United Artists premiered its new film, "UFO" Wednesday May 9, in Los Angeles. It will open in the East in late June. Mr. Munsick attended a special showing of the film, which was produced by Clarence Greene, who himself has seen a UFO, and Russell Rouse. Film is a dramatized story of AL CHOP's term as P. I. O. for 'saucers' at the Pentagon. Chop is the man who cooperated with MAJOR DONALD KEYHOE. CAPTAIN EDWARD RUPPELT helped the film's producers. Most important things in the film are the two actual COLOR FILMS OF UFOS which were kept "top secret" for some time (UTAH AND MONTANA FILMS) and which, with the official assurance that they are not normal objects, are CONCRETE PROOF FOR THE EXISTENCE OF 'SAUCERS.' Film will be discussed at the May 24 meeting. Watch for it and see it with as many other people as possible! Film recreates the MANTELL CASE and shows the wreckage. Also contains a tense scene recreating the second WASHINGTON AIRPORT 'SAUCER BUZZING' with the radar returns showing the action of the UFOs, surrounding a jet called to the scene! This film is the break saucerdom has needed; it should do the trick, with proper support by those of us who are more interested in the field. Don't forget it.

Newest reports on saucer groups indicate they're still appearing throughout the world. Latest in Panama and China! Baltimore group most successful in meetings; others being formed in Texas and Washington, D. C. North Jersey U.F.O. received prominent attention in the English "URANUS" recently. The publicity has attracted much widespread notice.

Several of our members attended the CSI program with FRANK EDWARDS. He delivered a most interesting and entertaining talk, adding new light to various phases of the saucer problem. His book contains further information and also relates the most interesting tale of his career.
