THAT'S A GOOD QUESTION

Under the above caption, Medical Doctor William Bolton, as the Editor of the said department in "today's health", a monthly publication of the American Medical Association, wrote in its March 1953 issue an answer to an inquiry about:—

"COLOR THERAPY

Question — A friend tells me that a method called color therapy is now being developed by which various illnesses may be treated successfully. Do you have any information about this?

Answer — From time to time, theories are advanced that color may have value as a treatment adjunct in medicine, but we do not know of any evidence that a specific disease ever has been cured through the use of color alone. Various colors may have some value so far as mental attitudes of many patients are concerned, and this idea has been utilized in some hospitals. For example, walls and ceilings of hospital wards or rooms may be painted a light blue or green because such tints are believed to have a soothing effect. In general, colors probably should be considered for their secondary effect in helping a patient to overcome excitement or worry about an operation or illness."

TREATMENT BY "SILENT SOUND"

The same Medical Doctor in the November 1956 issue of "today's health," wrote a long article on the treatment of kidney and gall bladder stones, relieving pain, soreness and tenderness in certain kinds of bursitis, peri-arthritis, fibrositis, tenosynovitis, myofasciitis and myositis, rheumatoid arthritis and osteoarthritis, successfully by means of "Silent Sound," "Supersonic Waves" or "Ultrasound," which is Sound Waves that the Human Ears can not catch. Sound upto 32,768 Oscillations per Second can be heard, but, after that range the Human Ears can not utilize it as Sound and the said Medical Doctor recommends for "Silent Sound" treatment 500,000 to 1,000,000 Oscillations per Second.

So, if that Frequency can produce the stated results, what about the Oscillatory Frequency of our **Visible Spectrum Of Color**, which has what I described and utilized decades ago as:—

562,949,953,421,312
Oscillations Per Second???

This publication is an answer to the stated view, as in our service to our Members, their own convictions by their personal investigations, researches and experiments will give them the accurate view of the Truth behind the Visible Spectrum. Let the reader judge for self.

NOTICE TO ALL

We accept no gifts or gratuities, as to a Servant Of Mankind it is **graft**. Send us nothing.

You may send your Book for review or opinion; you may send your **Writings** or **Experimental Findings** and **Reports** for publication, provided they are not plagiarized or false and bear your hand signature in ink, with full name and address.

Anonymous communications will receive no attention. Submitted **articles** will not be returned.

All correspondence should be addressed to:— Visible Spectrum Research Institute, Malaga, New Jersey and not to any officer or individual.

For the views expressed in signed articles, the writers are **responsi-ble**; for the opinions in articles bearing no identification, the Editor **shou**lders the sole responsibility.

THAT IS A GOOD ANSWER By:- INDIVIDUAL EXPERIMENTERS

HAY FEVER, MEASLES, CHICKEN POX, HIGH FEVERS, COLDS, WATER IN KNEE REPORT BY H. K.

About 4½ years ago, my boy had Hay Fever very badly and the Doctor said: "There is no cure for it." So, the boy had to live through it in agony during 2 seasons. Then, we heard about the Visible Spectrum, which we used from then on so successfully, that his Hay Fever was cured. Our children had Measles, Chicken Pox, High Fevers and Colds. My husband had Water In The Knee and nothing but Visible Spectrum was used. Knowing what Visible Spectrum will do for us, I feel safer than any other mother, who has to depend on medical help. Visible Spectrum with its brilliant healing power is the most wonderful achievement in science. All my gratitude goes to Colonel Dinshah; may he be with us for many years to come! (Signed and Affirmed Before J. G., Notary Public.)

* * *

BLOOD POISON, SWELLING, VARICOSE VEINS, ULCERS, DISCOLORED TOE NAILS, PUS, HIGH FEVER, PAIN REPORT BY D. G.

In 1929, I contracted Blood Poison and my Body from the Ribs down swelled up twice its normal size. I went to the Hospital and there the Doctors decided possibly to amputate my Right Leg. Later, the Left Leg became abnormally swollen and the Pains became so severe that the Medical Doctors were at a loss what to do. Only Heat Treatments were given; still the Legs were swollen and Varicose Veins developed in both of my Legs. I again went to Medical Doctors and the Clinic for this trouble and was treated with Medicine for the Varicose Veins, which opened and produced Ulcers; also, received Injections for the Ulcers, which would heal up and break open again at some other part of my Feet. I received about 30 Injections, which finally stopped my Blood Circulation in my Legs and Feet, producing Discolored Toe Nails and Pus around the Nails. One Toe Nail was removed by the Doctor. I was not able to get a job, because I was unable to walk properly and could not wear any shoes. I had about from 15 to 20 Ulcers, some of them the size of a silver dollar and a depth of ¼ to ½ inch filled with Pus and decaying matter, the odor of which was at times unbearable. I secured a Visible Spectrum Equipment, followed the Rational Food Of Man system of food intake. Recovery was very slow and I was at the verge of giving it up, when in 1941, I called at the office of C. M. P. N. a Graduate ----- in St. Louis, Missouri. He told me to continue to use the Visible Spectrum. I noticed a decided change in my whole system. At that time, I had a High Fever and was bed-ridden for two months. My Lower Legs and Feet were very swollen and the Ulcers pained extremely,

accompanied by a constant drainage of Pus. I was unable even to walk and sometimes had to crawl. However, I passed this crisis and continued to use the Visible Spectrum. I became stronger and the Ulcers healed. Now, I am able to work again and can lead a normal life. All my Ulcers are healed completely to my entire satisfaction, but, one small spot. I have no Inflammations and I can walk and now drive heavy Autoequipments and Trucks daily. I use only the Visible Spectrum and I am well pleased with its results obtained. (Signed and sworn before J. S., Notary Public.)

* * *

**CHEST COLDS, SORE THROATS, BACKACHE,
MUSCULAR ACHES REPORT BY L. N.**

I wish to say that we have used a Visible Spectrum Color Projector of our own which we have had for sometime and certainly are well pleased with it. I can certainly say with all sincerity, that it has helped us all. I have used the Visible Spectrum for our three children for Chest Colds, Sore Throats, Backache, Muscular Aches and Pains. I can truthfully say that it has benefitted our whole family and we would not wish to part with it for any reason. (Subscribed and sworn before I. W., Notary Public.)

* * *

**ULCERATIVE COLITIS, DOUBLE STRICTURE, CONTINUED
BLEEDING, DIARRHOEA, MUCOUS DISCHARGE, ARTHRITIS,
PUS, AGONIZING PAIN, STOMACH ULCERS, FEVERS,
INFECTIOUS BURNS, CONSTIPATION, CHEST PAINS,
BACK PAINS REPORT BY M. V. W.**

Visible Spectrum has done so much for me, I am unable to put it in words. I would not part with it for anything. I was very ill for over 16 years since 1925, with Ulcerative Colitis, Double Stricture and other complications. All the Continued Bleeding and Diarrhoea with large Mucous Discharge from Colon could never be stopped by any Specialist. I had Arthritis and would be stiff, unable to move for 3 or 4 months at a time and in Agonizing Pain, but, since I used the Visible Spectrum, I have no more Arthritis, Bleeding, Pus or Pains and my general condition is greatly improved. In 1932, my husband had a Major Operation for a Crushed Leg from a fall. He could hardly walk and was in much Pain. Only a few Tonations and all the Pains were gone. There are numerous other cases; Ulcers of the Stomach, Fevers, Infectious Burns, Constipation, Pains in Chest and Back that were completely normalatated after several Tonations. All I state here is true and I have proof of it. I am most thankful to Dinshah to have it made possible for me to own one. It would be a great service to mankind to use it for wounded servicemen. (Signed and Affirmed Before W. B., Notary Public.)

OUR STUDIO ACTIVITIES

EXPERIMENTER FINDINGS AND QUERIES

MEETINGS OF THURSDAY, JUNE 6, 1957

First Cleveland Ohio Studio

There was a round table discussion on the effects of the chemicals used in raising vegetables. The Members all think that such is the reason for the increased number of Heart Disorders.

E. L. — I had a Stiff Neck; tonated with Turquoise Systemic; had good results. I am in my twelfth year since I stopped eating Meat; I have no desire for it.

AN. M. — I had trouble with Poison Ivy; tonated with Turquoise.

AL. M. — I wrenched my Back; tonated with Magenta; felt better after three Tonations.

A. K. — My son has a Broken Ear Drum; tonated with Magenta.

(The minutes of the Detroit Meeting from our May 1957 issue were read and discussed.)

EDITORIAL

REMARKS

It shows interest in the Science and its followers to discuss the activities of other Studios. Now, do something original in your Studio, so others may find interest in discussing your activities! I wish you all well.

* * *

First Detroit Michigan Studio

The Chairman having sent word he would be about 30 minutes late in coming to the Studio, the Vice-Chairman opened the Meeting.

G. W. — We shall start with Case Reports and I like to have everyone of you take part in the discussion of these cases.

A. St. P. — As I reported before, I have Diabetes and am under the guidance of C. R. I have been tonating with Yellow, Purple and Magenta. I have greatly improved and am feeling fine.

G. W. — That is good; I am glad to hear it.

W. R. — I reported at the last Meeting that I hurt by Back. I had tonated with Turquoise without results. A. G. recommended Indigo. I took Indigo for about one week; that took care of it. The Pain is completely gone.

R. K. — I gave a report at the last Meeting. My Kardoscil was very high; it would go upto 92. After tonating with Purple, it would go down to 72, but, after about 3 hours, it would go up again. I also had some trouble with my Shoulder; I had this for about 8 months. A. G. suggested that I send a Chart to the Institute, which I did. Dinshah advised Yellow on 6, 7,

8, 9, 10 for 15 days. I feel much better now and the Pain in the Shoulder is disappearing. My Ratio is now 83-16.

G. W. — That surely is an improvement.

P. N. — I have been under the guidance of C. R. for a Backache, but, I did not tell him about the Eczema I had. My Backache has disappeared and I am feeling fine, except for the Eczema. I was tonating with Yellow and Orange. About 3 years ago, I was in the Hospital and was given 57 Shots of Penicillin for treatment. Later, I developed the Eczema. I went to a Skin Specialist, who gave me Pills that made me sick. I threw the Pills out and went to an old German Doctor. He told me the Eczema was the result of the Penicillin Shots.

W. K. — The Body is trying to cleanse itself of the Poisons through the Eczema. It has to come to the weeping stage. Color and the proper food will take care of it, but, it will take time.

P. N. — Last year, I went to Switzerland and while there, the Eczema disappeared completely. Three days after I came back here, I had the Eczema again. A friend had a similar experience. He too had Eczema. He went to California and while there, the Eczema disappeared. As soon as he was back in Detroit, the old Eczema was back again too. I wonder whether climatic conditions have an influence on these cases.

G. W. — Why don't you send a Chart to Dinshah and ask his advice?

E. R. — Last year, the case of a woman came to my attention. She was all crippled with Arthritis; a very sad case. Her Back was completely bent and Limbs badly swollen and stiff. She could only shove herself around on crutches and was confined to the wheel chair most of the time. Her husband had given her every known treatment for Arthritis, including Cortizone. They had spent an enormous amount of money without getting any results. I did not want to raise hope in this poor soul without knowing whether recovery was possible, so, I described the condition to Dinshah. He told me to fill out a Chart. He said that there was hope and she ordered an Equipment and got Dinshah's advice. This was last October. Last week, I went to see her. She is improved quite some. She can move her Finger now, which was stiff and bent and can also see her Knuckles, which were so badly swollen that she could not see them. She still has about the same difficulty in walking, but, her movement seems to be more eased. I could really see the difference in her. She follows Dinshah's advice rigidly.

W. K. — It would take at least 3 years to correct a case like that.

G. W. — I do not know how much there is to this, but, some men in the shop claim that they got rid of Arthritis, by wearing a copper band around the wrist and ankle. One man in particular, who had Arthritis in his arms and legs, claimed that he got completely rid of this condition in 5 weeks, after wearing copper bands around ankle and wrist. We should like to hear Dinshah's comment on this.

E. R. — They are coming out with all kinds of copper jewelry, that is supposed to be beneficial in certain conditions when worn.

I. B. — I have a question:— Would Purple be the Color to take in a severe Nervous Spell and should this be followed with Yellow?

W. K. — You are correct. Purple is the Color to use in a Nervous Spell. It acts as a Sedative. It should be followed with Yellow.

M. G. — I had a severe nervous condition about 2 years ago. I could not sleep for 3 weeks; I could not even sit still. I tonated with different Colors without results. Finally, I took Purple. I fell asleep and never had any trouble of this kind since.

W. K. — I have no case report, but, I should like to point your attention to proper food. I fully agree with C. R., when he stresses again and again the importance of the Rational Food. With Color and the proper food, you can work miracles. You can not violate the Laws of Nature of eating and sleeping, without having to pay for it. When your health breaks down, you have to change your way of living and stick to Rational Food, if you want to become well and stay well.

(At this time, the Chairman entered.)

A. G. — Good evening, friends! I have some news and I want to pass the information unto all of you. The August 1957 Meeting will be postponed one week. It will take place on August 8, 1957, instead of August 1, 1957. Dinshah will be with us at this Meeting and I am sure all of you will be looking forward to it. Please, tell all of our old Members about it. We should like to show Dinshah our appreciation for coming here, by having a good turnout . . . I am going to pick him up in Milwaukee, bring him here and then take him back to Malaga, New Jersey. The Convention is held in Milwaukee, because, the Laws there are not so stringent as they are here. Of course, there is nothing unlawful about these Conventions, but, it is just that certain powers do not like to have them. Dinshah had a turnout of over 100 in New York. It is a shame. In a city of so many millions, to have a turnout of over 100, is due to the fact that there are so many sick people. but, the Doctors in most cases can do so very little for them. As you well know, Dinshah lives very simply. He sleeps on a hard cot. I am sure nobody would live that simply, but, he prefers to be a servant of mankind, rather than to attain riches and live in luxury.

G. W. — P. N. wants advice about what to do about Eczema. (P. N. repeated her case.)

A. G. — It is really a crime the way Penicillin is used by the Medical Doctors. When its inventor Dr. Sir Alexander Fleming came here from England, he was shocked about the way it was used here. He said it was intended only for cases of Infection and not for anything and everything that comes along. The price of Penicillin for a Shot would come to about 46 cents, but, you know how many dollars people have to pay for a Shot. Just another money racket. This Eczema case will take time. The Body

has to be given a chance to get rid of the poisons. You have to have patience and stick to the Rational Food. Use two-thirds solids and one-third liquid and drink plenty of Lemonade. I once had the case of a little girl 4 years old. She had Eczema. It took 2 years until she was normal. When ailments occur, we have to sit down and analyze and seriously think about these problems. All Body functions have to be taken into consideration — Ratio, Front Elimination, Back Elimination, Age, Eating and Living Habits and the like. All questions that Dinshah asks in the Personal Research Information Chart have a bearing on the condition. This Healing System of ours is not a hit-and-miss affair; it is a Science of Automatic Precision and if the Sufferer follows the teachings, results are sure to follow. It would be of great benefit, if everybody would study and get a fairly good idea of the workings of the Bodily Organs. Many functions of our Body are involuntary. (He then explained the working of the different Glands as enunciated in our Text Books Set and spoke emphatically against the use of Alcohol, which ruins the Pituitary Gland, the Governor of the Brain.) As I said before, I can not stress enough the importance of studying our Text Books Set. You will find in that Set all the knowledge pertaining to the functioning of the Human Body; also, all the information about what Colors to use and how to use them for whatever ailments one may have. It is all there for you, so, avail yourself of that knowledge.

C. W. — In the shop, a man had a Heart Attack. He was taken to the Hospital. The wife of this man said that they were giving him Alcohol to stimulate the Heart. In a couple of days, he was dead.

E. R. — Recently, I met a man about 69 years old. He has Hardening of the Arteries. They operated on him and took out 13 inches of the Aorta and put in a tube. The man looks well, but, he is afraid that he will not last long. They told him not to eat any Meat or Fat et cetera.

P. N. — I know a man who is retired. He became sick and they gave him a Blood Transfusion. He has very poor Blood, too many White Corpuscles and not enough of the Red. He looks very pale and the Doctors gave him 4 months to live. The man is 68 years old and really wants to live. He is doing everything possible to build up his Blood.

E. R. — I talked to a woman who works in ----- Hospital with Mental Sufferers. They are using color quite some there in surroundings and in clothing for the Sufferers. They especially try to do much for the young, by arranging dances and teaching them rhythm and dressing the young girls in formals and pretty clothes. These young women become very thrilled and look forward to those activities. Many of them could be released from the institution, but, the relatives do not want to sign the papers and in many instances, the relatives even do not come to see them. It is a pity. What I want to point out is that lovely colors seem to have quite an influence on Mental Sufferers.

(E. R. and E. K. voiced their regret for missing on seeing Dinshah at the August 8, 1957 Studio Meeting. E. R. will be on vacation in Scotland and E. K. will be in Germany.)

E. R. — We shall have to get together sometime and drive down to the Institute to see Dinshah.

E. K. — I agree to that.

P. N. sent only a single Chart months ago. Her eating habits need to be changed. Copper band by itself may not have effect, unless it be paired with Zinc to make a Galvanic Battery. The Convention is held in Milwaukee, because, there are more Members in that State and also because it is less expensive. Furthermore, Wisconsin has no Law for Non-Profit Corporations and we can function there without obstruction. We violate no Laws; right or wrong, while a Law is there, we, as loyal citizens, obey it. Sleeping on a hard bed is conducive to restful sleep. I thank A. G. for his gracious words, but, it is my life principle to serve those who may need and use my services. What does one take with him after departure from this life? A name — well then, let me live to be of service and afterwards — be blessed for it. My views about Injections, Shots and the like are well known; study the three volume Text Books Set. Alcohol has no business in the Human Body; it is one of the great curses of alleged civilization. Our opponents being asked about Color, never deny the “mental effect” on Sufferers; all they state is that “we do not know of any evidence that a specific disease has been cured through the use of color alone.” THAT is why we publish this magazine. Read the back of the front page of each of our issues. We **claim nothing**; let the readers and the experimenters be the judges of the Truth.

* * *

First Merrill Wisconsin Studio

There was a discussion about Milk causing Mucus or otherwise.

G. V. H. — I am reporting the case of my husband. He had severe Backache; used Orange and was normalated.

W. B. — Plenty of Orange between times gives plenty of help.

M. S. — My Heart pothered me. I worked hard in the hot sunlight. I started becoming shaky and had Pains in my Chest. I took Magenta every night; two of Lemon during the day for about a week. I feel pretty well now.

W. B. — I suggest that you wear something blue on the head, when going out in the hot sunlight.

(D. N. read from the Second Volume of our Text Books Set, Chapter 64, on "Hot And Cold Sunstrokes.")

W. B. — When I was young, I was subject to Sunstrokes, but since using the Color Rays, I do not have them. When my wife worked in a shoe factory, on the hot days she worked in the stitching room. When she would come home, she would many times take a Blue, which was very soothing. It furnishes Oxygen and I can see why it was soothing.

A. S. — What Color would be used on Varicose Veins?

W. B. — I suggest you should check your Pulse Beat. If the Heart count be low, Scarlet may be used on Areas 4 and 18. (He then read from Volume 3, of our Text Books Set, "Attributes Of Purple Attuned Color Wave.")

Member — We read in its Chapter 106, "Purple As Circulatory Depressant"; it is confusing in the third paragraph about Purple being a Venous Stimulant. Should it be used on Area 4 or on the Legs as a Venous Stimulant, where the Legs are pothered?

L. K. — I have a hard time getting the Light on the Feet and Ankles. I have Arthritis.

W. K. — I have Cramps in my Legs from golfing. Orange is the Color used for Cramps.

(W. B. read Chapter 70, on "Spasms And Cramps," from the Second Volume of our Text Books Set.)

L. K. — I have Pains in my Back. I have poor Elimination. For two days, no Appetite; have bad Taste in the Mouth; my Tongue is coated. I thought for a while I had Gall Bladder trouble; I have Pain under the Ribs. I am so bloated I can hardly wear my dress. Took Yellow on the Abdomen and Area 18.

W. B. — Perhaps Yellow and Orange would be the best Colors to use.

Milk has no connection with causing Mucus, otherwise, all babies would be sick all the time! The cause is wrong materials eaten with the milk that makes the Indigestion. The American fashion of going out bare-headed is the cause of many troubles. The answer to the question of the Member is right at the end of Chapter 106, in paragraph 11. The Circulation Pump is the Heart, Area 4, and no matter where the trouble in the Veins may be, that Pump will deliver the effect, as may be needed up or down. L. K. is a Student Researcher and her husband is an Experimenter. No Chart was received for either at any time.

First Milwaukee Wisconsin Studio

K. B. the Chairman being absent, F. K. the Vice-Chairman opened the Meeting. The Reporter being absent, F. S. was requested by F. K. to take the notes of the Meeting, which she did. F. K. read several articles from the May 1957 issue of the Visible Spectrum Researcher. He drew attention to the intended opening of the 102nd Class, in Malaga, New Jersey. Several articles were read and discussed from the "Family Health Protector," but, a leaflet entitled "Next To The Angels," about the baneful habit of Cigarette Smoking, in the form of a poem by Elizabeth Hassell was highly admired. Here is the entire poem, with the best compliments to the author:—

NEXT TO THE ANGELS

I'm just a friendly cigarette—
 Don't be afraid of me.
 Why all the advertisers say,
 I'm harmless as can be!
 They tell you that I'm your "best friend"
 (I like that cunning lie) ;
 And say "You'll walk a mile" for me,
 Because I "SATISFY."
 So come on, girlie, be a sport!
 Why longer hesitate?
 With me between your pretty lips,
 You'll be quite Up-to-Date.
 You may not like me right at first,
 But very soon, my pet,
 You'll find you just can't get along
 Without a cigarette.
 You've smoked one package, so I know
 I've nothing now to fear;
 When once I get a grip on girls,
 They're mine for life, my dear.
 Your freedom you began to lose
 The very day we met,
 When I convinced you it was smart
 To smoke a cigarette.
 The color's fading from your cheeks,
 Your finger tips are stained;
 And now you'd like to give me up,
 But, sister, you are chained!
 You even took a drink last night—
 I thought you would ere long,
 For those whom I enslave soon lose
 Their sense of right and wrong.

Year after year I've fettered you,
 And led you blindly on,
 Till now you're just a bunch of nerves,
 With looks and health both gone.
 You're pale and thin, and have a cough,
 The doctor says "T. B.";
 He says you can't expect to live
 Much longer — thanks to me.
 But it's too late to worry now;
 When you became my slave,
 You should have known the chances were
 You'd fill an early grave.
 And now that I have done my part,
 To send your soul to hell,
 I'll leave you with my partner, Death—
 He'll come for you, Farewell!

S. N. — I use the Projector every day and I have pounding in my Ears. I went to the Ear Doctor, but, he would not attempt to clean the Ears, when he heard I had Diabetes.

F. K. — As you are a Diabetic, you are advised to send your Chart to the Institute.

E. M. — What shall we do when tonating small children, who keep on turning on their Stomach during Tonation?

E. B. — I saw many children sleep on their Stomach.

H. S. — If you put their Head to the South and have the Light shine on their Spleen, then, it would not do much harm; that only is though when they turn on their Stomach during sleep.

R. S. — I can say the same about the hazard of sleeping on the Stomach.

E. M. — But the Doctor wants the baby to sleep on the Stomach.

A. B. — The mother can hold the baby during the Tonation.

L. S. — I do not see any harm in the baby sleeping on the Stomach.

A. B. — I had a Toothache; used only one Tonation of Orange.

S. E. — I like to know whether Yellow should be taken on Areas 4 and 5, when taking a Systemic. I had a bad experience taking a Yellow on my Head.

A. B. — Why should a Color give bad effects if a person does take the wrong Color? Your Body will not take the Color if it does not need it. It is like filling a pail with water; if it be full and you continue pouring in more water, it will run over.

F. K. — I want to know what to use for Arthritis. I was told to start with Green Systemic, then Lemon and Yellow.

O. L. — First, use the Rational Food Of Man.

E. B. — It all depends on the condition of the Body. The dampness of working conditions and other factors enter into a person's health.

R. S. — Lemonade according to our Cook Book will also be beneficial. Arthritis and Spinal Sclerosis take a long time to heal, because, they are of long standing.

E. B. — Make out a complete Chart and bring it to the Meeting or send it to the Institute.

A. B. — What Doctor will **guarantee** that his Pill will work?

H. S. — Do not take so many Colors as S. N. has been taking; Yellow and Magenta or Lemon and Magenta for a diabetic condition. This should be commented by Dinshah.

A. B. — ----- has been found to have Iron in it; that can not be digested. Fertilizers also are injuring the soil.

R. S. — Some Iron can be assimilated, but, inorganic Iron can not be assimilated.

A. B. — Soil is rendered worthless by inorganic fertilizers. How are we going to get our food in the future? Dinshah should comment. Proof is shown that 500,000 Acres are ruined by fertilizer poisons and still the Government allows it. Fluoridation is on the way out in Lake Geneva area and it is also damaging the plumbing.

R. S. — I can tell you about the artificial coloring and flavoring in canning and the loss of money involved if those dyes be not allowed.

L. K. — There was a Rash epidemic in a High School in Wauwatosa. My daughter got it around her Body in the middle; I tonated it with Green and it disappeared promptly.

Because of the want of enrollment, the 102nd Class will not be assembled until after our Convention. One applied for July, two for August, two for October! I am not sorry for it, as I am flooded with numerous duties and all without any helpers. Since your June Meeting, the Chairman K. B. having resigned, the Vice-Chairman F. K. was appointed Chairman and O. L. as Vice-Chairman. S. N. never sent any Chart. She has certain handicaps which will make it impossible for her to follow our instructions. Our best wishes follow her. The suggestion of H. S. about placing head of children to the South is valuable, if we can successfully change the astronomical laws of meridian! The correct suggestion was that of A. B.; hold the child on the lap during the Tonation. S. E. never sent us any Chart. She is mincing matters without proper technique. F. K. did not send for any guidance. S. N. needs no further comment than what I wrote above. Our in-

structions are definite and have no get-away exceptions. My views about fertilizers and processed foods were repeatedly printed in the past issues of this magazine. The ONLY way it can be controlled is to STOP BUYING such goods, so when the shelves in the markets stay full, then and then only under the Law Of Demand And Supply, the merchants will come to their senses and the growers will reform their tactile operations.

* * *

First New York New York Studio

R. D. — I like to introduce a new Member, T. W. If there be anything you would like to know, feel free to ask. What would you people do, if you ate contaminated food? These days, one hears so much about Radioactivity; which Color would you use to coneract?

H. M. — It all depends on how it reacts on the Body. I should take Lemon.

K. T. — In a Radiation Burn, I should go to the Infra Side of the Spectrum; Red will break down the Tissues.

R. D. — It also would be good if we take an occasional Green Systemic. It acts as a Disinfectant, Purificatory, Antiseptic, Germicide, Bactericide and Detergent. Green is a wonderful Cleanser. It is the Governing Wave. Green is the divisional line of the Light and Color Spectrum, between the Red and the Violet and acts as the Balancer.

J. H. — I poked my Eye with a stick. My Eye was hanging out of the Socket. I was Bleeding all over, even from the Nose. We called Dinshah and he told me to use Turquoise until the Swelling went down. I also used Green and Lemon. My Vision is all right again. I thought I was going to lose the Eye. I was so glad to have an Equipment.

W. G. — I have Pain in my Arm; what Light shall I use?

R. D. — Orange and make sure that you eat your Rice and Lentils, besides our fresh fruit and vegetables; that is very important.

R. A. — What can one substitute for Brown Rice?

R. D. — I do not think anything can take its place; maybe whole grained cereals. What do you intend to do about the Class?

R. A. — I should suggest to have it between August 15 and September 1, 1957. Where shall we eat while we are there?

R. D. — I do not know. There is nobody there to cook. You will live in a nearby hotel. Please, all who will attend get in touch with the Institute right away, because, if there be less than 20 Students, Dinshah will not give the Course.

T. W. — Is the Student expected to live on one meal a day as Dinshah does?

R. D. — If you want to do that, it is upto you.

H. M. — We had three most delicious meals in a day, while we were there; I suggest if you eat only twice a day, you can study better.

H. H. — My wife burnt herself with the iron; it took 1 hour before the Pain subsided. Some people said they had no more Pain after 15 minutes.

R. D. — If it be a very deep Burn, it may take long for the Pain to leave. Some persons are more sensitive too.

B. LeF. — I had a severe Burn; within 15 minutes I had no more Pain.

T. W. — Does Coffee contain other harmful ingredients besides Caffeine? (R. D. read from "Family Health Protector," Article 49, on "Poisonous Drinks: The Bane Of Coffee.")

E. T. — Caffeine uses up the B Vitamins.

A. K. — My Toe Nails become very thick and hard; that causes me much Pain. They are not ingrown; what should I do?

R. D. — I never had that kind of question; ask the Institute.

A. K. — What Light can I use for Arthritis in the Finger? There are times when I can not bend the Joints.

H. M. — Use Yellow on Areas 6 to 10 Local; after that, Lemon Systemic and Magenta on 4 and 18. Stay on the Rational Food Of Man; make sure you drink the Lemonade.

R. D. — That Disorder took years to come; you have to be patient. It will take time and be sure to have the Lemonade with the meals.

R. A. — What is the difference drinking it with the meals? Can not one drink it in the morning?

R. D. — Not with the milk in the morning.

E. T. — What is the effect of the Fluorescent Lights?

H. M. — It only has the Ultra-Green; the Incandescent Light has the whole Spectrum.

F. R. — Fluorescent Light is on a much higher Frequency. It is over the 49th Octave; it is irritating to many people.

A. S. — I have trouble in my Arm; I use Yellow, Green and Magenta. It started when we moved into a new building; it has no basement.

R. D. — Take Orange Systemic.

J. B. — What does Dinshah mean by "No Manipulation"?

F. R. — It means not to use anything besides the Light and the Rational Food Of Man.

R. D. — There will be a Meeting here on Thursday, July 4, 1957.

M. W. — As I shall not be able to be present at the July and August 1957 Meetings, H. M. will take the notes.

Only 5 Members wanted to join the Class; one however, wanted it in October, one in September and one in August. So, there will be no Class until a later date. As far as the fee and meals are concerned, out of the \$150.00 fee sent by the Student as is customary, \$50.00 will be refunded on entering the Class and the Student may eat where and what he (or she) pleases at any nearby restaurant. The arrangement for the living will be made by the Institute at a nearby hotel. The tuition of 60 hours, will be given in our Auditorium in Malaga, New Jersey, from 10 A. M. to 1 P. M. and 3 P. M. to 6 P. M. for 10 days. None of the questioners sent their Chart; they will receive the Free Guidance when they ask for it with COMPLETE Charts. Fluorescent Lights are produced by bombardment of Chemicals, hence not useful for either our activities or for use as ordinary Lights with the full 49th Octave Spectrum. H. M. took charge before and I am sure she is competent to do it again. We wish a happy vacation and happier return home to beloved Reporter M. W.

* * *

First St. Louis Missouri Studio

The Chairman being absent, the Vice-Chairman conducted the Meeting.

W. B. — Any Case Reports? (None at the time.)

R. B. — I know of a lady, on whom Operation was made for Goiter, both Thyroid Glands being entirely removed. Is it possible or was she misinformed about the complete removal?

C. S. — I knew of a woman who had them removed 5 or 6 years ago and she still lives. Nature has a way of compensating. The woman had a very difficult time breathing at first; she was given Artificial Respiration and Shots to enable her to breathe; in fact, the Doctor was available for her day and night any time, within 15 minutes. She was 35 or 40 years old.

R. B. — The American Cancer Society openly declares that Lung Cancer and Heart Disorders are far greater among Smokers than among Non-Smokers. (Some discussion followed. Then, Chapter 69, on "Goiters," from the Second Volume of our Text Books Set was read and discussed.)

Member — What could be done for Sore Back and Nervous Indigestion?

W. B. — Let the Members give their suggestions. (One suggested Orange for Sore Back; another suggested Yellow.)

C. S. — I suggest to pass up a meal.

C. L. — I was in an Automobile Accident and had 3 Broken Ribs; my Back was injured; did not know what was wrong. Used Orange Local and Lemon Systemic; I was taken to the Hospital; I refused Shots; X-Rays were taken; they gave me Medicine, which I threw away. The Visible Spectrum did everything, if not more than expected. The Color Projector is in my bedroom and that is my Doctor.

Member — They are talking about fluoridating the water in the County. (Discussion followed. One Member stated that cistern water is the best; another suggested boiling the water and still another held that boiling would concentrate the Fluorine.)

F. B. — I had a Pain in the back of my Neck; used Yellow.

Member — I suggest for more Circulation Magenta on 4 and 18; what is the Ratio? It may be necessary to use Scarlet on Area 18; it is very important to look to the Ratio and the Eliminations; they are the main factors to consider.

(V. S. read certain articles which gave some important information One said that the President Eisenhower drinks Distilled Water; that shows the reason itself; the water in Washington, D. C. is chlorinated and fluorinated. Another was about a dog in Atlanta, Georgia, which ate 15 ice cream bars in a day. It got a Growth under its Tongue, which a Veterinary removed and placed it on 3 bars a day. This showed the bane of refined Sugar. Another article spoke of a new legislation in California against anyone using worthless material for Cancer cures. A Board of Physicians, Surgeons and Osteopaths would judge whether a claimed "cure" has value. Of course, it would automatically not declare against X-Rays, Radium and Surgery being valueless! The said Bill was introduced at the request of the American Cancer Society and most probably the legislatures of other States might follow the example. Much discussion was caused about whom to call "quacks" and "fakers.")

The Thyroid Glands have in them embedded the Parathyroid Glands, hence, TOTAL extirpation of both is not feasible. They leave a part untouched, but, the fee is naturally for the "total." Anyhow, fooling in those vital organs is bound to disturb the process of proper breathing. My views against Fluoridation were published frequently. V. S. seems to be very versatile in her readings; she covers many grounds all well.

THE MISSING LINK

First Merrill Wisconsin Studio

Report of The Meeting Of Thursday, May 2, 1957

W. B. — I present this Request form to E. M. to give to the person who inherited a Color Projector and desires to affiliate. I do not have anything special, but, I take a Color now and again and it always makes me feel better. Right now, I am going strong on Orange.

M. S. — I have Arthritis and have many Headaches. I work very hard on the farm. Have been using Lemon, Orange and Magenta Area 4. Headaches normalatated. I took over 1,500 treatments. Six years ago, the Doctor gave me 5 months to live. I eat exactly the right food. I had Gall Bladder trouble, Tumors, Cancer, Hernia.

A. S. — I am fine, but, my husband has Diabetes. He does not use the Color Rays. He is over 70.

(W. B. read part of Chapter 92, on Diabetes from Volume 3 of our Text Books Set, for the benefit of those who do not have the books.)

A. S. — He does not drink Coffee. (It was suggested he may not have to start with the Green, but, start right out with Lemon Systemic.)

Member — What Colors are used for Arthritis?

W. B. — It depends much on the Breathing and the Heart count. One affiliate used Yellow and Green and is completely normalatated; had it in the Joints and Arms. Had so much trouble. Lemon was used occasionally.

Member — I have read that when you change Colors, you should use Lemon before changing. Some Members never heard of it before. We should like to hear the Originator's remarks on this.

I. K. — I have been using Lemon and Orange. I was 4 days without Elimination. I am 86 years young!

Member — A lady in Merrill had Cancer many years ago and the Doctors had given her up; everything she ate came up. The first Color Ray taken, she slept all night and was able to keep her breakfast down. In 2 or 3 months, she purchased an Equipment. That was 22 years ago; she is perfectly normal today, lives on a farm and works hard. Another friend had a Rope Burn; could not open his Hand. He had one treatment and was able to open hand and milk the cows. This was many years ago.

E. B. — My husband E. took Turquoise for a Lump in the Throat and Lemon for Flu. The Lump is almost gone.

W. B. — I advise all Members to note that they take Color Rays at the proper time, as we have now Daylight Saving Time. I suggest to A. S. that her husband should use Raw Brown Sugar and live on the Rational Food Of Man.

None of the questioners sent any Chart to the Institute. It would appear that what does not cost is not appreciated. It should be strongly impressed upon the minds of the Members that in our Science we do not follow names of Disorders, but, go according to our own interpretation of the results indicated and go after the Cause in our original manner.

DINSHAH AFFILIATED WITH AMERICAN SCIENTISTS

Having requested information and receiving it, our President Dinshah P. Ghadiali was admitted as a Member of the Federation of American Scientists, Washington, D. C. , with a letter of welcome by Professor Paul M. Doty, Department of Chemistry, Harvard University, Cambridge 38, Massachusetts, Chairman of the Executive Committee of the Organization.

July 22, 1957

Dr. Dinshah P. Ghadiali,
Dinshah Estate,
Malaga, New Jersey.

Dear Dr. Ghadiali:

For the Executive Committee, may I welcome you to membership in the Federation of American Scientists, the most significant national organization devoted to providing public understanding and guiding national policy on issues arising from the interaction of science and society. You are joining with those scientists and engineers who accept their responsibility to advise and inform the public in areas in which we have a special opportunity to observe the facts and form judgments.

In these disturbed times in the early years of the atomic age, many new problems have arisen to disturb our government and our people. The way in which these problems are met will depend in large measure on the degree to which the public is informed. In our position of special knowledge of the basic facts, we have a unique responsibility to report and interpret them to the public and to our elected and appointed representatives in government. We appreciate the necessity of supporting basic research if we are to have technological strength sufficient to meet the challenge of the future. We recognize the importance of governmental support for scientific research and try to advise the several overlapping government agencies wisely. We can study and judge the effects of the security procedures, balancing the necessity for secrecy in some areas with the overriding importance of attaining security through achievement. We continue our steady pressure to achieve that kind of society in which weapons of destruction are limited and controlled by enforceable procedures, and the peoples of the world can learn to live and work together in a stable and lasting peace.

The Federation is proud of its record of action and accomplishment. In many critical issues, our prompt and positive statements to the press have had a significant influence. Study groups sponsored in the several chapters and branches have analyzed and reported on special issues with considerable success. Our activities depend entirely on the volunteer effort of our members, and we can be useful and influential only to the extent that individual members offer their time and services. As a new member, you have an opportunity and responsibility to associate yourself with other members in your community and to find a way to participate. We also urge

that you join us in interesting others in our program, and make a personal effort to bring in new members. For your assistance, some descriptive material about FAS is enclosed; additional copies and also Newsletters and Members' Bulletins are available from the Washington Office.

The Federation will try to keep you informed as to facts and trends on the issues with which we must be concerned. The Council will form policy on the available facts and membership opinion, and the Executive Committee will translate policy into action whenever appropriate. You are urged to make your views known to members of the Council (see enclosed list) or the Executive Committee.

As a fellow member of FAS, I look forward to the opportunity of working with you in meeting the special political challenge of our times.

Sincerely,
Paul M. Doty,
Chairman

Enclosures.

Promptly Dinshah answered:—

Federation Of American Scientists
1805 H Street, North West,
WASHINGTON, D. C.

Saturday, July 27, 1957.
Eastern Daylight Time:— 2:58 P. M.
Kind Attention:—
Professor Paul M. Doty,
Chairman, Executive Committee.

Esteemed and Learned Sir:

1. I thank you cordially for your very kind letter of the 22nd current, informing me of my admission as a Member of your distinguished Organization.
2. As I stated in my prior letter of the 13th current to Professor Charles C. Price, I wrote a six foot shelf of scientific literature on various subjects, after over thirty years of spectroscopical and other research. Much of what I developed for the service of mankind is in print and I desire to know to whom I may send the books, for the benefit of the Organization.
3. I shall warmly appreciate also, if I may get a copy of the Charter and By-Laws of the Organization, as well as the financial sheet and report, so I may be enabled to do the best possible service for the benefit of the Organization.
4. With the best regards and the kindest wishes for your welfare, I have the honor to remain,

Yours very sincerely,
Dinshah P. Ghadiali, Member.

DINSHAH IMPARTIAL

(The Universe Through The Eyes Of Dinshah)

CONCEALMENT OF ATOMIC SECRETS

Since finding that the Atoms are also breakable and publishing in one of my Text Books Set about "Explosion Of The Element Theory," I held myself away from disclosure of the various methods and processes by which the cracking of any Atom may be accomplished. That was a matter vital to a loyal and devoted American Citizen. However, for the past few years, there has been set up before the Congress a howl that Atomic Secrets are leaking out and that the safety of our beloved country and even the World is endangered thereby. I am able to state openly that the responsibility of such divulgence rests on the head of the Atomic Energy Commission, which in the past openly published books on co-related subjects, which may be purchased by anybody and if he has the head to use the contents, may produce results good, bad and otherwise from their perusal and practice. Here are some of them:—

	The Reactor Handbook, Volume 1,	
PHYSICS		Pages 790
	The Reactor Handbook, Volume 2,	
ENGINEERING		Pages 1074
	The Reactor Handbook, Volume 3,	
GENERAL PROPERTIES OF MATERIALS		Pages 610
	Selected Reference Material	
	United States Atomic Energy Program	
RESEARCH REACTORS		Pages 442
	Selected Reference Material	
	United States Atomic Energy Program	
CHEMICAL PROCESSING AND EQUIPMENT		Pages 302
	United States Atomic Energy Commission	
ISOTOPES . . . An Eight-Year Summary		
Of U. S. Distribution and Utilization		Pages 357
	United States Atomic Energy Commission	
NEUTRON CROSS SECTIONS		Pages 328

I am bound to admit that only an extraordinarily trained scientific mentality can comprehend what is printed in those big volumes, but, I am also bound to admit that America has no monopoly on such cerebra and that in this wide World other nations also have Human Beings built in the Image of God, but, whose minds work in the direction solely of self-gain as directed by the Devil of Greed and Power. May God protect America!!!

OUR STUDIO DIRECTORY

On the First Thursday of each Month, there is held a **Membership Meeting**, at 8 P. M., in each of our following Studios, for reporting the results and findings of Personal Experiences in the use of the Visible Spectrum of Light and Color:—

- First Cleveland Ohio Studio**—The Colonial Hotel, 523 Prospect Avenue, Cleveland, Ohio. Albert J. Martin, Chairman, Sleepy Hollow Lake Road, Brunswick, Ohio. Jacob Dussing, Vice-Chairman, 1253 Melbourne Road, East Cleveland 12, Ohio. Theresa J. Soree, Reporter, 9216 Orchard Avenue, Cleveland 9, Ohio.
- First Detroit Michigan Studio**—Knights of Columbus Hall, 4740 Woodward Avenue, Detroit 1, Michigan. Albert Greenham, Chairman, 30906 Robert Drive, Livonia, Michigan. George G. Weiland, Vice-Chairman, 19692 Hanna, Detroit 3, Michigan. Elfriede Kolmetz, Reporter, 6735 Meadow Avenue, Van Dyke, Michigan.
- First Merrill Wisconsin Studio**—New Badger Hotel, 310 West Main Street, Merrill, Wisconsin. Walter Briese, Chairman, 707 E. Third Street, Merrill, Wisconsin. Edward Katke, Vice-Chairman, Route 6, Merrill, Wisconsin. Dorothy Nelson, Reporter, 1814 West Main Street, Merrill, Wisconsin.
- First Milwaukee Wisconsin Studio**—The Republican Hotel, "A" Hall, corner North Third and West Kilbourn, Milwaukee 3, Wisconsin. Frederick Knepprath, Chairman, 10120 W. Harrison Street, West Allis 14, Wisconsin. Otto H. Lutz, 3823 North Fifth Street, Milwaukee 12, Wisconsin, Vice Chairman. Florence Gutsch, Reporter, 3041 North 53rd Street, Milwaukee 10, Wisconsin.
- First New York New York Studio**—Hotel Diplomat, Blue Room, 108-110 West 43rd Street, New York 18, New York. Ralph W. Die-drichs, Chairman, 423 Jackson Avenue, Mineola, Long Island, New York. Hildegard Muehlfriedel, Vice-Chairman, 817 Lancaster Road, Ridgefield, New Jersey. Margarete B. Wolschendorf, Reporter, 19 Van Buren Avenue, Norwalk, Connecticut.
- First St. Louis Missouri Studio**—Albrechts Hall, 3549 Arsenal Street, St. Louis 18, Missouri. Clemens M. P. Neumann, Chairman, 4348 Virginia Avenue, St. Louis 11, Missouri. Walter Bloss, Vice-Chairman, 6408 Lansdowne, St. Louis 9, Missouri. Viola C. Steiner, Reporter, 9632 Tesson Ferry Road, Affton 23, Missouri.

OPEN DECLARATION FROM THE EDITOR

DINSHAH P. GHADIALI

NO WARRANTY, NO GUARANTY, NO LIABILITY

Since in June 1922, I became the Editor of a similar monthly magazine, controlled by another Corporation (now dissolved), I had complete records of all Case Reports and personal matters in my files. Those were totally destroyed on Tuesday, January 2, 1945, by a disastrous Fire of unknown origin, which burnt my 30 room Main Office Building and Laboratory, causing a loss of over \$250,000.00, being without insurance.

A few months later, Law Suits were instituted in the United States District Courts, at the instigation of certain opponents of the new Science of the Visible Spectrum and because of our inability to produce the original documents as proof of various contested matters, verdicts were rendered against me and the controlling Corporation to the effect that our literature was false and misleading under the Federal Food, Drug and Cosmetic Act, as a result of which we received heavy Sentences and Penalties, I being dubbed a "quack" and a "faker." \$125,000.00 of printed literature was also destroyed by Court Order.

The American Medical Association and Licensed Medical Doctors and Surgeons strenuously maintain that the Visible Spectrum of Light and Color has no Therapeutic Effect and that it has absolutely NO HEALING or CURATIVE VALUE.

For that reason the VISIBLE SPECTRUM RESEARCH INSTITUTE openly warns the Reader, that the said INSTITUTE issues this Monthly copyrighted in accordance with the Constitution of the United States of America, Article 1, Section 8, Sub-Section 8, protected under Article 1 of the Bill of Rights; the Reader who uses the contents as basis for own investigation, experimentation and (or) research along the lines of the Visible Spectrum, to determine the Powers and Effects of Light and Color upon Living Organisms or otherwise, will do so on own absolute responsibility, taking and assuming ALL RISKS pertaining to such activities.
