READING OF THE EMBLEM.

The center of the design represents a human face, the highest type of in telligence; the face is encircled by the band of darkness symbolising the ignorance and superstition of humanity; this is broken by the rays of light from the center of intelligence which pierce the darkness and join the light of the golden leaves beyond. Bach leaf symbolizes one of the principles of nature on which progression is based. This design is set in the center of a pure white field, symbolizing purity, while its position in the center of the square is a symbol of justice. The whole is enclosed by the solid band representing the unity of humanity, while the ornamentation of the band symbolizes the kindnesses extended to others.
