### THAT'S A GOOD QUESTION

Under the above caption, Medical Doctor William Bolton, as the Editor of the said department in "today's health", a monthly publication of the American Medical Association, wrote in its March 1953 issue an answer to an inquiry about:—

#### "COLOR THERAPY

Question — A friend tells me that a method called color therapy is now being developed by which various illnesses may be treated successfully. Do you have any information about this?

Answer — From time to time, theories are advanced that color may have value as a treatment adjunct in medicine, but we do not know of any evidence that a specific disease ever has been cured through the use of color alone. Various colors may have some value so far as mental attitudes of many patients are concerned, and this idea has been utilized in some hospitals. For example, walls and ceilings of hospital wards or rooms may be painted a light blue or green because such tints are believed to have a soothing effect. In general, colors probably should be considered for their secondary effect in helping a patient to overcome excitement or worry about an operation or illness."

This publication is an answer to the stated view, as in our service to our Members, their own convictions by their personal investigations, researches and experiments will give them the accurate view of the Truth behind the Visible Spectrum. Let the reader judge for self.

## NOTICE TO ALL

We accept no gifts or gratuities, as to a Servant Of Mankind it is graft. Send us nothing.

You may send your Book for review or opinion; you may send your Writings or Experimental Findings and Reports for publication, provided they are not plagiarized or false and bear your hand signature in ink, with full name and address.

Anonymous communications will receive no attention. Submitted articles will not be returned.

All correspondence should be addressed to:— Visible Spectrum Research Institute, Malaga, New Jersey and not to any officer or individual.

For the views expressed in signed articles, the writers are responsible; for the opinions in articles bearing no identification, the Editor shoulders the sole responsibility.

## THAT IS A GOOD ANSWER

### By:-INDIVIDUAL EXPERIMENTERS

#### PAIN AND PRESSURE REPORT BY M. B.

I can truthfully say that the Visible Spectrum helped me. I was suffering with pain and pressure on the top of my head. It made my life miserable; also had similar pain and pressure around Area 4, which at times became so intense that I could feel all inside my body like a shiver. When such spell came on, I could not lie in bed, but, had to walk back and forth in my room, with a hand rubbing around the breast, for hours. It seemed to bring no relief. I wrote to the Visible Spectrum Research Institute and was told to experiment with the Lemon Wave Systemic, once a day. Shortly, I began to feel better and after 20 Tonations I fully recovered.

\* \* \*

#### RECTAL REPORT BY R. S.

Several years ago, I acquired a habit of eating blue grapes in season, as the bulk of my daily food. One morning, as I was released from my railroad duties, I had to board an omnibus, which was not due till an hour. Not desiring to wait so long, feeling an urge for back elimination, I went home, where in performing the delayed function, it started with such force, that it made the internal tissue protrude about 1½ inches. It indeed was very painful, even without anything contacting it, so, waiting a few minutes for the indication of the Respiratory Rhythm Guide, I irradiated the Area with Indigo, following it with Green Local the next morning. The third day, I used Systemic Turquoise with Magenta on Area 4 and 18. On the sixth day, I returned to work completely restored, except for a slight soreness.

\* \* \*

#### SORE THROAT, DROPPED STOMACH, POISON IVY REPORT BY L. S.

I am very happy to write you a note of thanks for all your Visible Spectrum Color Projector has done for my husband and myself. Have one of these precious Projectors for 13 years and whenever we were sick we used it. Tonated for Sore Throat, Dropped Stomach and the past week for Poison Ivy. In the latter case, used Turquoise and never had to scratch once; had the same trouble before getting the Projector and the itching was terrible. Sincere thanks for your wonderful invention.

## OPINIONS AND SUGGESTIONS

### WHAT THE EXPERIMENTERS SAID

In the 1955 Request For Continuation Of Membership form, was printed an item: "How much are you satisfied with the results of your Experiments with our Color Projectors?" The following was the reply:-

"Greatly satisfied." "Fine results." "Very good." "It removed my Skin Disorder." "100%." "I would be lost without it." "Beyond words." "Helps to keep well." "Husband used it for Heart ailment." "Every family

should have one in its home." "If people would have the wonderful Color Projector, they would have peace of mind and relax." "Accurate and un-failing results, when used as instructed." "Prideless possession." "Its use saved me from an operation." "Space too limited to go into details of all the help received." "Would not part for \$1,000.00."

Similar opinions were repeated by the hundreds upon hundreds.

There was also an item on the same form: "Have you any suggestions to offer, to extend our Service to Mankind?" Here are the suggestions offered:— "Keep up the good work." "Have persons trained to give interesting lectures." "Friends say Color Healing is unbelievable, so, advertise it." "Print monthly magazine." "Simplify restrictions, as people will not change their life habits." "Place the Projector above the bed." "Admit wife or husband of Member free to Studio Meetings." "Members like to meet you personally." "Need more persons like you." "Can not find sufficient information in the Text Books about the different ailments." "Would like an instrument to count Pulse Beat and Respiration." "Need loyal membership." "Make Projectors noiseless." "Do not waste your life on ungrateful people." "Show illustrations of how to irradiate in small enclosure." "Anything to improve service." "Have some millionaire to back you." "Sell more Color Projectors." "Personally visit all your Studios." "Assign monthly topics to the Studios for discussion." "Interest High School graduates." "Advertise on Radio and Television." "Make Members follow Rules." "Permit writing notes in Studio Meetings." "Let me give up my work and work for you." "Give lectures on what foods to eat." "Offer faithful old Members Free Membership."

We shall be pleased to receive comments on these suggestions.

## OUR STUDIO ACTIVITIES

### EXPERIMENTER FINDINGS AND QUERIES

#### Meetings Of Thursday, December 2, 1954

#### First Allentown Pennsylvania Studio

M. B. — Wife of a member was in a state of coma. Body was just like rubber; stare in eyes; sleeping all the time. Irradiated Yellow on Areas 6, 7, 8, 9, 10, Magenta on 4 and 18. Got Ratio right, also Eliminations. Red Back Systemic. After Yellow, secretion came from nose, Took about 4 weeks, but, needs plenty recuperation.

E. M. — Must be a wonderful satisfaction to get a reaction like that.

E. L. — Why did you not use Green Systemic?

M. B. — Did not need Green; you can work it out through the Eliminations and the Skin.

B. W. — She responded quickly.

M. B. — No complications set in.

J. F. — Was the husband pleased?

M. B. — He was amazed.

E. L.—It is strange more people do not become interested in this Color Projector.

M. B. — They are interested, but, they will not sign. Dinshah always said he wants quality, not quantity.

E. M. — Bad Cold, Fever. Used Turquoise Systemic, Magenta on 4 and 18.

A. G. — Had Fever; used 2 Turquoise Systemic; did not help. Green Systemic brought it down.

Learn our phraseology and talk in it, instead of using expressions common to other healing systems. Always, in handling any case, study the Pulse and Respiration Ratio, clear the Front and Back Eliminations, enforce the Rational Food Of Man system, before irradiating for apparent effects. M. B. handled the situation well.

\* \* \*

#### First Cleveland Ohio Studio

Because of weather conditions, no Meeting was held.

\* \* \*

#### First Detroit Michigan Studio

C. O. — A member of my family had a Cold and also a Sore Leg. Magenta was used 3 times and Yellow 2; the person is up and walking around.

I. B. — Granddaughter had a Cold in her head. Her parents took her to the Doctor, who gave some nose drops; that did not do any good. After she suffered about 10 days, her parents called and asked to have the Visible Spectrum used. Tonated first with Lemon, but, the results were not satisfactory. The second day, tonated with Magenta and Turquoise and the Cold disappeared.

L. F. — I had an Inflammation in my Left Eye. I used Turquoise 5 times Local and then went over to the Orange. There was Pus each morning in the corner of the Eye, but, it cleared and I used Lemon.

V. W. — My husband has a Pain in the Jaw. I used Turquoise.

A. G. — What is the Ratio?

V. W. — I think he is normal; I did not take it. I also tried Lemon, but, he becomes nervous with the Pain, then, when he becomes better, he does not use the Color.

A. G. — I suggest that he take Orange about 4 times, then turn to the other side, which is Indigo, one Tonation a day.

F. W. — My granddaughter had an attack of Tonsilitis. I gave her Turquoise and Indigo Local.

A. G. — She should also have Systemic Green. What does she eat?

F. W. — Just what the rest of the family eats.

A. G. — I suggest you cut out candy, rather than cutting out the Tonsils. The Tonsils have a purpose in the Body, so let us keep them there.

F. W. — She has a spell of Tonsilitis every 28 days.

A. G. — Irradiate Indigo to shrink the Tissues.

L. O. — When I was in my teens, I had 2 Mastoid operations. When my son went into service, I was terribly depressed. My ear became so that I could not touch it and I seemed to lose my balance. I went to Graduate Researcher C. R. and he found my physical condition good, but, I still was troubled with the Dizziness. He then found Inflammation in the Ear and told me to tonate with Turquoise and Magenta for 2 weeks. My Ear was still sore, which seemed to make matters worse. Then, I went to an Ear Doctor, who said an Infection was eating away the Bone. He said it might be a Tumor and gave me some drops. I used them, but then, I thought of the Visible Spectrum and decided to use that. I tonated Systemic Turquoise for a while, with Scarlet on Areas 4 and 18, later by Indigo Local. Right now, I am irradiating Turquoise. My Ratio is 77/17 and the Back Elimination is good. I had a car accident several years ago and am wondering if a Tumor could be caused from that. Since I used the Turquoise, I can touch the Ear and even wash it and since using the Projector, I have not had any dizzy spells.

C. R. — Use Turquoise a little longer until the Inflammation is gone; then change to the Lemon.

A member said he understood that one should not eat 90 minutes prior to a Tonation.

A. G. — As far as I can see, when the Sun is setting the Aura changes and while such change is happening food should not be eaten. However, be sure that when you start to irradiate a Color, you stay for one hour, because, the last 16 minutes are the most important of all.

We may repeat our warning that a granddaughter is not a member of the "Immediate Family", unless the parents also live with the Member in the same home and have meals together. 1 to 4 or 1 to 5 is a "Normal Ratio". For Throat troubles, form habit of gargling with Salt Water. Always rinse the Mouth after a meal. Dizziness indicates fault in the Circulation, not enough Blood going to the Brain. The Aura is the Invisible Emanation of Chemicals. The two Nostrils breathe with different pressures at different times and it took the Originator 14 years to determine their proper functioning, which are annually reported in the Respiratory Rhythm Guide.

Many Members whimsically neglect to use it; their results are unsatisfactory. It may interest them to remember that it takes the Originator over 2 weeks to calculate the astronomical aspects for each annual issue — and he works without any salary! \* \* \*

### First Merrill Wisconsin Studio

W. B. — How can we tell what kind of Sugar is passing out of the Body, so we may ascertain whether there is Diabetes? That being the question, I shall give you the answer from our "Family Health Protector", Article 36, page 65.

M. S. — I used my Projector Bulb constantly for 4 years and it is still good, but, darkened on the sides.

W. B. — The Bulb should be discarded when the glass is blackened; it interferes with the intensity.

I. K. — I am well for a woman of my age, but, am not able to take Tonations in my room, as it is not warm enough.

W. B. — Take a chair in the kitchen, where it is warm.

M. S. — I have been experimenting constantly; I have Pain across my Hips and Legs. Used Green and Magenta; that seems to help. K. B. suggested those Colors.

W. B. — Lemon is wonderful for an Acid condition.

M. S. — How can one tell whether Acid or otherwise?

W. B. — I shall read about the properties of the Lemon Wave.

MEMBER — Would one go into Spasms and have Pains, if one does not have enough Blood?

W. B. — I shall read to you from our Text Book, Volume 2, Chapter 66, Red Corpuscles And Anemia.

In our Science, we have NO DIFFERENTIAL DIAGNOSIS, naming Disorders, but, have our own system for finding the CAUSES of Disorders, removing which the EFFECTS (which are the Disorders) disappear. W. B. gave the correct information through our own publication. To avoid any future confusion, we have now a Rule, not to sell our Color Projector to anyone who did not read our "Family Health Protector". The Purchaser has to certify in the Order Blank that that book was read. The Projector Bulb has an effective life of about 300 hours; once the black film spreads over the glass, its efficiency is curtailed. The room for Tonation should be near 80° Fahrenheit; otherwise, in the undressed condition, the Body would be chilled. We recommend all our Experimenter Researchers to study our three volume Text Books; the set costs \$16.00 including postage and insurance, but, it will be found immensely helpful and enlightening for the attainment and maintenance of Health, which will bring Happiness In Every Home.

## First Milwaukee Wisconsin Studio

L. S. — My son had a Head Cold. I used Scarlet and Lemon to loosen the Phlegm. The first night, he broke out with the Hives. The second night, he had a little and the third night he had none. His Kardoscil was 76, Spiroscil was low. Another son injured a Leg; it was swollen and I used Orange at night, the next day alternated with Indigo and Orange, finally Green. In a week, the Leg was well.

F. S. — My son broke two of his Toes. He had them set. Can you tell me what Colors to use?

K. B. — For the Swelling, which is a Congestion, use Orange for Stimulation. That will help if Circulation is below normal. You may irradiate Lemon Systemic.

C. K. — My husband broke a Foot and had a Cast on it. The Doctor was amazed how well in 3 weeks the Foot was healed. I used Lemon Systemic on him.

N. T. — What would you use for a Cyst on the Bone? X-Rays show Hip Bone is like jelly. They are taking X-Rays all the time; can not see anything outside.

K. B. — You should have the complete Personal Research Information Chart. The mother may have been a Smoker. It is not our business to discuss affairs of outsiders. We had a neighbor. The father smoked big cigars and they had chickens in the yard. He knew we had Color Projectors and thought we were "cranks". He had a son who smoked also big cigars. A beautiful girl fell in love with this boy, who had Psoriasis and was ugly looking. He was 28 years old and the girl asked him why he did not do something for the Disorder. One day, he came to me and asked whether the "light would help". After a year his Skin was clear, but, he started again and it took another 6 months. There was no sign of the Disorder. He married, has children and they are perfect. There is no such case as a "hopeless case", but, one must change wrong habits of life.

D. S. — Can a Gall Stone be dissolved?

K. B. — I told a Doctor one time that they can be dissolved. He called me -----! I came back and asked him how a baby's Head comes out of a small orifice! If the Stone is not hardened X-Rays will not show it and by reversing the wrong process that started the formation, it can be dissolved. I was told I had a Right Kidney as hard as a stone. The Doctor told me to have it removed. It was never removed.

D. S. — I have Pains in my Back, between the shoulders. I noticed a little change; it is not so bad. My Chest was X-Rayed to get my job. Do you think that could have anything to do with it?

K. B. — Taking X-Ray Pictures is such a short time. Use Green and Magenta.

E. T. — How can the Gall Stones be dissolved, if one has any?

K. B. — Examine Ratio. If Kardoscil be low, use Scarlet on 4 and 18 and Lemon Systemic. Dress warm. For all such guidance, a complete Chart

is necessary. The food also is very important.

I. P. — Today, I was out with 30 women and I was the only one who had Tomato Juice.

K. B. — When I told my mother not to eat so much Honey, she said: "Ach, my boy! It says in the Bible". I knew a rich lady in Milwaukee who wore an Ermine Collar. As soon as she would wear it, a Rash appeared on her Neck. She liked it and said she would not give it up. Finally, she HAD to, because, after using the Turquoise the Rash went off, but, came back with the Ermine.

I. B. — My little son of 5 has Hay Fever. He has a Heart Murmur. What shall I use?

K. B. — Irradiate Magenta on Area 4 and Lemon Systemic; Rational Food is needed. When there is Fever use Turquoise Systemic.

F. K. — I like to make a suggestion. Refrain from eating Honey.

B. B. — I have three children; they are 6, 4 and 2 years of age. When they disturb me at night, I can not sleep; I become nervous.

K. B. — Use Turquoise Systemic; sleep alone.

Hives are a Skin Disorder to which the big name Urticaria is given, lasts around 2 days. All such manifestations indicate the merciful process of benign Nature to eliminate wrong Chemical Elements from the Body. It should be clearly comprehended that while our Science is strongly against the removal of Organs from the Body by Destructive Surgery, we never opposed Constructive Surgery, utilized for Accidents and the like. Even in those cases, once the misplaced, displaced or damaged parts are set together, our Science will produce the desired Healing and Repair. The Doctors will have many more "amazements" in time to come! I spoke on the X-Rays in New York, in 1896 and many among the audience hooted me, that with the Roentgen Rays, we can see through a SOLID BODY. Now? The same will happen in time about the Visible Spectrum. He who laughs last has the best laugh of all. The bane of women smoking, will soon show its effects on the coming generations. It is a filthy habit and while Doctors are talking "Cigarette Smoking Makes Lung Cancers", I request the learned professionals not to forget that Tobacco Smoke not only has the poison of Nicotine, but 10 more Poisons of Pyridine, Collidine, Picoline, Furfural, Sulphuretted Hydrogen, Sulphurous Acid, Sulphuric Acid, Carbon Dioxide, Carbon Monoxide and Prussic Acid, each one of which is detrimental to health and the effects of those horrors are liable to be transmitted through the pregnant mother's Blood to the innocent, unborn baby. We are a Non-Profit, Membership Corporation and our dealings are SOLELY with our

Members in good standing; our books and Color Projectors are available SOLELY through affiliation and in no way otherwise. Such restriction is right in our State Charter granted in New Jersey. Wrong food is the main cause of concrete material forming inside the functioning Organs. If such materials are formed, a complete Chart duly made, will indicate their presence through the various points marked thereon. In the Bible, certainly Honey IS mentioned, but, the Bible is not a book on Chemistry and Visible Spectrum. The Bible was a wonderful guide for its time and matters mentioned therein have to be weighed in the light of the present tense. They knew nothing of Sugar and the like and Honey was their main sweet. Honey from Rhododendron Blossoms is known to be productive of Blindness. I lived on the Himalaya Mountains, at the age of 18, in 2 feet of snow, 9,000 feet above the sea level, for 10 months on just Milk sweetened with Honey, but, later study showed me the error and now, knowing Honey to be the VOMIT OF THE BEE, I avoid it and teach my students against it. The Bible does not speak about the use of the Telegraph, Telephone, Radio, Electric Light, Railroad, Omnibus, Automobile, Aeroplane, Television, Printing Press and the like, so what? For a true understanding of that noble book, read the five volumes of my "Gems In The Bible". It will give you higher respect for that book. Furs, Feathers and the like produce and carry miunte Organisms, which when inhaled are liable to upset the Body Rhythm. Avoid their use.

\* \* \*

#### First New York New York Studio

J. S. — I feel somewhat better, but, my sight did not improve.

R. D. — You suffered for 10 years with Diabetes; it will at least take 10 months before you have much improvement. You have to live up to the Rules.

M. S. — Have patience. My mother had 9 Operations; she became Blind. When she got the Color Projector, she felt so much better. You have to live right; no smoking; cut it out at once.

J. S. — I used to be a heavy smoker; 2 packs a day; I cut it down to just a few.

R. D. — You are doing Dinshah an injustice. I shall read to you an article from a newspaper: "Smokeless Clubmen hear Medical Doctor hit cigarettes". Dr. Coon said: "----- showed that 96 per cent of the middle aged deaths due to Coronary Thrombosis were among chronic smokers". He said that: "Cotton and cotton derivative filters passed more Nicotine to the smoker than plain cigarettes. One person who stopped smoking found his Pulse Beat decreased 25 per cent, which means that he was making his Heart, while he smoked, do 4 years of work in 3 years."

S. K. — I had Laryngitis. I used Orange and Yellow. Orange helps me more for Bronchial Disorder than Lemon.

M. K. — I have trouble with my Liver. I use Magenta; that brings up the Phlegm more than the Lemon.

R. D. — For that, I should use Lemon and Yellow.

P. R. — I have the same experience with Magenta, which brings up the Phlegm more than any other Color.

G. S. — I find that Yellow is very important.

M. K. — I know somebody who is interested in a Portable Projector; how much is it?

R. D. — A Portable Projector is \$60.00. It is good for an emergency, but, its Bulb is only 500 Watts. For every day use, you should have a 1,000 Watt Bulb.

P. S. — There is an epidemic of Influenza expected. Should it come, what Color shall we use?

R. D. — Tonate with Lemon Systemic and Yellow as Germicide.

S. K. — I thought Green is the Germicide.

R. D. — Yellow is  $\frac{1}{2}$  Green.

G. S. — My husband had terrible Pain in his Stomach. He took Indigo, which did not help; then, Orange, which made him vomit. He was in such pain, I called the Doctor, who gave him a Sedative. He said it had something to do with the Gall Bladder and mentioned operating. After that, I called Dinshah, who told me to tonate with Yellow on 6, 7, 8, 9, 10 and Orange Systemic. He had the attack 2 weeks ago, but, had no more Pain since. He was a heavy smoker, but, cut it down to a few cigarettes.

R. D. — Send the Chart again to Dinshah.

M. S. — How did you get over the urge to smoke? My husband cut it down, but, can not stop it.

R. D. — I was a heavy smoker. It takes plenty of will-power and calling on the Higher Powers for help.

A. M. — The Reader's Digest had an article about how to stop smoking, saying when you go to bed say a prayer and the sub-conscious mind will react.

M. K. — What Color shall I use for High Blood Pressure?

R. D. — How would Orange Systemic be for increasing the Circulation?

D. S. — I used Purple for High Blood Pressure, but, I felt better when I used Orange and Magenta.

K. G. — Could it be emotional or functional? We used to send our Charts to Colonel Dinshah and they always came back with Yellow and Magenta. Yellow for cleansing, Magenta for Circulation.

M. S. — When I was 6 months pregnant, I became very upset over something. I had excessive Frontelim; Purple stopped it; after that, I used Lemon and Magenta.

R. D. — Dinshah goes by Kardoscil, Spiroscil, Frontelim and Backelim. Taking a wrong Color will not harm you. If you are in doubt, use Green Systemic.

A Member asked:—"What difference does it make when one changes position during the Tonation? If I take  $\frac{1}{2}$  hour Front  $\frac{1}{2}$  hour Back?"

R. D. — Dinshah warns against changing the position during the hour of Tonation.

F. R. — It is important to take the full hour, otherwise the cycle is not completed.

Member — What is the difference if one changes the position? The Aura absorbs the Color.

K. G. — It pulls the Blood from one side to the other. Let us look for it in the Text Book at our next Meeting.

F. R. — Toning Local, you must take the full hour on the same Area, because, you tone a certain Organ. In a Systemic Tonation, it might not be so important.

O. H. — Dinshah instructs the last 16 minutes are the more important to get the Junction Period.

Member — I do not understand how the Aura works; can one read on it?

R. D. — Through the Aura, the Body receives the Oscillatory Frequencies of the Color for the lacking Chemicals. That is also why it is important to sleep in separate beds, better even in separate rooms.

J. S. inherited his Color Projector through a deceased relative and has been reporting that he does NOT smoke; his report in your Studio is different. I Live And Let Live. Whether one follows advice or not is one's privilege. A few Portable Projectors are still in our stock. Where the Doctor goes IN, we go OUT; either one or the other, as if something GOOD occurs, the Doctor did it, but, if something BAD occurs, hang Dinshah! Prayer is a marvelous Healer, because, mental attitude is bound to react on the physical, but? Prayer of a selfish character is time wasted. Do not ask God: "Give me this day my daily bread", because, the ceiling will not open for the bread to tumble in your lap, but, think, speak and ACT as the Powers of Nature blessed you and you will have the Prayer granted through those Powers which are right within you and which make of man "The Image Of God". The Aura is not in the same Polarity on the Front and the Back. When one side is clockwise, the other side is anticlockwise, hence, you can not be standing on your head and feet at the same time and stay erect. If you follow this Science, do as instructed in the Text Books and find the results favorable. Sleeping in the same bed and the same room is the cause of more Divorces in America than any other reason. Stay with your loving mate in wakefulness, but, when you sink into the arms of Queen Mab and Morpheus takes you, separate for healthful rest and psychical comfort.

### First St. Louis Missouri Studio

A. K. — About 2 weeks ago, I had aching Pains all over the Body, especially in the Legs and Arms. I was unable to work or move around and was bedfast. I used Orange and Magenta on 4 and in 3 days was able to be up. Later, I used Lemon and Green Systemic and Magenta on 4. In 14 days, I recovered totally. During that period, the Frontelim was more than ever.

J. S. — I am a widow of 58. Ratio 72/20. What shall I do with my Eyes? The White is sometimes red, no Pain, but, feel uneasy. Do housework for other people and have no choice of food, but, eat no meat. Frontelim 4 or 5 a day, Backelim 1 or 0 in 2 days.

P. L. — Decrease her Spiroskil.

E. N. — I do not agree with that; rather, increase.

A. W. — I propose to use Yellow; I had good results with that.

C. N. — You should always give the reasons, so the discussion may become more constructive. I shall explain to you the composition of the Yellow, which really is  $\frac{1}{2}$  Red and  $\frac{1}{2}$  Green. Study our Text Books.

Truly, you all need study of our Text Books, as stated in your Chairman's comments. It was proper of him to make you realize, that each of our Colors has mathematically a certain composition — sections of other Frequencies in reality and that only the three Primary — Red, Green and Violet are the individuals from which the Secondary and Tertiary Waves are derived.

\*      \*      \*

### DINSHAH ADDRESSED SCHOOL PUPILS

Miss Janet Lee Saul, 7th Grade school teacher, invited Dinshah to address the pupils of the Franklin Township School on "India, Its Customs, Manners And Religion", on Friday, January 14, 1955, which he did. The school auditorium was filled with three classes and the answers to the questions produced applause from the audience. The lecture lasted over an hour.

## DINSHAH IMPARTIAL

(The Universe Through The Eyes Of Dinshah)

### ARTIFICIAL INSEMINATION CONSTITUTES ADULTERY

For the past several years, Medical Doctors have been catering to childless women, who are anxious to have children, but, because of the incompetency, impotency or inability of the husband, are unable to attain the desired goal of fruition, Artificial Insemination by injecting into the uterus, Semen secured from another male by payment or otherwise. The New Jersey Law Journal, of December 23, 1954, published an article under the above caption, giving a judicial decision on the vital matter:—

“Chicago — Superior Court Judge Gibson E. Gorman has ruled artificial insemination of a wife, with a third party as donor, constitutes adultery whether the husband consents or not.

He said that such a practice ‘constitutes adultery on the part of the mother’. A child so conceived is ‘not born in wedlock’, and hence is illegitimate, Gorman ruled, and the practice is ‘contrary to public policy and good morals’.

If the donor is the husband, artificial insemination is not contrary to public policy and good morals and does not constitute adultery.

Gorman's ruling was requested by Charles C. Cooley, attorney for Mrs. Mary B. Doornbos, suing George Doornbos for divorce on grounds of drunkenness. Cooley had asked Gorman to rule that artificial insemination is not against public policy or morals, saying the issue had not previously been raised in American Courts.

Mrs. Doornbos sued on grounds of drunkenness. Doornbos had asked the right to visit his wife's child. Mrs. Doornbos claimed her husband had no rights or interest in the child, because the child was born following artificial insemination.”

There is not the slightest doubt in my mind, that the Honorable Court was correct in its ruling. Whether the Semen was **obtained** from another person and injected or was injected by such person in actual physical embrace, the resultant product — the child — was **NOT** of the married mate's Blood and hence, under the Law of the State, was illegitimate. That brings to my mind another very important subject about which the Medical Doctors are now bragging and which I always decried as being contrary to the laws of Nature and Health. That subject is:— Blood Transfusion. The Blood of each animal and human, is distinct in its chemical and psychical composition and the Blood of one can not be introduced into the Physical Vehicle of another, on the same grounds as ruled by Judge Gibson E. Gorman, because, it is the Blood that eventually formulates the Semen, through glandular activities. This vital matter is fully discussed in my Text Books, to which please refer for thorough elucidation. About the motives actuating both Artificial Insemination and Blood Transfusion, you may form your own conclusions.

# Inroads of Socialism And Communism

PREDICTIONS OF 1939 AND 1940 FULFILLED  
HEADING TOWARD MORE DISASTER  
THE SOLE SOLUTION

By:- COLONEL DINSHAH P. GHADIALI

Ex-Commander, New York Police Reserve Air Service, (First World War),  
Graduate Lecturer, Anti-Socialist Union of Great Britain (1910)  
MALAGA, NEW JERSEY

There is so much talk about "Capital" and "Labor", "Socialism" and "Communism", "Atoms", "Atomic Bombs" and "Hydrogen Bombs", "America" and "Russia", but, I fail to find whether the public and its alleged "leaders" or even those dignified ladies and gentlemen in the United States Congress, realize the true meaning of each of those words and the significance of what we are actually facing and where we are actually headed.

## *A Dynamic Egg*

It has been heralded as a "Cold War" and "Hot War", by branding people and parties with various meaningless names or names with hidden conceptions behind. It is not a war of mere "isms", because, by those isms we are hatching a dynamic egg, which is likely to explode right in our face, should we either ignore it or sit smugly listening to brass hats or wooden-headed long-talkers.

## *Five Partners of Business*

In our so-called capitalistic land, we produced wonders and marvels in around 150 years, what no other country produced in centuries of human evolution. Why and how? Because, those who were responsible for the welfare of this glorious nation, well comprehended that all commerce, trade and business, have five partners, inseparable and inalienable. Those Five Partners in their main sequence, are — Invention, Capital, Labor, Management and Reserve. Let us now develop this idea in a simple manner, for even the "common man" to understand.

A person invents a new gadget or method of producing an article or a result in a better, simpler or cheaper way. He (or she) spent long hours, much work, plenty of money and went through heart-rending experiences and rebuffs to bring about that invention to a point where it can be commercialized for the benefit of the public. That Invention is, however, only on paper as a scheme, a sketch, a mere non-talking, non-working diagram. It is just a lifeless entity, awaiting a master to blow the breath of material life to bring it into earthly existence. Thus, the initial partner—Inventor—has to approach someone to put the worldly power of cold cash into the lifeless diagram to energize it into a live baby. That cash is introduced at a risk, because of the uncertain future and that is called Capital, the second partner of that enterprise.

Now enters the third partner—Labor. The factory and its machinery to produce the invention, is built through the introduction of that labor. That third partner spends the capital and converts it into a product, useful for a specific purpose, a result accomplished under the intelligent, directive energy known as Management, which with its knowledge of the various markets and its ability for salesmanship successfully places the new product before the customers, who may be in need of and are in a position to utilize it. It is this fourth partner—Management—that has the actual, heavy responsibility of directing the labor in a way to produce the highest profit for all concerned, so as to be able in time to compensate adequately not only itself, but, also the other three partners in the business.

Here comes the entry of an elusive, unknown, sometimes secretive factor, the fifth partner—Reserve. Buildings, fixtures, furniture, machinery, are all subject to wear, tear and obsolescence, including also the deterioration of the value of the product, because of the progress of further research and invention, as well as the expiration of patent rights and the development of competition by others in a similar line of manufacture. Thus, business success not only necessitates the use of diligence and present knowledge of conditions, but, requires a keen judgment and foresight into what may develop unexpectedly at some future period.

All these five partners of business, have to be very carefully weighed, considered and compensated, in proper accordance with the particular type of business and not merely a matter of indiscriminate hit-or-miss statements or regulations to be administered through a bureaucracy. The present trend is devoid of such sense. When any howl starts anywhere the cry is for legislation and regulation; such measures are totally futile, as without education of the parties concerned, to produce a harmonious co-operation sheer legislation is ineffectual for beneficial results. One may take a horse to the water, but, I fail to see the groom who can make it drink.

#### *The Current "Isms"*

Now, we may consider the various "isms" that are being put forward as remedies for the economic ills of the World. Morris A. Bealle, of Washington, D. C., author of "The Drug Story", "Washington Squirrel Cage" and other books who is a shrewd, keen writer, gives these humorous, but meaningful definitions:

Capitalism—If you have two cows, you sell one and buy a bull.

Socialism—If you have two cows, you give one to your neighbor.

Communism—If you have two cows, the government takes them and gives you the milk—sometimes.

Naziism—If you have two cows, the government shoots you and takes the cows.

New Dealism—If you have two cows, the government kills one cow, milks the other and throws away the milk.

Dewey M. Taft, Englewood, Colorado, has two different definitions:

Communism—You have two cows. The government shoots you, takes your cows and sells the milk to Capitalistic countries.

Fair Dealism—The government buys your milk, dumps it in the river and buys milk from Canada.

#### *The Master and The Servant*

The boobologist who advocates one or another of the foreign "isms", either does not comprehend or has no brain cells developed enough to consider, that the moment the citizen becomes the servant of the government,

by legislative enactment and enforcement of any statutory measure which arrogates to control and aims at the private life of the individual or (and) his business, the balance of proportion among the five partners of business is disturbed, the independence and constitutional liberty of the individual is submerged and upset and a wobbling instability is introduced and produced in the economic functions of the entire country.

### *Root of Error*

The whole wrong originated in the United States of America, with a false interpretation in the Declaration of Independence, of the five words "all men are created equal". Certainly, all come through the same channel of birth process, all are born of their mothers, all are governed by the same laws of Nature, but—all have not the same environment, the same development of brain and brawn, the same training in domestic or economic life, the same ways of measuring deeds and consequences, the same moral and ethical fiber. Thus, the evaluation of all the stated five partners of business, must differ with different circumstances involved, the issues germane to each being totally individualistic and needing an individual remedy.

### *American Prosperity*

The wealth and prosperity of this beautiful and glorious assemblage of human beings known as the United States of America, was evolved by a free and careful understanding, as well as honest interpretation of the words in the Declaration of Independence and the Constitution of the United States of America, which brought it to a high stage of mundane evolution, such as was not witnessed anywhere before. Then, we made fools of ourselves, by meddling in European politics, much against the most emphatic advice of the great George Washington, who knew people's minds and tendencies far more clearly than most of the addle-pated fellows who arrogated to be called our "Statesmen". Our down grade began. Numerous costly blunders were created and glossed over with plausible explanations, until a college president from Princeton, New Jersey entered the White House. Then, all turned black. A British ship was sunk by a German submarine after warning to Americans by Germany and the First World War commenced. I am well aware of the events leading to that holocaust, being then the vice-president and general manager of a metal exporting corporation of New York. It was then that I organized the Police Reserve Air Service, by direction of Rodman Wanamaker, to protect the City of New York. However, this is no place for dragging in those events. Suffice it to say that we supposedly won that war, the German Empire was cracked and a nominal republic was established in Germany, under Field Marshal Paul von Hindenburg, followed ultimately by the rise to power of Adolph Hitler as Chancellor. I visited Germany during Hitler's regime, but, again this is no place for my experience there.

### *What Was In Letter To Mikado?*

Adolph Hitler invaded England and Poland and we jumped in with the Pearl Harbor incident. What President Franklin Delano Roosevelt wrote to the Japanese Mikado, has not yet appeared in public. All the blame was thrown on Japan and we entered the Second World War. Soon after that, Russia, a former ally of Germany, joined us as an ally against Germany and by the use of the Atomic Bomb, we supposedly won the war.

*Humbug of N. R. A.*

That brings to me the true definition and import of Socialism and Communism. The "common man" has been all along hoodwinked by interpreting that Socialism is friendliness in social life, equality among people and the like. In America, that poison ivy took its root steadily since 1933 and the plant is now blossoming. It began with the N. R. A. National Recovery Administration—a big scheme to control industry and the people. I wrote about it in December 1933 in part thus: "General Hugh S. Johnson said to the effect that all must join and if anybody declined he would 'give a sock in the jaw'—The American public is gullible and easy-going, but, it will never stand any dictation or compulsion. I may candidly state that put to the impartial test of our glorious Constitution in the august Supreme Court of our country, the whole conception would be found unconstitutional".

*My Prediction Fulfilled*

Those words proved true, when on Monday, May 27, 1935, the Supreme Court of the United States by a unanimous decision upheld the Magna Carta of our people and threw N. R. A. into the junk pile. The Blue Eagle croaked and in June 1935, I wrote about it under the caption "Alphabet Soup Government Wiped Out! The Constitution Lives!" Now, let us remove the veil over the face of this hidden attempt at making puppets out of the people.

*Socialism and Communism*

"Socialism" in the true aspect is "Nationalization of all means of Production, Distribution and Exchange". The same definition applies to "Communism", but, there is a definite line of demarcation, where both separate. In Socialism, ostensibly the government permits private ownership, but, controls and directs its functioning and operation. Communism goes beyond that by just one step. In it, not only does the government own all means of production, distribution and exchange, but, the full control of the individuals making the aggregate, also falls under the iron hand of the government. Talk of dictatorship? Either way, the individual, who is the real producer of wealth and prosperity of a nation, loses his identity, aspiration and incentive and chaos is bound to result. As our American prosperity was essentially built on the foundation of individual inspiration and effort, the establishment of any socialist or communistic program will invariably strike at the wide spread roots of our great Republic.

*We Are Not A Democracy*

I say "Republic", because, we are emphatically speaking, not a "Democracy". In a Democracy, for each measure the people vote and the total burden of government is on the people; in a Republic, (like ours), the people choose their representatives and the burden of looking after the welfare of the people—their real masters—is shifted onto these representatives, who, of course, are eventually responsible to the people, if the people are educated enough to know how to use their votes and do use them to their own advantage. Even in this direction, our Constitution is out of step, but, of that some other time. In this vital matter of votes, we regretfully failed in the past and the results are now on the horizon, with political grafts, exposures and impending disasters.

*Another Prediction Fulfilled*

First there was a "War To End Wars". Then there was a "War To Ensure Peace". I did not forget those ringing words: "Again and again and again do I say to you mothers of the nation, that not one of our American boys will be sent to fight on foreign soil"! Not one assuredly—only millions! Here is what I printed in April 1942:

*"For What Is This War?"*

1. Is this a War of Conquest?
2. Is this a War to perpetuate Democracy?
3. Is this a War to extend 4 freedoms?
4. Is this a War to defend America?
5. Is this a War to give liberty to the oppressed?
6. Is this a War between Orientals and Occidentals?
7. Is this a War for religious crusade?

No-no-no. It is a War to help Great Britain further its commercial, greedy interests and the end will come by wild spread of National Socialism and Communism. We Americans must realize the truth!"

*Super-Atomic Bomb*

But we put out our neck and in August, 1945 Second World War ended (?) by our use of the Atomic Bomb on Hiroshima and Nagasaki, in Japan. Then began our usual brag and boast; "We have the Atomic Bomb!" In October 1945, I printed thus: "There is nothing especially new to us in the 'Atomic Bomb'—In collaborating with Canada and Great Britain on this particular subject, America made a great mistake—which will soon produce what may become the germ of the Third World War. The 'Atomic Bomb' is no secret. Other countries outside of the United States of America, also have scientists and unless we in this country, saddled with a top-heavy Congress awake and act with common sense, a tragedy like what overtook Atlantis 11,000 years ago will face us before long. Watch out Americans! England and France are already on the Socialistic path by nationalizing banks and power plants; boob business men had better be on the look-out here. I repeat my warnings of 1939 and 1940. Were we to continue to swerve from the path directed by the Founder George Washington, we shall soon become a second rate power, because, a Super-Atomic Bomb with radio control is on the way!"

*My Warnings of 1939 and 1940*

What were those "warnings"? I may just glance at them cursorily here, from what I published then—when there was no Second World War. April 1939—"Report of Professor Otto Hahn and Dr. Fritz Strassman of the Kaiser Wilhelm Institute for Chemistry at Berlin-Dahlem. Under high tension electrical bombardment, the so-called Uranium already yielded also others: Barium, Caesium, Lanthanum, Strontium, Xenon and Yttrium—experimental science with plenty of cash and down will come the blow that will produce a cataclysm, such as will rock the very foundations of finance and bring the wealthy into the dust. Governments heed the warning! It is meant for good."

January 1940—"Unless the present government is changed, America is doomed to outvie Germany in bankruptcy—Out with the New Deal! America's prosperity demands a Square Deal—Out with that fraud!"

June 1940—"Why America should stay out of war . . ."

August 1940—"Solemn warning to American Citizens—a yawning abyss is gaping to engulf us into the horrors of a military dictatorship—the day of reckoning for proud America will dawn before the year is over—the warning is given with an unbiased mind . . ."

October 1940—"They are all clamoring for 'preparedness against war'. Are the American people so stupid as not to realize that we are 'already in war'? When we help one belligerent against another, it is war and our 'cash and carry' plan of neutrality is a gigantic fraud on the public, who are told that unless Great Britain be helped we are doomed here . . . We are headed into aggressive war . . ."

November 1940—"A miracle must happen to save our own America—let us all pray for that Miracle!"

December 1940—"Stay truly neutral or be launched into war . . . we must at all hazards stay out of all entanglements in the volcanic politics of Europe . . . We have everything to lose and nothing to gain . . . and emphatically repeat that the war will not come here from the Atlantic Ocean, but, if we continue our meddling, may possibly come via the Pacific Ocean, from quarters not expected. We are aiding Russia, we are discarding our best customer Japan . . . America must remain entirely neutral and refuse to aid either side in any manner . . . I see this country, my adopted land surely heading toward an aggressive war . . . we are in it by our silly bragging. It is however not too late to retract . . . I appeal to the President of the United States of America to retrace his steps . . . I know in my innermost conscience as a servant of the higher forces of Nature that when history will be written, if he persists in his present foreign and domestic policy, the name of Franklin D. Roosevelt will be handed to posterity as that of the man who destroyed all the good work done by George Washington and Abraham Lincoln . . . I appeal to the mighty American Press, that press which for its power and freedom of expression is unsurpassed . . ."

### *Russia Turned Against Us*

Much more did I publish in similar strain in those critical days—days full of terrific tension. However, my humble voice was like that of a parrot in the midst of a regimental orchestra. We were thrown into the Second World War by the opium smuggler's grandson the next year and history recorded the rest. Then, not minding the lessons of the former defunct League of Nations, we entered into a gigantic swindle called the United Nations and surrendered our supreme voice to a faithless ally with the weapon of the Veto to obstruct all moves for a peaceful world and to cut our throats with the arms gifted by us. The consequences are now fast blooming on the horizon. Not only did we blunder into that fateful (Dis) United Nations, but, we footed the bill for a palace to house its participants in the metropolis of New York, so they may have unlimited "Diplomatic Immunity" and conspire to ruin us from right in our own territory. That tomfoolery is now being bared in our Congress through the so-called "spy investigations" and watch how rocks are thrown to bar exposure of the truth. Our own servants, our appointed protective officers, are blocking our way to learn the real situation.

### *Fraud of North Atlantic Treaty*

What senseless and stupid moves are we making? One more was the North Atlantic Treaty of 1949, under the guise that it was solely for protection and did not bind us into any military aggression. Just read its Article 5! It says: "The parties agree that an armed attack against one or more of them in Europe or North America shall be considered an attack against them all; and consequently they agree that, if such an armed attack occurs, each of them, in exercise of the right of individuals or collective self-defense recognized by Article 51 of the Charter of the United Nations, will assist the party or parties so attacked by taking forthwith individually and in concert with the other parties, such action as it deems necessary, including the use of armed force, to restore and maintain the security of the North Atlantic Area". There you are! Some treaty all right! What have those other parties got in their treasury to assist us? The entire load is thrown on us by those exhausted, mendicant nations. Europe is feeding on our Marshall Plan, another road to bankruptcy for America. Our National Debt has gone beyond \$250,000,000,000.00. It is an absolute certainty that it will never and can never be repaid. Our government is living on taxes and more taxes and is really now a Socialistic government, heading straight to Communism, by imitating the Socialist Labor Government of disrupted England. Our huge National Debt will beyond any doubt eventually be repudiated, because, what the Government took for the phantoms of Social Security, Unemployment Compensation and the like, is already eaten out for current expenses of a top-heavy, inefficient, worthless bureaucracy and what is remaining in the Treasury is nothing but paper I.O.U.'s. However, of that some other time.

### *Renunciation, Not Denunciation*

The North Atlantic Treaty has another defect in its phraseology. In its Article 13, it says: "After the Treaty has been in force for twenty years, any party may cease to be a party one year after its notice of denunciation has been given to the Government of the United States of America, which will inform the Governments of the other parties of the deposit of each notice of denunciation". As "denunciation" really means condemnation, announcement of an impending evil, invective, threat and so on and also in "legal language" formal notice of the termination of a treaty, to clear the true meaning, I wrote to the Government Printing Press in Washington, D. C., whether the original word in the Treaty was "renunciation", which could have no double meaning. The answer came from the Department of State, signed by Reed Harris, Chief, Division of Publications, that the word was "denunciation", as in unabridged dictionaries. I pointed out that even Webster says about "denounce" "to threaten by some outward sign", "to point out as deserving of reprehension or punishment". I added that the ones who wrote the Treaty should have used "renunciation", to avoid any potential double interpretation twenty years hence, by those allies of ours who are not trained in our language.

### *The Sole Solution*

But, we are in—deep in to the waist. We had no business to tangle with those foreigners in their national fights, but, we did. The world now knows, that our faithless, former, loving ally Russia has what we bragged all along we had. So what? All this nonsense of the Cold War has to stop

promptly. I wrote about the sole solution of this problem as early as July 1947 and I repeat emphatically there is no other solution now possible. I wrote then: "I am against all wars, all aggressions, but, looking to the terrible situation facing this Continent and our beloved United States, there is only one remedy, before it is too late to apply. Russia is daily becoming thoughtlessly impudent and insulting. It is biting the very hand that fed it, kept it alive—saved it from annihilation. Give its Ambassador 10 days notice that his country shall talk and take steps to insure peace or else—the Atomic Bomb will be used to liberate the enslaved Russians from the clutches of the war-monging, political grafters, in whose foul hands the muzhik is like clay to mold as the tyrants please. Former Governor George Earle of Pennsylvania expresses a similar solution and says that if there is to be a Third World War, do not wait for it—it is here already—go and finish the political job started in 1933.

### *Awake America!*

Dear America! Awake to your impending danger. It is no scare. It is a certainty. Russia is intent and is determined upon destroying us; its indirect, creeping moves in Europe, China and so on are signals for the wise to learn the meaning. Act at once, before that communistic monster has time to perfect its fighting machine. Stop at once shipment of money, arms and ammunition to all foreign nations without any distinction and then—what shall be done to protect the future of America against any similar contingency? About that I shall write subsequently.

God bless America and may it live as a shining light to illuminate the future of other lands!

---

### SUBSEQUENT DEVELOPMENTS

The foregoing article was published by me on May 4, 1950. A copy was mailed promptly to Honorable President Harry S. Truman, all Senators and Representatives of the United States Congress, all Justices of the United States Supreme Court and Governors of every State in the Union. Many prominent newspapers were also approached. A few letters were received, but, as usual no attention was given by anybody to the true issues involved. Copy was airmailed to Gen. Douglas MacArthur also.

Six weeks later, on June 25, the Korean invasion began and the United States plunged into it, without any conceivable support from other members of the fanciful "United Nations" and General Douglas MacArthur was given the Supreme Command—not as our General, but as the General of that United Nations.

Our forces fought bravely and arrived finally on the Yalu River on the border of Manchuria. That was one crucial point, but, just then, contrary to the views of the Supreme Commander, the raw-brained jelly-fish politicians had an Order issued to him that our troops should NOT cross over to retaliate, even if invaded by the Chinese. What a serious blunder!

General MacArthur fumed, but, obeyed the Commander-in-Chief. We were attacked by alleged Chinese "Volunteers" and had it not been for the fine judgment of the Supreme Commander, our troops would have been landed into the ocean.

Blunder after blunder followed, until the final blunder—President Harry S. Truman suddenly dismissed General MacArthur! That General was the one man of whom Russia was afraid and so were the Chinese Communists. The results are well known.

### *What Should Have Been Done?*

Victory was in our grasp at the Yalu River. There are the Electric Power Generating Stations; all that was needed was a few of our Atomic Bombs and the subsequent mess would never have occurred.

Now that "Peace Talk" humbug is going on. It will be a downright fizzle. We shall gain nothing by it.

### *The One Move*

Stop all supplies and money going to ALL foreign countries. Evacuate ALL our Forces from Europe and everywhere and consolidate our energies for a single blow at Russia. Remove that treacherous braggart from the Physical World as a Dictator and the blessings of civilization will for ever shower on the Liberator—America! So Be It!!!

### **DINSHAH HONORED BY ITALIAN SCIENTISTS**

During the August of 1954, Colonel Dinshah P. Ghadiali, was invited to Chicago, Illinois, to attend the Annual Congress of the American Naturopathic Association, Inc., jointly with the American Association for Medico-Physical Research and address their Members on "The Powers And Effects Of The Visible Spectrum Of Light And Color". At the same time, he received an invitation from Renato Damiani, President of the Third International Congress Of Scientific Integration, to speak at Sorrento, Italy, on the subject of "Experimental Cosmo-Bio-Physics", under the sponsorship of the Universal Academy Of The Cosmo-Astrophysic Government of Trieste, Italy. He was already placed on the program, but, being unable to be in two cities physically at the same time, he sent them a thesis to be read by an Academician and a parcel of his "Family Health Protector", for distribution to the Members and Civic authorities. At the close of the Convention, he received a cablegram;— "All members of congress thank you for your publications. Tutto Beno." A short time after that, Dinshah was awarded the Diploma as Academician and Professor of Cosmo-Psycho-Bio Pysics and also was elected as Cavalier of Universal Order of Antares (the brightest of the three stars in the constellation of Scorpio) with its badge, for his "meritorious dedication to the cause of humanity and the progress of civilization".

## VOICE OF A FAMOUS SURGEON

### THE THERAPEUTIC VALUE OF LIGHT AND COLOR\*

KATE W. BALDWIN, M.D., F.A.C.S.  
Former Senior Surgeon, Woman's Hospital,  
PHILADELPHIA, PA.

In the effort to obtain relief from suffering, many of the more simple but potent measures have been overlooked while we have grasped at the obscure and complicated.

Sunlight is the basic source of all life and energy upon earth. Deprive plant or animal life of light, and it soon shows the lack and ceases to develop. Place a seed in the very best of soil or a human being in a palace, shut out the light, and what happens? Without food (in the usual sense of the term) man can live many days; without liquids a much shorter time; but not at all without the atmosphere which surrounds him at all times and to which he pays so little attention. The forces on which life mostly depends are placed nearly or quite beyond personal control.

For centuries scientists have devoted untiring effort to discover means for the relief or cure of human ills and restoration of the normal functions. Yet in neglected light and color there is a potency far beyond that of drugs and serums.

In order that the whole body may function perfectly, each organ must be a hundred per cent perfect. When the spleen, the liver, or any other organ falls below normal, it simply means that the body laboratories have not provided the required materials with which to work, either because they are not functioning, as a result of some disorder of the internal mechanism, or because they have not been provided with the necessary materials. Before the body can appropriate the required elements, they must be separated from the waste matter. Each element gives off a characteristic color wave. The prevailing color wave of hydrogen is red, and that of oxygen is blue, and each element in turn gives off its own special color wave. Sunlight, as it is received by the body, is split into the prismatic colors and their combinations, as white light is split by passage through a prism. Everything on the red side of the spectrum is more or less stimulating, while the blue is sedative. There are many shades of each color, and each is produced by a little different wave length. Just as sound waves are tuned to each other and produce harmony or discords, so color waves may be tuned, and only so can they be depended on always to produce the same results.

If one requires a dose of castor oil, he does not go to a drug store and request a little portion from each bottle on the shelves. I see no virtue, then, in the use of the whole white light as a therapeutic measure when the different colors can give what is required without taxing the body to rid itself of that for which it has no use, and which may do more or less harm. If the body is sick it should be restored with the least possible effort. There is no more accurate or easier way than by giving the color represent-

ing the lacking elements, and the body will, through its radioactive forces, appropriate them and so restore the normal balance. Color is the simplest and most accurate therapeutic measure yet developed.

For about six years I have given close attention to the action of colors in restoring the body functions, and I am perfectly honest in saying that, after nearly thirty-seven years of active hospital and private practice in medicine and surgery, I can produce quicker and more accurate results with colors than with any or all other methods combined—and with less strain on the patient. In many cases, the functions have been restored after the classical remedies have failed. Of course, surgery is necessary in some cases, but results will be quicker and better if color is used before and after operation. Sprains, bruises and traumata of all sorts respond to color as to no other treatment. Septic conditions yield, regardless of the specific organism. Cardiac lesions, asthma, hay fever, pneumonia, inflammatory conditions of the eyes, corneal ulcers, glaucoma, and cataracts are relieved by the treatment.

The treatment of carbuncles with color is easy compared to the classical methods. One woman with a carbuncle involving the back of the neck from mastoid to mastoid, and from occipital ridge to the first dorsal vertebra, came under color therapy after ten days of the very best of attention. From the first day of color application, no opiates, not even sedatives, were required. This patient was saved much suffering, and she has little scar.

The use of color in the treatment of burns is well worth investigation by every member of the profession. In such cases the burning sensation caused by the destructive forces may be counteracted in from twenty to thirty minutes, and it does not return. True burns are caused by the destructive action of the red side of the spectrum, hydrogen predominating. Apply oxygen by the use of the blue side of the spectrum, and much will be done to relieve the nervous strain, the healing processes are rapid, and the resulting tissues soft and flexible.

In a very extensive burn in a child of eight years of age there was almost complete suppression of urine for more than 48 hours, with a temperature of 105 to 106 degrees. Fluids were forced to no effect, and a more hopeless case is seldom seen. Scarlet was applied just over the kidneys at a distance of eighteen inches for twenty minutes, all other areas being covered. Two hours after, the child voided eight ounces of urine.

In some unusual and extreme cases that had not responded to other treatment, normal functioning has been restored by color therapy. At present, therefore, I do not feel justified in refusing any case without a trial. Even in cases where death is inevitable, much comfort may be secured.

There is no question that light and color are important therapeutic media, and that their adoption will be of advantage to both the profession and the people.

\* Abstract of paper presented at the clinical meeting of the Section on Eye, Ear, Nose and Throat Diseases of the Medical Society of the State of Pennsylvania, held at the Medico-Chirurgical Hospital, Philadelphia, October 12, 1926. Reprinted from the Atlantic Medical Journal, April, 1927.

## LOCATION OF OUR STUDIOS

On the First Thursday of each Month, there is held a Membership Meeting, at 8 P. M., in each of our following Studios, for reporting the results and findings of Personal Experiences in the use of the Visible Spectrum of Light and Color:—

corner North Third and West Kilbourn, Milwaukee, Wisconsin.

First Allentown Pennsylvania Studio—Hotel Americus, Fifth and Hamilton Streets, Allentown, Pennsylvania.

First Cleveland Ohio Studio—The Colonial Hotel, 523 Prospect Avenue, Cleveland, Ohio.

First Milwaukee Wisconsin Studio—The New Republican Hotel, Guild Hall,

First Detroit Michigan Studio—Knights of Columbus Hall, 4740 Woodward Avenue, Detroit 1, Michigan.

First Merrill Wisconsin Studio—New Badger Hotel, Merrill, Wisconsin.

First New York New York Studio—Hotel Diplomat, Governor Room, 108-110 West 43rd Street, New York 18, New York.

First St. Louis Missouri Studio—Albrechts Hall, St. Louis, Missouri.
