THAT'S A GOOD QUESTION

Under the above caption, Medical Doctor William Bolton, as the Editor of the said department in "today's health", a monthly publication of the American Medical Association, wrote in its March 1953 issue an answer to an inquiry about:—

"COLOR THERAPY"

Question — A friend tells me that a method called color therapy is now being developed by which various illnesses may be treated successfully. Do you have any information about this?

Answer — From time to time, theories are advanced that color may have value as a treatment adjunct in medicine, but we do not know of any evidence that a specific disease ever has been cured through the use of color alone. Various colors may have some value so far as mental attitudes of many patients are concerned, and this idea has been utilized in some hospitals. For example, walls and ceilings of hospital wards or rooms may be painted a light blue or green because such tints are believed to have a soothing effect. In general, colors probably should be considered for their secondary effect in helping a patient to overcome excitement or worry about an operation or illness."

This publication is an answer to the stated view, as in our service to our Members, their own convictions by their personal investigations, researches and experiments will give them the accurate view of the Truth behind the Visible Spectrum. Let the reader judge for self.

NOTICE TO ALL

We accept no gifts or gratuities, as to a Servant Of Mankind it is graft. Send us nothing.

You may send your Book for review or opinion; you may send your Writings or Experimental Findings and Reports for publication, provided they are not plagiarized or false and bear your hand signature in ink, with full name and address.

Anonymous communications will receive no attention. Submitted articles will not be returned.

All correspondence should be addressed to:— Visible Spectrum Research Institute, Malaga, New Jersey and not to any officer or individual.

For the views expressed in signed articles, the writers are responsible; for the opinions in articles bearing no identification, the Editor shoulders the sole responsibility.

THAT IS A GOOD ANSWER By:-INDIVIDUAL EXPERIMENTERS

CHRONIC CONSTIPATION, COLD, BRONCHITIS, ARTHRITIS REPORT BY H. R.

Color Projector has helped me and my family very much. In that short time I have the Color Projector, I am a different person already. For more than 10 years I have had Chronic Constipation and this has been normalatated. If there is a sign of Cold, I take 1 or 2 Tonations and I am normalatated. Every Winter, my husband has had Bronchitis very bad and has been in bed from 1 to 2 weeks at a time; also suffered from Arthritis very much. He had not missed one day of work this Winter. It is wonderful to have Color Projector in our home! (Signed and Affirmed before P. E., Notary Public.)

* * *

ASTHMA, APPENDICITIS, CARBUNCLES, BOILS, DYSENTERY, MENSTRUAL PERIOD, RUPTURED VARICOSE VEIN, ELECTRICAL SHOCK, HAZY EYES, DISCOLORED SKIN, SWOLLEN ABDOMEN REPORT BY N. A. W.

I had Asthma for thirteen years; was politely told by the Medical Doctors there was no cure for Asthma. I can say I am cured and my family of four children also is kept well with the Color Projector. The following are cases with the greatest success:— Appendicitis, Carbuncles, Boils, Dysentery, Menstrual Period, Ruptured Varicose Vein, Electrical Shock, Hazy Eyes, Discolored Skin, Swollen Abdomen. The Color Projector is the answer to all ills of suffering mankind. God bless it! (Signed and Affirmed before F. J. D., Notary Public).

* * *

SINUS DISORDER, CHRONIC STOMACH DISORDERS, PNEUMONIA, PLEURISY, REPORT BY T. J. M.

My personal experience with the Color Projector for attaining and maintaining Health, dates back to 1936. Since that date, my wife and children and myself have maintained perfect Health without any aid except that of the Color Projector. My family follows the teachings as given in the Text Books and find no need for any other aid, medical or otherwise. I personally normalatated a severe attack of Sinus Disorder on myself; also, Chronic Stomach Disorders have disappeared. In December 1943, the sole use of the Color Projector saved my life in a severe case of Pneumonia and Pleurisy, after medical advice stated I should die if I were not hospitalized and Sulfa Drugs used along with Oxygen Tent, etc. I will appear as witness at any Court proceeding. (Signed and Affirmed before V. J. S., Notary Public).

* * *

ARTHRITIS, KIDNEY AND BLADDER DISORDERS, BACKACHE, HEADACHE REPORT BY K. K.

About ten years ago, before I got acquainted with the Color Projector, I went to a Medical Doctor. He examined me and took a Blood Test. He diagnosed my case as Arthritis and he said there is no cure for it. He treated me with Medicine. I changed Doctors many times; I think I consulted at least ten Medical Doctors and finally was recommended to a Bone Specialist. X-Rays were taken and the X-Rays disclosed Arthritic Conditions. Bone Specialist wanted to operate and place a Silver Ball or Cup into my Left Hip Joint. However, I did not want to be operated. Then, I consulted an Osteopath and went to him for about two months, but, only received temporary relief. My Left Leg is about $\frac{1}{2}$ inch shorter than the other Leg. My Back and my Left Leg were always in Pains and I was obliged to use a cane for a support. I had many sleepless nights. I also suffered with Kidney and Bladder trouble. I also had many Headaches and used plenty Aspirin tablets for it. Before I used the Color Projector, I was many days confined to bed and could not walk. I indeed was in misery. Now, I commenced to use the Color Projector and I have all the pep to do my housework. I never was confined in bed since the Color Projector is in the home. My Backache left me completely and I have no more trouble with my Kidneys or my Bladder. My walking has improved eighty per cent. and I do not use my cane for the last three years. My Headache has never occurred again — in fact, I am feeling just fine. (Signed and Affirmed before C. M. P. N., Notary Public.)

OUR STUDIO ACTIVITIES EXPERIMENTER FINDINGS AND QUERIES

MEETINGS OF THURSDAY, MARCH 1, 1956

First Allentown Pennsylvania Studio

B. W. — My daughter had Infected Wisdom Teeth removed by Surgery. Used Green Local and Systemic, Magenta on 4, Turquoise Local.

M. B. — How many Green?

B. W. — Daily for 5 days; was very uncomfortable.

E. L. — Is it necessary to use Green for just an ordinary Extraction? My daughter had much discoloring. Used Turquoise Local.

M. B. — What does Turquoise do?

E. L. — Take out Inflammation and Swelling. My husband had imbalance in Area 19. Used Green Systemic and Turquoise for Pain.

B. W. — Do you think conditions can be inherited, such as Eyesight?

M. B. — The child is the Chemistry of both parents. Light changes the Chemistry of the Body.

B. W. — I had my daughter under the Institute's guidance for 4 months, then stopped. Doctor says she will wear glasses for ever.

M. B. — I think they reckon without God. Doctors gave me up. Light worked remarkably.

B. W. — I used Light on her since she was three. She then had a bad case of Worms. I also give her Light with her food. I gave her the same things before the Institute instructed me. I still give her it.

N. S. — I think you should have stayed under Dinshah's care, as it takes a while sometimes.

M. B. — I have had cases that took a year.

W. C. — Hold to Light and stay with Nutrition.

J. F. — I cut flesh off a Finger. Used Indigo and you can not see where it was cut out! Bottom Teeth do not fit right. Used Indigo, took Pain away.

M. B. — I had an emergency case. A young man's car was smashed. He was unconscious at the time. His parents took him home and called me. Used Magenta on 4 and took care of the Cuts and Bruises. Green, Turquoise, Orange Local were used.

G. R. — Length of time?

M. B. — One Tonation a day; also used one Purple to relieve intense Pain.

B. W. — Could you not use one in morning and one at night?

M. B. — I prefer to use slowly.

W. C. — The boy's parents favored Light?

M. B. — Oh, yes!

M. P. — My husband had bad Tooth; had it filled. Pain for two weeks after that; he could not eat for four days. Used Green because of the Infection; also used Turquoise. No Pain. Can eat well. We are strictly on the Rational Food Of Man, with our Visible Spectrum. My husband had Cold for four days. Used Green and Turquoise Systemic, Magenta on 4 and 18.

(M. B. then conducted the Educational Program by reading from Volume 3 of our Text Books Set, Chapter 109 on "Heart Disorders.")

G. R. — Is the Local Area 4 about 5 inches?

M. B. — Yes. I had the case of a girl who suffered Unconsciousness. I checked the Kardoscil and Spiroscil. After 5 minutes of Magenta, the Area 4 was racing like mad; then, became normal. The Body first picked up the Violet, then the Red.

A. D. — I want to report that my Green Slide in my Projector has a rough finish. I just received the Projector recently, and it was that way when I got it. I am wondering if that is all right.

N. S. — I shall put it in the report and the Institute will let you know about it.

The Report had two new Members, one of whom signed for both and even then signed the other name wrongly on the Attendance Sheet. Please, do not permit such procedure. Each Member should show the Membership Card for the current year and sign the Attendance Sheet **exactly** as marked on the Card. None is permitted to sign by proxy. B. W. is using some "Light" on the daughter's food also. What that is I do not know. She expects the Institute to perform a miracle in a Persistent case of many years and were sent only 3 Charts, none since September 1955! M. B. is right in advocating going slowly. Studios are **solely** for educational work; all complaints should be addressed direct to the Institute, with full particulars. The Slides are composed of Chemical Materials and are matched for their Oscillatory Frequencies in Color and NOT for their appearance or finish. The decomposition of the sand in the glass often shows as some roughness, but, that does not have effect on the Color Frequency. A. D. should send her Chart; personal interviews are not possible or requisite.

* * *

First Cleveland Ohio Studio

The Chairman and his wife being on vacation, the Vice-Chairman conducted the Meeting.

G. F. — I had a very bad, Sore Throat and Head Cold. Tonated with Turquoise. Felt better after the first Tonation and completely well after the fourth Tonation.

L. F. — I still tonate for a possible Prostate Disorder, using Scarlet on 11. Feel greatly improved.

F. B. — I tonate with the Colors and dress as suggested in Personal Research Information Chart by Dinshah.

(Reading of Chapters 1 and 2 from the Text Books Set was done for education.)

* * *

First Detroit Michigan Studio

The Chairman being absent, the Vice-Chairman requested the Past Chairman to conduct the Meeting.

C. R. — I am glad to see a nice crowd here tonight and I am especially glad to notice you brought your son along, R. G. That is what we like to see. We should all try and get our children interested and bring them to the Meetings. One thing Dinshah would appreciate is to bring the young ones, that they may become interested in his teachings and practise them.

In that way, a new and better generation may be built. There is not much that can be done with us old ones; we have lived with wrong ideas too long. Now, let us start with Case Reports.

J. J. — I had a Cold; tonated with Turquoise and was normalated in a short time. Turquoise always seems to be the Color for me when I have a Cold. I still have here 9 Steel Color Projectors that may be bought. It should not be hard for Members to sell them, knowing what Colors can do for sick people. I sold 8 Equipments last year. I have seen miracles happen through the use of the Color Projector. Before I got the Equipment, my wife was sick, my children were sick and I became sick worrying about them. My wife had a Tumor in one Ovary and was hemorrhaging every month. She was in a very bad condition; the Doctors gave her Shots and Medicines, but, that did not do her any good. After I bought the Equipment, she got relief. She tonated faithfully for 8 years; then, she got rid of the Tumor; it just passed out. I preserved it in a glass jar and brought it to the Meeting at that time. Another lady had a similar condition as my wife at about the same time my wife was sick. She stayed with the Doctors, kept on having Shots and Medicines. She died long ago, while my wife is well.

C. R. — You can not beat the natural method of healing. Healing with the Color Projector may appear a little slow, but, one must consider that many conditions took a long time to develop and it will naturally take a while to heal.

(Discussion followed on the Power of the Mind and of Suggestion.)

C. O. — I want to report that one of our Members A. S. died of a Stroke.

Member — Is there any hope in a case of Stroke? What Colors may be used?

C. R. — That all depends on the condition; no two people are alike. Strokes are caused by rupture of a Blood Vessel that produces Hemorrhage in the Brain. It may be even a small vessel, the size of a hair. It happens often with people having High Blood Pressure. I saw people having a Blood Pressure of 300. Just lately, I had the case of a 19 year old girl whose Blood Pressure was 225. High Blood Pressure is not a Disorder, but, is caused by a Disorder. It sometimes may be inherited. If you have High Blood Pressure, you should never become excited. Lemon would be the best Color to use in a Stroke. You need activation to move that Blood Clot. In Lemon you have $\frac{3}{4}$ Green as a Cleanser and $\frac{1}{4}$ Red for Activation. You may also have to use Orange for the Breathing and Yellow for the Nervous System, with of course Magenta. Before we can advise what Color is needed, we have to know all the facts of the condition. There is no place for guesswork in our Science.

M. B. — I am giving a report on my mother. She had a Skin Disorder. The Doctors called it Old Age Eczema. It was very itchy and she could not sleep. I persuaded her to take Tonations; she improved, but, did not get full

results right away, so, she went back to her Doctors and Pills. I have had the Visible Spectrum Projector for a long time and had tried for years to get her interested in this Science, but, she did not want to have anything to do with it. She liked her Coffee and Cakes too much! Finally, her Blood Pressure went upto 220 and she had a Stroke. She was in a very bad condition and wanted to die. Finally, I got her to take Tonations and within just one week she was up and around. Now, she is really sold on the Color Projector! The Itch is about completely gone too and she sleeps better, thanks to the Visible Spectrum Color Projector! She tonated with Yellow, Orange, Lemon Systemic, Magenta on Area 18 and Purple on Area 4.

C. R. — We have to activate with the Orange to bring the impurities out. I had a case of a woman once, who had a terrible Skin Disorder. There was not a clean spot on her whole Body. She said she had not had a Back Elimination for 3 weeks! Imagine that! I gave her advice and she rented an Equipment. Within a few weeks, her Skin was completely clean. She returned the rented Equipment, but, would not buy one. That is people for you! The Color does for them what no Doctor could do and they still go back to the Doctor.

J. G. — My son did some welding and got a Burn. He woke up during the night and wanted to know what he could do, because, it was very painful. I advised him to tonate with Blue, which he did. Within a short time, the Burning stopped.

Z. B. — I can give a report on my mother. She had a Pain in Area 18. Tonated with Magenta and the Pain disappeared. She is fine now.

L. O. — I have no report, but, everybody around me has been sick with a Virus, so, I have been taking Lemon every day as prevention.

J. B. — The baby is $8\frac{1}{2}$ months old now and weighs $12\frac{1}{2}$ pounds. I still tonate her with Lemon, Yellow and Magenta. We stayed on Yellow as Dinshah instructed and she really improved. The Teeth did not come through yet, but, since her Bowels regulated, she is a different girl. She is still on Raw Milk.

E. U. — I had a Cold; tonated with Orange, Lemon and Magenta and was normalated in a few days; am feeling fine now.

J. B. — I still take my Tonations to keep well.

H. S. — Dinshah advised me to take Green Systemic and Magenta on 18. I feel fine and am very happy about it. I surely am grateful to have the Visible Spectrum Projector. I take Tonations faithfully every day and follow instructions.

C. R. — Stick to your Light and follow the Rational Food Of Man and you are bound to become well.

R. S. — My husband had a severe Cold on Thursday; Friday it was worse. He had very high Fever. I tonated him with Turquoise and Magenta, because, his Breathing was low — 64 and 18.

C. R. — You should have given him Lemon Systemic and Scarlet on 4 and 18. The Breathing was O. K., but, his Kardoscil was low. Keep him on Lemon and Scarlet, because the Chemistry is unbalanced.

R. S. — I shall put him on Lemon; his condition is chronic now. When do you use Yellow?

C. R. — Yellow increases Backelim; it aids Digestion and is good for the Gall Bladder, because, it accelerates the flow of Bile, increases the functional activity of the Motor Nervous System and so on.

H. S. — What will Green do for you?

C. R. — I shall ask the Members. What will Green do for you?

Member 1 — It is a Cleanser.

Member 2 — It is the Head Polarity Wave.

Member 3 — It is Muscle and Tissue Builder.

Member 4 — It is the Pituitary Wave.

C. R. — You must know how to use the Visible Spectrum Color Projector and we are here to teach you how to use the right Colors. Dinshah gave you all the Attributes of each Color in his Visible Spectrum Instructor and the Text Books, so you may know what each Color will do for you. Study the Science. If something happens, you should know what Color to take; whether you need an Activating Color or Depressing Color. If the Breathing is low, you take Orange; if high, you take Indigo. Magenta is the Test Wave. If you use Magenta and it does not change your Ratio, then, you might as well call the Undertaker! The Heart is being more abused than any other Organ, so, you must never forget Magenta. Attend the Studio Meetings and study the Text Books. Make it a habit to study one Color each week and make yourself familiar with its Attributes.

R. G. — My son P. had the Flu; Ratio was 54 and 16. Elimination was fair. Tonated with Scarlet, Yellow and Orange and will now go to the Lemon. The Kardoscil is now 76.

C. R. — That is still low; 90 would be about right for him.

I. B. — I am tonating with Lemon and Magenta for nothing special; just to keep well.

L. F. — I am still tonating with Lemon for my Hand. It is still sore. Does anybody ever recover from Uremic Poisoning?

C. R. — Why, Certainly! He will not die if he is using the Color Projector. We can take care of it like any other poisoning.

R. G. — My wife had Uremic Poisoning and fully recovered, through tonating with the Color Projector. Colors used were Green and Magenta on 4 and 18, then Lemon.

C. R. — The Kidneys are Organs of Elimination and very important. Dinshah always stresses the importance of Eliminations and will in most cases, advise you to take Yellow for weeks. In a Chronic Disorder, we have to take care of the Eliminations first. In every case, you have to check Kardoscil and Spiroscil, Back and Front Eliminations. The Skin also is import-

ant as an Organ of Elimination. Use Coconut Oil to keep the Skin in proper condition.

I. G. — I have a baby now. It is in perfect Health. I use Yellow when there is no proper Bowel Movement. The Doctor talked about Vaccination, but, I objected. I am wondering whether it can be avoided once the child goes to school.

C. R. — Do not ever let them vaccinate.

W. K. — I am on the School Board and happen to know that they can not vaccinate a child without the permission of the parents. You write to them a note and tell them that you will give permission ONLY if they take the responsibility of any condition that might arise from the Vaccination. They will NOT take that responsibility and will leave you alone.

A. N. — Just recently, I could not go to sleep; tonated with Yellow and fell asleep.

C. O. — I gave a copy of the "Family Health Protector" to a neighbor, to have him interested in this kind of Healing. He has a girl 14 years old; a seemingly very healthy, active girl, but, she has trouble with Front Elimination, which is very frequent and she has to go to the toilet every few minutes.

E. R. — I hope you can talk the parents into doing something for the girl. I knew a very nice, young woman, beautiful and well educated, who had a similar condition. I stayed at the Y. W. C. A. where she also lived. There was a terrible smell about her, caused by this condition; nobody could stand it. Finally, she had to move out. It was a pity. I felt so sorry for the girl.

E. K. — My daughter had Intestinal Flu. I tonated her with Orange for 2 days, then, Indigo and Magenta. The third day, she felt fine. During that time, I did not give her anything to eat — just Butter Milk to drink. Other food seemed to nauseate her, but, Butter Milk was tolerated.

(The Reporter enclosed with the Report, which was not signed, a Money Order of \$6.00, to pay for 4 "Family Health Protector," for C. R. and a copy of "One Thousand Years Ahead," for C. O.)

While the Meeting was very ably conducted and finely reported, I am compelled to draw attention of the Studio Commissioners to certain discrepancies, not in a mood of blame, but, for better functioning of the Organization, in due accordance with our By-Laws. When the Studio Chairman was NOT present, it was the duty of the Vice-Chairman to conduct the Meeting. (By-Law 35). The Past Chairman has no status to conduct the

Meeting. If the Vice-Chairman felt himself unable to take the Chair, he should resign and a proper, capable person should be recommended to the Council Of Trustees for appointment. In our work, we have no "dummies" like political appointees. Another more serious matter is the \$6.00 sent through the Reporter. Under our By-Law 36, Section 4, Studios are NOT ALLOWED TO HANDLE OR RECEIVE ANY MONEY FOR ANY PURPOSE. This is necessary to avoid conflict at any time with any Corporate Law, affecting us as a Non-Profit Corporation. Let each Member mind his own business DIRECT through the Institute. In the past, from just such discrepancy, in your city, I had Law Suits, because, without authority, some Members collected money in my name. It involved me in tremendous trouble. Your Chairman A. G. knows about that, because, he was then present. J. J. was the Contracting Assembler of the prior Corporation and still has a few Steel Black Projectors available. The present Institute makes solely the Standard Blue Aluminum Projector. J. J. did good service in the past and I thank him for it. I feel that Tumor that "passed out," must have been in the Uterus and not in the Ovary. A. S. never sent a single Chart to the Institute in all those years, so I am not aware of the cause of the "Stroke." The explanations given by C. R. were appropriate and should be well taken into consideration. No Back Elimination for 3 weeks deserves investigation of the number of meals taken during the period. She should have her Areas 9 and 10 photographed for publication! In Welding, there are both Infra-Green and Ultra-Green Rays generated, so give such Burns proper thought. L. O. seems to believe in "Prevention is better than Cure!" However, daily Tonation is not necessary. The advice of W. K. about Vaccination was very appropriate. Vaccination and Immunization are two of the big curses of so-called civilization. I have been fighting against it all these years as a Life Member of The Anti-Vaccination League of London, England, since 1909. If E. R. can send me a complete Chart of that young woman, I shall be happy to state what the Disorder is and how to tackle the condition. There is NO CHARGE for such service. I wish the Studio all well; you are steadily progressing.

* * *

First Merrill Wisconsin Studio

E. M. — I like to know about Sinus Disorder.

(The general opinion was to use Lemon Systemic, with Turquoise if it does not weep too much, then back to Lemon, if other conditions be normal.)

L. K. — I had an Accident 14 years ago; Knee was injured. I got some results with Lemon.

W. B. — I advise you to fill complete Chart and send to Institute

E. K. — I had a Swollen Knee years ago. Received the best results from Lemon systemic and Indigo Local. I fell at work and had a severe cut over the Eye. Used Turquoise 4 times and Magenta on Area 4. It is still painful to the touch. The Eye was black and blue, but, looks good now.

G. V. H. — I use an occasional Lemon or Orange, just to keep in good condition.

W. J. — I do not want to complain, as I just received a Chart from the Institute.

(Chapter 113, on "Occult Operation Of The Vital Vehicle," was read by W. B., from the Third Volume of our Text Books Set.)

* * *

First Milwaukee Wisconsin Studio

An important question was discussed by Members present on the subject of Food. As it is all printed in our Instruction Books and our Text Books, under the Rational Food Of Man, further discussion in print would be of no advantage. Its shortest and totally incontrovertible aspects are all included in our "Family Health Protector," under Articles 42, 43, 44, 45, 46, 47, 48, 49, 50 and 51. The interest of your Studio in bringing the subject before the Members — new and old — is warmly appreciated. Let all STUDY carefully those Articles and shape their life. The National Humane Society is now conducting a campaign to end "cruelty to animals in Slaughter Houses." It is different from the Society For The Prevention Of Cruelty To Animals, whose aim is to prevent cruelty to animals that **live**. In a pamphlet entitled "What you don't know about hamburger and pork chops," the Humane Society reveals the brutal slaughter house method of killing hogs, lambs, calves and cattle. That Society wants to have them slaughtered in a "humane" manner! How? By dozing them with Carbon Dioxide or shooting them with a Short Steel Bolt or by an electric shock. Write to The National Humane Society, 733 Fifteenth Street, N. W., Washington 5, D. C. According to those views, if you shoot a **Mouse Doctor** with a Steel Bolt and eat him, that would be a "humane" method! You can not have committed Murder!! What next to soothe a marblehead conscience?!?! Reading about it even makes me filling with Emesis.

* * *

First New York New York Studio

R. D. — How is the sister of F. P.? The last I heard about her, she had a big, ugly-looking Bed Sore and she had no Backelim without taking strong Laxatives.

R. R. — She is not constipated any more. She has a bad Bed Sore.

H. M. — That is a big improvement, if she be not constipated any more.

O. D. — H. S. wanted to come to the Meeting, but she has no Card and no Time Table. She has the Projector.

R. D. — Let her write to the Institute.

O. D. — Her husband has Pain in the Back. The Chiropractor told him his Spine is crooked. What Light could he use?

M. W. — The Institute gave me Orange Systemic and Magenta on Area 4.

R. R. — When I sent my Chart in, I was told I filled it incorrectly.

R. D. — Your Introducer should help you, till you know how to do it.

S. P. — I was told that the "Master Of Occultism" is out of print; has anyone a copy for sale?

M. K. — I had Diarrhoea and Stomachache. Dinshah told me to use Yellow. I have greatly improved. I have a new Chart now; I am to use Yellow on 6, 7, 8 and Lemon Systemic.

R. D. — There was something wrong, which the Yellow had to clean out.

S. K. — My neighbor's 7 year old niece is paralyzed. She has a Blood Clot in the back of her Head. Would there be a possibility that the Light would help her?

R. D. — I am sure she would benefit from it. I know of a woman, who was classified as a Diabetic. They gave her 3 Insulin Shots; I went to her funeral.

C. K. — My husband had a Stroke. He was 4 weeks in the Hospital. He could not walk or talk. I took him home and gave him Tonations. He is all right again.

H. M. — My husband's cousin has Asthma very bad. His wife is a Nurse and she would not hear of the Equipment.

R. D. — Only if wife and husband work together, can you get perfect results.

P. Z. — Is there anyone present who had a case of Dropsy?

S. K. — My father had Water. I fed him grated cucumbers and boiled leek. The Water disappeared in 4 days. H. V. is walking now without a cane. He was in an automobile Accident and had a Broken Leg. He tonated on top of the Cast. They took off the Cast 7 weeks ahead of time. According to the Heart Specialists, he was supposed to be dead 11 years ago!

A. K. — I had a spoiled Stomach; I had Diarrhoea for 2 days. I tonated with Orange and Lemon.

S. P. — What shall we do when they put Fluorine in the drinking water?

H. M. — I buy Spring Water.

(R. D. read about the Attributes Of Lemon Attuned Color Wave, from Volume 3, of our Text Books Set.)

R. D. — What Dinshah wrote years ago, the Scientists are proving now!

P. Z. — What Light can one use for Dwarfism? I know a 12 year old boy, who looks like a child.

W. G. — It is possible he has his Karma to be fulfilled.

R. D. — Do not think that one just says that is his Karma and the Light will be helpless.

(R. D. read excerpts from Dr. Kate W. Baldwin's statements. She defended the work of Dinshah and therefore was made to resign from the Woman's Hospital, in Philadelphia, Pennsylvania, where she was the Senior Surgeon for 23 years.)

S. P. — Is there something on the market to detect the Human Aura?

H. M. — The first time L. F. showed me the Color Projector, I saw the Aura very plainly around my Head. I put my Hand in front of the White Light.

F. R. — I think that was the Refraction of the Light and not the Aura.

S. P. — It is through the Auric Vehicle that our Light works.

E. S. — We have to keep improving ourselves and the Aura will change. Have Good Thoughts.

R. D. — Did you read in the R. D., the article on "Why Do Doctors Smoke?" It is a very good article and tells of all the Poisons in Tobacco Smoke.

(Members left \$3.25 in quarters for the pamphlet "The Decline of the Medical Profession in Public Esteem. The Reporter enclosed her Check.)

The case of the sister of F. P. is very serious. If we had seen her Chart before, we NEVER have sent the Projector to F. P. She used to move 1 time in 7 days; now it is 1 or 2 times in a day. What she has is not merely a Bed Sore. She had Polyps removed, had Pneumonia, Peripheral Neuritis, Tonsillectomy, Ovarian Tumors removed. Since 1945, she has had Shaking Palsy and for 2 years past, has been in bed, unable to move Arms or Legs. Her Speech is impaired and has no control on Back and Front Eliminations. F. P. goes to work, leaving the Sufferer in the care of others who know not the technique in the use of the Projector. We wrote to her fully about the future. We admire her for devotion and love to the step-sister, but, she should not have taken it in her care. The alleged "Bed Sore" is reported to be 2 inches deep and 4 inches wide. It is evidently a case for Constructive Surgery and after that even — I do not wish to prognosticate the eventuality. F. P. is free to do what she decides. To H. S. we sent the "Time Table" and all else by Insured Book Post on January 9, 1956 and we have the receipt for that. We also sent her a 1956 Request Form without any reply from her. Please, tell all the Members that the Studios are for Education and complaints should be addressed DIRECT to the Institute. I still have no helpers here. R. R. did not fill the Chart "incorrectly"; it was "incomplete."

In the disastrous fire of 1945, over 700 copies of the "Master Of Occultism" burnt and as it is a volume of 800 pages, it will cost an enormous sum to reprint it, as there is no demand for it. S. K. should send a Chart of her neighbor's niece. P. Z. also should do the same. Karma is the Divine Law Of Retributive Justice, which was described by the Benign Lord Jesus as "As ye sow, so shall ye reap." It is fully discussed in my "Essentials Of Occultism" (25 Cents per copy). F. R. was right about the Human Aura. It can be noticed by projection on the screen, as I do in the Class work. I did not read that Smoke article. Send it. Under our By-Law 36, Section 4, Studios should refrain from handling any money for any purpose. All such transactions MUST be done by the Members DIRECT with the Institute.

* * *

First St. Louis Missouri Studio

The Reporter being late, the Chairman asked for a volunteer and B. Z. said she would try, but, not having done anything like that before, requested the Members to be patient until she could catch on.

C. N. — Any Case Reports?

B. Z. — I refer to the January Meeting, when we had discussion on the use of the Orange Color on Thyroid and C. N. suggested Indigo, so the next night I used Indigo, with bad results. I could not get my Breath all night. I could not wait until the morning, to use Orange to relieve this condition.

C. N. — Why did you wait till the morning? You could have taken Orange, just as soon as the next period came up, so as to get relief sooner. When one has used Ultra-Green with no results, use Infra-Green, as Turquoise turn to Lemon. If one were Bleeding and used Green, it would not stop the Bleeding, then use Indigo to stop it. Then, follow with Orange Systemic.

A. K. — If Green were used on both Ultra-Green and Infra-Green or used separately?

C. N. — Green is the dividing line. All Colors before the Green, are called Infra-Green and all Colors after the Green are called Ultra-Green. The Infra Colors are of the Lower Oscillatory Frequency and the Ultra Colors have the Higher Oscillation Frequency.

B. Z. — How about the Magenta?

C. N. — It is an Equalizer of Circulation, Emotion, Love and Sex.

K. S. — I have a Lump in my Throat and went on Fast. I could not drink any water in the morning and at noon, I ate a whole orange with the peel and all and felt much better. I could talk better. I still have that Lump; used Lemon Systemic.

C. N. — We all eat too much. A lemon a day is very good; when Brown Sugar is added with the lemon and water, it is called Limbupani. We get energy from the Brown Sugar.

C. L. — I shall tell you of my experience in California, about getting all the fresh fruits and vegetables organically grown. They are so different from what we get here; makes so much difference in the nourishment. I also had an Accident. Had 6 Broken Ribs. I went to E. N. for Tonation. The first day, she gave me Turquoise, the next day, Indigo to stop the Pain, then Orange the rest of the time. It gave wonderful results; did not develop any black or blue spots. All my friends advised me to see a Doctor, which I did. He could not figure out what I had done to get such complete recovery in such a short time without medical care!

W. W. — I shall tell you of my experience. I had a Broken Back and the Doctors put me in a Plaster Cast. I insisted on having the Cast cut from top to bottom without telling the Doctors why. It was so that I could slip the Cast off and take the Orange Color every day. The Doctors were amazed at the improvements in such a short time for Healing. The second time I was examined, the Doctors admitted I could go back to work immediately, being astonished at the fast recovery!

C. N. — When broken bones pierce through the flesh, it is necessary to have them set and one may have to go to a Medical Doctor.

Member — How do we know we have High Blood Pressure?

C. N. — Look in your mirror.

Member — I know someone who is very pale and of heavy build and still had High Blood Pressure.

C. N. — It depends on the Body functioning according to each individual's chemistry. I suggest Magenta on 4 and Purple on 18. High Blood Pressure indicates contracting of the Bore of the Blood Vessels, caused by wrong living.

B. Z. — I shall tell you of my experience in the use of the Color Projector. I had Hives for 7 years. I had been using Lemon Systemic, Red on 7, Orange on 3 and Orange Systemic. Then, I decided to have an Itisometer Test and to my surprise the Head region showed Turquoise and the Body showed the need of Blue. The whole Left Side was more active than the Right Side. I was advised to use Turquoise Systemic at night and Magenta in the morning, first on Area 4 alternating with Area 18, for 4 weeks. I had feeble Wrist Pulse; the Pulse had to be taken on the Throat. I am now sleeping much better and the Wrist Pulse is stronger. I think every person should have an Itisometer Test, before experimenting. It will save time and will give quicker results.

EDITORIAL

REMARKS

B. Z. made a good job anyhow for the first attempt. She did "catch on"! Gorging with food and that too of the wrong kind, is an American trait. Were all to live on the Rational Food Of Man, most of the Hospitals and Drives (for money) would have little to do. E. N. made a fine job in a very sensible manner with C. L. W. W. deserves credit for his good sense. It will not be long before more surprises and amazements will appear when we place in your hands the Portable Itisometer for home use with the Slideless Color Projector. It was all ready, when the 1945 Fire burnt all my models and the 1948 Court Order did the rest of the destruction. However, I have a firm belief in the Higher Powers Of Nature and am NEVER discouraged by any disaster. Time will tell the true story and as always, the better racer will win.

DINSHAH IMPARTIAL

(The Universe Through The Eyes Of Dinshah)

MARRIAGE OF LAWYERS AND DOCTORS!

In its issue of Thursday, April 19, 1956, the New Jersey Law Journal extended the following heart-warming news:— "About half of the state bar associations now maintain some form of direct and continuing liaison with state medical societies, for the purpose of considering mutual problems and coordinating their activities in the medico-legal field. This is shown in a recent survey by the American Medical Association.

"The survey covered two points: 1) whether joint committees had been established to review medical testimony and 2) what types of liaison now exist. In general, the states which have maintained continuing bar-medical association contacts have been progressive in creating committees to review testimony, to develop joint statements of principles to guide lawyers and doctors in problems arising out of personal injury litigation, cases involving autopsies, psychiatry and the like.

"Several noteworthy examples of lawyer-doctor cooperation were disclosed. Active liaison has existed in Minnesota since 1940. An inter-professional code was developed in Wisconsin. A similar statement of principles was adopted in Oregon in 1954 and also in Arizona. In Oklahoma, the state bar and medical associations cooperated in sponsoring medical-legal programs. Other states in which the survey showed state-level liaison included: Connecticut, District of Columbia, Florida, Idaho, Kansas, Kentucky, Maryland, Missouri, Montana, New Hampshire, New Jersey, New Mexico, Pennsylvania, Tennessee, Utah and Washington."

Without comment, I mailed a copy of The AFL Milwaukee Labor Press book to the learned editor of the New Jersey Law Journal. Let him judge for himself.

SLEDGE HAMMER JUSTICE

In 1952, William C. Gouled, a resident of Bethesda, Maryland, sent his wife to a hospital in Washington, D. C. for delivery of a baby. That baby, Patsy Ann, was born there, but, later was crippled for life from a medicine erroneously injected shortly after birth, into her body. The father brought suit against the hospital and the doctor and the case went before Federal Judge Luther W. Youngdahl. A mixup in instructions during a change of nurses was blamed for the serious error and a consent Judgment followed to the amount of \$115,000.00, the hospital assuming \$93,600.00 of it and the doctor and drug firm assuming the rest. No amount of money can compensate poor Patsy for her crippled condition.

* * *

REMOVING A CONSTANT COMPLAINT

There has been registered all along a complaint that the new Purchasers of Color Projectors, who have been living all life on slaughtered food and the like, totally discarded in our Science, do not know enough about our cookery, to make the change necessary for the restoration of the Health lost by such wrong habits. For that reason, to remove the constant grumble and discontent, the Institute now includes a copy of the Dinshah Cook Book, priced at \$2.00, without any charge, with the literature accompanying each Color Projector. Any Member thus equipped, will be expected to follow such ideal of living, otherwise, the privilege of receiving Personal Research Information will be withheld. That book has recipes for delicious meals and there should be no reason to hesitate in its use, because, "husband did not like it" or "mother-in-law did not relish it."

* * *

MORRIS BEALLE ABOUT SALK VACCINE FOR POLIO

Morris A. Bealle, the former Editor of the Plain Talk Magazine, is now publishing in Washington, D. C., a weekly, under the caption "American Capsule News." He is the author of several caustic, critical books like "Medical Mussolini," "The Drug Story" and so on and I have great regard for his ability and fearless, sledge-hammer tactics. In his issue Number 7 of "American Capsule News," he expresses in part, openly about the Salk Polio Vaccine thus:— "The ----- Service should be thoroughly 'renovated' by Congress this winter or abolished in its entirety. Its record in the Salk vaccine hoax, which is just coming out, is one of the most ghastly things in the history of big Government or big Medicine . . . The ----- is merely a respectable racket seeking \$47 million dollars from the gullible public this month . . . The stark facts are that ----- and ----- have been feeding press and public hokum by the bucketful on the Salk matter . . . April 12 was set as the S Vday . . . a maximum sales build-up was given. The five ----- controlled laboratories, which stood to profit \$20,000,000.00 in 1955, had already been told the same thing — long in

advance . . . Then ----- was brought into the picture to hoodwink the public the stuff wasn't as deadly as W. hinted it 'might be' . . . Capsule News wrote . . . that Salk Vaccine was worthless and deadly . . . the Milwaukee Journal was the only one to tell the bare, stark facts without trimmings. ----- said in the Journal June 19, 1955: 'A policy of secrecy and deception has been followed by the ----- and the ----- in the polio vaccine programs. As a result the nation's physicians were prevented from learning vital information about the trouble in making and testing Salk vaccine . . . The secrecy and deception started before field trials . . .'" There is much more material in the original. Get a copy of Capsule News, Number 7, from 1400 M Street, N. W., Washington 5, D. C. and judge for yourself the truth of what I wrote in the Visible Spectrum Researcher in June, 1955.

* * *

SMOKING ROOM FOR STUDENTS?

The Students in the greater Lawrence High School want authorities to provide a room where they may smoke during school hours, during leisure time. The Headmaster Augustine A. Lawlor opposed the proposal with the statement that it would be a nuisance. I say that not only would it be a nuisance, but, a positive detriment to the educational value of the school and will act as a poisonous deterrent to the absorption of knowledge by not keeping an active brain. Do the teachers smoke there? Do they set the proper example?

* * *

OUR THIRD ANNUAL CONVENTION

By the end of August 1956 or the beginning of September 1956 will be the time for our Third Annual Convention. I shall look forward to the suggestions from our Members, as to where they think it should be held this year, so as to have the best attendance. I assure you that your views will receive careful attention and your 3 cent stamp will produce good results.

* * *

FORETELLING THE FUTURE IN HEALING

Followers of the age-old, moth-eaten healing systems are blowing their horns about the future of their methods, as being the ones which will save the health of the people, because of the "researches" made by their so-called "scientists." They have been laughing at us 36 years, have taken slaps and kicks at myself **without** any investigation, never accepted my challenges for looking into the Truth behind my theories and all along have been holding us to ridicule and contempt by articles in newspapers, magazines and the like, calling me, "quack," "faker," "huckster," even "swindler" and so on without end. I have an armored back, accustomed to all such designations, because, by my mundane experience, I know what the eventual showdown will be in its effect. Consider other Inventions. They laughed

at the Electric Telegraph, Electric Light, Electric Telephone, Automobile, Airplane, Electronic Devices, Photography, Motion Pictures, Television, Radio, Talking Pictures and numerous other projects, but, today all these are accepted daily facts and their removal from civilized life would create an unfathomable chaos. To my worthy followers I extend my cordial thanks and heartfelt gratitude, for their confidence in the value of my Science of the Visible Spectrum and reassure them, that the future of the Healing Art of the World is centered without any exaggeration, in our Science, which has withstood all ridicule and public vituperation and whose Originator has been mercilessly reviled and persecuted, but, has yet withstood the test of time and age. Go ahead, my beloved friends! Increase our Membership and support the welfare of your Institute. The benefits will eventually redound to your Health and credit and the blessings of the future World will be immeasurably yours.

* * *

VALUE OF CLEAR UNDERSTANDING

Last February, in the Cook County Hospital in Chicago, Illinois, a 76 year old Chinese named Jim Go, was operated for Hernia. After his discharge, he returned with a complaint that he had much Pain and asked for some medicine to soothe it. Dr. Bruno Epstein, an intern of 25, examined him and refused his request. The man went away and returned with two butcher knives. The Doctor was in the surgical ward talking with other Doctors and Nurses. The patient Jim Go does not know much English, so, when Dr. Epstein said: "Let us put him on the table and examine him," Jim pulled out the knives and shouted: "You cot me, now I cot you" and before anybody could interfere, he killed the well-meaning intern, who in reality had taken no part in the Operation for Rupture.

WANTS ABOLITION OF INCOME TAX

The name of T. Coleman Andrews is well-known to the reading public as that of the former Commissioner Of Internal Revenue Service. In an article of five pages in the American Weekly, which has a circulation of over 10 million copies, in the issue of Sunday, April 22, 1956, he wrote the finest criticism I ever read about the Income Tax, under the caption: "Let's Get Rid Of The Income Tax." He openly declares that the Federal Income Tax is "Legalized Confiscation," is "Too Complicated," is "Unstable," "Costs Too Much," it is "Destroying The Middle Class," "Who Understands It?" and is a "30 Year Old Problem." Among other incontestible proofs, he shows how ridiculously inequitable the schedule of the Income Tax is. On income in a year, one pays 20 p. c. on \$2,000, 26 p. c. on \$4 to 6,000, 33½ p. c. on \$8 to 10,000, 50 p. c. on \$16 to 18,000, 66⅔ p. c. on \$32 to 38,000, 75 p. c. on \$50 to 60,000 and 91 per cent on \$200,000, of income. I strongly recommend a careful study of that article. Its revelation is breath-taking.

* * *

Horrors of Tobacco Smoking

1. For several years, the growing of Tobacco has been a big industry; what actual benefit was derived from it for the elevation of humanity is an enigma. The Encyclopaedia Britannica defines it thus: "**Tobacco, the name . . .** for the leaves of several species of Nicotine (natural order Solanaceae), variously prepared for use as a narcotic." As a "Narcotic" is defined as "any drug that produces stupor" and as "Stupor" is defined as "partial or nearly complete unconsciousness," the utter folly of using Tobacco in any form is glaringly apparent.

2. The United States Department Of Agriculture, through its Connecticut State Station Report Number 63, Office Experiment Stations, gives an analysis of the more important constituents of this pernicious weed as follows:

Constituent	Per Centage In Tobacco
Water	23.40
Ash	15.27
Nicotine	1.79
Nitric Acid	1.97
Ammonia	0.71
Other Nitrogenous Matters	13.31
Fibre	8.78
Starch	3.36
Nitrogen Free Extract	27.99
Ether Extract	3.42
Total	100.00

3. For any person with the least common sense, there should be nothing to attract in this horrid composition. Why then, do people use it for chewing or snuffing is utterly incomprehensible, except that the Medical Doctors and other similar Healing Practitioners, who as mentors of the public should have warned and trained it to eschew that weed as a rank Poison, use it themselves and like foxes without tails are anxious that others might lose them too, so as to hide their own shameful and disgraceful attitude.

4. The case becomes very much worse when the Smoking of Tobacco is considered in its ghastly chemical aspect. An analysis of Tobacco Smoke indicates an even more pernicious and poisonous composition, because of the destructive distillation-like process.

5. The appalling effect Tobacco has in undermining not only Physical, but, Emotional and Mental Vigor, may be very easily noticed by studying the Main 11 Poisons in Tobacco Smoke. Here is the Analysis:—

Poison Number	Poison Name	Physiological Attributes
1 —	Nicotine	Narcotic, Cardiac Depressent, Emetic, Anaphrodisiac.
2 —	Pyridine	Respiratory Sedative.
3 —	Furfural	Motor Depressant, Spasmodic, Convulsant.
4 —	Sulphuretted Hydrogen	Malodorous, Fetid.
5 —	Collidine	Toxic, Ptomainic, Cadaveric.
6 —	Picoline	Tarry, Acrid, Bitter.
7 —	Sulphurous Acid	Asphyxiant.
8 —	Sulphuric Acid	Caustic, Motor Depressant, Nervous Depressant.
9 —	Carbon Dioxide	Respiratory Inhibitor, Narcotic.
10 —	Carbon Monozide	Respiratory Paralyzer, Motor Depressant, Sensory Inhibitor.
11 —	Prussic Acid	Anesthetic, Cardiac Paralyzer, Medullary Inhibitor.

The meaning of the medical terms may serve to bring more clearly the terrible effects of the weed on the Human Being.

Term	Meaning
Narcotic	Anything that produces Unconsciousness.
Cardiac Depressant	Heart Depressor.
Emetic	Anything that produces Vomiting.
Anaphrodisiac	Anything that weakens Sexual Desire.
Respiratory Sedative	Anything that lowers Breathing.
Motor Depressant	Anything that lowers Muscle Power.
Spasmodic	Anything that produces sudden, violent, involuntary Muscular Contraction.
Convulsant	Anything that produces Cramps.
Fetid	Anything that has Disagreeable Smell.
Toxic	Anything that is Poisonous.
Ptomainic	Anything that is formed from Dead Matter.
Cadaveric	Anything that is formed from a Corpse.
Asphyxiant	Anything that produces Suffocation.
Caustic	Anything that destroys Live Tissue.
Respiratory Inhibitor	Anything that holds back Breathing.
Anesthetic	Drug that produces loss of Feeling.
Medullary Inhibitor	Anything that paralyzes the Marrow.

6. The list may be easily magnified. Can any Healer, Medical Doctor or otherwise, any guardian of Public Health justify the tolerance or continuance of this vile and abominable practice? What good is the malodorous smoke? The examination of the Lungs of a person, addicted to this foul habit, made after death, shows clearly the deposition and collection of tiny particles of Carbon, in the Perivascular Connective Tissue, choking during life the Breathing Capacity, blocking the Air Vessels and producing Dyspnea or Difficult Respiration. The diagram is from an actual case.

7. During the First World War, at the time I was Commander of the New York Police Reserve Air Service and trained scores of young men to fly, it was found that the marksmanship in Rifle Practice, in the case of Smokers, was around 14 per cent. lower. The Armed Forces of the different nations found similar detriment, but, they all plied the fighters with plenty of Tobacco, so that in the Narcotic Inhibition of their Higher Perceptions, they may plunge headlong recklessly to destruction.

8. Lord Birkenhead, the Lord Chancellor of Great Britain during the early part of this century, was told by his Physician to abandon Smoking or lose his Eyesight. The Oculist Dr. M. S. Mayou maintains that Cigars and Tobacco Pipes cause Blindness eventually, the trouble arising through the Blood. This is true of all Tobacco. The Radios bombast about this and that "Filter" business, but, the acrid, Creosote-like fumes of Tobacco are deleterious to the sensitive mechanisms of the Eyes and are positively irritating. Now, the female sex is copying the example set by the male. It is a disgrace to the man, but, a horrible curse to the woman, because, it deranges the Sexual Organs and by her pregnancy becomes a danger to the oncoming innocent baby.

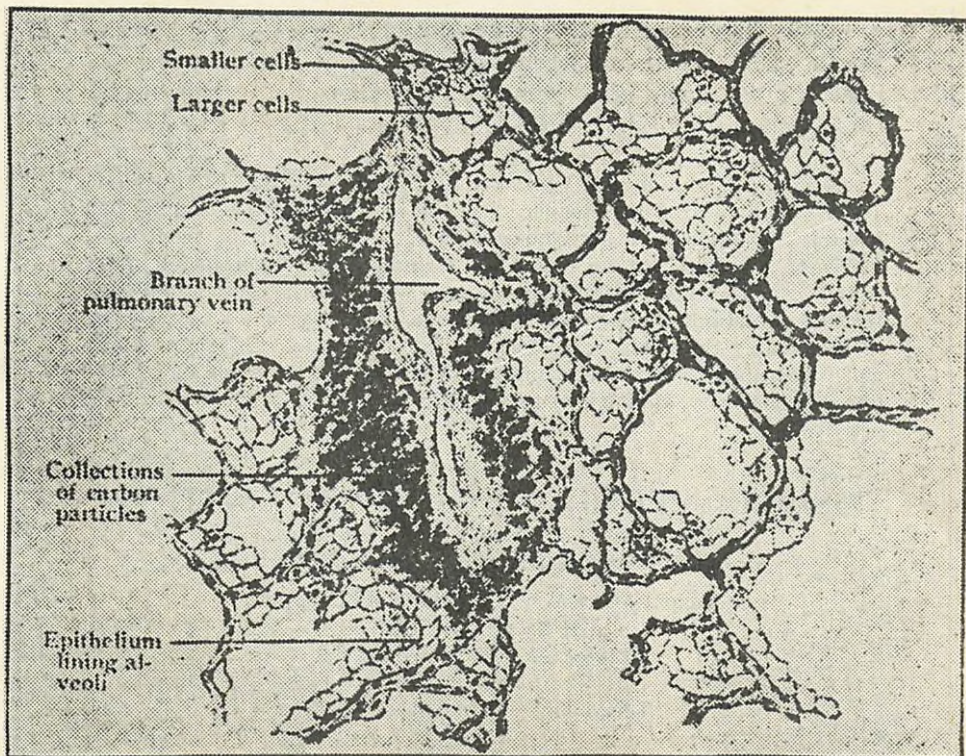

9. Had Benign Nature intended you to smoke like a Steam Locomotive, She would have fixed a chimney on your head! The destruction caused by Tobacco Smoking to the Organs of Generation is very subtle, but, certain. It renders the Semen of the male sterile and similarly deteriorates the Ovaries of the female. The Erective Power of the Smoker male weakens and the emission of the Semen is hastened. Impotency in numerous cases follows inveterate Smoking and it is the prime cause in numerous Divorces. The habit grows on the user like Opium or other Dope.

10. Were Tobacco injurious only to the user, there may be some justification under the principle of Individual Liberty, but, the fumes affect the lives of others who are Non-Smokers and abhor the stink. Believing therefore, that I am addressing civilized, educated persons, who have respect for their own good and welfare and also for the good and welfare of others by whom they are surrounded in daily life, I shall conclude by summarizing in short form the actual effects produced by this most vicious, abominable and ruinous habit:—

- (a) Smoking tinges the Fingers.
- (b) Smoking makes the Breath stink.
- (c) Smoking damages the Taste Buds in the Tongue.
- (d) Smoking dries the Mucous Membrane in the Mouth.
- (e) Smoking disfigures the Oral Expression by puckering of Lips.
- (f) Smoking encourages the development of Cancer of the Lips, Tongue, Lungs and contiguous parts.
- (g) Smoking damages the Throat and Vocal Cords, by the continuous Dry Heat, eventually ruining the Singing Voice.
- (h) Smoking carbonizes the Lungs, decreasing the Breathing capacity, giving rise to Pulmonary Disorders.

- (i) Smoking damages the Heart Valves.
- (j) Smoking adversely affects the Rhythm of the Cardiac Action.
- (k) Smoking adversely affects the Kidneys, through the Circulatory Process.
- (l) Smoking adversely affects the Stomach and correlated Digestive Processes.
- (m) Smoking, in a mother, during Pregnancy, adversely affects the entire Organism of the Embryo, producing liability to Birth Defects.
- (n) Smoking, in a father, adversely affects his Virility and Sexuality.
- (o) Smoking directly affects the Pituitary Gland, the Governor of the Bodily Functions.
- (p) Smoking is terrible Economic Waste; the Smoking Bill of the United States Of America runs into many Billion Dollars a year.

11. Therefore, I urge strenuously every man, woman and child, not to have anything to do with Tobacco and avoid contact with it in every form possible, to preserve purity of the Body and Mind as blessed by Nature, to lead a long and healthy, happy life! Amen!!!

CARBON COLLECTION IN SMOKER'S LUNG

**OPEN DECLARATION FROM THE EDITOR
DINSHAH P. GHADIALI**

NO WARRANTY, NO GUARANTY, NO LIABILITY

Since in June 1922, I became the Editor of a similar monthly magazine, controlled by another Corporation (now dissolved), I had complete records of all Case Reports and personal matters in my files. Those were totally destroyed on Tuesday, January 2, 1945, by a disastrous Fire of unknown origin, which burnt my 30 room Main Office Building and Laboratory, causing a loss of over \$250,000.00, being without insurance.

A few months later, Law Suits were instituted in the United States District Courts, at the instigation of certain opponents of the new Science of the Visible Spectrum and because of our inability to produce the original documents as proof of various contested matters, verdicts were rendered against me and the controlling Corporation to the effect that our literature was false and misleading under the Federal Food, Drug and Cosmetic Act, as a result of which we received heavy Sentences and Penalties, I being dubbed a "quack" and a "faker." \$125,000.00 of printed literature was also destroyed by Court Order.

The American Medical Association and Licensed Medical Doctors and Surgeons strenuously maintain that the Visible Spectrum of Light and Color has no Therapeutic Effect and that it has absolutely NO HEALING or CURATIVE VALUE.

For that reason the VISIBLE SPECTRUM RESEARCH INSTITUTE openly warns the Reader, that the said INSTITUTE issues this Monthly copyrighted in accordance with the Constitution of the United States of America, Article 1, Section 8, Sub-Section 8, protected under Article 1 of the Bill of Rights; the Reader who uses the contents as basis for own investigation, experimentation and (or) research along the lines of the Visible Spectrum, to determine the Powers and Effects of Light and Color upon Living Organisms or otherwise, will do so on own absolute responsibility, taking and assuming ALL RISKS pertaining to such activities.

VISIBLE SPECTRUM RESEARCH INSTITUTE

OUR STUDIO DIRECTORY

On the First Thursday of each Month, there is held a **Membership Meeting**, at 8 P. M., in each of our following Studios, for reporting the results and findings of Personal Experiences in the use of the Visible Spectrum of Light and Color:—

First Allentown Pennsylvania Studio—Hotel Americus, Fifth and Hamilton Streets, Allentown, Pennsylvania. Catherine Knebel, Chairman, 234 E. Hamilton St., Allentown, Pennsylvania. Pearl M. Diehl, Vice-Chairman, 642 N. West Street, Allentown, Pennsylvania. Nellie Etta Spaar, Reporter, Route 4, Box 93, Quakertown, Pennsylvania.

First Cleveland Ohio Studio—The Colonial Hotel, 523 Prospect Avenue, Cleveland, Ohio. Albert J. Martin, Chairman, Sleepy Hollow Lake Road, Brunswick, Ohio. Louis Friedl, Vice-Chairman, 14220 Birchwood Avenue, Cleveland 11, Ohio. Theresa J. Soree, Reporter, 9216 Orchard Avenue, Cleveland 9, Ohio.

First Detroit Michigan Studio—Knights of Columbus Hall, 4740 Woodward Avenue, Detroit 1, Michigan. Albert Greenham, Chairman, 30906 Robert Drive, Livonia, Michigan. George G. Weiland, Vice-Chairman, 19692 Hanna, Detroit 3, Michigan. Elfriede Kolmetz, Reporter, 6735 Meadow Avenue, Van Dyke, Michigan.

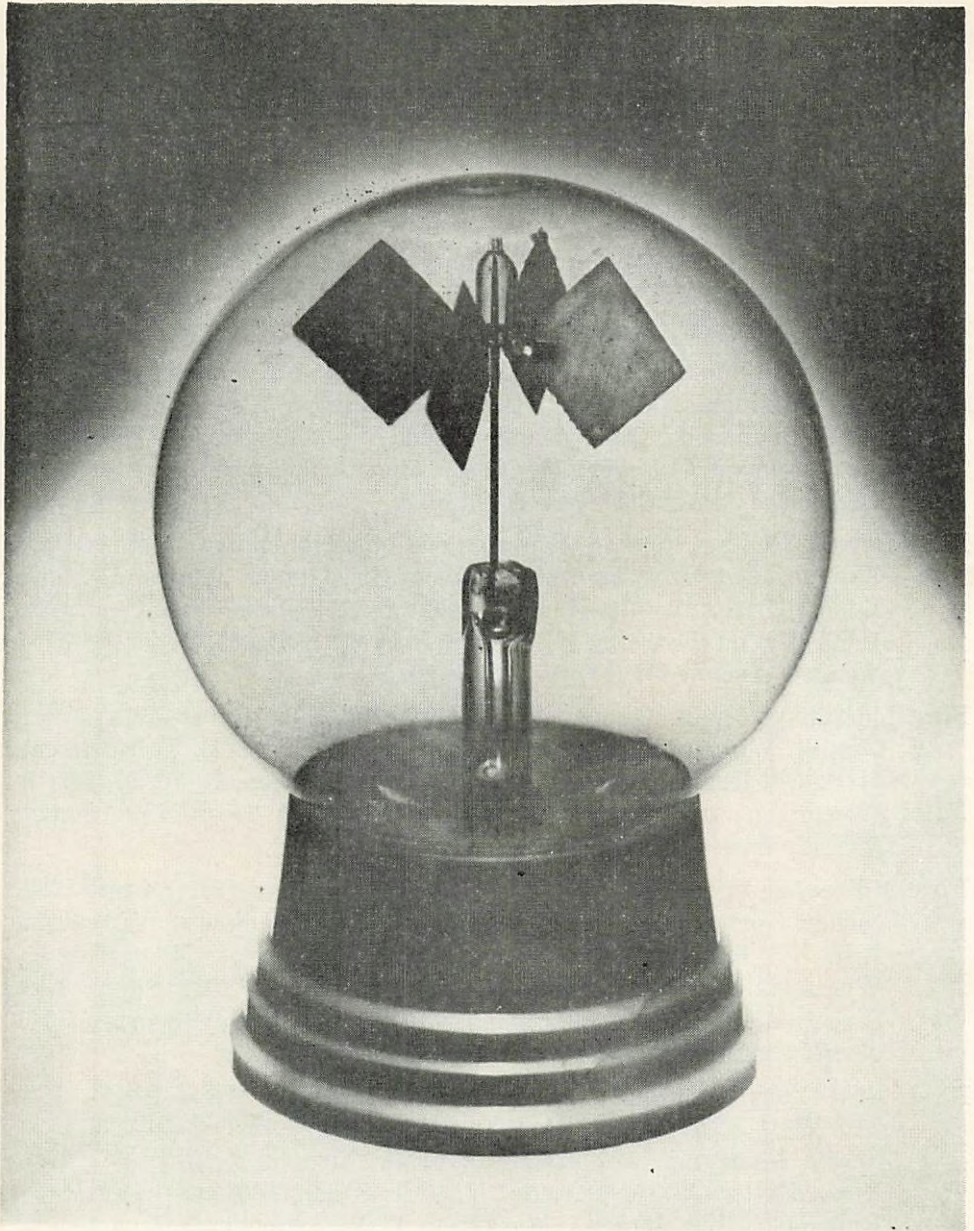

First Merrill Wisconsin Studio—New Badger Hotel, 310 West Main Street, Merrill, Wisconsin. Walter Briese, Chairman, 707 E. Third Street, Merrill, Wisconsin. Edward Katke, Vice-Chairman, Route 6, Merrill, Wisconsin. Dorothy Nelson, Reporter, 1814 West Main Street, Merrill, Wisconsin.

First Milwaukee Wisconsin Studio—The New Republican Hotel, Guild Hall, corner North Third and West Kilbourn, Milwaukee 3, Wisconsin. Kurt W. Bader, Chairman, 314 E. Burleigh Street, Milwaukee 12, Wisconsin. Fredrick Kneppreth, Vice-Chairman, 1813 South 75th Street, West Allis 14, Wisconsin. Florence Gutsch, Reporter, 3041 North 53rd Street, Milwaukee 10, Wisconsin.

First New York New York Studio—Hotel Diplomat, Blue Room, 108-110 West 43rd Street, New York 18, New York. Ralph W. Die-drichs, Chairman, 423 Jackson Avenue, Mineola, Long Island, New York. Hildegard Muehlfriedel, Vice-Chairman, 817 Lancaster Road, Ridgefield, New Jersey. Margarete B. Wolschendorf, Reporter, 19 Van Buren Avenue, Norwalk, Connecticut.

First St. Louis Missouri Studio—Albrechts Hall, 3549 Arsenal Street, St. Louis 18, Missouri. Clemens M. P. Neumann, Chairman, 4348 Virginia Avenue, St. Louis 11, Missouri. Walter Bloss, Vice-Chairman, 6408 Lansdowne, St. Louis 9, Missouri. Marie J. Parison, Reporter, 7525 Comfort Avenue, Maplewood 17, Missouri.

LIGHT PROVING POWER AND ENERGY

To prove the Power Of Light As Energy, Dinshah once put before a Judge and Jury a Radiometer, whirling by Light. The Prosecutor argued it had a Motor inside. Dinshah agreed, saying "There IS a Motor, but, that is in HIS head and that is short-circuited!!!"

RADIOMETER

For Sale By:— VISIBLE SPECTRUM RESEARCH INSTITUTE
PRICE ONLY \$2.00.
