BELOVED COMPANION AND MAYAN PRECEPTOR:

We send you greetings in His Love, Grace and Understanding.
May His Miracles appear again in your good works in ☩

In ministering to others you may encounter many problems---
It is well that you learn thoroughly and teach that whatever a man's
present thought system may be, IT is responsible for his present con-
dition. If one desires to change his present condition, he MUST nec-
essarily give deepest consideration to developing a new system of
thinking that will do it for him.

TO TEACH MENTAL AND PHYSICAL WELL-BEING IS TO TEACH
LIFE; TO TEACH LIFE IS TO TEACH ILLUMINATION OF THE
MIND; TO TEACH ILLUMINATION OF MIND IS TO TEACH OF
GOD; FOR GOD IS LIFE AND LIGHT IN ALL ITS MANIFESTA-
TIONS.

Therefore to know about health and prosperity one must know about Life and the Light of Understanding....which is the Light of God in our Being.

There are people who live in eternal darkness, who do not want to talk about God, nor about religion. They have shut off the light. Their ways are in darkness. Their life is a murky misery of pain and want.

There are others who have been taught that all that is necessary to be considered a religious person is to indulge in certain forms of cant and hypocrisy. They too, have shut off the Light and they live in darkness.

But these latter can be saved for every human being is by nature religious. By instinct most all of us can feel a yearning toward the Light. We, as Mayan Ministers, have the privilege of pointing out the Light and even showing the Pathway that leads toward it.

We of this priesthood have a magical elixer -- one draught of which can restore the sick and heal the wounded and that elixer is ready at our call at all times through the Power of Prayer.

The religion of the Mayans is basic; it is not concerned with creeds or ecclesiastical rules nor even with church membership. It does not teach of a far off Diety but instead proclaims that All is God. As God is All, then we are a very part of Him and He is within us. Beyond All, there can be nothing. If there were something beyond, it would become a part of All. Beyond All is nothing. All, everything that is and has being - is the greatest thing we can imagine or understand. Likewise, God is the Greatest Being man can conceive an idea of.

... GOD IS ALL - ALL IS GOD ...

You are a part of All. Every fiber of your Being, every hair of your head -- All of You is a part of God. And so is every other created being, every other created thing. All is God. Therefore we have within us some of His Powers.

Power to heal, Power to create, Power to do as we will. Power to help others, Power to help ourselves, Power to achieve, attain and accomplish. Power to commune with Him. Power to increase

our present powers. Power to bring harmony to all about us.

We have more powers available to us that we shall ever use. More powers than there are rays of light in the spectrum. By living in the Light of Understanding we may use them. By living in the Dark of Ignorance we insulate ourselves from the inflow of these powers.

Understand them -- that the real meaning of religion has nothing to do with creeds but means a consciousness of our oneness with God.

The very word "religion" is from the two Latin words "re" and "ligo", which means to bind together.

Ancient Symbol of Unity and Radiation.

But, being bound together, we learn from the ancient Mayans, that we should radiate His Light. We should spread His Word to the four corners of the earth. We should send it to the four parts of our own Being so that in Mind, Body, Spirit and Soul we are Godlike and at one with Him. Thus only can we establish for ourselves the real unity. Thus only, can we reflect His Harmony to All.

He maketh His Light to shine on all alike. We should do Likewise. We need not concern ourselves with the shape of another's belief or creeds or his form of worship but only in terms of conscious union with God who is All.

The essence of religion is found in the light of understanding that the presence of God is within us and that our Being is within Him.

We speak of a wise man as an "illuminated person". We speak of a healthy person as "full of Life". Light and Wisdom, and Health and Life are so closely related that one implies the other.

~ * * * ~

Wisdom is Divine Light. Health is the Joy of Life. Life is the Source of Health and the opportunity for Wisdom. And the Lord is the Life and Light of the Universe.

In the physical body Life is the vital spark. And a spark is a tiny light. It is the animating faculty of created being.

... URGE ... LIFE ... ACTION ...

You have heard that "like attracts like" and you have just been told of the "animating spark". That which animates tends to produce animation or action and action tends to produce that which animates.

Keep one of your limbs inactive for a long period of time and it withers. But use it, work it, exercise it and it gains in strength, power and life. If life is desired in a limb or in a person, then that limb or that person must be activated. For by action is the mysterious life force attracted. Just as life urges action, so will action tend to produce more life.

And this is true in every department of our Being. If you wish more mental ability, use your mental ability more; activate it. Radiate life and you receive more life. Radiate enlightenment and greater illumination will come to you. Which is just one more way of proving the Truth that

" AS YE GIVE, SO SHALL YE RECEIVE. "

The All is a vast reservoir of Life. Look up into the Heavens and watch the immense stars and planets moving in ceaseless action, each reflecting the light of some central sun. And let your mind reflect that all this above and about the grain of sand that we call Earth, all this with its billions of suns and spiralling Universes, is but a small part of All. Reflect on the tremendous energies at work there and remember that it is all moving along according to Law and Order. All is harmony. Each tiny planet and star is free; free, yet conforming to the many manifestations of the One Law; every action producing its reaction throughout All even unto its tiniest grain of sand.

A drop of water under a microscope reveals another world of life in forms so small as to be almost unbelievable; each form free, yet conforming exactly to the many manifestations of the same Divine Law.

The sea, the air, the earth, the water, all are filled with myriads of forms of life. And up above and down below and all about this old earth space is filled with forms of light; visible rays, invisible rays, cosmic rays, rays of energy, rays of matter, All in action.

A PIECE OF ANCIENT STONE, A BAR OF NEW STEEL, A
CHUNK OF GOLD EXCAVATED FROM A PHAROAH'S TOMB,
ALL SEEM TO BE DENSE SOLID BODIES. BUT SCIEN-
TISTS HAVE PROVED THAT ALL THESE ARE COMPOSED
OF COUNTLESS TRILLIONS OF ATOMS, IONS, ELECT-
RONS, METRONS, MICRONS, ALL RACING ABOUT WITH
THE SPEED OF BULLETS.

... LIFE, LIGHT AND ACTION PERVADES ALL ...

~ * * * ~

Can any enlightened person thinking these thoughts,
seeing these things, observing the harmony, the unity of power gov-
erning them whether they be stars or atoms, doubt that they have a
Creator as well as a Dispenser? Can anyone with Life in his Being
and Light in his Intellect doubt the existence of a Supreme Being?

THE SUPREME ONE IS ALL

AND WE CALL HIM

~ God ~

Whether we call the Supreme One God or whether we pre-
fer the term Nature, it is ALL the same. Your name may be John but
if I call you Henry, you are the same person. The name used does not
change you.

Man has invented 92 names for God. It does not matter
which we use to refer to Him, but when we analyze the subjects of
Health and Happiness, we must refer them to Life and Light and in
studying these subjects we must refer them to their Creator.

That we are able to thus reason is proof that man is an
exceptional creation of the Almighty.

The bar of steel, the chunk of gold; the stone, the sea
and sun, the earth, the air, the atom, none of these can thus reason
about its origin or its kinship with the Creator. But, Man was made
in His image. Other forms may have bodies, or characteristics, or
will and desire, or even creative abilities and a certain amount of
mentality, but none but Man possesses Intellect, the fifth point of
the Pyramid of your Being.

It is this that makes us free above all other created things, above all other forms of Life. The pyramid of developed Intellect raises our Being above the rest like an Alpine summit above an ant-hill. By his reasoning faculty, by his intuitive ability, by his enlightened mentality is man raised up.

MIND IS THE STORAGE PLACE OF THOUGHT - BUT IT IS UNDER THE DIRECTION OF WILL - AND WILL IS ONE OF THE CREATOR'S SPECIAL GIFTS TO MAN.

Will and Desire are the energizing departments of our Being which we call Spirit. When God gave man Spirit, He again bestowed upon us the gift of Freedom, a gift so wonderful that it may be used even against its Creator.

TRY THIS

Go to your mirror. Look deep into your eyes. See the fire and Spirit shining there. Note the reflection passing through your mind as the light of thought plays in your eyes and mind. Observe the character to be sensed by gazing into these windows of your soul. See the sparks, as Intellect flashes its messages.

Now, still gazing deep within yourself through your reflected image, ask yourself, "Who am I?"

Ah, my good Companion, you are gazing upon a great mystery. You may sense this without fathoming it; feel it without understanding it. What Guiding Light is leading you?

The things that you have done are all recorded somewhere within, behind those eyes. Why did you do them? What impulses acting on Will and Desire have sometimes side-tracked the Guiding Light which also acts on Will and Desire? Where do these impulses originate? - In some past life? Where dwells the mysterious part of you that governs these things, even swaying Will and Desire, - that peculiar part of you whom you do not know, cannot always control, but as a rule automatically obey?

The fact is that you have a physical brain which is of flesh and is little more than a switchboard governing controls of your body.

But, you also have a Conscious Mind and a Sub-Conscious Mind. And above these, you have a Spirit and a Soul. The Mind, in its dual capacity, is conditioned by the immortal Soul and receives its power through the Spirit.

~ * * * ~

In your Ministry, in the healing and treating of humanity, always remember that man has a dual mentality. The Sub-Conscious Mind does not reason but acts from suggestion on what is transmitted to it by the Conscious Mind.

Never lose sight of that. That is why a good affirmation is so effective in Treating. That is why an affirmation should be repeated over and over and over again, but without effort, to believe or disbelieve.

The fact that Will is over Mind is the reason death of the physical body can be brought on by desire. And that is also why life in the physical body may often be continued even when the wisest physician says that it cannot be. This is the principle that was used by ancient wise men and is used by some men living today for producing so-called suspended animation, merely by effort of Will. You will be taught more about this as you progress farther on the Mayan Path.

But beyond Will and Desire is the Department of Soul where Imagination dwells. Imagination is more powerful than either and Imagination has the same access to the Sub-Conscious Mind that we have through the Conscious Mind. In any contest between Will Power and Imagination, no matter how strong the Will, Imagination always wins.

MAN may be injured but Will that he live. If Imagination sends a powerful message to his Sub-Conscious Mind that he is dying, he will die. If a person imagines he is paralyzed, he becomes paralyzed. And he will continue to be a paralytic until his Imagination images something else.

There are thousands living today as shut-ins believing themselves paralyzed, who actually are entirely well. Because they imagine they are still paralyzed, they are unable to attain a cure. But a strong enough counter-stimulus to their Imagination overcomes the negative belief and substitutes the image of restoration and they are cured.

Imaginary illnesses become real illnesses. Even so, they are error. And real illnesses vanish miraculously if the image of perfect health is created by the Imagination. What we confidently expect is what we get. Imagine you are well and well being floods your person.

NOWING as we do and having the light of Understanding within us that God is Perfect, that He is All-Powerful and that He is within us, it should be easy for us to image perfection in health and in all other ways. Teaching this to others is likewise easy, if you point out each step of the way in easy stages.

There is in every man an emanation of God's dual components - Spirit and Substance. We are made in His image --Perfect. Only our imagining can be less than perfect, not His. Then perfect the image; make the image perfect and hold it so, continuously; for in that image, will we become.

Man has no conception of the power he possesses. He has no realization of the enormity of his powers until he stops to realize that he is a part of God, specially endowed with many of His powers, blessed above all other forms of creation. He should always realize that the physical body is only a part of him; that the real person is the invisible part.

By development of his Intellect, man can reach up and can so contact the Supreme Being so as to learn therefrom all the truths of life and how to conform with the law that governs the Universe and through which all good is secured.

The Supreme Being is the Source of Life and being such, is also the source of health. We, whose very beings are in His Image reflect His glory and by our perfect reflection, have the power to bring about a vital union with the Creator at any time.

This knowledge is the highest knowledge we can gain. Understand it thoroughly. Apprehend its Truth, for by the Illumination of this may you bring health, happiness, success and the complete realization of the destiny toward which a Guiding Light has been leading YOU.

May The Father Richly Reward You,
