CREATE BEAUTY

The CONDON REPORT and "MANAGED" NEWS

In January the long awaited Condon Report was made public. Its conclusion: "No direct evidence whatever of a convincing nature now exists for the claim that any UFO's represent Spacecraft visiting Earth from another civilization".

Further observations from the report were as follows: "It is regarded by scientists today as essentially certain that ILE (intelligent life elsewhere) exists, but with essentially no possibility of contact between the communities on planets associated with different stars". "We therefore conclude that there is no relation between ILE at other solar systems and UFO phenomena as observed on Earth".

"Our general conclusion is that nothing has come from the study of UFO's in the past 21 years that has added to scientific knowledge. Careful consideration of the record as it is available to us leads us to conclude that further extensive study of UFO's probably cannot be justified in the expectation that science will be advanced thereby". (End quote)

A panel of the National Academy of Sciences reviewed the methods used in the Colorado study and upheld its formal findings. To quote the Academy panel: "On the basis of present knowledge, the least likely explanation of UFO's is the hypothesis of extra-terrestrial visitations by intelligent beings" !!! (End quote)

So, to add to the general confusion and lies which beset the average citizen, we now have wide-spread publicity given to Dr. Condon's half million dollar "trick" and the National Academy of Sciences endorsing it.

All the sightings of UFO's, performing fantastic maneuvers at incredible speeds, in silent flight, observed by the military, the Air Force and civil airline pilots and millions of citizens, are then just a gigantic hallucination! If this were true, then hallucinations must be on a gigantic increase and in this age of "science"! Obviously, an awful lot of people and nations are sick, but not that sick!

When the Air Force arranged for a group of scientists, led by the eminent Dr. Condon, to take over the highly controversial investigation of Flying Saucers, they also arranged to "take the heat off" of themselves. The half million dollar "trick" did that very nicely. Many scientists, it seems, can still be counted on to stick their heads in the sand, disregard volumes of evidence, and observe the status quo.

The Condon report, however, went even further than simply denying the existence of UFO's. After deciding that no UFO's from another civilization were visiting this planet, this august and "scientific" body of men announced they "do not see any such comings and goings for another 10,000 years! Surely Earthman's supreme egotism is reaching its height of folly!

Hypnotised, brain-washed, and generally in a state of coma-conscious as they are, undoubtedly millions of people will accept the Condon report.

Are not materialistic scientists even as the very gods of wisdom in the Western world! The masses awoke sufficiently from their slumbers to throw off the blinders of the orthodox priesthood only to become slaves to another false god, Science. A substitution of one authority for another has taken place and once again the individual abdicates his/her god-given right to THINK and be their own instrument of decision.

So, we have the blind leading the blind. At one extreme, the blind faith of the "religious" stifles the intellect and asks credulity of its followers. At the other extreme, the barren intellectualism of mental processes, divorced from spiritual understanding and wisdom, proclaims its egotistical "truths": "Truths" which already have changed with each new discovery, yet produce no apparent change within the dogmatic minds of materialistic men of science as to the Universe and its Divine, all-permeating intelligence.

Yet, even within the ranks of the scientists, we find a split exists. While the unscientific and childish Condon report received wide-spread publicity, a far more important event, which took place on July 29th, 1968, concerning UFO's, did not. Following unprecedented congressional hearings, the House Science and Astronautics Committee put on record impressive scientific evidence of the UFO reality.

This group which presented the testimony, both in oral and written form, included J. Allen Hynek, head of the Dept. of Astronomy at Northwestern University (Old Swamp Gas, to his friends and students), who had also been for many years the chief consultant to the U.S. Air Force on the subject of UFO's; Dr. James E. McDonald, Senior Physicist, Institute of Atmospheric Physics and Professor of Meteorology at the University of Arizona; Dr. Carl Sagan, Dept. of Astronomy, Cornell University; Dr. Robert L. Hall, head of the Dept. of Sociology, University of Illinois; Dr. James A. Harder, Associate Prof. of Civil Engineering whose subject was "The UFO Propulsion Problem; Dr. Robert M. L. Baker, Jr., Senior Scientist of the Computer Sciences Corp.; Dr. Leo Sprinkle, University of Wyoming; Dr. Garry C. Henderson, Senior Research Scientist, General Dynamics Corp.; Dr. Staunton Friedman, Westinghouse Astronuclear Laboratory; Dr. Roger N. Shepard of Stanford University; and Dr. Frank B. Salisbury of Utah State University.

Their testimony, together with the mass of documentary evidence which they presented, fill the entire 247 pages of fine print which averages about 450 words per page, or a total of more than one hundred thousand words plus a large number of photographs, charts and diagrams.

All of this testimony pointed unmistakably to the reality of the UFO phenomenon, and all of the scientists strongly recommended that serious and intensive study of the various phases of the UFO phenomenon should be undertaken at once.

All of the quasi-scientific objections which have been made in the past to the reality of the UFO were considered and convincingly refuted.

In Los Angeles some of our people sent for this congressional record, publication #7, and received the following reply: "Permanently out of print". How could a publication concerning an important hearing which

took place only last July conceivably be out of print??? Very easily if, as is obvious, the news is being managed, suppressed, censored. Do we need more evidence that UFO are Top Secret and no lengths are too devious, no means too dishonest, to hide the truth from the people of the U.S. and, if possible, the world?

Yet, time is running out on planet Earth. Science and the military, divorced from spiritual wisdom or understanding of Cosmic Law, have brought havoc on the world scene. Earth upheavals are rapidly increasing (see page 17) and the threat of a deadly destruction of all life by atomic bombs continues.

Earthman will yet learn, in suffering and humility, that he placed his faith in destructive forces and agencies. Identified craft will come, in vast numbers from Space, and an age of true Science and wisdom will dawn at last on Earth.

* * * * *

NOTE: We suggest all readers obtain the following:

- (1) UFO's Yes, by Dr. David Saunders, formerly chief psychologist on the Condon project.
- (2) "Congressional Record Publication #7, Symposium on Unidentified Flying Objects". Sub-title: "Hearings before the Committee on Science and Astronautics, U.S. House of Representatives, 90th Congress, date, July 29th, 1968".
(Bombard your congressman or representative with demands that this booklet be released NOW.)

Space Book and Tape-recorded Lectures

LETTERS to YOU from Baloran.

This book is a great Space being's panoramic view of the many efforts to start, sustain and develop civilization on planet Earth.

THE GALAXY SERIES.

A taped series of 13 lectures given by our Space friends. This series of discourses is designed specifically for radio broadcasting. They cover many subjects that are of particular interest at this crucial time. (Speed: 3-3/4 ips)

THE SOLAR CROSS SERIES.

This series of taped communications is given in the form of six short lectures. The subjects include Earth's relation to our Solar System, the Lost planet (located between Mars and Jupiter) which was destroyed; Life on Mars, Solar Government, and others.

For further information write to:

SOLAR CROSS FELLOWSHIP
Route 2, Box 2455E
Auburn, California 93603

Transmission from Solstar of Saturn

A NEW BEGINNING

We are at an end and yet at a new beginning of things of the NEW and an ending of the OLD. The impetus of events moves swiftly now. No time lag exists as the frequencies rapidly expand forcing upwards the consciousness levels, the molecular structures, the very existence of the planet on which you stand. Consider, in relation to molecular change, the velocity of the atomic structures spiralling as in patterns on the etheric matrix of their essence.

Visualise if you will the atomic structure of Man in relation to the Universe, for all is one. For what is true in the macrocosm is true also in the microcosm. All changes in creation occur in cyclic patterns over vast periods of time bringing about aeons of experience, experiment, if you will, within the living consciousness of beings created from the Godhead. Man, in his puny understanding on planet Earth, comprehends not of the immensity of the Creator's kingdoms, worlds, universes. Yet, in his non-understanding, Man experiences the death throes of an Age and experience reveals unto him the first glimmerings of Cosmic understanding.

My peoples, who walk upon the planet known to you as Saturn, transmit data from the Saturn Council through this, our channel of interpretation for the coming frequencies of Light will bring us and our craft closer and will result in a meeting of minds with our peoples. Interplanetary government exists, as you know, and must incorporate the "fallen one" back into its system: Terra, planet Earth...call it what you will. I, Solstar, communicate upon this occasion with you, for it will not be long before this meeting of minds takes place between our peoples and certain of yours.

Plans must be formulated for the government of a New Earth in a New frequency, of life in its ultimate purpose. Craft will land...conferences will take place. Dates will be dependent on the degree with which the rapidly changing frequencies stabilize.

I speak as one from the Saturn Council. Those truly contacted reveal themselves by their actions, degree of stability, and their material, which itself is a key. Know them by this means. Many have sought, some in truth, some in comradeship, some in self-aggrandisement and some in delusion. It is a time for souls dedicated to the ideals of a spiritual brotherhood and a Cosmic comradeship of eternal verity.

In the Light of our Radiant One, I, Solstar, bid you:

Adonai vassu of this time consciousness.

(Craft Transmission --- Received via Telethought transmission)
(Solar Light Center - 5 March '69 - Channel: Marianne Francis)

INTERFERENCE PATTERNS

-By Orlon

Greetings, my brother and my sister. Orlon transmitting. At this time I wish to transmit information relevant to what has most recently concerned you, that is: The nature of interference patterns.

Such interference patterns manifested upon the last occasion of a Saturn Council transmission and caused some disruption of the telethought communication beam. I would like to make clear to you, at this time, that we are concerned and are dealing with this problem from several levels during this period of intensification of confusion on the Earth scene. Interference is not coming from one source alone, but interference in telethought beam and telethought transmissions is coming from negative Space intelligences and is also coming from Earth sources. By Earth sources we refer to a concentration of minds in certain areas who are now attempting to block transmissions of confederation craft data and also are attempting to block specific material now due to be released to certain Light Centers and individuals who have, shall we say, passed by the trial of fire and have been found stable and steadfast in performance of their service.

All Light stations who have remained so stabilized and steadfast are now due to receive data which should correlate as to relevant points of contact with us and with each other... relevant, that is, to the changing world scene and the imminence of geological upheaval.

Interference patterns therefore, coming in from negative Space intelligence, have been intensified and certain of these individuals, using craft, are now utilising a mechanical type device which is sending a definite electronic type of beam which sets up a resonating frequency similar to the one being used upon the individual channel. This, in turn, establishes or sets up so much confusion within the consciousness of the channel as to cause great difficulty in reception of the telethought beam transmission.

It is difficult for me to transmit technical type data through the mind of any channel unless under certain conditions. Therefore, in intensifying our telethought beam transmission, a certain depletion of energy, of the vital forces within the channel's body takes place. It is, therefore, necessary to establish a strong group for the purpose of such transmissions and receptions where there is a stabilized energy field which forms a protective type mechanism around the channels themselves...particularly around this channel whom we now use who is highly sensitized for many purposes of telethought, telepathic, and intuitional level reception.

You are well aware that the group working with a receiver is of as much importance as the channel itself in establishing and maintaining the energies and protective mechanisms which do assist and make easier the task of the receiver herself or himself. We are highly hopeful that in the near future our channel will no longer be working under the difficult conditions which have rendered transmissions almost unobtainable on certain occasions.

Back to the point of our discourse: The transmissions which are emanating (this is the interference transmissions)...which are emanating from the Earth itself are being established by certain groups of individuals who are now well aware of the material being given from Confederation and Galactic sources. They might be termed the negative outposts on your planet of those working consciously in co-operation with negative Space intelligence. Due to the fact that you are very close at this time on planet Earth to the major changes and the coming in of tremendous energies, it is immaterial whether these be called Universal Light energies although this is as good a description as any or Radiant Light energies, it is, however, at this time that the greatest attempts are being made by the negative to disconcert and cause confusion on the world scene to such a degree that there will be small manifestation of Light outside of the individuals who are so Light en-filled they can withstand all negative onslaughts. Therefore, the Light Centers and the receivers of these transmissions are being made something of a target at this time in order to cause a breakdown of communication lines.

It is wise that Light centers exchange data and information and establish and strengthen all Light lines and networks running throughout the planet insofar as this is possible. The Divine Light or energy flowing downward from the Creator to the point of Light within the individual is the first focal point and from this flows outward the network of Light from like-minded individuals and between Light stations holding and stabilizing, as we have previously stated.

The lines of force on this planet are already disrupted in the magnetic flow and therefore a rotational or "wobbling" effect of the spinning of the Earth upon its axis is coming into effect as you come closer to the unbalancing or axial shift condition long prophesied.

We, transmitting at this time, attempt to clarify the picture and re-establish the necessity for protective mechanisms and for individuals surrounding channels who assist and do not tear down. This is an absolute primary necessity at this time.

Consider well those with whom you associate and this is for all, as it is vitally important that your associates be of a nature that is uplifting and do not draw energies from you which cannot be immediately replenished.

Interflowing of energies between individuals of like mind and harmonious intent are necessary. But drawing of energies from individuals

in the nature, shall we say, of a "vampire" type thing are taking place on a large scale on your planet and are highly deleterious.---

It is for you on the planet to exert the greatest amount of effort to build that which you can, of Light fields around you, from your own structures and your own consciousness.

Due to the widespread usage of hallucinatory drugs, which has taken place in your so-called civilization, a mass pattern of consciousness breakdown is taking place and individuals are practically running amok in all directions presenting much peril and confusion, not only to themselves, but to other individuals caught in their path of activity. The opening of the doors of perception to the degree which has taken place in the last few of your years has thrown open doorways to lower elemental forces and energies which, combining with the releasing of the elemental energies contained within the nature forces: Earthquakes, tornadoes, hurricanes, waters, fires, volcanoes, combining with these, is bringing about a condition of tremendous havoc, which is due to become worse before a final rending, as we have said, of the substance of the Earth between Light and dark takes place.

Therefore, presented with this picture, we are more than ever concerned about the stability and continuation within a stable pattern of our receivers. Without these our communication lines break down. Many of our own peoples have been withdrawn from the planet at this time, although a certain number remain fulfilling other tasks of importance. Due to the high frequency energy structures or cellular structure of many of our receivers, the tremendously disruptive energy patterns manifesting on your surface are highly destructive and cannot be coped with by any means but through consciousness attunement and stabilization within.

Question: What can we do for the Hippie groups?

You can reach the consciousness which is in many such individuals attempting to unfold to concepts of Light by attempting to point out the misuse by drugs and the necessity of opening doors to perception through forms of meditation, tranquillity, attunement with the god-spark within. Many of these individuals are on the brink of much awakening. This is a service which can and should be done for all who at least reach out, notwithstanding the means so employed.

I transmit from the communication craft through telethought transmission. I Ask that the Radiant One be with you and His Light. I withdraw my consciousness.

Adonai vassu.

(Received at Grass Valley, Calif., 16 Dec.'68. Channel: Marianne Francis)

SOME MARCH THOUGHTS ON LIMITATION

By Marianne Francis

As I travel around and meet people, both in and out of the Space movement, I observe many things. Chief among these is the crippling limitations which so many individuals impose on themselves. I long to reach out to all of you who do this and release you from your prisons. For, is not a self-imposed limitation a prison!

In this issue I want to share some of my own concepts with you, for in the world of consciousness lies a Universe for your adventuring. Once you realise this, experience it, live it, you will never again want to shut yourselves in those little prison walls of limitation and fear. Basically, limitation is a kind of fear, perhaps of failure, perhaps of making mental and spiritual effort, lethargy and apathy being hidden enemies of a kind. In order for you to recognise types of limitation, I propose to describe some. No one individual is here described and if you do recognise yourself, do not become angry or feel guilty. If you are limiting yourself, or worse still, someone else, then do something about it. Unlimit, or as Bugs Bunny would say, "un-lax". You see, you must be very rigid, or "up tight" as the colloquism would describe it, to act this way. Tensions of the mind and emotions reflect in the body. Try unwinding and becoming fluid.

A New Age is aborning and if you drag your feet and wait for it to solve all your problems, you will wake one day and find yourself elsewhere. No, not in a place of Light and joy and freedom, but in another plane filled with the same limitations which now occupy your world. Why is this? Because your world is the out-picturing of your consciousness.

Unlimit yourselves and you expand your horizons, you push out the walls and find a blue sky, green meadows and far mountains. The distant blue beckons and all infinity is yours to explore.

First and foremost, let me say that I do firmly believe many individuals are limited because parents and environment "crippled" them. But if this is your excuse for your limitations, don't you think it a little weak to continue to live someone else's reality? This is what you are doing if you do not create your own fullfilling and unique expression of YOU, a child of God. When you stand erect and recognise this, you refuse to live out your father's or mother's "hang-ups". YOUR ARE YOU, unique and perfect in essence. Start to live this reality and you will be surprised at how your life will change.

Types of Limitation

- 1) The individual who is afraid to get outside his/her narrow rut and experience new or think a challenging thought or try a new type of career or self-expression.
- 2) The man who is so limited by his inner insecurities he refuses to let his wife handle any of "his" money or drive "his" car, or express herself in any way outside of the four walls of their home. He makes her a household drudge and his joylessness poisons their lives.
- 3) The wife who regards her home and ideas as her whole world and deprives her husband of any creative expression outside of his work. She shares little with her husband but her narrow views on life, sex, religion, and he plays out his role starved for love, self-expression, and companionship of mind and soul.
- 4) The "religious" individual who sees "salvation" only in a narrow doctrine or dogma. Man has only existed on Earth some bare 6,000 years, such people believe, and all the great civilizations of Atlantis, Lemuria, the mighty cultures of India, the Chaldean, and the Egyptian are myths! All who do not believe in the doctrine of salvation through a blood sacrifice of Jesus Christ, the "only" begotten Son of God, are eternally damned.

Dear, dear ones; do you not see you have limited your Creator with your own small concepts? In all majesty and Light, the Creator expressed him/her self (for surely if God is anything, God is androgenous containing the male and female principle) in many worlds, in many cultures, in almost all religions. God flows in rythmed outflowings and indrawings and from that SOURCE have come many great teachers of Light to this and other planets. All are sons and daughters of God, all life flows from the ONE SOURCE. Blinded by fears of hell-fire and punishments eternal, the religious fanatic lives in his/her own tiny world, fenced with limitations and sees no visions of the spirit, only the authority of a man-made priesthood and a book which does not contain all truth.

- 6) If money is your "hang-up" and you are limited and stingy through fear of never having enough, you never will have enough to barely scrape by in life. Let go and give a little, spend a little, for as you release the outflow, you also open the channel for the inflow. Your own fears alone are limiting you, my friend.
- 7) Another type of limitation concerning so many of you is LOVE and its

varied expressions. The word SEX is still a loaded word and countless individuals are crippled by inhibitions, fears and false concepts of sex and love, even in this year of 1969. Are you limited and afraid to express love in friendship, in family relationships or in the physical expression of love which is called sex? If you are a "cold" woman, or an unexpressive man, then remember this: Love is Life and all things in the Universe of opposite polarity unite in harmony in order to create. Two souls in love with God, with Life and with each other, can make heaven on Earth. Yes even on this chaotic war-torn, changing Earth. Whether you create an idea, a new scientific principle, a poem, a melody, or a child, create together in love and joy and freedom from limitation. For you are the expression of God on Earth and through you His power and beauty and love flows.

I have shared with you my thoughts this day in simplicity of expression because I believe Man alone creates complexity. As I climbed the mountain here with my hound, I felt so free and uplifted in spirit I wanted to share my feelings with you. The view, as always, was magnificent: the far mountains still capped with snow, a vast panorama of sky filled with blue and white. The small herbs were very fragrant beneath our feet and fresh from a March shower of the morning. We gave thanks, my hound and I, for pure air and freedom: he in joyous tail-wagging, and I in prayer to the Creator.

This is my birth month, traditionally a time of fresh winds and skudding clouds in England. So I will end these thoughts by bidding you look up into the sky, away from the cities and Man's turmoil. Deep in the distant blue of infinity, it is unlimited and free. So, too, are your souls!

"UNLIMIT YOURSELVES", as the Brothers would say, "for everything there is, is yours; all there is, is yours!"

* * * * *

To: "Children of Love and Light"

Will some of you please consider the extreme advisability of moving into this Sanctuary area for your own benefit and ours. Earthquakes are increasing and many areas due for upheaval. We are operating in a protected area under direct guidance, both from Space sources and higher realms. No Light Center can operate to maximum efficiency without the loving and generous support of other "children of Light". While we do need financial help, much can be accomplished with donated labor and loving concern. Pure air, peaceful surroundings, and beauty await you. Solar Light Center.

REACTIONS TO LIGHT ENERGIES

By Xyclon, a Space Psychologist

Greetings, our brothers, our sisters in Light. We are attempting to attune the telethought beam mechanism at this point, in order to transmit to you in this locality through our channel. My name is Xyclon and I have been called a Space psychologist in your understanding of that word.

We are conversant with your thoughts of the impact of the increased vibratory patterns of energy upon the consciousness of individuals making up on the face of your planet. Now, at this period of time, we are closely watching the reactions upon such masses of peoples, in many nations, of the tremendously stepped up outflow of energy which is now reaching your planet from other levels of existence. Where there is, in the consciousness of individuals, an awakened state of soul, there is an actual linkage taking place between the higher vehicles (or bodies as you term them) and the brain or mentality consciousness. Where this awakened consciousness is not yet in existence, there is an actual breaking down of the cellular structure which is occurring and I would speak with you upon this phenomena, at this time, in order to clarify the thoughts which you have recently expressed.

Where the awakened consciousness does not yet exist in the soul of the individual, a breaking down of the cellular structure is taking place by virtue of the tremendously high frequency rate or energies flowing in from the Central Sun source. You may ask yourselves why is this occurring. To explain in your terminology, I would say that a state similar to one of friction is taking place. It is known to you that the cells, each cell, contains a level of consciousness or awareness of its own, in that each cell is as an individual planet within a galaxy making up the aggregate of consciousness of the individual.

Where there is not an awakened level of soul, the consciousness level of each cell is at a slower or more dense rate of vibration. Due to this, as the increased high frequency energies pour in, a state close to that of friction is reached and almost, you might say, a "heating" process is produced which results in a high level of irritability or discomfort or disease within said individual. This may manifest itself in one of many forms, running the gamut from physical disease...some of your known degenerative illnesses such as heart conditions, malignant growths, tubercular conditions....to a state of mental dis-ease and disharmony so pronounced

that the individual becomes highly unbalanced, unstable, and verges from states of apathy and depression to those of over-excitation and violent behaviour. Most noticeable at this period of time is that when individuals of like mentality are congregated in areas, there is almost a condition of what you would call a "brush fire" in that a small spark ignites masses of peoples to states of violent and destructive behavior. Conversely, as we have previously told you, where individuals of a highly awakened consciousness level gather together and raise even further the vibratory level of consciousness, as a mass, in harmony and understanding, there comes about a condition wherein the Light energies flowing in do so to such an extent, that the "miraculous" takes place.

At such times, not only will you find what you have termed "miraculous healings" of the physical, etheric, emotional, and mental bodies taking place, but you will find that in this raising of the vibratory rate to these high levels, periods of spiritual exultation and a knowingness of the infinite nature of Man and his destiny in Light becomes manifest to the individuals concerned. In my capacity as a Space psychologist, working with certain of the craft on missions to your planet, I am in a position at this time to spend much time in observation of the infinite variety of reactions being produced in your peoples.

It is my suggestion, as it has been of old, but much more firmly pronounced, much more directly suggested, that those of you who are of the level of consciousness of the awakened state of soul, gather yourselves together in areas of peace and tranquillity where the vibratory rate is conducive to such harmony and, further raising your vibratory levels, bring into manifestation these energies that you may utilize them within your own life patterns: That these energies may become a part of you at all times; that you may call upon them at times of emergency or crisis, or when chaos and confusion surround you, in order, not only to stabilize your own pattern, but to act as stabilizers within the area or community in which you find yourself.

We have spoken previously of many of our channels and peoples on this planet as catalysts. It is possible, when the vibratory rate is sufficiently raised within the individual to partake of the higher Light frequencies and energies at all times, to ACT as catalysts within situations and to bring about CHANGE...not by what you may say, but by what you ARE and what you emanate. Energies, Light energies, are extremely important, and the

science of these energies will rapidly come to the fore in the time which is now fast approaching and our peoples mingle and are able to meet more freely, not only in consciousness (through our channels) but that they may walk with you, in certain areas, and impart to you knowledge and technical information which will be most necessary to your further ongoing.

I, Xyclon, communicate these thoughts, reflections to you, for we feel that those gathered here have within your consciousness the ability to make use of our suggestions. The dedication which is within each one of you, to certain degrees, is as a guiding Light and will safely light your ways and guide you through the times and the confusions on your world scene.

I am happy in the consciousness that I have been enabled to converse with you upon this occasion and to establish a transmission at this time. I am, at this present moment, stationed in a craft not visible within your atmosphere but, none-the-less, stationed above your western coastal region.

In the Light of Our Radiant One, I bid you Adonai vassu baragus. May you be one with the Eternal Light.

(Via Telethought, 27 Dec 68. Santa Barbara, Cal. Channel: Marianne Francis)

* * * * *

LIFE IS ETERNAL

In loving memory of my little mother,
Katharine Maud Mary Brain

Who passed through the portals of Death fo LIFE
February 25th, 1969, Medford, Oregon

* * * * *

I know you are released from limitations into a greater life of joy and love and reunion with those you loved who passed on before you. So I do not grieve, but rejoice for you.

I thank you for "holding down the fort" when I was gone, caring for the pets and being brave and strong in spirit. You encouraged me to read widely and deeply when I was a child. You took me on long walks and taught me to love the little flowers which grew in the hedgerows and the meadows. When I was low in vitality, you taught me to replenish myself from the green of the woods and the fresh country air. You gave me freedom to find my own truths of spirit, courage to never admit I was beaten, but to pick up and go on again.

For all these things I give you thanks, and wish you joy, love, and flowers in your new life in spirit. God-speed, little Marmee; we will meet again in the time of God.

- Marianne Francis

LIGHT BEAM COMMUNICATOR REPORT

Experiments have been conducted during the past few months to improve the solid state Light Beam Communicator circuit as described in Summer 1968 issue of STARCRAFT. Different types of photosensitive cells have been tried with some improvement in sensitivity. The resistor values of the first stage were modified to adapt the circuit to the new cells. Recently, a new and much more sensitive photocell has been ordered which will extend the range of reception in the near infrared region as far as 2.6 microns or better. This cell is a photoconductive type 139CPY and can be obtained from Mullard, Inc., 100 Finn Court, Farmingdale, N.Y, Zip 11735. It is rated at a responsivity of 5.0 millivolts/microwatt and has a time constant of 250 microseconds.

Light Beams for communication from Spacecraft above our atmosphere must pass through hundreds of miles of air consisting of oxygen, nitrogen, carbon dioxide, water vapor, and rare gases. Each of these gases absorbs certain characteristic frequencies, thus radiations are greatly reduced in intensity by the time they reach a receiver on earth's surface. Fortunately, there are certain frequency bands or "windows" through which rays can pass, the absorption depending upon their frequency.

The frequency band selected for experiments is in the range from 1.2 to 1.3 microns. Even at this "window" however, only about one-third of the radiation is transmitted through the atmosphere. It is important, therefore, that experiments be conducted on a hill or mountain above fog and smog to avoid further reduction in signal strength. It is essential to have a highly efficient receiving device. A parabolic reflector is recommended to concentrate rays from a large area on the tiny photocell.

A high signal-to-noise ratio is required in order to detect weak signals. To obtain a good ratio, a good filter is required which will pass only the desired frequencies. The best type of narrow band-pass filter is the interference type, however, these are rather expensive (\$50 to \$75). It is hoped that satisfactory results can be obtained with other filters.

Our thanks go to Gene Lupo for his diligent work with the Light Beam Communicator over the past year. Thanks also go to those who have sent us technical data and information to help with this research project.

Ann Lee of Seattle, Wash. has composed several New Age songs which she sings for various organizations. The words of Eternity's Song, are given below. Unfortunately, space does not permit including the music. Some of her other songs are entitled: Children of the Dawn, Birth of an Age, Celestial Rhapsody, New Age Song, Follow Me Pilgrim Home etc.

ETERNITY'S SONG

Dark the night, but bright the dawn,
 Sadness, sorrow all are gone;
 Bright the day that is to be,
 When from her bondage Earth is free.
 Though the night of Earth be long,
 Still my soul sings eternity's song
 Of the day mankind sheds no more tears,
 And we hear the music of the spheres.
 Though our path's been hard and long,
 'Tis worth the trials we've undergone,
 For with the dawn our bonds will break,
 And of a New World shall we partake.
 Children of the dawn, arise,
 Paradise before you lies.
 When as Cosmic children we
 Shall inherit eternity.
 When shall end the long dark night,
 Earth shall wear a mantle of light,
 Strife and struggle no more will be,
 For all Earth's children shall brothers be.
 Lift your head and lift your eyes,
 Look beyond Earth's azure skies,
 And your joyful voices raise
 To usher in our Golden Age.

Earthquakes Rock Widespread Areas Of Middle East

Buildings Sway In Tel Aviv

By United Press International

A series of earthquakes today shuddered through the Middle East from Cairo to Istanbul, leaving hundreds of persons homeless in at least seven countries. Lesser tremors struck southern Europe and the slopes of Mt. Etna on Sicily.

At least nine persons were hurt in Egypt, and hundreds of others fled into the streets of Cairo. The quake was less severe in Tel Aviv but tall buildings rocked and some persons fled to air raid shelters.

Ethiopian officials reported at least 300 persons homeless as result of the quake.

Turkish officials in Istanbul said the tremors were felt as far away as Iraq. In Turkey, the quakes were felt in East Anatolia and other eastern regions of the country.

The Helwan Seismological Institute in Cairo said the Egyptian quake centered in the Sinai Desert east of the Gulf of Suez and had an intensity of 7 on the Richter Scale.

Widespread Death, Destruction Left By Violent Quake

ISTANBUL (UPI)—An earthquake rocked western Turkey today, spreading death and destruction over thousands of square miles. Mosques, buildings and thousands of houses were reported shattered.

Early reports said at least 39 persons had been killed, mostly in the Manisa area about 175 miles southwest of Istanbul. Authorities said the death toll would rise.

About 200 villages near Manisa remained out of communications with the outside

world hours after the earthquake erupted 186 miles south of Istanbul and rolled across the countryside before dawn.

Tremors which had been felt throughout western Turkey this week had put thousands of residents on edge.

At 3:40 a.m. today, the earthquake hit with an intensity of 7.5 degrees on the Richter scale, seismological experts in Istanbul said.

The Manisa area appeared hardest hit, but the quake also

rumbled through Ismir, Mugla, Bursa, Denizli and Eskieshr and into the southern part of the country.

In Mersinli village alone, according to reports reaching Istanbul, more than 1,200 houses were demolished.

Tents Provided

Government authorities in Manisa ordered more than 3,000 tents sent into Salihli, Alasehir and Sarigol provinces as emergency shelters for the injured and homeless.

1968 Quake Life Toll High

WASHINGTON — (UPI) — More people lost their lives in earthquakes around the world last year than in any year since 1960, according to the National Earthquake Information Center.

The center said 20 quakes in 13 foreign countries took 12,401 lives. (2/15/69)

Center News and Travels

November was a month of change, largely personal, in that I ended one phase in my life and established a karmic relationship on its correct footing. Kenneth and I are now, and for the future, co-workers in the cause, (which is our true bond) and are no longer bound by a legal tie. Prior to attending to legal technicalities, I suffered an unfortunate mishap with my T-Bird - skidding on an icy road and plunging into a ditch. Part of the right side of the automobile was torn and damaged and I myself, violently thrown across the car as it came to rest in the ditch, facing in the opposite direction from which I was going! Had I not been somehow protected, I would have suffered from broken ribs and concussion. As it was, several large ugly bruises, a strained sciatic nerve, and shaken nerves alone resulted. Being of a rather determined nature and bent on important business, I proceeded to drive the damaged T-Bird into Medford, some twelve miles and then over to Grants Pass 30 miles further where I left it, three weeks, for repairs. Had some hiway repair men with a "cat" not come by at the appropriate moment and dragged us (my car and I) out of the ditch, it is dubious we would have ever extricated ourselves and proceeded on our somewhat cautious way that day!

The results of that accident were to plague me for three months afterwards with a jumping sciatic nerve and some ferocious migraines. Notwithstanding this, December 15th saw me heading down to California for a very necessary change of climate and to see old friends and new. Despite the fact I had planned no lectures originally, half way through the trip a series of talks to home groups were arranged for my returning schedule and one public lecture, for Inglewood Understanding Unit, filled. Cold weather continued right down to Santa Barbara. Frost had damaged orange and lemon groves and avocados in that locality and other southern California areas I visited. The sunshine was welcome, however, and I rested a great deal those first few weeks and attempted to replenish my lowered vitality. My gratitude goes to Mr. & Mrs. Andy Hardie for their generous hospitality.

A week in Joshua Tree at the Solar Space Foundation with Bob and Shirley Short and a welcome visit with Teska at White Star followed Santa Barbara. That week in the desert the rain storms began and plagued many areas, and my trips into and out of Los Angeles. Torrential rain and crashed cars all along the San Bernardino freeway added to the tensions as I drove cautiously and (for me) slowly into L.A. for my lecture in Inglewood to the Understanding Unit. Unfortunately, that was the weekend the floods really hit and the L.A. police asked everyone who could to stay off the hiways and out of the canyons which were rapidly becoming disaster areas. It was decided to carry on with the lecture but we estimated at least two-thirds of our audience had decided not to risk driving, although the rain had now stopped.

An enjoyable visit with Anthony Brooke followed that weekend and once again the drive back to Santa Barbara amid closed sections of Hiway 101, mud slides, and the most vicious migraine of that whole trip! Notwithstanding these distractions, a talk was given the next evening in Santa Barbara and some interesting VIP's met. Two contacts of great interest were made with Bishop James Pike and Dr. L. Mathae, a practising psychologist, both residents in that area.

Carmel the next day where a talk was given to a most enthusiastic group. My thanks to Ruth Jepson and her delightful sister-in-law who arranged the meeting. Santa Cruz, the next stop, brought a brief visit with Muriel West in her lovely home. Again, a home group was arranged at the last minute's notice and a delightful group of professional people addressed on the subject of "Manifestation". Then on to dear Gayne and Roberta's at Grass Valley--- minor car trouble and a very stiff neck from tension of driving. At last, after five and a half weeks away from the Center, I headed home on the last lap of the trip and the longest. Another storm expected, a sick mother awaiting my return, and I drove nine hours that last day up the Inter-state 5 and over the Siskiyou into Medford. On phoning the mountain and finding it was completely snowed in and my mother very sick, I decided on a drastic course of action. Spent the night with my friend, Margaret, and enlisting her aid, we arranged a hospital bed, and a nurse to accompany us in on the morrow. Now the only problem was how to get in and get mother out!

A good friend in the sherriff's department was appealed to and a police jeep and driver were found for the emergency. And so we finally arrived back at the Center, my clothes, my Starcraft magazines, and I, plus Margaret, a nurse, and a policeman! A very sick little mother was given a sedative shot, bundled in blankets and carried out and down by the policeman to an ambulance waiting at the bottom of the hill, a trip from which she never returned in body.

Remaining behind to feed the pets and cope with weeks of correspondence, tired out and very over-strained, I became possessed with a compulsion to spring clean the Center! This I began that very day and three weeks later the Center sparkled as if new. The road in was also scraped from snow and visits to the hospital begun. At first, despite pneumonia with several complications, my little Mother began to rally. A week later on a Sunday I suddenly felt very low, exhausted and weepy and concerned for Mother. The next day, on visiting the hospital, her doctor told me she had started to fail. A four-day coma and then transition to higher realms followed in a few days.

On March 1st we held a small but beautiful Memorial Service here at the Center. Since that time much correspondence has been answered, orders for literature filled, and many small projects accomplished. Anthony Brooke was the Center's house guest for two days and a small meeting for discussion and exchange of information held during his visit.

Spring has come to the mountain, the wild flowers are unfurling their small and delicate beauty, and the Center's daffodils glow golden and yellow amid green grass. On March 29th our first Guest Session of '69 was attended by 28 people, some of them High School students, some from a community at Quines Creek and others from Ashland and OTI (Klamath Falls).

Material has been channelled, even under the difficult conditions of California travel and re-organization here at the Center. Tentative plans are being made for a May lecture trip to Portland, Seattle, and British Columbia. First, however, it remains to arrange care and feeding for the Solar Light Center pets: one dog and three cats, during my absence. In summing up, it could be said the last five months have been turbulent, filled with change, and promise of a new beginning. Until I see you all in the north,
In His Light, Marianne

ANNOUNCEMENTS

NEW AGE SEMINAR: Dates: April 18, 19, and 20, 1969.

Place: Josephine County Fairgrounds Pavilian, Grants Pass, Ore.

Sponsors: Understanding, Inc.; School of the New Age; Universalist, Solar Light Center, and New Age Fellowship.

Speakers include some two dozen lecturers from West Coast states, well known in New Age and Space organizations.

GUEST SESSION: The next guest channelling session will be held on April 26th, 1969. Sessions are normally held on the fourth Saturday of each month except when Miss Francis is on lecture tours. It is best to phone first when in doubt. Phone: 855-1956.

HOUSES FOR SALE NEAR CENTER:

2-Bedroom house on 1 acre of wooded land and woods adjoining.

Price: \$5500 complete; \$1500 down and \$60 per month.

(No interest on balance if payments kept up.)

2-Bedroom trailer with large built-on living room, with well, septic tank, electricity. On 1 acre of wooded land.

Price: \$4,990 complete; only \$300 down and \$50 per month.

PUBLICATIONS OF THE SOLAR LIGHT CENTER:

Lectures by Marianne Francis:

FREQUENCY CHANGE AND THE SECOND COMING	\$1.25
THE CALL OF THE PHOENIX	1.50
STARCRAFT CONTACT	1.25
MEN FROM SPACE & PROPHECIES OF EARTH CHANGE	1.25
THE NEW DIMENSION AND THE NEW AGE	1.00

CHANNELLED MATERIAL from the Space People:

Set of ten scripts selected from Channelled material . 2.90

STARCRAFT Magazine: Subscription \$2.25 (USA), \$2.50 (Foreign).

(Three or four issues per year plus Newsletters when possible).

SEND ORDERS TO:

SOLAR LIGHT CENTER
