound mails reach us, send your request through Railway Express Agency, well ahead of time.

## DINSHAH IMPARTIAL

The Universe Through The Eyes Of Dinshah

**"I Fear No One; Only God Above And Conscience Below And From Them I Have Nothing To Fear."—Platform since 1891.**

### MEDICOPHOBIA — THE FEARS OF MANKIND!

If there be any profession which possesses an extensive vocabulary of confusing, bombastic, high-sounding, senseless names, it is the medical profession. Having been in that game for over half a century, I am well aware of the verbosity, hence, when Spectro-Chrome was perfected and presented to the World, with one stroke of well-directed, scientific swordsmanship, I cut the Gordian Knot of Differential Diagnosis, emancipating Sufferers from the dreadful curse which was sapping their vitals and pockets for 60 centuries of civilization. America is fighting to free the World of "Fear." More Disorders are created through sheer FEAR of something than through actual organic derangement. Such "Fears" or "Dreads" are known in Empirical, Hit-Or-Miss Medicine as "Phobias", from the Greek word "Phobos" meaning "Fear." Here are a few samples of such "Fears" or "Dreads":—

FEAR NUMBER	FEAR NAME	MEDICAL DEFINITION
1	* Acarophobia	Fear of itch.
2	Acrophobia	Fear of elevation.
3	Aerophobia	Fear of breeze.
4	Agoraphobia	Fear of space.
5	Aichmophobia	Fear of points.
6	Ailourophobia	Fear of cat.
7	Algophobia	Fear of pain.
8	Amaxophobia	Fear of vehicle.
9	Amorophobia	Fear of love.
10	Androphobia	Fear of male.
11	Anemophobia	Fear of wind.
12	Anthophobia	Fear of flower.
13	Anthropophobia	Fear of society.
14	Apiphobia	Fear of bees.
15	Aquaphobia	Fear of liquid.
16	Astrapophobia	Fear of lightning.
17	Ataxiophobia	Fear of disorder.
18	Autophobia	Fear of egotism.
19	Automysophobia	Fear of filthiness.
20	Bacteriophobia	Fear of bacteria.
21	Ballistophobia	Fear of missile.
22	Basiphobia	Fear of walking.
23	Belonophobia	Fear of needle.
24	Bromidrosiphobia	Fear of malodor.
25	Cainophobia	Fear of newness.
26	Cancerophobia	Fear of cancer.
27	Caninophobia	Fear of canine.
28	Carcinomatophobia	Fear of carcinoma.
29	Cenophobia	Fear of emptiness.
30	Cherophobia	Fear of gaiety.
31	Chromatophobia	Fear of color.
32	Cibophobia	Fear of food.
33	Claustrophobia	Fear of enclosure.
34	Clithrophobia	Fear of jamming.
35	Coitophobia	Fear of copulation.
36	Cremnophobia	Fear of precipice.
37	Crystallophobia	Fear of crystalware.
38	Cynophobia	Fear of dog.
39	Cyridophobia	Fear of sexuality.
40	Demonophobia	Fear of Devil.
41	Dipsophobia	Fear of drinking.
42	Domatophobia	Fear of house.
43	Doraphobia	Fear of fur.
44	Dysmorphophobia	Fear of ugliness.
45	Ecophobia	Fear of home.
46	Egophobia	Fear of self.
47	Electrophobia	Fear of electricity.
48	Emetophobia	Fear of vomiting.
49	Equusophobia	Fear of horseride.
50	Eremiophobia	Fear of solitude.
51	Ereuthophobia	Fear of blushing.

FEAR NUMBER	FEAR NAME	MEDICAL DEFINITION
52	Ergasiophobia	Fear of surgery.
53	Erotophobia	Fear of lust.
54	Felinophobia	Fear of feline.
55	Frigophobia	Fear of freezing.
56	Gamophobia	Fear of marriage.
57	Gatophobia	Fear of cat.
58	Gephyrophobia	Fear of bridge.
59	Gymnophobia	Fear of nudity.
60	Gynecophobia	Fear of female.
61	Haphophobia	Fear of touch.
62	Heliophobia	Fear of sun.
63	Helminthophobia	Fear of worm.
64	Hematophobia	Fear of bleeding.
65	Hemophobia	Fear of blood.
66	Hierophobia	Fear of sacred.
67	Hyalophobia	Fear of glass.
68	Hydrophobia	Fear of water.
69	Hygrophobia	Fear of moisture.
70	Ichthyophobia	Fear of fish.
71	Iophobia	Fear of rust.
72	Kardiophobia	Fear of heartbreak.
73	Kenophobia	Fear of outdoor.
74	Keraunophobia	Fear of thunder.
75	Kleptophobia	Fear of stealing.
76	Lalophobia	Fear of speaking.
77	Leprophobia	Fear of leprosy.
78	Lunophobia	Fear of moon.
79	Lyssophobia	Fear of rabies.
80	Maieusiophobia	Fear of pregnancy.
81	Melissophobia	Fear of honeycomb.
82	Melosophobia	Fear of singing.
83	Merinthophobia	Fear of trussing.
84	Microbiophobia	Fear of microbes.
85	Molysmophobia	Fear of infection.
86	Monophobia	Fear of singleness.
87	Mysophobia	Fear of dirt.
88	Mythophobia	Fear of falsehood.
89	Necrophobia	Fear of corpse.
90	Neophobia	Fear of novelty.
91	Nictophobia	Fear of night.
92	Nosophobia	Fear of derangement.
93	Numerophobia	Fear of number.
94	Ochlophobia	Fear of crowd.
95	Odontophobia	Fear of toothache.
96	Odynophobia	Fear of sensitiveness.
97	Oikophobia	Fear of domesticity.
98	Ombrophobia	Fear of cloudiness.
99	Onomatophobia	Fear of name.
100	Ophidiophobia	Fear of reptile.
101	Osmophobia	Fear of smell.
102	Panphobia	Fear of all.

FEAR NUMBER	FEAR NAME	MEDICAL DEFINITION
103	Panophobia	Fear of everything.
104	Pantophobia	Fear of inclusion.
105	Parasitophobia	Fear of parasite.
106	Pathophobia	Fear of disease.
107	Pediculophobia	Fear of lice.
108	Pediophobia	Fear of children.
109	Pharmacophobia	Fear of drugs.
110	Phengophobia	Fear of daylight.
111	Phobophobia	Fear of dread.
112	Phonophobia	Fear of sound.
113	Photophobia	Fear of light.
114	Phthiriophobia	Fear of infestation.
115	Phthisiophobia	Fear of tuberculosis.
116	Pnigophobia	Fear of choking.
117	Ponophobia	Fear of fatigue.
118	Potamophobia	Fear of river.
119	Psychophobia	Fear of cold.
120	Pyrophobia	Fear of fire.
121	Rhabdophobia	Fear of punishment.
122	Rhypophobia	Fear of dust.
123	Sarcomaphobia	Fear of sarcoma.
124	Scabiophobia	Fear of scabies.
125	Scopophobia	Fear of stare.
126	Siderodromophobia	Fear of railway.
127	Sitophobia	Fear of eating.
128	Stasiphobia	Fear of standing.
129	Tabophobia	Fear of emaciation.
130	Taphophobia	Fear of burial.
131	Tempophobia	Fear of time.
132	Teratophobia	Fear of monstrosity.
133	Thalassophobia	Fear of sea.
134	Thanatophobia	Fear of death.
135	Theophobia	Fear of God.
136	Thermophobia	Fear of heat.
137	Tonitrophobia	Fear of thunder.
138	Topophobia	Fear of place.
139	Toxicophobia	Fear of poison.
140	Triskaidekaphobia	Fear of thirteen.
141	Tuberculophobia	Fear of consumption.
142	Venereophobia	Fear of venery.
143	Xenophobia	Fear of stranger.
144	Zoophobia	Fear of animal.

Thus goes on the enumeration of the dreads or Fears to which the unfortunate mortal is subjected in the moth-eaten system misnamed Medical Science. For none of these, have they been able to offer any explanation, solution or remedy. ALL these derange Areas 6, 7, 4 and 18, being governed through Area 1. Spectro-Chrome, by equilibrating all of these step by step, is able to cope with these refractory Disorders, proving a veritable blessing to mankind.

What happiness must be mine to be the Servant Of Mankind to bring this knowledge to the Sufferer! No wealth of the World can compare with that satisfaction — no mundane power can rob me of it.

## AN EXPERIENCE IN BURNS SHE WILL NEVER FORGET

*By:—WANDA K., Detroit, Michigan.*

I trust you will soon again have free access to the mails, as it is a pity to be handicapped like this in your great work. We here in our house would be afraid to go without a Spectro-Chrome; it has accomplished so much for us.

Three years ago, my gas oven exploded and I was right in front of the door. My entire face and right arm were badly burned, my eyes pasted together, my hair burned like a cap on my head. I had one solid blister across my face, my lips were swollen and thick in a few minutes. For me to go downtown to Receiving Hospital, would have meant at least an hour to an hour and a half before receiving attention and the pain was so intense, I don't believe I could have stood it that long. In a flash the skin on my face was so tight I thought it would burst. As well as I could, I tried to tell my mother where the cocoanut oil was and what Colors to use; it was hard to talk with a stiff face. Before one hour was up, the pain subsided; I got up and ate my evening meal with my family.

At 9 o'clock that night, I took the second Tonation and slept all through without a Doctor and without any opiates. The Gas Company representative just shook his head, made out his report and said if I did not call a Doctor, they could not be held responsible. I told him they didn't need be, as I would be well and without scars — thanks to Spectro-Chrome and I am. I have a small snapshot which shows the awful scabs, taken a week afterwards. Don't you ever think I am not grateful to you. I shall never forget that experience as long as I live.

## MEASLES NORMALATED BY SPECTRO-CHROME IMPENDING MASTOIDITIS AVERTED

*By:—MURIEL H., West New York, New Jersey.*

I thought you would like to know that my daughter, aged 11½ years, became ill with Measles, last Wednesday.

I immediately used the Turquoise Color Wave on her, alternated with the Magenta. By Sunday, the rash which had been very heavy and complete, had almost vanished, so, I used the Lemon for three Tonations and tonight used the Yellow on her.

I am pleased to say she seems completely recovered. She is in good spirits, seems full of pep and her skin is quite clear; her appetite is coming back.

During the course of the Disorder, she once complained of a pain behind the left ear. I immediately used the Turquoise on her and there was no recurrence.

## GIVEN TWO YEARS TO LIVE TUBERCULOSIS SUFFERER NORMALATED BY SPECTRO-CHROME METRY

By:—AFFILIATE, *Greenwich, Connecticut.*

In the May 1942 issue of Spectro-Chrome, page 3,504, there is a little note I sent to the Institute; in it I stated that I hoped to write soon again of greater success. Well, here it is, sir!

Over three years ago, I was told by one Medical Doctor that I had an "Inactive Koch" in my Left Apex. I was not alarmed and went to several other Doctors, who dismissed the idea and said "there is nothing to worry about." The first Doctor called by 'phone and asked me to submit to further examinations, since he wasn't certain at first of his Diagnosis! I kept going, until I finally took an X-Ray. What my X-Ray and Sputum Tests, which also I had taken, showed I don't know yet, but, one Doctor advised me to go to the country for a rest. I was not able financially to do so and was told that the City and State will help me. The result was, I landed in Bellevue in New York. From the very first day on, the advice centered on collapsing the Lung or an Operation. My "Tests" at first showed Negative, till three months after I "succeeded" in becoming Positive. Having close quarters with Positive Sufferers for so long, it was no wonder. I regret to say I submitted to a Pneumothorax (Lung Collapse) under the pressure of a Doctor, but made up my mind never to permit an Operation.

Then I was transferred to Sea View, with more disappointments, hardships and unhappiness. There the Operation was again being mentioned to me, when a good friend of mine, a friend in need indeed, told me of Spectro-Chrome.

While I was in the Sanatorium, I became everything but better and my Doctors assured me and my family, that if I don't let them operate on me, I have only two years to live.

Since I had nothing to lose under the circumstances and after having carefully studied the chances of Spectro-Chrome with what little reading matter I had of this Science, I decided to leave the Sanatorium *against* the advice of my Doctor.

Of course, I didn't tell him that I would get well without Surgery, with the help of an Equipment of which "they" will all hear in due time. When I left, I had looked at it from all angles and was certain of Spectro-Chrome Metry as a Colossal Method Of Healing.

While undergoing an examination for my Insurance Certificate, I was told recently that my Lung condition, which was to take years and years of rest and an Operation, was perfectly well cleared up. This, thanks to Colonel Dinshah, a great Scientist and Spectro-Chrome Metry, his Science.

Please, sir, if you ever wish to use my case as an example, kindly do not use my name or the right initials for obvious reasons.

Thank you and for ever let me be associated with Spectro-Chrome Metry.
