## THAT'S A GOOD QUESTION

Under the above caption, Medical Doctor William Bolton, as the Editor of the said department in "today's health", a monthly publication of the American Medical Association, wrote in its March 1953 issue an answer to an inquiry about:—

### "COLOR THERAPY

Question — A friend tells me that a method called color therapy is now being developed by which various illnesses may be treated successfully. Do you have any information about this?

Answer — From time to time, theories are advanced that color may have value as a treatment adjunct in medicine, but we do not know of any evidence that a specific disease ever has been cured through the use of color alone. Various colors may have some value so far as mental attitudes of many patients are concerned, and this idea has been utilized in some hospitals. For example, walls and ceilings of hospital wards or rooms may be painted a light blue or green because such tints are believed to have a soothing effect. In general, colors probably should be considered for their secondary effect in helping a patient to overcome excitement or worry about an operation or illness."

### TREATMENT BY "SILENT SOUND"

The same Medical Doctor in the November 1956 issue of "today's health," wrote a long article on the treatment of kidney and gall bladder stones, relieving pain, soreness and tenderness in certain kinds of bursitis, peri-arthritis, fibrositis, tenosynovitis, myofacitis and myositis, rheumatoid arthritis and osteoarthritis, successfully by means of "Silent Sound," "Supersonic Waves" or "Ultrasound," which is Sound Waves that the Human Ears can not catch. Sound upto 32,768 Oscillations per Second can be heard, but, after that range the Human Ears can not utilize it as Sound and the said Medical Doctor recommends for "Silent Sound" treatment 500,000 to 1,000,000 Oscillations per Second.

So, if that Frequency can produce the stated results, what about the Oscillatory Frequency of our **Visible Spectrum Of Color**, which has what I described and utilized decades ago as:—

562,949,953,421,312  
Oscillations Per Second???

This publication is an answer to the stated view, as in our service to our Members, their own convictions by their personal investigations, researches and experiments will give them the accurate view of the Truth behind the Visible Spectrum. Let the reader judge for self.

## NOTICE TO ALL

We accept no gifts or gratuities, as to a Servant Of Mankind it is graft. Send us nothing.

You may send your Book for review or opinion; you may send your Writings or Experimental Findings and Reports for publication, provided they are not plagiarized or false and bear your hand signature in ink, with full name and address.

Anonymous communications will receive no attention. Submitted articles will not be returned.

All correspondence should be addressed to:— Visible Spectrum Research Institute, Malaga, New Jersey and not to any officer or individual.

For the views expressed in signed articles, the writers are responsible; for the opinions in articles bearing no identification, the Editor shoulders the sole responsibility.

## THAT IS A GOOD ANSWER By:-INDIVIDUAL EXPERIMENTERS

### RHEUMATIC FEVER, COLDS, ECZEMA, SORES REPORT BY H. F.

My son H. had Rheumatic Fever very bad. My Doctor could not do anything for him, so, I went to the Children's Hospital and they sent me to a Specialist. When he saw him, he would not take him. My husband heard of the Visible Spectrum from a stranger, so we gave it a chance and it surely helped him wonderfully. We used it also for Colds, Eczema and Sores and think very much of the Visible Spectrum. (Signed and Affirmed Before J. B. McL., Notary Public.)

\* \* \*

### RHEUMATISM REPORT BY A. K.

I, A. K. had Rheumatism for many years. I went to Doctors and they fed me Pills, which of course did no good. Finally the Rheumatism got so bad, that I was laid up in bed and could not move. I had heard of the Visible Spectrum and figured I would give it a try. After a few Tonations with the Visible Spectrum, I got up and went to work again. (Signed and Affirmed Before O. L., Notary Public.)

\* \* \*

### ACCIDENTS, INFECTION, DIABETES REPORT BY I. M. K.

I can assure you, that the Color Projector has done a great deal of good to my husband and myself. Recently, my husband met with three very bad Accidents — with the car, horses and an Infection. We had no Doctor, but, several Tonations for a short time, with our Visible Spectrum, saved his life. I have had Diabetes for several years and have had marvelous results with my Visible Spectrum. Before I had this machine, I was in Doctor's care, lost rapidly in weight and my feet started to decay. Since I used my Color Projector, I feel fine, my feet are all right, walk every month once to our "Ladies Aid," about 6 to 8 miles. I eat baked potatoes, rice, ice cream once in a while, ---- canned fruit preserved with raw sugar and everything agrees with me. Believe me, my husband and myself are grateful to Mr. Dinshah for the invention of his Visible Spectrum (Signed and Affirmed Before E. L., Notary Public.)

\* \* \*

### CONSTIPATION, COLDS, SUNBURN, SPRAINED BACK, HEADACHES REPORT BY E. K.

I have used the Color Projector apparatus successfully for Constipation, Colds, Sunburn, Sprained Back and Headaches. In each instance, my health was restored completely in record time and without suffering the usual discomforts, connected with such ailments. I would not use anything else for any kind of sickness. (Signed and Affirmed Before E. B., Notary Public.)

# OUR STUDIO ACTIVITIES

## EXPERIMENTER FINDINGS AND QUERIES

### MEETINGS OF THURSDAY, MARCH 7, 1957

#### First Cleveland Ohio Studio

The Chairman being on vacation in Texas, the Meeting was conducted by the Vice-Chairman.

H. K. — I am tonating with Green and Turquoise for a Head Cold.

J. D. — I had a bad Cough; tonated with Turquoise and Magenta, until the Cold improved; then, I tonated with the Colors suggested by the Institute from my Personal Research Information Chart.

(There was a discussion among the Members on Fluoridation.)

H. K. — I heard last evening at 8:10 P. M. a very interesting and true to facts program about it on Radio Station W. J. W.

(T. S. then read the Editorial Remarks in the last Visible Spectrum Researcher on the Detroit Studio Meeting, which were found very interesting.)

T. S. — Although our Meetings are not large, we enjoy them and look forward to the next Meeting.

My open views against Fluoridation of drinking water are well known to you. Our opponents are gazing simply at what can benefit their pockets and even the Law Courts are on their side. Read what is printed on page 170 in our magazine of September 1955 for confirmation. This is no longer the Land Of Liberty or Freedom. Your Studio may have a small gathering, but, I want you not to lose courage. Maintain the good work, by rooting for Quality and not for Quantity.

\* \* \*

#### First Detroit Michigan Studio

A. G. — Good evening, friends! We have a new Member with us tonight; I like to introduce him to you — R. E. K. Are there any more new Members? I like to read to you an article on "The Therapeutic Value Of Light and Color," by Kate W. Baldwin, M. D., F. A. C. S., Former Senior Surgeon, Woman's Hospital, of Philadelphia, Pennsylvania. (He read the article.) I heard this great soul speak many times. She was quite bold on commenting. She devoted herself to the healing with Color and sacrificed her position as Senior Surgeon in the Woman's Hospital, to devote herself to the healing with Color. She states that "after 37 years of active hospital and private practice in medicine and surgery, I can produce quicker

and more accurate results with Colors than with any or all other methods combined — and with less strain on the patient . . . in neglected light and Color there is a potency far beyond that of drugs and serums . . . Color is the simplest and most accurate therapeutic measure yet developed." We shall now start with Case Reports. Try and give full information as to Ratio, Back and Front Eliminations, etc. Dinshah does not like to comment on cases wherein complete information is lacking. Always feel free to ask Dinshah's advice. He is at your service 24 hours a day, but, you have to give him complete information, with case history. I do not know of anybody who could give you better advice than this great soul in Malaga. Through his faculties for Occultism, such as Clairvoyance, Clairaudience and Extra-sensory Perceptions, he can pick up from your Chart certain Oscillatory Frequencies that give him a picture of existing conditions. Thus, he can give you accurate information. He never makes a mistake in analyzing a case, but, you have to fill out your Chart correctly.

W. R. — I still have Pains in the back of my Neck; Ratio 78-14; Frontelim 5, Backelim 1.

A. G. — Let us hear some comments on this case.

R. G. — Does not the age factor have to be considered too?

W. R. — Age 50.

R. G. — I should suggest Orange Systemic, Back and Front.

J. B. — I should use Magenta and Lemon.

A. G. — Is this a constant Pain?

W. R. — No; just at times.

A. G. — Then, it is a Spasmodic Pain; nothing organically wrong that will produce the Pain.

R. G. — Does not Magenta either lower or elevate the Ratio?

A. G. — Yes; the Aura would select whatever is needed, either the Red or the Violet. Thus, if too low, it would select the Red; if too high, the Violet would take care of it. I should suggest Orange Systemic and Magenta on 4 and 18 in this case.

I. G. — My little girl had Fever. She was teething and had a Head Cold with it. I tonated with Turquoise and later with Yellow; that took care of her.

L. B. — I am still taking Tonations under the advice of C. R. I have had my Equipment for almost 2 years now. I have a Thyroid condition and my Heart was badly affected. I felt very miserable. Since using the Color Projector, my Thyroid condition is very much improved and my Heart is completely normal now. I am surely very grateful to have this Projector.

H. W. — My husband still has some Rash. His Ratio was 84-18. It is now 80-20. He took Lemon for quite a while and has changed now to Orange. The Rash disappeared from the Legs, but, he still has it on his Hands. It is like little Scabs. I sent a Chart to the Institute around Christmas, but got no answer.

A. G. — Perhaps, the Chart was not filled properly.

H. W. — I answered all the questions on the Chart, but, my husband was drinking Coffee then. He has been strictly on the Rational Food Of Man for the past two months.

C. R. — What is your husband's occupation?

H. W. — He is a steam fitter.

C. R. — That might have something to do with it; there might be poisons that cause it.

A. G. — There is something in the Blood Stream that has to come out.

C. O. — I know of a lady 20 years old, who had a pork dinner at a restaurant. A few weeks later, she broke out all over. It was diagnosed as Trichinosis. She has been doctoring for 5 months now, has been to different Hospitals and spent plenty of money on Doctors and Medicines; lately, she developed a Heart condition.

A. G. — Pork is not fit to eat. After the First World War, we sent pork to Germany, but, Germany refused our meat, on account of the Trichinae. It has been tried to kill this Trichinae by heat and by cold, but, they could not destroy them.

W. K. — About 5 years ago, I used to deliver milk in a colored section. There was then a drive on to heat all garbage, before feeding it to the pigs, to avoid Trichinosis, because, all pork in Wayne County was affected by it.

V. W. — I should like to know whether Yellow is the right Color for Worms in a baby?

A. G. — Yes; Yellow is the Color for Worms and all kinds of Parasites. There is a fine Chapter 86 on that subject in our Text Books Set, Volume 3.

C. W. — I had a Cold in my system. It settled in my Back and I was very miserable. I could not sleep, I could not lie down, I could not sit. Ratio 60-12. I tonated with Scarlet, Magenta and Orange. It took 4 days to be normal. Orange intensified the Pain. After the Ratio became normal, the Pain disappeared.

H. E. — I had a Rheumatic Pain in my Shoulder; took 4 Tonations of Lemon and Magenta; that took care of it.

R. K. — I had Dizzy Spells; Ratio 72-18; I have been tonating with Orange Systemic and Magenta; I feel much better now.

J. B. — When I reported the last time, my little girl had Diarrhoea. I had been tonating with Lemon and Yellow. It lasted 4 days and the Stool was quite watery. I became worried, because, she was becoming very thin. I called A. G., who advised Turquoise. Two Tonations of Turquoise cleared the condition.

A. G. — In this case, there was Inflammation and all she was excreting was valuable juices. Those juices are there for lubrication. In a case where Inflammation is present, Turquoise is the remedy.

J. B. — Lately, my children had a Skin Disorder. My oldest girl had it first. Later, the boy had it on his Head and finally the baby too broke out. It broke out in Watery Blisters. I cleared that with Lemon, Yellow and Magenta. I tried Green too, but, it did not seem to work as well as Lemon.

C. R. — It comes from filth and children usually get it from other children in school.

W. K. — I just got my Card as a Graduate Researcher and I am very proud of it. I took the Resident Course in Malaga, in 1945, but, did not finish my studies at the time, because, troubles started just then. In the mean time, I studied different Therapies and ways and means of natural healing. I got a degree of Doctor in Naturopathy. It was always in my mind to become a Graduate Researcher of the Visible Spectrum, so, last year, I wrote to the Institute and gave proof that I attended the Resident Course in 1945. They sent me the final Examination Papers and I passed. As I said before, I am very proud of this Certificate. It was Color that started me in the line of healing and I think Color is the greatest of all Therapies. (Applause.)

(A. G. read from the Family Health Protector, Article 29, on "Secondary And Tertiary Colors" and Article 30, on "Chemical Elements And Colors" and elucidated further. He also demonstrated the effect of Color on the Radiometer, by shining the Colors from a Portable Visible Spectrum Color Projector on it. It showed how the Yellow on the Infra-Green side sets the Radiometer into fast motion, while the Indigo on the Ultra-Green side slows it down. Thus, it definitely showed that Color had power and that the Colors on the Infra-Green side activate, while those on the Ultra-Green side have a depressing effect. A. G. also showed with a Triangular Prism, how White Light is broken by it into the 7 Colors.)

A. G. — In our work, we pay special attention to the Blood Circulation. Blood must be pure to keep the Body in perfect condition. As Dinshah states, the Chemical Body is motioned by Chemical Action; thus, he had to find Chemical Spectral Lines corresponding to the Chemical Elements having effect on the functioning of the Heart. Those he found in the 4 Elements of Lithium, Potassium, Rubidium and Strontium. As you will note, each Attuned Color Wave stands 30 degrees away from its neighbor and therein lies the mathematical, automatic precision of the Visible Spectrum Color Projector. Thus, when one Slide in your set is broken, you have to send the whole Slide-Carrier to be matched. We are very fortunate to have this gift of Dinshah — the Visible Spectrum Color Projector and the knowledge that goes with it. It is very bad that a large number of Members does not appreciate it. If all our Members were to attend, this hall would not be big enough. By attending the Meetings, Members not only get knowledge and understanding on how to use this system proficiently and how to live a better and healthier life by living on the Rational Food Of Man, but, would also be a means to pay tribute to this great teacher, who

is giving us so much. If you visit the Hospitals and see the suffering and butchering and the hopelessness of many of the patients and the money that is spent without getting help and relief, you would surely appreciate your Visible Spectrum Projector. We should all go out and induce some Sufferer to buy an Equipment. It costs so little, in comparison with what is spent on Doctor and Hospital Bills. We have our friend C. R. with us tonight and we should like to have him speak to us.

L. O. — What Color would be good for High Blood Pressure? I do not know whether I have High Blood Pressure, but, the other night, I had a Buzzing in my Head and could not go to sleep. I took a Tonation of Purple and after one hour, the Buzzing stopped.

C. R. — High Blood Pressure is not a Disorder, but, it comes from a Disorder. Remove the CAUSE of the Disorder and the Blood Pressure will change. I like to bring to your attention tonight the Affinity of Colors. We have 12 Colors that makes 6 Colors opposite each other. How many of you know the Affinity Colors? For instance, if you had an Inflammation, the predominance is in the Red and the remedy would be Blue. There are 213 Inflammations and 176 Fevers listed. All we have to use is — one little Slide! In a Heat Burn you use Blue; on a Cold Burn, as from Dry Ice, you use Red. All Childhood Disorders are Recent Disorders. Before analyzing a Disorder, you have to take all things into consideration — Ratio, Age of the Sufferer, Back and Front Eliminations, etc. The more you study our Text Books and the more experience you get, the better you will know how to take care of a condition. Keep your Affinity Colors in mind. If, for instance, you do not get results with Turquoise, when tonating for a Cold, go to its Affinity which is Lemon. As usual, I stress proper food. I do not understand why people want to destroy themselves by adulterating and preserving food that they have to eat, with poisonous concoctions. This chemical age has just begun; I do not know what is to become of the future. In Michigan, they are trying to make it **compulsory** to give ALL the children ALL THE SHOTS! Last year, a Bill for pure food was introduced in the Congress; they did not even consider it; they just put it aside. The health of the population is no true concern of the Law Makers. This Pure Food Bill will be presented again this year, but, I imagine the same thing will repeat. It is upto each citizen to become busy and write to the Congressmen to bring about legislation for Pure Food. If enough people would write, they would have to listen. I have the same thought that A. G. expressed about seeing this hall filled with Members. How many Student Researchers have we here tonight? (3 raised their hands!) We should have at least one Student Researcher for each Experimenter Researcher. Some years ago, at the Hotel Tuller, we used to have an attendance of 150 to 200. All of us should try to sell Equipments to Sufferers. I sold a Color Projector last week to my sister in California, after trying for 16 years.

R. G. — I sold an Equipment to my brother last week.

A. G. — I see a Member chewing gum. That will make a good educational program. I do not want to embarrass anyone, but, at the same time, it is my duty to call your attention to matters that are wrong. Let us analyze. The Digestive System is a complicated Chemical Laboratory, which does the extraordinary job of mixing every thing that we eat and drink and taking from that mixture whatever is needed to repair and maintain the Body. (He then explained at length how by chewing gum, a strain is put on the Salivary Glands to produce secretion of the Saliva without having any material to convert into useful purpose, thus, wasting energy and chemical activity.)

That article of Dr. Kate W. Baldwin was an extract of a paper presented by her, at the clinical meeting of the Section on Eye, Ear, Nose and Throat Diseases of the Medical Society of the State of Pennsylvania, held at the Medico-Chirurgical Hospital, Philadelphia, October 12, 1926. It was reprinted in the Atlantic Medical Journal, April 1927. That most worthy learned Surgeon was one of my Graduates in the First Philadelphia Class in 1921 and introduced five Color Projectors in the Woman's Hospital, doing there some really effective service. She was also my First Vice-President for many years. As soon as she presented that paper, she was forced to resign from the Hospital. Several years later, after appearing in the Buffalo, New York Supreme Court, as a witness for my defense, in 1931, she died and was buried in Lawrenceville, Pennsylvania. The marvelously truthful testimony of that noble Surgeon is printed in full in my book "Triumph," a few copies of which are still available from the Institute for \$5.00 a copy. It is the ONLY time the opponents attacked my SCIENCE and lost completely. I was honorably acquitted of a charge of Grand Larceny, by a unanimous jury verdict. Thank you A. G. for your compliments, but, while I have acquired knowledge of the Occult Sciences, outside of using my scientific knowledge, I use or need no Transphysical Science to decipher the Charts. In my work and analysis of the Charts, however, some times as a Human Being, I may not be RIGHT, but, I am never WRONG! The case of W. R. was quite easy to analyze; he had 1 Backelim a day, showing that he needed Yellow on Areas 6, 7, 8, 9, 10. H. W. got no reply for reasons of a personal nature in regard to certain habits of the husband. Since then, he changed for the better. Trichinosis is a Disorder produced by eating undercooked pork, which contains Trichinella Spiralis, a parasitic worm. In the early stages, these worms produce Diarrhoea, Nausea, Colic and Fever and later Stiffness, Pain, Muscular Swelling, Fever, Sweating and Insomnia. That Disorder responds quickly to the use of the Color Projector. I am glad that an old time Member like W. K. became a Grad-

uate Researcher. I am soon printing a regular Sealed Diploma for all our present Graduate Researchers. I prefer that the Members go after selling our Text Books than our Color Projectors. Let them know the **Science** first. Send a man like me to the U. S. Congress; you will then have the **right** Legislation. C. R. should draw the attention of the Members that out of our 12 Colors, only 10 are Affinity Waves, Green and Magenta being Waves Of Dual Polarity of the Head and Sex Areas. Chewing Gum is another bad habit, which is detrimental to proper Digestion. We are **not** ruminating animals with a 4 cavity stomach.

\* \* \*

### First Merrill Wisconsin Studio

L. K. — I have been restless. Had Chills and Itchy Skin; also a stiffness in the Neck; I had a sore spot there. Lower part of the Back ached; had Pain between Shoulder Blades. I used Turquoise, Green Systemic and Magenta on 4. Spiroscil was 70. Best results with Turquoise. Took Orange on 17; perhaps should have taken Turquoise while the Pain was present, instead of going into Orange and Lemon. I could not sleep.

W. B. — You should not go into Orange unless the Breathing is short. I suggest a gradual change from Turquoise to Green.

L. K. — I have difficulty sleeping; am troubled with Front Elimination and Gas.

W. B. — Orange is the Color for Areas 8, 9, 10, for that. It does not help much if the Colors are changed frequently. One may counteract the other. I had a Cold for a long time and it seemed as if the Throat was somewhat sore. Used Turquoise in the evening and twice after that; used Magenta. Used Lemon many times; had excess of Phlegm.

D. N. — I too had a severe Cold; Used Turquoise several times; normalized in 5 days.

L. K. never sent a Chart to the Institute. Her report of Spiroscil being 70 is wrong; perhaps she **meant** Kardoscil. She would not be in the Studio Meeting, if she had it as reported! More attendance of Members is needed in your Studio.

\* \* \*

### First Milwaukee Wisconsin Studio

K. B. — Have we any Case Reports? (There was no response.) Then, I shall talk about Skin Disorders. I saw practically a number of Skin Disorders. They are of two types — Dry and Moist. If you study the person's food, you will find they either eat Flesh, Fish or Eggs. I shall read to you from the Third Volume of our Text Books Set, Chapter 95 on "Skin

Disorders By Medical Conception," Chapter 96 has the use of our Visible Spectrum Science and Chapter 97 on "Boil, Abscess, Furuncle, Carbuncle." (The stated Chapters were then read.) You will see plenty of Skin Disorders in New York. If you have a Skin Disorder, our Visible Spectrum Science is the way to go. What you should do first is to restore the Eliminations and watch the Vital Vehicle. The most stubborn case of Skin Disorder I saw was that of a man of 28 years in age. In 6 months he had relief using the Yellow. Physicians use Arsenic for such cases. Arsenic is on the Yellow Wave. In the case of this man, he came back. Then, he used Turquoise, which has Mercury, Nickel and Zinc in its Wave and he was all right. Get the Eliminations to function properly and there will be no Skin Disorder. Naturally, anyone even Smoking and eating Flesh, Fowl and Fish, if those Elements are in balance in the Body, may not have Skin Disorder. What kind of a Skin has a Chicken? You know why we do not eat eggs any way. Syphilis is also a Skin Disorder. Your Skin might tolerate a Meat Diet, but, it will be better on a Vegetarian Diet. In a part of Norway, where they eat Rye Bread and Fish, their Skin is dry and scaly. A beautiful Skin should be like silk. If you want to eat your Fish, you will have to pay. There are violators not only of Food, but, of Drink also; they all have to pay the penalty. I was called into an Organization of women; one woman there showed me her Skin and said: "I have been doctoring for this Skin Disorder." It is my custom to have everyone fill out a Chart. She was stuffing herself with Fish. Do you know what might happen when you stuff yourself with Fish? You might become constipated and you might find what you call Skin Disorder — a rough Skin.

P. J. — K. B., I am very much interested in Leprosy.

K. B. — From what I know, I think that person can be helped. I saw a man who had lost his First Finger. I still believe, if they eat the Rational Food Of Man, they can be helped. Do you know where the people who have Leprosy are transported?

N. F. — To Louisiana. In India, the Hindus have Leprosy and they are Vegetarians.

K. B. — If you build your Body of Vegetables. I studied the experiments of a German Scientist, who says Syphilis will not come in a Body built of Vegetables. He studied that for 50 years; of course, that will not agree with the Medical Doctors, because, to them, like most of them, Food does not matter.

J. S. — A friend of mine had his face so full of Pimples, that you could not see the Skin; would that be a Skin Disorder?

K. B. — The form and Skin Disorder depends upon the type of Food.

H. R. — Would not that be from eating fatty foods?

K. B. — Even if the cow has Tuberculosis, I do not think the milk coming out would be affected. If the Udder be diseased, that is different. I do not think the farmer would use that milk. Today, they control every-

thing from the cradle to the grave. I like to see it the same way as the Church is separated from the State. That is the way Healing should be separated. I saw it. Twenty-five Doctors have more power than one hundred and twenty-eight witnesses. Unions can stop shipping. If anything appears unreasonable, it should not be that Fluorine should be put into drinking water. It should not be put in if the people do not want it. If you take a lump of Refined Sugar and put a flame to it, it will burn and only Carbon will be left. Our Lime Stone is Calcium Carbonate. When they eat the highly Refined Sugar, the Sugar acts on the Teeth. If you flush the Teeth, it will not be so bad, but, now they do not let you have even good water.

A. B. — Sodium Silico Fluoride is what they are selling to the city.

L. S. — I was going to say that I use a double boiler and I use the tap water; first, it looks white and then it turns brownish.

K. B. — The predominant Color for Skin Disorder is on the Infra-Green; the remedy is on the Ultra-Green. If it be the oozing type, use Turquoise.

N. T. — If it be of the Wet Type, should not we keep on using the Infra-Green Color until it stops oozing?

I. P. — Many years ago, my husband had a Skin Disorder and in 2 weeks it healed nicely. He was told he ate too much Bread; so, he gave up eating too much Bread and it healed beautifully.

K. B. — You had success, so it proved right. I start all Skin Disorders with Yellow. If the selective power within the Lymphatic System fails, you have to use the Yellow. You may tonate till doomsday, if you do not have it weeping; you will get no results. Another thing struck me once; a woman had Weeping Sores on her Legs. She worked in a candy factory and she had excess Sugar and she did not get results. Then, I told her to give up Sugar; she got results. If they do it once, Yellow in the Body will take care of it, but, if they do it steadily, it will not give the proper results. Suppose from one cause or another, you scratch your Hand, you may put Zinc Oxide Ointment on it and the next day it will be healed; but, you can not use it internally. Suppose you have a Fatty Tumor; I had case already, where they used Indigo. Deposited Fat can not be absorbed. In most Skin Disorders, the vitality and healing power has broken down. (He then explained about various growths.) Did any Member have any experience with Abscess or Carbuncle?

N. T. — My son had an Abscess in his Ear. O. L. put Orange on it and it was so painful we had to use Blue and when he was asleep, we put Orange; then, he could not hear and we had to put on a Color to bring back his Hearing. I do not remember what Color we used; it was such a long time ago. He never had any trouble after that. The Pus came out through his Nose; it filled two large cloths.

K. B. — Usually, Orange breaks it. Instead of going through the

Eardrum, it went through the Nose. The Pain will first disappear when it breaks. I once saw a Carbuncle on a woman's Breast. There were three Cores in it and it smelled terribly. The Doctors wanted to remove her Breast. Today, she is still alive and healthy; she has the Breast! We have thousands of Members who got help, but, today, they do not support us. They are afraid, but, they have the Color Projector.

N. T. — I know a lady, through whom I got my Color Projector. She had two Lumps on her Breast and she is still alive, but, she will not come.

K. B. — Any questions? (No response.) One case I can relate. This man lives on the South side. He talked to a Medical Doctor and they decided not to lance it. He rented a War Model Equipment and after ten minutes, the Lump broke open! He refused to sign the Collaborator Blank of that time, but, I told him I should take away the Equipment; then he signed.

N. T. — I knew a young man, who they said had Lung Cancer. They operated on him and he went to ----- and returned with a hat box full of Medicines. He was told to come back in 6 months; 2 months later, he died.

A. B. — Talking about Cancer; I read about prisoners that have Cancers being injected. They are stumping the medical profession.

K. B. — Cancer is nothing but an accumulation of wrong chemicals. Last week, a piece of steel hurt my Thumb; where it is healing there is an excess of Blood. Save your health by reading the labels on food products. If there is chemical processing do not buy it.

EDITORIAL

REMARKS

There is no more Skin Disorder in New York than elsewhere, because, all depends upon the habits of the residents. The Food builds the Body, therefore, if one eats Fish, he is liable to have a Skin like that of a Fish — scaly. That fact is proven in countries where Fish eating is very prevalent. Leprosy is a Constitutional Disorder. N. F. should realize that India has over 300 million people and they are of numerous religious faiths. All Hindus are NOT vegetarians and the greater deterioration of that country began with the advent of European foreigners who imported the consumption of Beef, Booze and Tobacco, the three great curses of the so-called "civilized" world. New York is becoming ready for poisoning its drinking water with Fluorine. Its atmosphere is poison-laden as is, with the fumes of millions of automobiles, factory smoke and the like. Fatty Tumors, existing with deposits of Fats can NOT be reabsorbed. They are to stay or be cut out. On this subject, a thorough study of our Text Books Set is especially recommended.

### First New York New York Studio

R. D. — I shall read to you the letter sent by Dinshah to our Reporter about attending our Studio Meeting of Thursday, May 2, 1957. (It was read.) I shall read to you a report printed about the sale of Cigarettes, which during the year reached an all time high of 395,000,000,000. I am glad the Fluoridation of our drinking water did not get through.

E. T. — They thought it was an easy push over — the Anti-Fluoridation people put up a hard fight. They deserve commendation.

R. D. — Are there any Case Reports? All of us were sick including myself. Our Color Projector was in constant use. The boys had a Cold and Fever; we tonated with Green and Turquoise. After a few days, everything was fine. I was laid up for a few days; everything hurt me. My wife had a bad Cough; we were glad to have our Color Projector. At the last Meeting, somebody spoke to me about making out a Chart twice; as she got the Projector she filled out a Chart and then, she had to fill out a Second Chart.

E. P. — I was told to use Orange and Yellow for my Back; it is getting better.

R. R. — When I got the Projector, my Kardoscil was 58 and the Heart Beat would skip over so often. I have a 72 Kardoscil now and it seldom skips a Beat.

M. F. — My sister-in-law has a Lump on the top of her Hand for about 5 years. It comes and goes. What Light should she use? Her readings are 90 and 20.

R. D. — This is something of long standing. Yellow on 6, 7, 8, 9, 10 and Magenta on 18 would get the Kardoscil down.

M. F. — She has been using the Light for Falling Womb with very good results. She did not have to have the Operation.

E. P. — I hurt my Knee; it is black and blue; what Light shall I use?

R. D. — If you had taken Orange immediately, it would not have discolored. Orange brings the Circulation there.

R. R. — Something fell on my right Foot; I took the Light and the next day, the other Foot hurt me!

R. D. — That is possible; many Nerves cross.

W. G. — I hurt my Elbow; was Turquoise the right Color to take?

R. D. — Yes, I ran into a hook; my Eye was bleeding. I used Turquoise; within 15 minutes, the Pain left me.

D. R. — My Nose bleeds easily; what Light shall I use?

R. D. — You must have a ruptured Blood Vessel; what Color do you think he should use?

A. M. — Green Systemic is a Muscle and Tissue Builder.

R. A. — Is raw milk Mucus forming?

R. D. — No; Dinshah says we should drink a glass of warm milk with Brown Sugar, in the morning.

K. S. — Friends of mine want to get a Projector; they like to see Dinshah. Could they go to the Institute to get the Projector and speak to him?

R. D. — Write and ask to give you an appointment.

H. M. — Are there still any Portable Projectors to be had? (There was no response. R. D. read from Volume 2, Chapter 44, of our Text Books Set, on "Sevenfold Human Constitution." The deep subject of the Human Aura came under discussion.)

M. W. — We are all waiting for the visit of Dinshah to enlighten us on this most interesting matter.

E. T. — I seem to get better results when I take a bath shortly before a Tonation.

H. M. — We should not take a bath about 90 minutes before or after a Tonation.

R. D. — When you clean your Body, your Skin can breathe better, but, do not bathe right before or after a Tonation. A group of scientists had a discussion on Clairvoyance, if there be such a thing. They had to admit there is an "Extra-Sensory Perception."

E. T. — Can one see the Aura?

H. M. — It can be seen by some people; it extends to about 18 inches around the Body.

R. D. — I appreciate that the Members show such interest; we all learn through your questions.

I had sent plenty of information to certain persons against Fluoridation and also sent information to a very prominent New York newspaper about it, because, it had printed that the authorities were just waiting for the opinion of the American Medical Association, which was giving the matter special consideration. Here is the letter I sent to the Editor:—

"Esteemed and Learned Sir:

1. I read your very fine articles in the different issues about the subject of FLUORIDATION.

2. It appears that great stress is laid on the views of the American Medical Association.

3. Those views were openly expressed by the learned body, many years ago, in their American Medical Dictionary, by W. A. Newman Dorland, A. M., M. D., F. A. C. S. Lieut.-Colonel M. R. C., U. S. Army, under the caption "enamel," sub-captioned "mottled" thus:— "a chronic endemic dental fluorosis that is found in communities using a drinking water that contains one part or more of fluorine per million. The permanent teeth of

children so raised tend to erupt more or less chalky white in color and later tend to become pitted and stained yellow, brown or almost black.”

4. You will be doing a great service by presenting these views to the authorities in power.

Yours very respectfully,  
Dinshah P. Ghadiali.”

DPG/CD

Two days later, the reply came from the newspaper:—

“Dear Col. Ghadiali,

Thank you for your letter of March 5.

We hope to publish it if space permits.

Sincerely yours,

-----”

It was never published; just as I expected! It is not milk that forms Mucus; it is the defective Digestive Tract that is the cause. Tonate with Yellow on 6, 7, 8, 9, 10 Local, clear the inside dross and the milk will do its duty. Were it otherwise, all babies will be suffering from Mucus! It is the pasteurization of the milk that dissipates some of its natural value. Anybody wanting an Equipment is welcome to come here and get it, provided all the requisite forms and Charts are completed and sent in **advance**, so I may determine whether any case for which the Color Projector would be used is amenable to our Science or otherwise. This rule has no exceptions. If I deem it amenable to our Science, a definite appointment is made and the new Member may take delivery personally at the Institute. A few Portable Color Projectors are still available, for \$60.00 each. The same Rules apply to them as to the Standard Blue Aluminum Projectors, priced at \$125.00 complete. If the so-called Scientists were to comprehend thoroughly the Sevenfold Constitution of the Human Being, there would be a new era of Human Health dawning on the Universe. The Body being built of Chemical Elements and as all Chemical Elements are under Atomic Mutation, the Radio-Activity of the Elements produces Radio-Emanation and that is the Aura. The ancients realized it well, as is exemplified by the Halo around Saints, Prophets and such other developed Souls. Bathing changes the Temperature of the Skin, affects the Breath and the like. Thus tonating right before or after a Bath is not advisable. The best time for bathing is the first thing after awakening from sleep and exercising the Body to be ready for the daily grind. “Clairvoyance” meaning “Clear Vision” and “Clairaudience” meaning “Clear Hearing” are psychic phenomena and are well known to me from my youngest days as a trained psychologist. Since my first visit to America in 1896, I gave numerous public demonstrations of such phenomena and initiated into its so-called mysteries my first wife Manek (Ruby) and younger brother Framroze. With them as “subjects,” in 1903, I performed before an audience of nearly 700 in Bombay, India and later, by invitation before His Highness the Maharaja Of Baroda, In-

dia, a program such has never been exhibited by anyone before or after, under the strictest supervision of Medical Doctors and Civil Surgeons. In Baroda, not only the Maharaja supervised the experiments, but, his Chief State Medical Officer Dr. Shamsuddin took active part in it. The following was the program and its success was recorded by The Times Of India and The Bombay Gazette, of May 15, 1903:—

### Phenomenal Psychism Program

- 1—Invisible Handcuffs.
- 2—Instantaneous Coma.
- 3—Horizontal Catalepsy.
- 4—Experiments In Psychic.  
Vision By Auto-Hypnosis.

### In Deep Sleep Blindfolded

- A—Lucid Somnambulism.
  - B—Crossing Intricate Diagrams.
  - C—Seeing With The Foot.
  - D—Sight-Transference To The Navel.
  - E—Reading With The Hand.
  - F—Psychography.
  - G—Cardiac Acceleration And Retardation.
  - H—Riding The Bicycle.
- 5—Spiritual Ecstasy Or Trance.

Space precludes me from entering into the details of each Experiment, but, at some subsequent opportunity, I shall give an explanation. Suffice it to say, that although the opponents of my Visible Spectrum Science hesitate not to call me a "quack" and a "faker," I am still able to maintain my ground that what I taught and forgot 65 years ago may not be dreamt by those alleged "scientists" for years to come!

\* \* \*

### First St. Louis Missouri Studio

The Meeting was reported by V. C. S.

C. N. — Are there any questions you would like to have discussed? Are there any Case Reports?

J. H. — I request a talk about Cancer, if that be in order.

(C. N. elucidated by explaining the difference in the multiplication of normal Cells and Cancer Cells; he also explained about X-Rays, Surgery and Radium treatments and stressed the importance of eating properly according to the Rational Food Of Man system.)

R. B. — A couple had a Bird of which they were fond. The Bird hatched some eggs, but, the mother Bird died. In order to try to raise the baby Bird, they decided to feed it Spinach, but, the Spinach had to be chewed, so the man asked his wife to do it and then feed it to the Bird. He was afraid that the Nicotine on his Teeth might kill the Bird!

P. L. — My niece was going to have a baby. She did nothing but make and drink Soda and when the baby was born, it lived only 5 days.

R. B. — I read an article in a Health Store, that a woman had been diagnosed as having Cancer, so, she went on Carrot Juice and in 30 days had no more Cancer.

C. N. — All such matters are discussed in our Instruction Book. Dinshah will not compromise and if the Rational Food Of Man be adopted, one would extend the life span by many years. None can cheat the Laws of Nature, without paying the price.

(Discussion was made on the therapeutic value of Color for Cancer. Green, Yellow on 6, 7, 8, 9, 10 and Magenta on Areas 4 and 18 were discussed. The comparison of Protein and the fallacy of having to eat Meat as the only source of Protein were discussed and a list of other sources was read.)

If the man be afraid the Nicotine on his Teeth might kill the Bird, did he not have the common sense to comprehend that the same Nicotine might eventually injure himself? C. N. was right. I can not compromise in bribing the Laws Of Nature. A proper study of our Text Books Set will remove all doubts from the mind of any thinking, impartial person.

## DINSHAH IMPARTIAL

(The Universe Through The Eyes Of Dinshah)

### INVISIBLE TAX IMPOSITION

Not a week passes without the Lawmakers grinding out some legislation to tax something some way or other to increase the revenue of the American Government. The public raves, the press prints, but, very few have a clear idea as to the secret process by which the public pockets are picked or milked. When you purchase a loaf of bread for the family, it has 151 hidden taxes included in its cost. When an egg (a stinkpot) is bought, there are in it 100 such burdens. When a man buys an office suit for neat appearance, he scarcely realizes he is paying also 116 taxes. Finally, when a newly married couple settles in a new home to rear future citizens, their happy smiles would disappear, were they to dream of the 600 distinct taxes included in its price. This matter, woeful as it is, has been investigated carefully by a private research organization and published for information. Stop and ponder on where the Country is being headed and where the outcome will eventually demonstrate its blood-sucking head.

## REMOVING POST OFFICE DEFICIT

Postmaster General Arthur E. Summerfield has been openly asking the Congress to give him more funds to maintain the Postal Department without laboring annually under a huge deficit. He requests permission to raise the First Class Mail from 3 cents to 4 cents per ounce and Airmail from 6 cents to 7 cents per ounce. However, I believe even that may not be enough, as the deficit is enormous. My humble opinion is to raise the 3 cents to 5 cents per ounce and the 6 cents to 10 cents per ounce. Furthermore, so that the Postal Employees may be paid better salary, the Second Class Mail rate should be changed. Of course, the big newspapers and magazines will shout from their housetops, but, it is senseless to continue any proposition at a constant loss. The Postal Department is the most essential of all other enterprises and to continue it at a constant deficit is totally unbusinesslike. Take for example this Visible Spectrum Researcher which sends its copies out every month for the minimum rate of  $\frac{1}{8}$  of 1 cent per copy! All the way from the Atlantic to the Pacific Coast for  $\frac{1}{8}$  of 1 cent per copy, by Second Class Mail! That rate should be promptly changed to a proper rate that would bear the actual expenses incurred by the Postal Department for its transmission, no matter how much howl is set up by the lobbies of the newspapers and magazines. A few weeks ago, a daily newspaper of New York, New York, which has over 700,000 copies circulation, jumped its price from 5 cents a copy to 10 cents. Let the Postal Department make a sizeable jump on their transmission! Let the Postmaster General give this matter further thought and lift the Department out of the heavy deficit. The Department will be found to deserve the lift and the Congress MUST help the Department to overcome its deficit.

\* \* \*

## CLASS 102 FOR RESIDENT EXPERIMENTAL COURSE

The 102nd Class for the Resident Experimental Course For Diploma Of Visible Spectrum Graduate Researcher, will open in our Principal Office Auditorium, in Malaga, New Jersey, as decided by the Members, present in the First New York New York Studio Meeting, on Thursday, May 2, 1957. The date of the opening of the Class will be announced after knowing from those who desire to attend. The sole requisite will be that the Student must have our Text Books Set of Three Volumes for reference in the Class. Any date suitable to the Students will be agreeable, except that I shall **not** be able to conduct it between July 15, 1957 to August 12, 1957. The reason is that I have to attend the Conventions of the American Naturopathic Association, Inc., American Association for Medico-Physical Research and the Fourth Annual Convention of the Visible Spectrum Research Institute. Please, write **promptly** to the V. S. R. Institute, your choice of the Class date, if you desire to take the Course.

---

## OUR STUDIO DIRECTORY

On the First Thursday of each Month, there is held a Membership Meeting, at 8 P. M., in each of our following Studios, for reporting the results and findings of Personal Experiences in the use of the Visible Spectrum of Light and Color:—

- First Cleveland Ohio Studio**—The Colonial Hotel, 523 Prospect Avenue, Cleveland, Ohio. Albert J. Martin, Chairman, Sleepy Hollow Lake Road, Brunswick, Ohio. Jacob Dussing, Vice-Chairman, 1253 Melbourne Road, East Cleveland 12, Ohio. Theresa J. Soree, Reporter, 9216 Orchard Avenue, Cleveland 9, Ohio.
- First Detroit Michigan Studio**—Knights of Columbus Hall, 4740 Woodward Avenue, Detroit 1, Michigan. Albert Greenham, Chairman, 30906 Robert Drive, Livonia, Michigan. George G. Weiland, Vice-Chairman, 19692 Hanna, Detroit 3, Michigan. Elfriede Kolmetz, Reporter, 6735 Meadow Avenue, Van Dyke, Michigan.
- First Merrill Wisconsin Studio**—New Badger Hotel, 310 West Main Street, Merrill, Wisconsin. Walter Briese, Chairman, 707 E. Third Street, Merrill, Wisconsin. Edward Katke, Vice-Chairman, Route 6, Merrill, Wisconsin. Dorothy Nelson, Reporter, 1814 West Main Street, Merrill, Wisconsin.
- First Milwaukee Wisconsin Studio**—The Republican Hotel, "A" Hall, corner North Third and West Kilbourn, Milwaukee 3, Wisconsin. Kurt W. Bader, Chairman, 314 E. Burleigh Street, Milwaukee 12, Wisconsin. Fredrick Knepprath, Vice-Chairman, 10120 W. Harrison Street, West Allis 14, Wisconsin. Florence Gutsch, Reporter, 3041 North 53rd Street, Milwaukee 10, Wisconsin.
- First New York New York Studio**—Hotel Diplomat, Blue Room, 108-110 West 43rd Street, New York 18, New York. Ralph W. Die-drichs, Chairman, 423 Jackson Avenue, Mineola, Long Island, New York. Hildegard Muehlfriedel, Vice-Chairman, 817 Lancaster Road, Ridgefield, New Jersey. Margarete B. Wolschendorf, Reporter, 19 Van Buren Avenue, Norwalk, Connecticut.
- First St. Louis Missouri Studio**—Albrechts Hall, 3549 Arsenal Street, St. Louis 18, Missouri. Clemens M. P. Neumann, Chairman, 4348 Virginia Avenue, St. Louis 11, Missouri. Walter Bloss, Vice-Chairman, 6408 Lansdowne, St. Louis 9, Missouri. Viola C. Steiner, Reporter, 9632 Tesson Ferry Road, Affton 23, Missouri.

**OPEN DECLARATION FROM THE EDITOR****DINSHAH P. GHADIALI****NO WARRANTY, NO GUARANTY, NO LIABILITY**

Since in June 1922, I became the Editor of a similar monthly magazine, controlled by another Corporation (now dissolved), I had complete records of all Case Reports and personal matters in my files. Those were totally destroyed on Tuesday, January 2, 1945, by a disastrous Fire of unknown origin, which burnt my 30 room Main Office Building and Laboratory, causing a loss of over \$250,000.00, being without insurance.

A few months later, Law Suits were instituted in the United States District Courts, at the instigation of certain opponents of the new Science of the Visible Spectrum and because of our inability to produce the original documents as proof of various contested matters, verdicts were rendered against me and the controlling Corporation to the effect that our literature was false and misleading under the Federal Food, Drug and Cosmetic Act, as a result of which we received heavy Sentences and Penalties, I being dubbed a "quack" and a "faker." \$125,000.00 of printed literature was also destroyed by Court Order.

The American Medical Association and Licensed Medical Doctors and Surgeons strenuously maintain that the Visible Spectrum of Light and Color has no Therapeutic Effect and that it has absolutely NO HEALING or CURATIVE VALUE.

For that reason the VISIBLE SPECTRUM RESEARCH INSTITUTE openly warns the Reader, that the said INSTITUTE issues this Monthly copyrighted in accordance with the Constitution of the United States of America, Article 1, Section 8, Sub-Section 8, protected under Article 1 of the Bill of Rights; the Reader who uses the contents as basis for own investigation, experimentation and (or) research along the lines of the Visible Spectrum, to determine the Powers and Effects of Light and Color upon Living Organisms or otherwise, will do so on own absolute responsibility, taking and assuming ALL RISKS pertaining to such activities.

### WHAT THE OPPONENTS DID TO DOWN DINSHAH

(A proof of what actually happened and was reported in The Milwaukee Journal, Saturday, October 15, 1949.)

**“Thirty fake healing machines, seized between 1945 and 1948 under the pure food, drug and cosmetic act, were destroyed Friday in the basement of the federal building. Harold E. Hanson (left) W. Highland blvd., and Russell C. Knight, 2173 S. 71st st., deputy United States marshals, applied axes to the equipment. A federal court had held that the machines, shipped by Dinshah P. Ghadiali, Malaga, N. J., to Wisconsin persons as therapeutic healing devices, were fakes . . . .”**

(For elucidation of the Truth, study the OPEN DECLARATION on the preceding page.)

THE “FAKER” IS STILL THERE!

Truth May Be Defeated But NEVER Conquered!!!

---

ANNUAL CONVENTION  
OF THE  
ALL CULTS  
MEDICAL ASSOCIATION

HOTEL PENNSYLVANIA

NEW YORK, NEW YORK

AUGUST 19, 1921

Dr. DINSHAH P. GHADIALI, President

DINSHAH
