THAT'S A GOOD QUESTION

Under the above caption, Medical Doctor William Bolton, as the Editor of the said department in "today's health", a monthly publication of the American Medical Association, wrote in its March 1953 issue an answer to an inquiry about:—

"COLOR THERAPY

Question — A friend tells me that a method called color therapy is now being developed by which various illnesses may be treated successfully. Do you have any information about this?

Answer — From time to time, theories are advanced that color may have value as a treatment adjunct in medicine, but we do not know of any evidence that a specific disease ever has been cured through the use of color alone. Various colors may have some value so far as mental attitudes of many patients are concerned, and this idea has been utilized in some hospitals. For example, walls and ceilings of hospital wards or rooms may be painted a light blue or green because such tints are believed to have a soothing effect. In general, colors probably should be considered for their secondary effect in helping a patient to overcome excitement or worry about an operation or illness."

TREATMENT BY "SILENT SOUND"

The same Medical Doctor in the November 1956 issue of "today's health," wrote a long article on the treatment of kidney and gall bladder stones, relieving pain, soreness and tenderness in certain kinds of bursitis, peri-arthritis, fibrositis, tenosynovitis, myofacitis and myositis, rheumatoid arthritis and osteoarthritis, successfully by means of "Silent Sound," "Supersonic Waves" or "Ultrasound," which is Sound Waves that the Human Ears can not catch. Sound upto 32,768 Oscillations per Second can be heard, but, after that range the Human Ears can not utilize it as Sound and the said Medical Doctor recommends for "Silent Sound" treatment 500,000 to 1,000,000 Oscillations per Second.

So, if that Frequency can produce the stated results, what about the Oscillatory Frequency of our **Visible Spectrum Of Color**, which has what I described and utilized decades ago as:—

562,949,953,421,312
Oscillations Per Second???

This publication is an answer to the stated view, as in our service to our Members, their own convictions by their personal investigations, researches and experiments will give them the accurate view of the Truth behind the Visible Spectrum. Let the reader judge for self.

You may send your Book for review or opinion; you may send your **Writings** or **Experimental Findings** and **Reports** for publication, provided **they** are not plagiarized or false and bear your hand signature in ink, with full name and address.

Anonymous communications will receive no attention. Submitted articles will not be returned.

All correspondence should be addressed to:— Visible Spectrum Research Institute, Malaga, New Jersey and not to any officer or individual.

For the views expressed in signed articles, the writers are **responsi-ble**; for the opinions in articles bearing no identification, the Editor **shou**lders the sole responsibility.

THAT IS A GOOD ANSWER

By:-INDIVIDUAL EXPERIMENTERS

SHOULDER PAIN, SWELLING, NECK PAIN

REPORT BY M. G.

Prior to my affiliation as a Student, for 27 years I could not knit anything, on account of those Shoulder Pains. Although I still am not 100% cured, I can truthfully say that there is a definite improvement all over my Body. The Swellings of both Ankles are gone, Pain in Neck and both Shoulders disappeared. To date, I have knitted ten pairs of stockings for my grandchildren. (Signed and affirmed Before M. W., Notary Public.)

* * *

ARTHRITIS REPORT BY H. B.

This is to state the merits of the Color Projector, how it has helped me. This is to testify that I, H. B. having had medical treatments for over eight years, for Arthritis, with no improvement, heard of Visible Spectrum and since using it, the improvement has been great, as also my general health has improved. I have been using it since August 5, 1941. (Subscribed and Sworn Before C. F., Notary Public.)

* * *

EYE INFECTION, MIGRAINE, HIGH BLOOD PRESSURE, ECZEMA, CRACKING FINGER TIPS, RABBIT FEVER

REPORT BY G. B.

I, G. B., bought my Color Projector in 1935; six months later, my brother had an Infection in his Left Eye; the Right Eye a glass eye. I took him to an Eye Specialist twice a day; he could not see from this infected eye and since he was not getting any better, I used my Visible Spectrum. The first 20 minutes, he was under the Light, he began to see again! He took two more Tonations and he was better; had no more trouble with his Eye in ten years. The next year, my mother became sick; she had Migraine and High Blood Pressure and Eczema all over her Body; the Finger Tips would crack open. Today, she is better, thanks to the Visible Spectrum. Again, in 1939 she had Rabbit Fever. Used my Equipment for three weeks and was better, not using one drop of medicine. The Visible Spectrum was her life saver again. We feel like we would be lost if we had to do without our Projector; we feel fortunate that we have one. (Signed and Affirmed Before E. V., Notary Public.)

* * *

SLEEPINESS, HARDENING OF ARTERIES

REPORT BY H. H. H.

If I could not get another Equipment, I would not sell mine for five hundred dollars. In 1938, I suffered from Sleeplessness that nearly drove me frantic. I would never take medicine for such a Disorder, because, I

know of too many cases which had bad results; so, I bought my machine and had wonderful results, thank God! Mother, who lives with me, has had Hardening of the Arteries since 1929. Her Doctor, Dr. ----- told us he did not think that she would live longer than March 1939; this he said in 1936; so, she took Magenta regularly and is still with us today. She will be 85 this Fall; she is feeble, but, is able to care for herself and do little easy tasks yet. I truly feel that our Equipment has done so much good and I would never give up mine. Visible Spectrum is a Godsend to suffering humanity and I wish I could convince the Doctors, to use it faithfully and try it out for themselves. (Signed and Affirmed Before J. U., Notary Public.)

OUR STUDIO ACTIVITIES

EXPERIMENTER FINDINGS AND QUERIES

MEETINGS OF THURSDAY, APRIL 4, 1957

First Cleveland Ohio Studio

Before the Meeting opened, we were visited by a Mrs. H., who had received formerly guidance from N. W. She asked for a Membership Blank. She already owns a Visible Spectrum Color Projector, which she purchased through N. W. She also has the Three Volumes of the Text Books Set. The Chairman read the Editorial Remarks about "Sneeze" and about the Itisometer from the Detroit Report. Several of our Members are interested in the purchase of an Itisometer.

A. K. — I had a Sciatic Pain; tonated with Orange and soon had relief.

Chapter 2, from our Volume 1 of the Text Books Set, on "Darts Of Ridicule" was read and discussed.

A Mrs. H. means nothing. We should have always full name and address. We do not have any of that name in your section. The Portable Itisometer will be marketed when our facilities permit. It cost us a vast amount to establish our activities again since the Fire of 1945.

* * *

First Detroit Michigan Studio

A. G. — Friends, tonight I am going to read the testimony from the "Triumph." I feel that many of our students, in this Studio and possibly in other Studios, have yet a very negative idea of our work. There is no middle part in our work and we do not expect one or tolerate one. We can either do the job we say or we just can not. Many of our Students

are still resorting to other methods of healing and are using ours as a compromise. This is very wrong — wholly and totally. If any of you be not wholly convinced that our system is the best, the safest and the most dependable, then, listen to the testimony of Dr. Kate W. Baldwin, who had 41 years of service in both Medicine and Surgery and who was a notable in her field. In this testimony, she is under cross-examination by the Prosecutor and she was our star witness. So, if the Prosecutor is to win the case, this star witness must be blasted to smithereens and he is ready with the axe to do the job. Now, if this star witness be wishy washy, if she can be confused, there would be a favorable aspect for the Prosecution. The Prosecuting Attorney must leave no stone unturned for this witness. If, after listening to the testimony of this noble Doctor, your faith in our work be not increased 100 per cent., then, all I can say, you have no faith. (A. G. then read from page 142, Chapter 14 on, the testimony of Dr. Kate W. Baldwin, from the book of "Triumph.")

A. G. — All of you should get this book "Triumph"; you will derive much valuable information from it. This trial of Dinshah was the only time our Science was challenged. Dinshah had been in Courts a number of times, but, in those cases, the Science never was challenged. You must understand that Dr. Kate W. Baldwin was a remarkably educated woman; she was not only a great Doctor and Surgeon, but, had also a great understanding and knowledge of the Occult Sciences. If this great outstanding woman, with all her knowledge could say: "I would close my office tonight if I could not use the S-C" then, there must be merit in it. She was sold on the healing with the Visible Spectrum 100 per cent. and if there ever is any doubt in your mind about the value of Color in Healing, just think of the testimony of Dr. Kate W. Baldwin. It is very hard for outsiders to comprehend, how anybody, without complete knowledge of Anatomy, Physiology, Chemistry, et cetera, can take a Color Projector and heal ailing people with it. Another thing that gets them is, that we do not use Diagnosis, that we can take care of all Fevers, whether it be Scarlet Fever or Typhoid Fever, with the same Color, but, as I said many times, before, in order to use your Visible Spectrum Color Projector efficiently, you have to study and study and study. You are the one who has to do the research work. Never take a Tonation without analyzing your case; take your Kardoscil and Spirosil, take into consideration your Eliminations, et cetera. If at the Meeting here, a case be discussed that may be similar to yours, do not go home and take the same Color that we advised somebody else to take. No two persons are alike. Your Ratio and my Ratio may be entirely different.

Member — Why was Dinshah on trial?

A. G. — Somebody who had hired an Equipment testified that he had paid for an Equipment that did him no good, so Dinshah was tried for selling an equipment that had no value. At the trial, the decision was

rendered by the Jury in Dinshah's favor. Now, we should like to hear some Case Reports.

J. B. — Everybody in my family is fine.

A. G. — I am glad to hear that.

H. W. — We finally got advice from Dinshah for my husband's condition. He has had a nasty Skin Disorder for many months. We tonated with Turquoise and other Colors without much success. Dinshah advised Lemon Systemic and Yellow on Areas 6, 7, 8, 9, 10. We have been very pleased with the result of the Colors Dinshah advised. It has helped so much; the Skin is becoming nice and there is no more Itching.

A. G. — This just shows to you what the right Color will do for you. Some time ago, the case of a member was brought to my attention. He had a very nasty Sore about the size of a 50 cent piece and quite deep. He had been tonating with Turquoise for some time, without much results. I advised Lemon Systemic and results showed almost immediately. His Ratio was low.

W. K. — I had a severe Chest Cold. It came on very suddenly. That night, I took a Tonation of Turquoise. The next morning, I felt much better; later, I took Orange. That took care of it.

A. G. — At the last Meeting, C. R. explained the Affinity Waves to you. When you do not seem to get results with one Color, go to the Affinity. If you are tonating with Turquoise for a Cold and you do not get results, go to the Affinity — Lemon. That will do the job. Lemon takes care of Chronic Conditions, while Turquoise will normalate Acute Cases. We have a new Student with us tonight — A. St.P. Welcome to our group. We shall all be your friends. If you follow this Science, you will derive much benefit. The study of the Science of the Visible Spectrum, is very interesting and educational.

A. St.P. — I enjoyed the Meeting very much. It was very interesting to me.

A. G. — Our friend C. R. will read an interesting article to us.

C. R. — I like to bring to your attention an article in the magazine P. ----- entitled "Color can do things for you." This article brings you excerpts from a book "Color Psychology & Color Therapy," by F. B., which discusses the phenomena of Color in great detail. Of course, you can get your best knowledge of Color and what it will do for you, by studying our Text Books Set, but, I just want to point out to you, that Color has been used for healing purposes for hundreds of years, in a crude way, but, it was Dinshah who raised the Healing with Color into a Science. You read of his first experiment with Color, when he healed a dying woman in India, with Blue Pickle Bottles. This got him started experimenting with Color. We are very fortunate to have this marvelous Science of the Visible Spectrum and the Attuned Color Wave Projector. (He then read that article.) Experts found that Color and shade of the

surroundings has actual effect on disposition of workers and affects their efficiency. For that reason, many firms decorate according to "functional color," rather than for mere ethical purposes. It was in color that man found his first clues to the diagnosis of sickness and disease. The Yellow cast of the Skin hinted Jaundice, the flush of Red in Cheeks warned of Fever, a White Coated Tongue showed Digestive Trouble. Logically, thought the ancients, if color warned of disease, Color could surely be its homeopathic cure. Records of the time show, that amulets and charms of particular colors, were credited with more cures than all the physicians and surgeons rolled into one. Today's scientists have discovered that colors affect not only human beings, but, the least significant of living beings also. It has been shown that plants that are grown under different colored lights, exhibit different characteristics and growth patterns. All animals from Amoeba to Apes, react to color. With birds, the color sense is extremely keen; they all love green. So, use Color. It is to be exploited. If it can raise your spirits or stimulate your sense of well being, it is worth a trial. You all remember, that your Primary Colors in school days, used to be Red, Yellow and Blue. Those are not your true Colors. The true Primary Colors are Red, Green and Violet; the Secondary Colors are Yellow, Blue and Magenta and the Tertiary Colors are Orange, Lemon, Turquoise, Indigo, Purple and Scarlet. Now, if people could get results with colors used in a very crude way, how much more fortunate are we to have Dinshah's scientific system of Attuned Color Waves? But, the Projector itself can not perform any miracles, unless you do your part. When you want to normalate a condition, you have to take first care of Elimination Processes. The Eliminations take place through the Bowels, Kidneys, Skin and the Lungs. When you ask Dinshah's advice, he generally starts you with the Yellow, because, the soil has to be prepared first. Constipation is the cause of most ailments. I can never forget one case I had. It was of a woman 45 years old. She was a mess, if I ever saw one! Her Body was completely covered with Pus Pimples; she had only 1 Back Elimination a week; this condition had been going on for some time. She rented an Equipment and we started with Yellow Tonations. After 6 Weeks, her Skin was as clean as anybody's Skin could be. It was miraculous. She returned the Equipment. I tried to sell her one, but she would not buy it. That is people for you! In order to build a healthy Blood Stream, you have to eat the proper food, because, it is what you eat that builds your Body. The Rational Food Of Man system is good for everybody, no matter what the condition may be. Natural food is not just Brown Rice and Yellow Split Peas; there are numbers of natural foods from which to choose, but, make sure they are natural foods, grown naturally on organic soil. People say they do not know what to eat, when Dinshah tells them to cut out just 7 things. If you have nothing but Yellow Split Peas and Brown Rice, with cooked Vegetables, you get all

the Vitamins, Minerals, Proteins and Carbohydrates that you need. I advise everybody to make a little garden in the backyard, to grow some own Greens and Vegetables. You will get more Vitamins from just that little garden, than you can get from the whole drug store. You can not buy a Natural Vitamin in a drug store. They sell all synthetics, that do not do you much good. A vitamin is a compound that is associated with Life itself; it is the germ that makes it grow. It is the life that our Good Lord gave to our Natural Food, but, our college professors are trying to improve on the food, by creating synthetics and all kinds of chemical stuff that do more harm than good. Stick to Natural Food and pay no attention to the so-called Vitamins and Minerals they recommend. Choose the food that gives you the greatest amount of nourishment and the least amount of waste; that is why Dinshah stresses Yellow Split Peas which has 85.9 per cent. of nutrition, and Brown Rice which has 85.7 per cent. of nutrition, compared to Beef which has only 37.3 per cent. of nutrition. (He then explained about the story of Daniel refusing to eat meat and also of Daniel in the lion's den, to all which the Members listened with rapt attention.)

J. B. — Is there any truth in it that Raspberry Seeds and Tomato Seeds will lodge in the Appendix and cause trouble?

C. R. — It is possible if somebody is very much constipated and the Seeds become pushed into the Appendix.

We still have a few copies of the book "Triumph," available at \$5.00 per copy, in cloth binding, including postage and insurance. In our Science, Differential Diagnosis and naming Disorders is totally discarded and without thorough investigation, it is exceedingly hard for our opponents to believe such a step possible — it is beyond their comprehension. The charge in that Buffalo case was against me for Criminal Grand Larceny and I won the unanimous verdict in just 4 days of fighting in the Supreme Court of New York. If one Sun, having a Visible Spectrum of 7 Colors, can from millions of miles away produce all different Vegetables and Fruits, any person with the least intelligence should comprehend that Colors must have Chemical Properties and Disorders are the products of nothing but Chemical Imbalances, created through Physical, Emotional or Mental Disturbances in the Live Human Body. All food should be duly masticated in the mouth, before swallowing, as the Stomach (Area 8) has no teeth. If, therefore Seeds of any kind be gulped without chewing, there is a possibility that in passing through the Intestinal Tract, some culprit might become embedded in the Vermiform Appendage (Appendix),

potentially giving rise to an Inflammation (Appendicitis). Beware of gulping without reducing any and all food to a pulp, to avoid any untoward issue. The same remarks apply to all kinds of Nuts.

* * *

First Merrill Wisconsin Studio

Owing to a severe sleet storm in our area, there were only two Members present and there was no Meeting.

* * *

First Milwaukee Wisconsin Studio

K. B. — Have we any Case Reports?

Members — No.

K. B. — I shall then read to you from our Text Books Set, Volume 3, Chapter 102, on "Vaccination A Curse." (After reading it, he read on "Medical Voodoo" by G. H. and on "Vaccination A Curse And A Menace To Personal Liberty," by J. M. Peebles, M.D., M.A., Ph.D. Much discussion and explanation followed.)

K. B. — Good Thoughts, Good Words and Good Deeds. Good night to everyone.

I am glad the Members attending your Studio are in perfect health. The book of Dr. J. M. Peebles on the stated subject is the best book on it and when I was lecturing in Los Angeles, California, I purchased all the Copyrights and Publication rights from the heirs of that learned Doctor. When my facilities permit, I shall publish a cheap edition for wider distribution.

* * *

First New York New York Studio

R. D. — I shall read to you the letter of Dinshah sent to our Reporter, in reference to the May Meeting:—

"Dear Friend:

1. To be with your Studio on Thursday, May 2, 1957, I arranged already for a larger hall to accommodate the larger number of Members whom you expect to be present.

2. That Meeting will be held in the CHAPEL ROOM of the Hotel Diplomat, for that evening.

3. Please, announce this change at the Meeting of Thursday next, April 4, 1957 and oblige.

4. With the best regards and the kindest wishes for your continued welfare, I have the honor to remain yours very sincerely for service and

DPG/CD

Happiness In Every Home,

Dinshah P. Ghadiali,

President.

R. D. — Is there anyone present who wants to sell a "Master Of Occultism" and a "Healing Triangle Of Light"? Be sure to address all mail to "Visible Spectrum Research Institute." Did you notice the change of the Telephone from VINeland 9-3530 to OXford 2-3530? Are there any Case Reports?

W. G. — I have a Cold that is hanging on; I am using Turquoise; my readings are 72-18.

R. D. — Go to the Infra-Green. Use the Green or Lemon Systemic and Magenta on 4 and 18. It is very important to eat Rice and Yellow Split Peas. My mother could not move her Arm; she was in Pain all over. She was advised to tonate with Orange and eat Rice and Yellow Split Peas every evening. She has no more Fever and is much improved.

W. G. — Can Low Blood Pressure be improved with Food and the Light?

R. D. — Scarlet will bring up Low Blood Pressure. While you tonate, never change to any other Color within the same hour.

A. M. — Never go by High and Low Blood Pressure; go by the Kardoscil and Spiroscil.

R. D. — With a Headache, that is only a symptom. If the Infra-Green does not give the desired results, go to the Ultra-Green.

K. B. — With a Cold, if there be no Fever present, I get better results with Yellow than with Turquoise.

R. D. — In most cases, Colds start in the Chest and the Throat. Turquoise gives me the best results with the children.

D. R. — I had no more Nose Bleeding after using one Green on the Head.

R. A. — My Electric Timer shuts off after 55 minutes.

J. B. — The clock which comes with the Timer is not accurate. Take the Light 10 minutes before you set the Timer; that way you will get your full hour.

R. A. — Is it all right to squeeze a lemon on an Aluminum Squeezer and use Aluminum pots?

R. D. — The best thing is to use Glass.

J. B. — Dinshah answered that question saying not to cook acid foods in Aluminum vessels.

K. B. — When I am all worn out, I take Magenta; for me, that gives the most wonderful feeling. It is truly an Emotional Equilibrator.

R. D. — Magenta is also an Auric Builder.

E. K. — I had an Operation 1½ years ago; ever since that, I am gaining weight; it interferes with my health.

F. R. — Make sure that what you eat is not fattening and do not eat so much of it.

R. D. — Take Yellow and Magenta for 30 days.

K. B. — Why did you take Green for Nose Bleeding?

R. D. — Green being the Governor Wave, it will go to the root of the trouble. Indigo will stop the Bleeding. Dinshah advised me to give my son Green Systemic; he used to get Sore Throat so easily.

F. R. — Green is a Pituitary Stimulant.

R. D. — A friend of mine has a Chicken Farm; he has excellent results by using Colored Lights. He has an 82 per cent. production. His Chickens are not vaccinated.

R. A. — I wonder if the Light can be used with Plants too.

R. D. — I read that Red Skelton's boy has Leukemia. If a man like that would try the Light, he has nothing to lose. The Doctors can not cure Leukemia.

A. K. — I was in the Farmer's Museum, in Cooperstown. The druggist there told me that in olden times, they used to heal Eyes with Light coming through Blue Glass.

R. D. — Our Science is nothing new. Dinshah standardized it and brought it back to us. In our next Meeting, Dinshah will be with us.

W. G. — Can one bring non-members as visitors?

F. R. — Make them Student Researchers; it costs only \$3.00 for the year.

M. W. — We are looking forward to having our beloved Teacher Dinshah, with us at our next Meeting. Due to extremely bad weather, the attendance this time was only 20.

The importance of the Rational Food Of Man can not be overimpressed. If the food is for building the Body, it must have at all times, all the Elements essential to the maintenance of the Bodily Balance. 700 copies of the "Master Of Occultism" burnt in the disastrous Fire of 1945 and it is thus out of print at present. "Healing Triangle Of Light" is out of print also, but, it is embodied in the First Volume of our Text Books Set. A. M. was right about the Kardoscil and Spiroscil. Follow the Ratio. The true Tonation Time is 45 minutes, when the Right and Left meet in the Water Level or Junction, but, because of the difference of the locations of the Sufferers in different Longitudes and Latitudes, I had to standardize a Tonation for 1 Hour. The clock mechanism in the Timer varies in each and no matter when it stops within the period because of the fluctuations in the clicking, the effect of the Tonation will NOT be affected, because, the Junction passes on the 45th minute. Do not use Aluminum metal when it is to be in contact with Acids; otherwise, there is no harm. E. K. is a Student Researcher just affiliated. There is a Projector in her home. She may have the registered Experimenter Researcher

send her Chart for service. We have no information about that "Operation." Light is admitted to have certain influence on Chickens, otherwise, brooders would not burn electric lamps in hen houses. Plants are also capable of responding to Color Lights, as was amply proven by the learned Dr. Edwin D. Babbitt, from whose book I started the study of Light And Color in 1891 and after 30 years of hard, experimental work, placed the present Visible Spectrum Science before the public, getting as a reward from its opponents the titles of "Quack" and "Faker"! Such is the World ! ! ! Leukemia is defined by our opponents as "A fatal disease of the blood forming organs, characterized by a marked increase in the number of leukocytes and their precursors in the blood, together with enlargement and proliferation of the lymphoid tissue of the spleen, lymphatic glands and bone marrow. The disease is attended with progressive anemia, internal hemorrhage (as into the retina, etc.), and increasing exhaustion." We do not have to study the jargon. The word shows its meaning from its origin from the Greek being Leukos = White and aimā = Blood; an increase of White Corpuscles in the Blood. Any Experimenter Researcher would realize from own study, that the Imbalance is of Area 6. The remedy from that point will depend on the conditions in other Areas according to the inflexible rules of our Science. We make no definite claims of any kind.

* * *

First St. Louis Missouri Studio

C. N. — I have information from the Institute that M. P.'s Appointment as the Reporter of the Studio was revoked and V. C. S. was appointed to fill that post on the Studio Commission. I shall ask her if she would accept it.

V. C. S. — I accept the Appointment.

C. N. — I request now Case Reports; information on personal problems for the welfare of the Members and their families.

Members — None.

R. B. — I like to ask why in the correspondence from the Institute they indicate time by Colors and the terms White and Black?

C. N. — I shall explain that to you. The Mogen David has our 12 Colors and there are 12 hours in time. Thus beginning with 12 o'clock as green, you go around the dial and White means A. M., Black means P. M.

(Chapter 88, from the Third Volume of our Text Books Set, on "Governor Green" was read, followed by "Visible Spectrum Axioms." Light and how it travels was explained. Then, Chapter 44 on "Sevenfold Human Constitution" was read, followed by an elucidation of the Emanations of the Physical Vehicle (Aura) and Chapter 87, on "Secrets Of The Pituitary Gland" with Red and Violet, the two Colors on the Base Line of the Major Spectrum of White Light. The Chairman stated that the Aura of the Human Being is at all times predominantly Magenta.)

Member — I question that.

DINSHAH IMPARTIAL

(The Universe Through The Eyes Of Dinshah)

AMERICAN CANCER SOCIETY CONDEMNS SMOKING

While I was preparing this issue for printing, several times I heard on the Radio a report that truly was a surprise, looking to the past records. The American Cancer Society openly declared after examining the condition of over 188,000 cases, that Cigarette Smoking without doubt increases the production of Lung Cancer and Heart Disease and the death rate among smokers is far greater than among non-smokers. Of course, the Tobacco Industry is howling that the cause of Cancer and Heart Disease is unknown and that the American Cancer Society's report is fundamentally groundless. I have been shouting my head off against the Horrors Of Tobacco Smoking and shall be glad if the Tobacco Industry Tycoons will take the trouble to read my leaflet on the subject or challenge me to a debate on a public platform. Meanwhile, all credit is due to the American Cancer Society for their courage in enunciating the truth and to the Radio Chain CBS in broadcasting repeatedly the opinion expressed by that Society on such a terribly controversial topic. Ye women of America, keep away from what is threatening to be the ruin of your beauty and the health of your coming generation! Smoking is the most filthy and stinking of all human habits.

* * *

ADMISSION OF FALL-OUT DANGERS

Over 2,000 Medical Doctors and Scientists, versed in the Atomic Potentialities came out recently with a warning that if an Atomic War were to be waged, the results would be inconceivably disastrous and the Fall-Out from the explosions would most likely kill more than 80,000,000 people. Furthermore, they stated that those who might manage to survive, will be so affected that they will become sterile and all types of defective organs will be produced in the generation of the human beings born of such blasted parents. It is all very true, but, while we are daily making more Atomic Bombs and more Explosive Tests, the atmosphere is getting so polluted the very idea of the eventuality has become staggering in my mind. During the past few months, I had under my personal care four cases of Fall-Out Burns, the most severe being that of a newspaper publisher. His face had become red and his nose swollen like a big beet, for which his friends—the Doctors—could do nothing. He applied to me and through his co:operation in following our rules, he was well in a week and returned the loaned Color Projector with thanks. I respectfully request our politicians to give this horrible contingency a careful study and save our beloved America from potential disaster, which as it is, appears to me to be imminent.

* * *

UNSOLICITED TESTIMONIAL FROM MONTANA

Dear Dinshah:

As a clue to my application to good living and eating and thinking habits, I will offer this information. My three children, aged eight, ten and twelve, have completed a full year's schoolwork, with excellent grades and without missing a single day of school for any reason. This is the only time this has happened in the history of this school. Competing with eight other schools in an athletic field day, our school got three times as many points as the next highest school to win the trophy. This proves to my satisfaction that meat eating is not necessary to mental or physical health.

Your sincere follower
T. W.

Then he adds about his daughter of 10:— "She is alert, learns fast, eats like a horse, plays like a pup, sleeps like a dog and is getting fat!" Good for her!

* * *

PRONOUNCE THIS MAORI NAME!

In the December 1956 issue under the caption "What Is In A Name?" was printed the name of a town in Wales, which many thought was a joker. Now, we have a Member in New Zealand, who can testify that there is a village there which in the Maori Language is called:—

TAUMATAWHAKATANGIHANGAKOAUOTAMATEATURIPUKA-KAPIKIMAUNGAHORONUKUPOKAIWHENUAKITANATAHU. This is ONE NAME. If you get stuttering in negotiating it, do not blame me!

* * *

TRAMPLING RELIGIOUS PRINCIPLES

To what extent medical theories and conceptions rule even the Courts of so-called Justice, may be gathered from a recent incident in Chicago, Illinois. Alyson Conn, a girl of 8, in custody of her divorced mother Carolyn Conn, was ordered by Judge Harry Hershenson, to be given full three Polio Shots, in spite of the mother's pleading that she is a Christian Scientist and will not submit to the Shots. Testimony was offered by two Health Officers endorsing the Shots and a third questioned its efficacy; furthermore, a Christian Science spokesman argued that "no Court has the right to enforce medication." Then, the father, a Jew, divorced from his wife, intervened that the mother is unfit to care for the child and he should have custody of the girl. The judge ruled that "It is in the public interest that the spread of such disease should be prevented at all costs." Then, the mother was forced to bow to the Court's decision, to save custody of her daughter. Let the reader judge where America is headed!

AN ACTIVITY IN CALIFORNIA

Thus writes E. M. an enthusiastic Member:— “Thank you for mailing one set of ‘Family Health Protector.’ I am still passing them around; have one party very much interested in it and hope I can get him as a new Member. One neighbor friend was interested in reading it too, when I gave it to him 1½ years ago. He came to the conclusion ‘the medical association is fighting it, because it is good’! But, they put off ordering an Equipment. Three months ago, he underwent surgery, for Prostate Gland. As he was getting along well and was big and husky, they operated on him for Bleeding Stomach Ulcers only 3 days later. Then, the Doctors told the man’s wife that they did not find any trace of Cancer and could expect now to live 20 years longer; was 75, looked 60. Soon after, he developed Uremic Poisoning, could never eat again, was very sick for 5 weeks before he died. People are so reluctant to change old habits. I am feeling fine now. Thank you always.”

* * *

SUGGEST COLOR FOR HIS WIFE!

Writes R. K.:— “I am getting good results under your instructions and realizing it would be much better if I could follow your instructions more closely, especially in my diet. I have reached a point where I do not **know** what to do. My wife does not agree with your diet instructions and since she is the cook, I am in a difficult situation. I tried to change my diet at one time and found myself facing **HOT** debate not only from my wife, but, her entire family. I try to abstain from meat as much as possible and when I do, I find it helps me. I believe that your outlook on diet is accurate and I surely would like to follow more closely. We live in a large house trailer and we can not swing the bed to head north. The only way I can see to change my diet is through the divorce courts, which I am seriously considering. After all, this is my body; I am trying to keep in good health. Please, quote me a price of your Cook Book.”

SUGGESTIONS AND ENDORSEMENTS OF 1956

Endorsement By C. J. F., E515

The results are effective and positive and superior to any Medicines, Drugs and Serums or Surgery. So simple, teenagers can learn this System immediately and surpass the Medical Schools to a higher plane of intelligence.

* * *

Endorsement By H. B., E374

I was stricken with a Heart Attack on January 29, 1955. My wife called a Doctor as is required by Company Rules, whom I work for, in order to collect insurance. I was asked by the Doctor to go to a Hospital for Tests. After arriving at the Hospital, I received Penicillin Injections, of which I had several, but, refused to take any more after I was myself again. I came home after about three weeks. The Doctor prescribed Pills to be taken three times daily. Knowing what that will do, I set them aside and started to use my Projector twice daily. The first two weeks, the Doctor came to the house to check my Heart. After that, I went to see him at his office. The Doctor stated after each Test, that my condition and improvement were very satisfactory and I usually asked him how much longer I should have to take the Pills. He replied: "You must take them for a long, long time or you may have a relapse." What he did not know was that I discarded Pills and Medicine altogether, after leaving the Hospital, using only my Projector! After several months of seeing the Doctor and he finding my condition so much improved and my asking him at each visit how soon I could discontinue the Pills, he agreed to cut down to one a day. One I must take for a long time yet, because, they are really helping me! It is quite amusing how much can be handed to the public! Thanks to the Visible Spectrum for my recovery!

Endorsement By P. Z., G45

I had the most wonderful results with my Color Projector, for myself, for my sister and many other people. I would not be alive today, without the Projector. It was a Godsend to me after I had tried everything else and spent lots of money, but, I did not get any help. None of my Glands worked and I had times when I was not able to breathe anymore, but, with the help of the Projector, I am getting along fine. I had one Cold after another and very heavy ones; now, I have not had one in a whole year. The Color Waves are one of the most wonderful inventions in the World.

Endorsement By E. M., E354

We were told about the healing qualities of the Visible Spectrum by a neighbor, who in turn, was healed in 3 months of Stomach Ulcer. At that time, the Doctor wanted to operate on me for Fissure Of Rectum. Half skeptical, I never hesitated to order one through K. B., visiting in our neighborhood. To my surprise, the Color treatments advised by Colonel Dinshah, helped me to overcome this Disorder speedily and was verified by the same Doctor, who wanted to operate for it! This was in 1939; since then, the Visible Spectrum has proved its merits in the following conditions:— Chronic Constipation, Colds, Flu, Moving Pains, Rash, Nervous Disorder, Mental Upset, Stomach Upsets, Bruises on Knee and Toe and recently Tumor on Root of Tooth. We can not say enough in praise of our Equipment; we could not think of giving it up for any amount of money, should we not be able to buy another set. May God bless it and its Originator Colonel Dinshah! If only more people could know, what wonderful healing qualities God has given us in Light and Color! This Science should be promoted for what it can do for Suffering Mankind, instead of that unjust persecution and condemnation by selfish interests. I pray I might live long enough to see this wish come true! Forgot to mention, that this same neighbor, who was healed of his Stomach Ulcer by Visible Spectrum treatments in his own home in three months, was treated medically for 2 years unsuccessfully, until he finally decided to try Visible Spectrum, on advice of his sister and brother-in-law in Milwaukee.

Endorsement By S. K., E679

I can hereby certify that the result of using the Visible Spectrum Color Projector is most satisfactory. It has helped me greatly with my Digestion Disturbances as well as my Bronchial Troubles. I would not want to be without my Equipment.

* * *

Endorsement By J. L. B., E624

I have used the Color Projector on my family and myself for three years and am very pleased with the results. I have had no need to call or see a Doctor in that time. I myself have had a Doctor attend me only in Child Birth. Three years ago, I was in a Sanatorium for T. B. I left and started using the Color Projector and even now I need never worry I might have to go back. I used Orange on Areas and Green Systemic; in six week's time, I had no sign of ever having had T. B.

* * *

Endorsement By V. M. R., E886

We had a very real problem which tested the merits of your Color Projector to the limit and it was not found wanting. Mother burned her Hand very severely in hot bacon grease last October. I had just come home from work, so I had her place her Hand under the Turquoise Light and after 20 minutes had passed, all the Pain had vanished and after a few more Tonations of Orange, she did not have a Scar anywhere and the Blood Vessels found new channels and the whole process took very little of her time and did such a beautiful job. I say, hats off to the Projector and let us hope we have many more Members to benefit from this marvelous work. My friend also bought a Color Projector last Fall and she got good results also.

* * *

Endorsement By B. W., E350

The members of my family and I, are very grateful and thankful to you, Colonel Dinshah, for the invention of this remarkable Projector; also, the privilege which is ours, to be able to own one and use it, if the need arises. This is really a valuable privilege and can be enjoyed by many. At present, we are all in good health and should any symptom of an imbalance appear, it is soon normalated with our Projector. May your success of this Science, gradually reach out to more people in this World in the future.

* * *

Endorsement By R. G., E651

We have used our Color Projector of Visible Spectrum for over 20 years. We did not concern ourselves about the various names of Disorders, but, watched the Imbalance in the Body according to the teachings of the Founder. We then applied the Science, again in accordance with the Founder's teachings; the Result! An assurance that we have a Science presented to us that we laymen can understand, apply with confidence and **Hand Down To Our Children**. There is the place to sell your Visible Spectrum Research Science.

* * *

Endorsement By S. M., E868

I am convinced that it saved my life. I would never be without it. I would sell all my earthly belongings if necessary to buy the Projector.

PROGRAM OF OUR FOURTH ANNUAL CONVENTION

Our Fourth Annual Convention will open in the "A" Hall, The Republican Hotel, Corner of North Third and West Kilbourn, MILWAUKEE 3, WISCONSIN, on Sunday, August 4, 1957, at 2 P. M., continuing the next two days.

Registration and Admission

All Student Researchers, Experimenter Researchers and Graduate Researchers, in good standing for the year 1957, are eligible for admission, by presentation of their Membership Card (which must have the handwritten signature of the Member) and signing in own hand-writing in ink the Attendance Record, at Each Session of the Convention. Visitors (persons not affiliated for 1957) will NOT be admitted and no Request for joining as a new member will be entertained during the Convention. Delegates of Studios must present their Credentials to gain recognition.

Convention Sessions

Sunday, August 4, 1957. Afternoon Session, 2 P. M. to 5 P. M.

Address by our President Dinshah P. Ghadiali, on

"The State Of Our Organization"

Comments and Suggestions from the Members.

Evening Session, 8 P. M. to 10 P. M.

"Sevenfold Human Constitution."

Questions from the Members and Discussion.

Monday, August 5, 1957. Afternoon Session, 2 P. M. to 5 P. M.

"Deciphering Our Personal Research Information Charts." The process will be explained.

Evening Session, 8 P. M. to 10 P. M.

"Four Birth Rights Of Human Beings."

Questions from the Members and Discussion.

Tuesday, August 6, 1957. Afternoon Session, 2 P. M. to 5 P. M.

"Dispensing With Differential Diagnosis."

Questions from the Members and Discussion.

Evening Session, 8 P. M. to 10 P. M.

"Elucidation Of The Variant Breath Phenomenon."

Questions from the Members and Discussion.

Special Notice.

Positively NO WRITING OR TAKING NOTES OR PHOTOGRAMS WILL BE PERMITTED during any Convention Session and NO SMOKING. Violators will be promptly ejected.

Send no Charts or any mail to the Principal Office at Malaga, New Jersey, from Saturday, July 26, 1957 upto Sunday, August 11, 1957, because, our President Dinshah P. Ghadiali, will be attending the Joint Annual Conventions of The American Naturopathic Association, Inc. and The American Association for Medico-Physical Research, in the Morrison Hotel, in Chicago, Illinois, during the week prior to our Annual Convention and also visiting the First Detroit Michigan Studio, on Thursday, August 8, 1957, before returning to the Principal Office. For any emergency during our Convention, address:—Colonel Dinshah, Room 274, The Republican Hotel, Corner of North Third and West Kilbourn, MILWAUKEE 3, WISCONSIN.

Final Request

At all of our Convention Sessions, please, bring our Constitution And By-Laws for reference, along with a Personal Research Information blank.

OUR AIM:— Happiness In Every Home.

Either you work WITH US

Or we work WITHOUT YOU.

VISIBLE SPECTRUM.

Please, Inform Us Before Changing Address

Many subscribers go on vacation or change their location WITHOUT giving us the new address.

The Post Office then returns the magazine to us and we have to pay 2 Cents Postage Due on each package, because, under the postal rules, Second and Third Class Mail is not forwarded to a different address.

Then, the subscriber later complains about OUR negligence!

Kindly pay attention to our above stated respectful Request and avoid loss of back numbers.

VISIBLE SPECTRUM RESEARCH INSTITUTE,

OUR STUDIO DIRECTORY

On the First Thursday of each Month, there is held a **Membership Meeting**, at 8 P. M., in each of our following Studios, for reporting the results and findings of Personal Experiences in the use of the Visible Spectrum of Light and Color:—

First Cleveland Ohio Studio—The Colonial Hotel, 523 Prospect Avenue, Cleveland, Ohio. Albert J. Martin, Chairman, Sleepy Hollow Lake Road, Brunswick, Ohio. Jacob Dussing, Vice-Chairman, 1253 Melbourne Road, East Cleveland 12, Ohio. Theresa J. Soree, Reporter, 9216 Orchard Avenue, Cleveland 9, Ohio.

First Detroit Michigan Studio—Knights of Columbus Hall, 4740 Woodward Avenue, Detroit 1, Michigan. Albert Greenham, Chairman, 30906 Robert Drive, Livonia, Michigan. George G. Weiland, Vice-Chairman, 19692 Hanna, Detroit 3, Michigan. Elfriede Kolmetz, Reporter, 6735 Meadow Avenue, Van Dyke, Michigan.

First Merrill Wisconsin Studio—New Badger Hotel, 310 West Main Street, Merrill, Wisconsin. Walter Briese, Chairman, 707 E. Third Street, Merrill, Wisconsin. Edward Katke, Vice-Chairman, Route 6, Merrill, Wisconsin. Dorothy Nelson, Reporter, 1814 West Main Street, Merrill, Wisconsin.

First Milwaukee Wisconsin Studio—The Republican Hotel, "A" Hall, corner North Third and West Kilbourn, Milwaukee 3, Wisconsin. Kurt W. Bader, Chairman, 314 E. Burleigh Street, Milwaukee 12, Wisconsin. Fredrick Knepprath, Vice-Chairman, 10120 W. Harrison Street, West Allis 14, Wisconsin. Florence Gutsch, Reporter, 3041 North 53rd Street, Milwaukee 10, Wisconsin.

First New York New York Studio—Hotel Diplomat, Blue Room, 108-110 West 43rd Street, New York 18, New York. Ralph W. Die-drichs, Chairman, 423 Jackson Avenue, Mineola, Long Island, New York. Hildegard Muehlfriedel, Vice-Chairman, 817 Lancaster Road, Ridgefield, New Jersey. Margarete B. Wolschendorf, Reporter, 19 Van Buren Avenue, Norwalk, Connecticut.

First St. Louis Missouri Studio—Albrechts Hall, 3549 Arsenal Street, St. Louis 18, Missouri. Clemens M. P. Neumann, Chairman, 4348 Virginia Avenue, St. Louis 11, Missouri. Walter Bloss, Vice-Chairman, 6408 Lansdowne, St. Louis 9, Missouri. Viola C. Steiner, Reporter, 9632 Tesson Ferry Road, Affton 23, Missouri.

OPEN DECLARATION FROM THE EDITOR

DINSHAH P. GHADIALI

NO WARRANTY, NO GUARANTY, NO LIABILITY

Since in June 1922, I became the Editor of a similar monthly magazine, controlled by another Corporation (now dissolved), I had complete records of all Case Reports and personal matters in my files. Those were totally destroyed on Tuesday, January 2, 1945, by a disastrous Fire of unknown origin, which burnt my 30 room Main Office Building and Laboratory, causing a loss of over \$250,000.00, being without insurance.

A few months later, Law Suits were instituted in the United States District Courts, at the instigation of certain opponents of the new Science of the Visible Spectrum and because of our inability to produce the original documents as proof of various contested matters, verdicts were rendered against me and the controlling Corporation to the effect that our literature was false and misleading under the Federal Food, Drug and Cosmetic Act, as a result of which we received heavy Sentences and Penalties, I being dubbed a "quack" and a "faker." \$125,000.00 of printed literature was also destroyed by Court Order.

The American Medical Association and Licensed Medical Doctors and Surgeons strenuously maintain that the Visible Spectrum of Light and Color has no Therapeutic Effect and that it has absolutely NO HEALING or CURATIVE VALUE.

For that reason the VISIBLE SPECTRUM RESEARCH INSTITUTE openly warns the Reader, that the said INSTITUTE issues this Monthly copyrighted in accordance with the Constitution of the United States of America, Article 1, Section 8, Sub-Section 8, protected under Article 1 of the Bill of Rights; the Reader who uses the contents as basis for own investigation, experimentation and (or) research along the lines of the Visible Spectrum, to determine the Powers and Effects of Light and Color upon Living Organisms or otherwise, will do so on own absolute responsibility, taking and assuming ALL RISKS pertaining to such activities.
