THAT'S A GOOD QUESTION

Under the above caption, Medical Doctor William Bolton, as the Editor of the said department in "today's health", a monthly publication of the American Medical Association, wrote in its March 1953 issue an answer to an inquiry about:—

"COLOR THERAPY

Question — A friend tells me that a method called color therapy is now being developed by which various illnesses may be treated successfully. Do you have any information about this?

Answer — From time to time, theories are advanced that color may have value as a treatment adjunct in medicine, but we do not know of any evidence that a specific disease ever has been cured through the use of color alone. Various colors may have some value so far as mental attitudes of many patients are concerned, and this idea has been utilized in some hospitals. For example, walls and ceilings of hospital wards or rooms may be painted a light blue or green because such tints are believed to have a soothing effect. In general, colors probably should be considered for their secondary effect in helping a patient to overcome excitement or worry about an operation or illness."

This publication is an answer to the stated view, as in our service to our Members, their own convictions by their personal investigations, researches and experiments will give them the accurate view of the Truth behind the Visible Spectrum. Let the reader judge for self.

NOTICE TO ALL

We accept no gifts or gratuities, as to a Servant Of Mankind it is graft. Send us nothing.

You may send your Book for review or opinion; you may send your Writings or Experimental Findings and Reports for publication, provided they are not plagiarized or false and bear your hand signature in ink, with full name and address.

Anonymous communications will receive no attention. Submitted articles will not be returned.

All correspondence should be addressed to:— Visible Spectrum Research Institute, Malaga, New Jersey and not to any officer or individual.

For the views expressed in signed articles, the writers are responsible; for the opinions in articles bearing no identification, the Editor shoulders the sole responsibility.

THAT IS A GOOD ANSWER By:-INDIVIDUAL EXPERIMENTERS

HEMORRHAGE REPORT BY B. G.

I would like to reaffiliate myself and family with your Institute . . . It was L. F. who introduced me to your Equipment 10 years ago, when Doctors could not stop a Hemorrhage my wife had for 21 days. She used your Equipment 3 days and it stopped. My family and I have been using it ever since, with very good success.

* * *

WALNUT-SIZE CYST REPORT BY H. S.

Two weeks ago, my husband told me the Cyst on his Back near the Shoulder was running Pus. He was operated on it in 1917 and since then until now it did not pother him, but, was the size of a large Walnut. He wanted immediately to go to the Hospital, to have it out, but, I told him to try the Color Projector for a month and then he could go under Surgery if he wanted to go; so, he agreed. I was going to give him the Tonations with Orange, but, I decided to call E. R. who is a good friend of mine and she told me to use the Orange Color, which we did. After a week, the Cyst drained completely and I pulled out the Sack. The Odor was very bad, but, the Hole was nice and clean. Then, she told me to use Green for a few days and then Turquoise. I did use the Green and now am putting the Turquoise on his Back. It is not entirely closed in yet, but, is doing very well and we are delighted. I am very proud that I own my Lamp and I did want you to know how very wonderful it was. Thank you for your patient kindness and may God bless you in your wonderful work.

* * *

DOUBLE MASTOIDITIS REPORT BY O. S.

My son G. S., Jr., had an Earache and was taken to a Medical Doctor. After an examination, the Doctor prescribed Ear Drops. The boy suffered more Pain after using the Ear Drops and after 2 days, was taken to the Doctor again and was told the Infection was clearing up and we were instructed to continue using the Ear Drops. For 2 more days, we watched him suffer terrible Pain. We called the Doctor to our home and after examination, seeing the boy in his agony, he diagnosed his Ear Trouble as Double Mastoid and immediately telephoned the Hospital to reserve a room and ordered the Operating Room be made ready for an Emergency Operation. Realizing the seriousness of a Mastoid Operation, I pleaded with my wife as a last resort to try the Color Projector. After the second Tonation, my boy had his first sound sleep in a week. His Ears began to drain and that continued for about 4 days. Within a week, my son was back in school. This happened about 7 years ago and to this day (1945), he has had no recurrence of Ear Trouble. (Subscribed and Sworn before L. S., Notary Public).

OUR STUDIO ACTIVITIES

EXPERIMENTER FINDINGS AND QUERIES

MEETINGS OF THURSDAY, DECEMBER 1, 1955

First Allentown Pennsylvania Studio

Meeting being called to order, M. B. nominated the same Officers for 1956; the Motion was seconded by B. W. and unanimously passed. The Reporter being absent B. W. acted as Reporter.

M. B. — My brother had a bad Fall; struck his Elbow; later, had severe Pain; had Bruise in region of Right Kidney. First used Turquoise and Orange Local. Did not act satisfactorily, so, I used Orange Systemic and Orange Local. Took about 1½ weeks to normalate.

J. F. — My son was hit on Front of Leg with an Iron Bar, between the Foot and Knee. A large Scab appeared. Turquoise was used twice; healed nicely.

F. M. — I feel better since the advice given at the previous Meeting. I used Lemon Local for Chronic Head Cold.

(Discussion followed on Sore Lips that F. M. seems to get.)

J. F. — Can the Light be used on a Parakeet which has a Leg difficulty?

C. K. — Use Orange.

(The Educational Program was conducted by M. B., who corrected a statement in our November 1955 issue about "I have a man on T. V. program." It should be "I heard from a man." The error was made in reporting it.)

M. B. — I stress the point for our Members, to stop using guesswork and analyze conditions.

(Discussion went on about the Circulatory Rays and the Ultra-Green Rays for the information of F. M., who has no literature in the use of the Light. The Infra-Green was recommended for Chronic Disorders.)

M. B. — Tonate the Cause and not only the Effect. The condition of the Sore Lips shows a Chronic Disorder. I shall read about the Red Color from our Text Book Set.

I print Reports as they come, correcting only grammatical or idiomatic discrepancies. No change is made in the views expressed. F. M. has had his Equipment many years and should study our Text Books. Ours is a **Science** — not a mere **Equipment**. Every Member should have our Text Books, which are available. N. S. is a good Reporter.

First Cleveland Ohio Studio

The Meeting being called to order, E. L. nominated the same Officers for 1956; the Motion was seconded by A. K. and unanimously passed.

E. L. — I was called to the school of my eldest daughter who had a bad case of Dysentery. Tonated with Indigo twice and she was better.

E. R. — I had a Bladder Disorder. Tonated with Red Systemic Front and Back and Magenta on Areas 4 and 18.

F. B. — I like to report that I am feeling somewhat better by the Colors suggested by the Institute. I am encouraged by the Members to continue with the same Colors.

Do not hesitate to ask for Personal Research Information For Further Investigation, if you be an Experimenter Researcher or Graduate Researcher. The Institute is at your service for that purpose.

* * *

First Detroit Michigan Studio

The Meeting being called to order by C. R., A. G. was recommended as Chairman of the Studio Commission, G. W. as Vice-Chairman and E. K. as the Reporter. Accompanying R. G. to the Meeting, was his 12 year old son R. K. G. This is the youngest Member ever to attend the Detroit Meeting.

C. R. — This is what I like to see; bring the young ones to these Meetings. We can not go on for ever; someone has to follow us and it is upto all of us to bring our young sons and daughters here. I admit it is difficult at times to talk to them, especially when they enter the teenage bracket. Yes and even when they are married, you have to deal with another person, but, keep right on talking and soon or late they will respond. I have been talking to one of my family for two years and I believe I finally gained one point. I am content to wait; patience is a virtue and time will tell.

A. G. — I think it is about time to bring my grandson. The Chairman is 100 p. c. right; someone has to follow us one of these days, so let us be busy and see how many we can get to come to these Meetings in the coming year.

H. E. — I am following through my second series of Colors. Just recently, under the Red, the Ratio was 80 to 17; on changing to the Orange, the Spiroskil was raised to between 18 and 21. I feel much better and will continue to tonate.

L. F. — Tonating regularly with the Lemon, I feel much better.

C. W. — The past month, I injured my Back, right near the Tail Bone. I thought I was going to pass out; I could not move. I tonated with

the Orange Systemic and Magenta on 4 and 18. I was able to go to work the next day. Under the Orange, I was in much Pain; after the first Magenta, I was much relieved. I used the Orange to speed the Circulation.

C. R. — It will work every time. Note that C. W. followed through with the Magenta. Many of us are inclined to overlook this Color. Remember, the Magenta is $\frac{1}{2}$ Red and $\frac{1}{2}$ Violet, evenly balanced between those two Primary Colors. Thus, whichever side of the Visible Spectrum the Body requires for help, the Aura will select. All the other Colors are either on the Infra-Green or Ultra-Green. So many of us think whenever Pain is present, we should use either the Blue or the Turquoise, but, that does not always follow and that is one of the reasons, I urge you to take the Ratio as the key to help you. Many times, Yellow will work wonders. In this case, there was a noticeable difference after the Tonation with the Magenta. Remember all this; it is of vital importance. Ours is no "hit and miss" affair, but, is an exact Science which can be reasoned through fully. Do you remember, some months ago, I told you I wondered if I had a Hernia? Well, I had an examination and was told I had one, so, I am now wearing a Truss and tonating with Indigo as the Institute stated that normalation of such condition is not possible due to other factors present. So, I continue with the Tonations and am sure it will not become worse, as the Tonations will strengthen the surrounding Tissues where the Protrusion exists.

C. W. — About 20 years ago, I had a talk with Dinshah and he told me that to normalate such a condition, one would have to get off the feet for at least a month, also, wear a Truss, because, as long as you walk around the Tear will not mend, owing to the constant "pull" there. I still wear a Truss and the Hernia never became worse.

L. F. — I know a man, 83 years old, on whom an Operation for Hernia was performed by a Doctor in Toronto, Canada and he was sent home on the fourth day. The Operation cost \$225.00.

C. R. — I know a man on whom they operated two years ago.

C. W. — I know of three cases, where such condition came back after the Operation.

Member — What causes that Disorder and do animals suffer from it?

C. R. — I thought there was only one kind of Hernia, but, I was told there are many kinds. I never knew of Cows suffering from it, but, I know Pigs having a Ruptured Navel. It is more common than you realize and it is when you speak to different people that you find about it.

J. B. — My baby (the Blue Baby), is steadily progressing. It is slow, but, we are convinced it is sure. Basically, she is getting Lemon and Magenta, but, recently, she had a Cold and we switched to the Turquoise. With the Cold she had a Cough which made her vomit, but, she is all right again. She is 5 months old and weighs 9 pounds. We still use the Raw Milk, which she likes very much, has a happy disposition and an enormous appetite. She is a very good baby. Her Backelim is usually 2 a day; occasionally, there is 1 in a day, but, I do not worry about it, because she soon snaps out of it. In

the last report we had from the Institute, it was stated she will recover from this Disorder; imagine what that meant to us! Dinshah's word is all I need. My other daughter who recovered from Double Mastoiditis, complained about her Ear the other day; Green Systemic followed by Turquoise and within 2 days, all cleared up. She feels "fit as a fiddle"! My wife and I are not 100 per cent. with our food, but, we are surely getting there. I was raised on a farm and you know what that means — Meat and Potatoes! Well, I just bought some land and shall start growing my own food, at least, as much as I can. I see why the right Food must go hand in hand with the Visible Spectrum.

C. R. — I know talking about the Food disturbs many people, but, start putting the right Food in your Body and you will truly see the marvels of the Visible Spectrum. What you put into the Mouth, determines the kind of Body you will have and that is the last thing Dinshah mentions in the Volume 3, of his Text Books Set. Build the Body with the right Food and you build a true foundation. Look at the children with Cavities in their Teeth! Formula feeding is not the perfect food for infants and most children today are raised on that. Nothing can be better than the Mother's Milk and a baby raised that way, will not have the trouble of Caries when it is time to enter school. Proper Nutrition is the answer to proper Health.

A. F. — I usually get a Cold in the Spring and again in the Fall. At that time, my Back really hurts. One Tonation of Green followed by one of Magenta and that is all.

R. G. — Although I have not been able to attend the Meetings as I like, we use the Visible Spectrum faithfully in our home. We had several good results with it. My son, who is with me here tonight, was raised with it.

C. R. — That is the idea! Bring more of our children here with us. Now that the holiday season is almost here, what better gift could you give to your children than Student Researcher Membership? It costs three dollars and it will be the best three dollars you ever spent! Let all of us be busy and bring in a new Member next year. If we do, we can fill this hall in no time at all.

W. K. — A lady called my home and wanted to speak about the Visible Spectrum. I wonder if I could find if she be a Member.

C. R. — Just ask her — if in person — to show her Membership Card. Other than that, I do not know what you may do. We hear so much about people taking Vitamins; you can never **buy** Health; you have to **work** for it. Vitamins are Compounds and none can make Life. Let us read Chapter 90, Page 953, from the Volume 3 and note what we find about Lemon as a Fruit.

(E. R. read paragraph 6 and discussion followed pertaining to the Color Lemon; also how to go about tonating Chronic Disorders and how to recognize such Disorder in the first place.)

C. R. — Generally speaking it is something of long standing after a crisis. Nature gives us plenty of warning whenever anything is wrong within the Body, but, we just simply do not listen and go our merry way. Then, there comes a time when we are compelled to notice and sadly enough in many cases it is too late to retract. Serious Disorders do not come overnight; they take long to reach that point and if you are "on your toes" with the Visible Spectrum, you can normalate it. However, it requires effort on your part and strict adherence to the Rational Food Of Man. How many times have Members told me they have no time to stop and take a Tonation. You determine the type of Body you want, all we can do is to suggest what to use; the rest is upto you.

R. G. — A few years ago, my sister-in-law lived with us and made her home with us. We made her as comfortable as we could and under the Visible Spectrum she had quite some relief, but, her case was too far advanced. We had to comply with the Health Laws and a Doctor was called in. Her Ratio was not very bad, yet, he said she would live six more months and she did that almost to the day. I often wondered how he could be so accurate! I heard of many cases like that.

C. R. — There are Symptoms present, if we could only read them. So many people object to prevention, but, that is the true answer. 99 per cent. of all Disorders originate from the Stomach, but, most of us are too busy to notice the Signals. With the exception of this young lad who is with us this evening, most of us — yes, I am sure all of us require the Infra-Green. We are becoming older, slowing down; we need help to speed up the functioning of the Body. There is much cleansing to do; we can not well plant Seeds in a garden full of Weeds. I have a newspaper clipping condemning the indiscriminate use of Penicillin and that it must be stopped, but, is it? (At this point C. R. alluded to a certain Clinic.)

Member — What is the difference between Green Peas and Yellow Split Peas?

C. R. — The Yellow Peas are ripened. May all of you enjoy the happy holiday season and let all of us bring someone in with us next year.

A. G. — I propose a vote of thanks to the Chairman and to the Reporter for a very fine job well done. (Applause)

The young ones represent the future generation and are more welcome in our midst, than the old ones whose views are rigidly formulated along erroneous lines of the past. R. K. G. is more welcome for that reason. A. G. has a smart grandson who should enter the field of investigation. The Ratio of the Kardoscil and Spiroskil and the Frontelim and Backelim are the

main switches to restore Energy duly swirling in the Body. Just get them right and the rest will be child's play. Hernia is the Protrusion of a Loop or Knuckle of an Organ or Tissue through an abnormal Opening. It is not a true Disorder, but a mechanical defect and such condition might appear in any of over fifty different places in the Human build, the most common being Inguinal Hernia or Rupture at Area 10. In infancy, such defect may be amenable to sealing the Opening by the Visible Spectrum, but, at an increased age, it is necessary to wear a properly fitted supporting Truss. Hernia treatment by Surgical Operation also is a dubious remedy, as the weakened wall might hold or give way again according to the condition of the Tissues involved. Even fitting a proper Truss has become a regular racket, to continue extraction of coin from the Sufferer's pocket. The "Blue Baby" is well on the way to become a "Rosy Baby," under the care of its intelligent father. Feed her whatever she likes from the Dinshah Cook Book. Yes, I am told repeatedly, that if I remove the Rational Food from our work, I could have Members by the thousands! Thank you "friends," but, I am not ready to lose my Scientific Knowledge or Conscientious Scruples and when I may be "ready," I shall not be alive on the Physical Plane! American mothers are mostly milkless, because of their wrong life and modes of living against the Laws of Nature. America is following in many wrong tracks, which will eventually cast their dice on the table of life. I extend to the retiring Chairman the best in life for his dutiful services to our Cause and to the retiring Reporter most cordial thanks for her clearly-worded, accurate Reports of the Meetings. May their successors earn similar gratitude!

* * *

First Merrill Wisconsin Studio

On the opening of the Studio, a Resolution was unanimously passed that the same Studio Commission be recommended for the year 1956. The Chairman read the "Notice To Members," from the December 1955 issue of Visible Spectrum Researcher.

W. B. — I was having much trouble with my Legs and had the impression that was through poor Circulation. Finally, I switched to Yellow instead of Orange and had better results with it. The Pain must have been from the Nervous System. I was feeling well until today, when I started to develop a Sore Throat. I had one Tonation at off time and it seems to have helped some.

Members — We wonder what Experiments we should make for Dry Cough. It appears to be prevalent now.

W. B. — My grandson and I quit drinking Milk, because, it caused so much Phlegm. Whenever I finished eating Ice Cream, I had a Coughing Spell. My wife does not use Milk at all now and her Sinuses do not trouble her. My grandson had a severe Skin Disorder and it seems he is now normal. It looked as if he had Chicken Pox — mostly at the extremities,

not so much on his Body. He was not sick and had no Fever. When the Rash broke out, he played as though there was nothing wrong at all, but, he scratched plenty, even at night. We worked with Green, Orange and Lemon until in the Weeping Stage and then used Turquoise, but, that did not help and we started again with Green, Orange and Lemon. I do not know how long we kept up that, until he was normalated. We did not get at it right away, because, we thought it was Chicken Pox.

W. B. needs Personal Research Information. It is not the Milk or the Ice Cream at fault. Ice Cream should be eaten slowly, after it begins to melt and not as is usually done, eaten in lumps and gulped. Digestion in the Stomach is interfered by the low Temperature of the Ice Cream and there is a strong liability to produce Dyspepsia. The case of the grandson indicates too many changes in Color. Chicken Pox disappears generally in a week and changing one Color after another is not conducive to quick results. Be patient, please, with the recuperative processes of Nature. Study carefully from our Text Books Set, Volume 3, Chapter 96, Page 1018 and use discretion in the use of the Color Projector.

* * *

First Milwaukee Wisconsin Studio

K. B. read from the First Volume of our Text Books Set, Chapter 37, on "Chemicals, Colors, Code." He had with him a number of Element Tubes and two Spectroscopes. The Members who had never before looked through a Spectroscope, were very much impressed and those who had that experience, were just as anxious to have the opportunity again. K. B. gave very good explanations.

K. B. — Have we any Case Reports?

N. T. — I was dying for you to ask that. I get Heart Burn every night, after I eat Bread or Chocolate Cake. Then, I use the Orange Light; then, I vomit and then, I am all right. I use unpasteurized Milk and I take it out of the ice box and warm it.

K. B. — Heart Burn does not mean it comes from the Heart. Use Orange. The consistency of the Fluid in the Stomach is not right. Did you bake the cake yourself?

N. T. — Yes and the Bread too.

L. S. — My son had a Stomach Ache, one morning before he went to school. I put him under the Orange Color and he was able to go to school. I know he would not have been able to go if we would not have the Light.

F. K. — I like to know what Color and on what part of the Body I should use it, for High Blood Pressure. I become Dizzy.

K. B. — How high is it?

F. K. — 180.

K. B. — Lemon Systemic and Purple on Area 4. Usually High Blood Pressure comes when you get older.

F. K. — I am.

K. B. — The different parts of the Body pick up different Elements. It is only the Smoking, Drinking Intoxicants and wrong habits that make people grow old; how old should a person become?

Member — 147 years.

K. B. — Now, you show me someone of that age. Some Turks and Bulgarians become that old. The Bible mentions older people. I know many Bulgarians myself; they walk very straight. They eat staple foods, the same foods all year around. Our Body needs only about 16 Elements. If you eat refined foods, you get a deficiency in the Body. There is no question about it. Do not eat too much also.

L. L. — I have trouble with one of my Teeth. I have Pain all the time and the Dentist said I may have to have it pulled. A Tooth broke off and the other Tooth is fastened on it.

K. B. — There must be air getting at it. I have been going to a Dentist about the last 6 months and every time I go, he drills it.

L. L. — I suppose I should have it pulled. Should I use Indigo?

K. B. — No; I should not suggest it. See what you can do. Use Indigo and if it does not help, use Yellow for a while. You may use Purple, before you have it pulled; not Indigo, as it will be worse, as Indigo tightens. It is used only with Inflammatory Conditions, not Infections. The Infra-Green is the side of Action, the Ultra-Green is Sedative.

L. S. — When I get a tiny crack or cut on the Finger, why is it that it stays sore so long — 3 or 4 days — and it is painful; is my Blood so poor?

K. B. — Are your hands cold?

L. S. — Sometimes in the morning when the weather turns cold.

K. B. — Are you under the guidance of the Institute?

L. S. — Yes.

K. B. — Then, I do not want to interfere. The authorities had a Meeting here about the Water. Sodium Fluoride has destroyed Teeth. I can show you that from their medical books, how it injures the Teeth. Fluorine itself is a gas and it is not used if the water be pure. If your Blood be in proper condition, the White Corpuscles will go after the foreign matter. Right now, we have 160,000,000 people in the Country and many in Lunatic Asylums. In India they talk about Karma, the Law Of Retributive Justice — “as you sow, so shall you reap.”

F. K. — In this morning's local newspaper, the Government had an article about food being colored. A woman sued and received \$15,000.00 for damages, because, in a soft drink she took, there was a dead mouse in it!

K. B. — Stay away from those so-called “soft drinks.” If you have to

go out to eat, go to a reliable place; it is for the person to watch. If you go to parties, then you have to eat anything.

P. J. — Last week, I used my Color Projector all week. At the last Meeting, I said I was all right with one Tonation, I went back to work the next day and went up the Chimney again; that is 160 feet. I used Lemon Systemic, Magenta on Areas 4 and 18. Went back to work. I spat out and kept on working. Again I say: "Praise the Lord for Dinshah!" I blame a lot of it to the oil heat at the bottom of the chimney. I can taste oil and my Throat is dry and I am hoarse. I do not know what I shall use tonight. I am going home now, so I can take the Tonation tonight.

K. B. — Use a Salt gargle night and morning; you have the fumes of the oil burner.

P. J. — Sea Salt?

K. B. — Yes. If you have any recommendation for new Officers of the Studio; send the names to the Institute. Do you have any suggestions for the next year?

H. S. — Just that every one should come as much as they can.

K. B. — Thank you all for coming. I did not expect to see so many people out tonight, because of the storm.

The Spectroscopical demonstration made by K. B. was a very commendable step in the right direction, to show to the Members how true are the fundamentals on which our Science is based. N. T. should send her Chart to the Institute to determine the wrong in her food or condition. Americans generally eat the wrong foods, at the wrong times, in the wrong quantities and mostly in wrong ways. Soon or late they will learn the value of what is fit to put into the mouth and otherwise. L. S. sent her first Chart the day AFTER your Meeting and it had six sides of description about what she went through and so on. She was given the proper service and information, with request to report in 15 days, but, to this day, she did not send the report. Even our Members seem to expect us to perform MAGIC! P. J. did not send us any Chart. The recommendation for the Studio Officers should be customarily taken by vote of the Members present at the last Meeting of the year. Your recommendation is not received. Meanwhile, we request the same Officers to continue.

* * *

First New York New York Studio

The Chairman opened the Meeting and read a communication from the Institute, about the Officers for 1956. He stated the reference is to By-Law 34, but, he never received any. The Vice-Chairman read the By-Law.

K. S. — I make a Motion to keep the same Officers.

D. R. — I second the Motion.

(On Vote the Resolution was passed.)

R. D. — I do not know what to think. The New York Meetings were the second larger when L. F. was the Chairman. If the Members dwindle as we do, I feel I am not upto the mark. You folks have to show a better attendance.

O. D. — I fell flat on my Face and hurt my Knee. I did not even swell, because, I took Turquoise right away.

R. D. — I know if you take the Light promptly, you may not even get a Discoloration.

C. K. — I had Pain in my Shoulder; I took Orange. Next day, the Pain was gone.

K. H. — I had Pain in my Hip and Shoulder. I took Orange and Indigo. I feel better.

C. P. — My wife has the same trouble; she gets relief with the Indigo.

O. D. — I got dizzy and then I fell right on my Face.

R. D. — What is your Kardoscil and Spiroscil? Are you under the care of the Institute?

O. D. — No, my readings are 84 and 17.

R. D. — Why do you not fill out a Chart? We are so lucky to have Dinshah to refer; meanwhile, take Magenta.

C. K. — I have Throbbing in my Eyes; I took Turquoise; it is still the same.

R. D. — Do you use your Eyes much?

C. K. — Yes, I do.

R. D. — Take Lemon Systemic for 10 days. My father used to take Orange and Red on his Eyes.

K. S. — What is one to do about Sinus Disorder?

R. D. — You have to use Lemon, as it is a Chronic Disorder. It is very important not to smoke and not to drink Intoxicants; also, not to be even in a room where others are smoking, which is almost as bad as if you are smoking yourself.

S. K. — What Color is one to use for Liver Congestion? When I eat anything rich like Butter or Cream, I have trouble. I have it for the past 3 or 4 years.

R. D. — Did you make your Chart?

S. K. — Yes. I am to take Yellow and Orange. We were out and I went off the Rational Food; that made me very sick.

R. D. — Dinshah said that if you eat Flesh just once, you spoil years of right living. Just think of what an animal goes through when it is killed! The fright changes the Chemicals. Do you know that a Butcher can not serve on a Jury?

M. W. — Just think of all the Vaccines and Serums a small animal like a Chicken gets; they receive all kinds of Injections for New Castle Disease and so on.

S. K. — H. V. had an automobile Accident; his Leg was in a Cast. The Doctor was surprised how well he is getting along. My boy was bitten on the Lip by a Dog. The Health Department came and said to give him "Shots" for Rabies. I tonated with Green on his Face and there were no after effects.

D. R. — Many people say there is no such thing as "Rabies." Doctor S. is one of them. He put up \$10,000.00 for any Doctor to prove that there is Rabies.

S. K. — I heard of Cows being bitten by Foxes having Rabies; they lost the Cows.

A. M. — I know of a Nature Doctor, who brings good proof that there is no such thing as Rabies.

J. S. — I had a Tooth Ache; I took Blue; I still have my Tooth.

M. W. — My husband had a loose Tooth; Indigo fastened it. I sent my sister a Color Projector in Germany. Her son was playing "Indians" and got an arrow in a corner of his Eye. His Face was all swollen and they rushed him to a Doctor. He said he could do nothing while the Face was swollen; told them to give applications. They tonated with Turquoise; it healed nicely within a few weeks. At the same time, my sister had trouble with her Gums and Teeth to such extent that she was to have her Teeth pulled out. She took the Colors the same time her son took for his Eye and after a week, a piece of Bone and much Pus came out. Her Gums healed nicely. She had no more trouble. She will come over here for good; if anyone be interested in her Projector, let me know.

P. Z. — How can one know what the Favor Time is in Germany?

M. W. — I understand there is a difference of 6 hours. I told them not to use the Projector at Sunrise or Sunset and not to eat an hour before and after Tonation.

S. K. — There is a Medical Doctor G. who cures Cancer with Diet only and no Medicine at all. He works by cleaning the Blood Stream.

E. T. — There is another Doctor H. who cured Senator T.'s son of Cancer; he is somewhere in Pennsylvania; he uses no Medicine.

R. D. — The best way to be normalated is our Visible Spectrum.

M. K. — What Color is one to use for Cancer?

R. D. — I know people who had Lumps in the Breast and under Lemon they disappeared.

E. S. — I suffered almost a year from Bursitis; Dinshah told me to use Orange Front and Back; no more Pain.

C. P. — Dinshah told my wife to use Yellow and Orange for that Systemic.

R. D. — Each Chart reads differently.

C. P. — When my wife used the Orange, the Pain became so bad, she had to use the Indigo.

F. R. — A woman is supposed to stand Pain better than a man.

R. D. — It depends on what is involved. If a Nerve is involved and you take Orange, it makes it worse.

F. R. — I had Headaches for a year. I took all kinds of Color; no results. I went to Purple; that eliminated them.

R. D. — I used to have that kind of Headache from Smoking. Why not go to our Headman for advice?

T. S. — A Headache acts as a warning. Why did you not take Yellow or Lemon?

F. R. — My condition is brought on by my work; it is a nervous condition. I have very good Eliminations. The one thing I wanted to buy was an Itisometer, but, they asked \$600.00 for it.

J. B. — If one takes Purple, they should go back to Magenta.

E. S. — Indigo is very good for a Sprained Ankle.

R. D. — Before we close, I wish you all a very happy New Year.

Our Constitution And By-Laws, were published on May 28, 1955 and a copy was mailed to each Member in good standing. If anybody did not get it, the Institute will mail one on request. Every new Member is mailed one also. R. D. is going along all right and is as much on the mark as anyone else. It is an Electric Chair! Dizziness is a certain Signal of Faulty Circulation. O. D. should send her Chart. The Saliva of any animal or Human Being is a Chemical Fluid and has no business in another one's Blood. For the same reason, the evil practice of Kissing on the Lips, converting the Mouth into a Spittoon is responsible for many Disorders and should be sensibly avoided. When our Science will spread more throughout the World, we shall include not only Germany, but, all the Major Locations in the Respiratory Rhythm Guide. As it is now, it takes me around 2 to 3 weeks to calculate the present one each year. That Doctor H. is NOT in Pennsylvania, but, is in Texas. I heard him many times and know him personally. However, he and others use various "Herbs" and the like and we are the SOLE HEALING SYSTEM that gives service **without** special Diets or Internal Dosing. Remember, ALL COWS EAT THE SAME GRASS! The Members who are unable to set themselves right have the Institute at their service; why do they not utilize the privilege? When our circumstances will permit, we shall market a Portable Itisometer and other of my Inventions at very reasonable prices.

DINSHAH IMPARTIAL

(The Universe Through The Eyes Of Dinshah)

TRUE VALUE IN SALESMANSHIP

Every person in business of any kind realizes, that the true value in Salesmanship is not in merely selling an article by advertisements, talks or rosy promises, as all such tactics may make a sale, but, may not produce lasting results, commensurate to the money, time and labor spent on hooking the initial customer. This Institute does not follow such tactics. Our dependence is on the **results produced** and the best proof of that is extended to us year after year.

In the Request For Continuation Of Membership, there are numerous questions, the most important being:— "How much are you satisfied with the results of your Experiments with our Color Projector?" The invariable answer is either:— "Well satisfied," "Much," "100 p. c.," "Good," "Yes," "Excellent" or some term implying confidence. However, hundreds of Members wrote their views in more explicit language and I take pleasure in recording some of them, giving their identification solely by the numerical figure on their paper as filed:—

4 — After 16 years that my husband does not ridicule me any more for it, as it saved his mother an operation and may be her life.

6 — Couldn't get along without it.

15 — It is wonderful!! I would never live without it. I haven't had a Doctor since.

77 — Very much satisfied. In fact it saved my life and my leg. Bless you.

86 — My husband and I just can not get along without it.

105 — Words can not describe the wonderful benefit that I attain from my Projector.

165 — There is no finer Healing System than our Projector. Every Sufferer should have one.

180 — Results are very gratifying. I'll never part with it.

181 — Wouldn't part with it for a million.

200 — I would not give it up if I thought I could not get another. That is really my health for since I have been connected with the research work it is my life.

207 — Wonderful! Saved my life when I had Heart Attack.

224 — I wouldn't be without it. It is my very life; without it, I don't live.

261 — They give results, but, it takes patience.

264 — Completely satisfied with absolutely no reservations and eternally grateful.

278 — We have our Color Projector since September 1943. It is the best investment we ever made; it has done wonders for my Arthritis.

280 — I am very well satisfied. I have used it on daughter, wife and self. My daughter would not be here today, if it were not for our Projector!

298 — I am happy with my Projector; it has healed Cancer on my Eye, large Veins and Anemia.

312 — I used it for my Throat, which was hurt in Accident and it helped.

322 — Could not be improved.

407 — I was three years old when I first became acquainted with your Color Projector. I would not be without it; results are obvious.

413 — It is wonderful. I feel, in a couple of months, I'll be cured of Diabetes.

417 — So perfectly satisfied that we have not had a Doctor in 17 years.

421 — Words can not explain as it is wonderful.

432 — I am thankful that through the use of it, I was saved an Operation and would never have any.

447 — Entirely satisfied and convinced it is the only true means of maintaining Health.

467 — To the deepest degree of my satisfaction; blessed be the wisest Invention God given!

506 — Great relief in Arthritis.

512 — Satisfied very much. The Bobby Pin my son swallowed came out in his Stool.

531 — Almost beyond my words of expression. It has stopped Hemorrhage from my wife's Organs and taken care of my girl's Goiter.

560 — I am getting good results in Indigestion, relief of High Blood Pressure, Gas on the Stomach.

567 — I have belonged for quite a few years. I hope I may be allowed to belong for the rest of my life.

631 — It is a Blessing and we have much confidence in our Color Projector.

637 — Great results, as no Science can compare with Visible Spectrum for Normalation.

641 — Very much satisfied; it keeps me in good condition. Nothing else can do it.

673 — Very much. My children had never any Medicine and whenever they need a Health Statement for school, it is good.

760 — I have had good results with Colds, Skin Troubles, Indigestion and other troubles.

765 — Have had the Color Projector 14 years and would not give it up for all the money in the World.

777 — There are no words to tell you just how happy I am with this Projector; I just simply could not live without it.

823 — I think you are a Godsend to mankind and doing a magnificent job. I do thank you and appreciate being able to have a Color Projector.

Thus they go on and on with their candid, unbiased, independent opinions and expressions for the services rendered to them in their hour of need and otherwise. I thank them all cordially for their unanimous co-operation and assure them that the Institute will never fail knowingly in the performance of its self-imposed DUTY.

A CONTRIBUTION TO OUR CAUSE FROM MEDICAL EDITOR

The following is a reprint of what appeared in the February 1956 issue of the Journal of the American Association for Medico-Physical Research, composed of Medical Doctors:—

“Dinsha P. Ghadaiali

President of the Visible Spectrum Research Institute,

Malaga, New Jersey, U. S. A.

The Editors Commendations

“The Doctor has been associated with the AAMPR Association for many years and has frequently given in our conventions of his research, as in 1955, in Color Therapy.

“We can not see how so much vitality and intense research can possibly come from such a small person for we do not believe he has ever weighed more than 85 pounds, so think he must be mainly brains instead of brawn.

“Let us quote from his copyrighted research on the ‘Energies of the Physical Plane.’ Here there are 64 computations of his on Oscillations or motion frequencies per second. These computations range from the Octave one, with 2 oscillations per second, as the ‘lowest inaudible sound’ to Octave 64, which is **magnetism**, with oscillations to number 18,446,744,073,709,551,616.

“Such computations is far beyond the meaning to the average human mind as to the number of oscillations per second, but to the Doctor such is in his days work and research.

“We have received complaints the Journal has not given to us enough dollars and cents material, and some of the research articles have been above the ability to grasp. Here is material with the highest essence of inability to understand, yet is in daily use due to research by such men as Dr. Ghadaiali in applying COLOR THERAPY.

“The above computation may indicate we do have members doing research work whose thinking and labors would paralyze any ordinary brain.

“Computations and research are not all Dr. Ghadaiali is doing, for these compilations are accompanied with his practical applications of color to overcome pathology in human and animal life.

“For his pains and research the good Doctor has been persecuted and arrested by Medical authorities BECAUSE HE DARED APPLY HIS FIND-

INGS TO HUMAN SICKNESS AND ITS DEPRAVITIES. NO NOT ONCE BUT MANY TIMES.

“Color Therapy is now applied to the Hospital Room, to the Mental patients to soothe the violent ones, and the Hospital attendants in some Hospitals wear that universal color green as an attributable Therapy.

“We can not think of anything which is not one of vibrations from color as is music or electricity, down to solids.

“In this age of Atomic energies, their computations and their complicated machinery we require more than passivity to keep abreast of its movements. The dullard and the lazy who hate any movement must be content with the monotony of the factory line or the drudgery of the domestic.

“In medicine it is not enough to compute things, but how to apply them successfully and that is where color research comes in.

“The uses of color therapy in disease as specific for this or that condition may not prove 100% healing, but if it eases the pain in some it should find ready acceptance by medical authority for daily use for medicine is not a science.

“In spite of arrests, persecutions, confinement and threatened death we will still seek relief and find cures from the use of vibrations from color, a tamed electrical current or drug medications we use.

“When we learn each drug and disease has its diagnostic vibrations as well as known number of vibrations of colors then we may reach the point of a scientific diagnosis and the vibration whether of a color or drug or electronic will be used to soothe a pain or hasten a cure.

“Medical uses of color as a vibratory medium is in its infancy. The Doctor by so intently computing its vibrations has scientifically proven its value as a vibratory therapy to the every day practicing physician.”

I must respectfully decline to say anything to decorate or garnish my accomplishment in the value of the decoding of the Powers and Effects of the Visible Spectrum. My Science is NOT in its infancy, but, is now an adult of proven maturity during the 35 years of its use in downright practice and I take pleasure in requesting and inviting my most learned, impartial, professional friends to investigate the Science by accepting from my Institute a copy of my Text Books Set of 3 Volumes, with my best compliments along with a **free** course of instruction with experiments and demonstrations. My most cordial thanks are due to them for “The Editors Commendations.”

FORMULA FOR HEALTH

In Embarrass, Wisconsin lives Julius Barkow, whose eight daughters and their families gathered at his home to celebrate his 103rd birthday, on December 12, 1955. He states about himself thus:— “I sleep like a bear, eat like a wolf and work like a horse. I advise all to keep Doctors and Lawyers away. **I never smoked, chewed or drank Alcohol.**” There is philosophy of life in a walnut shell!

BEER GOOD FOR WORKMEN?!

In San Francisco, California, a Medical Doctor, who is the Physician of an Aircraft Plant, in speaking before Union Leaders and Employers openly stated that drinking Beer during a work-day would help to prevent certain kinds of Heart Disease and Circulatory Ailments. His opinion dumbfounded the audience, as he insisted that he would insert such a clause in the Union-Management Contract, were he the Union President! It is good he is not!

THE RESULT OF A STEP

The most important move, that will have tremendous percussions in the United States Of America, was made in the recent consolidation of the American Federation Of Labor and the Congress Of Industrial Organizations by merging the two into one giant Corporation, the AFL-CIO, thus, ostensibly burying the hatchet that was wounding both during the past decades. The merger now controls around 16 million votes and the public ought to realize what that means in the circle of politics. I am a friend of the working man, being one myself, yet, can not refrain from stating that unless the heads of the new outfit fully comprehend and act with the true power they are capable of wielding, they are liable not only to hurt innocent ones, but, their own cause also. Labor can not stand alone. There are actually five partners in the world of commerce and industry, the five being:— Invention, Capital, Labor, Management and Reserve. All that Labor can do is to manufacture an article, but, without the other four or anyone of them, no enterprise can eventually succeed. This is all fully discussed in my "Inroads Of Socialism And Communism," reprinted in the issue of February 1955, in this periodical. Labor now has the power to be a benefactor or a malefactor and it is solely in their hands to choose the road that will lead to the prosperity of our beloved America. The first step needed is to abolish Strikes. In trying to force an issue with the Employer, Labor most decidedly injures an innocent bystander — the public. Consider what would be, if someday ALL Railroads, Trolleys, Omnibuses, Taxicabs, Telegraphs and Telephones went on Strike. Consider what would be, if someday all Firemen, Engineers, Electricians, Plumbers went simultaneously on Strike. Anything that is a real grievance, can be settled by both parties peacefully talking over matters and arbitrating. By Force, an immediate favorable looking result might be accomplished, but, the venom of defeat produced in the vanquished is bound to react unfavorably at some remote period. Let therefore those who hold power and authority act hereafter with greater wisdom than before, because, the very edifice of success they may now be erecting is liable to crumble onto the earth by its own unwieldy height and plunge them into unfathomable disaster. I wish the new Merger all success and may they seal unshatterable bonds of unity of thought among their other partners named above in the whirl of commerce and industry which built our America of today.

OUR STUDIO DIRECTORY

On the First Thursday of each Month, there is held a Membership Meeting, at 8 P. M., in each of our following Studios, for reporting the results and findings of Personal Experiences in the use of the Visible Spectrum of Light and Color:—

First Allentown Pennsylvania Studio—Hotel Americus, Fifth and Hamilton Streets, Allentown, Pennsylvania. Catherine Knebel, Chairman, 234 E. Hamilton St., Allentown, Pennsylvania. Pearl M. Diehl, Vice-Chairman, 642 N. West Street, Allentown, Pennsylvania. Nellie Etta Spaar, Reporter, Route 4, Box 93, Quakertown, Pennsylvania.

First Cleveland Ohio Studio—The Colonial Hotel, 523 Prospect Avenue, Cleveland, Ohio. Albert J. Martin, Chairman, Sleepy Hollow Lake Road, Brunswick, Ohio. Louis Friedl, Vice-Chairman, 14220 Birchwood Avenue, Cleveland 11, Ohio. Theresa J. Soree, Reporter, 9216 Orchard Avenue, Cleveland 9, Ohio.

First Detroit Michigan Studio—Knights of Columbus Hall, 4740 Woodward Avenue, Detroit 1, Michigan. Albert Greenham, Chairman, 30906 Robert Drive, Livonia, Michigan. George G. Weiland, Vice-Chairman, 19692 Hanna, Detroit 3, Michigan. Elfriede Kolmetz, Reporter, 6735 Meadow Avenue, Van Dyke, Michigan.

First Merrill Wisconsin Studio—New Badger Hotel, 310 West Main Street, Merrill, Wisconsin. Walter Briese, Chairman, 707 E. Third Street, Merrill, Wisconsin. Edward Katke, Vice-Chairman, Route 6, Merrill, Wisconsin. Dorothy Nelson, Reporter, 1814 West Main Street, Merrill, Wisconsin.

First Milwaukee Wisconsin Studio—The New Republican Hotel, Guild Hall, corner North Third and West Kilbourn, Milwaukee 3, Wisconsin. Kurt W. Bader, Chairman, 314 E. Burleigh Street, Milwaukee 12, Wisconsin. Fredrick Kneppreth, Vice-Chairman, 1813 South 75th Street, West Allis 14, Wisconsin. Florence Gutsch, Reporter, 3041 North 53rd Street, Milwaukee 10, Wisconsin.

First New York New York Studio—Hotel Diplomat, Governor Room, 108-110 West 43rd Street, New York 18, New York. Ralph W. Die-drichs, Chairman, 423 Jackson Avenue, Mineola, Long Island, New York. Hildegard Muehlfriedel, Vice-Chairman, 817 Lancaster Road, Ridgefield, New Jersey. Margarete B. Wolschendorf, Reporter, 19 Van Buren Avenue, Norwalk, Connecticut.

First St. Louis Missouri Studio—Albrechts Hall, 3549 Arsenal Street, St. Louis 18, Missouri. Clemens M. P. Neumann, Chairman, 4348 Virginia Avenue, St. Louis 11, Missouri. Walter Bloss, Vice-Chairman, 6408 Lansdowne, St. Louis 9, Missouri. Marie J. Parison, Reporter, 7525 Comfort Avenue, Maplewood 17, Missouri.

**OPEN DECLARATION FROM THE EDITOR
DINSHAH P. GHADIALI**

NO WARRANTY, NO GUARANTY, NO LIABILITY

Since in June 1922, I became the Editor of a similar monthly magazine, controlled by another Corporation (now dissolved), I had complete records of all Case Reports and personal matters in my files. Those were totally destroyed on Tuesday, January 2, 1945, by a disastrous Fire of unknown origin, which burnt my 30 room Main Office Building and Laboratory, causing a loss of over \$250,000.00, being without insurance.

A few months later, Law Suits were instituted in the United States District Courts, at the instigation of certain opponents of the new Science of the Visible Spectrum and because of our inability to produce the original documents as proof of various contested matters, verdicts were rendered against me and the controlling Corporation to the effect that our literature was false and misleading under the Federal Food, Drug and Cosmetic Act, as a result of which we received heavy Sentences and Penalties, I being dubbed a "quack" and a "faker." \$125,000.00 of printed literature was also destroyed by Court Order.

The American Medical Association and Licensed Medical Doctors and Surgeons strenuously maintain that the Visible Spectrum of Light and Color has no Therapeutic Effect and that it has absolutely NO HEALING or CURATIVE VALUE.

For that reason the VISIBLE SPECTRUM RESEARCH INSTITUTE openly warns the Reader, that the said INSTITUTE issues this Monthly copyrighted in accordance with the Constitution of the United States of America, Article 1, Section 8, Sub-Section 8, protected under Article 1 of the Bill of Rights; the Reader who uses the contents as basis for own investigation, experimentation and (or) research along the lines of the Visible Spectrum, to determine the Powers and Effects of Light and Color upon Living Organisms or otherwise, will do so on own absolute responsibility, taking and assuming ALL RISKS pertaining to such activities.

VISIBLE SPECTRUM RESEARCH INSTITUTE
