DEDICATION

This booklet is dedicated to the Beloved Aries and the Sylphs of the Air! It is Our earnest prayer that unascended mankind may quickly come to a conscious understanding of all that the AIR ELEMENT has meant to them in the course of their many lives upon this planet.

Glorious Aries! For the control and command of the air spirits--holding them from destructive expression in their endeavor to retaliate against the pollution of Your Kingdom by the mankind of Earth--We are so grateful!

The gentle readers are requested to think upon the gift of AIR - the breath itself and the various activities of the Four Great Winds...Let these blessings call forth gratitude and blessings from your hearts...Then, see the response which that gratitude brings from those great Beings--so little known and even less understood.

BELOVED ARIES

"I AM" Aries, the Spirit of the Air!

I am the first Visitor you had when you first took embodiment and your infant form accepted into your lungs your first breath from Our Lord Maha Chohan!

This breath is the animating principle of the air element which enabled you to begin the rhythm of breathing and it will sustain you in a physical form as long as you have a service to render here. At the close of your Earth life, this breath will be returned again unto Myself through the kind offices of the Maha Chohan. Therefore I am very close to you, beloved ones, the very, very, first Visitor whom you accepted of your own free will; that acceptance bringing with it the responsibility for the use of life and its resultant karma.

The breath of life is offered to many. A goodly number of new infants born from the womb of woman refuse to accept that breath and, standing at the very threshold of a new life, return again into the Realm of the unborn. To those of you who were brave enough - whose Holy Christ Selves were determined enough to - and whose outer consciousness was constant enough to grasp the breath of life - to you I am grateful!

I am the servant of your light! All

of the breath you desire is yours to fashion from it your beautiful melodies and songs - to fashion from it the spoken word and to utilize it as the motivating power by which all the activities of the physical form are performed.

You have not known - you have not touched the hem of the garment of power which is within your capacity to draw from the air and the ethers the nourishment - the spiritual stimulus - the eternal youth and beauty - the vitality and fire which awaits the magnetic pull of your free-will and the expansion of its qualities through your flesh body. Those who have even surfacely studied the control of the breath, know something of the buoyancy, the vitality, the refreshment that is within it. However, few there are in the West who have drawn from the air element that substance of fire which is the "Elixir" for which mankind has sought through the ages. By its use, one may regain eternal youth and beauty, indestructible health, strength and energy, transforming the flesh body into a translucent form of light!

Through your loving co-operation in the Transmission Classes of Our Lord, the Maha Chohan, you are taking the first steps toward controlled breathing - the inbreathing, absorbing, expanding and projecting of your breath. With the help of the Almighty Father of us all, you shall develop greater efficiency in the use of the breath and in the absorption of its God qualities and powers for your own benefaction!

You are like individuals within a storeroom filled with gold crying that there is lack and poverty! In the air you have everything - everything required - to sustain the

human form, to vitalize it, to quicken the vibration of its electrons and to redeem it. If you will experiment with this, I shall assist you to bring back into the organism of your flesh form the perfect rhythm which you once knew. We shall also bring it back into the etheric body - back into the emotional world and into the mental body as well; for when you abide within the natural rhythm of your being, you can know no tension, distress, disease or limitation of any kind. It is merely because you have broken the natural rhythm of your inner bodies and flesh forms through discord and inharmony that you find yourselves suffering under certain pressures which are weights upon you at present.

During this class We are honored by your recognition of Our reality, your invitation to Us to be with you and your loving gratitude to and for Our various elements. The up-reaching of your energies through the veil of maya (discordant creation) allows Us to render service to every human being upon the planet, and to cosmically transmute a certain portion of destructively qualified energy in the mass strata of discordant thought and feeling which form the effluvia of your planet.

Naturally, beloved ones, mankind have used air through the ages. From the time the First Root Race descended, every lifestream breathed free, pure air into its lungs. After the coming of the "laggards" from other Stars and the distress of the shadows created by discordant thought and feeling, every lifestream has breathed out some poison into that pure, fresh air which was prepared for you by Myself and the mighty Sylphs who work with Me in this service.

Can you conceive of the magnitude of that service for one lifestream alone? Placed within a room into which there was not an infiltration of oxygen, an individual would eventually destroy himself by his own polluted breath. You know that! What think you then of the billions of lifestreams on this Earth today who, through the mercy of life, breathe in energy, vitality and light and breathe out - how many times a day - polluted substance and waste matter? This is the imposition placed upon the breath of life through discordant thought, feeling and etheric consciousness, as well as flesh waste, all of which must be purified and redeemed by the nature spirits through the night hours so that the individual may receive the next day's supply.

That is the service performed by the air elementals upon the planet Earth - keeping the atmosphere clean and clear - using the purifying powers of the Sacred Fire (the use of which you are now being taught).

By purification, this Sacred Fire changes the quality of the air by raising the vibration of the exhaled breath of the inhabitants of the planet, both man and beast.

If the Sylphs and the Directors of the air currents should discontinue their service even for one twenty-four hour period, there would be no need for the ingenious methods of destruction conceived in the human mind to destroy the race, for their breath -- not purified by Us - would asphyxiate them in a short time due to the ceiling placed around the Earth which locks in its atmosphere.

When you rise in the morning to a

shining new day...When you breathe in pure, crystal light and when you feel your bodies renewed in strength and energy - then gratitude to the air element and the Beings that govern it, is surely in order! For the few people who are even cognizant of this service, there are billions who are not! There are billions of people who take air, water, sunshine and God's good Earth, for granted - billions of people who use the gifts of the elements - pushing aside, as superstition and mythology, the existence of the Directors of those elements. More foolish still - instead of accepting a Directing Intelligence Who governs these tremendous forces - they attribute the regulation of the tides, of the light of the Sun, of the harvest, of the air, to chance and "happenstance"!

Beloved ones, those who speak of God without form - an Intelligence without definite focus - those who speak of "happenstance" have not thought deeply! From the smallest business or the smallest religious organization to the greatest national government or World Order, there is always a focus of intelligence directing its activities, as well as other lifestreams co-operating with it in an endeavor to make the service in which they are engaged as successful as possible...

As below, so above! The Great Infinite Source of All Life - the Universal First Cause from which we all came into being - has intelligence, focus and form! Although His radiation is universal in its aspect, this Great Intelligence - in kindness - has delegated to those of Us Who have qualified for service with Him, the opportunity of developing Our individual momentums and powers to help the evolutions on various planets and to nourish the

spiritual seed which is within the hearts of all men.

Would not the God of Love be selfish indeed if He were to deny His creatures and creations opportunity to serve with Him - to widen the borders of His Kingdom? Would it not be strange behavior in an all-loving Being were He to insist upon encompassing all of Creation Himself - without the co-operative endeavors of Angels - Devas, Masters and Directors of the Elemental Kingdom - thus dwarfing opportunity for others and Their ability to serve? Oh no! The God Who made us in the beginning made us FREE! He meant every one of you within this room, all mankind and everyone of Us Who has evolved along different lines and on different Stars to be FREE!

He gave us life from His Own great Cosmic Heart - gave us the power to think, feel and use His Own living body to experiment with life energy. Thus one may create for oneself momentums which would be efficacious in expanding the Father's Kingdom - or one may create for oneself the shroud of human distresses in which the majority of mankind find themselves engulfed today!

When the individual finally becomes master of all the energy in and around him, then his call does come and he ascends into his own Eternal Freedom - into the Electronic Body of his own "I AM" Presence. At this time, such an one brings to the Spiritual Hierarchy the harvest of his experimentation with life - his Mastery. If he has been serving with the planet Earth, he comes before the Beloved Lord Gautama (formerly the Buddha, but now the Mighty Lord of the World, having qualified Him-

self to assume Sanat Kumara's Holy Office).

When man comes thus he needs no words in the presentation of his harvest, for it blazes from his heart - it shines as an aureole all around him and it pulsates in his Causal Body...The Lord of the World, looking upon the momentum of his achievements and observing what he has done with the life energy allotted to him, wisely and impersonally gives him opportunity to use his perfected talents in the fulfillment of some part of the Father's great Divine Plan.

From time to time such Beings have chosen to become Directors of the Forces of the Elements. Some were called to this service on the planet Earth by Helios and Vesta when They obtained permission from the Great Central Sun to create a solar system.

The Great Central Sun found Helios and Vesta both capable and worthy of using the centripetal and centrifugal force, with enough power of Divine Love and control of energy to not only create, but sustain a Planetary Scheme. Thus They were vested with the authority and power to so create.

Helios and Vesta then designed a plan for the creation of the planets of Their system and placed it in the living bosom of a Cosmic Silent Watcher, Who guards it to this day as an architect holds the blueprint for his building.

Next came the Elohim and with Them the Directors of the Forces of the Elements - all cooperating jointly in the evolution of the vegetation of the Earth, the water element, the nature kingdom and the fecundating power of the

fire element on each planet of our system.

These planets were destined to be inhabited by certain spirit sparks from the Hearts of Helios and Vesta, who were to form the nucleus of the lifestreams that would evolve upon them.

Thus was I called to represent, create and sustain the atmosphere around the planet Earth and to keep purified, vitalized and ready for acceptance, that energy which mankind would breathe into themselves. In representing the air element, I held within My very being every Sylph representative of that Kingdom, quiescent and awaiting direction to go into service.

My Twin Flame, Who works with Me, is the Great God Thcr. His energy is the "drive" of the atmosphere and He controls the Spirits of the Four Great Winds.

The beautiful spirit of the East Wind brings the rain where needed and withholds it where it is not (as your decree so aptly puts it). He moves the cloud formations from one place to another to allow the release of Neptune's gift of rain.

The great West Wind brings the refreshing, drying zephyrs after rain, drying up the excess waters and returning them through evaporation to the Sun for purification.

The beloved spirit of the South Wind carries the balmy radiation of ease and peace, while the strong North Wind carries the purifying blanket of snow with which he covers the Earth, giving it a certain nourishment as well

as beauty. On a sparkling morning after a snow-fall, when the Sun rises upon a crystal world of purity, perhaps some of Earth's evolving spirits can remember back to the time when the planet itself was so pure.

We are the Beings Who released the pressures of energy through the wind which filled the sails of the boats that carried brave men and women on spiritual missions in the past; that carried the boats from Atlantis before She sank beneath the waves. Ours was the pressure of energy which drove the boat of the brave Serapis to Luxor and the other boats to their respective destinations. We are the Spirits of the air Who filled the sails of the ship which carried Beloved Mother Mary and the Holy Grail to England, carrying the blessing of the Christ to Glastonbury. We were the pressure and power of air which drove the ships of Columbus across the sea and brought him to the shores of the Americas.

We are the Spirits of the Air who have been invoked, utilized and blessed by many sons and daughters of men. We have also been cursed by some of these same sons and daughters of men when, sometimes, the elemental life in the air was stirred to rebellion through man's discord and the sandstorms that swept across the deserts pelted the burning sands into the faces of the pilgrims, bringing great distress.

We are the Beings Whose element is held within the cyclone, the hurricane, the typhoon -- those tiny, intelligent and faithful beings who, now, through your great and mighty calls, are being freed from imprisonment there.

In the Name of Life, as you think of

the great element of air that surrounds your Earth. We ask you to bless and bless and bless it--calling on the Law of Forgiveness for mankind's abuse of it for so long! Then, whenever the Great Cosmic Law permits the instantaneous answers to your calls to prevent destructive cataclysmic activity, We shall assist you by placing Our Hands upon the storms and stilling them. In every way possible We shall endeavor to prevent destructive cataclysmic activity caused by undue air pressures...

The air currents of the planet Earth move like rivers. Your scientists have discovered this to some extent and they plan to send up man-made "satellites" which will revolve within those air currents. By means of these they hope to explore the Moon, the planet Mars and other celestial bodies. Their man-made plans are good except for the fact that the axis of the Earth is changing and as that change occurs the air currents are shifted. Therefore, the man-made satellites that are planned to move within established currents would be shifted in like manner and-losing the gravity pull of Earth-would be disintegrated in outer space.

This is something the scientific world at large does not know, but it is something which you know, and with all the experiments that your scientists are making to reach the other planets of the system, it is well to remember that the planet Earth is a Shadow Star. The thoughts, feelings and human consciousness of Her people are such that there has been a protective ring of energy placed around Her which keeps Her emanation from polluting the other planets of the system to which She belongs. Nothing can pass through this "ring-pass-not" but harmony and love. You might say that the planet Earth is "in quaran-

tine" and the air-men(bless their sweet hearts) who plan to get out of that quarantine will never do so until they become transmuted in nature and thus rendered incapable of contaminating, through the radiation of their human consciousness, the other portions of the solar system, of which the Earth is a member.

Now, beloved ones, as the axis of the Earth is in the process of being restored to its original position, it is being accomplished as carefully as possible, because, as you know, the least jar would upset the ocean currents, the gas belts, the surface of the Earth and the air currents in the atmosphere...Yet, although these cosmic changes are taking place rhythmically and according to cosmic cycles, your magnificent decrees are essential, not only for the peace of the elemental life, but for the safety and comfort - without disturbance - of all the evolving life upon the planet. /

If We are given the authority by unascended mankind (through their decrees and calls) to act in their worlds, We shall most assuredly do so...!

If We are given the authority to act in a planetary measure, We shall do that also and use all Our efforts to adjust the movements of the Earth which is now beginning to respond to the centripetal force of love from the hearts of the God-Parents (Helios and Vesta) in the Sun - Who are now sending out the call to the planets of Their systems -- "Come Home!"

For every movement in the readjustment of the planet, the Beloved Diana, Neptune, Virgo and Myself together with all the beings that compose Our Kingdoms, will endeavor to make

the necessary changes as peaceful and harmonious as possible -- provided you make the calls.

Now, tonight, beloved hearts of light, as usual, there is more to say than time in which to say it! There is so much instruction to be given! So many subjects to cover! So many consciousnesses to reach! So many seeds to be planted that you may reap a rich harvest and then sow a new planting in your own individual spheres of influence!

With all this, it is sometimes quite difficult for even the Beloved Lord Maitreya Himself to design the pattern for a lecture that must be encompassed within one short hour. However, "I AM" destined to follow in My Predecessors' footsteps and describe the electron... As the time allotted to Me is growing short, I must withdraw from the subject that holds My greatest interest (naturally the air element and its functions) and return again to the electron and the etheric body - Our assignment being to cleanse the latter as much as possible during this class.

While I have been speaking, be assured that your etheric bodies have been going through the same "smudge-cleaning" process that they went through last night and the night before... Let Me say I am glad that you have neither the inner sight, the inner hearing, nor the inner sense of smell fully developed tonight! It is a mercy! Yet, wholly pure, God-free Beings are rendering this service for you!

Now, We come to "calculus" again. Nearly everybody likes literature. Many people enjoy botany, drawing, music, and so on - but, when We get into deeper work like calculus -

the students' minds are apt to wander a bit. (You see, I know them well). However, let us be alert now for a few minutes longer!

For the purpose of analysis, let Us take the upper figure on the chart and call it a magnified electron. This electron, coupled with others of the same family, responds to the pull of Divine Love which is its core. This is the centripetal force of science...That core is the magnetic power of Divine Love which has drawn the electrons from the Universal (where they have danced and played, enjoying full freedom) submitting themselves willingly to an imprisoned form of life for Love's sake, in answer to the magnetic call of Love from within the heart of the directing intelligence who wishes to express life in some form or another.

All of the electrons move around a central core of Love, just as the planets of our system move around the Sun...What is this core of Love? It is the Immortal Flame of some God-intelligence which has decided to create form in some sphere. Through the direction of a thought by that Flame of God into the atmosphere, a tiny heart flame is created. This is the centripetal force of Divine Love, which in turn magnetizes the light essence, thus forming the electrons. These electrons comprise the form of every idea conceived by the directing intelligence of the being who desires to become a co-creator with God, through thought and feeling.

As these electrons follow each other around their central core, their speed is determined by what the directing intelligence governing them wishes to manifest...For instance, if the desired precipitation is gold

the speed of the electrons around the core is very rapid. If the desire is for a baser metal, the speed of the electrons is proportionately slow. However, whether the speed be fast or slow, all is done in perfect rhythm; The directing intelligence regulating the speed according to the manifestation desired.

For instance, the Beloved Victory enjoys experimenting with precipitation. You have been told that He changes the appearance of His Temple frequently. If He chooses to create the dome of His Temple in yellow diamonds, He merely qualifies the electrons with the speed, color and vibratory action desired - and the result is a dome of yellow diamonds.

If the Beloved Victory chooses a pink dome the next day, He changes the ratio of the speed of the electrons, qualifies them with the desired color and a pink dome for His Temple results.

All elemental life substance has been commanded by the Father to obey the Flame of God in the heart of His children... When a God-free Being is finished with a specific creation, He releases the electronic light which composes it back into the Universal - unless it is something that He feels should live as a permanent manifestation.

You see, life essence is held so priceless by Ascended Beings that They do not utilize or imprison the electrons except for a very specific purpose and do not cause them to remain in form longer than the requirement of the manifestation demands.

When that is done these electrons

are blessed; they have expanded their light by service to life in obedience to the intelligence that drew them forth. They are then given opportunity for greater service, becoming Builders of Form if they so desire. However, many do not respond to this invitation from life, but those that do go on to great heights through experience and service.

This is one portion of the law with which all free-will individuals agree, that is, that there is no possibility of every expression of life not getting a just reward for service rendered - (if you have ever been concerned about that.)

Dear hearts, along this line, may I digress for a moment and say that I know it seems very difficult to labor so hard -- seeing the rest of mankind abiding in comparative peace, with the hurricanes diverted, the erupting volcanoes quieted -- the people going on their merry way, while a few blessed students are "sweating", straining and struggling to make the calls which bring these things to pass. It is sometimes very difficult not to question yourselves as to whether you are some of "God's fools" or not!

Blessed ones, it was ever thus! It was ever thus! There is no such thing as "happenstance". All is scientific. Every ounce of energy - every "jot and tittle" you expend is accounted for and you - and you alone - have the glory and reward for your service, deposited in your Causal Body. Every decree you have given - every step toward God that you have taken - every ounce of energy that you have ever used to persuade the souls of men to step forth upon the Path -- all these are "treasures laid up in Heaven" for you.....

Now, to return to the electrons that compose your own bodies. These responded to the Immortal Flame within your hearts when you were first projected forth from your God-Parents...The electrons in that First Sphere responded and your White Fire Body was created which vibrates so rapidly that it can only be seen by the God-free Beings.

The electrons in every sphere through which you passed responded as the Heart-Flame consciously descended and took upon itself the obligation to incarnate in this physical world.

The emotional body is also composed of electrons, swinging around their central core. The mental body responded in like manner and the etheric body responded also. The etheric body, however, is made up of finer ethers.

Now, what exactly is the etheric Body's service to life? It is your Book of Memory and within it is recorded every experience you have ever had all through the ages, whether it be constructive or otherwise. Every time a beam of energy passes out from you, it sets up a cause and an effect ensues. By the Law of the Circle(which is irrevocable!)the effect returns and makes either a "star" or a "scar" on the etheric body. The etheric body has accompanied you since you first took incarnation upon this Earth. In that etheric body is a record of all your experiments with life - all your victories - all your witnesses of a transfigured Christ and an Ascended Christ - a gracious Mary and an Ascended Buddha. In it are also recorded all the iniquities of yourself and the unhappy experiences with your fellowmen all through the centuries.

What has all that done to the etheric body? It has done the same thing it did to the mental and emotional bodies - it has driven shadows into the spaces between the electrons and formed the pie-shaped wedges of dark heavy substance which have been previously alluded to in other addresses during this class. This has lowered the vibration of the electrons and dimmed the radiation of their light. It has also driven into the etheric body bitter resentments, lack of faith and other qualities of a negative nature. The soul, when it later meets similar conditions, many times reacts in a similar manner as before, remembering previous experiences through the momentums of the past registered in the etheric body. However, the conscious, determined use of the Violet Flame (the Violet Fire of Freedom's Love, Mercy and Compassion) can and does dislodge those disillusionments, rebellions, jealousies - (Their names are legion) - from the etheric body.

At the time of so-called death, when the soul leaves the flesh body behind, it goes before the Karmic Board in the etheric body. Before this takes place, however, the soul mercifully passes through a river of Violet Fire (referred to in Greek mythology as the River Styx). In this way, as much as possible of the substance of its mis-creations is transmuted. However many of those etheric records (as Beloved Morya said) still remain like corrugated welts driven into the etheric vehicle. It is to remove as many of these records as possible at this time that We have given Our energies tonight and during this entire class.

If you will just let go of the memories of imperfection - even in this life alone - and ask your Holy Christ Self to help you

let go of every memory of injustice, failure and distress of every kind that you have ever experienced, (which are registered in the etheric body) the Holy Christ Self - in cooperation with a Brother from the Ascension Temple - will give you the needed assistance.

Now, lovely ones, as My allotted time is about up, may I suggest that you breathe the God-given air deeply -- and love, Oh, love the spirits of the Air. Know that Aries and Thor are always with you - in the air you breathe and the drive of its energy - and that we always stand ready and willing to respond to your slightest call.

Thank you, beloved ones, and Good Night!
