## THAT'S A GOOD QUESTION

Under the above caption, Medical Doctor William Bolton, as the Editor of the said department in "today's health", a monthly publication of the American Medical Association, wrote in its March 1953 issue an answer to an inquiry about:—

### "COLOR THERAPY"

Question — A friend tells me that a method called color therapy is now being developed by which various illnesses may be treated successfully. Do you have any information about this?

Answer — From time to time, theories are advanced that color may have value as a treatment adjunct in medicine, but we do not know of any evidence that a specific disease ever has been cured through the use of color alone. Various colors may have some value so far as mental attitudes of many patients are concerned, and this idea has been utilized in some hospitals. For example, walls and ceilings of hospital wards or rooms may be painted a light blue or green because such tints are believed to have a soothing effect. In general, colors probably should be considered for their secondary effect in helping a patient to overcome excitement or worry about an operation or illness."

### TREATMENT BY "SILENT SOUND"

The same Medical Doctor in the November 1956 issue of "today's health," wrote a long article on the treatment of kidney and gall bladder stones, relieving pain, soreness and tenderness in certain kinds of bursitis, peri-arthritis, fibrositis, tenosynovitis, myofacitis and myositis, rheumatoid arthritis and osteoarthritis, successfully by means of "Silent Sound," "Supersonic Waves" or "Ultrasound," which is Sound Waves that the Human Ears can not catch. Sound upto 32,768 Oscillations per Second can be heard, but, after that range the Human Ears can not utilize it as Sound and the said Medical Doctor recommends for "Silent Sound" treatment 500,000 to 1,000,000 Oscillations per Second.

So, if that Frequency can produce the stated results, what about the Oscillatory Frequency of our Visible Spectrum Of Color, which has what I described and utilized decades ago as:—

562,949,953,421,312  
Oscillations Per Second???

This publication is an answer to the stated view, as in our service to our Members, their own convictions by their personal investigations, researches and experiments will give them the accurate view of the Truth behind the Visible Spectrum. Let the reader judge for self.

## NOTICE TO ALL

We accept no gifts or gratuities, as to a Servant Of Mankind it is **graft**. Send us nothing.

You may send your Book for review or opinion; you may send your Writings or Experimental Findings and Reports for publication, provided they are not plagiarized or false and bear your hand signature in ink, with full name and address.

Anonymous communications will receive no attention. Submitted articles will not be returned.

All correspondence should be addressed to:— Visible Spectrum Research Institute, Malaga, New Jersey and not to any officer or individual.

For the views expressed in signed articles, the writers are responsible; for the opinions in articles bearing no identification, the Editor shoulders the sole responsibility.

**THAT IS A GOOD ANSWER**  
**By:-INDIVIDUAL EXPERIMENTERS**  
**FEVER, HEART DISORDER, PAIN, SWELLING**  
**REPORT BY J. W.**

For ten days in November 1944, I was confined in bed with a temperature varying from 100 to 102 degrees. This followed a period of several weeks when my Heart Action was very disturbing and Blood Pressure above normal. The condition was complicated by Internal Pain and the painful Swelling of the Glands in my Neck, under my Chin and under my Armpits. During my confinement, I had no Doctor of any kind, took no Medicine of any description, but, relied solely upon Tonations from Dinshah Color Projector producing Attuned Color Waves; a previously taught course of training enabled me to do this. This is but one of the instances in which I have used the Equipment successfully and solely as the need arose. (Signed and Affirmed Before A. B., Notary Public.)

\* \* \*

**CATARRH, COLD REPORT BY M. N.**

I have been the owner of a Color Projector for the past four years. During this time, I have had very satisfactory results treating a Catarrhal condition of long standing and terminating general Colds. (Signed and Affirmed Before C. E., Notary Public.)

\* \* \*

**BACK PAINS, TUMOR REPORT BY A. K.**

My wife F. K. suffered severely from Pains in her Back for many years. She went to a Doctor a Specialist and was told she had a Tumor and an Operation would be necessary. She came home and wrote for Dinshah's advice. He said she should take Tonations with the Color Projector. She did and today she is feeling much better. (Signed and Affirmed Before O. L., Notary Public.)

\* \* \*

**MEASLES, CHICKEN POX, COLDS, LUMBAGO,  
 BED WETTING, SINUS TROUBLE REPORT BY J. R.**

I have used the Color Projector for my family and myself for more than 8 years and have successfully normalated Measles, Chicken Pox, Colds, Lumbago, Bed Wetting, Sinus Trouble. Color Projector takes the place of a Doctor in our home and we are grateful for it. (Signed and Affirmed Before O. L., Notary Public.)

\* \* \*

**ASTHMA, HAY FEVER, NERVOUS BREAKDOWN  
REPORT BY E. B.**

I, E. B., was sick for 10 years; very bad case of Asthma, Hay Fever; could not sleep nights. Took all the dope I could find and no help. One Medical Doctor said I should go to ----- . Number 2 Doctor told me to buy myself a Needle; every time I get a Spell, I should take a Shot. Number 3 Doctor said there is no help for Asthma. I got run down; could not work. Then, I got Nervous Breakdown. I went to 2 Sanatariums; they could not do anything for me. One Doctor said to me "Only God could help you; Doctors can't do anything for you." Then, I went home. I heard about the Color Projector and in short time, Color Projector put me on my feet. Today, I feel better than when I was 20 years old. I know I would be dead if it would not be for the Color Projector. (Signed and Affirmed Before E. E. D., Notary Public.)

\* \* \*

**DROPSY, HIGH BLOOD PRESSURE, DIABETES  
REPORT BY F. T.**

In the Fall of 1941, after having used Medical 'Science' for a number of months, the Visible Spectrum was recommended to me by a relative. The Doctor, under whose care I had been, hesitated to tell me what the trouble was, so, he told my sister that I had Dropsy, High Blood Pressure and Diabetes. I was in despair and ready to end my own life and that of my pets. I was sitting around in a helpless condition. Less than two weeks after I commenced the use of the Visible Spectrum, I walked over to visit a neighbor. She was so surprised to see me that she could not believe her eyes. I was a widow at that time. My name was Mrs. B. R. I used the Color Projector for about three months. I followed all instructions and lived on the Rational Food Of Man. Improvement followed. In 1944, I remarried. (Signed and Affirmed Before I. W., Notary Public.)

**OUR STUDIO ACTIVITIES**

**EXPERIMENTER FINDINGS AND QUERIES  
MEETINGS OF THURSDAY, JULY 4, 1957**

**First Cleveland Ohio Studio**

Only the Chairman and Reporter being present, there was no Meeting held.

**EDITORIAL**      **REMARKS**

I admire you for attention to your official duties, in spite of the holiday. The Members should have more appreciation of the expenses involved.

\* \* \*

### First Detroit Michigan Studio

A. G. — Good evening, friends: not many turned up at this Meeting, but, seeing it is a holiday and a very hot one, it was to be expected. As I pointed out to you at the last Meeting, our next Meeting will be on August 8, instead of August 1 and Colonel Dinshah will be with us at that Meeting. We all look forward to it. Please, tell all our old time Members about it. Of course, it is mentioned in the last issue of our magazine, but, it is in the back of it and many people probably don't go that far. It would have been better, if it had been mentioned at the end of our Studio Report. That way, we could be more sure that everybody noticed it. I shall read a few chapters from our Text Books Set tonight. (He then read Chapters 88, 89 and 90, on "Governor Green," "Explosion Of Element Theory," "Spectro-Chrome In Persistent Disorders," respectively. Discussion followed.)

A. G. — Green is the central Color of our System. We move either to the Infra or the Ultra side, according to the Ratio. If the Kardoscil be high, we go to the Ultra, when low to the Infra side. When the Ratio is about normal and you are not sure where to go, Green is a good Color to take. Do we have any Case Reports?

R. K. — I feel better now than I have been for a long time. My Ratio is now 78-18; my Kardoscil used to be upto 92. I am still under the guidance of Dinshah, tonating with Yellow on 6, 7, 8, 9, 10 and Magenta on 4 and 18. The Dizziness left me completely and the Pain in the Shoulder is almost gone. I was wondering what part Magenta plays?

A. G. — Magenta is a very important Color. It builds your Aura, is an Emotional Equilibrator, increases the Functional Activity of the Heart and also of the Adrenal Glands and the Kidneys.

A. R. — My wife was very sick with a Cold. Her Ratio was 3 to 1; she was breathing heavily. Took Tonations of Turquoise and Orange and felt better, but, later it became worse again; the breathing was very fast. Indigo gave relief and later, we tonated with Yellow and Lemon. She feels pretty well now.

A. G. — In many cases, the Elimination has to be corrected first before you get results. In the case of R. K., the Kardoscil was very high — 92. He mentioned that the Elimination was normal, so, I suggested Turquoise and Purple. The Purple would bring the Kardoscil down to 72, but, after 3 hours, it would go up again. I then suggested to write to Dinshah, who must have suspected faulty Elimination, for, he suggested Yellow on 6, 7, 8, 9, 10 and the results showed immediately.

R. K. — The Yellow acted like a Laxative on my Bowels and I began to feel better almost immediately.

W. K. — I have no special report. We use the Equipment occasionally, when the children get Bellyache. In general, the family is healthy, living on a vegetable diet and eating plenty of fruits.

(Discussion followed. It was pointed out that children and people in general do not appreciate the good and are not thankful for all the blessings that are ours. A. G. pointed out that much of this is to be laid to the use or misuse of the Sex Principle, stating that Sensual Attraction and Lust are not Love. He then cited the true definition of Love and Lust as quoted by Dinshah and reprinted in the June 1957 issue of our magazine.)

Although scantily attended compared to other months, your Meeting was lively. The public needs plenty of education to withdraw them from the wrong ideas impressed upon their mind by centuries of medical commercialization. Continue the good work. I shall positively attend your next Meeting as promised and A. G., please do not forget that that August Meeting was arranged AFTER the V. S. R. went to the press and even then I managed to put the Notice on the Front Cover! Kindly refer.

\* \* \*

### First Merrill Wisconsin Studio

The Chairman and Reporter both being out of town, there was no Meeting held.

Because of the paucity of attendance in most of your Meetings, if better showing be not done in the future, the Council Of Trustees might consider dispensing with the Studio for the year 1958. It is upto the Members to show their appreciation, as our expenses are heavy and we have better use for our limited resources.

\* \* \*

### First Milwaukee Wisconsin Studio

F. K. — K. B. resigned the office of Chairman of this Studio and I am appointed as Chairman; O. H. L. is now our Vice-Chairman. K. B. is a busy man. We have a small attendance tonight, because of the holiday.

This is the Independence Day; I shall read to you about it from Dinshah's "GOOD THOUGHTS":—

### INDEPENDENCE

This glorious day! We freed ourselves,  
 From ancient views and moth-eaten monarchy,  
 From the clutch of royalty and empty pomp;  
 However, the lesson stands; like other virtues,  
 Independence is purely relative, the richest  
 Depend on the poorest, the greatest  
 And most potent wealthmaker, fully depends  
 On the farmer, baker, doctor and undertaker.

What is Independence?  
 Spirit of own reliance,  
 It is intradependence  
 Or more correctly interdependence.

I entered the dates of the Annual Convention in this hall, on the blackboard, so you may vote. (He then read a sketch of the Originator's life, from the "Triumph Of Spectro-Chrome" book, which has the complete record of the case against him in the Supreme Court of New York, in Buffalo, New York, which he won without a lawyer.) Dinshah has devoted his life to this Science and I like to believe that we should give our flowers to great men while they are alive; after they are dead, the people want to erect monuments and do a lot of things. My honest opinion is that he is the greatest man in his line living. Regardless of the topic about which you may speak, he knows about it and can speak. Let us turn out a big attendance for such a brilliant man. I think he is a wonder walking on this Earth. We should be thankful that we have such a man as the head of our Organization. Most of you are perhaps better posted in our Science than I, so, I request you to help me along in carrying out my duties. I shall appreciate it. (He then elucidated the idea of the Body needing proper food to rebuild the continuous wear. Said he: "I read Dinshah's books and after reading them over again I understood his views to be correct in actual life. Wrong food will create wrong build in the Body.") I shall tell of an illness. Some years ago, I became interested in a person. I wanted to tell her about our Science. Two or three weeks later, she got the Color Projector. This teacher had eyes that protruded and had a Heart Disorder. She asked me if she could be helped. I told her to send in a Chart. She asked me to come two weeks later. When the Free Guidance came, at the back of it she was told to give up her fur coat and was told she would pass her teacher qualifications. Has anyone any Case Reports?

L. K. — My mother will be 81 years. She complained of a Backache; I tonated her with Orange and she had results, but, it came back again. Should I have started with the Green?

F. K. — I am inclined to believe that if a person is not injured, that condition had built up over a period of years. I should start with Green. Does anyone want to say anything about first using Green and going down to Orange?

O. L. — That is the right thing.

F. K. — If it were not for the Visible Spectrum, about 19 years ago, I might have been dead and buried.

R. S. — You found out by personal experience yourself of the Visible Spectrum and you can tell others to find out the same way.

F. K. — After I found out, I learnt my mistake; I wanted to tell friends about the merits of the Visible Spectrum. I lost a number of friends when I told them about it. After using the Green, be sure to use the Yellow to rid the Body of the poisons. The Body accumulates impurities and by using the Yellow, you rid the Body of the undesirables.

O. L. — You can never go wrong using the Equipment.

F. W. — Do you use the Yellow as a Systemic treatment?

F. K. — Yellow for the Bowel Movement; there must be results if the proper food be eaten.

R. S. — You do not get the results until after you use the Magenta after a few treatments.

E. D. — How often would you take Magenta? You mean you take Green, Magenta, Green, Magenta?

F. K. — No; you watch to see when you need it. My Heart is 72; then, I do not need it, but, if it goes down, then I should take it.

R. S. — You say if you do not need it; if you do not have a Disorder, you would not have to take a Tonation.

F. K. — Children will have quicker results than adults.

O. L. — You say children will respond faster; they have not eaten so much.

F. K. — O. L., did you ever hear about the Pineal Gland?

O. L. — Yes.

F. K. — A friend of mine just got his Bachelor's degree and he said: "This Gland is for Sex and you will notice when anyone does not have a steady walk, this Gland is not functioning properly. If a person injures his Body and the Blood does not go to the injured part, what Gland is injured? The Pituitary Gland sends the message.

O. L. — The Pituitary Gland is the Governor.

F. K. — It restores the equilibrium. I think we should have a different speaker at each Meeting; I think it would be interesting.

R. S. — That was tried and it did not work out.

O. L. — F. B. also wanted to have Members visit the sick Members and that did not work out.

F. K. — I wish I knew one fourth as much as Dinshah; I could make these Meetings interesting. I notice some Members never get up; can you explain that?

O. L. — Yes, it is not in them.

R. S. — Some of our politicians can put it in writing; others can not.

H. K. — Young people are not sick.

O. L. — Young people are not as much health-minded as older people.

R. S. — I became interested in the Visible Spectrum after I was in an accident. I was working for a company and had to follow their rules. I was hit with an apple and a Cataract developed. It took 8 or 9 months after I was using the Visible Spectrum and I was examined by the Doctor. He said I shall have to wear Glasses. J. M. told me to contact the Institute.

F. K. — He gave a lecture on the Visible Spectrum, over the Radio. A. V., do you have anything to say about the Visible Spectrum?

A. V. — Four weeks ago, I was sick. I waited too long before I used the Equipment. The Fever went up and I used Turquoise and Purple to get down the Circulation. Kardoscil was 80. Two weeks later, I was sick again; I used Turquoise and Purple and was better quicker.

F. K. — Does anyone want to say any more? I wish you would pass the word along to our Members about our Convention, so that we may have a nice attendance. Thank you for coming today.

Our Members are entitled to know why I did not change the date of July 4 to the following week, realizing the holiday aspect. A hotel manager even drew my attention to that, but, I refused to mind the request. Why? July 4 is Independence Day, the day when the forefathers of this glorious Country broke off their former royal ties and declared their open severance. What are we as Visible Spectrum Researchers fighting now? We are **not** fighting the personality of our opponents; we are fighting for the abolition of their **MONOPOLY** on the Healing Art — for our original Science on which they should have **NO CONTROL**. Those opponents full well realize the tremendous potency of our Science, but, are endeavoring to assert their control by all means — fair or foul — over us, the same way as did they on other systems. Thus, I want our Members to attend the Studio Meetings with **MORE** zest and zeal than ever before, so our prime objects may be duly fulfilled. I know the future of this original Healing Science; if I did not, I should not be giving my all to this single aim, which is in my belief blessed with righteousness, because, it points solely to the

Service Of Mankind. I thank cordially those of our Members who preferred the Studio Meeting to the holiday idea; let us all think and act in a similar strain. The Pineal Gland in the Brain is situated behind the Pituitary Gland and Descartes described it as the "Seat of the Soul." Its true function has never been known to the material scientists, who did not enter the sphere of the Occult or Metaphysical side of Life. Members visiting other sick Members would introduce several domestic complications. We follow the principle of Live And Let Live. F. K. is not a "Permanent Chairman." Every year, the Council requests recommendation from the Studio Members and makes the Appointment of the Studio Commissioners as best thought fit to fulfill the requirements of an Office. The Council does not look at the duty like the politicians; it has to maintain its responsibility and its prestige and must act without personal regard or partiality.

\* \* \*

### First New York New York Studio

In the absence of the Reporter, the Vice-Chairman took the notes and reported.

R. D. — We have not many Members tonight, since it is the 4th of July and I am surprised to see even so many here. Let us all sit close together, so everyone may participate in the Meeting. We are in a different room than the usual one; did everyone find it right away?

Members — Yes.

R. D. — Shall I look downstairs if some Members may not find it? It is noted on the board in the lobby. We do not realize enough what a wonderful Healing System we have in our Color Projector, until we have an Accident and have wonderful results. My wife slipped and hurt her Foot. We were in the country and my wife was playing badminton with the children, when her foot started to give. She had so much Pain and could not move or stand on it. It seemed she had pulled or torn a Blood Vessel. She took Indigo Local and during the Tonation the Pain became worse. Finally, she fell asleep and when she awoke, she had no more Pain and could move her Foot. Two days later, she was able to walk again. An acquaintance of mine had a similar thing happen to him while playing baseball. He was operated for it and had his Foot in a Cast for 6 months; my wife was well within 2 days..

(At this time, two members M. Z. and A. M. entered. They said they looked for the room all over, but, could not locate it.)

R. D. — I should always follow my intuition. It was really my fault in not going downstairs to look for the Members. I am sorry.

M. Z. and A. M. — We should have read on the board which we did not.

R. D. — My little fellow had a Cold; he is only 2 months old. We gave him a Turquoise Tonation and he was fine.

K. T. — My daughter went through the woods and got Red Spots all over her. We presumed it was the beginning of Poison Ivy; she took a Tonation of Turquoise right away and the Red Spots disappeared.

R. D. — I had a call from a Member; his boy ran into a gate and had a very deep Cut above the Eyes; within 24 hours, it was almost gone.

O. R. — Do you have to wait for the time if you have an Accident?

R. D. — No; you may take a Tonation immediately after, but, you get better results if you wait for the time. One has to be very careful of Infection resulting in such a deep gash, but, with our Color Projector we have no such danger.

T. W. — Why is there no Studio in Chicago?

R. D. — I really do not know, but, Chicago is only about an hour away from Milwaukee. I believe they all go to Milwaukee. Some of the Members in our Studio travel more than one hour to come to our Studio.

T. W. — Are Split Peas Green? Can you buy them in cans?

R. D. — You should buy dried Yellow Split Peas; you can buy them in most of the food stores. (Discussion started about various foods; also about healing Disorders.)

T. W. — What does the healing?

H. M. — By Interference or Reinforcement in the Aura, Normalation is produced. The Aura is the Radio-Emanation from the disintegration of the cellular structure of the Body. All matter gives out an Emanation by disintegration and it is the same with our Body.

A. M. — The Organs of our Body respond to the different Oscillatory Frequencies of each Color.

T. W. — Why is the Color of the Aura Magenta?

R. D. — Our Emotions like worry, fear, anger and such other outside influences affect the Color of the Aura which in health is of the Magenta Color.

K. T. — Dogs sense the Aura and can find their master by it.

R. R. — Dogs — even vicious dogs — never bite me, because, I am not afraid of them; even our thinking affects us.

H. M. — If you could see and read the Aura, you could see what Elements are lacking in your Body and use your Color Projector accordingly.

T. W. — Can we get an Itisometer?

R. D. — It takes time and money and Dinshah has neither of them and not enough Members are interested in it.

K. T. — How does it work?

A. M. — It shows the Imbalance of the Body and what Color to use.

K. T. — I should take one immediately.

R. D. — There is not enough interest in the younger people. It is so hard to change their thinking. I have a friend whose wife is pregnant; she has all kinds of complications, but, he tells me: "If it is so good, why don't the Doctors have it?" Some one else I know has a Clogged Tear Duct; the

Tears go back into the Throat. She wears Eys Glasses and while I was talking to her, she took them off and I could see a very deep depression on both sides of the Nose from those Glasses. I believe the constant pressure affected the Tear Ducts. It is just my opinion; it may not be so. She told me: "If the Doctors can not help, nobody can"!

T. W. — Can you rent out a Projector and charge something for it?

A. M. — Only if you are a Graduate Researcher and even then, you are permitted to serve a Member. A stranger coming to you, has to be signed first as a Member, before you can tonate. I rented my Projector to a woman who was constipated for 20 years; she took Tonations for a couple of months and was much better. Then, at the end, she told me that all the good she got was from the Spinach Water she was drinking!

R. D. — Most of the time, the people do not follow the Rational Food Of Man. I become hungry when I see a head of Lettuce in my mother's garden, but, other people become hungry when they see a dead carcass!

A. R. — I had an Infection in my Teeth and my Gums were swollen and painful. I took Magenta on Area 4 and the Pain disappeared, but, the Swelling remained.

R. D. — Why do you not make out a Chart and send it to the Institute?

R. R. — I was an automobile mechanic in my younger days and had to lie under the cars on the cement floor. I had Rheumatism, Sciatica and Headaches. Now that I am older, I feel much better, thanks to my Projector.

K. T. — Do children have to be vaccinated?

R. D. — In many States it is compulsory. I know when you travel abroad you have to be vaccinated. You may leave the Country, but, you can not come back unless you are vaccinated.

(All the Members present enjoyed themselves and agreed it was a wonderful Meeting.)

There is a move now to open a Studio in Chicago, Illinois. The matter was discussed in our Fourth Annual Convention. The same move about a Studio in Philadelphia, Pennsylvania. It is all a matter of expenditure on one side and co:operative attendance by the Members on the other side. Making Itisometers is a very costly proposition. There are only 44 in use at present and when circumstances will permit, I shall make the Portable Model Itisometer for use in the home. All the manufacturing data were burnt in the Fire of 1945. In around 20 minutes of its use on a Sufferer, it tells without asking a single question, where the Disorder is, what the Disorder is, how much the Disorder is and what the Color is to be used to

remedy the Disorder. It is unequalled in its performance. We are a totally closed Corporation and all our services are open SOLELY to our Members in good standing. A. R. never sent any Chart. Vaccination is the worst curse of alleged civilization. I am a Life Member of The National Anti-Vaccination League of London, England since 1909 and am emphatically opposed to the introduction of any Vaccines, Shots or Serums into Blood Stream. Since America became recently a member of the humbug known as the World Health Organization, the travel rule is enforced even here. However, if in returning, you bring with you a proper certificate from a medical authority that you are returning from a region that was not infected, the utmost the authorities in power here can do is to quarantine you for 2 weeks in the port of entry. The trouble would be that the steamship company might decline to give you passage without Vaccination! There is no constitutional freedom left anywhere, because, our opponents have created a MONOPOLY of the Healing Arts and it is that MONOPOLY to break which I need more Members.

\* \* \*

### First St. Louis Missouri Studio

In the absence of the Chairman, the Vice-Chairman conducted the Meeting. The program of our Fourth Annual Convention was read with special emphasis on the President being away from the Principal Office from Saturday, July 27, 1957 to Sunday, August 11, 1957. In case of an emergency, where to locate him was read.

H. L. — About 15 days ago, I injured my Back quite severely. I used Orange and Magenta, but, the Pain was so severe, I went to a Chiropractor. The Chiropractor asked him to return on Wednesday and when I went back, he wanted to take an X-Ray. I refused to have that done and he refused to do anything without it. I like to know what to do.

(Being asked about Kardoscil and Spiroskil, he said he did not know. Being asked Back Elimination, he said it was very sluggish; only 1 a day. Suggestions were given about Yellow on 6, 7, 8, 9, 10; Lemon Systemic; in case of intense Pain Turquoise on Area 18.)

H. L. — I also used Yellow for my Teeth. The Dentist wanted to pull them out 8 years ago; I used Yellow and I still have them.

W. B. — I had a bad case of Sunburn; I was working in the yard, without a shirt. In the evening, when I went into the house, I found myself badly blistered; I used Blue and suffered no Discomfort or Pain.

(The article from the June 1957 Visible Spectrum Researcher about "Admission Of Fall-Out Dangers" was read by W. B. and A. B. wanted to know what Colors were used. She was of the opinion that Ultra-Green should be used, while W. B. stated that Infra-Green should be used. Elucidation was asked. At this point the educational program was turned over to the Reporter V. S. who read from one of Dinshah's publications of January 1923, "The Voice Of The Deep.")

V. S. — It behooves each and every one of us to study “The Voice Of The Deep.” Go into the deep recesses of the forest and discover what gifts are awaiting us and on what to fasten our faith and hopes, not depending too much on material contrivances. (She then gave some explanations and read an article on “Rationality In Dietetics” from another of our publications in an issue of February 1925. Discussion followed. Notwithstanding the small attendance because of the holiday, the Members departed expressing satisfaction that the evening was well spent.)

H. L. never sent us any Chart, so we can not express any opinion. It was as easy to consult the Institute as going to a Healer of another system. X-Ray pictures are not a part of the Healing System of Chiropractors. The word itself means “Manipulation By Hand.” Breaking of an Atom produces both Heat side Rays and Cold side Rays; either Ultra-Green or Infra-Green may be needed according to which side affected the Sufferer. High or Low Kardoscil will serve to indicate. Be guided by the Ratio. In spite of the meagre attendance, you deserve credit for making up a good educational uplift.

## DINSHAH IMPARTIAL

(The Universe Through The Eyes Of Dinshah)

### BOMBING AND WEATHER

Weather depends on the currents of air. Scientists ought to realize that fact, yet, they continue to contend that the terrible blasts of Atomic Bombs which crack buildings and break windows dozens of miles away, have no effect on the present odd weather conditions! 1 and 1 does not make 2 in their mathematics!

### NATIONAL ORGANIZATION FOR DECENT LITERATURE

Recently some moves have been made by a nationwide organization, known as the National Organization For Decent Literature, composed mainly of laymen of the Roman Catholic faith, to ban from distribution certain books which they believe to be obscene and of which they made a list called the “objectionable list.” The strange fact is that among the writers of those “condemned” books are men who won the Nobel Prize, the Pulitzer Prize and the National Book Award. In many cities, Police Commissioners have been following the “list” and actually acting upon it, by seizing the volumes and numerous law suits in Detroit, Michigan were instituted with varying results. Under the First Amendment of our Consti-

tution, a Free Press is perfectly legitimate and if there be anything indecent or deleterious to public morals, the matter be duly adjudged in a regular court of trial, but, to ban and seize books from bookstands is absolutely illegal and we question the right of the NODL or any authority to violate openly such a clear doctrine. I know how even Courts in America behave about burning books, because in 1948, it was my personal experience to notice with folded arms the seizure of \$125,000.00 of my printed volumes and taken away by the Federal Officers for destruction! And the destroyed books had NOT crossed the State Line of New Jersey, to become subjects of Federal Jurisdiction!!! I pine for the America of former days, when in 1891 I came here for speaking on the X-Rays. They laughed at me for saying that with the X-Rays "I can see through the human body or a block of wood with the naked eyes." They pointed at my head, but, it ended there.

### ANOTHER SCARE STARTED

After spending millions on the Polio Vaccine, made from the Kidneys of Rhesus Monkeys imported from the Republic of Hindustan and allegedly controlling the effects of the paralyzing Disorder, this year another hint was dropped about the approaching advent of Asian Influenza and spending more millions on the preparation of a new Vaccine from Eggs, to inject into human beings to avert the disaster. To find the true facts, study carefully the operations of Nature in the protection of its own Creation and you will find that the real cause of such epidemics is the wrong way so-called civilization is being lived. Wrong foods, wrong drinks, wrong inhalations, wrong habits of life, wrong emotions, wrong thoughts, everything working in the wrong direction against the Laws of Nature is the true cause and until such violation is corrected, the results of such unscientific nonsense will ever be before us and after us to contend. I speak from personal medical experience during the Bubonic Plague in Bombay, India, in 1899, when I testified before the Royal Commission, strictly against the use of Haffkine's Horse Vaccine. In one night I had 13 such cases and I never permitted Inoculation, but saved all with Iodine Terchloride.

### SUGGESTIONS AND ENDORSEMENTS OF 1956

#### Endorsement By L. L. B., S13

I had an Operation for inward Goiter in 1934 and the Doctor removed too much of the Thyroid Gland, which, of course, left me in a highly nervous and weakened condition and I had to take Thyroid Tablets for 22 years, when I was fortunate enough to hear about the Visible Spectrum from our neighbor and after much faltering and indecision I stopped taking the Tablets and commenced my Tonations on March 20, 1955. At that time, I weighed about 100 lbs. and my Heart was running at such a rapid rate, I could not sleep, but, after about a week on Tonations, I could feel the results in my Body and during the next year, I gained 24 lbs., enjoyed

my food so much better and was able to rest well at night. There is nothing in this World to equal the Visible Spectrum for the Heart and I am patiently waiting for some results in the Gland soon. I used the Indigo on a swollen and painful Ankle with fine results; one Tonation stopped Pain.

#### Endorsement By M. R. B., E618

My husband and I take it most every day during the year. My husband has been pothered with Colds for years and has not been to a Doctor for 3 years, using Light at least once each day. I have had Gall Bladder attack and am using it twice a day. We both would not do without it, if we could help it.

#### Endorsement By E. S. H., E695

My family and myself experiment with the Color Projector since 1943 with amazing results. We had to lose first one child under Doctor's care and Wrong Diagnosis, when I came to Visible Color Projector. Lost faith in Doctors. Had two more children; treated them through all children's sicknesses, with Visible Spectrum. Once my daughter had an Accident with the school bus and had a Cut on the Right Side of the Eye, one inch deep. Without Doctor, I healed it with the Projector. Doctor was amazed how it could heal like that without Stitches! I had her examined for the Eyesight; nothing left except a small Scar.

#### Endorsement By R. L. B., E59

I am a very active person, having a fairly responsible job and being very conscientious, I try my very best in any effort. Very much interested in religious work, at present superintendent of a Sunday school. Winter time do a great deal of bowling. A couple of years ago, got myself tied up too much and ended upto a Nervous Breakdown. The Projector, I say saved my Sanity and today gives me the needed strength to keep up my pace of life. My sons have been cured from Colds, Ivy Poison and one son broke his Arm; after it was set, I tonated to relieve his Swelling and Suffering. It was not long that he used Cast as brick bat. I have a slight Lowering of Blood Pressure, which I am treating and sure notice a change. Really, am using the Projector as a combatant now, instead of needing to cure. I certainly would fight to keep my Projector, even though there are so many that ridicule.

## OUR STUDIO DIRECTORY

On the First Thursday of each Month, there is held a Membership Meeting, at 8 P. M., in each of our following Studios, for reporting the results and findings of Personal Experiences in the use of the Visible Spectrum of Light and Color:—

**First Cleveland Ohio Studio**—The Colonial Hotel, 523 Prospect Avenue, Cleveland, Ohio. Albert J. Martin, Chairman, Sleepy Hollow Lake Road, Brunswick, Ohio. Jacob Dussing, Vice-Chairman, 1253 Melbourne Road, East Cleveland 12, Ohio. Theresa J. Soree, Reporter, 9216 Orchard Avenue, Cleveland 9, Ohio.

**First Detroit Michigan Studio**—Knights of Columbus Hall, 4740 Woodward Avenue, Detroit 1, Michigan. Albert Greenham, Chairman, 30906 Robert Drive, Livonia, Michigan. George G. Weiland, Vice-Chairman, 19692 Hanna, Detroit 3, Michigan. Elfriede Kolmetz, Reporter, 6735 Meadow Avenue, Van Dyke, Michigan.

**First Merrill Wisconsin Studio**—New Badger Hotel, 310 West Main Street, Merrill, Wisconsin. Walter Briese, Chairman, 707 E. Third Street, Merrill, Wisconsin. Edward Katke, Vice-Chairman, Route 6, Merrill, Wisconsin. Dorothy Nelson, Reporter, 1814 West Main Street, Merrill, Wisconsin.

**First Milwaukee Wisconsin Studio**—The Republican Hotel, "A" Hall, corner North Third and West Kilbourn, Milwaukee 3, Wisconsin. Frederick Knepprath, Chairman, 10120 W. Harrison Street, West Allis 14, Wisconsin. Otto H. Lutz, 3823 North Fifth Street, Milwaukee 12, Wisconsin, Vice Chairman. Florence Gutsch, Reporter, 3041 North 53rd Street, Milwaukee 10, Wisconsin.

**First New York New York Studio**—Hotel Diplomat, Blue Room, 108-110 West 43rd Street, New York 18, New York. Ralph W. Die-drichs, Chairman, 423 Jackson Avenue, Mineola, Long Island, New York. Hildegard Muehlfriedel, Vice-Chairman, 817 Lancaster Road, Ridgefield, New Jersey. Margarete B. Wolschendorf, Reporter, 19 Van Buren Avenue, Norwalk, Connecticut.

**First St. Louis Missouri Studio**—Albrechts Hall, 3549 Arsenal Street, St. Louis 18, Missouri. Clemens M. P. Neumann, Chairman, 4348 Virginia Avenue, St. Louis 11, Missouri. Walter Bloss, Vice-Chairman, 6408 Lansdowne, St. Louis 9, Missouri. Viola C. Steiner, Reporter, 9632 Tesson Ferry Road, Affton 23, Missouri.

**OPEN DECLARATION FROM THE EDITOR  
DINSHAH P. GHADIALI**

**NO WARRANTY, NO GUARANTY, NO LIABILITY**

Since in June 1922, I became the Editor of a similar monthly magazine, controlled by another Corporation (now dissolved), I had complete records of all Case Reports and personal matters in my files. Those were totally destroyed on Tuesday, January 2, 1945, by a disastrous Fire of unknown origin, which burnt my 30 room Main Office Building and Laboratory, causing a loss of over \$250,000.00, being without insurance.

A few months later, Law Suits were instituted in the United States District Courts, at the instigation of certain opponents of the new Science of the Visible Spectrum and because of our inability to produce the original documents as proof of various contested matters, verdicts were rendered against me and the controlling Corporation to the effect that our literature was false and misleading under the Federal Food, Drug and Cosmetic Act, as a result of which we received heavy Sentences and Penalties, I being dubbed a "quack" and a "faker." \$125,000.00 of printed literature was also destroyed by Court Order.

The American Medical Association and Licensed Medical Doctors and Surgeons strenuously maintain that the Visible Spectrum of Light and Color has no Therapeutic Effect and that it has absolutely NO HEALING or CURATIVE VALUE.

For that reason the VISIBLE SPECTRUM RESEARCH INSTITUTE openly warns the Reader, that the said INSTITUTE issues this Monthly copyrighted in accordance with the Constitution of the United States of America, Article 1, Section 8, Sub-Section 8, protected under Article 1 of the Bill of Rights; the Reader who uses the contents as basis for own investigation, experimentation and (or) research along the lines of the Visible Spectrum, to determine the Powers and Effects of Light and Color upon Living Organisms or otherwise, will do so on own absolute responsibility, taking and assuming ALL RISKS pertaining to such activities.
