THAT'S A GOOD QUESTION

Under the above caption, Medical Doctor William Bolton, as the Editor of the said department in "today's health", a monthly publication of the American Medical Association, wrote in its March 1953 issue an answer to an inquiry about:—

"COLOR THERAPY

Question — A friend tells me that a method called color therapy is now being developed by which various illnesses may be treated successfully. Do you have any information about this?

Answer — From time to time, theories are advanced that color may have value as a treatment adjunct in medicine, but we do not know of any evidence that a specific disease ever has been cured through the use of color alone. Various colors may have some value so far as mental attitudes of many patients are concerned, and this idea has been utilized in some hospitals. For example, walls and ceilings of hospital wards or rooms may be painted a light blue or green because such tints are believed to have a soothing effect. In general, colors probably should be considered for their secondary effect in helping a patient to overcome excitement or worry about an operation or illness."

This publication is an answer to the stated view, as in our service to our Members, their own convictions by their personal investigations, researches and experiments will give them the accurate view of the Truth behind the Visible Spectrum. Let the reader judge for self.

NOTICE TO ALL

We accept no gifts or gratuities, as to a Servant Of Mankind it is graft. Send us nothing.

You may send your Book for review or opinion; you may send your Writings or Experimental Findings and Reports for publication, provided they are not plagiarized or false and bear your hand signature in ink, with full name and address.

Anonymous communications will receive no attention. Submitted articles will not be returned.

All correspondence should be addressed to:— Visible Spectrum Research Institute, Malaga, New Jersey and not to any officer or individual.

For the views expressed in signed articles, the writers are responsible; for the opinions in articles bearing no identification, the Editor shoulders the sole responsibility.

THAT IS A GOOD ANSWER

By:-INDIVIDUAL EXPERIMENTERS

CHILDBIRTH IN HOSPITAL, MAMMARY ABSCESSSES REPORT BY J. G.

It has been of interest to me to read the report of M. J. in the last issue of the Visible Spectrum Researcher about her Hospital experience in Child Birth. I too had an experience with a Hospital, which I shall never forget.

Around the fourth month of my pregnancy, I went to a Medical Doctor, who gave me the usual, prenatal checkup and pronounced the opinion that I was in good shape. He asked for my telephone number and I told him we had no telephone. He then stressed that we should have one for an emergency, so, we approached the telephone company. As days passed and we did not get the line, we inquired at the head office and were surprised to learn, that unless we could produce a Medical Doctor's certificate showing an emergency, it may be months before a line could be available. I, therefore, took the application and paid the Doctor for the certificate, which brought in the telephone.

As my husband did not approve of Hospital Delivery, we went to several other Doctors and paid each one ten dollars, to find whether the Delivery could be arranged at our home. Each one declined to take the responsibility, stating there is no facility in a home for a Surgical Operation, if that be needed. So, finally, we returned to the care of the first Doctor, who had Hospital affiliation. He examined me again and told me to have a Blood Test to conform with the regulations of the State — a procedure which set us back by \$3.00 more. The Test indicated some Iron deficiency in the Blood, so he gave me a number of Pills to raise the Iron content, as he would have to put me in the Hospital within a week before the Delivery time. Having the Color Projector in our home, we telephoned the Institute and followed its instructions. Naturally, the Pills were presented to the city drain.

The following week, we had to have another set-back of \$3.00 for Blood Test and the Doctor opined that I should go promptly to the Hospital for Blood Transfusions and treatments. We requested him to permit us to think over the matter and tried to arrange for the Delivery through some Nursing Home, which might have Women Doctors in attendance. We contacted several, but, were told by the respective Surgeons that they would not receive any case in their Hospital, unless we could produce a certificate from the Doctor in whose care I was upto that period.

While all this ethical detail was being spun around, I commenced to get Labor Pains and was taken promptly to the Hospital with which my first Doctor was affiliated. There, I had to make a deposit of \$90.00 and had to sign some paper, permitting the Hospital staff to do what they might

believe necessary for the proper procedure during and after the Delivery. Then, I was taken to the Maternity Ward, where they made me eat some Pills and I walked around until the Pains became severe. Then, another Doctor, who was called by the first one for "consultation," pushed a capsule of some Drug in my Area 19 and gave me a Shot into my Buttocks. Right after that, I was rushed into the Delivery Room and there they administered an Anesthetic, which made me lose my consciousness. In that senseless condition, all I remember is that somebody was slapping my Face and asking to wake up!!! Thus was my baby born.

Three days later, I requested to be sent home and they granted the permission after I paid the balance on the bills, which itemized as follows:—

My Room	\$ 54.00
Nursery	15.00
Delivery Room	30.00
Laboratory Work	30.00
Drugs	11.70
Surgical Dressing	1.50
Telephone	1.00
Birth Certificate	1.00
First Doctor	75.00
Consultant	25.00
<hr/>	
Total	\$244.20
Less Deposit	90.00

I was home around two weeks, when the terrible Drugs shot into my formerly clean Body, began to take their toll. I noticed certain places on my Breasts becoming very sensitive and turning Black with some Swelling on each. We promptly telephoned the Institute and following the instructions, the Left Bosom opened and began to flow a stinking mess; later, the Right Bosom burst open like a volcano and poured a similar mess — only in larger quantity. This continued for about two days, when a core like a ball came out, leaving two holes. Again we telephoned the Institute, which felt good that the Mammary Abscesses were over and I should be regaining my former Health. I followed the instructions of the Institute, used my Color Projector — and now I know better for my future and am writing to let other Members know from my stated experience and warn them of what is going on inside these Boast Spittles.

* * *

RHEUMATISM REPORT BY P. K.

My experience with the Color Projector has been very satisfactory in the cure of my Rheumatism. My Fingers were so crippled that I could use them only with difficulty. (Signed and Affirmed before M. R. S., Notary Public.)

* * *

BURN, BLISTERS, PARALYSIS REPORT BY W. W.

In 1940, my wife burned her Hand, which blistered severely. There were Blisters $\frac{1}{2}$ inch thick, on the top of her hand and she was in much Pain. I used Blue on the Hand and the next day the Blisters were all gone. The second day, I used Turquoise and the third day, I used Indigo. The fourth day, she was back in the kitchen washing dishes. On March 5, 1944, my wife was confined to bed for about 2 weeks; her Feet and Hands were paralyzed. I used Yellow, Orange and Magenta, which restored the use of her limbs and she is again feeling fine and in perfect health. We would not do without our Color Equipment. (Signed and Affirmed before J. W. F., Notary Public.)

* * *

COLDS, BODY IMBALANCE, REPORT BY H. K.

Am using the Color Projector for the improvement of my Health and the Imbalance in my Body, since March 1944. I am so thankful and happy that Providence guided me to Color. I am very satisfied with its results. With Colds, I was normalated in one day, without stopping work. With my Right Arm I have good improvement . . . Since I have the Projector, I am not afraid of anything. I think it is the most wonderful thing Colonel Dinshah invented and perfected for the betterment of mankind. (Signed and Affirmed before S. S. R., Notary Public.)

OUR STUDIO ACTIVITIES

EXPERIMENTER FINDINGS AND QUERIES

MEETINGS OF THURSDAY, MAY 3, 1956

First Allentown Pennsylvania Studio

The Chairman being absent, the Vice-Chairman conducted the Meeting.

J. F. — My husband sprained his Area 14. It was very swollen. Used Turquoise Local and Orange Local.

N. S. — My daughter had Head Cold. At the time, the house was not warm enough for the Systemic, so used Lemon Local on Areas 1, 2, 3. Good results.

B. W. — I am still tonating my husband on Area 14. I think he has Rheumatism. Lemon Systemic, Turquoise Local.

A. D. — My husband has a Weak Ankle; what should I use?

N. S. — What is the cause of it?

A. D. — He has a Pinched Nerve in it.

E. L. — If there be Pain, use Turquoise.

M. G. — I have Imbalance in Back; Lemon Systemic, Indigo Local, Orange Systemic.

A. D. — M. B. recommended me to use Magenta on Area 4, quite often. I feel very nervous afterwards for about 8 hours.

N. S. — You must be needing it or I do not think M. B. would give it to you. Did you tell her you feel that way?

A. D. — Yes; I tried Colors on my own and do not feel that way.

E. L. — My grandchildren had Chicken Pox so bad they could not stop scratching. Blue did not help. Used Green Systemic after they were all out. Also had the Measles; used Turquoise Systemic for that.

N. S. — Dinshah says use Turquoise Systemic, alternated with Magenta on 4 or 18, where indicated. Then, after the trouble subsides, use Lemon Systemic and Yellow Systemic.

E. L. — We used some Magenta.

A. D. — What is good for Poison?

E. L. — Green Systemic, then Yellow, then Turquoise.

A. D. — Also, what is good for Burning Eyes?

J. F. — I used Red; fell asleep right away.

P. D. — Yes, but, may be Red would not help her. There must be a reason her Eyes burn; Poison in the System.

N. S. — There could be a number of reasons for the Burning Eyes. I do not think she should go right to Red Local either.

E. L. — Can you buy a second hand Projector?

N. S. — You may, but, the seller must give a Bill Of Sale; also, you should get permission from the Institute.

After a short discussion on the care of the Color Projector, cleaning and oiling, the Meeting was closed.

To receive proper advice about any Disorder, it is vital to know the condition of the Organs in the Sufferer's Body and not merely by stating "I have this or that." The Chairmen of the Studios should impress this essential point all along. A. D. is overweight for her height. She sent a Chart once and then none for over 3 months. Furthermore, although she had the Cook Book sent with the Projector, she did not follow the instructions, but, continued her prior habits, eating all the forbidden junk. She has no right to complain and unless she reforms, she will continue to suffer. M. B. should not guide her, unless she leaves her wrong habits out. A. D. asks:—"What is good for Poison?" Answer:—"What Poison? She is eating 'Poison' at every meal with slaughtered material." P. D. was right.

* * *

First Cleveland Ohio Studio

The Chairman read about Dinshah's Successor from the Dinshah Impartial and stated that if the Members had any suggestions, they should write to the Institute.

F. B. — I have severe Pains still in my Calves, but, I am following the instructions sent by the Institute.

A. M. — A heavy box fell on my Toe; it turned black; it had much Pain. I tonated with Magenta direct on the Toe; the blackness and Pain disappeared by the next morning.

M. S. — I had a bad Headache and thought I would lose my mind. Took Orange Systemic and Magenta on Area 4. I had a severe drainage from the Nose and the Mouth and felt better soon after.

The article in our April 1956 magazine about "Psychic Guidance" was read; also Chapter 3, Volume 1, from our Text Books Set, on "Reasons For Non-Perception" was read.

There are many things in the World of knowledge that happen before our very eyes, but, we do not seem to realize their existence or import. I strongly advocate the study of our Text Books Set, by each individual who has the welfare of his family at heart. It is a study that will enrich life, along with the attainment of Health.

* * *

First Detroit Michigan Studio

Several Chapters from our Text Books Set, Volume 1, starting with Chapter 38, "Chemical Human Being," were read and discussed.

A. G. — Thus, you will note that 97 per cent of our Physical Body is composed of only 4 Elements — Oxygen, Carbon, Hydrogen and Nitrogen; taking into calculation 2 more Elements — Calcium and Phosphorus, it seems that 99½ p. c. of our Physical Body is composed of only 6 Elements, 8 more making the remaining ½ per cent. Now, look at the Chart of Dinshah on the black board. It shows clearly that we have only 0.0100 per cent. Iron in our Body, yet, the Medical Doctors prescribe Iron Pills by the dozens. Look also at all the other concoctions that are introduced into the Human Body. There are over 50,000 Patent Medicines recorded in the U. S. Patent Office. How grateful should we all be to have the Visible Spectrum Projector and not to depend upon the Medical Doctors and their various concoctions? There is not one day that I do not thank Almighty God for this privilege.

Members — Will the Oxygen Wave have the same effect as in the Oxygen Tent?

A. G. — In the Oxygen Tent you breathe pure Oxygen Gas, while normally, in the Air you breathe the other components of the Atmosphere also. I shall read to you from Chapter 43, "Dinshah's Theory Of Light." There is so much to this theory of Light, that I wish we had Dinshah here

to give us another talk on Light. When we spoke to him last year in Milwaukee, he said he would come, but, he is a very busy man, loaded with work, so, it is very difficult for him to leave his office.

G. N. — My mother is going along fine; she still tonates with Green.

J. B. — Talking about Oxygen, I was wondering whether it was a lack of Oxygen with my baby, that made her Skin blue, while at the Hospital? She looks good now; in fact, she has a healthier color than other babies, which are about twice the size. She seems to be healthy, happy and very alert, but, is very tiny. She does not seem to have much appetite; she eats a little and then wants to play. She is now 10 months and weighs a little over 12 pounds and is able to sit up. Her Ratio gradually dropped. The Respiration is now 45 or 50. At the Hospital, her Kardoscil was 160 to 170, her Spirosil was 90 to 100. I do not know what happened at the Hospital, because, she seemed to be a normal baby when born; on the fifth day, something happened to her, which we do not know. They gave her Digitalis for 18 days.

A. G. — I remember when you attended the Meeting after the baby's birth, you asked whether to give her Indigo, but, we suggested Lemon and Magenta. I think you did well with her in the ten months, considering that her Ratio was 2 to 1. Do not worry about her not eating much. She will gain in time.

J. B. — Dinshah suggested Orange at the beginning, but, she could not take it. Her Stomach was upset. Then, he put her on Lemon and Magenta. The last few weeks, she had the Measles; we tonated with Turquoise; she is all right now. At first, we did not realize what she had; her brother and sister had it first. I still tonate her every day with Lemon and Magenta, turning to Yellow when her Bowels slow down.

A. G. — Measles is one of the Childhood Disorders. It is a Cleansing Process which a child goes through to clarify and purify its own Blood Stream. During Pregnancy, the baby is nourished by the mother's Blood Stream. What she eats, also what she thinks and feels, has an effect on the baby. Thus, through these so-called Childhood Disorders, Nature gives the child a clean start in life. Turquoise is the proper Color to use in these Disorders; Green, Lemon and Turquoise are the three gigantic Cleansers.

P. S. — I have had good results with my Projector, but, would like to ask a question. Is it all right to have the Victrola playing while taking Tonation?

A. G. — While taking a Tonation, you should concentrate on becoming healthy. I suggest that you play music during other times.

J. G. — Six weeks ago, I straightened the garage and while lifting something heavy, I strained myself. I tonated with Indigo and felt better. The next morning, the Pain was almost gone. Later, I had to go to the shop Doctor. He said there was a Lump caused by the strain and said I should have an Operation right away, but, I objected and went home and tonated with Indigo. After 2 weeks, the Lump disappeared; I feel fine now.

C. R. — That sounds good, but, advise you to take it easy for a while.

O. P. — For some time, I have had Prostate Disorder; have been tonating with the Visible Spectrum, but, have not had any success so far. Ratio is 72 to 18. Have been tonating with Orange, Lemon and Magenta. Frontelim is about 15 times a day and is very slow in starting.

A. G. — I suggest Purple on Area 18 and Lemon Systemic Front. (He then explained the importance and working of the Prostate Gland.)

C. R. — Purple is the Color to use. The Prostate Gland is a very important Gland. I read recently that 99 per cent of Prostate Gland trouble is due to sexual disturbances. There is a definite need of Purple in this case.

W. K. — Two of my children came down with a bad Cough. I tonated them with Turquoise and Lemon, which cleared it in a short time.

R. S. — H. S. is afraid she is coming down with the Measles; she was exposed to them. She has been tonating with Turquoise and Magenta, but was wondering whether she should use Orange.

A. G. — That would depend on her Kardoscil and the Spiroscil. Ordinarily, Turquoise is the Color to use.

S. S. — I had some Teeth pulled and took Indigo; that helped me much. For the past three days, I have had a Headache, back of my Neck and around the Ears. I started to tonate with Orange, but, could not take it. Then, took Yellow, which helped some, but, the Headache is still there.

A. G. — Did you take your Ratio?

S. S. — No, I do not know how to take it.

A. G. — We shall show you how to take it. Most Headaches are caused through Stomach Disorders. (He then drew a diagram on the blackboard and explained about the Intestinal Track.) When you take Pills for Elimination, it takes the natural fluids of the Intestines with it and is thus injurious. In our Science, we tonate with Yellow, which produces a natural Elimination.

(The Ratio of S. S. was then taken; it was 61 to 22.)

A. G. — There is need of Scarlet on Area 4.

M. G. — I still tonate with Orange and Scarlet and am doing well on it. Just lately, I had a Sore Throat; tonated with Turquoise; that cleared it.

C. R. — Some time ago, my wife knocked the hot skillet with grease off the stove. She grabbed and held it in her hand. Of course, the Hand was very badly burnt and was very painful. Tonated with Blue and the Pain partially subsided. Later, I bandaged the Hand. I figured that she would not be able to use that Hand for a while probably, but, she went right ahead and washed the dishes, swishing around in the soapy water with that burnt Hand. She did her washing and the rest of her duties as if nothing had happened. It healed perfectly; no mark or scar was left. I can not get over it; to me it seemed like a miracle.

A. G. — I shall now turn the Meeting over to C. R. You all know him; he has been with us for a long time and was our Chairman for many years. I am sure you will enjoy having him address you.

C. R. — I am going to talk on a topic many of you will not like, — Food. As I said before, Man is made of what he eats. The Body is composed of and lives on certain Compounds; to be healthy, it must receive constantly new supplies of those. If replacement of those materials is not provided by the Food eaten, there is caused an imbalance and sickness results. That is the Rule of Nature. We live today in a Chemical World; most everything is processed, canned and adulterated. Poison Sprays, Insecticides and what-nots are used to destroy bugs and insects. They can not destroy the pests without disturbing the chemistry. It is upto us to change this wrong. If we refuse to buy and eat such food, they will not be able to sell it and the Law of Demand and Supply will operate. (He then elucidated the principles of the Rational Food Of Man.) The Visible Spectrum Color Projector is not a miracle machine. It will normalate conditions in your Body, but, you have to co-operate by eating the proper food. I can not advocate retiring from life and taking it easy; it is like signing own death certificate. Look at Dinshah! He is 83 years in age and yet is active from early morning till late in the night. He manages to tackle a tremendous amount of work each day. His activity keeps him healthy. None kills self by work, but, inactivity kills. My concluding words are:— Watch what you eat, follow the teachings and Science given us by Dinshah and God bless you all!

EDITORIAL

REMARKS

The "Blue Baby" of J. B. is being well attended by the father. He uses the proper Color in a sensible manner and since March 1956, no Chart came to the Institute. It would be a good subject for a Studio Meeting to read from our Text Books Set, the Chapter 101, on "Childhood Disorders." It will show how our opponents have made stupid fools of the sick public. Chapter 102 also may be studied along with it. O. P. never sent a Chart. "Exposure" to Measles and similar Disorders is a big humbug. I never took any "Shots" for anything. Even during the time of the terrible Bubonic Plague, in one night I attended 13 cases and I never had any trouble. My views are openly printed and are well known. My advice is:— "Keep the Body clean." Why is it that all the Medical Doctors and their Nurses, who are not "shot," do not die of such "Infectious" Disorders? There would be no need to spray vegetables and fruits, if the silly game of hunting birds be discontinued. Those birds prosper in health by eating bugs and insects, in accordance with the Laws governing balance in Nature. They are the **FOOD** of the birds and when we shoot those birds, the balance of Nature gets a jolt and the result is known to you. Please, while I thank you cordially for your very kind words, I sincerely wish not to recommend the solitary, companionless life I lead to anybody!!! It is **ALL WORK AND NO PLAY!**

* * *

First Merrill Wisconsin Studio

W. B. — I should much rather see a large attendance; it makes the Meetings more interesting. It seems the few who do show up, are usually pretty well up and know what to do when have to use the Color Projector.

E. K. — I had a severe Cold. Used Turquoise, Magenta, Yellow; about 6 experiments. Kept working right on and was normalated. If it had not been for the Color Projector, I could not have been able to work.

E. M. — I used Yellow on the back of the Neck for Headache; just one experiment and it is better. Have Pain in Hands; just started taking the Lemon for that.

I. K. — I am taking Yellow and Lemon; I feel so tired much of the time.

W. B. — I suggest that perhaps if you eat some Raw Sugar, it might relieve that tired feeling. You are a Diabetic.

A. I. — I had a Kink in the Back. Indigo normalated that. As a rule, I used to take a little Orange, but, this time it did not take hold.

W. B. — That is something to use, if it does not pother much, but, when you have the Kink, Indigo is the right Color. When I do not have anything specifically wrong, I use Green and Magenta. I dug in the garden and used Turquoise, because, the Muscles were sore and that helped it. I shall now read to you from our magazine on "The Successor Of Dinshah." (After reading the article, said he: "Just an ordinary man could not take over.")

D. N. — A person would have to be a Lawyer and a Scientist to cope with the problems involved.

E. B. — I report about my husband. His heart pumps 4 times and then misses. Orange and Magenta were used. The Heart was 60 and the Respiration 25.

W. B. — I suggest Scarlet on 4 and then Indigo to bring the Breathing down.

E. B. — He quit Smoking since January; used Turquoise for a while.

W. B. — I shall read from our Axioms about using Indigo on Areas 17, 3, 4, 5.

Look to the **quality** always and not the **quantity**. The small attendance shows love for the Cause and a larger one may just attend for club room gossip; so, do not be in any way discouraged. I. K. does not follow our Rational Food System and in all till now sent two Charts. What can we do? E. B. should report to us about her husband. We are here to serve and nothing pleases us more than to note our Members benefiting by our service.

First Milwaukee Wisconsin Studio

K. B. — Do we have any Case Reports?

A. F. — I burnt my Hand with hot coal. I put Turquoise on it and it was painful for a while, but, soon stopped and there is no mark.

Member — Should she have used Blue?

A. F. — The reason I used Turquoise I wanted to help my Cold also.

J. S. — My son came down with a terrific Fever and a few days later, had a Childhood Disorder. Used Turquoise and Magenta and Yellow on 6, 7, 8, 9, 10. In five days, he was all right.

A. B. — I had a Common Cold and I used Turquoise, Magenta and Yellow. When my Ratio was normal, I used Lemon.

K. B. — What do you mean by Common Cold?

A. B. — A Head Cold.

K. B. — The other day, someone told me they had High Blood Pressure and went to a Dentist to have some Teeth pulled; before the Teeth were pulled, the Blood Pressure was taken. Is that the latest now?

H. K. — It was not when I practised.

K. B. — It is understandable that when you go to a Doctor or Dentist, the Blood Pressure will go up! If you go to a Doctor or Dentist, take Purple on Area 4 and if you have to speak before an audience, do the same. Some older people have a Blood Pressure of 280. We, in our work, do not need those things. If the Blood Pressure be high, the Pulse will pound. If you take Aspirin, the Heart Muscle becomes flabby. Then, the Heart does not function properly and the Ankles begin to swell.

A. B. — I like to know what damage Bufferin can do.

K. B. — They are all in the same group. Years ago, they had Potassium and Iodine. Lately, they use Chlorine. Potassium is on the Magenta Wave. Some practitioner in London, England actually followed our Guide Book. In all cases of those drugs, look at the label. Antihystedine was a "sure" remedy for Cold and they started using it and became dopy.

A. B. — Did you read the paper where some Doctors are claiming they should not use Penicillin? About 95 per cent. were wrong; they are beginning to claim things like Dinshah has been long saying.

K. B. — Today they find out the "Germs" have changed! The same as killing all the insects. Now, those insects are not responding. It is the Law Of Retribution.

A. B. — I recall another article, that the Medical Doctors are going to have an Injection to cure the Common Cold.

R. S. — That will take 5 years, they claim.

K. B. — Their only way to come back to normal is to swallow Pills.

F. K. — I cut out an article in the Milwaukee Sentinel about "Miracle Drugs" and sent a letter to the Institute and got the answer. (It was read.)

K. B. — If they would train the people, there would be less Hospitals. If they would side with us, they would learn something. We can not

be fooling ourselves after 25 or 30 years. Some times, people ridicule me about the "Light" wherever I go, but, I tell them "I hope you never have to use the 'Light'." One man was after me, but, he keeps on smoking, so, why should I waste my time? Being born and dying is natural; put your house in order and you can smile to the end.

I. B. — A man went from one Doctor to another Doctor and they told him he was all right. Now, he has Pain in his Stomach; do you think he has Cancer?

K. B. — They act on the same promises; give all hope to the Sufferer. All the Biotics used on children will all come back. I shall read to you an article from the Family Health Protector. Did anyone read the book by Medical Doctor Emanuel M. Josephson, called "Your Life Is Their Toy"? Who is familiar with the Injection in cows?

F. K. — I had an idea that if the Members did not have to answer some of the questions in the Personal Research Information Chart, we might have more Case Reports to discuss at the Meetings. I wrote about it to the Institute and Dinshah replied that if a different Chart were made, the Members would start sending that to the Institute instead of the customary one. (The reply was read.)

K. B. — You mean to tell me that I am smarter than Dinshah? That I know I am not.

A. B. — I think if anyone has the nerve to ask a question, they should be willing to answer all the questions.

K. B. — If one is sincere, the instructions will be followed.

R. S. — I mentioned to a number of people that if they do not want to reform their habits, "Do not do anything until you do."

K. B. — If you have Itching of the Skin, start with Green; it will stop the Itching. The Green Light is the most powerful Light.

A. B. — What determines taking Magenta on Area 18?

K. B. — It stimulates the Adrenal Glands.

A. B. — My wife read an article that a man's Heart Beat was 30 times in 1 minute; no mention of his Breathing.

R. S. — I observed a number of men at work; they chew their Finger Nails. What is the reason?

K. B. — Lack of Calcium in the System. There is want of the Infra-Green.

A. B. — Last year, my wife had a Miscarriage and I think she is pregnant now. Her Ratio is $4\frac{1}{2}$ to 1.

K. B. — Stay on Green.

O. L. — I have a remedy for biting Finger Nails; paint them.

K. B. — How about the men?

O. L. — Paint them too!

A. B. — What would cause Bones to crack? My wife has that every morning. Is that a lack of lubrication? If she comes down with a Common Cold, her flesh cracks open.

K. B. — If they are loose, they will snap out. Use Green and Lemon.
 M. B. — Bleached Flour can be kept 25 years.

R. S. — In warm weather, Unbleached Flour can be kept only a short time.

Mental or Emotional Agitation of any kind is liable to heighten the Pulse Beat and Pressure, the same as fear and worry. Aspirin is a Monoacetic Acid Ester of Salicylic Acid and since its introduction among children for Rheumatism, Sciatica and the like, sequence of Disorders of the Cardiac System have become noticeable. Bufferin is another recent commercial concoction with claims of its own. "Miracle Drugs" are wonderful solely in the way they fool the Sufferers temporarily. The reason why the same Chart is used for all reports is plainly psychological. It is human nature. If we have different kinds, each Member will take his choice and hide certain facts of a somewhat unmentionable character. Members must realize that all Charts coming to the Institute are **STRICTLY CONFIDENTIAL** and their contents are never divulged to even the closest relative or friend. You may talk freely in the Studio also, because, the Editor uses his own wide judgment in the printing also. K. B. ought to be smart to be with us so many years. He is all right in his position. R. S. is right in his attitude. Before releasing a Color Projector to anybody, it is imperative for the Institute to receive a complete Chart showing the use to which it will be put. Many Orders and Remittances are thus sent back unaccepted. Bones do not crack, it is the joints which sound, indicating movement adjustment. We have no use for Bleached Flour; let them keep it 125 years — in storage!

* * *

First New York New York Studio

R. D. — I just received my April magazine and am disturbed about the editorial remarks.

O. D. — We did not know what we did wrong. I wish to be told in a way so we can understand.

R. D. — That is not so easy, as so many wrong orders come in. There is not enough time to straighten out everybody. The Member with the very sick sister is being discouraged. When one is so far gone, one needs plenty of patience.

F. C. — I was the one who admitted her to the Organization. I told her that she will not have too much chance; she wanted to hire an Equipment; then, she ordered one for herself.

R. D. — If something goes wrong, you know who gets the blame. Are there any Case Reports?

A. M. — I burnt myself; after 20 minutes of Tonation, the Pain was gone.

W. G. — I had a Cold; in 2 Tonations, it was gone.

J. Z. — I had Pain in my Back and Leg; Dinshah told me to use Scarlet; it helped me much.

F. C. — I gave Lemon Systemic Front and Back for Cancer of the Breast; also Scarlet; I had excellent results. I want to talk about Cancer. Dinshah tells us it is from filth in the Body, depleted Energy, stagnancy in the Capillaries. That is how that Disorder starts. If you live on the Rational Food Of Man, you do not have to worry about Cancer. That is where the Lemon Wave comes in because of its characteristics. You can understand why it gives the beneficial results. You must know how to eat properly, nothing made from White Sugar or Bleached Flour. It is known that mice fed on White Flour become diseased. Besides, it just gums up the Body. Even Doctors take away Meat and White Flour from persons with Heart Disorders. Above all, Smoking is one of the worse offenders. Tobacco Smoke has 11 deadly Poisons. I was a heavy Smoker myself. Dinshah told me to quit Smoking immediately. I had 5 Operations. I had to learn the hard way. Please listen to me. If you do smoke, STOP IT. It hits the Heart. The Doctors admit Tobacco Smoking causes Cancer of the Lungs. Even after I stopped Smoking, I had a cancerous condition from the Throat down. I was also spitting Blood. Thanks to the Color Projector, those conditions cleared. I was given up for dead. None of the Doctors told me to stop Smoking; some told me to cut it down. In 1926, I was told I had Cancer of the Pelvic Bone. I determined to find something to help myself, when I heard the Doctors say "He would not live until the morning." I was through many Hospitals. Something said to me, "Look for Color Lights"! I looked through magazines; I found an article on an experiment with Colored Light on chickens. I came across a book by Dinshah, called "Healing Triangle Of Light." I became a student of his Organization of that time. When I got my Equipment, I was very sick. I started with Lemon and Magenta. I normalated a 67 year old woman who had Cancer of the Breast; I had several such cases; each responded wonderfully. Lemon Systemic Front and Back, Scarlet on Area 18. I kept the Light about 3 or 4 feet from the Sufferer. Our Lemonade (Limbupani) is a very important drink. The Lemon as a fruit, contains Potassium, which energizes the Heart, its Oxygen builds the Vitality, its Carbon acts as a Motor Stimulant removing the Backlim. It also contains Hydrogen, Calcium, Phosphorus, Sodium, Magnesium, Iron, Chlorine and Silicon. All this you have in your Lemonade. Be sure and drink it every day; use fresh Lemons.

P. Z. — Did you have experience with Dropsy?

F. C. — Yes; I tonated with Magenta on 4 and 18; she responded beautifully. Then, there was friction in her family; she went back to her Doctor and died a few months later. You do well to use Lemon Systemic. Every so often I am asked how to know what Color to use. Start with the

Green. After that, go over to Yellow. For Recent Disorders, go to the Ultra-Green; for Persistent Disorders go to the Infra-Green, any Wave from the Red up.

G. d'A. — I used Red for 18 days; it did me much good and brought up my Pulse.

R. R. — I have a Heart condition; I use Scarlet; does the Light become weaker if it is farther away?

R. D. — If I remember right, Dinshah says about 18 inches.

F. C. — I have it 3 or 4 feet, because, many people do not know how to focus it on the proper Area, when taking a Local Tonation. There are Medical Doctors who are curing Cancer; the Medical Trust is after them too. Do you realize how much money they would lose in Drugs alone? Morris Bealle wrote against the Drug Trust. He publishes now a sheet in Washington, D. C., called the Capsule News. You may subscribe to it. Dr. Harry M. Hoxsey, a Naturopath of Dallas, Texas, offered \$25,000.00 for anyone who can prove he did not cure people of Cancer.

F. R. — I know him well. He cured hundreds of cases of Cancer. He was investigated by seven Doctors; they had to admit it, but, you will never read anything in the newspapers about it. Most of the Medicos are aware of it; they want to keep the people sick. They know if the people would eat right, they would not have Heart Disorders and all other troubles.

F. C. — We can charge our battery with the Light; eat right and do not worry. Do not let them scare you into Vaccinations.

S. P. — I could not get away with my child; they did not admit her.

R. G. — What Color are we to use for Measles?

R. D. — Turquoise.

O. Z. — I have been a Member for a long time; we always have the same questions. Where is the trouble? In most cases, the Medical Doctor can tell where it is.

R. D. — That is where you are wrong. In most cases, they do **not** know. Our Science is very simple. Start with the Green; that cleanses the System. We have our Graduates.

F. C. — A. M. and many more. You can get advice from the Institute.

O. Z. — Why do we have to pother Dinshah? He is busy enough and when he is not there anymore, who will give the advice?

R. D. — If you read your magazine, you will know Dinshah will train a successor.

O. Z. — I know what the Light can do. I was poisoned from Paint 2 years ago; I sued the company. I had to see a Specialist. He said my Skin looks so perfect; I lost the case. Why do not people ask their questions here?

R. D. — They might want to have their privacy and want to get their advice from Malaga. It is a satisfaction to have contact with Dinshah. I want to thank F. C. It was nice to have him with us again; he is an old time stand-by. F. C., you held us together when it was most necessary. We can not thank you enough for that.

Study our Constitution And By-Laws and follow them. We do not sell Color Projectors for last minute Sufferers and those are the Orders we mostly get and — reject. If someone continues to go to the Doctor and uses the Projector also, if anything creditable happens “the Pills did it,” but, if misfortune overtakes, “that Color is a humbug.” The rough end is always our reward. The frank speech of F. C. was very generous and he deserves thanks for it. The Beam of Color should be so far away from the Sufferer as to cover the entire Body for Systemic Tonation; for Local Tonation, it should be as close as possible to compass the Areas to be tonated. Dr. Harry M. Hoxsey and I belong to the same American Naturopathic Association of which I am a Permanent Member. Our opponents are his opponents also. I know him well and heard him at the Chicago Conventions. He is a fearless and powerful speaker, having his own views about Cancer and its treatment with Herbs.

* * *

First St. Louis Missouri Studio

“The Successor Of Dinshah” from our April 1956 magazine was read and discussed. The Members were encouraged to write about it. The Editorial Remarks from the Studio Report also were read and discussed. The Chairman briefly explained what information is needed to make a complete Chart.

M. N. — I was exceedingly hungry for a week. Had a Sore Throat, Hot and Cold Spells. Then, I lost interest in food and drank Orange Juice with water and tonated with Yellow and Orange Systemic and Magenta on Area 18. After 3 days, I had good results.

M. W. — What can be done for Enlargement of the Heart? (Some discussion ensued. Magenta was suggested to normalate the Heart.)

B. Z. — Magenta increased my Heart Beat.

C. N. — If the Heart Beat be too low, Magenta will bring it up; if too high it may slow it down. When the Heart Beat be too fast, Purple will slow it. For each Breath, the proper number of Heart Beats is 4 or 5. That is the Ratio. All depends upon the amount of Energy one spends in work. An Enlarged Heart pumps more Blood in quantity into the Body, giving more Circulation according to the number of Beats and the Ratio.

M. W. — I had a Heart condition. For 36 hours, the Heart did not function properly. It would beat twice and then would stop for several Beats. Used Orange, but, it did not respond and I became frightened and called in a Doctor, because, if I had died without one, an Autopsy would be

performed, which I did not want. Once before, in such a situation, E. N. gave me Scarlet; however, I should have had to wait for the next Favor Time.

C. N. — In an emergency you need not wait for the Favor Time.

(Discussion followed and it came out that M. W. had eaten Barbecued Spareribs, which caused gas and pressure on the Heart; she drank plenty of "Mountain Water" also. After the gas was expelled, there was relief. C. N. warned against such indiscretion, but admired the truthful admission of M. W.)

R. B. — I think if she had used Lemon Systemic and Magenta on Areas 4 and 18, she would have had good results.

C. N. — For your Heart condition, Magenta once a day on Area 4 and 18 for a year would give good results.

M. W. — I need a Stimulant.

E. N. — Raw Sugar would give you good results.

C. S. — I think it should be clarified that an Enlarged Heart and a Fast Heart are not the same condition. On discussion, C. N. stressed the point that nothing can be done to reduce the size of the Heart, but, its Beats may be normalatated by the Magenta.)

E. N. — I like to report an experience we had with a young woman who came to us with a Sun and Wind Burn, which she got while on a vacation. She had used Blue and Turquoise, before coming to us, with no results. I put on Coconut Oil and used Yellow. After the first Tonation, the tension lessened and after three times, it cleared and there were no Blisters. I have had a similar experience when I got Sunburn in the water. Blue in such cases of Blisters gives no relief; Yellow breaks the Blisters and gives good results.

C. N. — That shows that a Burn gotten in the water is on the Ultra-Green and not on the Infra-Green. (Discussion started about High Blood Pressure.)

R. B. — I feel that is the result of Emotional Imbalance. The stress and strain of life may also cause it. Low Blood Pressure is not as dangerous as High Blood Pressure.

A. K. — My daughter had Whooping Cough. Her father insisted on taking the child to the Doctor who gave Medicine. From that, the child's Mouth swelled up and the Buttocks were covered with Pimples. I was convinced the Medicine had Penicillin and mentioned that before the child, who refused to take any more and insisted on the Light. In a few days, she was better with the Orange.

E. N. — When our two younger children had Whooping Cough, we gave them nothing but fruit and that helped them.

B. Z. — I had an experience with Hives. Used Turquoise and Violet as usual with no results. Tried Orange, Yellow and Lemon with no results.

C. N. — Did you notice the days listed at the bottom of the April 1956 Respiratory Rhythm Guide? It indicates the Preferred Dates For Initial Research.

B. Z. — I started on April 24, for the Hives, with Inferior Flux Potency.

C. N. — That date is NOT marked there, but, be not discouraged. Hives is a Skin Disorder and is hard to tonate. If you persevere, the Blood Chemistry will change and you will have satisfactory results.

M. N. — I think it is necessary to mention that we have now Day-light Saving Time, so one hour should be added.

E. N. — Also check your Time Table for the Eclipse this month, so no Tonation may be taken during that period.

A. K. — My son complains about his Eyes. They were Red and Irritated. He thought it was caused by dust. I thought it was due his not getting enough sleep. I examined the Eyes, but, found nothing. I gave him Turquoise, which gave relief. I examined his Eyes again and found a Sty. I gave him Orange, Turquoise and Magenta and the Irritation disappeared. I forgot to notice whether it came to a head, opened and drained.

B. Z. — What shall we do for Pain in the Tail Bone?

A. K. — I had that and used Magenta and Lemon with good results.

(A discussion started about Poison Ivy. It was suggested to take a bath with strong Yellow Soap and irradiate afterwards with Turquoise and Blue. Then the talk turned to Food, especially Pies and Lemonade.)

There came no recommendation from your State about the "Successor!" M. N. did well. M. W. never sent any Chart. Her wrong food is the main cause of her trouble. You are doing well in discussing and answering.

OUR THIRD ANNUAL CONVENTION

After addressing the Joint Convention of the American Naturopathic Association, Inc. and the American Association For Medico-Physical Research, on Saturday, August 25, 1956, at the Hotel La Salle, in Chicago, Illinois, on the subject of "Sugar Cure For Diabetes Mellitus," our President Colonel Dinshah P. Ghadiali, will hold our Third Annual Convention, at the New Republican Hotel, in Milwaukee, Wisconsin, on Saturday, September 1, Sunday, September 2 and Monday, September 3, 1956. All our Studio Commissions are requested to refer to our By-Law 43 and send their Delegates. Complete Program of our Convention will be printed in the next issue of the Visible Spectrum Researcher.

DINSHAH IMPARTIAL

(The Universe Through The Eyes Of Dinshah)

HOW TO DETERMINE SOCIALISM

Newspapers, Radio Announcers and supposed learned talkers and writers publish what they believe is "Socialism," but, I have my doubts as to the capability and eligibility of any and all of them to present the exact meaning of that word. Webster's Dictionary gives the definition of Socialism as "An economic system based on public ownership of the means of production, distribution and communication, as land, mineral resources, basic industries, railroads, public utilities, etc." The New Century Dictionary elaborates on Socialism as "A theory or system of social organization which aims at securing better distribution and more effective production of wealth by the vesting of the ownership and control of the means of production, capital, land, etc., in the community as a whole; also, procedure or practice in accordance with this theory." Very good, but, how are we to judge whether any movement or principle of legislation or any Law leads us into the dangerous direction of Socialism or otherwise? There are over 6½ million Statutes in our great United States and as if that be not enough, there are around 3½ million more of the Federal Government. Just somebody has to think of something and a Law is made. We have thus become the most legislated country in the World and none knows how to regulate life so as not to become a Violator, because, the meaning of the word "Law" has become "the **interpretation** by the last jackass on the Bench." This confusion does not include the multimillions of such interpreted Citations. Thinking deeply over the unfavorable results of such irregularity, I thought it best to present a cursory understanding about the truth hidden behind the word "Socialism" and to present also a gauge by which an ordinary layperson may realize where we are being headed. Am I qualified to speak about it? I leave that to the reader of this article. It was in 1910, when I lived in London, England, that I read an advertisement of the Anti-Socialist Union Of Great Britain, asking for candidates to act as lecturers for the Union, which was then under the Presidentship of the Duke Of Devonshire. Having been on the public platform since 1891, thirsting for knowledge and an opening for public service, I sent an application, one among nearly 1,500 candidates. Out of that number 115 were selected and trained under day and night professors, for six weeks. Then, an examination was given and 55 came through; I was among that batch. Then, the day students were placed in the night class and the night ones in the day class, thus, getting more knowledge from the different professors. Then, a day was set for the final examination, with Claude Lowther, a brother of the Chairman of the British House Of Commons in the chair. To make matters realistic, to test the ability of the candidates, about 200 persons from the passers-by were made to act as an audience of hecklers. One of the pro-

fessors would call a name, the Chairman would cite a certain theme and the selected candidate had to speak on that subject, a heckler would barge in with a silly question and the candidate must give satisfactory answers, completing the entire peroration in just — 4 Minutes! 35 passed the badgering and my humble self having come first in rank, was commissioned as the Graduate Speaker of the Union, to take the others as a team into parks and public places to win our side in the Parliamentary Election. We won. Thus trained in the inside of Socialism, I dare to present a short way to determine what that word conveys.

There are four **Birth Rights** of all Human Beings. They are:— Liberty, Property, Security and Right Of Contract. No power in the World can legitimately diminish or curtail any of these Personal Birth Rights. Liberty means the Freedom to do what you think is right, as long as you do not disturb the rights of others. That is, your Liberty stops where the tip of my Nose begins. Property means acquisition of worldly material, acquired by your own labor or legitimately conveyed to you as your possession. Security means the guarding of such acquired property from confiscation or acquirement without just and commensurate compensation. Right Of Contract means the measurement of compensation for the performance of any act, duty or service, without the intervention of unjustified, unisided clauses. Thus, whenever any Law is enacted, apply to it the gauge of these four Birth Rights and anything or anybody that even tends to interfere with the exercise of these or any of these Birth Rights, savors of Socialism and has absolutely no business or right in a Governmental Republic as we brag we are in this highly advanced, supposedly educated, beautiful Country. In closing, I may take the liberty to state without offense, that in my unprejudiced opinion, we are being headed by the politicians toward downright SOCIALISM. Challenge me on a public platform and you will have such significant proofs that you will regret the day you gave the challenge. May the Almighty Powers save our glorious America!!!

* * *

BRITISH DOCTORS TEACHING AMERICANS

This month, the British Medical Association had its Convention in Brighton, England and there were around 350 Medical Doctors present. As usual, they had the sign in the Meeting Room "No Smoking." One of the Members, Dr. J. O. McDonagh stated that "We of the medical profession give shocking examples of drugging ourselves all the time," when according to custom a voice vote was taken. "No Smoking" carried by a heavy majority and a sensible, good example was thus set for the Master Dopers in America to follow.

OUR STUDIO DIRECTORY

On the First Thursday of each Month, there is held a Membership Meeting, at 8 P. M., in each of our following Studios, for reporting the results and findings of Personal Experiences in the use of the Visible Spectrum of Light and Color:—

First Allentown Pennsylvania Studio—Hotel Americus, Fifth and Hamilton Streets, Allentown, Pennsylvania. Catherine Knebel, Chairman, 234 E. Hamilton St., Allentown, Pennsylvania. Pearl M. Diehl, Vice-Chairman, 642 N. West Street, Allentown, Pennsylvania. Nellie Etta Spaar, Reporter, Route 4, Box 93, Quakertown, Pennsylvania.

First Cleveland Ohio Studio—The Colonial Hotel, 523 Prospect Avenue, Cleveland, Ohio. Albert J. Martin, Chairman, Sleepy Hollow Lake Road, Brunswick, Ohio. Louis Friedl, Vice-Chairman, 14220 Birchwood Avenue, Cleveland 11, Ohio. Theresa J. Soree, Reporter, 9216 Orchard Avenue, Cleveland 9, Ohio.

First Detroit Michigan Studio—Knights of Columbus Hall, 4740 Woodward Avenue, Detroit 1, Michigan. Albert Greenham, Chairman, 30906 Robert Drive, Livonia, Michigan. George G. Weiland, Vice-Chairman, 19692 Hanna, Detroit 3, Michigan. Elfriede Kolmetz, Reporter, 6735 Meadow Avenue, Van Dyke, Michigan.

First Merrill Wisconsin Studio—New Badger Hotel, 310 West Main Street, Merrill, Wisconsin. Walter Briese, Chairman, 707 E. Third Street, Merrill, Wisconsin. Edward Katke, Vice-Chairman, Route 6, Merrill, Wisconsin. Dorothy Nelson, Reporter, 1814 West Main Street, Merrill, Wisconsin.

First Milwaukee Wisconsin Studio—The New Republican Hotel, "A" Hall, corner North Third and West Kilbourn, Milwaukee 3, Wisconsin. Kurt W. Bader, Chairman, 314 E. Burleigh Street, Milwaukee 12, Wisconsin. Fredrick Kneppreth, Vice-Chairman, 10120 W. Harrison Street, West Allis 14, Wisconsin. Florence Gutsch, Reporter, 3041 North 53rd Street, Milwaukee 10, Wisconsin.

First New York New York Studio—Hotel Diplomat, Blue Room, 108-110 West 43rd Street, New York 18, New York. Ralph W. Die-drichs, Chairman, 423 Jackson Avenue, Mineola, Long Island, New York. Hildegard Muehlfriedel, Vice-Chairman, 817 Lancaster Road, Ridgefield, New Jersey. Margarete B. Wolschendorf, Reporter, 19 Van Buren Avenue, Norwalk, Connecticut.

First St. Louis Missouri Studio—Albrechts Hall, 3549 Arsenal Street, St. Louis 18, Missouri. Clemens M. P. Neumann, Chairman, 4348 Virginia Avenue, St. Louis 11, Missouri. Walter Bloss, Vice-Chairman, 6408 Lansdowne, St. Louis 9, Missouri. Marie J. Parison, Reporter, 7525 Comfort Avenue, Maplewood 17, Missouri.

**OPEN DECLARATION FROM THE EDITOR
DINSHAH P. GHADIALI**

NO WARRANTY, NO GUARANTY, NO LIABILITY

Since in June 1922, I became the Editor of a similar monthly magazine, controlled by another Corporation (now dissolved), I had complete records of all Case Reports and personal matters in my files. Those were totally destroyed on Tuesday, January 2, 1945, by a disastrous Fire of unknown origin, which burnt my 30 room Main Office Building and Laboratory, causing a loss of over \$250,000.00, being without insurance.

A few months later, Law Suits were instituted in the United States District Courts, at the instigation of certain opponents of the new Science of the Visible Spectrum and because of our inability to produce the original documents as proof of various contested matters, verdicts were rendered against me and the controlling Corporation to the effect that our literature was false and misleading under the Federal Food, Drug and Cosmetic Act, as a result of which we received heavy Sentences and Penalties, I being dubbed a "quack" and a "faker." \$125,000.00 of printed literature was also destroyed by Court Order.

The American Medical Association and Licensed Medical Doctors and Surgeons strenuously maintain that the Visible Spectrum of Light and Color has no Therapeutic Effect and that it has absolutely NO HEALING or CURATIVE VALUE.

For that reason the VISIBLE SPECTRUM RESEARCH INSTITUTE openly warns the Reader, that the said INSTITUTE issues this Monthly copyrighted in accordance with the Constitution of the United States of America, Article 1, Section 8, Sub-Section 8, protected under Article 1 of the Bill of Rights; the Reader who uses the contents as basis for own investigation, experimentation and (or) research along the lines of the Visible Spectrum, to determine the Powers and Effects of Light and Color upon Living Organisms or otherwise, will do so on own absolute responsibility, taking and assuming ALL RISKS pertaining to such activities.

VISIBLE SPECTRUM RESEARCH INSTITUTE
