A CLIMATE OF VIOLENCE

"I want you to say that I tried to love and serve humanity. If you want to, say I was a drum major; say I was a drum major for justice. Say I was a drum major for peace; that I was a drum major for righteousness, and all of the other shallow things will not matter". — Martin Luther King.

"Some men see things as they are and say 'Why?' I dream things that never were and say 'Why not?'" — Robert Francis Kennedy.

I write this editorial in the week of Robert Kennedy's assassination. Martin Luther King, exponent of non-violence, has also been assassinated since our last issue. A climate of violence exists, a climate in which deeds of murder are becoming increasingly commonplace in high places. Anger, violence, sadism, murder, and perversion are the fruits of this sick civilization which exists, not only in America but over most of the world.

We of the Space movement, or at least some of us, KNOW that all dross on planet is coming to the surface as a gigantic cleansing takes place. Many souls incarnate here, expressing love, compassion, and concern for their fellowman, exponents of non-violence and peace, are being viciously maligned and persecuted and some already have been murdered. How many yet are to die or be maimed in soul or body as a result of the hate rampant on planet Earth in this year of 1968?

When people ask themselves WHY, WHY do these things happen? ...and they are asking, the answer is clear: a climate of violence exists here. A climate of violence exists because hate and violence are a way of life here. Wars are violent; portrayal of war as necessary and patriotic is a sick perverted philosophy existing on planet Earth alone in this system. No amount of justification makes one type of killing good and honorable and another vicious and unlawful.

Mankind is split in nature, allowing the animal self full play on the one hand, killing and maiming viciously, yet attempting to express higher values on the other. A terrible schism, as an end result, is what we have today: schizophrenic Man. No words are too strong to express the conviction of Space people and myself that all killing, all violence has to END. This is the end of the cycle of violence on planet Earth. Obviously, because it is the end, a peak point is being reached in

all evil and hatred. Undoubtedly, more outbreaks of violence, killing, and hatred will occur until the "Frequency Change" takes place. Yet, in knowing this, we cannot allow ourselves to become hardened, fatalistic, or resigned.

At every moment of our lives now we must be intensely aware, sensitive, and highly vocal in our expression of the Cosmic values of love, compassion, tolerance, and peace. That many of us will suffer and have suffered deeply from the world in which we dwell and the hatred and misunderstanding of a hate-filled people, is inevitable. Then, if this be so, let us suffer a little longer and transcend it with love and that compassion which is of the Christ consciousness. Suffer and love, for "love suffers much yet is kind". Weep for the world and its peoples; weep for Robert Kennedy and Martin Luther King and for all who die as a result of sick hatred. Weep and in that weeping know that Space men and women gather to assist the children of Light who weep in love. Know that the Space Host, the Angelic Host, and the Radiant Being who created all, decree an outpouring of Light which will bring an end to the sufferings of the children of Light.

It is a common error in metaphysical and Space circles to assume when tragedy strikes or hatred is directed against an individual, it has invariably been karmically caused, therefore, no compassion is needed but a cold impersonal detachment suffices. A selfrighteous attitude is observable in people who expound this view. Therefore, it is necessary at this time to point out these facts: two types of souls, at least, are in positions of leadership and authority on planet Earth now. One type consists of those who have been in positions of authority in earlier days and periods of history. These people are playing the old Earth game of power politics, personal ambition, and disregard for human life. Such individuals are reaping and will reap karmic debt, often through strange and violent circumstances. The other type consists of those who came in Love and Light and Compassion from other planets and planes of existence to assist Earth through its period of change. Many of these have no Earth karma whatever, though some have. All of these souls, however, are motivated solely by Light principles. All came with Love in their hearts, some knowing prior to incarnation of their destinies. Martyrdom and sudden death have come to several of these. To awaken Earthman to the full horror of his ways, a path of sacrifice was chosen by some of these great souls.

Christ was crucified for teaching Love, Light, and Compassion. To this day

evil forces and evil men and women on planet Earth seek to crucify all who follow this path. Therefore, let none among us be complacent or stand in judgement on any. Let us analyse all things from the viewpoint of Light principles.

Souls who are of Light reflect Light in their eyes and their actions. They care deeply about injustice, the poor, the oppressed, the innocent and the vulnerable of Earth. They love and have compassion. These are the children of Light and "by their deeds shall ye know them". Their political or religious affiliations mean little but their deeds do count for much.

As to the "brotherhood of darkness", who destroy and hate and maim on our Earth, the Frequency Change and the great outpouring of Light which is coming will take these out of incarnation. For, in their darkness of soul, they will be unable to withstand the brilliant penetrating quality of the Light. For these, too, let us say, "Forgive them for they know not what they do".

Let us love and cast out hate in all its guises. Let us love so greatly that fear ceases to exist and a Christ-like compassion and Light radiate from our souls and our very beings. For all Light comes and darkness and a climate of violence shall exist no more on the face of the Earth; and Earth shall become the risen star of the Solar System.

Let us "dream things as they never were" and say, IT WILL BE. Let us all be "drum majors for peace and for righteousness... and all of the other shallow things will not matter".

The Solar eclipse of September 22, 1968 at 6:09 a.m. EST is unique in that this event falls during the equinox which makes it more powerful than an ordinary eclipse. The eclipse is exactly conjunct the eccentric, revolutionary planet, Uranus. This sun eclipse takes place in the astrological sign Virgo which is the sign that represents the working people the world over. The planets Jupiter and Pluto, representing religious mind and initiate mind, respectively, are widely conjunct the eclipse complex.

This September eclipse will be a total eclipse which at its height will cover and momentarily totally inhibit the spiritual rays of the Sun from radiating directly earthward. An eclipse, therefore, is a rallying point for the dark, Satanic forces who are seeking to subvert the human life wave away from decency and Christ to a state of degeneracy and depravity, thereby to rob humanity of its divine birthright which is immortal identity with the Father-Mother God of this Universe.

Following the eclipse, Uranus leaves the sign Virgo to take up a seven year's residence in the sign Libra. Since this is still the Piscean Age, Libra may be considered the 8th house sign of the Age. Thus, you may expect to see in the next seven years a great interest in the occult, in survival after death, in oriental religions such as Zen and Vedanta; also in Spacecraft and ESP; but alas, also an increased interest in negative forms of psychic manifestations such as High-powered Salesmanship and Mass Mind Control.

Since Uranus's entrance into Libra is preceded by the above-mentioned total sun eclipse with its conjunctions, the world can look forward to some very insidious, rank times. Satanic forces working thru the materialistic-minded, power-man leaders of the world will try to lead this earth's inhabitants into worse degradation than ever before in the history of mankind. In the next seven years, sadistic forces will diligently and boldly try to take over and rule most of the political, scientific, religious and artistic fields of human expression. If it were not that Neptune in a few years will leave the sign Scorpio and enter into the sign Sagittarius, there would be little hope for humanity.

The sun in Virgo symbolizes both the morality of the working class and the attitudes of those in authority chosen to rule over them. This eclipse forewarns a stepup of Satanic leadership throughout the world, to further demoralize the human race. Highly intellectual, worldly reasoning will be used to cow the unwary and put to shame the would-be followers of purity and Light. These Satanic forces are subtle. A time for martyrdom for the practicing Children of Light is not far distant. If there is not a general awakening among the people soon, true Christianity may have to go underground.

This is prophecy. With this eclipse, we have well entered into those times for which it was written in the scriptures, "For there shall arise false Christs and false prophets, and shall shew great signs and wonders, in-so-much that, if it were possible, they shall deceive the very elect".

Greetings, my brothers, my sisters in Light. I, Orlon, transmit to you upon this occasion with an extension of the transmission relevant to Density Level Transition, entitled: Density Level Travel.

We have previously acquainted you with the information relevant to the coming changes in density...the structure of the plane or subplane on which you find yourselves...that is, the existence which you know as physical plane life at this time. Relative to density level transition will be the secondary matter of density level travel. When the transition takes place between what has been termed differing subplanes, levels, or frequencies, and Man of the New Age finds himself in 4th density, 4th dimension, or 4th etheric subplane (whichever terminology you have found clarity to use) then will come about a new phenomena previously unknown to Man of your time: that of TRAVEL within and between the varying densities or subplanes of the physical plane manifestation.

This, my brothers, my sisters, is not in the far distant future as you might suppose. Indeed, now that you are conversant with the whole idea of some imminency to the actual transition between frequencies or densities, you must make yourselves equally conversant with the idea of density level travel. In the traveling between densities, the vehicle which will be used may not only be a vehicle or craft known as Spacecraft or by other terminologies: Vimanas or Ventlas, but the vehicles may be those of man's own etheric body or bodies.

We would now acquaint you with the thought previously unknown to your Earth teachings. You are already familiar with the idea of the physical vehicle or body which you now think of (many of you) as your selves. You are also familiar with the vehicle known as the etheric which is a duplicate of the physical body. We would, however, bring to your attention the thought that the Etheric vehicle may also be divided. This, we realize, is a new thought. The etheric vehicle may be divided into a higher and lower etheric body or bodies, either of which may be divided by a manifestation of the consciousness or will, so directed, allowing man to travel in either vehicle to the higher or lower etheric subplanes.

In the division of these etheric bodies (which is a commonplace occurrence to our peoples) the indwelling soul may so direct its vehicle that it may move freely between all densities of the physical plane of manifestation: Using the lower etheric and densifying it, lowering its vibratory rate that it may become visible to the

physical plane manifestation of your known world and using the higher etheric to move into the upper ethers. Thus, density level travel becomes a possibility.

When man, using these vehicles, also uses, as he does (and we speak now of Space Man) a craft, the structure of the craft, also undergoes a molecular change, a change in vibratory rate of the molecules of the metals under the direction of the will of the individual directing said craft. When an aggregate of consciousness of individuals attuned mentally and spiritually travel within one of these vehicles, they may be thus densified or etherialized according to the nature of their mission. Thus, craft manifest within your atmosphere unseen to your physical eyes, yet registered upon the sensitive retina of your cameras, and craft, thus, may come into density visible to you and may disappear within a matter of moments.

We are attempting to further clarify the picture which is one of extreme complexity regarding the nature of our craft, the nature of our bodies, and those things which man on Earth, New Age man, may find himself a part of as the change takes place. In attempting to further clarify, we wish to bring a greater understanding with as much simplicity as possible out of the hither-to-fore conflicting picture.

Much, as we have previously told you, remains to be given to your peoples as they evolve in consciousness to the point whereby such enlightenment may be a part of their consciousness. Thus, we have stressed constantly and continually the necessity for expansion of consciousness. We cannot, I repeat, we CANNOT hand you information of a scientific or spiritual nature until your own levels of consciousness are prepared to receive them. Thus, the stress upon consciousness expansion. It all depends on you, my brothers, my sisters.

As you (and here we find many minds expanding rapidly in the group who come and go around this Light Center) as you expand your consciousness, out beyond the confines of your own materialistic science, a greater science, a greater spiritual knowledge will be given to you, perhaps you might say in minute doses at first, but as rapidly the consciousness is expanding and ever increasing, knowledge and wisdom will become yours in your relationship with us and the link from Space to Earth

As the New Earth and the New Frequency and the New Density Level come into being and New Age man becomes a part of this, he will find himself in a world of what he might previously have termed miracles. Yet these are not miracles but the natural outworking of Cosmic Law. Only as we ourselves have attuned with Cosmic Law have the wonders of the Universe of One Creator become manifest to

us. Prepare yourselves, therefore, in consciousness for the changing in density in the structure of your known worlds and for travel between your known world and worlds of other dimensions. Prepare yourselves in consciousness to meet with those who will come to you interdimensionally and will walk with you and give to you of their wisdom from worlds beyond the known which man in his small knowledge has called the physical universe.

In the infinite Creations of the One Light, the All-Knowing One, Our Radiant One, are wonders beyond the understanding of mortal man: Science beyond the dreams of scientific men, of much knowledge, and a relationship between all life which only the mystic in his most exalted moments may perceive.

You stand, my brothers, my sisters, on the brink of change, great change, and as you stand on this brink, we take you gently by the hand and we lead you forth into the horizon of a New Dawn, an Age of Reason, an Age of Light in the affairs of Earth man. We walk with you in consciousness this night. We speak with you from our craft located high in the atmosphere above this Center. We suggest once more that it will be possible to observe certain of our craft in the days ahead in your night skies, as we are again coming closer into your atmospheres over many localities, particularly over your coastal areas.

In the Light of Our Radiant One, may you, our brothers, our sisters, walk always in the Pathway, in the Wisdom, and Love of His Creation and His Laws.

Adonai vassu baragus.

TRANSISTORIZED LIGHT BEAM COMMUNICATOR

The original diagram for a Light Beam Communicator was published in our Summer '66 issue of STARCRAFT. Since then, further experiments have been made to improve the design with transistorized circuits. The advantage of using transistors is that the weight is reduced and the high voltage power supply is no longer needed. The new circuit requires only a 9 volt dry cell battery which will last longer and take less space. The audio output from the Light Beam Receiver can be coupled directly to a loud speaker, earphones, or a tape recorder with proper matching impedance. It is desirable to use a small portable recorder which has a monitoring switch. It is possible, then, to listen in during experiments at some length, but turn on the recorder only when an interesting signal is being received. This will save much tape, and with 3-inch reels, this is important.

The Space Brothers indicated in a recent communication that it is desirable now to step up our efforts in Light Beam Communication research. With the likelihood that wide-scale Earth Changes may occur yet this year, it is advisable that new age groups in many parts of the planet be prepared to receive communications for instruction when the need arises. In the absence of a Telepathic Channel, this electronic device can provide the means to receive communications from the Space Brothers in an emergency providing the group has the right motivation.

The basic circuit shown in Figure 1 operates as follows: Modulated light is focused by a reflector or lense (and filter) onto a photocell, which in this case is a resistive type made of Cadmium-sulphide or Cadmium-sulfo-selenide. The resistance of the photocell changes from about 6,700 ohms to over 500,000 ohms when the light changes from 2 foot-candles to dark. This change in resistance causes a change in the current (regulated by Q1) and thus a signal voltage is applied to the amplifier section, Q2 and Q3. The output stage, emitter follower Q4, applies the amplified signal through volume control, R8, to the output transformer and thence to the speaker or phono-input of a tape recorder. Resistor R1 is adjusted to provide a bias voltage of about 4.5 volts at the collectors of Q2 and Q3. Other type photo-resistive cells might be used to advantage with some circuit modifications.

We are interested in hearing of research from other groups and will welcome any constructive comments for improving design features.

CANADIAN AFFILIATE OF THE SOLAR LIGHT CENTER

A newly formed Canadian branch of the Solar Light Center was organized following the lecture Marianne Francis gave July 4th at the Peter Pan Ballroom in Vancouver, B.C. Those interested were invited to attend a Committee meeting the following evening at the home of Bob and Joan Gale who kindly offered to have the meetings held in their home.

The official name was adopted and officers chosen at a subsequent meeting as follows: Chairman: Bob Gale; Vice-Chairman: Harold Pym, Secretary/Treasurer: Bernice Young; Liason: Frank Russcher; Public Relations: Irene Pym; Appointed Program: Selina Heartwell; Financial Committee: Harold Pym; Laureta Carlson, Louise Blanchard; Welcoming Committee: Joan Gale; Information Telephone: Beatrice Rosen.

Those living in the Vancouver area who wish information about meetings and other activities may call Beatrice Rosen - Phone: 325-0276, Vancouver.

COSMIC INTERVENTION

Greetings, my brothers, my sisters of the Earth planet. I, Orlon, speak with you upon this occasion and greet you with much joy in my heart at the coming together of so many minds of common intent.

The subject upon which we converse with you upon this occasion deals with that of Cosmic Intervention, a subject upon which you have most recently been discussing and concerning yourselves. Cosmic Intervention is a matter which we have not discoursed upon at much length in our previous transmissions to you.

Much of the material which has been given to you through the years has been in the nature of 'facets' of information. We have given you a particular facet which your minds could comprehend at that particular time, could ingest, could understand, could dwell upon and enlarge the concept previously held.

Now, we stand at a point of time wherein many of these facets, having been revealed, having been inter-changed among various of our channels and intermediaries upon the Earth, are now making of themselves a whole: A picture, an outline of the events soon to take place upon your planet.

Cosmic Intervention in the affairs of a planet or a Solar System takes place when certain events and certain timing of magnetic cycles coincide. In the overall plan and the overall picture, as viewed by ourselves, we see now such events, such timing of magnetic cycles coinciding at a point in time. We said previously that a day, an hour, a time will come when change of an overall nature must take place, obvious to all men upon this planet called Earth.

We, ourselves, viewing as we do with a perspective unclouded by the misconceptions of your planet's gross density and the concepts held by many of your peoples, see an overall plan: A plan of great beauty and manifestation taking place upon your planet, not only on Earth, but within this Solar System in which you and we ourselves find being and life at this time.

If we were to present to you, people of Earth, our brothers, our sisters, creations of the One God, the overall picture of an immensity so tremendous it dwarfs the imagination of even your most evolved beings, we would, perhaps, overwhelm you with this concept. Therefore, we have sought slowly to bring to you information relevant to the times in which you now find yourselves. We have sought through many of our channels, our peoples walking the surface of your planet, to present through all avenues open to us, whether these be that which you term fiction or fact, data or imagination, something of the change which is about to take place.

We have spoken with you through many years of your time, years which must have seemed long in your concept and your understanding which, however, have passed but briefly from our viewpoint, of the nature of the coming changes which will take place. You have chosen through the use of our terms to employ the expression "Frequency Change", as that which most clearly describes what is

about to take place. Others of your peoples, imbued with that of your orthodox religious concepts, have spoken in other terms, have understood in other ways and sometimes, not understood at all.

Now must take place a merging between minds, between understandings: A merging of which some of you have spoken upon this evening in order that all may comprehend at their level of consciousness; all, that is, who are capable of comprehension. It matters not whether your minds have been conditioned through any of your Earth religions if you can but reach beyond rigid doctrines or dogmas to that which is unlimited, beyond the physical composition of Man as he now is and appears to be.

Cosmic Intervention, frequency change, the bringing into being of a new "Race of Man", a new heaven, a new Earth: these are the things of which we speak to you. This is the knowledge which we, who come from Space, came to impart: That you, our brothers, our sisters of the Earth planet, may reach out in consciousness and become as one with us, may become aware of our presence, our mission, as we walk among you and will be with you in the times which lie ahead.

A long hard uphill path has met our efforts in many directions. Vastly entrenched monopolies on the face of your planet have sought to distort the nature of our coming to Earth man and have sought to remain entrenched in their particular ideologies and gods of materialism. Gods truly exist, gods in the sense of the evolvement of the human soul: Gods of Solar Systems, of Galaxies, beings so tremendously evolved in wisdom, love, compassion, understanding, as to be almost beyond the understanding of mortal man of Earth; truly these would be termed as "gods". Yet, beyond all these dwells the One Infinite Being, the source of all life and creation.

We speak, therefore, of gods in terms of gradation, of evolvement. We have spoken before of the godhood inherent within each being and of the necessity for Man of Earth to evolve into this concept of the inherent godhood of his own essence, to reach out to this, to expand, to express, to become.

In Cosmic terminology we speak to you of galaxies, of systems, of worlds, and each of these worlds, these systems, of these galaxies, has a Being, tremendous in stature, who holds authority over that particular dominion. These also are answerable to higher authorities or hierarchies: Finally, devolving into that of the One Being, the Godhead, the Infinite One; and it is as this Infinite One gives forth of His Light and His (shall we say for your understanding) waves of energy, and as these reach out to His creations, His galaxies, His systems, that CHANGE takes place.

Your planet, this System, stands now within such a period of change. Many, many beings on worlds in this system are acutely aware of this coming change and meet it with understanding. It is only your peoples on this planet, in this system,

who do not have understanding of the coming change, to whom our attention is directed at this time. We come, thus, in vast numbers from many areas of Space, both within and without this Solar System, to bring the understanding, the knowledge, the Laws, which govern your world and many others, to your peoples in order that at least some segment of them may meet this change with understanding and with joy, may know of that which takes place and may work in conscious accord with these changes.

As the time of the vast and overall change takes place, many millions of your peoples will be filled with great panic; but to those whom we have given of our understanding, of our knowledge, it will fall, for a time, to assume the qualities of leadership, of authority; to assume the burden (if it may so be termed) of responsibility for guiding your peoples aright, in order that they may understand and may be made aware at this time of the things which take place. Therefore, great is the responsibility of those to whom we transmit our understanding, even those among you who count yourselves as the younger ones at this time. It matters little in our understanding whether the soul be housed in a body of 16 or 60 years. It matters only that the understanding of the soul be in evidence.

As a final point of our discourse on the Cosmic Intervention of what might be termed the Space Host: When overall operations take place, there will be little time for conscious direction, or shall we say, choice, or decisions to be made and unmade. We suggest, therefore, that in preparation... and this indeed is a time of preparation for the coming changes... in preparation that you not only consciously prepare your minds for that which will and must take place; but that you attune the frequency of your own individual being, nightly, calling upon that being by whichever name you know that being: The Infinite One, God, the All-Knowing One, Our Radiant One, to send forth His Light to assist you in attuning with those frequencies of Light which are being sent forth now at this time into the very core of your own beings. Become aware of these things; attune yourselves in consciousness that at the time of the change you may move graciously, harmoniously, peacefully, with the CHANGE as it comes and be of help and assistance to those around you who stand in need at such time.

Having said this, we now terminate this transmission, leaving with you the essence of our beings, the Light which flows from the All-Knowing One and His Radiance, we bid you welcome the coming DAWN, for it is, peoples of Earth, our brothers, our sisters, for the greater joy of mankind that this be so.

May the One Light be yours and you one with it.

DEVIC ENERGY PATTERNS

We have the authority to transmute energy patterns, energy forces on and outside of planet Earth at this time. What is puny Man in his concept of divinity to assume the authority which is not vested in him, nor his to wield? Who and what is mankind upon this small planet to tamper with the forces which hold together Solar Systems and galaxies: the force within the atom, the world in miniature, the energy from the Godhead?

We, who do have authority to wield these cohesive forces for the evolving of races throughout the galaxies, do so only under the jurisdiction of the Most High and the directives of Light. Wisdom is not the prerogative of this race which dwells upon the planet called Earth. Wisdom resides only in the hearts and minds of a few, yet these few may be exalted in consciousness to a comprehension of their innate godhood of being. At such time and in so evolving, these individuals will assume not only responsibility but authority proceeding directly from ourselves and from the Godhead itself.

When mankind tampers with forces beyond his understanding or control, he does so unknowing of the tremendous majesty and awesome nature of that which he, ineffectively, has confused with his understanding of jurisdiction. Jurisdiction for mankind falls only within the category of mankind's own development within his own being and own social systems. It does not extend to disruption of a planet, the forces of the Devic Kingdoms of nature, nor interference with the patterns of other planets within this system, held in balance by that same cohesive force which manifests throughout the galaxies of God.

When the lesson, which is yet to be learnt by destructive Man in its entirety, is fully absorbed, then will come a certain humility, a certain breaking down of the ego manifestation of Man on this planet. Then, and only then, can the inner core of the spiritual being of Man manifest itself, for this alone is of godhood, of the eternal, immortal nature, and yields from itself the energies and the patterns of supreme beauty and magnitude to which Man may rise.

We who are nameless beings in your concept of names, attune in consciousness upon this occasion and utilise this channel of Light. It is not simply

in that to which we give voice, but in the energies which we are grounding and transmitting at the time of this channelling which is of import.

Before too long, many of the areas of weakened fault line activity upon your planet are due to be disrupted by tremendous patterns of...shall we term it...oscillating currents of energy, currents which we might describe as being at cross purposes with the basic forces of harmonics holding together the structural matter of your planet. When these oscillating currents begin to make themselves felt in all their magnitude, then many areas of your planet will feel the tremendous upheavals long prophesied and forecast by our prophets upon the Earth planet and plane. At such time the stability of all Light center areas will need the grounding energies which will be sent down from our realm of divine manifestation in order to act as stabilizing factors, poles of force, shall we say, that the planet itself may not be shaken beyond the stress pattern which it can endure without being completely shaken out of orbit or axial balance.

You have been prepared in consciousness and must continue to prepare in consciousness, yourselves, and those whom you reach, for those things which are about to manifest. Stabilization will be of paramount importance, and stabilized individuals will be rare when this time comes; for the very disruption of the energy patterns is going to cause a tremendous fluctuation of cellular matter and agitation of energies within the body physical, not only the body physical of the planet, but the body physical of the individuals upon it. These thoughts are not new. We are aware of this, yet they must be emphasized as you stand close to major upheavals within the pattern of this your month and year.

The energies which we wield must be grounded in many points by those acting as our channels, must be held at this time. Therefore, now we pour down such stabilizing force into the center of this locality at this time.

In the Light of a thousand suns and the ever-burning radiance of the INNER SUN, we bid you adieu of this time.

Nexus aloria.

PROJECT COVER-UP

Sub-title: The Condon Report into Unidentified Flying Objects.

In October 1966 an announcement was made by the secretary of Defense that the Air Force has selected Dr. Edward Condon and the University of Colorado for a study into unidentified flying objects. This study was to be "a totally objective scientific investigation".

In May of this year, LOOK Magazine blasted the concept of total scientific objectivity with a sizzling article by John Fuller entitled "Flying Saucer Fiasco". It seems strange, as this may appear to the naive, trusting taxpayer, that this study never was the objective scientific thing it was supposed to be. To date it has cost the taxpayer over half a million dollars and the report is yet to be released!

We in the Flying Saucer field, who are neither naive nor trusting where governments and their scientists are concerned, were not surprised at what was revealed in Fuller's article. It seems that Dr. Condon started in on this project in Feb. '67 with a totally unobjective attitude to UFO. He is quoted as saying, "UFO's are not the business of the Air Force". He further added, just so no one might get the idea he had an open mind, "It is my inclination right now to recommend that the Government get out of this business. My attitude right now is that there's nothing to it... but I'm not supposed to reach a conclusion for another year"!!!!

Many people in the Ufo field felt very sure that this study at Colorado University was merely a clever way to "take the heat" off the Air Force, and Fuller's article bears this out.

In August '66 prior to the signing of the contract, Robert Low, project coordinator, had written a memo labelled "Some Thoughts on the UFO Project". In it he said, "Our study would be conducted almost exclusively by non-believers who, although they couldn't possibly prove a negative result, could and probably would add an impressive body of evidence that there is no reality to the observations. The trick would be, I think, to describe the project so that to the public, it would appear a totally objective study, but to the scientific community, would present the image of a group of nonbelievers trying their best to be objective, but having an almost zero expectation of finding a saucer... that one way of doing this would be to stress investigation, not of the physical phenomena, but rather of the people who do the observing... the psychology and sociology of persons and groups who report seeing UFO's." (end quote).

In the Saucer field it has been known for a long time that the official line toward UFO's is to use ridicule. Making the whole affair and the people who sight UFO's look ridiculous has proved quite effective. Scientists with reputations and positions to lose, thus became very chary of doing any serious public research into the mystery of the UFO's.

Dr. James McDonald, Senior Physicist at the Institute of Atmospheric Physics, and professor of Meteorology at the University of Arizona, is one scientist, however, who is bluntly "laying it on the line". When interviewed on Louis Lomax's TV show on July 16th, '67, McDonald had this to say: "After taking a close look at Air Force Project Bluebook, it simply has to be waived aside as not a serious investigation, and this is why scientists such as myself and scientists in other parts of the world have not (previously) taken a look at the problem. We have assumed

all along that the Air Force has been checking the cases and doing it with expertise, but that's not the case at all. The CIA asked for and got from the Air Force a debunking policy... the actual wording of the recommendation is 'to debunk the Flying Saucers to decrease the public interest in them'". (End Quote).

This policy has been systematically carried out for twenty years. The Colorado study itself, a \$500,000 trick, has undoubtedly "taken the heat" off the Air Force. That's about all it has done. Yet the gullible section of the public will be persuaded that a serious scientific investigation of UFO's was undertaken. This leaves us where we came in, with the individual and not with organized authority. Every single individual on this planet is going home to do their own thinking, draw their own conclusions, and cease to lean on "authorities" of questionable worth.

Vast monopolies on this planet are concerned with hiding, distorting, and perverting the truth about the extra-terrestrial Spaceships. The Space people know this and they are leaving it up to the individual Earth man or woman to find TRUTH. It takes courage and strength of mind and soul to do this, yet it's worth it, and this, after all, is what the New Age is all about: The evolvement of the individual.

CENTER NEWS AND TRAVELS

I am writing this on Orcas Island where I am enjoying a few day's rest. So much has happened since March that only the high-lights can be covered here. I must have packed more than twice the usual amount of lecturing, radio and TV interviews, and driving into the past three months. April and May saw me touring California where I gave several lectures.

In Santa Barbara I visited old friends then on to Los Angeles where I stopped off at Gabriel & Helen Green's where I collected some more bumper stickers saying: "Flying Saucers are Real; the Air Force doesn't exist". These were distributed at strategic points along the way.

One highlight on this trip was a meeting with Anthony Brooke which gave us a chance to exchange all the news of Denmark and England. We also agreed something could be very imminent this year on the world scene.

Following a few days rest at Laguna Beach, I returned to Hollywood to find that the Sunday Forum lecture was cancelled as they had closed down two weeks previously. Mr. & Mrs. L. A. Stevens, where I stayed a few days, arranged for a lecture in their home which proved interesting. The Understandorama in Yucca Valley was my next port of call. There I appeared on the Panel Discussion and made quite a few "waves" and found that I was on the same side of the fence as Col. Burkes on the subject of "Hippies". Visited Teska in her new White Star headquarters and lectured for Bob and Shirley Short at their Solar Space Foundation.

The return trip included stops at Santa Barbara and Auburn again and also at Palo Alto, then back to the Center in time for a hectic Guest Session. Kenneth managed to get down from Seattle for this session (May 12th) at which the Density Level Travel communication was received. (See page 7). Then, with little time to pack, on to Seattle for lectures at the Free University (sponsored by Joy Fullerton) and then the United Brotherhood Convention. The next weekend found us at the Portland Convention sponsored by Universariun after considerable delay due to car trouble about which I won't enlarge on here.

The Canadian tour proved quite important in terms of new contacts. I had five radio interviews and a TV show which stimulated much interest, resulting in overflow audiences, both in Vancouver and Victoria, B.C. I was treated most charmingly by friends who invited me as a house guest along the way, and wish to extend my personal thanks again for all favours received. In Vancouver I stayed with Mel and Irene Harper and with the Schimmeyers at Nanaimo. There were pleasant times as well as hard work. We did manage to spend a day cycling in the park and going to the Zoo. Crossing the ferry to Vancouver Island is also quite enjoyable, and the weather was excellent.

Interest proved so great in Vancouver that it was decided to form a branch of the Solar Light Center there. A committee meeting was quickly called together after the Lecture and met the next day at the home of Bob and Joan Gale who have been most helpful. The result of this meeting is that the Vancouver Affiliates of the Solar Light Center is now well organized to assist in arranging lectures, study groups, and related activities in the Vancouver area. (See page 11).

We were glad to see Lile and Elaine Chambers of the City of Light group at the Portland Convention and also in Seattle and Vancouver where they were of help.

Postscript: After leaving Orcas Island, I drove to Seattle where I was invited to stay in Thelma Wheeler's apartment. This was conveniently located not far from KING radio station where I finally had an interview on Clark on KING program. This drew so much interest that it was extended an hour and a half over the time originally scheduled.

A final lecture booking at Coos Bay, Oregon, then on home where there will be a pile of mail waiting to answer. Luckily, Kenneth has taken care of requests for complimentary copies of STARCRAFT up to now, but more come in, and it seems that the predictions that this will be a very important year are coming true.

ANNOUNCEMENTS

GUEST SESSIONS: Regular Guest Channelling Sessions will be held at the Center as follows: Saturday: July 27th and August 31st, at 8:00 p. m. (Possibly Sessions will be held on the last Saturdays of Sept. & Oct. also.)

TELEPHONE: At long last the telephone has been installed at the Center. The number is: 855-1956 (Area Code: 503). The best time to phone is in the evening (5 to 7 pm) or 1 to 2 pm. As we do not have secretarial help at present, please remember to keep calls brief and concise.

LECTURES: Several of Marianne Francis' lectures have now been printed as listed below. If you have placed an order that has not yet been filled, be sure to write in about it, giving details.

SUBSCRIPTION: As explained in a leaflet sent with the Spring issue of STARCRAFT, the rate has been increased to \$2.25 (USA) and \$2.50 (Foreign). This should enable us to cover the extra postage and printing costs and continue to give out complimentary copies as we have done in the past, although extra donations are also needed, as many more are now being given out. If you have friends who are interested, a subscription to STARCRAFT will be a suitable gift any time of the year.
