## OBJECTS OF THE THEOSOPHICAL SOCIETY.

*First*—To form a nucleus of the Universal Brotherhood of Humanity, without distinction of Race, Creed, Sect, Caste, or color.

*Second*—To encourage the study of Comparative Religion, Philosophy, and Science.

*Third*—To investigate unexplained laws of Nature and the powers latent in man.

The Theosophical Society is composed of students, belonging to any religion in the world or to none, who are united by their approval of the above objects, by their wish to remove religious antagonisms and to draw together men of good-will whatsoever their religious opinions, and by their desire to study religious truths and to share the results of their studies with others. Their bond of union is not the profession of a common belief, but a common search and aspiration for Truth. They hold that Truth should be sought by study, by reflection, by purity of life, by devotion to high ideas, and they regard Truth as a prize to be striven for, not as a dogma to be imposed by authority. They consider that belief should be the result of individual study or intuition, and not its antecedent, and should rest on knowledge, not on assertion. They extend tolerance to all, even to the intolerant, not as a privilege they bestow, but as a duty they perform, and they seek to remove ignorance not to punish it. They see every religion as an expression of the DIVINE WISDOM, and prefer its study to its condemnation, and its practice to proselytism. Peace is their watch-word, as Truth is their aim.

## HISTORY OF THE THEOSOPHICAL SOCIETY.

The Theosophical Society was founded by Madam H. P. Blavatsky and Colonel H. S. Olcott, in 1875. Colonel Olcott was the first President and he held the office continuously until his death in 1906, serving in that capacity nearly thirty-two years. The office thus vacated by death was filled by the election of Mrs. Annie Besant. The headquarters of the Society are at Adyar, Madras, India, and National Sections and Branches exist in various nations throughout the world. The chief officer of the American Section is Weller Van Hook, M. D., of Chicago, and the American headquarters are in that city. Annual conventions are held by the National Sections and biennial conventions by the Society, the place of meeting for the latter being some European city. Anybody desiring further information about the Society should address Weller Van Hook, 103 State street, Chicago, the General Secretary for America.

## A NEW IDEA

Is to get first hand knowledge by studying Religion, Philosophy, Social and Natural Sciences in the Original Documents. "The Original Source Library", published by the University Research Extension, presents the ideas that have influenced civilization in the words of those who have developed them. This collection of original documents covers the entire field of knowledge in religion, philosophy, sociology, education, art, history, etc., translated, classified and arranged in chronological order and indexed in what is regarded as the most complete development in the science of indexing known. These documents are brought together and divided into ten historical periods, each group bound together in one strong volume. The appearance of this set of books has created a literary sensation and those desirous of learning more about them should communicate with
