Oakland, California - February 17, 1964 - (AUFOC) - Varying reports of flashes and even strange noises in the sky were made by Eastbay observers over the weekend. Berkeley police received numerous calls last night. E. Elsworth Seibert of 7309 Gladys Street, El Cerrito, said he was standing with several dozen persons in front of the Berkeley Little Theatre during an intermission at 9:00 P.M., when a strange light appeared low in the northern sky. Seibert said it seemed to explode with a shower of sparks. He thought it was a small plane in trouble; however, no plane difficulties were reported in the area. Atlanta, Georgia - March 4, 1964 - (LS) - Early results from the UUA leader poll indicates several trends in current UFOlogy thought. Only 30% (all figures approximated) of the groups answering list the purpose of their group as being the solving of the UFO mystery. Others (70%) consider the popularization and decimation of UFO facts their purpose. To the question "Do you feel that more extensive UFO investigations are needed?" 85% said "yes". Is UFO information suppressed? 100% of the UUA leaders answering say that it does in one form or another. On unity in UFOlogy, only 30% are unqualifiedly for it, while the remaining 70% seem pro-unity with various qualifications. Is the UUA effective? 40% give a qualified yes, 40% an absolute no, and 20% a qualified no. On the continuance of Look-See, 80% favor it, while 20% give a qualified no. These percentages are approximate, and do not include figures in places where a poll form was left blank. These are not final percentages.

NEWS SHORTS

NICAP's blockbuster report is about to be released. The report may be purchased by NICAP Members at 1536 Conn. Avenue, Washington 6, D.C.

Two interesting items from the latest Little Listening Post at Washington, D.C.: "Late report from Sweden says UFO activity there is still at high level; many things being observed in central and northern areas. Big city dailies tend to ignore reports, but not the provincial papers -- they play up the stories, with eye-witness accounts featured. Result: Most Swedish people are "wise" to the reality of saucers."

The other report is of a radio program on the UFO enigma done by station WBT of Charlotte, N.C. The excellent hour-long documentary is available to UFOlogists for re-broadcast on local stations. If interested, write Station WBT, Joseph Myers, Charlotte, N.C.

Look-See, 2875 Sequoyah Drive, N.W., Atlanta, Georgia, 30327

Atlanta, Georgia - March 4, 1964 - (LS) - As plans for the upcoming Congress of Scientific UFOlogists proceed, speakers for the Congress are being secured. Hon. Brinsley Le Poer Trench, famed British Author and UFOlogist, has sent a brief address to be read during the Congress. "In person" speakers are scheduled to include a professional scientist and several famed UFO investigators.

EDITORS NOTE: The UUA does not necessarily subscribe to the views of any one of its members. The UUA does feel, however, that in such areas as information exchange, news gathering, etc., all UFO groups, regardless of approach, should and must cooperate. The merger of several member groups in recent months should account for the change in the number of member groups listed.
