THAT'S A GOOD QUESTION

Under the above caption, Medical Doctor William Bolton, as the Editor of the said department in "today's health", a monthly publication of the American Medical Association, wrote in its March 1953 issue an answer to an inquiry about:—

"COLOR THERAPY

Question — A friend tells me that a method called color therapy is now being developed by which various illnesses may be treated successfully. Do you have any information about this?

Answer — From time to time, theories are advanced that color may have value as a treatment adjunct in medicine, but we do not know of any evidence that a specific disease ever has been cured through the use of color alone. Various colors may have some value so far as mental attitudes of many patients are concerned, and this idea has been utilized in some hospitals. For example, walls and ceilings of hospital wards or rooms may be painted a light blue or green because such tints are believed to have a soothing effect. In general, colors probably should be considered for their secondary effect in helping a patient to overcome excitement or worry about an operation or illness."

This publication is an answer to the stated view, as in our service to our Members, their own convictions by their personal investigations, researches and experiments will give them the accurate view of the Truth behind the Visible Spectrum. Let the reader judge for self.

VISIBLE SPECTRUM RESEARCHER

A Monthly Magazine
Devoted To The Service Of Mankind.

TONATION TO TRAINED DOG REPORT BY E. B.

I give my lovely dog Tonations and all I have to say is: "Want a treatment, Fluffy?" And she comes running; it must be doing her good!

* * *

HEEL INJURY, CHILD DISORDER REPORT BY A. J.

My husband R. had Heel injury. The puncture from the rusty barn fork, the Discoloration, Pain and Swelling responded quickly to the Colors advised by the Institute by telephone. He had sure results and within a week, there was only a small Scab left to show where he was injured. Although his Ankle was very painful and stiff the first several days, he had to work and be on his feet every day. It is amazing what the Visible Spectrum can do. Also about my baby daughter J. I tonated her regularly. Her general health has improved greatly and has only an infrequent day or two here and there of sickness. She shows strong resistance to the more serious sicknesses, which are prevalent among the school children. In fact, at the present time, the school is closed because of poor attendance due to a Virus sickness, but, J. is well and happy and we owe it all to Dinshah and the Visible Spectrum. Thank you a million times.

* * *

STOMACH ULCERS, GALL STONES, VOMITING, PAIN, HIGH BLOOD PRESSURE, LOW BLOOD PRESSURE REPORT BY I. M. D.

My Color Equipment has been most valuable to me and my family. I had been quite ill with Stomach Ulcers or Gall Stones or both as the Doctor told me and after a week Tonations by the Color, the Vomiting ceased completely and after several weeks, all Pains and distressing condition disappeared. My mother's Blood Pressure which had been very high, became normal after a few Tonations by the Projector. My father's Blood Pressure was low and a few Tonations with the Color normalized it and since then, he had no return of that condition. I can not praise the Color Projector high enough and would not want to be without one in our home. I only wish more people would be acquainted with that wonderful Equipment, to spare the needless Pains, Sufferings and Expenses. (Signed and Affirmed before C. M. P. N., Notary Public.)

* * *

INFLUENZA, CONSTIPATION, NEURITIS, MUCOUS COLITIS REPORT BY A. G.

I, of my own free will and accord do hereby offer this testimony with regard to the merits of the Color Projector. Since the year 1929, my family

and myself have been constant users of this great Science of Color. We have used it continuously, at different periods, as the occasion arose, to normalate deficiencies which occurred in our Physical Bodies. We have been subject to many of the Disorders such as: Influenza, Constipation, Neuritis, Mucous Colitis. These are common Disorders which are easily detected, especially when one has studied Anatomy and Physiology, for one's self-education. We have had no Medical Doctor cross the threshold of our home or have we had any form of Medication, since we became acquainted with the Visible Spectrum. I found the Science to be dependable and the Scientific Originator genuine. The advice given from the Institute has been immeasurably helpful and the service is so cheerfully given by mail or by telephone, regardless of the time, day or night. I do hereby personally declare, that this Science will remain for ever with us, as it should, because, it has definite merit. I cheerfully offer this deposition in defense of the Science and sincerely hope it will be accepted in the same spirit of fair play as it is given. (Signed and Sworn before F. J. Mc., Notary Public.)

* * *

WAR PLANT WORKER'S REPORT BY P. J. S.

I have been using the Visible Spectrum Color Projector for about 10 years. I found it indispensable, especially through the period of war production. I am working in a War Plant and I have not been absent from my work a single day. The continual maintenance and enjoyment of good health, I do ascribe to my faithful use of the Equipment. The results derived from the use of the Equipment, in my case, are far exceeding the benefits as are claimed for it by the Institute. (Signed and Affirmed before C. J., Notary Public.)

* * *

HOSPITAL HUMBUGS IN CHILDBIRTH REPORT BY M. J.

I was married in February 1953 and had always a great love for family life. I had the good fortune to have a husband who was of a similar mind and who was a Member of the Institute, with one of the Color Projectors in his own name. After my wedding, when I saw the Color Projector and hubby explained it to me, I roared with laughter when he talked about the "wonders" that Equipment performs and also tried to explain to me the value of the Rational Food Of Man. It was all new to me, but, I was ever anxious to learn, so, very soon I too became an Experimenter and began to see the value of the Science. Then came the time to test it — in June 1953, when I began to feel some sensations of an unusual character and occasionally become nauseated at the mere sight or even smell of food.

Naturally, I consulted a Medical Doctor. He told me I had two Cysts on my Right Ovary and wanted to operate, but, as I refused it, he told me to come back next month, assuring me that I was not in the family way.

The following month, July 1953, I went back to the same Doctor for another checkup and to my surprise he stated that the Cysts had dis-

appeared and that I was really pregnant! He gave me the usual Iron, Calcium and Vitamin Pills, the first to be taken twice, the second once and the last three times a day to keep the growing baby from depleting the Blood of the mother! My husband advised me to junk the concoctions, which I did, starting the use of the Color Projector.

Around August 1953, I started to bleed from Area 11 and was rushed to the Hospital for examination. The Doctor told us to go home and promptly have me put to bed, as there was a likelihood of Miscarriage. Again, I irradiated Areas 10 and 11 with the Indigo and the Bleeding stopped after the Tonation, never to return.

About this time, for business reasons, we moved to another city, and consulted a new Doctor, who appeared interested in my case, when I informed him I was a strict vegetarian.

On November 12, 1953, the Hospital authorities made me sign a document purporting to be a complete Release, for "Authorization For Administration Of Anesthesia And Performance Of Operation And Other Procedures." Here is that "Death Warrant" of mine:—

1. I hereby consent to the performance upon myself of Delivery And Anesthesia.

2. I further consent to the administration of such anesthesia as may be considered necessary or desirable in the judgment of the medical staff of the above-named medical facility.

3. I further consent to the performance of such additional operations or procedures as are considered necessary or desirable in the judgment of the medical staff of the above-named medical facility.

4. I also consent to the disposal by authorities of the above-named medical facility of any tissues or parts which it may be necessary to remove."

On February 11, 1954, around 1 P. M., I began to feel some unusual Cramps in my Back and was taken to the Hospital, where after medical examination, I was entered into the Maternity Ward. There, they prepared me for the Delivery by giving me an Enema. Nothing came out with the water, because, the Yellow on Areas 6, 7, 8, 9 and 10, irradiated before going there had performed its usual duty! They administered numerous Pills and Shots to control the Pains. Finally, after the break of the uterine membrane, I was rushed into the Delivery Room, where I was given a Saddle Block Anesthesia and the Doctor deemed it necessary to perform Episiotomy (Surgical Incision of the Vulvar Orifice — Area 11 — for obstetrical purposes). The Baby was pulled out with the aid of Forceps and more Drugs were administered unto me, including Codeine, Penicillin and the like. On the fifth day, I was sent home.

OUR STUDIO ACTIVITIES

EXPERIMENTER FINDINGS AND QUERIES

MEETINGS OF THURSDAY, APRIL 5, 1956

First Allentown Pennsylvania Studio

A letter from the Institute about each Member being required to sign own name of the Attendance Sheet, was read by the Reporter.

C. K. — I burnt my Fingers. Used Blue Local and Coconut Oil.

N. S. — My son had some dental work done; also had a Tooth extracted. Used Purple Local on Area 1 before he left; Green afterwards.

B. W. — My husband had Pain in Area 14. Ratio was 4 to 1 and 5 to 1. Used Orange Systemic and Orange Local; also Lemon Systemic, Indigo for the Pain and Magenta on 4 and 18.

C. K. — When I had trouble with my Knees, I used Orange; I could hardly stand the Pain, but, it came all right.

M. B. — Reactions to the Rays are not always pleasant. You must have plenty of information on a case, to work on it. You can not take somebody's word that if something helped them, it will help you also. Everyone's Chemistry is different. Each person remains an individual.

An educational program was conducted by M. B. about the Turquoise Wave and its Attributes.

Even though your attendance is not large, your educational performance is warmly appreciated.

* * *

First Cleveland Ohio Studio

A new Member J. D. was introduced as being an old timer. He had Hardening of the Arteries and was using wrong Colors, by making wrong combinations. He had guidance. Chapter 2 was studied from Volume 1 of our Text Books. Some discussion followed, which added to make the Meeting interesting. Many good remarks were made for the value of the Color Projector.

First Detroit Michigan Studio

A letter from the Institute, about adhering to certain By-Laws was read by the Reporter.

A. G. — Strict adherence to our By-Laws is imperative. It is for the protection of the Organization. If Dinshah had not been strict, the Organization would not be alive today.

An article from a current newspaper was read, entitled: "X-Rays are blamed for rise in Leukemia."

A. G. — I have with me a copy of the Certificate Of Incorporation of the Visible Spectrum Research Institute. I like to read to you the Purposes of this Organization. (It was read by him.)

A. G. — It is of advantage to all Members to know for what this Organization stands.

Members — What is a Critical Period?

A. G. — That is the result of the New Moon and the Full Moon. You are familiar with the effect the Moon has on the waters of the oceans. In some parts, the water is raised as much as 30 feet. Since a large per centage of our Body consists of Water, you can imagine that the motion of the Moon will also have an effect on our Body. (He then explained at length from what is taught in our Text Books in regard to such effects of gravitation.) We started to study from the First Volume of our Text Books. I omitted several Chapters from it and today shall read from Chapter 31, "Impress And Express." (He then read from that several Chapters.) With what we should interest ourselves is to note the relationship of Edwin D. Babbitt and other systems of Color. All those are hit or miss affairs, whereas Dinshah's system is a Science. It is a system of mathematical precision. When it comes to matching of the Color Slides, they have to be accurate in the right degree or else they would not be chemically correct. That is why Dinshah has to ask for the return of the entire Set with the broken Slide. Some Members think and complain that Dinshah is much too strict. He HAS to be strict for your own good and to protect the System. Dinshah gives his life serving suffering humanity. You should visit the Visible Spectrum Research Institute and see how simply this great Scientist lives. He allows himself only the bare necessities of living. Next month, I wish to conclude the First Volume; I want to show to you the difference between this Science and the other systems. Now, we should like to hear some Case Reports. We have here with us today two new Members P. H. S. and P. S. We welcome them. There is a store of knowledge for them and if they will attend the Meetings, we shall do all we can to help them with their problems.

P. S. — I like to know what to do about an Abscessed Tooth?

A. G. — Use Yellow and Orange Tonations to bring it to a Head; after it breaks, tonate with Green, Turquoise and Lemon.

P. H. S. — I got my Equipment last October and followed instructions from the Institute, but, since December 21, I did not receive any, even though I sent several Charts.

A. G. — Did you send your Continuation Request for this year?

P. H. S. — No; I did not know that. I shall send it right away.

G. N. — I had an Abscessed Tooth and called A. G. for advice. Tonated with Yellow and Orange; that broke the Abscess. After that, tonated with Green, Turquoise and Lemon. It is all healed now. I also have a report about my mother. She had a Nose Bleed that could not be stopped. She was taken to the Hospital, where she stayed two days. The Doctors packed the Nose, but, could not stop the Bleeding. We took her home and tonated her with Indigo, which stopped the Bleeding. Later, we tonated her with Green and Magenta. The Visible Spectrum Projector did what Doctors could not do for her!

A. H. — I have Hardening of the Arteries; I should like to have advice on what Colors to take.

A. G. — That is a very chronic condition and we have to know more about it to give advice. You will need plenty of Lemon and Magenta and it will take time. There is a deterioration of the Chemical Elements, but, any condition is subject to normalation of the Chemistry of the Physical Body.

M. G. — I had a Pain in the back of my Neck, which affected my Eyes. Scarlet on 18 took the Pain away. Just lately, I had a Running Nose. One Tonation of Green cleared it. For two weeks, I had a Pain in my Legs; tonated with Lemon; that took the Pain away.

V. W. — My husband has not been well lately. He complains of Dizziness in the Head and shortness of Breath. I gave him Indigo. The Ratio is 64 to 18.

A. G. — Indigo is not the Color for a condition like that. How are his Front and Back Eliminations? He needs Scarlet on 4 and 18, alternated. Scarlet produces Adrenalin, especially when irradiated on Area 18. He should be careful in eating.

E. B. — I am still taking Tonations to keep well.

C. K. — I am under instructions from the Institute, but, am afraid to talk about the condition.

A. G. — You should never be afraid, for there is nothing to fear. Have faith in your Creator and on the Healing Power of His Visible Spectrum; the Colors will do the rest. Your state of mind is very important. Put yourself in a cheerful and hopeful mood and your recovery will be much quicker. Have faith as David in the 23rd Psalm: "Yes, though I walk through the valley of the shadow of death, I will fear no evil: for thou art with me; thy rod and thy staff they comfort me." Of what are you afraid anyway? You can only die and your Soul will just move in another Plane, where there is no Pain; you do not have to pay any taxes there!

L. O. — I had a very serious condition; had X-Rays taken, which showed a Tumor developing in my Ear. The Doctors wanted me to go to the Hospital for an Operation. I called A. G. for advice. Tonated with Turquoise, Green, Lemon and Indigo. The Tumor disappeared completely, thanks to the Visible Spectrum Projector.

C. G. — I had a vicious Cold; tonated with Green and Lemon which normalated it.

H. N. — Which Color would be best to aid Digestion?

A. G. — Take Yellow or Orange right after your meal. It will aid Digestion. In this instance, you will not have to wait until Tonation Time, but, tonate immediately after eating.

S. S. — I went out of town to visit my sister. While there, I washed my Hair one day and when bending down I could not get up; felt very dizzy. They took me to a Doctor, who examined my Blood Pressure. It was 210! He wanted to give me a Shot, but, I refused. All I wanted was to go home and have my Light take care of me. I wrote to Dinshah and he advised me. I tonated with Lemon and Purple. It brought my Blood Pressure down to normal. It is now 129! I ordered a Portable Color Projector, so from now on, when I go visiting, I can take my Projector with me. I received it a few days ago from the Institute, but, can not understand why the express charges are so high — \$7.00, because, the Equipment is small and light in weight? I can carry it with one hand.

EDITORIAL

REMARKS

A very good and ideal report. The Charter is printed in our Constitution And By-Laws, issued to every Member. Not only the Moon, but, the Sun affects the Tides, hence, the Liquids and Fluids in the Body and that is the basis of the Respiratory Rhythm Guide. Each year, it takes about 2 weeks to make that Astronomical Time Table. Follow it for proper technique and results. Your educational work is praiseworthy. Many Members made the same mistake as P. H. S., although the 1956 Request form was mailed to all. It is always better to ask an inquirer whether the Rational Food Of Man is followed, because, even many old timers I found sliding back to old habits, once health is restored. Dizziness always is Circulatory Disorder and Shortness of the Breath is want of compensation between the Heart and the Lungs, Areas 4, 5 and 17. After any meal no Tonation is advisable, because, if during the process of Digestion, there be any impediment, Emesis is liable to result; it is better not to risk any potential upset by letting past an interval of at least 90 minutes. The Institute has only a few Portable Projectors available from its Principle Office. The reason why the transportation charges appear somewhat "high" is because, insurance on the value is added and the charges are regulated by the Interstate Commerce Statutes, in transfers of shipments from one company to another. Thank you cordially, A. G., for your gracious expressions; I do my duty as outlined, to fructify my incarnation.

First Merrill Wisconsin Studio

W. B. read from our magazine remarks about the Detroit Studio Meeting, page 287. Said he: "I believe the people who send their Personal Research Information Charts and follow them faithfully, are the ones who get the results." He then read the remarks from our magazine about the New York Studio Meeting, page 294.

Member — I was always under the impression more or less that Pleurisy was a chronic condition.

(Discussion began on the use of Figs for Constipation; three or four eaten in the morning will relieve that condition.)

W. B. — I suggest to I. K. that she purchase some Figs and eat them, in addition to using the Yellow Color.

Members — We wonder whether the canned or bottled Figs were preserved with White Sugar. We shall appreciate the views of Dinshah on this.

E. K. — Perhaps the Sugar was not refined down to the stage where it is White Sugar.

(The answer to question about Leukemia was read from our magazine, page 289.)

Member — I like to have an answer to using the Color for Bone Cancer.

W. B. — I fell down about a week ago and struck my head on the concrete, I had a big Bump on it, but, I used Orange on it immediately and it seems like that held it down and the next day I used another Orange, then Magenta on Area 4 and Green Systemic. I can not feel any sensitive spot now and feel it is pretty good. My wife fell down on the way to church; she landed on her Arm. Made her take an Orange and then perhaps took one or two more after the first one. She said: "I feel quite lucky, because, some other woman who fell, had to go to the Hospital for treatment!"

E. K. — I fell on the ice two or three weeks ago; have been using Turquoise for it. I think I may have chipped a Bone.

D. N. — My mother burned her entire Palm on the Hand on the Electric Stove. She used the Blue and several Turquoise. She put Coconut Oil on the Palm before irradiating the Color. The entire Hand blistered, but, much to the amazement of the neighbor, who insisted she should go to the Doctor, her Hand is wonderfully healed.

G. V. H. — When my back pothers, I use Orange on that and Magenta on Area 4.

(Several women spoke of Numbness in the Hands and Arms.)

Member — Will Indigo shrink a Fatty Tumor?

(W. B. read on Cancer, from Chapter 91, in the Third Volume of our Text Books Set. A Member has tiny growths on her Neck, like small Warts. Can they be made to disappear? What is the cause? Is it Dryness of the Skin?)

It is a good idea to study the Editorial Remarks made about the queries of other Studios. It brings in all around knowledge. Of course, those who follow our views get the benefit, but, I regret to state that many oldsters refuse the change of habits and prefer to continue to suffer. I do admit that the Sugar for the Syrup in Figs may be White, but, that is the whole trouble in this Country. Our views are so different from their views. Some day, the Institute will have its own farms, farmers and will supply 100 p. c. needs of our Members. Whether Cancer is in the Bone or the Flesh, in our Science the way to tonate is the same as for any Malignant Tumor. What W. B. read about it, gives the procedure. About the growths in the Neck, tonate them as for any Skin Disorder, if there be Circulation in the affected Area. For detailed information complete Chart is necessary.

* * *

First Milwaukee Wisconsin Studio

K. B. — Let us discuss why do not need so-called "Diagnosis." First of all, we have two divisions, Chronic or Persistent and Acute or Recent; if anyone has a Toothache, what would you use?

A. B. — Ultra-Green.

K. B. — I have my eyes on you! You will have to be our next Chairman; I want to retire. If it is Recent, use the Ultra Colors. In order to understand these things, read your Instruction Book. Our Science is so simple, it baffles the Doctors. It must be someone with a master mind that can remember all those things. If you have a Cold and you use Lemon, it will loosen the Phlegm; if the Chest hurts, use Ultra Color, then use Lemon and if you live on the Rational Food Of Man, you will have quick results.

A. B. — I wanted to know where the Itisometer Pointer would point if a person be normal?

K. B. — Green. If the Itisometer shows Indigo on the Head, it is not worth while starting to tonate the Sufferer. I had a Color Report from Europe. There, many Doctors changed from Medicine to Color, but, they use the Babbitt System. I showed to you pictures of a man who had Skin Disorder for 28 years. It took him two years to be rid of it entirely. He was born with it. Now, he is married, has three children by a beautiful wife. If any of you ever received guidance from the Institute, you will note that Dinshah practises what he preaches.

A. B. — What is the true value of using Magenta on Area 18?

K. B. — It acts on the Adrenal Glands, if the Kidneys function properly.

A. B. — In Recent Disorders, if you should take Magenta on Areas 4 and 18, then, may be I should not take it on Area 18?

K. B. — I know a Sufferer who did not pass water in 24 hours. Then, you have to activate the Kidneys. We are not masters of life or death. If the Kardoscil is 40 and the Breathing 12, what is wrong with that?

R. S. — That is like not enough Oxygen.

K. B. — What would happen if I squeeze a man's Throat for three minutes?

Member — He would choke.

K. B. — Why do you not experiment? Can someone tell me why men go hatless now? I do not know. In the tropical countries, you will never see without head cover. Our question tonight was why we do not have "Diagnosis."

R. S. — If a person has a constantly flushed Face, would it not indicate Infection?

K. B. — No; sometimes, it would be if the person drinks Alcohol. Does anyone have a question on these Axioms?

R. S. — When we are up against drinking good water, I do not get it during the day and when I go home at night, I drink Lemonade made with Brown Sugar and Spring Water or Well Water. What can be done?

K. B. — When there is no good water, take a full jug along with you. They had to do so years ago and you may do it now. It is not wise to tax the system with so much fluid before going to bed.

A. B. — I wanted to mention about Tooth Paste. I received a tube of C..... the other day and the other evening, on Television they were advertising it. On the tube it says "F..... children under 6 years should not use it.

K. B. — You can use Salt Water and clean your Teeth or Baking Soda. Make your own simple things and avoid rocks. Years ago, the Institute used to sell "Manjan" (Tooth Powder) to its Members.

F. K. — I have been using Lemon Systemic every day and using Magenta on my whole Body! I am troubled a lot with passing water.

K. B. — Do not use Magenta on the whole Body.

F. K. — I sometimes lie on my Stomach when taking Back Tonations. What about my passing plenty of water?

K. B. — I do not know your habits, but, you can use Purple for a while. When you sleep, it is not only the Physical Body resting. The Physical Body should not be disturbed. Under Green, most people go to sleep; who has noticed that? That is the way it should be. Stick to the Rational Food Of Man.

A. B. — Apparently it is all right to take Magenta twice a day, morning and evening?

K. B. — Yes. Does anyone have any Case Reports?

A. B. — I went to my aunt. She became ill the morning before I reached there. The next morning, I had a terrible Stomachache and had about three Backelims. I took Turquoise and Magenta two times to calm myself. Others who were there, had it much longer than I did. I felt weak. How does it transfer from one to another? My aunt was sick before she went to church and she ate the same food we did. Only those in the house got the Disorder. I am under the impression that it was from the Radiation.

That question of "Diagnosis" was not cleared. It means "The act of distinguishing one Disorder from another" or "The determination of the nature of a Disorder." What we discarded **totally** in our Science, is "Differential Diagnosis," which is the kingpin in the art of our opponents. It means "The determination of which one of several Disorders from which a Sufferer is suffering, by comparing and contrasting their symptoms and the like and naming that Disorder." We have our own method which is explained fully in our Text Books and which is simplicity personified. A. B. did not send his 1956 Continuation Of Membership Request, hence he did not receive our magazine. We have the same to report about F. L. who was present in your Meeting. What surprises us is why your Chairman wishes to retire and see A. B. in the chair. A. B. never sent us a Chart and strangely he monopolized practically the entire time of the Studio. Color is slowly permeating Europe, but, I have calls from Italy and Germany to establish our Science there. I shall do that when I can secure a proper manager for my Office, to continue services to you. Give me time. I shall re-establish all we lost in prior years. The Aunt of A. B. and others became sick most probably by wrong food and not by Radiation. Impress upon A. B. and others to study our Text Books thoroughly and save the useful time of the Studio.

* * *

First New York New York Studio

R. D. — I had a call from a Member, who has troubles with relatives. They are scaring them, that because they live on Rational Food and do not feed their children Flesh, they would have them deported! I feel that as long as the man and wife are in unity in this case, they should not worry. The children too are not undernourished. How is that lady with Parkinson's Disease?

F. P. — She is about the same. She has one Back Elimination and is tonating with Orange Front and Back.

M. S. — My 6 year old daughter came home from school with Diarrhea. The next day, she had High Fever. I gave her a Blue Tonation; the fever went down, but, during the night, it went up again. I gave Tur-

quoise. Then, she said her Hands and Feet were numb and hurt her, so I was scared and called the Institute in the middle of the night, to reassure myself that I was doing the right thing. Dinshah said I was. After the third Tonation, the Fever stayed down and I followed with Lemon Systemic and Magenta on Area 4. She is fine now.

P. Z. — My sister has Dropsy; she is using the Color Projector 3 weeks and her condition is much better. She is in Germany.

R. D. — Send her a Chart to fill.

Member — Is there any hope for Leukemia? A friend's 15 year old son has it.

R. D. — I think that Red on Area 7 would be needed. I shall read to you the Editorial Remarks about it, from our March 1956 issue of the Visible Spectrum Researcher, on page 298. (It was read.)

A. K. — A friend has Hodgkin's Disease. He came from Saudi Arabia; he got a series of Injections with no results.

M. S. — Does he know about our Color Projector?

A. K. — I told him about it and he will probably try it, if he finds nothing else helps. I should like to find out.

R. D. — If you can convince him, have him contact the Institute.

J. C. — I like to know if anybody had any experience with Nephrosis. The child is 5 years old and has been 2 years in critical condition. The Doctors can not do anything.

Member — I heard of a case, but, she came very late; even then, there was some improvement under the Light, while she was using it. She died of Brain Hemorrhage.

R. D. — I suggest you contact the Institute. If possible, take the child to Dinshah. If there be any possibility of help, I am sure he will tell you either way.

O. D. — I had Kidney Disorder and when I started with the Projector, it took 2 weeks and I had normal Frontelim and had no trouble since.

F. P. — The testimonials are very impressive. I like to hear if anybody had results with High Blood Pressure and Stroke.

C. K. — My husband had a Stroke. He was 4 weeks in the Hospital, with no results. Then, he took Yellow and he is much better.

(R. D. then read from our Text Book Set, Volume 3, about Disorders Of The Heart. He also stressed correct eating habits.)

G. S. — I want to warn Members against changing their proper eating habits. I started eating Flesh again and became very sick. I vomited Blood and had nothing to eat for 4 days. I almost submitted to an Operation, but, changed my mind and went home. I made a complete Chart and sent it to Dinshah. Took Lemon Systemic and Yellow on Areas 6, 7, 8, 9 and 10. I feel much better and eat correctly now. I feel it my duty to warn everybody.

P. R. — Did anybody have any success with Cancer?

R. D. — I know a woman who had a Lump in her Breast; she took Lemon Systemic and it went away.

G. Z. — My wife had Cancer on her Breast; she took Tonation for 1 month; then, went through with the Operation anyhow, because, we were new in the Science. This was 3 years ago. Doctors had given her 6 months to live. When she came home from the Hospital, she took the Tonations and used to go to the Doctors for checkup. They were amazed how much faster she had it healed in comparison with other Sufferers.

V. D. — I had Pains across my Chest. Pulse was 60, Respiration 25. After taking Yellow on Areas 6, 7, 8, 9 and 10, in 15 minutes I was expelling gas and felt fine.

R. G. — I had a man who had a terrible accident, burning his Face. He came on Monday for Tonation and by Saturday he was fine. There was no Pain after the first Tonation. The same thing happened to my sister and it healed so fast, that she had no case when it came to compensation!

(Various points were discussed about Childhood Disorders, all of which had good results.)

As I foretold in the last issue, the sister of F. P. died. It was a case much too highly butchered, before the loyal sister took her in care. Peace to her Soul! The Institute is unable to serve the sister of P. Z. in Germany. P. Z. is a Graduate, the sister does not live with her and for Europe, we do not have a Respiratory Rhythm Guide; furthermore, the Sufferer is not our Member. Thus, we refuse to interfere, according to our strict By-Laws. Leukemia was discussed before. Send a complete Chart; similarly, send the Chart of the Saudi Arabian friend. Do not wait till all hope is gone. Color is not magic; the case must come in proper time to be saved. Nephrosis is a Kidney Disorder and if the Doctors say they can do nothing, then, at least, let us have the child's Chart. Do NOT bring the child to the Institute; I can state by the Chart, just as well. G. S. was right. Most Members slide off the Rational Food, as soon as the Color corrects their Disorder and then start howling again. Such persons deserve to suffer.

* * *

First St. Louis Missouri Studio

B. Z. — I desire to correct a misstatement in the March 1956 Visible Spectrum Researcher, that I am an old time Member. I just bought the Projector in October 1955 and enrolled in November 1955. It was an old Equipment of Dr. C. B., a Chiropractor.

R. B. — What would you do for a Pulled Ligament?

C. N. — What would you do?

M. W. — Use Orange for Circulation.

C. S. — My wife had experience with it recently. Orange increased the Pain, so she went to Blue and back to Orange and could stand it then.

R. B. — Since it is a Recent Disorder, I should be inclined to use Turquoise.

I. A. — I was house cleaning and lifted the Davenport. I got a Pain in my Back and used Lemon, but, I had so much Pain, I called A. B. She suggested Orange and that increased the Pain, so, at the next Tonation, I took Blue and later returned to Orange.

C. N. — You had more than a Sprained Leg; the Back was involved and will take about 6 weeks.

P. L. — I sprained my Hand and used Orange, but, the Pain was so great I called A. B. and E. N. and they suggested Blue or Turquoise.

C. S. — When a Sprain aches, there is a Congestion which is broken by the Orange and that causes terrific Pain.

C. N. — In Sprains, try Orange first, but, if that is very painful, go to Turquoise or Blue and then back to Orange or Yellow.

H. L. — I heard that rest is grand for a Sprain; do you approve of it?

C. N. — That is not a good idea. I have had experience of it. I sprained an Ankle when I was on the Paper Route, but, kept on my Route. It was painful, but, I had full use of the Foot sooner.

M. W. — What Color should be used when you have Teeth pulled?

R. B. — Green to kill the poison of the Novocaine. (Some discussion began on this. Member said Green is good, but it needs some Magenta or Scarlet to help the Kidneys eliminate the Poison.)

S. W. — I used Turquoise, as it has Blue as a Pain Killer and Green as Cleanser.

C. S. — I think Green.

M. W. — I used Turquoise to heal.

A. Z. — What would help a sluggish Liver?

(In the discussion that followed, it was suggested that Red be used on Area 7, to build the Red Corpuscles. B. Z. thought Yellow would increase the flow of Bile.)

A. Z. — I used Red and Yellow both Systemic.

(She was advised to use Yellow Systemic, but, Red on Area 7. Then, it was brought out that A. Z. also had difficulty with her Back Elimination and also that she ate Meat Broth.)

C. N. — Do not use anything containing Meat, as it will impair the functioning of the Kidneys. They are the finest filters in the Universe. Do not abuse them by using Meat, which makes Uric Acid. I shall now give to you all instruction about proper Foods.

(Discussion followed from C. S., H. L. and C. N. about walking and exercising for proper Elimination.)

C. N. — Never ignore an urge for Elimination, whether Front or Back, as otherwise the Body will suffer.

B. Z. — I like the Members to know of my experience with Hives. E. N. itisized me and told me to take Turquoise and Magenta. I used that one month; it helped my Nerves, but, not the Hives, so she suggested Violet, which I used with great success. I worked at the voting polls; there were two women there who picked at one another all day long. It upset my Emotions and at night I was covered with Welts. I took Violet and the next morning all the Welts were gone.

C. N. — It indicates that the condition was connected with the Emotions.

W. W. — Would not Magenta help to equilibrate this?

B. Z. — I use Magenta on 4 and 18 every other morning and Violet or Turquoise every evening. This condition usually appears after I have been under an Emotional Strain.

H. L. — Has anyone had experience with Dog Bites? Would you use Green?

C. N. — I should use Orange first, as it has $\frac{3}{4}$ Red which is a powerful Stimulant and $\frac{1}{4}$ Green which is a Cleanser. Of course, I should not stay with the Orange. My wife and I had a mild experience with Dog Bites, before we had our own Equipments. One of our sons was mauled by a dog and had about 20 or more Bites. We used Orange and then Green and he had no ill effects.

A. I. — When and how often do you use the Light?

C. N. — Immediately and then every 3 hours. Take Systemic Tonations.

B. Z. — What if a cat scratched you?

C. N. — Do the same, as there may be poison in its Claws and you might get it in the Blood Stream. Keep the Blood clean.

B. Z. — A Cat Scratch was the beginning of the Hives for me.

B. Z. is right about the "misstatement," but, I was not in meditated error. When she enrolled, she marked her Equipment as C-3105 and as all the records of the prior Corporation were burnt in the Fire of 1945, it was assumed that B. Z. must have been an "old timer." It was not marked in enrollment that was **purchased** from an "old timer." Well B. Z. may not be an "old timer," but, her battles in the Studio show her like one, so congratulations for having such smart Member! It would be better if the Members in asking a question about a Disorder, use our methods more fully than giving a term which in our Science means practically nothing. It is upto the Chairman to develop those points for more elucidation. Too many Members had Sprains, it seems! Dogs and cats have no business to be kept as pets in family homes. Homes are for children — I mean human babies.

DINSHAH IMPARTIAL

(The Universe Through The Eyes Of Dinshah)

HOW THEIR RACKET BEGAN MY PUNISHMENT!

So many of our Members and their friends, knowing of our opposition to Destructive Surgery, by which we mean removal and discarding of Vital Organs from the Body instead of repairing them, ask us the reason for such opposition. I give them a simple principle: "You have a six cylinder automobile; if a Spark Plug having burnt points begins to misfire, do we agree to repair that damage or throw the Plug away?" Naturally, you will say: "No, we can not run that car efficiently on five cylinders." Then, they start asking: "But, can you tell us why the Surgeons remove Vital Organs, instead of repairing them? When did such practice begin?" Here is the story. Ages ago, when the Almighty Creator finished building the Universe and having illuminated it with Light, was wiping His brow to remove the perspiration, His Prime Minister Gabriel suggested that some things should be manufactured that would be benefited by that Shine. Said the Creator: "That is a good idea. Go ahead and make Beings that could be benefited by it." So, the Angels became busy and joined up piece by piece different beings, among them Humans. However, in the rush of the Assembly Line, certain parts not being ready, were forgotten. Years rolled by and Columbus discovered a Western Land called later America. More years rolled by and one day, as the Creator was holding a levy, with conferences of wise men to consult, Gabriel entered with a large envelope marked "Certified Mail, Return Receipt Requested, Special Delivery." Being addressed personally to the attention of the Almighty Creator, Gabriel made obeisance and presented it to the Grand Architect, Who promptly ordered it to be opened. On opening, a yard long paper came out, written in Golden Ink, "Petition From The Surgeons Of America." The gist of the whole document was in just a few words: "Your Heavenly Majesty made Humans so perfect with self-protective powers that we have not much to do. Please, remedy the deficiency." The Creator, always 100 per cent. just in His dealings, stroked His 67 feet long Beard and nodding His Crowned Head said: "Gabriel, the demand of those Meatchoppers is legitimate. Go with 1,000,000 workmen into My Heavenly Warehouse and report what we have there that those Humans have not." Within 79 seconds Gabriel finished the investigation and reported that there was a pile containing Appendices, Spleens, Tonsils, Bosoms, Ovaries and Wombs. The Creator then ordered the Treasurer to turn all those Organs from the storage over to the 180 million people of America as a gift, so the worthy Surgeons may have some money to eat. As soon as that Order was obeyed, the Angel Of Justice, in charge of the Law Of Karma appeared before the Grand Master saying: "Your Majesty provided for the one batch of howlers, but, what is the use of that Shining Light that is flooding the Universe?" Promptly the Creator spoke

out: "I thought of that too. A Cause must have an Effect and an Effect must have remote Reactions. All right, there is a big Sinner in Malaga, New Jersey, who deserves some Karmic Retribution for being too kind to everybody, without restriction of Race, Caste, Creed or Color, by giving away all and taking nothing in return. Let the wrecks created by those Meat-choppers be turned over to that guy for repair and he will learn what it is to be over-generous!" And so it was!!!

* * *

THE SUCCESSOR OF DINSHAH

When I openly published in the issue of April 1956, that I desired to know the views of our beloved Members about my Successor, I had no idea of what I was expecting and had not the slightest suspicion of what I was heading. Since then, the mail has been so heavy, that I had to hire a 5 ton truck and two chauffeurs to drive to the post office, the reading of the mail itself taking 26 hours of each day till today! Yes, friends, it is the truth, the whole truth (with a hole in it) and nothing but the truth — I received just 2,369,408 letters minus 2,369,400! Eight responses! Well, it is a PROOF of the faith of our worthy Members in my judgment and also their belief that I am **not** a Dictator, but, looking forward to those who need my humble services. Here are the excerpts from those eight writers:—

N. H. — Same caliber; knowledge, spiritual insight, fortitude, unselfishness. Mature enough to realize the responsibility of facing the monster known as the Medical Octopus. Familiar with Physics and Mathematics. Having a wife and children should not be a handicap. Not care much about compensation. Dinshah is the best qualified to solve this difficult problem of succession.

K. K. M. — Would be glad to give a wise answer, but feel that I am too new.

F. C. — A fearless, courageous and outspoken leader, ready to defend the honor, principles and rights of the V. S. R. Institute, teaching and following. Of middle age, 40 to 50 years old. A man. A successful business man, with a college degree. A married person with a family. A minimum \$5,000.00. A person holding a Researcher Diploma.

A. B. — A son working with you. God-fearing man.

K. V. M. — One of our Milwaukee or St. Louis Members. A very strong man. Asking nothing.

H. R. — Must be well educated and be an Occultist. A member of the Dinshah family. Past 30. A man. College education. Advanced Occultist. Married or single. Salary must be high enough to exist with a family. Dinshah should have assistant. May be Mrs. Dinshah or if she can not accept, one of the sons.

H. W. S. — Another man just like you. 35 plus. A man's position. Education? "Know Thyself." Married. With children. Compensation will be a draw-back.

M. B. — As long as it is one individual and the key and title are turned over to him, it will be a sad thing. Must have a Group Board.

Now, as the Organization Members were asked to express their views in the open, read the above and let a man or woman offer to step into my tight shoes voluntarily and I shall give the matter independent, impartial consideration. I need my successor as the President, also a Vice-President, a Secretary and a Treasurer, all of whom will be residing on one estate, working for one noble cause, will be provided by the Institute their comfortable lodging, boarding, laundry and motoring, plus a reasonable allowance for personal needs and no restrictions or questions, as long as they adhere to and promote our principles and services to the Cause of Suffering Humanity.

* * *

TRUTH SERUM CONDEMNED

It has long been held by Psychiatrists that the administration of Pentothal Sodium, a Thiobarbiturate preparation, used as an Intravenous Anesthetic and Hypnotic on human beings, **compels** them to tell the **truth** and for that assertion it is called the Truth Serum. That myth is now exploded by a decision of United States Judge William C. Mathes, in the case of Rolland Lindsay vs. U. S. (No. 14739), wherein it was found that the drug makes the subject "talk freely, but, does not necessarily talk truthfully."

* * *

PHOTOGRAPHIC STUPID NONSENSE

Lock into any newspaper, periodical or advertisement depicting a woman and you will notice a representation with a gaping mouth, open and showing the teeth. This custom originated with the photographers who tell the subject: "Now look pleasant and smile" and it is unfortunately copied by men also. To my mind it detracts from the real beauty of the individual, as to my eyes trained to the true value of photographic semblance, the subject changes from a good-looking human being into the transformative absurdity of a grinning hyena. My advice is to be your natural self.

* * *

V. A. DOCTOR REVEALS LUNG CANCER BY SMOKING TOBACCO

During the Third Annual National Cancer Conference, Dr. Oscar Auerbach of the Veterans Administration Hospital, reported on a year's study on 117 Human Lungs, examined by Exploratory Operation that Cigarette Smoking is the important cause of Lung Cancer. Six other Medical Doctors aided him in this research. I am unable to understand what pleas-

ure there may be derived by puffing smoke like a locomotive engine and ruining one's own health along with the health of associates. To me, it is an unsanitary, disgusting, filthy, expensive, worthless, ugly, stinking habit, one of the curses of so-called civilized life, copied from the Red Indians, who knew no better and the White Skin followers know less.

* * *

EUROPEAN ROUND TRIP

I am informed that our worthy Chairman Clemens M. P. Neumann of the First St. Louis Missouri Studio, accompanied by his beloved wife Eleonore, will fly to New York, on July 4, 1956 and leave this Country for a round trip to Lisbon, Madrid, Barcelona, Genoa, Lucern, Munich and after visiting various places in Germany, will return around October 12, 1956 via Venice, Florence, Rome, Capri, Vienna, Salzburg, Berchtesgaden, Munich, Paris, London to New York and St. Louis. I wish our good friends a safe journey, enlightening experiences and perfect health to enjoy the tour. There is nothing like travel to realize the beauty of the World and the differences between America and the other Continents.

* * *

MOOD PILLS FOR THE MENTALLY DEFICIENT

Medical work, misnamed "Science," is so perfect, that year after year, month after month, week after week, new discoveries and "improvements" are made to make people comprehend the great labors the "Scientists" are performing to render the people of the suffering World happy. Not satisfied with the thousands of chemicals sold to pour down the throats of boob believers, the announcement is now made of "Mood Pills" that will give "Peace Of Mind" to the most disturbed person and "ease the tension" of troubled people. This marvel of dosing is in the use of Thorazine, Reserpine, Mebaral, Sparine, Ledamyl, Miltown, Butiserpine, Dimethylane, Butibel, Equanil, Nambu-serpin and similar drugs with jaw-cracking names. A Science, if genuine, can never be "improved." The man who can add 2+ 3 and make 4 or 6 is not born and the individual who can "improve" upon the Color System of the Mogen David, will not be born of a human mother's womb! This was fully fought out by me in 1931, in the Supreme Court of New York State, in Buffalo, where singlehanded I won the charge against me of Grand Larceny, alleged by giving a Color Projector which had no effect. The Prosecution brought the best of University Professors, who failed to break my Science and I was acquitted by the Jury. This unique and only Law Suit against the accuracy of my Science of Color in Healing Human Disorders was printed by me from the complete Transcript Of Record with my caustic, satirical remarks, in 1944 and a few copies, saved from the Fire of 1945, are still available at \$5.00 per clothbound volume. Ask for "Triumph."

* * *

OUR STUDIO DIRECTORY

On the First Thursday of each Month, there is held a Membership Meeting, at 8 P. M., in each of our following Studios, for reporting the results and findings of Personal Experiences in the use of the Visible Spectrum of Light and Color:—

First Allentown Pennsylvania Studio—Hotel Americus, Fifth and Hamilton Streets, Allentown, Pennsylvania. Catherine Knebel, Chairman, 234 E. Hamilton St., Allentown, Pennsylvania. Pearl M. Diehl, Vice-Chairman, 642 N. West Street, Allentown, Pennsylvania. Nellie Etta Spaar, Reporter, Route 4, Box 93, Quakertown, Pennsylvania.

First Cleveland Ohio Studio—The Colonial Hotel, 523 Prospect Avenue, Cleveland, Ohio. Albert J. Martin, Chairman, Sleepy Hollow Lake Road, Brunswick, Ohio. Louis Friedl, Vice-Chairman, 14220 Birchwood Avenue, Cleveland 11, Ohio. Theresa J. Soree, Reporter, 9216 Orchard Avenue, Cleveland 9, Ohio.

First Detroit Michigan Studio—Knights of Columbus Hall, 4740 Woodward Avenue, Detroit 1, Michigan. Albert Greenham, Chairman, 30906 Robert Drive, Livonia, Michigan. George G. Weiland, Vice-Chairman, 19692 Hanna, Detroit 3, Michigan. Elfriede Kolmetz, Reporter, 6735 Meadow Avenue, Van Dyke, Michigan.

First Merrill Wisconsin Studio—New Badger Hotel, 310 West Main Street, Merrill, Wisconsin. Walter Briese, Chairman, 707 E. Third Street, Merrill, Wisconsin. Edward Katke, Vice-Chairman, Route 6, Merrill, Wisconsin. Dorothy Nelson, Reporter, 1814 West Main Street, Merrill, Wisconsin.

First Milwaukee Wisconsin Studio—The New Republican Hotel, Guild Hall, corner North Third and West Kilbourn, Milwaukee 3, Wisconsin. Kurt W. Bader, Chairman, 314 E. Burleigh Street, Milwaukee 12, Wisconsin. Fredrick Kneppreth, Vice-Chairman, 10120 W. Harrison Street, West Allis 14, Wisconsin. Florence Gutsch, Reporter, 3041 North 53rd Street, Milwaukee 10, Wisconsin.

First New York New York Studio—Hotel Diplomat, Blue Room, 108-110 West 43rd Street, New York 18, New York. Ralph W. Die-drichs, Chairman, 423 Jackson Avenue, Mineola, Long Island, New York. Hildegard Muehlfriedel, Vice-Chairman, 817 Lancaster Road, Ridgefield, New Jersey. Margarete B. Wolschendorf, Reporter, 19 Van Buren Avenue, Norwalk, Connecticut.

First St. Louis Missouri Studio—Albrechts Hall, 3549 Arsenal Street, St. Louis 18, Missouri. Clemens M. P. Neumann, Chairman, 4348 Virginia Avenue, St. Louis 11, Missouri. Walter Bloss, Vice-Chairman, 6408 Lansdowne, St. Louis 9, Missouri. Marie J. Parison, Reporter, 7525 Comfort Avenue, Maplewood 17, Missouri.

OPEN DECLARATION FROM THE EDITOR

DINSHAH P. GHADIALI

NO WARRANTY, NO GUARANTY, NO LIABILITY

Since in June 1922, I became the Editor of a similar monthly magazine, controlled by another Corporation (now dissolved), I had complete records of all Case Reports and personal matters in my files. Those were totally destroyed on Tuesday, January 2, 1945, by a disastrous Fire of unknown origin, which burnt my 30 room Main Office Building and Laboratory, causing a loss of over \$250,000.00, being without insurance.

A few months later, Law Suits were instituted in the United States District Courts, at the instigation of certain opponents of the new Science of the Visible Spectrum and because of our inability to produce the original documents as proof of various contested matters, verdicts were rendered against me and the controlling Corporation to the effect that our literature was false and misleading under the Federal Food, Drug and Cosmetic Act, as a result of which we received heavy Sentences and Penalties, I being dubbed a "quack" and a "faker." \$125,000.00 of printed literature was also destroyed by Court Order.

The American Medical Association and Licensed Medical Doctors and Surgeons strenuously maintain that the Visible Spectrum of Light and Color has no Therapeutic Effect and that it has absolutely NO HEALING or CURATIVE VALUE.

For that reason the VISIBLE SPECTRUM RESEARCH INSTITUTE openly warns the Reader, that the said INSTITUTE issues this Monthly copyrighted in accordance with the Constitution of the United States of America, Article 1, Section 8, Sub-Section 8, protected under Article 1 of the Bill of Rights; the Reader who uses the contents as basis for own investigation, experimentation and (or) research along the lines of the Visible Spectrum, to determine the Powers and Effects of Light and Color upon Living Organisms or otherwise, will do so on own absolute responsibility, taking and assuming ALL RISKS pertaining to such activities.

VISIBLE SPECTRUM RESEARCH INSTITUTE
