THE UFO REGISTER

*A JOURNAL FOR RECORDING AND DISSEMINATING FACTUAL
INFORMATION RELATING TO THE UFO PHENOMENON*

Compiled by members of the Data Research Team of

CONTACT INTERNATIONAL UFO RESEARCH

Programme Co-ordinator/Editor Frances A Copeland

Unless Otherwise Credited ALL Material in This Journal Is Copyright of
CONTACT INTERNATIONAL UFO RESEARCH

Contents of the Journal is compiled as follows:-

**Shapes, Colours, Witnesses, Groups, Features, Emissions,
Movements, Sounds, Effects, Location, Time of Day,
Weather Conditions, Time and Duration plus a full list of
the event.**

These categories are set up to show all information corresponding with a UFO sighting that has been recorded with Data Research during the relevant year. The records are based entirely from the Data Research Files and were put together by members of CONTACT Data Research.

Whilst every endeavour was made to give correct data from the records, some information may not have been recorded or given by the witnesses, but we hope it will prove useful for researchers when connecting sightings to particular events.

The Year we have published is

1993

**INCLUDED IN THIS ISSUE: A FULL ACCOUNT OF SOME UFO
SIGHTINGS FOR 1993**

FREQUENCIES OF UFO ATTRIBUTES

1

Shape of Object/s Reported by Witnesses for 1993

The following table is fairly self explanatory and shows that the overall shape mostly recorded for 1993 was triangular, obviously unspecified has a high rating because witnesses were unable to describe precisely the shape they had seen therefore we were unable to categorise it - we have not categorised "light/s" which represent a large proportion of sightings.

Boomerang	2	Ellipsoid Saucer	2
Bowl	1	Flat Disc	5
Cigar	7	Mushroom	1
Cylinder	2	Oval	19
Diamond	3	Rod	3
Domed Saucer	5	Sphere	17
Dumbbell	1	Spoked Wheel	1
Egg	2	Triangle	21
Catamarang	1	Circular	1
Square	1	Wedge	1
Unspecified	43		

Features

This section deals with additional information seen either on/or surrounding the actual sighting.

Huge size	Central Light	Circle of Lights	Bright/Glowing	Single Light	External Gadgets	Flashing Light
11	2	10	57	1	11	11
Glowing	Group of Lights	Light above	Insignia/Symbols	Light below	Light on end	Many Lights
11	8	3	1	8	2	14
Row of Lights	Shape Change	Single Light	Small plane size	Strobe Light	Three Lights	Tiny Lights
2	1	18	3	1	12	1
Ventral Tube	Winged					
2	3					

Colours in association with a UFO sighting recorded for 1993

There are on several witness accounts colours that are related with the sighting - either the object/s are coloured or the object/s change colour. Here is a synopsis of the colours stated in the reports.

White	16	Red	1	Blue	4	Orange	2	Green	2
Black	4	Yellow	2	Brown	1	Grey	1	Gold	0
Silver	8	Metallic	2	W/Rd/Green	3	Or/Red	5	White/Yell	1

Or/Red/Green 1	Met/Sil/Yel 1	White/Blue .1	White/Oran...2	White/Red 4
Pink/Red/Blu 1	Silver/Grey 1	Oran/Yell 2	White/Silv 1	Black/Red 1
Black/Red/ Grey 1	Wh/Or/GreenGold 1	White/Red/Green 1	White/Green 1	White/Black 1
Purple/Sil/Black 1	Sil/Red/Black 1	Wh/Red/Gir/Blue 2	Si/Red/Gir/Blue 1	Wh/Sil/Rd/Blue 1

Actions/Movements attributed to the sighting

A sighting is noted because of its unusual habit not attributed to normal flying conditions. The following table shows just how unusual the movements are when first seen, it should also be noted that these are all as the witness described them in their original statements.

Hovered/Stationery	43	Angled Flight	4	Oscillated	3
Flashed	3	Rotated	4	Circled	2
Materialised/Dematerialised	6	Level Flight	9	Desc/Ascended	7
Zigzagged	6	Manoeuvred	5	Shimmered	1
Slow	17	Fast	27	Spiralled	2
In Formation	1	Landed	1	Erratic	2
Superfast	1	Followed Humans	2		

Witnesses

Male	75	Female	60	Children	9
Groups	4	Unspecified	21	Many	10

Quantities/Groups of UFOs

Single sightings 90	Groups of 2 14	Groups of 3 5	Groups of 4 3
Group of 5 1	Groups of 5-10 1	Many 2	

Duration

Seconds	1-5 = 8	6-10 = 0	20-30 = 2	30-59 = 3		
Minutes	1-2 = 5	3-5 = 11	6-10 = 6	11-15 = 1	16-29 = 2	30-40 = 1
	41-60 = 2					
Hours	1- = 2	2- = 2	3 = 1			

Weather Conditions

Hot/Warm 2/2	Raining 2	Cold 2	Dry 6	Still 2
-----------------	--------------	-----------	----------	------------

Patchy Cloud 4	Clear visibility 24	Poor Visibility 2	Mild 1	Overcast 3
-------------------	------------------------	----------------------	-----------	---------------

Human/Animal Reaction

Human	Terrified 4	Missing Time 1	Telepathy 5	Abducted 1
Entranced 1	Examined 1	Injured 1	Levitated 1	
Animal	Disturbed 4			

The following table denotes noises or sounds heard during the sighting again this is as the witness described in their submission report to Contact.

Sounds heard in conjunction with sighting

Silent 42	Throbbing 1	Humming 4	Roaring 1	Buzzing 1
Intermittent 1	Low 2	Screeching 1	Swishing 1	Whine 3

Emissions noted at time of sighting

Vapour 5	Flashes 2	Smoke 3	Gas 3	Ray 5
	Beam 4	Flames 1	Trail 7	

Effects noted by the witness on Terrestrial items

Burning 1	Crop Marks 1	Detected Radar 1	Engine Stopped 1	Ground Marks 1
Photographed 2	Radio Interference 1	Video Recorded 2		

Environment when witnessing the event

Walking 26	Building 15	Motor Vehicle 27	Train 2	Urban 29	Rural 23
Coastal 2	Forest 3	Mountains 1	Daytime 13	Night 65	Boat 1

Time of Day

12.01 – 05.59 30	06.00 – 12.00 8	12.01 – 17.59 4	18.00 – 24.00 77
---------------------	--------------------	--------------------	---------------------

Small selection of sightings for 1993

22nd February 1993: On the morning of 22nd February 1993 via a series of change of plans I found myself in Wentbridge a favourite place of some years back. It had been a couple of years since I last visited the place so I followed the footpath until I recognised where I was. The path arrived at a wooden step and continued surrounded on all sides by a wooded area with a stream to my left and a very steep upward slope to my right. As I crossed over the step and into the wood I noticed the wind dropped and the beautiful sunny day was beginning to cloud over.

I thought I could hear an alarm or perhaps an ice cream van far into the distance but as I continued the noise became louder and seemed more of a bleeping sound. It was difficult to pin point the direction. I then noticed an odd aroma in the air it set my teeth on edge and dried the back of my throat. I had experienced this smell before as a child as it had an effect on me and I have never forgotten it.

I was feeling uneasy even the air temperature had changed and high above the slope there was someone moving about. As I climbed the slope the person had gone but the bleeping noise was still there and the smell still hung in the air. I followed the path until trees had fallen and blocked

the way so I turned around intending to descend the slope and go home. The light was failing fast and the rain had just started.

It was then I noticed what I first thought to be a figure in day-glow green waterproof clothing, I watched for some time then realised I had a camcorder in my hand. The figure was picking flowers and putting them in a pouch then I realised the image I first took to be a person was strange. It caught sight of me and moved extremely fast away from me. I followed and picked it up as it moved behind some trees. It then completely vanished turning around 180 degrees and there it stood watching me it was at least twenty feet away and stood ten feet higher than myself. It must have seen me clearly I stood rooted to the spot – it turned away from me and walked away along the path and I lost sight of it. I heard a squeal then a roaring sound which became louder and louder then stopped. At this point all previous noises I had heard ceased. I have continuously watched the video of that afternoon and am completely baffled by the entity/person.

25th March 1993:- I was driving my car down Billet Road Chadwell Heath Romford Essex. It was a sunny day with some white clouds high up in the sky. As I was gazing up something caught my eye, it was a bright area – where sky should have been I realised it was not the sun and got out of my car and watched as the light moved from behind a cloud I could see it was a disc shaped object that appeared raised in the middle. There was no noise and it seemed to be just hovering then moved behind the clouds for cover. I got back in my car and followed where my instruments – fuel gauge and speedometer dropped to zero and then back to normal. I last saw it as a disc shaped craft flying at an angle but a saucer shape when horizontal, it then seemed to change from white to deep blue in colour and then vanished.

30/31st March 1993 Two investigators Pat Delany and Anne Griffin were prolific in the 90's searching out UFO reports in Ireland and in March 1993 there were innumerable reports of unexplained sightings over large areas of Ireland, Northern Ireland, Wales and the UK which gave rise to some considerable investigations.

On the night in question Mr D went out for a walk with a friend and had reached the start of a forest at the base of the Mourne Mountains.

They watched two lights which they thought were stars moving in from the Southwest, just above the tree line. The objects were slightly to the left of the witnesses at about 100ft high and travelling at about 15 mph. The skyline being dark because of the backdrop of the forest showed the objects being below the tree line, so it was difficult for the witnesses to

ascertain whether it was two objects or maybe the side lights of an object in between.

As the object(s) passed the witnesses saw a faint vapour trail seemingly coming from between and behind, there was no noise. The conditions on that night were clear with a half moon and calm. The time of the sighting was around 1.15am which was consistent with other sightings around the Limerick area that night. They both described the speed as steady and looked circular in shape from the angle they viewed it.

28th June 1993 I was given your address by the MOD after I saw a UFO on the 28th.

The sightings is as follows: Myself and 3 others saw clearly a UFO in the sky. We noticed it because it was rising behind Inverness to a height of cloud cover which was very light say 20,000 feet. We watched it travel some distance before it left our view. It was noticeable simply because of the unusual movement – rising up then seemingly swaying from side to side. When it faced us the sun clearly reflected off it and it showed a curved base with a silvery grey metallic top then turned into a spoked wheel shape.

29th June 1993 at 4.30am in Havant a witness saw a round very bright/almost yellow white object which was half the size of the moon. Its brightness was very clear and it looked solid as the edges were clearly defined. As the area around is nearly all forest the witness was gazing out of his bedroom window and saw it was very light outside with clear visibility. He was very surprised to see this bright object and watched for approx. 10 minutes.

3rd July 1993 On Saturday night we were travelling clockwise around the M25. We had left Gatwick Airport heading towards Northampton. At the time of the sighting we were in the area heading towards Heathrow. The sky was very clear and we were travelling slowly on a straight stretch of road as there was quite a lot of traffic about.

We then spotted a very bright light ahead of us and slightly to the left of the road. It was very big and we thought it was the top of a tall building which was lit up but as we gazed at it we saw bright white flashing lights all around it. It appeared to be stationary in the sky but then we lost sight of it. A short while later it again came into view, there were no buildings around for it to have been mistaken this time, and we continued to watch it as it moved extremely fast travelling in our direction.

We are totally unsure what it was we saw but many others must have witnessed the same sighting as the M25 was very busy. Afterwards our

thoughts were confused as it was unexplained and we could not rationalise it in any way.

12th July 1993 Upon reaching the edge of the Car Park my friend pointed up to the sky at an object she could see. It was a yellow/white light. Not a direct beam. Something similar to a car headlight in a light mist. It had a shape but not a clearly defined shape.

We could see it was dome-like but depressed at one end. There were flashing lights on the top and a light flashing underneath. The lights appeared to be the same colour as the object. It moved very slowly sideways from right to left as we looked up at it. The height was about where you would see a helicopter fly, I cannot describe how big or small it was as it is difficult to judge. I drove out of the car Park and my friend watched it the whole time as we passed several obstacles until we lost sight of it – there was a strange plume of smoke underneath it seemingly touching the ground.

12th July 1993 Turning right onto a main road in Basingstoke directly in front of us we noticed something in the sky. It was whitish yellow in colour with fuzzy edges and flashing lights both at the top and bottom.

As we drove into Basingstoke we watched it move steadily and slowly and as the car turned direction through the twisting roads the object seemed to alter shape slightly. On our arrival into Basingstoke there was no more object but a visible streak in the sky like a vapour trail.

August 1993 My friend and I were going to my friend's girlfriend's house when just as we were talking and I was looking at my friend as we were chatting when suddenly this "thing" just literally dropped out of the sky. I exclaimed to my friend "look at that" and this object had literally stopped in mid-air and it was at this point we caught on this was something weird. It then flew towards us at a great rate with no sound whatsoever within about 2 seconds. It just then stopped, not slowed down but literally stopped.

The object was oval in shape and was glowing an orangey yellow colour. It stayed in front of us for a couple of seconds and then flew back to its original spot.

By this time my friend and I were very scared but at the same time quite excited at what we were seeing. It then repeated the action and on its third travelling sequence instead of pulling back it started to go round in a half circle movement and then came towards us. We then ran almost out of the lane as we became so scared which afterwards I'll probably regret for the rest of life. We decided to run around the block to get another

sight of it and as we got there we looked up and saw the most amazing sight.

There was something above the clouds of the same colour as the first object but it was about a hundred times bigger and it appeared to sweep the sky and then disappear. Just like that.

I know this sounds too good to be true but I will take any test to confirm I am telling the truth that something amazing happened.

23rd August 1993 This sighting occurred whilst on holiday in South Devon on a campsite at night around 11.15pm. I saw the object first after having heard someone ring in the radio programme I was listening to, reporting a moving red/green light about 20 miles from our location nearer Plymouth. The radio broadcaster (Radio 1) seemed legitimately interested and the caller sounded genuine. This caused me to look in this direction and I saw nothing at this time about 23.05. About five minutes later however I was concentrating on the lights of a TV/Radio antennae on the hillside to the East of our location when I saw a red/green object move from a position just to the South West of the antennae across the sky to a position at the North West. This movement took around fifteen seconds and judging by the elevation and distance I considered it not be an aircraft although that would have seemed the more likely explanation as it came from the area of the report. The object although seemingly a light source of no definable shape could be seen with the naked eye, two or three time brighter than the brightest star in the sky and glowed red and green. The object did not move once it had settled at this position. I alerted my friends who were in the tent we were using and although reluctant to appear I convinced them that there was an event worth seeing. One emerged as we were watching more reports then came in from Torquay about five miles away and from other parts of the country of the exact same object but suggesting different movements to which that I had seen. It also became apparent that two other objects were also in the sky, one low on the horizon in a southerly direction and one slightly below the first but less intense. These were only similar in their colours, all were stationary. Also during the time we were watching these objects we observed two or three shooting stars and another object which I presumed was a satellite as it moved extremely fast overhead, vanishing as quickly as it had appeared. It may have been connected with what we were seeing but given the speed and brightness I would say it was a comet/satellite in the upper atmosphere. At about 23.30 the radio station said that the switchboard had been "jammed" with calls about strange objects and up until we went to bed at about 11.50 the objects were still visible.

The following night I checked the night sky and although there was cloud there were no further objects to be seen.

24th August 1993 Whilst out walking the dogs with my friend we saw what looked like a plane at first, then it started to hover. It was very low and it had these red and green lights pulsating all around it. The green light was very bright, then, it swung around in a circle coming towards us and hovered in between the houses. There was no noise or sound coming from it. I have never seen anything so big in the sky before and so brilliantly lit up. It was about 100 yards away from us and well below the housetops. We thought it was going to land.

Also above it and higher up in the clouds was this round white object surrounded by what looked like mists which was also very large. We stood and looked at the saucer shaped object for all of 6 minutes then it tipped on its side and whoosh it was gone. I have never seen anything move so fast you had to see it to believe it, and when that disappeared so did the round white object that was above. Even the mist disappeared.

It was a sight I shall never forget as long as I live and there were eight people who saw the UFO that same night.

August 1993. An unnamed witness was interviewed by a Hampshire UFO Investigator who saw early one morning in a field of rape seed an unusual craft hovering just off the ground. He watched as the object swayed from side to side in a pendulum fashion. He was able to observe that the craft had portholes underneath which gave off a heat vapour which floated upwards distorting the edges of the saucer-like craft. Suddenly the whole thing disappeared and the witness just carried on to work as if nothing had happened. He had totally forgotten what he had seen.. It was not until he was on his way home and passed the spot where he had witnessed the strange craft did he suddenly remember it.

The Investigator thought this unusual because it was the first time he had experienced seeing a UFO and it wasn't something you could just "forget".

A strange thing had happened prior to the sighting which the witness then went on to explain that a large number of birds had died within a few hours and so far a post mortem had shown there was nothing wrong with them. There was also a field of sheep next to where the craft landed who had been taken ill and unusually alongside this a bore hole covered over with grass has shown that the grass has died and there have not been any rabbits sighted for a few weeks, co-incidence it may be but worth noting.

**CONTACT
INTERNATIONAL
UFO RESEARCH**

**Is an independent, non-commercial
UFO research group, based
in Oxford.**

**Its aims are to collect data on
UFO sightings and to disseminate
analysis of this data on a
Worldwide basis**
