## EDITORIAL

-MARIANNE FRANCIS

### COUNTDOWN: THREE MONTHS?

We are now entering the Fall as I write this editorial. Three months of 1967 remain, three months that may prove to be highly crucial for this planet and its peoples.

The Summer has come and gone, weather records have been broken in many areas, race riots have reached a new crescendo, and all indications point to an escalated war in Viet-nam resulting in World War III.

In our Spring issue, we enclosed a loose-leaf pamphlet entitled: "We Come In Peace" received here at the Center by Tele-thought beam on June 3rd. Our readers will note that stress was laid on the fact that "a tremendous unleashing of violence in third-dimensional form" was being brought into being. Further stress was laid on the fact that "the midnight hour approaches for CHANGE" upon this planet.

I would refer you, our readers, once more to my editorial in the Fall/Winter '66 issue of STARCRAFT wherein I asked "Is 1967 the Year of Destiny?". While dates have ever proved difficult to predict, it would seem many reliable sources indicate a termination of third-dimensional existence AS WE KNOW IT, before this year ends. Since my editorial of '66, and since the receipt of "We Come in Peace", several new sources of information have opened to me. These sources are channels I regard as valid ones. Information coming from these sources correlates to a high degree with the statements made by the Space Brothers we contact here and with the Universal Link material, regarding the imminence of change and the Second Coming.

Turbulence is everywhere and tremendous instability is manifesting in individuals as a whole. Many, many Light Centers and their personnel have been beset with difficulties, and attacks from negative factions have increased. All sensitive persons to whom I have talked this past Summer have been aware of tremendous pressures and many have literally had to struggle daily to remain stable and integrated.

Were we aware of this or were we not? Were we not warned constantly by the Space Brothers that this time would come and these pressures would bear down? The need for inner stability and balance has been emphasized again and again in Tele-thought communications received from "The Brothers" this last year. A preparation in consciousness for the coming events and changes

has been given and we hope our readers have followed these suggestions. In brief, it is suggested that all serious students of Life gather their inner forces and marshal these in poise and tranquility to await the Coming of the Christ Presence and the Great Changes. Forces of dissension and materialism scream on all sides. Unstable individuals, both within and without the Space and esoteric groups run hither and thither, torn by their own inner conflicts. These people tear down spiritual realities, attack the reputations of those who carry enlightenment to the masses, and spread their own malaise and infection of soul to all whom they can reach. Though these sick souls may need compassion, it is foolish for workers assisting the Space and Hierarchal programs to allow such to obstruct or distract them. Energy is drawn from Light workers when their prolonged attention is turned on these sick souls and their antics.

Vital energies must be conserved by Light workers themselves for their own poise and the needs of the work itself, hence, it becomes of paramount importance that all destructive and highly unstable individuals be virtually ignored. Remember, it was said, "Evil contains within itself the seeds of its own destruction". All individuals in any walk of life who live by destructive motivations and actions will find soon that this statement holds truth. "He who lives by the sword will die by the sword" and he who lives by destructive impulses will die by these same energies.

It seems necessary at this time to examine the Space movement as a whole and analyse the motivations of the various groups, clubs, and organizations. We find the "scientific" groups who search for pieces of "hardware", sightings of craft, and lately, "Space monsters", in order to assure themselves that they are hard-headed scientific investigators. These people and organizations deplore what they term the mystics, cultists, and psychics whom they feel clutter up the "Saucer" field and cause confusion and derision in the scientific ranks. These people look on all contactees as "nuts", harmless or otherwise, and cut themselves off from any link with such "undesirables". This is scientific??? Particularly do they deplore spiritual matters being linked with the coming of the Saucers.

Then we have those who regard certain physical contacts as valid but deride all telepathic contacts, channels or information as "psychic" or mystical and thereby, invalid. Orthon, a Space man, has this to say: "One thing which we want to make clear to all is that the mental contacts we have been discussing are definitely NOT what your people call "psychic" or "spiritualistic", but direct messages from one mind to another. We call this mental telepathy, a unified state of consciousness between two points, the sender and the receiver, and it is the method of communication most commonly used on our planets, especially on planet Venus. Messages can be conveyed

between individuals on our planet, from our planet to our Space Craft wherever they may be, and from planet to planet. Space or 'distance' as you call it is no barrier". This is quoted from Inside the Space Ships, by George Adamski.

On the reverse side we find many psychic and pseudo-esoteric groups receiving "astral" contacts masquerading as Space people. Beyond this are the occultists who also speak deridingly of physical contacts with humanoids from other planets in this system as invalid and not in accord with their particular school of thought.

Very few of these people are seeing more than one facet of the whole picture. Yet, each group believes its own facet to be a whole. The picture is one of dissension and confusion which must cause much genuine bewilderment and concern to the Space beings who are visiting this planet at this crucial time and attempting to bring aid and enlightenment.

Let us state very definitely that Space people coming from the Solar and Galactic Confederations have utilised many types of contact. These include contact by physical meetings, radio, telephone, telepathy, tensor beam, mental impressions, and inspiration. On occasion they may also have chosen psychic means of contact (trance mediums, automatic writing, clairvoyance and the like). I believe, however, that these psychic means have only been used when a need to contact an individual existed and all other means of contact were unavailable.

Much evidence among genuine contactees (whether these be physical or telepathic contactees) points to the fact that the majority of Space beings visiting this planet are evolved humanoid types of life. They are evolved and balanced in that they see life as a whole, they live within a framework of Cosmic and Galactic Law, and they ARE well aware of SPIRITUAL REALITIES. The more evolved Space beings may be representatives of the Saturn Tribunal or Solar Confederation. Their knowledge of life in all its manifestations far transcends Earthman's comprehension.

If the materialistic scientist cannot accept the reality of life on other spheres, planets, or higher dimensions, it is only evidence of his limited comprehension, his imbalance and compartmentised existence. His understanding is limited to what he can learn through his five physical senses. He cannot understand or accept higher truths until by spiritual growth the extrasensory perceptions are opened up and a greater understanding gained through an inner perception or intuition. Evolved Space beings have this higher perception and awareness which gives them knowledge of Cosmic Truth. Hence, they view Earthman's religions as limited, being

based on man-made Church dogma often lacking in true spiritual understanding. They speak from a knowledge of Universal Science and Universal Law, of the Cosmic Christ and of the Creator, the All-Knowing One. They speak of evolution of consciousness and frequencies of Light. If these thoughts and concepts are unacceptable to the so-called scientific or materialist groups on Earth, what matter?? They have all eternity (off this planet, I may add) to rectify their errors, enlarge their knowledge, and free themselves from their limitations.

Merely because we dwell on a materialistic planet, where science is divorced from spiritual Laws and realities, does not compel us to apologise for Space people or contactees who ARE aware of these and seek to teach the masses of truths at many levels of being.

I suggest that "psychologically minded" investigators and Saucer groups who dismiss all contactee claims with evolved Space men and women as false, yet embrace with avidity Space "monster" contacts, take a serious look into the dark recesses of their own minds and souls. Likewise, it is suggested that groups purporting to do serious research in this field, cease branding as "psychic" all who receive genuine telepathic contacts.

The Solar Light Center is NOT a psychic organisation, it does not publish material received psychically, neither are its channels contacted psychically. This does not imply we disapprove of the psychic field of investigation. We merely regard it as another field of activity and not our own. Any serious student of occult sciences is well aware that psychics, by and large, contact the ASTRAL plane of existence. This is NOT our work. We are, therefore, not a "psychic Saucer research magazine" as one small newsletter from Michigan, in ignorance of facts, described us.

In order to finally clarify this point, the following facts are given: Telepathy (tele-thought) communication is the normal and natural means of communication used by the Space people to communicate among themselves. This is also the means by which they contact many channels on the Earth. Tele-thought communication is the means by which material for publication in STARCRAFT is received. I do NOT use psychic means. I do NOT hear voices, see visions, go into trances, or "imagine" communications. Regular times are set up for "contact" when I make my mind passive, establish contact, and receive, through pure telepathy or telethought beam mechanism, a communication. As this enters my consciousness, I then speak it verbatim into a microphone and it is recorded on tape. This is then transcribed and published as given, except for necessary punctuation.

On several occasions Starcraft (or Saucers if the term is preferred)

have been observed over our Center and also in areas where I lectured after I had been impressed that they would put in an appearance. Several people have been with me on these occasions and verified that I had telepathic impressions with immediate subsequent sightings. This, I think, should effectively dispose of the odd question sometimes asked by the layman: "Miss Francis, do you think all this could come from your subconscious mind or a psychic realm?" In answer I can only say, if this is so, I have an almighty powerful subconscious that manifests as a large, physical Starcraft from time to time!!!

Let us reason together and realise life as a whole consists of many levels of existence from the physical third-dimensional to the etheric (rarefied physical matter) and on up to levels of pure spirit. Many beings at many levels are aware of and concerned about the coming FREQUENCY CHANGE and the COMING of the COSMIC CHRIST and the SECOND COMING. Enlightened Space people are our elder brothers and sisters and their contribution at this time is invaluable. Let us have peace and tolerance among the Space groups, the scientists, and the laymen that more knowledge may be gained.

This year, 1967, rolls on, and if the lessons of peace and brotherly love are not learnt, events themselves will force drastic reappraisal by many people on the surface of planet Earth!

#### PROPHECY FOR 1967 GIVEN IN 1923

Received by Marguerite Walker of Medford, Oregon, in 1923:

"THOU SHALT SEE THE END OF MAN'S CYCLE AS HE  
LIVES TODAY, IN THE YEAR OF 1967"

As these words were spoken into my consciousness, I saw a blackboard with a circle three-quarters drawn on it. As I watched, a piece of chalk finished drawing the circle and wrote 1967.

This was given to me when I was 16 years old, just after I had gone through a very hard testing period.

—Marguerite Walker

#### Quoted from a Reader:

"It was with great pleasure and deep inner satisfaction that I received and read four of your wonderful publications. Your work is of the greatest benefit to mankind, and you and your staff are to be highly complimented for your diligent effort.... — J.B.

STABILIZATION MEASURES

(A lecture by Orlon)

We come this evening and communicate with you upon this occasion. Our transmission is, of necessity, somewhat impeded due to the atmospheric conditions prevalent upon this section of the surface of your planet. The inclemencies and extremes of your weather are only in the nature of that which we have previously prophesied (if we may use this word) to you as due to make their appearance at this time. The changes in climate which are taking place in these areas are due to the acceleration in the polar shift and to the degree of axial unbalance already manifesting in the planet.

Now, we do not ourselves anticipate an abrupt axial slippage at this present time. There is, none-the-less, great danger of temperature conditions radically deteriorating to extremes unheard of in the annals of your records. Further than this, the outbreaks of violence, both within your cities and within your nations, will also accelerate due to the increasing frequencies now flowing in and the degree of unbalance manifesting among your peoples.

We, without doubt, consider the condition upon your planet at this period within the emergency range of what you might term a "red alert" condition, and are taking all measures possible from our vantage point to bring about stabilizing agents as far as is now possible within the limits of Cosmic Law, such law dealing with non-interference in the internal affairs of a planet. However, planet Earth is now on the verge of such tremendous change that if this is not offset by the stabilizing forces, it will become magnetically unbalanced to the degree of an axial flip and resultant effect on the magnetic balance of nearby planets, such as Venus and Mars. Thus, we are bringing into play stabilizing agents on the outer perimeters of your stratospheric layer and will continue to do so. Also, many of our peoples are being withdrawn from the surface of your planet and those who remain will do so only for a short period of time until evacuation procedures can be carried out among those of your peoples qualified to leave.

Much disruption of the atmospheric layers of the planet is due to take place in any case as the approach of the comet or asteroid becomes obvious, the one particular asteroid which your astronomers have spoken of called Icarus. However, in the months preceding this, a great deal of abnormalities will manifest within the magnetic field of the planet and electrical storms of much ferocity may be expected.

Within yourselves, our brothers, our sisters, already much has been given you as to the necessity for stabilization in order that you may remain as poised as possible at this time. However, we would stress that all who are working with the Light Centers and the Sanctuary areas throughout the planet in any way, shape, or form, are requested to do their utmost within their own pattern of being to stabilize such areas against the onslaught of the greater violence of thought forms and against the negative patterns of the masses who do not understand of the nature of these changes.

Those who work consciously in conscious attunement with the Light energies and with ourselves at this time are relatively but a handful upon the surface of your planet compared to your many millions who walk its surface. Therefore, that which is requested of them is in the nature of a herculean task, and we are aware that demands have been put upon many such as would not have been the case under altered circumstances of greater time or a greater degree of harmony within your peoples themselves. Such being the case, it is necessary for all true Light bearers to exchange that which is the nature of energy, of Light, of Love, of Understanding, in order to assist each other and each Center at this time of great stress and strain upon the few.

We, ourselves, are doing all that which is possible and permitted to us, and since emergency conditions are in being at this time and will continue to be, we cannot render certain aid which would have been the case on a more personalized basis had there been greater time, and concerns of personalized nature are somewhat to be sacrificed for the greater good of the planetary concern as a whole.

You as individuals can only do that which each one feels within his own being possible to render in service to the One Light, the All-Knowing One, Our Creator. For all service of a true nature is done with this motivation. All service is of service to the One Light, and those of you who work with us join us in this venture, do not serve us but serve the One Light, do not serve any upon this planet, but serve the One Light. Our Radiant One in His infinite wisdom has decreed through the Laws which we have followed and understood for many milleniums of our existence, that certain changes take place as certain periods of time end, and it is by our understanding of the nature of these changes that we, ourselves, are living our individual lives in peace and harmony. When we perceive the confusion and the utter chaos of the pattern of living upon your planet, we can only look with sorrow at the lack of understanding within the soul of Earth man. We can only extend our love, our brotherhood, our Light, at this time and our craft in your atmosphere to be of aid to your peoples as the change comes rapidly now.

Be prepared at all times for the possible necessity of evacuation of personnel, for this may take place abruptly and you will be required to take naught with you save that which is of life, and of life we speak of those beings which are living. That which is inanimate cannot be removed from your planet in terms of goods, possessions, material things, for these will have no value. All that is necessary will be provided for you, as there is an abundance of these things upon our planet and our craft. There is not, however, an abundance of Earth people who carry within their beings the understanding of things Cosmic, and all those whom we can reach and awaken we will: For you are our brothers, our sisters in Light, and we cherish above all things the thought of taking from this planet all Earth peoples who can reach outward and who will be returned in the New Frequency to bring in the Golden Age of Light. We have an infinite regard for you, our brothers, our sisters in Light, an infinite regard for LIFE. Whether it be the spark within the human or animal form, it is a spark of intelligence and life

created by the Divine, and as such we respect and extend our love to all these sparks and creations of the All-Knowing One.

Rest assured that you will be one with us in consciousness and being as the changes come rapidly now, that all things will be cared for within the Plan of an infinite all-loving Creator. Hold yourselves in readiness; hold yourselves poised and stabilized that the One Light may permeate your beings and may fill you also with a desire for service to that Light which fills our own people.

In this Light, I, Orlon, leave you in consciousness of great changes and great happenings. May Our Radiant One be one with you, and you one with His Light.

(By Telethought transmission, 22 Aug. 67. Channel: Marianne Francis)

#### SIMULTANEOUS UFO SIGHTINGS

Four reports of a brilliant UFO which all occurred at 11:15 pm July 5th over Oregon and Washington states made this an outstanding sighting.

Marianne Francis reported being with Jeanne Hagen at the Center that night when a brilliant white and greenish-blue object like a comet streaked across from East to West, leaving a wide trail of light etched across the sky. The huge head seemed to explode and it was thought this might be one of the energy devices the Brothers spoke of in our Spring issue of STARCRAFT.

Mr. & Mrs. Vern White of Gold Hill reported this sighting at the same time which appeared a brilliant blue with a white tail travelling East to West at terrific speed. It was the size of a basketball seen at 100 feet.

Mr. & Mrs. John Carpenter reported a similar sighting over Puyallup, Wash. at that same time. A huge comet-like object streaked westward across the sky leaving a trail of golden sparks which glowed after the object seemed to explode with a brilliant greenish-blue flash.

In Ashland, Oregon, Harold Brande reported seeing an object at the same time and also measuring its altitude and velocity using two telescopes set up on a known base line. The UFO appeared in the East and travelled Westward over a large arc of sky. Harold and a friend took accurate measurements of time for a given arc and calculated its altitude as 100 miles with a velocity of 52,000 mph. Its length was estimated at 2000 feet and weight a million metric tons (based on construction similar to our Satellites).

#### SUMMER SIGHTINGS OVER SOUTHERN OREGON

- June 17 - Brilliant blinking light, extremely fast, gone in seconds to West.
- July 3 - Starcraft over Center seen by Marianne, Kenneth, & Gunnar Merit.
- July 5 - Comet type craft described above.
- July 7 - Starcraft seen by Dr. Dan Fry and his wife, Tahalita, over Merlin.
- July 8 - Starcraft seen over Center at 11 pm.
- July 11 - Two Starcraft going at right angles nearly intercepted one another. Half circled each other then proceeded in original directions.

OCCULT CHEMISTRY AND THE PERIODIC TABLE

One of the first principles the chemistry student learns is that elements are classified according to their positions in the Periodic Table of chemical elements. Science shows that when the elements are listed according to their atomic weight, they fall naturally into groups having similar chemical properties. This cyclic principle is based on the repetition in structure of the outer VALENCE SHELL of electrons which determines chemical properties to a large extent. Atoms of larger mass contain more neutrons and protons in their nuclei. For each positive proton in the nucleus, there is a negative electron bound in one of the shells surrounding the nucleus. Lighter atoms can hold up to eight electrons in the valence shell, then the next heavier atom forms an outer shell with one electron in orbit about the completed eight-electron shell. In heavier atoms, the outer shell can hold up to 16 or 32 atoms before a new shell is started. Thus, there is a cyclic pattern which is repeated as each increases in the number of electrons it contains, depending on the number of protons in the nucleus. This periodic nature of matter has been very well established and accounts for families of similar chemical elements.

Now, how does this modern atomic theory fit in with Occult Chemistry in which data is obtained from direct observation by clairvoyant magnification of atoms and molecules? (See the previous two issues of STARCRAFT.)

Occult Chemistry verifies that the elements are divided into distinct families according to the seven fundamental types. Each type has its distinctive configuration of ANU which are heart-shaped basic building blocks. Various groups of ANU rotate as a whole about their own axis to form subatomic units. Also, as previously described, the ANU itself has three types of motion: rotation, precession, and pulsation. These complex motions generate force field patterns which are classified into seven groups corresponding to the periodic table. Typical atomic shapes are in figure 1.

SPIKE  
Lithium

DUMB-BELL  
Sodium

TETRAHEDRON  
Beryllium

CUBE  
Boron

OCTAHEDRON  
Carbon

IRON, COBALT, NICKEL.  
BARS

NEON, ARGON, KRYPTON.  
STAR

Fig. 1. THE SEVEN FUNDAMENTAL FORMS OF THE ELEMENTS

The seven types of atoms in figure 1 are each represented by a typical atom. The larger atoms are more complex, as is expected, however, the basic characteristics are retained. For example, the potassium atom has nine SPIKES radiating outward from a central globe instead of one spike as in the Lithium atom. Certain of the lighter atoms do not resemble any of the basic types, having their own unique structure. The classification of elements by group and type is given in figure 2.

GROUP	TYPE	ELEMENTS IN GROUP
1A	Spike	Li, K, Rb, Cs, Tm, Fr
1B	Dumb-bell	Na, Cu, Ag, Sm, Au
2A	Tetrahedron	Be, Ca, Sr, Ba, Yb, Ra
2B	Tetrahedron	Mg, Zn, Cd, Eu, Hg
3A	Cube	B, Sc, Y, La, Lu, Ac
3B	Cube	Al, Ga, In, Gd, Tl
4A	Octohedron	C, Ti, Zr, Ce, Hf, Th
4B	Octohedron	Si, Ge, Sn, Tb, Pb
5A	Cube	V, Nb, Pr, Ta, Pa
5B	Cube	P, As, Sb, Dy, Bi
6A	Tetrahedron	Cr, Mo, Nd, W, U
6B	Tetrahedron	S, Se, Te, Ho, Po
7A	Spike	F, Mn, Ma, Il, Re
7B	Dumb-bell	Cl, Br, I, Er, At
8A	Star	Ne, A, Kr, Xe, Rn
8B	Bars	Fe - Co - Ni Ru - Rh - Pd Os - Ir - Pr

Figure 2. Classification of Elements

Note that there are 8 groups in the Periodic Table, but only 7 basic types. The reflected symmetry between groups 1 and 7, 2 and 6, 3 and 5 accounts for this distribution.

The Rare Gases (8A) are Star shaped and flat. In contrast, the Inter-periodic Group (8B) has bars radiating outward from the corners and sides of an imaginary cube, making a total of 14 bars in all. These interlock in molecular combination to give great strength as found in iron (Fe).

Figure 3. Oxygen Atom

OXYGEN (see figure 3) has a very unique structure consisting of two in-laced spirals rotating rapidly in opposite directions. Either spiral consists of a chain of positive and negative ANU pairs linked by five "heptad" units at nodal points along the 5-turn spirals. Forces flowing through each ANU from top to bottom in the spirals bond them together as a chain. In the positive spiral the force flows up to the top then crosses over and flows down through the negative spiral to complete its circuit. A heavier isotope of oxygen has an extra 20 ANU in groups of 4 situated between the nodal pairs along the two spirals.

HYDROGEN (figure 4) is comprised of 18 ANU forming two triangles (one positive and one negative) with sets of three ANU at each corner. Two types of hydrogen atoms have been observed: one with 9+ and 9- ANU, the other with 10+ and 8- ANU forming triangular pairs. This latter type could possibly be the H+ ion. The Deuterium atom appears to be made up of one of each type Hydrogen atom set at right angles to each other. The outer shape of the H-atom is ovoid, being formed by a force field generated by the rotating groups of ANU. In compounds, the two triangles often separate as in methane ( $\text{CH}_4$ ) which has one hydrogen triangle over each of its eight funnels.

Fig. 4. HYDROGEN ATOM

CARBON is a typical octohedral type (figure 1) with the eight funnels radiating outward, one at each side of an imaginary octohedron, with four ANU making a central focal point. The funnels act in pairs (one being positive, the other negative) to provide the four valence bonds typical of carbon. The octohedral shape and symmetrical valence bonds account for the very close-packed atoms found in diamond crystals of carbon.

Compounds of atoms in molecular structures are considered by modern science as being discrete atoms held together by forces represented as valence bonds. This view is in sharp contrast to that obtained by clairvoyant observations which reveal that atoms are often broken up in compounds. In carbon monoxide, for example, the carbon atom is split in half with the oxygen spirals set between four funnels at either end. Many compounds of both organic and inorganic chemistry have been investigated with interesting results. Those who may wish to study further in this field are referred to "Occult Chemistry" by Besant and Leadbeater. Anyone seeing clairvoyantly anything similar to atomic structures is invited to write in about it. Some of our readers have already reported on this.

A CHALLENGE TO YOUNG PEOPLE

(By the Space Brothers)

Greetings in the Light of Our Radiant One, my brothers, my sisters of the Earth planet. We are very happy and honored to speak with many of you of the younger ones on your planet whose minds are not so formed with the rigidity of many years of false concepts and false teachings. We speak with you in anticipation of much discourse which is yet to come to your peoples and to the minds of the younger ones. We speak in anticipation of meetings between ourselves and yourselves, many, many of you in the times which lie ahead; for soon in the not distant future our craft will be landing on your planet.

Your peoples, many of them...those who can attune their minds with the things of the NEW... will be acquainted with the nature of our coming and the nature of our being. These peoples will meet with us in peace and in understanding and in Cosmic Brotherhood, knowing themselves to be the children of One Creator of all created life throughout the Universes of God.

We speak with you upon this occasion, knowing of many questions within your minds of the newness of that with which you are confronted. We speak with you that we may in some measure bring to you a greater understanding, a greater wisdom of the things which are eternal in nature. Change comes upon your planet. Change comes in the concepts of Earth man. Change is already all about you in the changing patterns of your society, of your moral standards, of the very things of which your traditions and your heritage have been built. Certain of these changes are what might be termed good. Certain of these changes are of degenerative nature. Earth man must choose that which he takes into his own consciousness, that which he makes a part of his own being. Each individual upon your planet is responsible to no one but to God, to no one but the One Creator of his being, for that which he IS, for that which he BECOMES. Therefore, all individuals must choose at this period of time to what they align their consciousness, their mode of life, their very existence, and as they so choose, so will they stand at the time of the Coming Changes, the changes which are already all about you.

Many things of confusion manifest upon your planet. Many concepts beset your consciousness and leave you in states of bewilderment as to which path to choose, which path should be yours in honor, in dignity of being. We state to you that you have, each one, unfailingly within you, a spark of the One Creator and to which, if you will attune, will lead you in the pathway which is leading to the future, the pathway which leads to the stars, to the time of that which has long been forecast by the ancient ones, called in your philosophy, the GOLDEN AGE OF MAN, in ours, the Solar Age, the Age of Cosmic Enlightenment.

The technologies and scientific achievements of your peoples are leading them far beyond the confines of your planet. Yet, these technologies and these scientific achievements are not teaching man of the inherent nature of

his own god-being. We speak now in no sense that you might consider blasphemous. We speak of the god-being as that spark within each individual created of the One Creator, that spark which may be expanded and which illumines the being of each so that they become of the nature of the Creator and become co-creators in Light, also.

Your technologies and scientific achievements have been tremendous within the last three or four decades of your time, but the spiritual unfoldment of man has not kept pace with these achievements, and therefore man upon your planet is on the verge of destroying the very edifice upon which he has built his civilizations. Because of the misunderstandings, because of the racial differences, because of differences of creed, dogma, sect, and nationality; because of the nature of many of your races who are backward compared to others, there is great conflict, there is great violence upon your planet and even greater violence is threatening. Yet your peoples may find a path through this labyrinth of confusion which besets them if they will but turn to the infinite nature of their being.

We who come to you from many planets inside of your System and other planets outside, from other planets far distant from your own, have learned to live in peace and brotherhood and understanding with one another upon our own planets and within our System of planets. Such understanding is not difficult, our brothers, our sisters of the Earth planet. When man once masters that nature of his which partakes of the animal and unfolds into a consciousness of the higher self inherent within him, all differences become small factors in the larger scheme of affairs Cosmic in nature. When Earth man realizes he is but not one planet inhabited within a whole Solar System containing no other beings, but is a small planet among a myriad systems teeming with life, teeming with interplanetary travel, then will he understand of the smallness of his concerns and reach outward and partake of that help which we, your brothers and sisters from other planets, offer to you at this time.

We are permitted by the Laws of the Confederation and the Laws of the Saturn Tribunal governing this System to offer to you, planet Earth, aid and assistance to guide you through this period of tremendous upheaval and change. However, we are not permitted to force upon you that which you cannot willingly accept. Earth man must reach out in sufficient number, in consciousness, that our craft may land in peace and may be greeted in understanding, that we may walk openly upon your planet and commune with you even as we do with our brothers and sisters from other planets.

Our purpose at this time is to acquaint your peoples with the nature of changes which come, of the nature of our craft in your skies, and of the necessity for stability of being in each individual; for the vast changes taking place are creating tremendous upheavals within the consciousness of all: upheavals which are difficult to contain within the mind, within the emotions, and many find themselves seeking in strange pathways. Many find themselves left without a foothold upon those traditions and those heritages on which

they have built their existence. Now, all is change, and the only foothold of stability exists within the core of each individual, and as each one, so stabilized, so poised in consciousness, links and unifies with others so stabilized, your planet will be held in balance. But if sufficient of your peoples rush in confusions of violence, of destruction, throughout your cities and your nations and wage senseless wars, one upon each other, and know naught of the nature of love and brotherhood, then will your very planet rock upon its axis and we ourselves will, of necessity, remove those whom we term the children of Light from your surface.

You, the younger ones, will inherit the future. You, the younger ones, of necessity, must come to an understanding of yourselves, and it matters naught if your concepts differ from those which have gone before if these concepts are aligned with the principles of Light, of Love, of Brotherhood, of Understanding and Wisdom. For the things of the NEW come in and the things of the OLD crumble and vanish. Each must determine wherein he stands at this time of change upon your planet, and as we find within the heart and the mind of each individual, understanding and the Light of TRUE enlightenment dawning, then shall we in consciousness link with that one and make ourselves known in the days which lie ahead... days of great CHANGE, days of great CHALLENGE... days in which Earthman shall find himself as never before in a changing world, in a sea of utter confusion, in a time of greatest challenge known upon your surface.

We speak with you upon this occasion that we may link with you this first time in consciousness that our concepts may reach you and you may have time to dwell upon these things which we say to you.

Our transmission is by Telethought beam transmission with the mind and the frequencies of this one who is aligned with us in consciousness. The simplicity of this operation is, to us, a matter of little difficulty. Once the scientists have mastered the technology which we offer, such matters will become of commonplace understanding to your peoples. We withdraw our communication and leave with you the Light of Our Radiant One, the Essence of our beings. May you be one with the Light of the Coming Age of Reason.

Adonai vassu, my brothers, my sisters.

\* \* \* \* \*

(By Telethought transmission, 26 Aug. 67. Channel: Marianne Francis)

#### A SPACE MAN'S PRAYER

Oh Radiant One, I your child humbly ask that my vision be not blinded; that my strength be not weakened; that my spirit be not shaken; that my emotions be not stirred beyond control; that I may serve in THY great work to the fullest of my ability. For there is nothing in my heart but the desire that THY will be done. Amen. (Korton of Mars)

CRAFT XY7 CONTACT

Our brothers, our sisters in Light, Craft XY7 identification. Communication channel now open. Recall of certain craft to central area of command is now taking place, these craft to be recalled for specific mission and sent forth again very shortly into your atmosphere. Identification of our craft (XY7) made for a specific reason which will later be revealed.

Your "sightings" (as you term them) of our craft have taken place as we have stated they would over this and other areas. Our craft have been in many vicinities, particularly along the West Coast region, for purposes of stabilization of energies along fault-line localities. However, the stabilization of other more volatile elements in your populace also is requiring the attention of many of our peoples and our command craft. The instability manifesting within the world scene is accelerating and will continue to do so, forming highly explosive situations, as we stated some time ago would be the case in many areas at once, not only in one or two isolated localities.

The disturbance of the fault lines in your planet, particularly around the Mediterranean basin is taking place prior to volcanic upheavals and the greater subsidence of portions of land in those areas and others.

We, at this point, can only repeat the information which has been given to you many, many times. We regret that we may perhaps sound repetitive, none-the-less, it is necessary that you take into your consciousness fully those things which we say and utilise them at this time through which you are now passing.

Stability of being within the individual is of paramount importance, for as the greater eruptions and turbulence take place, all elements will be in a state of chaos and all elements mean elements within the human body vehicle also. Therefore, it behoves the indwelling soul of each to assume mastery and dominion over the elements within their own kingdom or body vehicle of expression: the body vehicle being the physical, emotional, and physical shell. These are the vehicles most apt to cause disturbance and to become out of control unless the indwelling self or oversoul takes command and asserts its mastery or dominion over these elements.

You have been notified (through this and another of our finely attuned channels known to you as Teska) of the coming disruption in the human Kingdom where resistance meets the increased frequencies. We can only repeat that this will undoubtedly take place among many millions of your peoples whose resistance to the coming high frequencies of energy will set up highly disruptive states in their own body vehicles of expression. These will, in turn, cause violent outbursts of emotion ranging from anger, violence, to states of extreme suicidal tendencies. All who do not keep control are subject to these influences and the disruption of their own energy flow of vitality.

We, therefore, do stress the necessity of inner stability, of inner poise despite all appearances to the contrary on the outer scene or within any individuals within the environment of the said individual. We would also repeat at this point that not one of you is responsible for any other being unless that being be a minor or child. All adult beings are responsible only to themselves and none is responsible for another adult being. One may feel love, compassion, a desire to help. These things are admirable, but responsibility is entirely another thing. Therefore, each must recognise that the responsibility for one's self lies only with that self. No matter how close the relationship in the time into which you are now passing, each is responsible to the indwelling soul or overself and to the god-force only. Each will be held accountable by their own thought patterns, actions, behaviour patterns, and only by these.

The time has come, not for that which your Christian religion would call a judgement, but for the final sifting of the "wheat" from the "chaff", as your biblical phrase would have it. The time has come for each individual to make the stand upon the ground which is theirs, in pattern of being, to stand upon, to make the final decision as to where they stand and to whom their allegiance is given. By allegiance we speak in terms of forces of Light and forces of disruption... we do not speak in terms of allegiance to individuals. Individuals may align themselves and stand for forces of Light or disruption, but each must make the choice as to which forces they align themselves with. By this decision the Light within will either show forth from the individual or it will be dimmed. It is by this Light or the lack of this Light that the frequency rates of the individual will show

forth at the time of the evacuation from this planet. Therefore, the decision, once more, is an individual decision. Each will decide where they stand and whether they align with the forces of Light who will carry out an evacuation of this planet when the Nature Kingdom and elements reach a point of uttermost chaos, or prior to such point.

If individuals permit chaos and destructive tendencies within their own being, they will simply align themselves with such forces of disruption and bring upon themselves what you might term "Karmic retribution" but which in reality is simple CAUSE and EFFECT.

We would have you give some thought, our brothers, our sisters, to this particular pronouncement for it affects not only all individuals to whom these words go forth, but it affects all individuals, yourselves included. The Law and the Principles are absolute, the Law being a Cosmic one and mankind upon this planet will learn in a very short period of time the absolute nature of such Law and such Principles and will learn that the individual is a free agent making their own destiny.

The time which has rapidly been approaching is even upon you now and we have spoken of this in many of our communications. That time is here; that time is NOW.

We asked you through Saturn Command communication to be ALERT to this period and to the responsibility which is yours, each one, to yourselves, and as you choose, to the service of the One Light. All who show forth in understanding and wisdom at this time will be given a greater responsibility and will work more closely with us as the time of the evacuation approaches.

The responsibilities which many of our chosen channels and workers are now bearing is indeed a heavy one and this responsibility is one which many upon your planet could not bear at this time. Yet, many, many are being called forth to share in these responsibilities in order that we may reach more individuals... all who can be reached in the time which remains. The program is one of Light dissemination, of dissemination of understanding, of information relating to the changes. This is the program of Space Command of all who work with the Galactic forces and Commands at this time.

Our craft will once more come into orbit of your location within one week

of this time and should be observed during your evening and night hours. We transmit on this occasion by direct telethought transmission from craft to channel.

Align yourselves with Light frequencies at all times and permit no negativity of expression within your auric fields. You may then rest assured that we ourselves will draw closer in consciousness to you and to this Center of stabilization and anchor point for Light descent.

May the One Light be yours, our brothers, our sisters in Light. I who speak with you have not previously communicated from this craft in this manner. My name, as far as it is understandable in your language patterns is Byritas. May the One Light be yours and you one with it.

(By Telethought transmission, 8 Aug. 67. Channel: Marianne Francis)

#### Underwater Volcano Ready to Erupt?

It was privately reported that Coast and Geodetic survey parties are concerned over a volcano apparently getting ready to erupt off the coast of Mexico west of Baja, California.

#### PROPHECY OF THE MESSIAH

(Quoted from FATE magazine, October 1967 - "I See By The Papers" column)

"Twenty-four hours before the outbreak of the Arab-Israeli war, the following dispatch arrived in the offices of the Jewish Press, a Brooklyn newspaper, from an Israeli correspondent named Menachem Israel:

'...a story that is sweeping the country and lifting the morale everywhere offers a prophecy.

'Reb Yaakov Ribikov, z.l., was a Tel Aviv shoemaker who enjoyed such an outstanding reputation as a Tzaddil and Kabbalist that even the Chazon Ish referred people to him for help.

'Before his death, less than a year ago, he left instructions that his will be opened after lag b'omer. When it was finally read last week, it told of a war that would take place between the Israelis and the Arabs which would result in an Israeli victory after three days, followed by the arrival of the Mascheach (Messiah)."

The Jewish Press somewhat wryly commented on June 16th, "the first part of his prophecy has come true....". (End Quote)

COMING CHANGES IN MATTER AND TIME  
(A Lecture by Orlon)

Direct energy transmission commencing. Orlon identifying. Greetings, my brothers, my sisters in the Light.

I communicate with you upon this occasion through Telethought transmission in order to acquaint you with changes taking place in the structure of this planet, this system, at this time. My transmission deals with the nature of molecular change effected by the incoming Light energies and by the effect of this upon the consciousness of the individuals making up the bulk of the population of your planet.

We, on our planets: Venus, Mars, Saturn, and the others, are well aware of the structural changes taking place in this Universe, not only this system or systems revolving around the Central Sun, but in this Universe. Being aware of these changes, we are, therefore, able to adjust within our consciousness and to work with these changes for the betterment and further evolvment of ourselves and our peoples.

Your peoples are not aware of these changes in any manner or means consciously, except the very few on the surface of the planet who have made contacts with us by one means or another. Due to the fact that your peoples are not aware of these changes, tremendous disruption is taking place in the consciousness levels of the great masses of your races. Thus, further explosive conditions are making themselves felt throughout your planet. Time is now short in the manner in which we are acquainted with the magnetic cycles and frequencies in our computation of what you call "Time". Therefore, it is of necessity that we acquaint all whom we may reach of the nature of these changes, that they may prepare themselves for these and be aware of what is taking place in the structure of the Universe itself.

Tremendous Beings of Light manifesting beyond the sphere of understanding of yourselves and almost beyond the understanding of ourselves are wielding the elemental forces of the energies which hold together the systems. These tremendous Beings of Light might, perhaps, be likened by your peoples unto that which has been described as an angelic hierarchy of beings of non-physical form; Beings who have never known physical-type existence such as that which you now experience.

Such hierarchal Beings deal with the forces of Light itself and it is within the jurisdiction of these Beings to bring about structural changes within the Universe in which your solar system and you yourselves find existence at this time. Due to these changes ALL life on this planet is undergoing a change in molecular structure and the energy systems of all life in undergoing this change is releasing and will release the Light Energy itself from the core of each cell of three-dimensional matter. This energy, being beyond three-dimensional matter and of a type of energy relating to the Etheric levels of existence, must of necessity, in releasing itself, expand

the structure of the cells themselves, therefore, propelling these into another form, I repeat, ANOTHER FORM, a form more finely etherealised, more finely attuned than that which is known at this present time, as form, as third-dimensional matter.

We have touched on this subject before in other of our transmissions but we are attempting at this time to give you a more complete picture of that which is about to take place and by "about", we speak again within magnetic cycles. These changes within the structure of the Universe will affect ALL LIFE ON YOUR PLANET, life animate and life inanimate, and in affecting it will bring about such drastic reappraisal of values as you, your civilizations, have known them that only with the expanded consciousness can the individual grasp and fully realise and align themselves with these changes as they come into being.

That which we wish to convey to you upon this occasion is simple and yet it is vastly complex. It is simple in that we speak not only to you but to others to whom our words will reach through the written word and we must couch our understanding of that which comes in phraseology which may be applicable to your peoples and to you yourselves. We speak in terms of simplicity when we say: Resistance within the consciousness to change will bring about that which will be in the nature of a shattering, in that the energies, in attempting to expand and free themselves, must of necessity break down all resistance and become free-flowing with the currents which flow in with this tremendous outpouring of energy.

In applying this to the individual being, human male or female, upon your planet Earth at this time, our suggestions are that you flow freely in consciousness with change as it comes, as it finds you so that fear is not rooted within your consciousness. For CHANGE is of a beneficial nature, a freeing, an unlimiting towards the god-awareness of being, the spark of the Divine which is implanted within all creations of the One Being. In this free-flowing, the consciousness must rapidly expand in its concepts, in its understanding, in its values.

Those of you gathered here upon this occasion have minds which have not been so greatly touched by the rigidities of many years upon this planet, of dogmas, creeds, and rigid "understandings". You find change all about you in the structure of your civilization. You find also much of the old and that which has been considered traditional in thinking, in modes of operation, of conduct, of behaviour...these still in existence surrounded by changes which are breaking asunder the structure of your civilization. Insofar as you can align yourselves in consciousness with that which is UNLIMITED, with that which expands itself to the furthest reaches of the Universe, partaking of the thought of Life in all the STAR SYSTEMS that you observe in your

midnight skies, partaking of the thought of a vast Universe to explore with your minds, with your souls, with your beings. Insofar as you can partake of that which is unlimited and consciously UN-limit areas of your consciousness which have been bound by concepts, creeds, dogmas, or traditions, then so will you become FREE-FLOWING in being and flow with the tides of change. Insofar as you can do this, change will meet you and you will meet change without resistance, without pain, and you will become at one with that which has been termed the new consciousness, the new frequency, or NEW AGE.

Those of the peoples upon your planet who are hide-bound in their traditions, in narrowness of thought, in smallness of endeavor, will find the change which is coming of shattering impact and must, of necessity, find themselves elsewhere following this great outpouring of Light. Yet remember, my brothers, my sisters of the Earth planet, each soul or being finds their self where they are equipped to be as this time of change comes upon you. Each soul is an individual being created from the one creator and has Freewill and makes its own decision as to where it finds itself, whether it be consciously aware of this fact or not.

You have a saying of this generation of your nation: to "play it cool" and in the understanding of our peoples, this would be a logical follow-through concerning that which is about to take place. Do not attempt to attach yourself to the things of the old nor to those who cannot meet with change. But KNOW that all things in the One Creator's Universe are ordered, are in harmony, and that these changes which come, tremendous indeed, will bring about a greater harmony in the lives of Earth peoples who can meet them with understanding. Those who cannot will find themselves elsewhere, also in harmony with that state of their existence and that state of their consciousness wherein they find themselves.

All things take place within a law of the Cosmos and it is only Earthman's misunderstanding of these laws, or ignorance of these laws, which allows him in idle regrets for those things which are past or those things which must give way to change. The structural changes which come upon you all are changes of an immensity beyond the understanding of Man on his planet. Until this takes place, there are no words in your language to explain fully to your consciousness of this time. But in the expanded awareness which will be yours as these changes take place and as these tremendous energies flow in their entirety through the structure of your beings, through the structure of this planet, then understanding will come, JOY will come, LIGHT and ENLIGHTENMENT will come in their FULLNESS.

We therefore suggest in simplicity to you, that as these changes come

upon you, that you flow with them, knowing we have communicated with you, knowing we, your elder "brothers" and "sisters", have concern for you. We will do our utmost to assist you at this time and, as you send forth your thoughts to us, many of us and our craft will be with you at this time, standing by ready to assist you into the NEW STATE of AWARENESS which will be yours in the BREAKING of the BARRIER between TIME and MATTER, between ETHERIC SUBSTANCE and that which you know as physical third-dimensional substance.

Our salutations are with you. Many of us are gathered in this craft from which I, at this time, communicate. Many of us send our love and our brotherhood to you, the people of your planet. Many of our craft, a great many, are coming closer within the lower reaches of your atmosphere as the time of your Christmastide approaches. Look for our craft in your skies, as a time will soon come when great masses of these will be seen, particularly in certain areas.

Now we take our leave of you. We are gratified that it is possible for our consciousness to reach outwards to minds which are rapidly becoming receptive to these concepts and to the nature of our coming. Our mission is one, as we have previously stated, of enlightenment under the auspices of the Saturn Council and the Galactic Tribunals governing this section of Space.

I, Orlon, acting as spokesman for many at this time am relaying this transmission from higher levels or echelons under the Saturn Command source.

In the Light of Our Radiant One we leave you. May this Light be one with you. Adonai vassu.

(By Telethought transmission, 7 Oct. '67. Channel: Marianne Francis)

#### HELP NEEDED AT THE CENTER

The Solar Light Center is in great need of helpers to assist in the work at the Center. Workers are needed on the grounds, on the mountain itself. Dedicated volunteers able and willing to assist in secretarial and general work are requested to contact us at the earliest opportunity. A man, woman, or couple having talents and service to donate would be ideal. Living expenses are relatively low here, however, a modest private income, pension, or local part-time job would be necessary as well as a car or jeep. The residence listed on the back cover page is available now and we need helpers now.

Please write to us only if you are really dedicated, have ability to offer, and are constant in your desire to assist the Center. We thank you in anticipation of finding the right people soon. The Brothers also thank you, for it is their work we do.

In Light,

Marianne Francis and  
Kenneth Kellar

With the coming of June, events began to move faster and the whole summer resulted in a series of lectures and lecture trips. Unusual weather prevailed here in the Pacific Northwest with high temperatures from mid-June on. Long drives to Conventions were undertaken and the heat proved exhausting and wearying to your editor who likes her scenery green and pleasant!

I drove up to Mt. Rainier, Wash., on June 24th to attend the World Wide Watch. Many UFO were seen during the gathering and many more reported from other states that week.

June 29th was the date set for the Vancouver, B.C. lecture and once more I spoke to a packed hall of over 350 people. Literature vanished in shoals from our book table and many new subscribers signed up. Interviews were arranged by Herbert Clark (Vancouver Flying Saucer Club President) with four radio stations: KARI (Birch Bay, Wash., CKWX (with Bob Bye and Jim McDonald), CKNW (Dave Abbott) and CJOR (Vic Waters) all in the Vancouver area. These interviews and call-in shows ran longer than originally planned, the total time on the air amounting to 6 hours! Though several of the interviewers were somewhat more than skeptical of Flying Saucer contact, at least eighty percent of all call-ins were openly "sold" on Flying Saucers and many had experienced their own sightings.

All that week Starcraft were seen over Vancouver and also in Washington and Oregon. On the night prior to the lecture I had my own sightings at 11:30 and again at 12.30 p.m. in the company of Mr. & Mrs. Vic LeBel, at their home in Richmond, B.C.

Back at the Center, little time presented itself for remodeling or for painting. Local groups arranged lectures and several people (several of the professional class) requested home group talks. The Kiwani's, Rotary, and Hoo-Hoo Clubs were addressed on the subject of "Starcraft Contact". Sightings of a very interesting nature were made in this area and over the Center as reported on another page.

July saw the Seattle Convention (sponsored by the New Age Foundation, Wayne Aho and Lenora Croft) held at beautiful Rainier Room, Seattle Center. Old friends were greeted and new ones made and a pleasant week spent with Peg and John Carpenter in Puyallup. Other small groups in Seattle were also addressed and interest quickened. July also brought a local reporter, Marjorie O'Hara, to the mountain with a request for an interview. The charming Miss O'Hara did a wonderful story on your editor which appeared in Medford-Mail Tribune (July) and also in "The Oregonian" (Aug. 7th).

August proved to be intensely hot and trying at the Center. Heavy stacks of mail and requests for literature were dealt with--these in response to the lecture and TV publicity. Each afternoon, as the heat increased, we wilted and took long siestas until the blessed cool of late evening revived our flagging spirits. One bright episode was my meeting with David Spangler and Myrtle Glines. David is a charming and highly evolved channel for the

Hierarchal forces and Space beings. Myrtle, his co-worker, is a gifted Personologist.

Project Prometheus (a special Summer School for 200 top students from southwestern Oregon High Schools) honored your editor by requesting a lecture on extra-terrestrial contact. They stated they wished their students "exposed to the impact of extra-terrestrial intelligence and its implications". Several of these students and their friends have since attended Guest Sessions here at the Center. Their enthusiasm and interest is inspiring and stimulating and the Solar Light Center salutes such youth. The Brothers communicated a special transmission for one such Guest night (Aug. 26th) which is reprinted in this issue on page 15.

Labor Day weekend was the scene of the City of Light's Convention at the Alameda County Fairgrounds, Pleasanton. Dedicated light workers gathered and a crowd of about 400 people attended. Photographs of Spacecraft were taken with a Polaroid camera after Elaine Chambers and Bob Short had been impressed that craft would be present over the area.

In the last week of September, once again I drove north to lecture in Vancouver, B.C. This time Kenneth Kellar was able to be present. Radio interviews were again arranged, this time with Emmett Cafferty (CFUN) and Dave Abbott (CKNW). Another interview was also arranged by phone from Nanaimo to a Victoria, B.C. radio station. The hall was packed with over 300 in attendance and others turned away due to a "full house". Ann Lee of Seattle sang two of her beautiful inspired songs and it was a joy to have her present. Our thanks to Hannah Decker for helping with the transportation. Thanks also to Lucy Lusby and others there who helped in various ways to make the meeting such a success. No where else have I met with such open-mindedness and enthusiasm for Flying Saucers and New Age material.

Two pleasant days were spent on Vancouver Island at the home of Mr. and Mrs. Larry Cann in Nanaimo. Several small Saucer groups are on the Island and again, a high level of acceptance and understanding was found.

Seattle was visited on the way home and the New Age Fellowship lead by Dorothy Sinclair was addressed on the subject spoken on in Vancouver: "Men from Space and the Prophecies of Earth Changes". (We would like to add: We salute you, Dorothy, for your great courage and faith. Keep up the good work).

A very special invitation was accepted to lecture to 200 teachers and associated personnel who had arranged a meeting at St. Helens, Oregon, on Oct. 2nd. This proved challenging and interesting. The drive home was very pleasant and cool. Rain had fallen and the leaves were turning softly to Fall. Plans are now under way for a visit to the San Francisco Bay area in November. Other lectures in Klamath Falls and locally are also scheduled.

The telephone company has raised our hopes again: the Solar Light Center may have phone service before Christmas. Perhaps by then we will have a direct line via frequency change, to even more important areas....of Space!!!

Our Love and our Light,

—Marianne Francis

## ANNOUNCEMENTS

GUEST SESSIONS, normally scheduled on the last Saturday of each month, may be irregular during the Winter months due to road conditions. Please check to confirm before coming. The regular schedule should be resumed by next March, it is expected.

TELEPHONE service is being planned for our area. We hope our telephone will be installed within a relatively short time. This will be a great boon to our activities and facilitate arranging meetings on short notice.

SECRETARIAL help is in short supply, so correspondence and records are not always kept up to date. Please write if it appears an error has been made or if you do not hear from us in a reasonable time.

### HOUSE FOR SALE OR RENT

Another house near the Center on an acre of land is available. It consists of a large living room (with picture windows) built on to a 40-foot trailer. Price: \$4,000 or \$40 per month rent. A car is essential, as it is 20 miles to town. Small down payment accepted. Write for details.

THANKS very much to all who have made contributions to the Center and to those who have subscribed to STARCRAFT. Extra donations make it possible for us to send out hundreds of free copies as exchange or complimentary copies to interested newcomers. With postage rates about to be raised, your donations are needed even more to defray extra expenses.

## CHRISTMAS GREETINGS

At this special time all at the Solar Light Center extend warmest Christmas Greetings to you and your loved ones, in the Light of the One Creator, Our Radiant One. This year may yet be a period of great joy if prophecies of Christ's Second Coming manifest by December 25th. The imminence of His Coming is indicated by the impressions received March 7th by Marianne Francis, following the DEVIC transmission published in Spring 1967 issue of STARCRAFT:

"I found myself very elevated in consciousness following this transmission. The presence of the Christ surrounded me and I was intensely aware of a tremendous Love and Compassion with this beauteous presence. Although my eyes were closed, tears were streaming down my face, but they were tears of Joy! I KNEW, not intellectually, but with soul conviction, that His Coming was to be SOON. This experience was not a vision, but a reality impressed from higher realms that I might share it with you". —MF.

With Christ's Coming dawns the New Age, a New Heaven and a New Earth on a higher density level of existence, an etherialized level. There are tremendous Beings of Light bringing forces to bear on planet Earth that will step up the vibrations of all cells, even the atoms themselves. This is described by the Space Brothers in a lecture: "COMING CHANGES IN MATTER AND TIME", in the Summer & Fall issue of Starcraft just being mailed out now to subscribers. We quote from this:

"Due to these changes all life on this planet is undergoing a change in molecular structure and the energy systems of all life, in undergoing this change, are releasing and will release the Light Energy itself from the core of each cell of third-dimensional matter". — Space Brothers.

The exact time this Cosmic event will occur is not known, but it seems most probable that it will be in the not too distant future. The Space Brothers have advised us to do all we can to raise our consciousness so we will be prepared when the Great Day of Change comes.

May the Christ Consciousness flow into your life and may you be completely attuned to His Radiance and Love.

In Light,

SOLAR LIGHT CENTER  
Rt. 2, Box 572-J  
Central Point, Ore. 97501
