THAT'S A GOOD QUESTION

Under the above caption, Medical Doctor William Bolton, as the Editor of the said department in "today's health", a monthly publication of the American Medical Association, wrote in its March 1953 issue an answer to an inquiry about:—

"COLOR THERAPY

Question — A friend tells me that a method called color therapy is now being developed by which various illnesses may be treated successfully. Do you have any information about this?

Answer — From time to time, theories are advanced that color may have value as a treatment adjunct in medicine, but we do not know of any evidence that a specific disease ever has been cured through the use of color alone. Various colors may have some value so far as mental attitudes of many patients are concerned, and this idea has been utilized in some hospitals. For example, walls and ceilings of hospital wards or rooms may be painted a light blue or green because such tints are believed to have a soothing effect. In general, colors probably should be considered for their secondary effect in helping a patient to overcome excitement or worry about an operation or illness."

TREATMENT BY "SILENT SOUND"

The same Medical Doctor in the November 1956 issue of "today's health," wrote a long article on the treatment of kidney and gall bladder stones, relieving pain, soreness and tenderness in certain kinds of bursitis, peri-arthritis, fibrositis, tenosynovitis, myofacitis and myositis, rheumatoid arthritis and osteoarthritis, successfully by means of "Silent Sound," "Supersonic Waves" or "Ultrasound," which is Sound Waves that the Human Ears can not catch. Sound upto 32,768 Oscillations per Second can be heard, but, after that range the Human Ears can not utilize it as Sound and the said Medical Doctor recommends for "Silent Sound" treatment 500,000 to 1,000,000 Oscillations per Second.

So, if that Frequency can produce the stated results, what about the Oscillatory Frequency of our Visible Spectrum Of Color, which has what I described and utilized decades ago as:—

562,949,953,421,312
Oscillations Per Second???

This publication is an answer to the stated view, as in our service to our Members, their own convictions by their personal investigations, researches and experiments will give them the accurate view of the Truth behind the Visible Spectrum. Let the reader judge for self.

NOTICE TO ALL

We accept no gifts or gratuities, as to a Servant Of Mankind it is graft. Send us nothing.

You may send your Book for review or opinion; you may send your Writings or Experimental Findings and Reports for publication, provided they are not plagiarized or false and bear your hand signature in ink, with full name and address.

Anonymous communications will receive no attention. Submitted articles will not be returned.

All correspondence should be addressed to:— Visible Spectrum Research Institute, Malaga, New Jersey and not to any officer or individual.

For the views expressed in signed articles, the writers are responsible; for the opinions in articles bearing no identification, the Editor shoulders the sole responsibility.

THAT IS A GOOD ANSWER By:-INDIVIDUAL EXPERIMENTERS

REPORT BY DR. LESLIE A. CHAMBERS
AND DR. EARL W. FLOSDORF

(Published By Dinshah In July 1936.)

“Dr. Leslie A. Chambers and Dr. Earl W. Florsdorf of the University of Pennsylvania in Philadelphia, Pa. report in the Proceedings of the Society for Experimental Biology and Medicine that high pitched Sounds oscillating at 8,900 Frequency per Second, are able to destroy Streptococcus Hemolyticus by blasting the Germs through ‘Cavitation.’ It is stated that ‘So powerful is the vibration that it overcomes the cohesive strength of the water, tears the molecules apart and leaves vacuum spaces or vacuoles which look like bubbles! During the process, Light also is evolved.’” The reader will please note, that what we taught years ago is not yet known to our opponents, because, they never investigated our Science. Dr. Chambers and Dr. Florsdorf deserve credit, but, it is a matter for regret, that our opponents admit the potency of 8,900 Oscillations per Second, yet, close their mind about the Oscillatory Frequency used by us:—

562,949,953,421,312 per Second!

A further nonsensical idea is that our opponents use X-Rays promiscuously, without regard to its caustic and dangerous effects, also without realizing that the man they ridicule (Dinshah) was the **first lecturer** on those Rays in the year 1896, in New York, when most of his opponents did not even dream of being born!!!

* * *

CHRONIC CONSTIPATION, HEADACHES, SEVERE BACKACHES MUSCULAR PAINS REPORT BY W. K.

My ailments before I owned a Color Projector were Chronic Constipation, lots of Headaches, Severe Backaches and Muscular Pains in the Calves. The Constipation I tried all kinds of Laxatives; without success; for the other ailments I went to see two Doctors; each one’s diagnosis was different and no relief. It got so bad that it was annoying and troubling me at my work. When I heard of the Visible Spectrum and became owner of one, my troubles of Constipation were over; no more Laxatives. The Pain in my Calves, Backaches left me; Headaches are as good as gone, thanks to the most wonderful achievement in Science by Colonel Dinshah, the only and only one Visible Spectrum. (Signed and Affirmed Before C. C., Notary Public.)

* * *

ENLARGEMENT OF HEART REPORT BY K. F.

The following is the condition of my wife P. F., age 43:— “When entering the United States of America, I already had Heart Trouble. The Medical Doctor diagnosed it. Enlargement of the Heart. The Steamship

Company had to post Bond, so I may enter the U. S. on account of my Heart Trouble. Every week, I had one to two Heart Attacks, which were so severe that I was very weak and I had to rest in bed. I used Witch Hazel compression. In 1935, my husband obtained a Visible Spectrum Equipment and when having another attack as usually, he persuaded me to use the Visible Spectrum. I used it the first time. During the first 15 minutes, my Heart stopped every 13 seconds; after using Visible Spectrum for 30 minutes, the Heart stopped every 40 seconds and after the hour was over, the Heart beat as regular as a clock, without a single miss. That convinced me what Visible Spectrum was able to do. I now feel very good and occasionally my Heart may beat faster, especially when War News or other exciting news reach me. These attacks are now so seldom that months may pass and are only due to undue high excitement. This ends the statement of my wife." I state that Visible Spectrum would be the last thing that I would give up. (Signed and Affirmed Before C. M. P. N.) Notary Public.)

* * *

ALL DISORDERS REPORT BY W. B.

I have successfully normalatated every Disorder my family and myself have had in the past 10 years. (Signed and Affirmed before N. M. C., Notary Public.)

* * *

ADHESIONS, DEFECTIVE BOWEL MOVEMENT REPORT BY A. A. W.

Eight years ago, I had an Operation, which was unsuccessful. One year after, I was filled with Adhesions, which meant another Operation. At this time, I heard of Visible Spectrum. The Adhesions also affected my Bowel Movement. Within a week, I had a regular Bowel Movement after using Visible Spectrum and have had ever since. Within 6 months, my Adhesions disappeared, thanks to Visible Spectrum and Dinshah P. Ghadiali. May God bless him! I am 74 years of age. (Signed and Affirmed Before W. C. S., Notary Public.)

* * *

INTESTINAL INFLUENZA, COLITIS, PAIN, SINUS DISORDER REPORT BY L. F.

This is to certify that I am a user of Visible Spectrum, since March 1942. Visible Spectrum was not offered to me; I was seeking and looking for someone that knew about Light and Visible Spectrum was my answer. My daughter and myself had been the victims of a severe case of Intestinal Influenza. My daughter had a major Operation at the age of 4 years and was handed out to me from one of the large Hospitals, with Intestinal Flu and I contracted it from her, being in poor health over a period of years and four Operations, which never restored my health. It left my daughter and myself with a severe case of Colitis, always having Pain in the Intestinal Tract, which no Doctor was ever able to clear up. Visible Spectrum

has entirely cleared that up; we never suffer any more Pain; has also cleared up E.'s Sinus condition and many other ailments. We never use Medicine; only Visible Spectrum; its merits are unsurpassed in any sickness. We pray that Colonel Dinshah may live many more years to be of service to mankind. (Signed and Affirmed Before J. A. F., Notary Public.)

OUR STUDIO ACTIVITIES

EXPERIMENTER FINDINGS AND QUERIES

MEETINGS OF THURSDAY, SEPTEMBER 5, 1957

First Cleveland Ohio Studio

A. M. — What side of the Spectrum should one use to improve Eyesight?

An. M. — Tonate on the warm side of the Spectrum. For Inflammation, tonate with Blue.

F. B. — I received a change of Color through my Chart, from the Institute. I am now tonating with Orange Systemic on Back and Yellow on Areas 6, 7, 8, 9, 10.

A. M. — I suggest that you follow instructions received from the Institute. I like to know about the Hand of J. D.

J. D. — It is very much improved. My Colors also were changed. They are now Indigo and Orange Systemic Front.

A. M. — I had a touch of Flu; tonated with Green Systemic Front; drank fruit juices and cut down on the intake of solid food.

Discussion was on the harm of Fluorides in drinking water. Chapter 66, from Volume 2 of our Text Books Set, on "Red Corpuscles And Anemia" was read.

* * *

First Detroit Michigan Studio

A. G. — Friends, tonight I am going to quote from the Family Health Protector, a booklet which I believe most of you have. It sells for 25 cents each. There is no better way of introducing our Science to friends, than through this little booklet. To attempt a technical discussion of our Science, is difficult and this booklet is a good means of informing people. I received a letter from Mr. and Mrs. C. H. today. Mr. H. was never sick a day in his life. Now, he could not pass his Front Elimination. He used Magenta two or three times without any results. After the third day, he collapsed. His wife became very panicky and called in a Physician, who rushed him to a Hospital. This happened June 24th and he just returned home today. He is about 66 years old and has had Prostrate Gland trouble. He underwent 3 Operations since June, the last one performed only a week ago and now has 5 or 6 Tubes inserted in different parts of his Body and the cost amounted to \$1,000.00 for one Doctor, \$250.00 for another and he is still awaiting bills from several others. I feel sorry for people who do not know what to do out of fear. When something happens, they lose confi-

dence and become nervous and to give advice is like giving dynamite. The amount of human suffering is frightful. The evolution of transportation from a square wheel to jet airplanes, shows the tremendous amount of progress that has been made in this World; progress in everything except modern Medicine and yet the Doctors are so rushed and have their offices so crowded, that many do not even bother making house calls anymore. We have a Science that is built upon Mathematical precision and it will never change, just as the Musical Scale of Do, Re, Mi, Fa, Sol, La, Si, Do will never change. That is Science. We may modernize our Equipment, but its fundamentals will not change and it will be as good tomorrow as it was yesterday. Most of the so-called "bad luck" from our system results from people slipping by the wayside and the two will not go together. Everything that we think is right, we should honestly analyze. People insist Meat is necessary for the diet. Meat is secondary food. Why not eat our food first hand? The Bible continually admonishes against Meat and prohibits Flesh and Blood. The slaughter animals undergo highly emotional upset prior to their execution and their process of elimination continues even after death and goes into the Tissues. That is why the consequence of eating Meat is so serious. Then, these people need Tranquilizing Pills, et cetera. The greatest trouble of our Students is that they continue their old habits and also use the Visible Spectrum. It does not make sense. Either use one or the other. Why give the Visible Spectrum a bad name, because the user violates the prescribed mode of living? Now listen to a few chapters from the Family Health Protector. (He then read Articles 38, on "Medical Humbug Of Heart Disorders;" Article 43, on "Esoteric Religion Forbids Carnic Food;" Article 44, on "Man's Anatomy And Physiology Prove Him Herbivorous." These were very enlightening to numerous Members and they wanted copies of the said book.)

G. N. — I have a friend who would like to attend these Meetings.

A. G. — Your friend can become a Student Researcher for only \$3.00 a year membership. We have a new Member here tonight, W. F.

W. F. — I injured my Arm two months ago. I ordered my Equipment, but, did not receive it yet. I read the Family Health Protector today and it certainly contains plenty of information.

A. G. — I shall now read Chapter 50 about our Science, from "American Sex Problems." (It was read and found informative. The Radiometer was then exhibited with a Portable Color Projector, as different Colors having different Radiation. He then described the various Attributes of the Colors, also the working of the Digestive Tract, showing why Enemas and Colonic Irrigations were not advisable. The working of the Thyroid and Parathyroid Glands was enunciated. He also spoke about the Pancreas and the Thymus Gland.)

R. K. — I am following the Rational Food Of Man and feel well enough not to require any Tonations right now.

A. G. — It is sometimes difficult to live according to that System, when we live with spouses who refuse to follow it. When you have opposition in the home, then, you have a problem. Our System is the finest, but, you must accompany it with the proper habits.

W. K. — My son, who is 16 years old, has Adolescent Pimples. He has been taking Tonations. I tried to explain to him the importance of avoiding certain foods; I can not report any results yet, as he just started tonating.

G. N. — The Color Projector has been wonderful for my mother, who is 87 years old. She comes to me quite frequently for help.

M. V. — I am a new Member and have an Equipment, but, do not know how to use it. For what is the Water?

A. G. — The sole purpose of the Water is to protect the Slides from cracking by the heat of the Bulb.

M. V. — I am pothered with an over-enlarged Liver as shown by X-Rays by a Chiropractor and I have Backaches.

A. G. — Let us take your Kardoscil and Spiroscil. (It was 66-13.) You should fill out a Chart and send it to the Institute. Be sure to fill in every item or you may not receive an answer. There is no Diagnostician that knows as much as Dinshah in our Science. Your Ratio is much too low and should be 80 or 90 to 20 or 22. Increase both by using Orange Systemic Front and Back and Scarlet on Areas 4 and 18. If the Front Elimination be normal, then, you may omit the Scarlet on 18. Use that way for 30 days and report your progress at our next Meeting.

L. G. — I usually take two Tonations a week. Lately, I had Sore and Bleeding Gums, which were so painful that I could hardly eat. I used Turquoise and they tightened immediately and are fine now. My reason for using Turquoise was that this condition was recent, painful and inflammatory. I always check the Instruction Book.

A. G. — The original instruction book is available as Exhibit in the "One Thousand Years Ahead." All its copies were destroyed during the last Law Suit against Dinshah. That is all for tonight; good night, friends!

We agree with A. G. about the trouble in homes in regard to food. However, that is upto the persons concerned. We give even the Cook Book FREE to the Color Projector Purchaser, but, we can not COMPEL them to follow instructions. W. F. got his Equipment in September 1957, but till now the Institute has **no** report of the use he made of it. The same remark applies to our worthy friend M. V. She has the new Visible Spectrum Instructor, on page 5 of which in Article (d) under Assembling The Projec-

tor is this:— “The Tempered Glass ‘Thermocept’ is for Heat Interception from the Slides. Insert it behind the Rear Condenser and always keep it filled upto its neck with Distilled Water. USE NO OTHER WATER. DO NOT USE TAP WATER.” She was given many other instructions about food and habits, but, since getting the Equipment two months ago, she never wrote to us or sent any Personal Research Information Chart. She was recommended by Graduate Researcher C. R. and she could have asked any question of him as Introducer, but, where silence is maintained we can not extend our helpful services. Her Ratio originally was as 69 to 11; wrong food, wrong habits.

* * *

First Merrill Wisconsin Studio

Discussion was had on the Reports of the various Studios, especially the First Milwaukee Wisconsin Studio.

M. S. — I had Dizziness; used Green, Yellow and Magenta; am feeling fine; occasionally used Lemon.

G. V. H. — I had Pain in Areas 8, 9, 10; used Orange, Magenta and Lemon. One Turquoise on Areas 8, 9, 10 for Soreness. Normalated.

E. K. — I had Cramp in Leg. Used Orange with Magenta on Area 4. I also had a Swelling in Elbow; used Turquoise and Magenta; normalated.

G. V. H. — I was hit on the Jaw by the washing machine wringer; used Turquoise and was normalated successfully.

C. G. — I made the Cheese according to the recipe given; it was very good.

I. K. — I use all of the Whole Wheat Flour for making Bread.

Studies made from the Reports of other Studios are commendable. From others we learn the difference of different minds. Continue your sensible efforts.

* * *

First Milwaukee Wisconsin Studio

F. K. — Good evening, everybody. One month ago, we were surprised by our President. Those of you who were not here, missed something. Some of you Members cut out a clipping; what you should do is to tear out the entire sheet, to show from where it is and the date. I like to read an interesting article from our magazine; how many read this article? Dinshah has been writing interesting articles and in the July 1957 magazine he tells how you may get advice on personal problems. I like to read in the First Volume of our Text Books Set. Those of you who were at the Convention, heard Dinshah. It may not be interesting to our old time members, but, we have new Members all the time. (He then read “Presen-

tation To The Sick And Suffering Mankind" and Chapter 1, "Pilloried Prophets.") I want to say something about Henry Ford. None in Milwaukee had the foresight or his big plant that is in Detroit now could have been here. He had a machine shop then on the South side. Have you any Case Reports?

C. P. — We never see Dinshah's name anywhere; it wil come out now. Morris Bealle wrote "The Messpot In Washington," etc. and published a Health Column; also wrote about ----- and ----- . He says that in his next issue of Saturday, September 14, 1957, he will have "The Dinshah Story" in his American Capsule News.

Member — Is it possible to get a copy?

C. P. — I shall try to get extra copies.

N. T. — I had a bad Cough last month and I did not get results until I used Lemon. I used Yellow, but, after I used Lemon, in two days I was better. I had another experience. I fell down the steps and I did not use the right Color. Then, I used Orange and in 3 days I was better. I used Magenta for Circulation and used Yellow. I do not know why I used Yellow!

F. K. — Did you have Pain?

N. T. — Yes.

F. K. — Then, should you not have used Turquoise? Was it discolored?

N. T. — I do not think so.

F. K. — There is a rush of Blood to the Area and the thing to do is to use Turquoise or Blue or go down to Violet and then go to Turquoise. I fell and I used Blue, because of severe Pain and then Orange, but, I did not have a conglomeration of Blood. It depends on circumstances of the Blood. You use the Green Wave for cleansing and you go down the Spectrum according to the condition. The thing from which I am trying to get away is using medical terms. If the chemistry of the Body becomes unbalanced, Nature lets us know and we have to correct it.

R. S. — Suppose you have an Accident. Your Blood is partially unbalanced because you have a Cold and you have an Accident. You have to go to the Affinity Color.

F. K. — That is why Dinshah says you should fill a Chart.

R. S. — Not only he will know, but, you will know also.

N. T. — I also had a Sty; I used Turquoise and that helped.

L. S. — Mine always is so complicated. I had a wedding in the family and it felt like I had a pressure and the way I decided to help myself; my Kardoscil and Spiroscil was the same as it always is and it developed in a Cold; then, I decided to use Turquoise for 2 days and my Backelim stopped and then, I used Lemon and it cleared up.

F. K. — Yellow will move the Bowels; then, you may go to Violet.

C. P. — To come to a conclusion by Ratio, can you explain the little?

K. B. — That is always the same story. First find out what is

Ratio, 4 to 1 or whatever it is. Find out what was eaten the day before. If you use Yellow, it helps along by throwing it out. If it keeps on for weeks or months, that is different. Some time ago, I had a Sufferer that went 12 times a day. First, I started out with Green, that acts as a Germicide and Cleanser. The same as the lady that fell, she used Green and Magenta. That is good; it will help the Circulation, but, I always look to see what the Ratio is.

F. K. — Regardless of what the Ratio is, 4 to 1 or 5 to 1 will recover; 3 to 1 is doubtful; if it be 2 to 1, the person will have slight chance for recovery.

C. P. — Then the best one to use is Magenta.

L. S. — About 2 months ago, my son was sick and his Kardoscil was really low; then, I used Magenta. I asked him how his Elimination was and we took care of that and used Orange; then, after he was relieved, his Kardoscil went up.

F. K. — When there is a Cramp, use Orange. If an individual be injured and the Blood does not go to the injured part, what Gland is unbalanced?

Member — The Pituitary Gland.

F. K. — That is one of the reasons why Dinshah advises us to stay away from Alcohol, as it ruins the Pituitary Gland. Its Posterior has Fibers which eventually act on the Spleen and Liver. (He then explained about the action of the Thymus Gland for growth. Some discussion resulted.) Now, I shall read to you from the Third Volume of our Text Books Set, Chapter 87, "Secrets Of The Pituitary Gland." (It was read.)

L. O. — I want to know if bad Teeth be contributing factors toward the toxic condition in the Blood to unbalance the Body chemistry? The Nerves were removed 10 or 15 years ago.

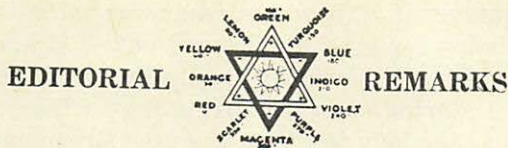

F. K. — K. B., do you think that is the trouble?

K. B. — No, I do not. I had a habit of cracking Nuts with the Teeth. Finally, they became so loose, I could move them back and forth. The Dentist told me to have them pulled out. I had the Color Projector only a few months and I tried the Light; first, I tried to ease the Pain with the Indigo. It did not help; then, I switched to Orange and a Blister developed, which filled with Pus; soon as the Blister burst, the Pain was gone. Then, I used Green and Indigo and I still have my Teeth! You may use Green and the condition will clear up.

A. F. — Do you remember Mr. L.? The Doctor told him to have his Teeth removed and he put his Teeth on the Table!!!

K. B. — Two company Doctors claimed the Teeth caused Inflammatory Rheumatism. He had his Teeth removed, but, the Disorder did not disappear. You have to use the Rational Food Of Man. You have to use the Teeth. There is a saying:— "The Organ is as strong as its use." If there be an overrich Blood, that may cause Pyorrhoea.

F. K. — I liked your testimony. I thank you all for coming.

Morris A. Bealle is an independent, impartial writer of strong mentality. As soon as he published "The Dinshah Story," I thought it better to let the Members know some facts of our past, so we mailed a copy with two cents postage stamp to each Member, with the September 1957 issue of our magazine. Many of our Members are subscribers of the American Capsule News. What that "Story" brought on my head is printed elsewhere in this issue. My opinion about Medical Diagnosis is well known to you; that "teeth on the table" proves it! In your report, I found a notation about refusing admission to certain Members who had 1956 Cards. C. L. was quite right about it. We are a strictly Fraternal Organization under our State Of New Jersey Charter and our Studio Meetings are held strictly according to the Rules regulating Fraternities. Furthermore, any Members presenting a Membership Card **without** hand written Signature on it shall not be admitted. Refer to our By-Laws 38, on Registration And Admission.

* * *

First New York New York Studio

R. D. — Are there any Case Reports? My whole family, father, mother, wife and children, including myself (with the exception of the 3 month old baby) suffered from Diarrhoea, Nausea, Vomiting. It lasted for 24 hours. We tonated with Green and Yellow. I read an article in the ----- magazine, about Asiatic Flu; according to them, there were thousands of cases with similar symptoms. Those Disorders attack when your resistance is low. Keep warm, irradiate with Lemon and Green; I do not know what we had, but it was gone in 24 hours without after-effects.

D. R. — The ----- says the Asiatic Flu is the biggest fake.

R. R. — Before I went to the country, I had a check-up. I was suffering from Heart Disorder before joining this Organization. The Doctor took a Cardiogram; he was surprised how I improved. He said: "Whatever you are doing, keep it up." I am using Orange and Magenta. I am 69 years old and still very active and working hard. I am an Auto Machinist.

R. D. — Heart Disorders can be remedied with the Visible Spectrum. Magenta is the Suprarenal Stimulant and Cardiac Energizer; the Irradiation will act immediately on Areas 4 and 18. By strengthening the Heart Muscle and potentizing its Rhythm, Magenta acts as an Emotional Equilibrator and Stabilizer. Magenta is the predominant Color of the Aura of a normal human being.

M. K. — What Color should be used for Poison Oak?

R. D. — Same Color like Poison Ivy; Turquoise and Green Systemic.

E. W. — I hurt my Spine badly; the Chiropractor put it in place.

I was in Pain and unable to move; I felt as if I was paralyzed. Yellow on 6, 7, 8 and 9 and Orange on the Back did wonders for me.

R. D. — I had a Double Fracture on my Head; I know what Pain I had on my Face and Neck. In no time at all, the Light restored me. It acts like a miracle.

E. B. — I had much Pain in my Stomach region, due to a Hernia. Dinshah advised me to have a belt made. I could not stand the Pain anymore. I was operated. That was months ago. Now, I get the same Pain as I had before the Operation. I am afraid to send in a Chart.

R. D. — Dinshah is not against Constructive Surgery. In an Operation, the whole System goes through a terrible shock. Have patience. Do send in a Chart; we are here to help one another.

H. M. — First of all, you have to stop worrying; your whole inside tightens in a knot and nothing will help you. Keep on with Lemon and Magenta. I had so much trouble with Hot Flashes. After taking Yellow and Lemon Systemic, I feel so much better.

H. H. — I have trouble with the wiring of the Equipment; the insulation got soft.

O. Z. — I sent for Bulbs; they are \$8.00 each. If anybody needs one in a hurry, I have a spare.

J. B. — I used mine for 6 years.

M. W. — Everybody should have a spare Bulb. Do not use it if it becomes very black inside, otherwise, you will not have the proper results.

R. D. — We have a new Member present; are there any questions?

W. B. — What is one to do in order to obtain a Color Projector?

R. D. — Fill the Order Blank, Membership Request and the Personal Research Information Chart of the Sufferer. Send them with the money; to take personal delivery, do not go to the Institute without an appointment.

O. Z. — Do you have to go there or will it be sent?

R. D. — It can be sent, but, it can also be received personally.

H. H. — Will the Slides deteriorate?

R. D. — Never; the Slides are not just tinted.

H. M. — Just keep them clean with a little soap and water; do not use any harsh cleansers.

B. G. — Will there be directions how to use the Light?

R. D. — Yes, there is a booklet that comes with the purchase of an Equipment. This Member has no Introducer. She read the "Healing Triangle Of Light" by Dinshah from the library and then wrote to him.

B. G. — Are there other organizations doing research in that particular field?

R. D. — Not to my knowledge outside of our circle. We are not the only ones who use Color Therapy for healing. Dinshah perfected it; outside of us none has Magenta Attuned Color Wave. Our Attuned Color Waves

are mathematically graded to certain Degrees, giving certain Wave Lengths, for projection on the Body. There is no guesswork.

M. W. — We can never have a Slide replaced without sending the whole Slide-Carrier; each Color is attuned to the other.

H. H. — Has a Graduate Equipment more effect, having a 2,000 Watt Bulb?

R. D. — Dr. Kate W. Baldwin got the first one; she used it in the Woman's Hospital; the Light Beam reaches farther.

H. M. — Dinshah has not enough help; that is why he does not manufacture the 2,000 Watt Equipments.

D. R. — You may overload your wires; you would need special wiring for that.

R. D. — I am so sorry; I was not present when Dinshah's sixth son was here.

H. M. — It was very nice to have Hom with us; he is a wonderful boy.

M. W. — I am sure I speak for all of us, if I ask him to come again soon. (Applause.)

Member — How can a new person join the Organization?

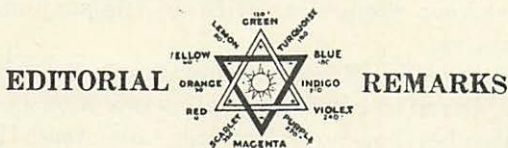

R. D. — By applying for Membership and sending \$3.00 to the Institute, unless you are introduced by another Member signing as your Introducer.

H. D. — I feel wonderful when I take Green; Yellow does not let me sleep.

R. D. — What is your Pulse Beat? What is your Respiration? Front and Back Eliminations?

H. D. — I have a 98 Pulse, 15 Respiration, 1 Backelim a day.

R. D. — That is definitely out of balance; a Ratio of 6 to 1. Why do you take Green? Take Yellow on 6, 7, 8, 9, 10 and Purple on Area 4. Send your Chart to the Institute. Your Kardoscil and Spiroscil need to be corrected. Use the Projector properly; you can regulate your Pulse. Live upto the Rational Food Of Man. (He then read from the Third Volume of our Text Books Set, Chapter on Magenta.)

The report of E. B. about that Hernia Operation having been performed "months ago," sounds queer, as her Chart of former years declared "Rupture Operation performed in 1928!" Why should she be "afraid"? I eat only the Rational Food Of Man! The Institute is ever at your service. When any Bulb gets black covering inside, its filament disintegrated and the

Equipment decreases in efficiency. Many old time Members are still using such Bulbs and they have to blame themselves for not getting expected results. M. W. was correct in giving the advice. Never clean the Slides with scratchy material. B. G. is a Student Researcher. She sent a letter stating she "fell out of a 9 story window. Landed on head." She was anxious to visit your Studio the next Thursday so out of sheer courtesy, her Student Card was mailed promptly, with a request for the Membership form. Later, another Membership form was sent to her with a letter, but, to this day, she never sent the form. Many Members complain about our strictness; here is the reason. They do not appreciate the services rendered and the vital necessity of preservation of the Organization by enforcement of impartial, strict Rules. H. D. is registered with us as G. H. D. Members should always sign as on their Cards. Studios please note.

First St. Louis Missouri Studio

The Chairman stated he went to our Fourth Annual Convention. He then read an article in a Pennsylvania weekly, under the caption "Listen, Doctor." As the Medical Doctors are constantly changing their methods, they now record different cases and instead of having to plough through plenty of reading, all they have to do is to turn the Tape Recorder. The article in question mentioned a case of Malnutrition in young babies.

C. N. — What would you Members do in that case? We have no Differential Diagnosis.

Member 1 — Irradiate Yellow.

Member 2 — Use Orange for Circulation.

Member 3 — Green for cleansing.

Member 4 — Has an unborn baby its own individual Blood Stream?

C. N. — The baby unborn is not only fed through the mother's Blood Stream, but, is affected by the mother's thoughts and feelings.

Member 5 — Can the Light be used anytime?

(The Chairman explained the Variant Breath Phenomenon in detail and also how to fill the Personal Research Information Chart when seeking advice from the Institute.)

In addressing the Studio Meeting, each Member should speak his (or her) own first and last name, so the editor may know who was the questioner. Blind questions and answers may have no value. Reporters of Studios, please note this and request compliance. Thank you!

DINSHAH IMPARTIAL

(The Universe Through The Eyes Of Dinshah)

WONDERFUL FOOD FOR THE AMERICANS

Montclair, New Jersey, is reported to have a business place, offering exceptionally tasteful delicacies, suited to those who will not eat anything unless it is out of the grasp of the common people. Here is a partial list, with prices, for the use of those of our Members who do not relish or appreciate our Rational Food Of Man:—

- | | |
|-------------------------------------|--------|
| 1. Chocolate-covered Ants | \$2.00 |
| 2. Skewered Baby Octopus | \$1.88 |
| 3. Tender Rattle-Snake Meat | \$2.98 |
| 4. Young Roasted Caterpillars | \$1.95 |
| 5. Fried Bumble Bees | \$1.87 |

Should you feel sick reading this, eat it and judge for yourself!

KNOCKING AGAIN AT OUR DOOR

It was 12:30 in the afternoon of Tuesday, October 29, 1957; I was getting the October 1957 Visible Spectrum Researcher ready for the mails, our third Trustee Martha Jane Sarosh Ghadiali was helping in the work, when she noticed an automobile entering the yard. I went out and two gentlemen emerged from the car. They announced themselves as coming from the Food and Drug Administration and showed their credentials. I requested them to come into my office, which they did and gave me a signed Notice, for inspection of the premises. I took them all over, including the Auditorium. A few minutes later, son Sarosh came in by a telephonic appointment. The officers asked various questions from a sheet of typed paper, to which I answered and they noted them on their sheet. Finally, they asked me to give them the names of the Members using the Color Projector and the records of the money received. I emphatically declined as not being the Law under the Constitution. I told them I had a Color Projector on which the United States Patent Office granted me exclusive Patent Rights and that my literature and even the monthly magazine was Copyrighted in the Library of Congress. The facts were duly declared on my Label and literature. I handed them copy of the label, the October 1957 Visible Spectrum Researcher, Family Health Protector, Constitution And By-Laws, Life Sketch In Short Of Colonel Dinshah P. Ghadiali, Personal Research Information Charts (both White and Pink), Wisdom In Wise-cracks, Our Current Price List and the like. In conclusion, I requested them to ask their superiors to make full investigation of my original Science, by putting my request for it in their report. At 3 P. M., marking such time as the Inspection Notice, they departed and the next day, I sent to both the Officers, the following communication by Certified Mail, with Receipt Requested:—

Wednesday - October 30, 1957.

Eastern Standard Time:— 2:19 P. M.

Kind Attention:—

Mr. Robert Nelson Palmer,

Mr. Josh Randolph,

Officers.

Food and Drug Administration,

1204 New Custom House,

PHILADELPHIA 6, PENNSYLVANIA.

Esteemed Sirs:

1. This is in regard to your visit to our Principal Office, in Malaga, New Jersey, yesterday, Tuesday, October 29, 1957, for the purpose of an Inspection, which you made from 12:30 P. M. to 3:00 P. M.

2. We gave you all the information to which you were constitutionally entitled and also handed to you our Label, Order Blank, October 1957 Visible Spectrum Researcher, Personal Research Information Blanks, (both white and pink), as well as our Family Health Protector book, so you may study the origination of this new Science which took the writer over Thirty Years and the results of which have been successfully presented to and by the public, for the past Thirty Seven Years.

3. The truth and the scientific exactitude of this Original Science was duly tested and gained full support in the Supreme Court of the State Of New York, in Buffalo, during the year 1931, where the writer was charged with Grand Larceny for selling an allegedly worthless Equipment and was UNANIMOUSLY ACQUITTED by the Verdict of the Jury. The writer fought that case as usual without any attorney.

4. At the end of your "Investigation", we gave you a request to present to your superiors in your report to the effect that we are perfectly willing to give to your appointed Officers or otherwise, our full Course of Instruction, with the Text Books and the like at our expense; the Course is the one for which our Members pay One Hundred Fifty Dollars each. Then, after completing the Course, we shall gather a Special Convention and you will be at liberty to challenge the writer before the Member Audience, to prove any potential DEFECT in our Science and Equipments, all of which is duly patented and copyrighted in the United States Patent Office and the Library Of Congress, in Washington, D. C.

5. If your appointed challengers can win in that public debate, WE shall be willing to take the same PENALTY as is described on page 64 (page Sixty Four) of our Family Health Protector, which we presented to you yesterday.

6. We can not see how any other manner may decide the issues involved. Should you have any suggestions to offer to correct Literature and Label or any matter connected with our scientific activities, if you will in fairness and justice let us have them and we promise to give them due attention.

7. With the best regards and the kindest wishes for the welfare of our beloved America, we remain,

Yours very respectfully,
 VISIBLE SPECTRUM RESEARCH INSTITUTE,
 by Dinshah P. Ghadiali,
 President.

OUR AIM:—*Happiness In Every Home*

From the evening of that day, I was plagued on the Long Distance Telephone, by Members of our Organization, that Federal Officers were coming to their homes and asking all kinds of questions and many of them confirmed their telephonic information subsequently by letters. I told them openly that under the Bill Of Rights of the United States Constitution, Article IV, none had the Right Of Search And Seizure except as provided:— “The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.” The humor of the situation is that officers’ visits have been reported to me from Florida to California and some queer results accrued. The Food And Drug Officers went to the transportation companies and got the names and addresses from the Bills Of Lading. One woman in Illinois stated to the Officers that she was so highly satisfied with our services and the efficiency of the Color Projector, that her husband was sending an Order for **another** Projector. This was done the next day!!!

In writing my letter to the F. and D. A., I asked for a full Investigation and should they succeed in winning me in an open debate, I promised a Penalty to operate against me. This is that Penalty:—

PENALTY

IF YOU WIN, I AM WILLING AND READY TO PRESENT TO YOU ALL MY INVENTIONS, PATENTS, COPYRIGHTS, TRADE MARKS, BUSINESS, PRINTING PLANT, PROCESSES FOR MANUFACTURE — EVERYTHING I HAVE, INCLUDING MY ENTIRE VISIBLE SPECTRUM RESEARCH INSTITUTE AND ALL ITS BELONGINGS, GIVE YOU AN ABJECT UNCONDITIONAL APOLOGY AND FOREVER RETIRE, LEAVING THIS COUNTRY NEVER TO RETURN.

The following is the copy of the present Label on ALL Color Projectors supplied to our Fraternity by the Visible Spectrum Research Institute, under the Charter of the State of New Jersey, granted on June 19, 1953:—

VISIBLE SPECTRUM COLOR PROJECTOR

(NOT for the Emission of Infra-Red, Ultra-Violet or X-Rays)

Has 110-120 Volt Floodlight Bulb, for 60 Cycle A. C.; with Glass Water Container for Cooling and Five Color Slides to match in Commercial Production of Twelve Colors as specified in U. S. Patent Number 1,544,973 of July 7, 1925 and U. S. Patent Number 2,038,784 of April 28, 1936, of Dinshah P. Ghadiali.

A WARNING TO PURCHASER ABOUT NO WARRANTY, NO GUARANTY, NO LIABILITY

Since the grant of the stated Patent in accordance with the Constitution of the United States of America, Article 1, Section 8, Sub-Section 8 and the marketing of the Projector, a disastrous fire of unknown origin, destroyed the Main Office Building and ALL the original records of the Case Reports and similar personal matters, with a property loss of over \$250,000. This happened on Tuesday, January 2, 1945.

A few months later, Law Suits were instituted in the United States District Courts, at the instigation of certain opponents of the new Science and because of the inability of the Inventor and his controlling Corporation to produce the original documents as proof of various contested matters, verdicts were rendered against the defendants to the effect that the literature pertaining to the use of the Projector was false and misleading under the Federal Food, Drug and Cosmetic Act, as a result of which the Defendants received heavy Sentences and Penalties, the Inventor being dubbed a "quack" and a "faker"!

The American Medical Association and Licensed Medical Doctors and Surgeons strenuously maintain that the Visible Spectrum of Light and Color has no Therapeutic Effect and that such a Projector has absolutely NO HEALING or CURATIVE VALUE.

For that reason, the VISIBLE SPECTRUM RESEARCH INSTITUTE openly warns the Purchaser or User, that the said INSTITUTE sells this Projector to the Purchaser WITHOUT ANY WARRANTY, GUARANTY OR LIABILITY.

The Purchaser or User who uses it for own investigation, experimentation and (or) research along the lines of the Visible Spectrum, to determine the Powers and Effects of Light and Color upon Living Organisms or otherwise, will do so on own absolute responsibility, taking and assuming ALL RISKS pertaining to such activities.

Friday, June 19, 1953.

NO THERAPEUTIC CLAIMS ARE MADE FOR THIS PROJECTOR

Serial Number RI.....

VISIBLE SPECTRUM RESEARCH INSTITUTE

Non-Stock, Non-Profit, Scientific, Fraternal, Corporation Chartered Under The Laws of The State Of New Jersey

Dinshah P. Ghadiali, President

Principal Office And Experimental Laboratory, Malaga, New Jersey,
United States Of America

Furthermore, before a Member or a person introduced by a Member, may get a Color Projector, the Purchaser MUST sign having full knowledge of the facts concerned and an unconditional, unreserved "Disclaimer" on the Order Blank, agreeing that NO THERAPEUTIC CLAIMS ARE MADE FOR THE COLOR PROJECTOR:—

ORDER BLANK

Dinshah P. Ghadiali, President

Principal Office And Experimental Laboratory, Malaga, New Jersey,
United States Of America

Please, enter my Order for the following merchandise, which may include your books, literature and (or) Color Projectors.

I am aware that:— Since the publication of the books, a disastrous fire of unknown origin, destroyed ALL the original records of the Case Reports and similar personal matters printed therein. This happened on Tuesday, January 2, 1945.

A few months later, Law Suits were instituted in the United States District Courts, at the instigation of certain opponents of the new Science and because of the inability of the author and his controlling Corporation to produce the original documents as proof of various contested matters, verdicts were rendered against the Defendants to the effect that their literature was false and misleading under the Federal Food, Drug and Cosmetic Act, as a result of which the Defendants received heavy Sentences and Penalties, the Author being dubbed a "quack" and a "faker". \$125,000.00 of printed literature was also destroyed by Court Order.

I also know that:— The American Medical Association and Licensed Medical Doctors and Surgeons strenuously maintain that the Visible Spectrum of Light and Color has no Therapeutic Effect and that it has absolutely NO HEALING or CURATIVE VALUE.

I read your book "FAMILY HEALTH PROTECTOR" and am conversant with the legal involvements and penalties undergone by Dinshah P. Ghadiali and his prior corporation. Therefore, I unconditionally and unreservedly assume all risks in the use of the books and Color Projector for the experimental purposes mentioned in your Constitution and By-Laws.

The reply to our letter of the 30th of October, 1957, was received by us on Saturday, November 23, 1957. Here it is:—

November 21, 1957

Visible Spectrum Research Institute
Dinshah Estate,
Malaga, N. J.

Attention: Mr. Dinshah P. Ghadiali, President

Dear Mr. Ghadiali:

Your letter of October 30, 1957, to Messrs. Palmer and Randolph is acknowledged.

With respect to the literature and labels referred to in the sixth paragraph of your letter, we are of the opinion that the color projector, labels, and literature presently used by you are just as objectionable as the spectrochrome device, label, and literature which were the subject of court cases at Brooklyn, New York, in 1945 and at Camden, New Jersey in 1946 and 1947.

We know of no way by which the Visible Spectrum Color Projector can be legally shipped interstate under any form of labeling which recommends or suggests that it is effective in the treatment of diseases.

Sincerely yours,

Robert C. Stanfill

Chief, Philadelphia District.

THANKSGIVING DAY
NOVEMBER 28, 1957
DINSHAH'S 84TH BIRTHDAY

It is my Birthday! The day, when
My most beloved mother brought me
Into this World, gave me an incarnation
Which proved so fruitful to me! It is
My natal day, when I should take the stock
Of my thoughts, words and deeds of the past,
Check back on my errors and reform my ways
To better the new year for human service.

A Birthday is
A day for inventory,
For atonement, promise
And resolution for advance.

OUR STUDIO DIRECTORY

On the First Thursday of each Month, there is held a Membership Meeting, at 8 P. M., in each of our following Studios, for reporting the results and findings of Personal Experiences in the use of the Visible Spectrum of Light and Color:—

First Cleveland Ohio Studio—The Colonial Hotel, 523 Prospect Avenue, Cleveland, Ohio. Albert J. Martin, Chairman, Sleepy Hollow Lake Road, Brunswick, Ohio. Jacob Dussing, Vice-Chairman, 1253 Melbourne Road, East Cleveland 12, Ohio. Theresa J. Soree, Reporter, 9216 Orchard Avenue, Cleveland 9, Ohio.

First Detroit Michigan Studio—Knights of Columbus Hall, 4740 Woodward Avenue, Detroit 1, Michigan. Albert Greenham, Chairman, 30906 Robert Drive, Livonia, Michigan. George G. Weiland, Vice-Chairman, 19692 Hanna, Detroit 3, Michigan. Elfriede Kolmetz, Reporter, 6735 Meadow Avenue, Van Dyke, Michigan.

First Merrill Wisconsin Studio—New Badger Hotel, 310 West Main Street, Merrill, Wisconsin. Walter Briese, Chairman, 707 E. Third Street, Merrill, Wisconsin. Edward Katke, Vice-Chairman, Route 6, Merrill, Wisconsin. Dorothy Nelson, Reporter, 1814 West Main Street, Merrill, Wisconsin.

First Milwaukee Wisconsin Studio—The Republican Hotel, "A" Hall, corner North Third and West Kilbourn, Milwaukee 3, Wisconsin. Frederick Knepprath, Chairman, 10120 W. Harrison Street, West Allis 14, Wisconsin. Otto H. Lutz, 3823 North Fifth Street, Milwaukee 12, Wisconsin, Vice Chairman. Florence Gutsch, Reporter, 3041 North 53rd Street, Milwaukee 10, Wisconsin.

First New York New York Studio—Hotel Diplomat, Blue Room, 108-110 West 43rd Street, New York 18, New York. Ralph W. Die-drichs, Chairman, 423 Jackson Avenue, Mineola, Long Island, New York. Hildegard Muehlfriedel, Vice-Chairman, 817 Lancaster Road, Ridgefield, New Jersey. Margarete B. Wolschendorf, Reporter, 19 Van Buren Avenue, Norwalk, Connecticut.

First St. Louis Missouri Studio—Albrechts Hall, 3549 Arsenal Street, St. Louis 18, Missouri. Clemens M. P. Neumann, Chairman, 4348 Virginia Avenue, St. Louis 11, Missouri. Walter Bloss, Vice-Chairman, 6408 Lansdowne, St. Louis 9, Missouri. Viola C. Steiner, Reporter, 9632 Tesson Ferry Road, Affton 23, Missouri.

**OPEN DECLARATION FROM THE EDITOR
DINSHAH P. GHADIALI**

NO WARRANTY, NO GUARANTY, NO LIABILITY

Since in June 1922, I became the Editor of a similar monthly magazine, controlled by another Corporation (now dissolved), I had complete records of all Case Reports and personal matters in my files. Those were totally destroyed on Tuesday, January 2, 1945, by a disastrous Fire of unknown origin, which burnt my 30 room Main Office Building and Laboratory, causing a loss of over \$250,000.00, being without insurance.

A few months later, Law Suits were instituted in the United States District Courts, at the instigation of certain opponents of the new Science of the Visible Spectrum and because of our inability to produce the original documents as proof of various contested matters, verdicts were rendered against me and the controlling Corporation to the effect that our literature was false and misleading under the Federal Food, Drug and Cosmetic Act, as a result of which we received heavy Sentences and Penalties, I being dubbed a "quack" and a "faker." \$125,000.00 of printed literature was also destroyed by Court Order.

The American Medical Association and Licensed Medical Doctors and Surgeons strenuously maintain that the Visible Spectrum of Light and Color has no Therapeutic Effect and that it has absolutely NO HEALING or CURATIVE VALUE.

For that reason the VISIBLE SPECTRUM RESEARCH INSTITUTE openly warns the Reader, that the said INSTITUTE issues this Monthly copyrighted in accordance with the Constitution of the United States of America, Article 1, Section 8, Sub-Section 8, protected under Article 1 of the Bill of Rights; the Reader who uses the contents as basis for own investigation, experimentation and (or) research along the lines of the Visible Spectrum, to determine the Powers and Effects of Light and Color upon Living Organisms or otherwise, will do so on own absolute responsibility, taking and assuming ALL RISKS pertaining to such activities.
