**OPEN DECLARATION FROM THE EDITOR  
DINSHAH P. GHADIALI**

**NO WARRANTY, NO GUARANTY, NO LIABILITY**

Since in June 1922, I became the Editor of a similar monthly magazine, controlled by another Corporation (now dissolved), I had complete records of all Case Reports and personal matters in my files. Those were totally destroyed on Tuesday, January 2, 1945, by a disastrous Fire of unknown origin, which burnt my 30 room Main Office Building and Laboratory, causing a loss of over \$250,000.00, being without insurance.

A few months later, Law Suits were instituted in the United States District Courts, at the instigation of certain opponents of the new Science of the Visible Spectrum and because of our inability to produce the original documents as proof of various contested matters, verdicts were rendered against me and the controlling Corporation to the effect that our literature was false and misleading under the Federal Food, Drug and Cosmetic Act, as a result of which we received heavy Sentences and Penalties, I being dubbed a "quack" and a "faker." \$125,000.00 of printed literature was also destroyed by Court Order.

The American Medical Association and Licensed Medical Doctors and Surgeons strenuously maintain that the Visible Spectrum of Light and Color has no Therapeutic Effect and that it has absolutely NO HEALING or CURATIVE VALUE.

For that reason the VISIBLE SPECTRUM RESEARCH INSTITUTE openly warns the Reader, that the said INSTITUTE issues this Monthly copyrighted in accordance with the Constitution of the United States of America, Article 1, Section 8, Sub-Section 8, protected under Article 1 of the Bill of Rights; the Reader who uses the contents as basis for own investigation, experimentation and (or) research along the lines of the Visible Spectrum, to determine the Powers and Effects of Light and Color upon Living Organisms or otherwise, will do so on own absolute responsibility, taking and assuming ALL RISKS pertaining to such activities.

## NOTICE TO ALL

We accept no gifts or gratuities, as to a Servant Of Mankind it is graft. Send us nothing.

You may send your Book for review or opinion; you may send your Writings or Experimental Findings and Reports for publication, provided they are not plagiarized or false and bear your hand signature in ink, with full name and address.

Anonymous communications will receive no attention. Submitted articles will not be returned.

All correspondence should be addressed to:— Visible Spectrum Research Institute, Malaga, New Jersey and not to any officer or individual.

For the views expressed in signed articles, the writers are responsible; for the opinions in articles bearing no identification, the Editor shoulders the sole responsibility.

## THAT IS A GOOD ANSWER By: INDIVIDUAL EXPERIMENTERS

**RECTAL FISSURES, CHRONIC CONSTIPATION, FLU, SEVERE  
SUNBURN, ANEMIA, RASH, SCALDING, BRUISES,  
MENTAL UPSET, COLDS, STOMACH ULCER  
REPORT BY E. M.**

Heard of the Color Projector just at the time when Doctor wanted me to undergo Surgery, for Rectal Fissure in 1939. To avoid this, I bought a Color Projector and to my amazement it corrected this condition, also Chronic Constipation speedily and also helped me in the following conditions:— Flu, Severe Sunburn, Anemia, Rash, Scalding, Bruises, Mental Upset, Colds. The neighbor, who introduced me to the Visible Spectrum, was healed of Stomach Ulcer in 3 months, after the Doctors treated him for this condition for 2 years, without success. We surely treasure our Projector; consider it the best investment for health ever made. May God bless Colonel Dinshah, who devoted a lifetime to help suffering mankind! Wish more people would learn what potential healing power God has given us through Light and Color. (Signed and Sworn before K. G., Notary Public.)

\* \* \*

**HEMORRHOIDS, NERVOUSNESS, HEADACHES,  
VOMITING REPORT BY E. B.**

For about 3 years, I suffered from Hemorrhoids, which pothered me very much and which were very painful. When entering change of life, I became very nervous and suffered with severe Sick Headaches. I was confined to bed, otherwise I suffered Vomiting spells which were uncontrollable. I used exclusively the Visible Spectrum for the above mentioned conditions and now I am feeling fine. In fact, I am now in a much better and healthier condition than ever before. Thanks to the Visible Spectrum! I would not part with my Color Equipment for any consideration, because, I can depend on it; it helps me. (Signed and Affirmed before C. M. P. N., Notary Public.)

\* \* \*

**ABDOMINAL PAINS, GROWTH  
REPORT BY H. B.**

In 1937, I felt some Pains in my Abdomen and I went to a Medical Doctor, who prescribed medicine of all descriptions. The Pains grew worse and I went to another Doctor and changed Doctor again, even went to a Doctor in -----, but, to no avail; the Pains increased daily. I finally was operated on the Abdomen and my Doctor who brought me to the Hospital and helped to operate, told my children that I have a Growth in my Abdo-

men, that looks like a spider and it entangles the Intestines. If that Growth would be cut out, it would mean death; I would never leave the Operation Table ALIVE! So, they cut in my Abdomen, healed up and medicine was given again. I went to another Medical Doctor in ----- and he told me he could do no good. I went to another Doctor, who wanted to operate again, but, I did not consent; my children persuaded me to try something else. My children heard about the Visible Spectrum . . . C. N. . . . instructed me in the proper use of the Equipment. For two weeks, I traveled 110 miles to use this Equipment and later, used it in my own home. The Pains at times were so severe, that I held my Abdomen walking the floor. The recovery was very slow. However, I felt some better and I decided to have a Color Equipment for myself. I obtained a new Equipment and used it daily. After four months, I felt very much better and I gained from day to day in strength; my weight increased about 40 pounds. Within six months from the time of using the Equipment, I again started to work my farm as usual and feel fine ever since. After a heavy day's work, should I feel tired, I use my Color Equipment and feel O.K. again. No money could buy my Color Equipment. (Signed and Sworn before D. A. B., Notary Public.)

\* \* \*

#### **SWELLING, HARDENING OF LEG, SARCOMA REPORT BY A. L. B.**

During the month of November 1943, my boy A., now age 12, had a Swelling and Hardening of the Right Upper Leg. In December 1943, he was taken to the Hospital and an Operation was performed, removing a piece of Tissues from the Right Upper Leg, which was examined and the Medical Doctor diagnosed it as Sarcoma Cancer. An immediate Amputation of the Leg was advised. However, later, Medical Doctor decided to use X-Ray treatments. He first received a series of twelve X-Ray treatments on the Leg and later another fourteen X-Ray treatments on the Right Upper Leg, discoloring the Leg very much; it became dark brown in color. After some time, X-Ray treatments were declared a failure and Amputation of the Leg advised imminently necessary. I now decided to use the Visible Spectrum and started to tonate during April 1944 and since used the Color Projector exclusively without any other help. Within six months, the Swelling and Hardening of the Upper Leg disappeared and the Leg looks now normal in size and regained its natural color. I wanted to mention that the Swelling of the Leg was one-half above its normal size and now is just normal. My boy now acts and plays like any other normal boy and just feels fine. I am indeed more than satisfied with the results I have obtained by the exclusive use of the Color Equipment on the Leg of my boy. I feel that the Color Projector is indeed a real blessing in my family. (Signed and Affirmed before C. M. P. N., Notary Public.)

\* \* \*

## BURN, BLISTERS, FEVER REPORT BY A. P.

I am a proud owner of the Visible Spectrum and would not part with it for anything in the World. The Visible Spectrum and its use has brought my family untold riches in Health and Happiness. We have had many uses of our Color Projector that were beneficial and did what the Originator proposed. One day, my wife had an Accident; a kettle of boiling Starch that she was preparing for her clothes, was tipped from the kitchen stove and spilled on her Right Foot, going into her shoes and burned her very severely. She immediately prepared herself for a Tonation of Blue and in one hour, the Burn was gone. A visitor happened to come in just at the time of the Accident and stayed with her; you can imagine her surprise; in fact, this Accident did not lay up my wife, so, she proceeded to do her washing and stayed on her feet. Of course, Blisters formed, but, with proper Tonation, it soon healed up. My little boy, 6 years old, had a severe Fever — just burning up. He looked so pathetic, lying there and panting; one Tonation with Color Blue was immediately given. Later that night, he had another Tonation and lo and behold! The following morning, we found him just as healthy and singing in bed. It is marvelous to think that the Originator . . . accomplished with the help of God . . . that he brought Color Science right in our home. We have not had a Doctor in our home for the past seven years, since using the Visible Spectrum. Various other illnesses were successfully tonated with the Color Projector — wonderful Light! (Signed and Affirmed before T. F. M., Notary Public.)

## OUR STUDIO ACTIVITIES EXPERIMENTER FINDINGS AND QUERIES MEETINGS OF THURSDAY, JANUARY 3, 1957 First Cleveland Ohio Studio

The new Officers took their respective positions as Studio Commissioners.

A. M. — I had a Ear Discharge for several years. Since tonating with Green for another condition, the drainage from the Ear also stopped. I am very happy about it.

The question arose as to what is the importance of knowing how frequently one sneezes, since the people of Denmark and Sweden use their Snuff to induce sneezing and apparently suffer no ill effects. Chapter 20, "One Page A Minute," from Volume 1, of our Text Books Set was read.

F. B. — I am elated with the way I am feeling; the Lump on my left side seems to have moved from over Area 6 to Area 9 and is bringing up much Phlegm. My walking even seems to be improved. His Chart is enclosed.

A. M. should send his Chart for the advice of the Institute. F. B. was given certain instructions to follow, which are likely to be beneficial. As regards the question of the "Sneeze", is has very deep importance attached to it. Darken a room and let a beam of bright Sunshine enter it through a small hole or slit. You will easily note that there are numerous dirt particles floating in the air illuminated by that beam. In taking our breath, we allow these floaters to enter our nostrils, which are lined by mucous membranes of a peculiarly sensitive character. That dirt collects there and comes out when we blow the nose. However, some of the dirt is liable to enter the lungs and create therein irritation. A time comes when the accumulation of those particles has reached a certain point when Nature resents its presence and the diaphragm contracts and jerks the lungs, which in their turn force the material out of the nostrils; that is the Sneeze. By noting the Ratio with frequency of the Sneeze, a significance is reached as to condition of the organs concerned. Snuff is nothing but powdered tobacco leaves and not only Denmark and Sweden, but, England, India and most other countries use it the same way as the wrong habit of smoking. The titillation produces the Sneeze as any other foreign matter might produce and the habit is to be deprecated. When in a Personal Research Information Chart, an unfavorable report comes about the Sneeze, showing the Sufferer did not sneeze for months (say 6 months) a warning voice from Nature has spoken in its quiet way, that the lungs and diaphragm are weakened and dissolution of life from the Physical Plane may be surmised as imminent and not far.

### First Detroit Michigan Studio

A. G. — Good evening, friends! I just got through reading December 1956 issue of our magazine. Members have been asking frequently about the Itisometer, so Dinshah answers that he will have a Portable Itisometer, when facilities permit. He is working under difficult conditions, as the 1945 Fire destroyed all his laboratory and all data of his inventions. When the day arrives that he will be able to market the Portable Itisometer, it surely will be a blessing, for, in capable hands, it will definitely show the condition of the Body. Now, if each of us could bring just one Member, who would have for study also a set of our Text Books, he would be able to bring out his Portable Itisometer. I, for myself, will try hard to get a new Member.

Members — We shall try our best to get some new Members.

A. G. — On the last page of the same issue, Dinshah cites a case

under the caption "Ever Heard Of Such A Case? Among the strange cases that come to me for Personal Research Information, this one has a \$64,000 question. It is from a person who is alive. The Chart of E. H. states Front Elimination 3 times in 1 week, Back Elimination 1 time in 1 week, Pulse 58 and Respiration 18 in 1 minute. The Sufferer lost many vital organs in the past and this is the first Chart. Let some competent Graduate Researcher send comment on this special case. Where is the joker?" I like to hear your comments on it. It sounds like a joke, but, it is no joke. I myself want to think over this case and make a separate comment on it.

J. J. — One comes across some odd cases. There is a man in the shop where I work, whose Kardoscil is 46, Spiroscil 24. I thought there must be a mistake and took his Ratio several times, but, that is what it is. He drinks a quart of Whiskey a day. Another case was of a woman, whose Ratio was 60-30. After taking just one Tonation of Magenta, her Ratio changed to 74-24. Now, in the case that Dinshah mentions, I should first correct the Front and Back Eliminations, with Yellow Systemic and Scarlet on Area 18. What Organs were removed?

A. G. — It does not say what Organs were removed, but, I guess perhaps one Kidney, the Gall Bladder and Appendix.

R. H. — May be he or she eats or drinks only once a week.

A. G. — I could see one Back Elimination in one week, but, not three Front Eliminations in one week. You can get along without food for a while, but, not without water for any length of time.

L. B. — I should first correct the Eliminations; tonate with Yellow Systemic and Magenta on 4 and 18.

F. L. — I should use Scarlet on 4.

L. O. — It would help if we knew the age and the intake of the person. I should use Magenta on 18 first.

G. G. — I see what you mean. If there be a serious Infection, Turquoise would help. By removing the Infection, the Kardoscil would go up, but, as a rule, in an Infection, there is Heat and Swelling and the Kardoscil is up.

Member — Would a person with a Ratio of 58-18 be in good health?

A. G. — It is possible.

L. O. — I feel sorry for Dinshah, having to cope with cases like that.

A. G. — That is just one case. He has got a lot of such cases. Looking for a joker? Having Organs removed is a joker in itself.

C. W. — I suggest Magenta on 4 and 18 to establish the equilibrium; Lemon Systemic, since it must be a chronic condition. Of course, I do not know what Organs were removed. Magenta builds the Aura and also brings up the Kardoscil. That is all I can say from the information we have.

A. G. — I know what you mean. Complete information on what Organs were removed, living habits and the like. Sexual Intercourse plays a

part in it too; also there is Self-Abuse. People who masturbate constantly, usually end in an Insane Asylum.

G. W. — If many Organs are removed, the Body can not function properly. I suggest Magenta on 4 and 18 and Lemon Systemic.

C. W. — If there be no Kidney removed, Scarlet on 18 would be advisable.

A. G. — I am almost sure that he or she lost a Kidney. It is the suffering public. The Medical Doctor takes out an Organ and if that does not help, he removes something else. Those Exploratory Operations are jokers themselves. Some years ago, an acquaintance who had to leave town for a while, left his Itisometer with me. I was very much interested in that apparatus and experimented with it quite some times. When the man came back, he asked me to check his wife with the Itisometer. I wanted to know whether there was something wrong with her and he said: "Yes, there is something wrong." I checked her starting with Area 1. According to the Itisometer, everything was in good condition, until I came to Area 10, the Ovarian Section; then, the Needle swung away over, indicating there was something wrong. I questioned them further and found that the woman had an Operation not long ago. I told them to go back to the Doctor who performed the Operation. She was opened again and it was found that 2 Sponges were left in there! So much for Doctor Gravel! Such are the cases we get. I do not know why Members get into such mess. Why not send a complete Chart to the Institute, if you have any trouble? Dinshah is there for you 365 days in the year and 24 hours in the day. He will advise you any time, day or night. Why not take advantage of the privilege and get constant advice? It was good to hear your comments; you gave clear cut information and your suggestions were good.

C. W. — I think Green would be a good Color to take in that case.

A. G. — You really wonder when you look at the reasonings of some of those Medical Doctors. They open up a patient and if there is nothing else wrong, they remove the Appendix anyhow, as if the Appendix were just an Organ that was of no use and should come out. We know that the Appendix is an important Organ. (He then drew a diagram of the Intestinal Tract on the blackboard and explained in detail the working of the Intestinal Tract and the Appendix.) When Peristaltic Motion of the Intestines is lacking, the waste matter becomes impacted in the Bowels and Nature produces Spores to break up the mass. When their work is done, the Appendix throws in a secretion that destroys the Spores. When the Appendix is removed, it throws such function out of balance. Constipation is our great curse. Most of our troubles come from Constipation. Taking Pills is no remedy. They will remove the necessary lubricants from the Bowels and also some nutrients that are still not absorbed in the Tract. People talk about High Colonic Irrigation; that is supposed to clean out the whole Intestinal System; it is not so. It can go only so far and no further, because,

there is a Valve which interferes. (He explained this by a diagram on the blackboard.) Tonating with Yellow is the best remedy for Constipation. Of course, everybody has to use common sense in eating. Eat Rational Food and chew it properly. The Stomach has no Teeth! Food has to be in fluid condition when it enters the Intestinal Tract. Dinshah advocates the Squatting Position for Back Elimination, because, it releases the Sphincter Muscles of the Rectum, to let the waste matter out. In case the Yellow does not give the proper response, go to the Red, which will stimulate the Liver to clear the Bilirubin and Biliverdin of the Bile.

L. O. — I have trouble with my Eyes and Ears. Where I work, they have a blower and a heater overhead and that seems to affect me. I am all worn out by the end of the day. When I bend down, I become dizzy and there seems to be a pressure on my Eyes, so, when I get up, I can hardly open them.

A. G. — It seems to be poor Circulation. Try Magenta; Magenta is  $\frac{1}{2}$  Red and  $\frac{1}{2}$  Violet; the Law Of Selectivity will pick what is needed, either the Red or the Violet. You can see in Nature how that Law works; the Tomato selects the Red, the Cucumber the Green, the Orange the Orange. The same Sun shines on all of them and each selects what it needs. Our Aura selects the Red or the Violet when we take the Magenta. That way, you rebuild your Chemical Elements. You could also take just Red in your case. Living conditions in this day and age are surely made complicated; most everything seems to be done wrong; we are living in a mess.

C. W. — Our Creator must have had a great foresight to have equipped us the way we are.

W. R. — I usually get a Pain in my Neck in the evening. Ratio is 64-18; Front Elimination 6 to 8 times a day; Back Elimination 2 times; I am tonating with Green and Magenta.

A. G. — You need Magenta on 4 and Orange Systemic. You need Tonations on your Back; the Nerves are along your Spine. Start with Yellow Systemic for 1 week and Orange Systemic for the next week.

F. L. — Two of my Slides are broken. I like to know how much it would cost to have them replaced.

A. G. — You have to send the broken ones with the whole set in the Slide-Carrier, so they may be matched. Each broken Slide costs \$3.00 for replacement.

L. B. — I have a Cold and am tonating with Lemon.

A. G. — In the months from December 21 to March 21, we are in the state of Winter, caused by the inclination of the Axis of the Earth. At such time, by exposure, people are liable to more Colds. Depending upon the condition of the person, Lemon or Turquoise is the Wave indicated.

R. H. — I have a stiff Knee; Kardoscil 64, Spiroscil 12. What colors would you suggest?

A. G. — Orange Systemic and Scarlet on 4 and 18.

To make Portable Itisometer is all along in my mind, but, until our facilities improve, it can not be accomplished. The 1945 Fire destroyed my models and scientific data. Get more Members and I shall do the rest. The case of E. H. is absolutely true. The Sufferer lost the Tonsils, Thyroid, Womb, Appendix. She is an old timer, but, persists in eating flesh, Fowl, Fish, Eggs, Honey and drinking Tea and in all the years sent only a single Chart as was reported! What magic can we perform in such a case? Many cases come with such scribble that even a Lexicographer with 6 Stenographers can not answer intelligently. As for serving the Members, that is my bounden duty, but, because after P. M. the telephone rate is lower, California rings me 9 P. M., forgetting that this Continent has 4 Time Zones — Eastern, Central, Mountain and Pacific — and while it may be 9 P. M. in California on the Pacific Time Zone, it would be midnight in Malaga, New Jersey, on the Eastern Zone. Kindly reckon me also in the category of a Human Being, who needs a few hours of rest also. Neither L. O. nor C. W. nor R. H. nor W. R. sent a Chart. W. R. is a Student, but his wife is an Experimenter; she could sign for service. About the report of C. R. printed in the December 1956 issue, your Reporter draws my attention to an error on its page 476. The print says:— “He healed himself from Chickens that were raised on his farm . . . ,” the correct report was: “He healed himself completely by eating only healthy organically grown food.” I thank the Reporter for the correction and apologize for the printer’s error. At this point, I request all our Reporters, if they use a typewriter to use a good black ink ribbon.

\* \* \*

#### First Merrill Wisconsin Studio

Says the Studio Reporter: “I am very sorry to report that we were unable to hold our January Meeting, because of hazardous driving conditions. The Radio instructed all to stay off the icy highways, unless it was an emergency. Hence only W. B. and myself were there. We waited until 8:30, but, no one else came.”

\* \* \*

#### First Milwaukee Wisconsin Studio

K. B. — Friends, we have another New Year and I wish you a Happy New Year! The Request For Continuation Of Membership were sent to you in November, but, many put it aside and forgot about it and then, remembering it they did not send it in time and now you see we do not have many Members here. Dinshah has to know how many magazines

and Respiratory Rhythm Guide have to be printed, otherwise, the remainder has to go into the waste basket. I still like to call the Guide the Favorscope. We want to study the functions of the Nervous System and the Favorscope and how it is developed. I do not know if I should go into it, because, there are all old time Members here. The Freemasons know about it. Those who know they built a physical temple about it. (Here he drew on the blackboard a diagram and explained.) If you study, you will find that certain parts of the Body are made up of certain Colors. If you observe the Spleen, you will find it has a Purplish Color; the Pituitary Gland is Greenish; if you read in any book about a temple built without a nail, they mean the Human Structure. We have our Primary Colors — Red, Green, Violet; in the Trinity we have the Power Of Construction, Power Of Destruction and Power Of Protection. That is how your Body is able to rebuild, if you did not make too many monkeyshines. Our Body is the Temple Of Solomon. Consumption or Tuberculosis is a Disorder of Destruction. If you study your Chart properly, you will know where you stand. A woman called me and said that she took her husband's Kardoscil and Spiroscoil; the Kardoscil was 76 and the Spiroscoil 38. I asked her if she took the Kardoscil and Spiroscoil correctly and she said it was. I told her if so, he will not see the daylight. The next morning he was dead. You may go without food for some time, but, if someone chokes you, you will be dead in a few minutes. Now, they are trying to find out about Hidden Emotions; if you think life is not worth living, just keep on thinking about it all the time that way and you will soon die. If a man has a philosophy, he stands on Life.

A. B. — Is it not the Violet that builds the Spleen?

K. B. — Yes. Next Time, remind me and I shall talk about Vaccination. It is very dangerous to talk about it, because, there is a volume of "power" behind them. The Bill was written for the ordinary man and gives Health Rules, et cetera, but, some people say: "I read the Bible, but, I do not get anything out of it." If you look into a book on Anatomy and Physiology, you will see what is on the blackboard; it is only a rough sketch. (He then explained why in our Science we have no Differential Diagnosis and said that many of the mysteries of Nature are explained in the Bible.) Said he: "We probably would have a better World, if the religious ministers and priests explained a little better to the congregation." If a Medical Doctor would read that way in Court, they would throw the book aside.

R. S. — That is a fundamental religion; how can they condemn it?

(K. B. then read from the Third Volume of our Text Books Set, Chapter 111 on "Great Sympathetic Nervous System," Chapter 112 on "Pillars Of The Temple Of Solomon" and Chapter 113 on "Occult Operation Of The Vital Vehicle.")

K. B. — Talking about the Restraint or Holding of the Breath? Why should it be considered Black Magic? Because if you hold your Breath you upset your engine. If you hold your Breath beyond a certain point, you are liable to die. It happened in Chicago, Illinois. There, boys and girls were trying to see how they could hold their Breath and one girl fell over and died.

A. B. — Are you able to do what you just said?

(K. B. then discussed more about the "Occult Operation Of The Vital Vehicle," explaining how the Respiratory Rhythm Guide is reckoned and used in actual practical work.)

R. S. — Suppose you look into the Guide and find where it says "Left" and you have it "Right," then, what would you do to change the Breath?

(K. B. explained about the Ball principle as in the Text Books Set.)

A. B. — I was out at the Yerkes Observatory and was probing the man about certain things, but, they do not know anything about this. I was asking him about Colors and he did not know anything about that. I asked him about the Metals and Elements and indirectly about the Spectrum, but, he did not care to admit it. Said he: "They are learning more about Color now with mixing paint!" I asked him: "Why is the Sun colder in Winter, when it is closer to the Earth?" Said he after drawing a diagram: "It is the way the Rays hit the Earth."

K. B. — I thank all for coming to the Meeting.

Although Requests were sent in time, 50 per cent. did not send them here by January 1. They should study By-Law 54, Section 6, which says: "Failure to pay by the First Day of the New Year, shall be deemed Resignation from the Institute Membership." Section 7 says: "Reinstatement of such resigned person, may be made at the discretion of the Council, by payment of the Annual Fees And Dues within 30 days of the lapsed period, without any Penalty." Then comes the important Section 8, which says: "After the grace period of 30 days, Reinstatement may be made at the discretion of the Council, by payment of the Annual Fees And Dues plus a Penalty of One Dollar." Until now, the Council has been very considerate; no Penalty was exacted from anybody, but, from 1958, our attitude toward these careless ones will be changed — it will **have** to be changed, because, with our present limited resources, we can not pull the entire burden. Suggestions have come to hand to increase even the Annual Fees. It is upto the Members to behave, because, we are the **ONLY** Organization in the World,

that for the paltry fee of \$6.00 a year, gives Free Healing Service for an entire Immediate Family. A. B. should study our Text Books Set. His questions indicate his hankering for knowledge, but, they also show the deficiency. If you wish to get the real inside of the Christian Bible, study our "Gems In The Bible;" only \$4.00 for the five volumes. It will show to you that the ancients knew more of many truths, about which the present day wiseacres are just dreaming. Unfortunately, the ministers and priests themselves do NOT follow all the wonderful precepts for Health, given openly in the Bible. Let someone challenge me and I shall rub it on their nose! The Restraint Period of the Breath and such other practices are not for the average American. It needs special training in Body Postures and the like and some time in a Convention I shall demonstrate it, if the environment and occasion be favorable. It is no monkeyshine and needs great care in its practice, to attain longevity. A. B. deserves credit for his inquiry about the Spectrum, but, he should realize that beyond the knowledge of the Spectral Lines and so on, the alleged Scientists have absolutely no comprehension of the Therapeutic Value of the Rays of Color.

\* \* \*

#### First New York New York Studio

R. D. — In the future, do not give any money to the Reporter to send to the Institute. Under our By-Law 36, Section 4, "Studios shall NOT collect, handle or receive any money for any purpose."

S. P. — What became of the invitation? Is Dinshah coming?

R. D. — Did you get your magazine? He promised to come in the Spring. We are looking forward to it. Are there any Case Reports?

P. Z. — My sister is getting along finely. She feels better; the Water does not have to be taken from her any more.

E. P. — I wrenched my Back. I used Green, Lemon and Magenta; are those the right Colors?

R. D. — Did you read your last magazine? Dinshah said we should write to the Institute and get Free Guidance. You must have strained a Muscle. I suggest you tonate with Orange. My wife suffered with Neuralgia; she just took a few times Turquoise; it never came back.

A. M. — I could not sleep; I tonated with Violet; after that, I had no more trouble.

E. P. — When I get wet Feet, my Sinus pothers me; what Light shall I take?

R. D. — Turquoise will give you relief; after that, tonate with Lemon Systemic.

H. M. — I suffered plenty with Sinus Disorder. I get a touch of it back when I do not eat right. I ate too many cookies around Christmas. Yellow does away with the Sinus condition.

S. P. — My husband stopped Smoking; every morning, he sneezes for 10 minutes; we wonder why?

D. R. — I stopped Smoking 5 years ago; I still did not lose the desire for it.

F. F. — What Color is one to use for a Stretched Ligament?

R. D. — Indigo; if Circulation be impaired, use Orange Systemic.

H. M. — My husband gets very good results with Yellow.

E. P. — In the last Meeting, we spoke about how devitalized the food is that we buy; what can one do?

R. D. — The person who grows his own vegetables, is better off. Look at the label when you buy. (He then read from American Capsule News about the Dyes and Preservatives used in our daily foods and how ineffectual the authorities are.)

D. R. — I get Bread from organically grown Wheat; they also make a cereal by slicing the Wheat.

W. G. — I sent a Chart in the end of October; I was told to use Lemon. I see very little on one Eye.

R. D. — When you start having trouble with your Eyes, that takes a long time to correct.

(Some discussion was made about treating Eyes by exercise.)

R. D. — Many Scientists are searching for what Dinshah gave us years ago.

D. R. — They showed on T. V. a Doctor working on a boy's Eye with Lights.

E. T. — Doctors are just like a Trade Union; they do not want to share.

D. R. — A Physician is a salesman for the Drug Industry. The Signers of the Declaration Of Independence wanted Freedom Of Healing.

(R. D. read from Volume 2 of our Text Books Set on "Dangers Of X-Rays And Radium," Chapter 65.)

F. F. — Is there a Graduate Researcher in New York?

A. M. — I have no facilities for giving Tonations; I can give advice and rent a Projector.

R. D. — There is F. C. in Farmingdale.

F. F. — I know of a child that has Cerebral Palsy since birth; it is 5 years old now.

R. D. — If a child has that kind of sickness for years, it is very hard to do anything for it.

F. R. — One has to exercise to get the Muscles flexible again; tonate with Yellow.

R. D. — I know of a mother who had her child in the Hospital with Polio; she had a hard time to get the child out again. They used other method; the child is well now.

F. R. — Natural treatment is far superior to the treatment by the Doctors with Drugs. (Some discussion was had about such natural method.)

E. T. — Doctor H. S. says that Polio has much to do with the Sugar consumption. When the soft drinks go down, Polio goes down too. He says any epidemic can be stopped by cutting out Sugars and Starches. The Body is bound to be sick when not properly nourished.

P. R. — I had an experience with a friend. Her child had Cerebral Palsy. They saw how the Projector helped my Child. She had a Tumor in the Head. She was operated and she became Blind. The Doctors said she would not live. They could not get all the Tumor out; that was 6 years ago. She got the sight back in one Eye; she is doing well considering all. It is not always easy for her, but, she has plenty of Will Power. My friends saw all that and still they do not believe in the Light!

I shall be present in your Meeting of Thursday, May 2, 1957. Have arranged for larger Meeting Room for that evening. Inform the Members, please. D. R. should send a Chart; his last one was 2 years ago. W. G. sent a Chart in September 1956 and nothing since then. The Signers of the Declaration Of Independence spoke solely of Life, Liberty and the Pursuit Of Happiness and no mention was made of the Freedom Of Healing. Even in the Bill of Rights, Amendment 1 speaks of the Freedom Of Speech, Freedom Of The Press and Freedom Of Religion, but there is NO FREEDOM OF HEALING to this day and one's life is just at the mercy of the dictates of one group. Rights are becoming jokes by political legislation. When I have more time, I shall perform another service to my beloved America, by publishing the "Cracks In Our Constitution And Blunders In The Bill Of Rights." Please understand me clearly; we are NOT against Medical Doctors; we DO object however to their HEALING MONOPOLY. About Cerebral Palsy and similar Disorders, I request you to study from our Text Books Set, Chapters 81 and 82. Forget what Doctor H. S. said.

First St. Louis Missouri Studio

Upto the time of going to the Press, no report was received.

## DINSHAH IMPARTIAL

(The Universe Through The Eyes Of Dinshah)

### WHAT MEANS SABBATH?

A New York photographer, Darwin Deen, 36 years old, painted the Brooklyn home of his mother-in-law, on a Sunday morning, without any compensation. He was arrested for violation of the Sabbath Law, which prohibits all labor on Sunday, except "works of necessity and charity." He was taken before Magistrate George Postel and sentenced to jail. Counselor Emanuel Redfield, of the New York Civil Liberties Union told the Magistrate, that if Deen's conviction be upheld, "could our jails hold all who violate the Sabbath Law?" The Magistrate replied: "I shall worry about the overcrowding of jails when that happens!" A similar lesson is being forced on the people in New Jersey, where the Law prohibits the sale of used automobiles on Sunday! What is this rumpus? Who can or will know or determine in New York what is a work of "necessity" or "charity"? Why the Sabbath for Sunday? That is the faith and idea of the Christians. The Hebrews have their Sabbath on Saturday; the Greeks have their Sabbath on Monday; the Mohammedans have their Sabbath on Friday; I — an orthodox Parsee Zoroastrian — have no Sabbath, as my God never sleeps! Why interfere with the personal lives of citizens? What would happen if all newspapers, radios, omnibuses, railroads, telephones, telegraphs, stopped working on a Sabbath? Why push this allegedly FREE Nation into a matter which was a day of rest in a week in the past, when there were no shows, cinemas, theaters and the like to amuse and rest from the toils of the week. As it stands, it is a clear violation of the First Amendment to the Constitution of the United States Of America, which guarantees Freedom Of Religion. It is clear from such awkward Laws — I call them Lawlessnesses, that we are heading into downright Socialism, by the State trying to govern the private lives of its people.

### OUR TELEPHONE NUMBER CHANGED

Since the 8th of February, 1957, the Vineland, New Jersey Telephone Exchange changed the dial numbers of all its telephones from Vineland 9 to OXford 2. Hence our new telephone number for dialing us now is as follows:—

OXford 2-3530

\* \* \*

### QUALIFICATIONS OF OUR LAWYER

From time to time, new Members joining our Institute, express their opinion that if we had a competent lawyer to fight for us, we should have great success in our public life. That is the same opinion expressed by the United States District Judge in Washington, D. C., when I appeared before him on Thursday, February 24, 1944. Here are his words at the close of

the Hearing:— “The Court advises you to get an attorney, sir. Now, that is the best advice the Court can give.” Said I: “An Attorney, Your Honor, is out of the question in a scientific case; he would not know the least thing about this matter.” Retorted the Justice: “I know if you won't take my advice you will have to take the consequences. Now, that is all I can say to you.” Well, I **took** the advice to get a lawyer and advertised in the local newspapers and also in the New Jersey Law Journal. The important part of the advertisement openly mentioned the qualifications needed in the person who could handle the factual material required in fighting the case for our Science. The “Lawyer Wanted” advertisement said:— “The Lawyer should be thoroughly conversant with Anatomy, Embryology, Physiology, Biology, Toxicology, Posology, Dermatology, Ophthalmology, Proctology, Pathology, Otology, Histology, Laryngology, Rhinology, Neurology, Roentgenology, Serology, Bacteriology, Gynecology, Psychology, Symptomatology, Urology, Pharmacology, Terminology, Materia Medica, Botany, Differential Diagnosis, Dissection, Surgery, Obstetrics, Chemistry, Astronomy, besides Physics in its various phases of Sound, Heat, Light, Electricity, Magnetism and the application of the Finer Forces of Nature in Healing Suffering Humanity by the original Science of Attuned Color Waves -----” Until this day, I did not receive a single reply, but, should you desire to know HOW such a case can be fought by the use of such knowledge, read my book “Triumph,” which has the complete record with comments on how I fought and won in the Supreme Court of the State of New York, in the City of Buffalo, New York in the year 1931, against an array of University Professors — the only time my Science itself was attacked. (Price \$5.00).

### SUGGESTIONS AND ENDORSEMENTS OF 1956

#### Endorsement By E. E., G20

My 14 years of experience in the use of my Color Projector have proven that I and my family of four can not afford to be without one. Our Visible Spectrum Color Projector is the silent guardian of the health of our family. The fee for one hour's use is less than ten cents. The required knowledge for its use is very little and last, but not least, the Institute and Originator Dinshah are solid and dependable.

\* \* \*

#### Endorsement By N. B., G29

Since 1939, it has not been necessary for me to use a Medical Doctor's services. The Visible Spectrum Color Projector has served admirably in minor ailments as well as several serious emergency conditions. I find the whole plan of living a happy way that helps me to perform the duties that a busy farm home and college student's life demand. This is my last year in G. College and I hope to be teaching in Elementary School next year.

## THAT'S A GOOD QUESTION

Under the above caption, Medical Doctor William Bolton, as the Editor of the said department in "today's health", a monthly publication of the American Medical Association, wrote in its March 1953 issue an answer to an inquiry about:—

### "COLOR THERAPY

Question — A friend tells me that a method called color therapy is now being developed by which various illnesses may be treated successfully. Do you have any information about this?

Answer — From time to time, theories are advanced that color may have value as a treatment adjunct in medicine, but we do not know of any evidence that a specific disease ever has been cured through the use of color alone. Various colors may have some value so far as mental attitudes of many patients are concerned, and this idea has been utilized in some hospitals. For example, walls and ceilings of hospital wards or rooms may be painted a light blue or green because such tints are believed to have a soothing effect. In general, colors probably should be considered for their secondary effect in helping a patient to overcome excitement or worry about an operation or illness."

### TREATMENT BY "SILENT SOUND"

The same Medical Doctor in the November 1956 issue of "today's health," wrote a long article on the treatment of kidney and gall bladder stones, relieving pain, soreness and tenderness in certain kinds of bursitis, peri-arthritis, fibrositis, tenosynovitis, myofacitis and myositis, rheumatoid arthritis and osteoarthritis, successfully by means of "Silent Sound," "Supersonic Waves" or "Ultrasound," which is Sound Waves that the Human Ears can not catch. Sound upto 32,768 Oscillations per Second can be heard, but, after that range the Human Ears can not utilize it as Sound and the said Medical Doctor recommends for "Silent Sound" treatment 500,000 to 1,000,000 Oscillations per Second.

So, if that Frequency can produce the stated results, what about the Oscillatory Frequency of our **Visible Spectrum Of Color**, which has what I described and utilized decades ago as:—

562,949,953,421,312  
Oscillations Per Second???

This publication is an answer to the stated view, as in our service to our Members, their own convictions by their personal investigations, researches and experiments will give them the accurate view of the Truth behind the Visible Spectrum. Let the reader judge for self.

---

## OUR STUDIO DIRECTORY

On the First Thursday of each Month, there is held a Membership Meeting, at 8 P. M., in each of our following Studios, for reporting the results and findings of Personal Experiences in the use of the Visible Spectrum of Light and Color:—

**First Cleveland Ohio Studio**—The Colonial Hotel, 523 Prospect Avenue, Cleveland, Ohio. Albert J. Martin, Chairman, Sleepy Hollow Lake Road, Brunswick, Ohio. Jacob Dussing, Vice-Chairman, 1253 Melbourne Road, East Cleveland 12, Ohio. Theresa J. Soree, Reporter, 9216 Orchard Avenue, Cleveland 9, Ohio.

**First Detroit Michigan Studio**—Knights of Columbus Hall, 4740 Woodward Avenue, Detroit 1, Michigan. Albert Greenham, Chairman, 30906 Robert Drive, Livonia, Michigan. George G. Weiland, Vice-Chairman, 19692 Hanna, Detroit 3, Michigan. Elfriede Kolmetz, Reporter, 6735 Meadow Avenue, Van Dyke, Michigan.

**First Merrill Wisconsin Studio**—New Badger Hotel, 310 West Main Street, Merrill, Wisconsin. Walter Briese, Chairman, 707 E. Third Street, Merrill, Wisconsin. Edward Katke, Vice-Chairman, Route 6, Merrill, Wisconsin. Dorothy Nelson, Reporter, 1814 West Main Street, Merrill, Wisconsin.

**First Milwaukee Wisconsin Studio**—The Republican Hotel, "A" Hall, corner North Third and West Kilbourn, Milwaukee 3, Wisconsin. Kurt W. Bader, Chairman, 314 E. Burleigh Street, Milwaukee 12, Wisconsin. Fredrick Kneppreth, Vice-Chairman, 10120 W. Harrison Street, West Allis 14, Wisconsin. Florence Gutsch, Reporter, 3041 North 53rd Street, Milwaukee 10, Wisconsin.

**First New York New York Studio**—Hotel Diplomat, Blue Room, 108-110 West 43rd Street, New York 18, New York. Ralph W. Die-drichs, Chairman, 423 Jackson Avenue, Mineola, Long Island, New York. Hildegard Muehlfriedel, Vice-Chairman, 817 Lancaster Road, Ridgefield, New Jersey. Margarete B. Wolschendorf, Reporter, 19 Van Buren Avenue, Norwalk, Connecticut.

**First St. Louis Missouri Studio**—Albrechts Hall, 3549 Arsenal Street, St. Louis 18, Missouri. Clemens M. P. Neumann, Chairman, 4348 Virginia Avenue, St. Louis 11, Missouri. Walter Bloss, Vice-Chairman, 6408 Lansdowne, St. Louis 9, Missouri. Marie J. Parison, Reporter, 7525 Comfort Avenue, Maplewood 17, Missouri.
