[London, No. 142 Strand.

THE WATER-CURE, as a general thing, is safe, harmless, and capable of being made use of by EVERY FAMILY at "Home," in all ordinary cases, *whenever* and WHEREVER *any* remedy is necessary.

IN VIEW of this FACT, we ask, "Is it not the duty of all who have been BENEFITED by this GREAT, yet simple SYSTEM, to recommend it to their friends and neighbors?"

WITH ENTIRE CONFIDENCE, THEN, do we appeal for aid, to those who would rescue mankind from the jaws of a premature grave, by placing in their hands the means of preserving HEALTH and prolonging LIFE to a green old age; and, for this purpose, we tender the New Volume of **The Water-Cure Journal for 1853.**

Index to Volume 13, for 1852.
