EXTRA SENSORY PERCEPTION

Involuntary Psychism or Controlled Faculty

"I am not willing to trade quality for quantity." — Steinbeck

A great deal of interest is being shown in the field of parapsychology today. Not only is this interest the "in thing" on campus but many people of all ages are reading, investigating and talking about senses beyond the physical. Books are flooding the market dealing with this subject and ads abound promising instant ESP and control of others by thought.

One young man assured me, in all solemnity, that as Neptune is going into Sagittarius (house of higher mind, religion, etc.) everyone would become psychic during the next 12 years!!! Considering the mass level of consciousness at this time, it might prove to be highly dangerous if everyone did become psychic. What one perceives, after all, is dependent on one's own spiritual development. There is not just one plane of reality but many.

Therefore, at this time, it might be well to stop and consider what ESP is and how it functions. Extra sensory perceptions or, as Shafica Karagulla in her fascinating book, "Breakthrough to Creativity" calls them, Higher Sense Perceptions, are senses which lie dormant within all humans and are partially or fully developed in some.

Dr. J. B. Rhine of Duke University is, perhaps, the best known parapsychologist in the United States and his experiments with Zenor cards have established the validity of ESP among many of the more educated in the populace. His methods are largely quantitative and, frankly, monotonous in their scope. Perhaps that is in keeping with the constant demand for proof in a country that has made a dogma out of statistics: large quantities of anything must be of value! At all events, the mass of experiments conducted by Dr. Rhine have established ESP, beyond reasonable doubt, as valid to all but the "dyed-in-the-wool" materialist or fool.

In the Netherlands, a far more interesting man, Professor Willem H. C. Tenhaeff, Director of the Parapsychology Institute at the University of Utrecht, has been quietly working for nearly half a century. His methods are largely qualitative and are widely accepted in Europe as being of great value in the parapsychology field. A statement made by Prof. Tenhaeff is here quoted to illustrate the question I asked in my title: ESP: Involuntary Psychism or Controlled Faculty? He said, "The paranormal abilities of paragnosts (Sensitives -Ed) like Croiset aren't anything new. They are of an atavistic nature. They are a phenomenon of regression. They come down to us from our prehistoric ancestors. Primitive man lived close to nature and had to use his extra sensory abilities to fight off the imminent danger of the jungle. But as we become more civilized, mechanized, and intellectualized, these powers tend to recede. But I believe that some day these ancient paragnostical powers will be awakened and come back on a higher plane. These lost powers are natural and basic in Man".

The Theosophical Society and many of the "ancient wisdom" (esoteric) schools taught that the psychic centers (vortices of energy or chakras) could and did function in one of two ways: negatively or positively. If positive, the chakra could be seen, clairvoyantly, revolving clockwise and if negatively, counter-clockwise. They stressed, with their students, the importance of spiritual awakening before psychic development, and the need for self-discipline and a positive development of the chakras under control.

In the present outbreak of excitement and sensationalism over ESP, few of these well-established rules are being observed and a cursory reading of ESP books or "lessons" is producing a crop of "half-baked, half-developed 'sensitives.'" The wide-spread use of drugs is also contributing, not only to sick hallucinatory "vision" but to a development of the psychic centers in a counter-clockwise or negative manner.

If the "paranormal abilities of paragnosts like Croiset*" are a "phenomenon of regression" and "of an atavistic nature," then they would come under the heading of involuntary psychism. The unfortunate thing is that these powers are thus most frequently possessed by primitive type individuals in whom the intellectual capacities are dormant and who are basically unbalanced people. According to Prof. Tenhaeff, the "typical paragnost is not a harmonious personality, but is periodically driven to work by great loneliness." "A paragnost cannot easily accept disturbing influences" and their "desire for sensation often creates feelings of fear and impotence." "Childishness and the desire to talk constantly" are other characteristics noted.

Due to an unbalance of the personality and the energies being utilized from negatively functioning chakras, excesses of an alcoholic or sexual (frequently homosexual) nature are not uncommon in the involuntary psychic.

Involuntary psychics are not without value in that their abilities (as in the case of Croiset) are highly useful. Yet the point remains that they are NOT balanced, harmonious personalities.

What of ESP as a controlled faculty? This is a different side of the coin entirely. The chakras are then revolving in a positive manner and the individual is in harmony with themselves and their various levels of being. The mind, the emotions and the soul are expressed as a balanced whole and the desire for sensationalism is not present, coloring or rendering inconsistent the extrasensory perceptions. As a controlled faculty ESP IS the "ancient power (consciously) awakened" and functioning on a "higher plane" of which Prof. Tenhaeff wrote.

Self-discipline, spirituality, and a balanced, intelligent mind are concomitant with the controlled faculty of extrasensory perception, however. Unfortunately, this celebration of the mediocre which has overtaken the land, and in which quality has been lost in quantity, threatens the ESP field as it has other arenas. Perhaps, as some of the sensationalism dies down, more and more sensitives of the type described in Dr. Karagulla's book will be found, and eventually

* Croiset, it may be noted, is a highly dedicated man and leads a life of great service to humanity.

the new race trained to use the faculties of higher man (god-man) as the five known physical senses are now used.

Involuntary psychism is indeed a thing of primitive man; the controlled faculties of higher sense perception a sign of the emergence of a new race of Man and a New Age of Light.

A NEW ENERGY PATTERN

I see a pattern of Light forming; it has the shape of a semi-round, muted light. The words come to me: "Forming in the north and coming in this direction is a latent pattern of energy; this energy is deploying itself around this area and further down towards the south in a fan-like motion. This energy pattern has within itself certain properties that bring about rejuvenation in the cell patterns of all in this Light work." This is a decided form; this has been brought forth from the higher planes to do a work among the living: those who have raised their vibrations to a certain point of development. This will speed up those areas of development.

There will be changes in the thought patterns; there will be a greater acceleration in the working abilities. The thought patterns will take on a decided newness or a greater awareness or expansion of consciousness. There will be an attunement among the Light workers that heretofore has never been. There will be a greater understanding and a greater development as soon as this energy pattern has settled and done the work.

This is a preparation work. This area has been pinpointed as an area of advanced work. Much will be sent out to outlying areas. Nothing can stand in the way of the growth of this work that is definite in plan. Nothing must settle back within itself. This becomes stagnation and there must never be stagnation for this work to progress.

There is a total awareness on the higher planes. There is a complete pattern on the higher planes. There is no friction on the higher planes; all are working hand in hand to bring about this pattern of development. Nothing must hinder this pattern of development. Those who have been selected for this work have been selected for a long time.

There has been much work accomplished within the egos (souls) over a period of time. There has to be a culmination and a greater "forming" to go into a higher vibratory rate. This and only this can accomplish the great work that is at hand. The need is deeply felt. The world has long waited for this point of development. This must be brought into the consciousness of all available workers. No longer must there be a hiding in ignorance.

Channelled from beyond the world of time are these great energy patterns. These are new to all participants. Time will show the result of what has been said tonight.

THE SIMPLICITY OF TRUTH

In the Light and the love of my planet, Venus, I greet you. I am June of Venus. I speak with you at this time, at the beginning of your new year of a new decade, of the time of the manifestation of Light substance on planet Earth. I speak with you in joy and in love and of the reality of these things which you may bring about in your midst. For, from my planet, I bring much love and much Light from my peoples to you.

Upon this occasion I would speak with you, in terms of simplicity, of the bringing within your midst the reality of those things which we on Venus know in our daily lives of joy, of love, and of harmony. Many of my peoples at this time draw closer to you in consciousness and come in craft of shining silver visiting your planet and our message is ever the same. Our message is to bring forth from the immortal soul within of those realities which are eternal, which are of the undying self within which lead to the resurrection of all that which has been known in ages past on the planet Earth, of hope and of vision for the future. That future is NOW. That future IS with you, oh people of planet Earth! That future is with all Light groups and all children of Light who unfold the flower of their own bud of promise.

To live within the reality of joy, of love, and of peace and harmony, is to become that reality. To dwell on past defeats and fears and of past years which have been bitter in sorrows and griefs is to draw around you in subtle essence the memory "thing" of those times, those periods. We do not say to you that you have not learnt through those experiences, that you have not become wiser, more mature today. But we say that that which you are today is a composite of the eternal, immortal soul and the things through which you have passed of much negativity upon the planet Earth.

So take of the essence of these experiences, distilled in wisdom, and create from it a new beginning. Cast from you those things which were of grief, of bitterness, of hurt, and re-create from within, from the distillation of the soul immortal, uniquely YOU, each one, the new beginning of the manifestation of Light. For it is yours to create; it is yours to fulfill; it is yours to know, in joy - a joy which can be shared, which can be given, which can be exchanged with the Earth's children for their greater ongoing in a lighted path.

Those things I say to you are of simplicity, yet I say them from the heart of my being. I say them to you in Love. For no matter how many times the simple teachings

of truth are repeated, they still bear repetition until they become truth self evident and manifesting in the minds and the actions of the lives of those who hear. So it was that the teachings of Light given by Jesus Christ were teachings of simplicity and down through the centuries they have been repeated, but they have not been lived.

It does not need new truths to bring about redemption for Earthman or regeneration. It needs only the living of old truths so simple in essence that Earthman in his sophisticated pattern and culture has forgotten that to live in the simplicity of these truths would bring him the lost paradise that he so vainly seeks in his pursuits and his wanderings.

I leave, therefore, with you this thought: That you stand at the threshold of a new age and for you, each one, it is as new as each chooses to make it. And the footprints you will leave on the untouched sand of this time are for you to imprint and for you alone, each one. Your pathway is unique, is yours to choose in love and in joy and in peace.

So I leave with you the love of my peoples who come to you in craft of silver who are with you many times in consciousness. I leave with you the peace and beauty of my planet, Venus.

In the Light of Our Radiant One, I give you,

Farewell of this time.

THE GREATER PLAN

We of the XY-7 Craft are only a part of a greater plan within a scheme Cosmic in nature. Our instructions come via the Saturn Council and the Galactic Council. It would appear of a magnitude beyond the understanding of our Earth brothers were it not that our Earth brothers have been prepared in consciousness to understand beyond the limits of their planetary horizon. If one link in a chain be weak, then the chain itself has no strength. If one planet in a System falls below a certain vibratory rate of frequency, then unbalance exists within the System, even affecting the Sun of that System. Therefore, the plan of redeeming the Earth planet is not for the Earth planet alone, though its peoples are precious to us. But the plan is one for the System and, indeed, one for the Galaxy. (Ray-Mere, XY-7 Transmission, 27 Dec. '69)

THE END OF A CYCLE

Greetings, our brothers, our sisters in Light. We greet you at this time from the Communication Craft relaying from the XY-7 mother craft. We speak to you of the ending of the cycle on planet Earth.

It has been stated in your Holy Works that at the time of the end there would be much weeping and wailing and gnashing of teeth; that there would be cries of peace where there was no peace; that brother would be turned against brother and son against father; that there would be division in all of the Earth's peoples. This time is the time in which you now find yourselves: not, our brothers, the ending of a planet, but the ending of a cycle: A time on the Earth planet when there would be much confusion among men and little understanding of the Laws of the Creator.

It has also been stated that at that time many would turn away and deny the existence of a creator of all men and would assume in their arrogance that they alone were the deciders of destiny for their life span and their civilization. That time is the one in which you now find yourselves and as you walk your pathways seeking greater truth, greater wisdom, you turn to the things of spirit and you seek of those Laws which are eternal in nature. As these Laws and these principles reveal themselves to your consciousness and are comprehended and are acted upon, a greater clarity manifests in your own lives despite the confusion of the planetary scene. It then becomes clear that you walk your pathways in serenity and peace, knowing within your inner soul that all is well and all out-works for the furtherance of the Law of God.

Yet at this time the confusions which spread themselves o'er the surface of your planet cause, even within the minds of the children of Light, much soul searching, sometimes a turning from the path of Light to the paths which are of a complexity. At that time it is well for those who walk the surface of the planet to seek ever the simplicity of the truths which have been taught throughout the ages of Man.

So great is the confusion on the outer scene of planet Earth in which violence abounds, in which "dark" becomes "white" and "white" is accused of being "dark," that as has been stated in your Holy Works, "even the very elect may be deceived." We might question at this time those who are spoken of as "the very elect." Would these not be the "children of Light?" Would these not be those who sought in their own secret souls the things of eternal, immortal value? If this time be not shortened, then by the devious workings of negative forces and the machinations of negatively oriented individuals, both outside and within your own planet, the children of Light may find they mistake the "shadow" for Light and "Light" for "shadow."

So it is that the time of the change draws near and those days or that "Time" (insofar as your time concept still exists within a third-dimensional world) is being shortened. As the end of the cycle is now upon you and you find yourselves, people of Earth, in the greatest confusion and violence and complexity existing upon your surface since the time of Atlantis and its sinking, it is well that you remember to seek ever for the simplicity of the Laws and the Principles of the Most High.

"Seek ye first the Kingdom of Heaven," it was stated in your Holy Works, and "all things else shall be added unto you." The Kingdom of Heaven, our brothers, our sisters, is that which dwells within each soul. It dwells at the central core of its being in peace, in love, in a fulcrum point of balance, and when that point is found and held, all things of the outer world and of the ending of this cycle, assume their correct proportions and they cease any longer to disconcert the soul who walks the Lighted Way.

This does not mean that that soul is not concerned for their brother, is not concerned for those things which they see before them. It simply means that that concern is placed within the soul pattern of the High self and in each individual so positioned there is then an automatic outworking taking place and the things which are of unbalance within the surroundings, within the life pattern, within relationships, fall away from that soul and peace and harmony and love manifest at all times.

Such is the simplicity and yet, perhaps for our Earth brothers and sisters, the great difficulty of comprehending the pathway of Light. We have stated many times, until perhaps we and you are weary of hearing the repetition, that in simplicity lies the pathway; in the simple observance of things long sought is the Key, and the acting out of those things, visualized at all times within the mind and the emotions, is the pattern of the individual self.

We observe many things on your Earth plane at this time, but chief among these is the greater confusion. The conflicting energy patterns which manifest themselves at the greater inflowing of energies to your planet from the Central Sun. For as these energies are absorbed into the "vehicle," into the molecular, cellular structure of every individual upon your planet, they are then utilized in varying degrees.

The Light-enfilled individual utilizes this for their greater ongoing and upliftment in Light. The individual who is materialistic, who has no concept of a Creator or of forces beyond the physical material energies, finds that these high-frequency energies set up friction within the "body" physical, the "body" emotional and the "body" mental. In the resistance which is set up to these high energy sources develops a great degree of discomfort and dis-ease within the individual. Much of your patterns of violence and group violence in your own country, in your universities, and in your cities, is brought about by these high energy sources and the resistance with which they are met by the materialistic man or woman of Earth.

This situation, as you might term it, is due to grow worse before it finally resolves itself and we would not delude you in thinking that heaven on Earth descends. The work which the individual must do lies first and foremost with the individual and from the individual it spans outwards to the assisting of others who seek the Path. But never must truth be forced upon the unready, for again the pattern of resistance is created and in the creation much disharmony and violence results.

Each is seeking and finding at this time their own level of soul growth. Each must find this level and, in finding it, establish their own point within a destined pattern. Thus all the Earth's peoples choose now, at the time of

decision, between Light and dark and rise rapidly in consciousness and its frequency of cellular structure, or fall into a greater grossness of materialism and density than has heretofore been known.

We have stated previously that a division between dark and Light, of the very substance of the Earth takes place. We repeat that statement and we ask that you dwell upon it in your consciousness and in how it relates to each one who hears or reads our words. For time, as time is understood, runs out on the Earth scene and the greater energies pour in in increasing velocity and they wait for no man, our brothers, our sisters.

A great pattern of destiny awaits the children of Light on planet Earth. Many tests have been given to those who will be the leaders for the future Age, the future cycle and who will work with the lighted ones, both those whom you term the Masters of wisdom who dwell in bodies non-physical and those of ourselves who come to you and will come in increasing numbers from Space. Many times these tests are subtle in nature and are not at the time realized for that which they, in reality, are. Yet at each test which is passed and a greater discernment and discrimination is evidenced, acted upon, then that soul unfolds in Light substance and moves onwards.

We send, at this time, much energy of Light, much love for our Earth brothers, for the scene on the Earth planet is not one of harmony, as viewed from our perspective, but one of great difficulty. Yet the souls who move forward and onward and upward have conquered greatly and have achieved to a point of evolution which many of our peoples have not attained in the peace of our planets.

We say once more: the Earth is a training school for gods. Look within to your own godhead; discover it, express it and BE the being created of the One Creator: god and goddess in essence and aspire to the Light Eternal.

I, Ray-mere, once more (gaining much greater command of your language) communicate with you and extend to you the warmth of my being.

In the Light of Our Radiant One, I give you farewell of this time. (Through communication craft from XY-7, now discontinuing.)

THE UNCHANGEABLE WORD of TRUTH

Oh God of Infinite Good,
Let me abide in Thee.
Let all my worldly consciousness
Be cleansed, that I may be
In Love that heals and blesses,
In Light Thy Mind expresses,
In Truth, the Power that makes us free.
Oh God, let me abide --
In Truth, the Power that makes us free,
And let Thy Words abide -- in me.

Oh Son, of Spiritual Light,
You gave your wonderful Word
When on the world you lived with us,
And yet -- we hardly heard.
But now, in new understanding,
We know your Love is commanding;
We live in glorious consciousness
Of your unchanging Word.
We live in glorious consciousness
Of your unchangeable Word -- of Truth.

WHOM DO YOU SERVE ?

In Our Radiant One's Light, I address you. I am Sut-ko from the Saturn Tribunal.

I speak with you upon this occasion on the question of "Whom do you serve?" It has been stated on your planet that a man may serve only one master and I state to you that we of the Saturn Council serve Cosmic Law. Our peoples, our emissaries who are sent forth in craft on missions to planet Earth, serve only One Master: Cosmic Law and the All Knowing One, Our Radiant One, who created for us that Law wherein we may live and understand of the nature of existence.

If we, who come to you from other planets, serve the principle of Cosmic Law, then do we serve the interests of peoples and personalities, or do we serve the One Light? The answer, my friends, I think is obvious. Yet, in our dedication to Cosmic Law and to the One Light, do we not serve the highest interest of peoples who are created from that One Light?

Earthman at this time finds himself caught in the confusion of many conflicting concepts regarding our coming. From all sides your peoples are bombarded with concepts regarding our coming: with theories, with ideas, with conflicts of interests, and your peoples are bewildered. You have been told by many of your writers that we are "aliens coming to take over your planet and that we mask our intentions in words of gentleness and compassion but that our ultimate aim and ambition is conquest and the making of your peoples as slaves."

You have been told by others of your writers that we are "monsters who present an idealised picture of ourselves as humanoid beings when in reality we are not, we are reptilian in appearance!" You have been told by other of your writers that we are "races who come from planets far out in another system where life is dying and our peoples need to breed with your peoples in order to maintain the vigor of our strain!" Such concepts, my brothers, are very strange, indeed. Such concepts are the creations of the sick minds of Earthman who has wandered far from the truth of the Creator's Law. Such concepts all too often are the creations of those who have been paid to spread unto your peoples a tissue of lies that they may not desire the landing of our craft or the meeting of our peoples with your own.

Yet these confusions abound and continue to multiply themselves upon your surface until a day of reckoning arrives and Truth presents itself in all its glory and the fabrications and castles of sand built by sick minds, built by conflicting interests of materialistic worth, collapse and die. For they have no reality before the Light which pours forth from the Central Sun and permeates this planet Earth on which you dwell as well as all planets in this System.

We, my brothers and my sisters, in serving the principle of Cosmic Law, do so with complete adherence to Truth. If personalities on your planet cannot comprehend that Truth or choose to distort it for their own selfish gain, they do so at risk of their own immortal heritage. For man cannot sell lies to his brother without a time of reckoning and the time is fast approaching on planet Earth when a final reckoning takes place between the forces of Light and the forces which have sought to distort Truth and to shield the children of Earth from the Light of that eternal knowledge of their Source.

We, my brothers, my sisters, have come to help you even as all higher forms of life help that which is one step below - not lesser but simply one step below in evolutionary growth. We reach out our hands and we say, our brothers, our sisters, that that which we seek to give is an understanding of Cosmic Law and as you understand that Law and live within its pattern, your own lives form a pattern of beauty and of harmonious fulfillment. Therefore, we give to you a KEY by which each one may lift himself or herself to a higher level, for we are not permitted to do those things for you. We can only give to you the KEY wherein you unlock your own door. Therefore, our service is not to personality but to principle and in the greater love of the soul it is given in brotherhood and Light. For what greater gift may one man give to another than the knowledge of immortality and the KEY to that immortality?

What greater gift may one man give to another than to reach out his hand in love and say, "My brother, this pathway leads to those things which mankind has dreamt for many, many thousands of years and those other pathways, which certain of your peoples follow, lead to death and degradation and destruction." What greater truth may one man give unto his brother than the truth of his own immortality? In our adherence to Cosmic Law, to the principles by which a Universe, orderly and disciplined in its course is run, we hand to you the vision of your future which may be as ours. The confusions upon your planet and the conflicts and the warring ideologies

may destroy themselves but you who walk in the pathway of the Light of the One Sun, walk with your heads held high and will not be touched by the mud of Earth nor the destructive forces which war upon its surface.

For the time of a division has come on planet Earth and the children of Light go onward and the children of darkness fall back into the confusion of their own makings. And at the beginning of this your year, your decade of the Seventies, I speak with you in love and in that small wisdom which I have garnered in the long years of my existence. I speak to you from the Saturn Council of these things that you may know as they take place upon your surface.

I and my brothers serve only One Master. What master do you serve, oh people of Earth?

In the Light of Our Radiant One I, Sut-ko, say:

Adonai vassu baragus, my brothers, my sisters of Earth.

WHITE STAR LETTER

Portion of White Star Letter - Feb. 1970 - KRONA of Ashtar Space Command.

SPACE COMMAND COMMUNICATION: Present activities of all LANDING CREWS, their INSTRUCTORS, and co-workers, are toward final preparations for 'EMERGENCE' into the lower-density. This EMERGENCE will take a form which has not been a general practice of the past, and will be to take up active functions upon your PLANE of action; to assist our appointed FOCUS CONTACTS with preparations for EXTENSIVE ground-work for OPERATION LIFT-OFF, as well as OPERATIONS SALVAGE and RE-CONSTRUCTION.

Planetary preparations for these PROGRAM PHASES will require diligent co-operation between SPACE MASTERS and PLANETARY CO-WORKERS. These OPERATIONS will not be conducted by SPACE COMMUNICATORS contacting WORKERS merely by communication lines but will require hand to hand, mind to mind effort. All necessary factors to afford ease of operation, have been fully checked, tested, and accomplished with sufficient 'rapport' to assure success. All disconcerting factors, such as un-co-operative personages, have been eased, either by adjustment or removal. Planetary field-workers will find such distractions either re-routed or discouraged. There is no longer TIME to waste in warding off distracting frequencies. CONTACTEES must be FREE to perform without necessity for manipulative diplomacy to maintain a harmonious working environment.

SIGNALLING AT THE RETREAT

by Eugene Lupo

Since November, 1969, the Retreat has been receiving a large number of signals, via Miss Francis' car headlights. (See Summer/Fall STARCRAFT, 1969). Recently the frequency of these signals has increased tremendously.

Since Miss Francis is usually alone in the car, it makes it difficult, if not impossible, to record these signals while driving at the same time. This is not to say, however, that Miss Francis has always been alone as on several occasions others were in the car with her (See list at end). On at least five occasions I myself have been in the car observing and analyzing the signalling. Harold Brande, a student at OSU, suggested constructing a circuit using a photocell for recording the signals when the lights blink off and on. Using his basic circuit design, I constructed a circuit with components on hand as shown in Figure 1. I had to use a relay in place of a buzzer as a large value of resistance (10K) was needed in the circuit and available buzzers had too small a resistance. Circuit operation depends on resistance variations of the photoconductive cell which range from 500 ohms (light) to 1 megohm (dark). When the car headlights are ON, the buzzer turns On. When the lights are OFF, the buzzer turns OFF. A portable tape recorder is used to record the buzzer signals.

Up until February there seemed to be signals of three distinct time lengths representing: a dot, a dash, and a long dash. They seemed to fit in with American Morse code better than International Morse (which has only a dot and a dash). Using American Morse the signals included many L's and T's and a considerable number of M's, E's and fives, however no intelligible interpretation has been discovered as yet.

We have recently recorded signals that have a dash even longer than the "long dash" previously recorded. With this new development it appears that Morse Code, most likely, is not the answer. We have decided to correlate all factors: signalling, the Retreat, world events, etc. plus intuition and hopefully this will bring some fruitful results.

Dr. Dan Fry of Understanding listened to tapes of the recorded signals and suggested a very interesting decoding idea. We had noticed that when the buzzer was ON (no signal) the buzzing sound was uneven. Dr. Fry thought that a code might exist in this uneven buzzing. Upon playing back the tape at $\frac{1}{4}$ speed to slow the buzzing down, a modulated "middle C" sound was first discernable. In slowing the buzzing down further to a $\frac{1}{16}$ th normal speed, the buzzing now took the form of a telegraph-like nature varying both in pitch and duration. This recording is now under further analysis.

Fig.1 - Signal Recording Circuit

Fig.2 - Revised Circuit

Dr. Fry suggested that I also construct a circuit that had the buzzer turn ON when the car headlights went OFF, that is, just opposite to the original circuit. We could then compare signals from the two circuits. I have just constructed the new circuit (Figure 2) and will be able to compare results when we receive more signals. We expect these comparisons can be made soon and results should prove most interesting.

Miss Francis and Dr. Fry feel it is but a matter of time before the signals can be decoded. Since events on the world scene are reaching a crisis, it is felt the signals bear a definite relationship to possible emergence of craft. With the recent increase in signalling, it seems a strong indication that something big is pending!

NOTE: The following people have witnessed the signalling while in the car with Miss Francis: Kenneth Kellar, Eugene Lupo, Anthony Brooke of England, David Lander of Australia, Vida LaVoy, Maxine Hergenrether, Ralph Mundell, and Holly Thompson.

"THEY'RE ON THE MOON, WATCHING US!"

The German-American rocket scientist, Willy Ley, was a Flying Saucer skeptic, yet interestingly enough he died of a heart attack on the 22nd anniversary of Flying Saucers, June 24, 1969. A year earlier Ley had made this prediction: "Sooner or later, American astronauts are going to run into astronauts from another planet outside our Solar System." Too bad Mr. Ley didn't stick around for another month, or at least long enough to read the censored transmission from Apollo 11 Command Service Module "Columbia" after Armstrong and Aldrin had safely lifted "Eagle" off the moon's surface and rendezvoused with Collins at 70 miles altitude. Ham radio operators on Earth, tuned in to the Command Module's radio wavelength heard conversation which was not released by NASA to the radio and TV networks for re-broadcast. We quote now from an article by Sam Pepper which appeared in the September 29, 1969 issue of the weekly, "National Bulletin":

"What was it, what the hell was it? That's all I want to know."

"These (garbled) babies were huge. Sir, they were enormous."

"No, no, that's just field distortion. Oh, God, you wouldn't believe it!"

"What ... what ... what the hell's going on? Whatsa matter with you guys wha ... "

"They're there, under the surface."

"What's there? (garbled) malfunction ... ion. Control calling Apollo 11."

"Roger, we're here, all three of us, but we've found some visitors ... Yeah, they've been here for quite a while judging by the installations."

"Mission Control. Repeat last message."

"I'm telling you there are other space craft out there! They are lined up in ranks on the far side of the crater edge."

"Repeat. Repeat."

"Let's get that orbit scanned and head home."

"In 625 to the fifth, auto relays set. My hands are shaking so bad I can't ... "

"Film? Hell yes, the damned cameras were clicking away from up here. Did you fellows get anything?"

"Had no film left by the time (garbled) three shots of the Saucers, or whatever they were, may have fogged the film."

"Mission Control; this is Mission Control; are you under way? Repeat, are you under way? What's this uproar about UFOs? Over."

"They're set up down there. They're on the moon, watching us."

"The mirrors, the mirrors. You set them up, didn't you?"

"Yes, the mirrors are all in place. But whatever built those spacecraft will probably come over and pull 'em all out by the roots tomorrow." (End of Transcript)

* * * * *

Is there any evidence to verify Sam Pepper's article and the censored Astronaut dialogue? Yes, we have heard from two different sources that ham radio operators heard the conversation. We have a recent letter from John J. Locko, Director of the World Wide Research Bureau, Lorain, Ohio:

"The article by Sam Pepper I have, also the color photo of the two Flying Saucers in the upper left hand corner of the photo of Aldrin staking the solar curtain. (This photo appears on page 24 of Life Magazine for August 8, 1969. In Life's "Memorial Edition" of the Apollo 11 trip, the UFOs are cropped out of the Aldrin picture taken by Armstrong.) Also, a ham radio operator that lives one block from me tipped me off on the Astronaut's conversation."

Did Armstrong and Aldrin see physical UFOs and installations on and under the surface of the moon? Or were these Etheric constructs, beyond the sensitivity range of normal eyesight, of TV cameras, and of the film in the motion picture and still cameras? If they were non-physical by our standard frames of reference, then the two moon pioneers are lucky to have the Aldrin photo to back up their story. This puts them in the same category as thousands of other earthians who have seen Flying Saucers and have little or nothing to prove it except their own word. Why should the Astronauts see non-physical realities on the moon? Because their psychic sensitivity had been increased by three days of weightlessness and other sensory deprivations of deep space -- but try to explain that to an academic flathead to whom such "visions" are merely hallucinations -- so the controversy over "reality" will rage on, we suppose, until all the material-minded Pisceans are gone from the earth. Meanwhile we Flying Saucer believers can be thankful for the Christmas present of these few shreds of evidence from the Apollo 11 landing, July 20, 1969.

"APOLLODDITIES"

"Noises like a fire engine surged through the airways from Apollo 11 on July 22 and left Mission Control wondering what they were. 'You sure you don't have anybody else in there with you?' Mission Control asked. There was no reply. Then came more air shattering noises again like a fire siren and sometimes like a combination of that and a buzz saw . . . No explanation was offered by Mission Control or the astronauts." Quoted from Gene Duplantier and his "Saucers, Space & Science" magazine, November 1969.

(Reprinted from Round Robin, Nov.-Dec.69, BSRA, Vista Calif.)

A similar report of UFOs on the moon appeared in "PROCEEDINGS" published by the Ministry of Universal Wisdom, Geo. Van Tassel, Director. In an article entitled "The Moon, Myths, and Malfeasance", the same Sam Pepper article is quoted and claims made that there are several other sources of information about this.

An interesting correlation of UFO sightings on the Moon appeared also in the PROCEEDINGS (Vol.7, No.5) which shows an amazing photo of the Gassendi Crater on our Moon. This photo "clearly shows domes over underground living quarters, connected with a system of large diameter tubes on the surface to travel through and maintain an air pressure system throughout the entire base." The Gassendi photo was reputedly taken by the 200-inch Mt. Palomar telescope. Unfortunately, the powers that be persist in withholding information from the public.

RESURRECTION OF LIFE FORMS

We, who are nameless beings from Devic realms, greet you in the Light of the Universal One's radiance. The Light of a thousand suns illumines the darkest corners of God's creation and Man, who dwells on this tiny planet you call Earth, bears upon his shoulders the responsibility for a planet and its woes. Illumined Light, radiating forth from the inner Sun of the Creator's realms of Light, presents Earthman with an intensity of energy form that he cannot yet comprehend in his Earth consciousness.

Confused by the intensity of this radiation, he rushes in his confusions throughout the world of his known creation and blindly refuses the very life-giving elements which would resurrect him from his form of clay and from that which he knows as death. This Light, children of Earth, grows in intensity, grows in radiance, grows in energy, and penetrates to the very core of the planet in its attempt to resurrect all life forms and raise them to a higher vibratory rate of expression and an octave of realization that they have not heretofore known.

Creation upon the planet Earth, limited not to Man but to many forms, reaches forth and gratefully draws within its "body," its cellular structure, these energies for which it thirsts and which feed it with vital essence. Only Man - only Man upon planet Earth comprehends not, and in his confusions he perpetrates upon his planet, his brother, and his younger evolutionary brothers (the animals) of creation, a violence which is contrary to the Laws of the Creator. Of this violence does he sustain a self which he must now shed. Of the lower forms of energy does he feed upon, yet they are subject to the laws of death and decay.

The spirit within all created form reaches outward and upward and in so doing creates a schism within the form which does not also follow in like manner. So does the form, therefore, split in its cellular consciousness of the elemental self, from the higher energies of the spiritual self. You have then in your midst, oh children of Earth, a mass of humanity divided as a house and, so divided, destroying and decaying.

Our mission, we who are nameless beings of the Devic Kingdom, is to uplift spiritual Man, that the very chemical elements of his form may become of a vibratory pattern of high energy content and become integrated and ONE: That certain of the life-wave called Man upon planet Earth may go onward and upward into a new realm of existence, of energy, and of form, and even of that which you term matter. For there are octaves

of matter whose chemical structure is not that which you know but is vibrating to an etherealized atom of matter construction. Of this new race of Man shall a beginning be made upon the planet Earth and the race of the future centuries be formed of these beings, knowing and utilizing the freewill of their god-given inalienable right, yet utilizing this in knowledge and in wisdom for the ongoing of the planet and its peoples.

We, who are nameless beings, who come from the Devic Kingdom, work with Man and his elemental self in recharging the very structure of his being that he may control those elemental forces within him and utilize them to the highest capacity which we ourselves know and utilize under the Adepts of God.

Harmony is the Law of the Universes of the One Creator. The planets and the systems spin in marvelous balance and harmony according to Laws set forth. Only Man on planet Earth (and other realms of shadowed intent in other systems) have "devolved" from their high place in creation and now must return. The elemental forces which we wield under the Lords of Light, for the Creator, now stir in the Nature Kingdoms and bring forth a cleansing of all things. That which rises pure from the fires, rises even as the phoenix: reborn unto a new dawn and a new beginning.

Our converse with you upon this occasion is not by chance. Our contact through this one, and other "children of Light upon the planet, is that we may make known the Creator's intent to His creation. This is our mission.

We leave you in Light, for in our realm of understanding there is naught but Light, and all else is shadow and has not reality.

Nexus aloria.

NOTICE OF NON-AFFILIATION

The Solar Light Retreat and its associates, the Solar Light Affiliates of Vancouver, B.C., are NOT affiliated with "Light Affiliates" of Vancouver, B.C.; neither is material being issued by this group, under the heading of XY-7 craft and Sut-ko recognized as valid. It is regretted by the Directors of S.L.R. that it is necessary to issue this public statement. However, due to widespread confusion and the publication of invalid, erroneous data by unqualified channels, it is necessary to protect our valid sources such as XY-7 craft and Sut-ko from misrepresentation.

It is further noted that while misrepresentation is occurring from "Light Affiliates," the motives of these people appear to be sincere although misguided.

QUALIFICATION OF CHANNELS

Greetings, our sisters (and our brothers who are not here upon this occasion). I speak with you to prepare the way for the coming of another. My words have much meaning at this time, for before you lies another year of your Earth time, a year of experiencing, of living, of understanding of the complexities through which Earth people pass at this time.

I speak with you upon this occasion from the communications craft where I am presently located. A transmission is being prepared, either to reach you later this evening or on the next occasion of your meeting, from a higher source relevant to events upon your surface. My discourse at this time deals with the needs, necessities, shall we say, of the events which surround many of our channels of truth at this time.

It has been stated by none other than my brother, Sut-ko, that there would come a time upon the Earth when there would be manifestation of things of both Light and Dark intent. This time, it was given to you to know, had already begun and is now intensifying in its stage of expression. Because there is an intensifying of all phases of the high and low octaves of MANIFESTATION, there is taking place a greater confusion upon the Earth scene. There is a crowding in of communication from many levels, from beings both in Space (negative and positive) and from beings from the other realms known to you as discarnate (both negative and positive). There is also to be taken into account the phenomenon known as the subconscious mind of Man upon planet Earth which is the depository of much accumulated information, data, and recording.

When a being either from Space or the discarnate realms attempts to utilize an Earth personage, male or female, as a channel for communication, they do so knowing that the levels of subconscious mind present a certain danger, shall we say, as to coloration of the communication which is being sent. In the case of highly trained and developed channels who have worked with much self-discipline and conscious knowledge of the Laws with which they are working, over a period of time, there is a very small residual of subconscious mind permeating the material channelled.

However, with those who are newly acquainted themselves with the phenomenon which you have called "channelling," "receiving," or in certain cases "mediumship,"

there is a much greater level of subconscious mind intruding upon the communication being sent from another being. Because this is so and is known as a law of nature applying to planet Earth and communication levels, it is NOT customary for a high being such as Sut-ko or other, shall we say, officials from high Saturn Council sources to communicate through untrained or undisciplined minds of Earth.

When such a contact is made or is desired to be made, there is a preparatory period of training involved wherein Space beings, such as you know as "the Brothers," will attempt communication and will test out the receptivity and degree of accurate receipt of the channels so involved. This is a most simple and necessary procedure and quite obviously is required where any level of accurate transmission from high sources would even be considered.

You are, therefore, dealing with a lack of understanding in many of your peoples concerning the laws which govern communication, particularly from our level to yours. As to those laws which apply from discarnate realms to yours, there is, again, a testing of a channel where a high being, whom you may term a "Guide" or "Teacher" or even a Master, wishes to contact. A period of training is initiated by lesser beings, under the instructions of the higher one, until such time as the channel is found to be reliable.

Individuals may choose to believe this is not so in their particular case but later investigation shows that these laws do, indeed, exist.

The main point of my discourse is the necessity for caution, for knowledge and for self-discipline in the phenomenon of channelling. Knowledge of self is also mandatory in all cases where high beings are contacting, and responsibilities - particularly involving Karmic Law - are involved. Neglect of these vital points can only result in error, misunderstanding and unconscious fraud on the part of the channel. Need we say more, our sisters, our brothers?

In the Light of Our Radiant One, I bid you
Adonai vassu.

INTERNATIONAL STATUS

GUEST CORNERCOMMAND BULLETIN - COUNCIL RELEASEWHITE STAR

We have not withdrawn our forces. Methods of approach have undergone a change, as we have moved our fields of influence into a closer relationship with those we have been assigned to guard. This has curtailed some aspects of communication and externalization, as lines of contact must be kept open from craft to Planetary contacts. These lines are in the form of energies, to bring a greater affinity between Planetary contacts and Space focus points of contact. These rapports are necessary to assure Planetary connection sufficient to bring Earth contactees into alignment for future joint activity.

An ENERGY-SHIELD, which is now being densified, establishes a rapport level between higher-frequency-forms and lower-frequency-forms.

With thought levels brought into greatest possible stability, these energy-shields make rapport possible to an ever increasing extent ... wherein it shall be possible for Earth-beings to co-exist with the Space Brothers; both being comfortable in relationships of proximity.

This relationship shall only be possible where "fields" of Planetary individuals are akin to vibrational-harmonies of approaching Brothers of Interplanetary Order.

Our craft ... designed for your aid in those days of their need, which rapidly approaches ... are modulated to be of an energy-level which will afford the greatest possible harmony with the cell structures of Earthman's physical form. This, likewise, necessitates adapting our cell forms into a lower energy field, in order to continue to function without undue stress upon our fields of individual frequency.

This entire OPERATION could be graphically called ... "OPERATION COMPATIBILITY."

That factor which most greatly delays these "hook-ups," is the inability of Planetary-beings to maintain a semblance of EMOTIONAL BALANCE, as the shields intensify. To do so, assures rapid success ... to fail to do so, delays, and threatens possible failure of compatibility sufficient for co-existence; which is the determining factor when it is "TIME" for "LIFT-OFF."

No Earth form can withstand the SHOCK of frequency-factors involved in boarding craft, unless these preparatory measures have been taken and complied with. Your "feeling" level dare not drop below specific rates for your "contact" to be maintained. Maintain your human reactions to all circumstances at a peaceful level; reminding yourselves constantly of your true being ... ever present. Permit no FEAR, suspicion, self-pity, remorse, or anxiety, to lower your "field."

Regardless of "method" of your deliverance from chaotic happenings of your Earth ... these moods of depression can alter the fulfilling of that deliverance for you. Higher energies can only destroy that which fails to harmonize with them. Knowing these things ... then surely your mood must be in Christ ... as this mind of Christ is your Salvation.

"RETREAT" NEWS AND TRAVELS

It is early March as I write this column; a surprisingly mild winter has come and almost gone. Instead of snow we had three weeks of almost continuous rain in January, and plans for building an "Ark" were contemplated! The road became a mass of exceedingly slippery mud. Twice in that three-week period I found myself alone on the road late in the evening with the T-Bird firmly embedded in mud. They say episodes like this strengthen the character ... (they certainly try the patience!). If this is so, after five years on this mountain with continuous tests and "trials by fire," I must have a very strong character. If any being or force is testing, they should be convinced by now I am not shaken from this mission nor do I bow to the dictates of opposing elements. I suppose the cockney would say, "there 'as to be a better hole" and no doubt there is. Yet the spiritual vortex is here and the signals (see Science editorial) are being received here and it all adds up to something of importance. My loyal and dedicated Assistant Science Director keeps telling me "one day we will all look back on this, perhaps from a Spacecraft itself, and laugh at the trials and delays." No doubt we will, and from our fervent prayers we say, "Let it be soon, oh Lord."

Signs abound that the cycle is fast drawing to a close. Letters arrive from our subscribers telling of experiences, visions, and precognitions of a new world. One in particular phoned long distance to share her experience with me, which I now share with you.

Ruth Lewis's Experience: "My house (which is all my lifetimes) burned, room by room, and I was told 'this is all finished.' When the last room burned, I turned to look to see where I was going next. I was told 'Do not look ... you must live by faith for a short time yet'.

"My next scene was the world earthquake where only ten are saved out of thousands. I was not allowed to see any destruction and no one on 'the Path' felt any discomfort in any way, for we were someplace, I do not know where, a remote, sparsely-populated spot with a cliff in the near background (This area? Ed.). We had walked down a shiny road to safety (after being told the 'quake would come), then we all walked back up the road saying, 'the Bible was certainly right ... there are only the few of us left.' We did not even feel pain or concern.

"The next experience was telling me I must learn levitation: being taught to use the palms of my hands held in the air, in the Christ-Consciousness; being wrapped all in the beautiful blue of it .. was in the New World (consciousness) ... the conditions, the life, the most vivid colors and clear, clear atmosphere ... and oh, the JOY of it all! We will live in the vibrations of Love and Joy, believe me.

"Then I was back in my trailer and shown dry barren dirt for a short distance (the last of this Age) then was a sparkling river of Life and on the other side was a tall, graceful Tree of Life, all in bloom ... a gorgeous shade of deep pink (Love, new birth, New Age, new as is the Springtime). Then a dirty cloud came rolling in and I was told this was the vibration of this Age. Then, 'do not forget what lies behind the cloud.'

"The great joy I still FEEL!! As the last chapter of Revelations says, 'Christ shall send His Angels to testify unto you ... For I come quickly.'

By the Father, for the Father, in His Name, let it be so, as we gladly give up all which is of third-dimension, to turn and walk gladly into the New Dawn."

Ruth Lewis

* * * * *

I have shared Ruth's experience with you as it is truly inspiring, and inspiration is needed now. If any of our readers have had similar experiences, visions, will they please write in and share with us?

Anthony Brooke again visited the Retreat this last February and in his public lecture at the Understanding Cultural Center in Merlin he imparted to us his convictions about the New Age. One statement made is of great importance and I include it here: "Man has always had two futures: one in Time, and one in State (of consciousness)." Many people are beginning to realize that it is the state of consciousness alone that determines each Man's future, singly or collectively. Is this not what the Space Brothers have been trying to impress on us since first they commenced telepathic contact?

This column is entitled "Retreat News and Travels," yet the winter is my hibernation time, so travels have been few and close to base. Yet this month will see me in Salem, Oregon, to kick off the year's lectures with a talk to the Saturday Night Club. A bare month remains before I fly to Montreal on the 4th of April, and from there who knows where I may fly?

The Retreat's personnel are well, and the Spring air heralds morning yoga exercises on the deck. The pets, one watch dog and three "watch" cats, are hunting gophers in the wet meadow, and many baritone and contralto frogs sing their evening song from the pond.

All is promise of Spring, and perhaps at last this Spring will truly be a time when we can say, with Solomon, "The winter is come and gone and the voice of the turtle is heard once again in the land ... the time of the singing birds is come."

In Light,

Marianne Francis.

WHITE STAR LETTER (cont. from page 13)

not be required to trifle in wasted time with humanoid-frailties of personality. Being about the FATHER'S BUSINESS requires strict adherence to that BUSINESS..and it is not expected of you to be sensitive to opinion which has no bearing on that BUSINESS. Hurt feelings are a failing of the reactor, and not necessarily of the actor, when demands for undue attention and regard are ignored.

Love of the SPIRIT for ITS objective is not coddling, but INTELLIGENT DIRECTION toward the greatest benefit of that OBJECTIVE, with little regard for appearances and ALL REGARD for accomplishment. Demands of the lower-nature for personal self-ish considerations, are ignored, and ACTION performs according to DIVINE WISDOM, not HUMAN EXPECTANCY.

Be about your FATHER'S BUSINESS, as TIME no longer permits for side-tracking emotional-excursions.
