DEDICATION

To You, O Beloved Virgo, Mother of the Planet Earth, do Our Blessings flow - on behalf of the mankind evolving thereon, as well as the elemental life and the animal kingdom that live on Your bounty. To You, Beloved Lady, do we extend Our sincere gratitude for the gracious hospitality You have extended to these expressions of life;

It is Our hope that this small booklet, dedicated to You, Beloved Virgo, will bring its gentle readers a greater understanding of the unparalleled service You have rendered all through the long ages since the planet first came into existence.

It is Our decree that mankind, so acquainted with the generosity, patience and unremitting love of the Great Spirit that governs the Earth, may be moved with desire to assist in the restoration of the purity, the perfection and the grace that It (the Earth) once expressed.

MAY THIS PERFECTION - WHICH IS THE WILL OF GOD MADE MANIFEST - EXPRESS IN THE VERY SUBSTANCE OF THE PLANET EARTH THIS DAY!

SO BE IT!

THOMAS PRINTZ.

BELoved VIRGO

Virgo, lovely Mother of our blessed planet Earth,
Drawing forth light substance for her perfect
Virgin Birth.

Substance glowing brighter than the glory of the
Sun;

But that was in the early days when Earth had
just begun.

Earth sustained Her beauty rare, for several
million years;

Sent Her first root-races home all free from
doubts and fears.

These were Golden Ages, longed and prayed for by
all men.

Now perfection comes again!

Then in love Earth offered to be Host for other
Stars,

Who, preceding Earth, were taught by advanced
Avatars;

From these Stars came laggard souls, who, not
Evolving fast,

And holding back Light's victory, had to leave
their homes, at last;

Coming to the Earth, they brought their shadows
Earthward too,

Through contagious radiation - all those
shadows grew -

Dimmed the light and perfect sight of all evolving
here,

All forgot their Source so dear.

As the shadows lengthened o'er this dark'ning
Earthly scene,

The souls of men accepted discord ne'er before
e'er seen,

Shadows grew and grew until not one on Earth was
free,

BELOVED VIRGO - (continued)

And even Guardian Spirits bright, forgot Their
victory.

E'en the substance of the sea and air became
despoiled,
Virgo's lovely substance became most completely
soiled -

Lost Its radiant beauty and absorbed discor-
dant sound -
Making dark and heavy ground.

But Virgo's heart stayed light with love and
strength and courage rare.

As mothers will, She loved Her child and
'tended Her with care;
Kept Her breath of love and light expanding
through each part,
Held the Earth and all upon It in Her blazing
heart.

Knowing surely that the Light of God must win -
What the God-Head outbreathed, It must once
again breathe in,
On that rhythmic movement, It - releasing light
and love -
Draws all to their Home above.

So today, our Virgo dear, victorious in God's
Light,

How we love and bless the powers You've
drawn from Heaven's height!
Love You for the constancy and strength that You
have,

To raise the Earth and all thereon and make
It happy, glad!
We bow before Your beauty and Your confidence so
sweet!

Before Your powers of light that keeps the
Earth beneath our feet.
Make and keep us all You are in Light's great
victory won -
Bless our Virgo, Central Sun!

ADDRESS

by

THE BELOVED LADY MASTER VIRGO --- GODDESS OF EARTH.

"I AM" the Mother of this planet and the Cosmic Mother of all the mankind evolving thereon to a certain extent beloved children, for your vehicles are partially composed of the elements that make up My own body. It was My privilege to be among Those Who answered the invitation of the Beloved Helios and Vesta for Free Beings to assist Them after They were vested with the power and authority to create a Planetary Scheme.

Their invitation brought together the Elohim, the Silent Watchers, the Directors of the Forces of the Elements and other Cosmic Beings Who had heard the call and chose within Themselves to offer Their momentums of love and light to the Sun God and Goddess of the new System. They offered for acceptance the particular gifts, powers, qualities of energy and magnetization of light that might be utilized for the formation, development, externalization and sustenance of the planets that were to be brought into manifestation.

From among the Beings Who thus offered Their services, the Beloved Pelleur --- My Twin Flame --- and Myself---were chosen to create the platform upon which mankind might stand. That platform was created, beloved ones, in the manner that has been described to you so frequently;

that is, by the coalescing of the electrons around a central core, which forms the atoms; the atom in turn vibrating at a speed which would withstand the weight of the bodies of the people.

Now, as expressed in the lines of your lovely song - "Beloved Virgo", the Earth itself, as well as the etheric and physical bodies of the people emanated light and there was no shadow upon them at any time when the great Lord Michael and the First Root Race came to Earth... There had not yet been intruded into the force-fields around the atom any of the discord and heaviness which came after the Earth had accepted the "laggards" from the other stars and planets.

Therefore, to create continental surface for the people of Earth, We did condense electronic light, but We did not have to slow down the speed of the electrons to their present vibratory action - that came later through human discord... At that time -- because of the very rapid revolution of the electrons around the central core of each atom -- the Earth was brilliant, translucent and crystalline... The bodies of the people felt the buoyancy, of the activity of light from the center of the Earth, as well as the radiation from the Beloved Aries and the Beloved Neptune and even from the Sun Itself.

However, as time went on and after the "laggards" had come and the mankind on Earth had absorbed into themselves the shadowed thoughts and feelings in which these individuals indulged, the bodies of the Earth people became heavier and more dense and I might say that this density had become more pronounced as time progresses.

As you have been told, these "laggards"

were individuals who were not harmonious enough to advance with their own Stars in a procession toward the cosmic goal for which they were created - (the ultimate perfection of which even Alpha and Omega Themselves are not fully cognizant).

As their native Stars progressed, these recalcitrant lifestreams were forced to withdraw, not being able to stand the higher vibrations into which their "home" planets had advanced, and would have become what is called "planetary orphans" (which might be likened to people on Earth who make themselves unfit to become or remain citizens of any country) if our dear Earth had not offered them homes and habitations here, to her later sorrow.

As the shadowed thoughts and feelings of these visitors began to go forth into the atmosphere, they created an effluvia or "smog" which, in time, penetrated into the consciousness of the "innocents" (the Earth people). This, of course, lowered the vibratory action of the electrons which formed the atoms of the mental, emotional and etheric bodies of the people, and, as all these vibrations find their final repository in the flesh, it was inevitable that the flesh bodies of the inhabitants of Earth would be likewise bogged down...

Then, in mercy We, Who represent the Guardians of the landed surface of the Earth, had to lower the vibrations of the electrons composing its atoms, so that it could sustain the heavier weight of its evolutions -- but still holding the pure and perfect focus of the God Essence or Light within the central core of the electrons, which arrangement remains to this present day...

Through the long ages that have been since that time, mankind has continued to impose upon the substance of our beautiful planet that which they call "soil" - (well named, indeed!). However, for your comfort, beloved ones, let Me say that in the fulfillment of God's Divine Plan, all of Earth's substance shall one day again become the glory and perfection of Freedom's Star...

Now, today, beloved children, We are acknowledging the purification of your physical bodies. Most of you know that all of your bodies! function in ovoid form, each body composed of the element of the plane to which it belongs.

The flesh form is the smallest of these bodies, being placed within the center of the etheric body, which interpenetrates it. The mental body is outside of that, the emotional or feeling world occupying the outermost position--each body inter-penetrating the one inside it for a certain distance, but all four forming a perfect ovoid. You will understand then that as the light descends from the Electronic Presence through what is called "the Silver Cord", it passes through the emotional, mental, etheric and physical bodies (in just that order) and anchors within your physical heart...

You have been told that if the Flame within the heart (the Holy Christ Self in action) is not allowed absolute control of that flow of energy, these various bodies will, like ill-trained animals, rush to seize that energy and use it for their own selfish ends before the Master of the household (the Christ Self Who dwells within the Flame in your heart) may designate to what purpose that energized life shall be directed and released.

As We have worked with you all through this class, We have attempted to purify your bodies - dislodging from the emotional, mental and etheric vehicles the accumulation of shadows which you have drawn into the forcefields around the electrons forming the atoms of those inner bodies.

Now, today, while "I AM" speaking to you, We are endeavoring to render this same service for your flesh body to allow a purer flow of Light from your "I AM" Presence into the Immortal Three-fold Flame within your heart, so that from now on the Holy Christ Self within you will -- in cooperation with the outer mind -- be the conscious director of what your emotional body will do; how much of God's energy it is wise to bestow upon it; what virtue the life-stream was destined to contribute to the planet through it -- and no more!

Then, in cooperation with the Holy Christ Self, you should decide how much of the God-energy shall be devoted to constructive mental pursuits and how much to the creation and sustainment of the thought images you wish to bring into manifestation, being careful not again to allow the mental body to conjure up those constant pictures of a discordant nature which steal so much of your precious energy -- even at times when you are trying to have a quiet moment or enter sleep.

Under this supervision, your mental body will take its place as a constructive creative center, receiving from the Divine Presence those ideas which It would like to manifest upon the Earth...It will then cooperate with you and create out of the Universal Light any form to which you direct Its attention, but it will have

no traffic with the intrusion of the discordant thought forms of others or the thought forms that your mental body conjures up in its idle moments when the conscious mind is off guard.

The mental, emotional and etheric bodies of mankind have been like untrained children-- they have rudely seized upon the God-energy and, without the authority or direction of the Christ-Self or even of the un-wise soul, have filled your temples (bodies) with imperfection...The example of the Beloved Jesus clearing the Temple of impurity and imperfection in His day is symbolical of the very service which We are endeavoring to perform for you today.

As much as the action of the Great Law has permitted, We have cleansed your emotional bodies of the accumulation of discord from the past...We have removed the causes and cores of discord which have stimulated your emotional bodies (through etheric memories) to create similar destructive habits of feeling again...

These accumulations have been removed from you this week through the power of the Mighty Astrea, and -- the same service has been rendered for every individual all over this planet who has been conscious of and sincerely participated in consciousness in this class. Let Me repeat the words of our Beloved Jesus --"According to your faith, be it done unto you"... If you can accept it--you are free this hour from all past discord!... Of course, through free-will, you can re-create it immediately, but I ask you now, in the Most Holy Name of God "I AM" to accept this Gift of Purification from Us this hour! (Audience rises in gratitude and appreciation).

In a home, a parent dealing with the children who are the obligation of his life-stream, provides for them physically, emotionally, financially and spiritually, to the best of his ability, and he wisely delegates the substance of his world to their welfare...This is the position you must take, beloved ones, with regard to the vehicles which the Holy Christ Self created for you in obedience to the fiat of your individualized "I Am" Presence. All your endeavors should be bent toward the fulfillment of the Divine Plan of that Presence through the various planes of consciousness to which your four lower bodies belong while you have yet the time and the opportunity.

Through the Flame in your heart, you must become the dignified, balanced, poised Master of your emotional, mental, etheric and physical bodies...As children will, those bodies will "clutch" at you for more than their share of attention, particularly so when they have been indulged for untold centuries of time...

The Beloved Saint Germain has told you that a chronic disturbance within the flesh body is positive proof that the physical form has been given undue attention through the ages.

It is the same with mental obsessions; with emotional "fixations" and with etheric hatreds... They are all the result of the indulgence of your consciousness giving life too freely to the vehicles in question...Having become gluttonous in the use of that life, those vehicles no longer request from you the authority to use your life energy -- they rather rudely snatch it without waiting for permission.

As the Light from your Beautiful "I AM"

Presence flows into your heart, any one of those vehicles of yours (which happens to be in ascendancy at the moment) and which is, perhaps, more alert and more indulged than the others, seizes it -- and you have an emotional outburst or a mental depression before the outer conscious mind is even aware that the light, which it is its duty and prerogative to distribute intelligently among them, has been confiscated... If the etheric body is in the ascendancy for the moment, old memories of long-forgotten hates and fancied wrongs will stir it into action, rousing with them the energies of the emotional and mental bodies and in a moment there is turmoil which extends even into the physical body.

Now, beloved ones, your Holy Christ Self neither slumbers nor sleeps! It is your individual "Silent Watcher", created by your Beloved "I AM" Presence when you applied for permission to take embodiment and become part of the activity of this physical world or some of the other stars or planets.

Your Holy Christ Self is in charge of the dispensation of the light through your silver cord... Speak to It and ask It to regulate for you and put in their perfect places - as instruments of the "I AM" your vehicles and thus no longer be servant, but Master in your household.

Blessed hearts, you are torn, torn, torn - but what? by the "members of your own household", that is, your own emotions, your own thoughts, your own memories, your own personal appetites!

"Armageddon" does not have to go outside of the ovoid which forms your personal aura! Believe Me, if everyone, with the exception of

yourself, were wiped from the face of the Earth today, you would still experience Armageddon until you became Master of the Life which flows to you! Why?... Because the Godhead - through the instruments of your thoughts, feelings, memories and physical bodies - desires to render some particular service in this world of form which you alone can perform... The very moment that this service is completed and your Divine Plan fulfilled, that instant you shall be summoned "Home", with the purified essence of your four lower bodies finally absorbed into the Body of your Holy Christ Self, and you stand forth at last a God-free Being.

Now, blessed ones, in regard to these atoms of which We have spoken so much, the same process which has been heretofore described to you in detail, takes place with regard to the physical body... The electron forming the atoms is intelligent and it obeys absolutely the law of the Universal... These electrons were released from the Bodies of Helios and Vesta after They had received Their Investiture and Opportunity from the Beloved Alpha and Omega (the Beings in the Great Central Sun) to form a System.

When the fiat "LET THERE BE LIGHT!" went forth from the Beloved Helios and Vesta, the Beings in the Great Central Sun (Alpha and Omega) answered Their call with Light substance and - "Behold! there was Light".

That light was comprised of beautiful electrons in the colors of the Seven Spheres, which had intelligent life within them in the form of a tiny replica of the beautiful Beings that called them forth - Helios and Vesta - the Creators of the New System that was about to be called into being. This light - this intelli-

gence - forms the core of every electron.

From the heart of the electron goes forth beams of light which form its forcefield and these electrons are what is loosely called "the unformed", meaning they have not yet been coalesced into an atom, but exist in minute microscopical proportions.

Now, in the realm of each Chohan where these electrons form the atmosphere, the heart of each tiny sphere of light is like a mirror and they usually reflect the Chohan of the realm in which they dwell, the Angel with whom they are working or the Temple in which they function. These electrons in their pure and perfect state, are charged by the Deity with the quality of implicit obedience to the divinely created intelligence that calls them forth and they immediately mirror the likeness of that being in their core. Therefore, beloved ones, every expression of life upon this planet is composed of countless numbers of these shining electrons, many of them called into the world of form carelessly, but each one stamped indelibly with the electronic pattern of the lifestream that called them forth. In calling for the purification of the planet and its evolutions, you are actually helping to free this beautiful imprisoned life, which is part of the body of God.

These electrons are especially eager to respond to the call of Divine Love which is the centripetal force of the universe. Divine Love is also the cohesive power which holds the universe together, and everything that is, has been, or ever will be created in any universe, is done so by the power of that centripetal force, which is really Divine Love in action.

The form of any manifestation is sustained as long as Divine Love is held within it... These electrons, then, beloved ones, responding to the call of Divine Love from the Immortal Three-fold Flame within your heart, form the atoms which make up your physical bodies. They are designed with the help of the Builders of Form and the Body Elemental and formed into your vital organs, your skin and every atom and cell of your outer form.

The ratio of speed of the electrons which make up the atoms of your flesh body differs in proportion to your evolution... There are more electrons in each atom of an individual who is of the angelic Kingdom than there are in those that form the body of a member of the human race... The elemental kingdom again carries a different number of electrons to the atom... For instance, there may be only nine electrons forming each atom in one body; perhaps as few as seven to others, while some may carry as many as twenty-four to the atom - the size of the atom depending on the evolution.

Now, in the case of human beings, the speed with which the electrons move around the central core is determined by the amount of light which has been projected by the "I AM" Presence through the Flame in the heart and expanded into the electron. If continued discord and inharmony shock the atom, it sends the electrons off their prescribed course and causes various organisms to break down within the flesh form... Repeated shocks of a mental, emotional or physical nature do cause that which is known on the Earth plane as dis-ease, disintegration, decay and even so-called death itself. Therefore, beloved ones, through the cooperation of the Flame of Love in your hearts, the maintenance of

harmony and peace within your feeling worlds will be sustained and well keep your electrons spinning around their core in a rhythmic motion, making your physical form radiate with peace and happiness and good will.

This will keep you buoyant, vital, rested and active as long as you remain in this physical world...

Individuals, like the Goddess of Light and others, who had passed through severe initiations, were able to sustain life in the physical bodies as long as they desired. They did so by merely learning the operation of this Law, regulating the rhythm of the electrons comprising their atoms, as well as governing the "staying power" of the core.

Now, this core within the center of your atoms is directed from the Holy Christ Self through the Flame within your heart. That core remains just as long as self-conscious life and the Intelligence of God wills that form to remain and just so long do the electrons move around it.

At the very instant the service is completed (for instance, if you have governed the energy in your four lower bodies and have finished your work for this embodiment) this core is drawn back into the Flame within the physical heart and absorbed into the Christ Self again.

The core within the heart of your electrons which is directed from your Holy Christ Self, is the centripetal force of Divine Love... In that core is the capacity to sustain life within the physical body or to sustain any precipitation or manifestation...When the will of

the individual withdraws the desire to sustain it, the core is automatically removed and disintegration of that particular form takes place.

That is why so many precipitations are never completed, because the will of the individual holding the original design relinquishes the necessary cohesive power of Divine Love before the electrons fully coalesce - and when that impetus is released, the electrons automatically return to the "unformed".

I explain this to you for a double purpose, First, to remind you to try and keep yourself harmonious at all costs and refrain from jarring and changing the vibratory action of your atoms...We have "stepped them up" and have removed, as much as is possible for us to do at this time, the dark "wedges" which is the impure substance that you have charged into the atoms of your four lower bodies.

If you will now allow the natural rhythm of the perfection of your Holy Christ Self to assert Itself through sustained harmony in your feelings, together with consistent use of the magnificent Violet Transmuting and Ascension Flames, you will find youth sustained in the bodies of the young and restored perceptibly to those who have seemingly passed that stage. You will also realize tremendous, added vitality and perfect health in all your four lower bodies.

Secondly, you will understand that any business activity, be it small or great, must have a central core; likewise any World Order of a religious nature must have a strong heart center within it if it is to survive. In this activity also, beloved ones, the "core" represents the heart of the movement and all the in-

dividuals and groups that draw life and sustenance from the heart represent the electrons swinging around that core. What is felt in the core, the amount of Divine Love and centripetal force within the center, will determine the number of groups or "electrons" that can be drawn and held around that core. Every jar to the center is a jar to the periphery.

On the other hand, the intelligence governing the outer electrons must take care that undue weight is not placed upon the electrons that form the heart center. A human body lasts only as long as the indwelling intelligence takes care of it and this refers also to an outer business and more particularly to Religious Orders...

It is only natural that the pressure of evil forces that do not wish to see a World Order established will not strike at the periphery, but at the heart...An Order where angels, men and Masters work harmoniously together presents a ready target for these forces, but if the heart and will which is within it, and the faith and love that have attracted the "electrons" that move around it and support and uphold it, and band together in love invincible and invulnerable, no outer force can tear down that edifice and no evil can prevail against it.

That is the position in which Saint Germain's New Activity stands today, beloved ones. The Heart represents the love, the care, the protection and the magnetization of those Mighty Powers which represent the Ascended Host of Light. The entire student body have drawn Us into the lower atmosphere by their calls and by their love and in this activity, as in every life expression from the Godhead down to the

smallest elemental, there must be a receiving and a giving. So, you see, beloved ones, that your unity and oneness should be such as that which exists between the Beloved Pelleur and Myself; between Neptune and Lunara; between Helios and Vesta; between Alpha and Omega...

All serving harmoniously in that perfect combination of the activities of magnetization, receptivity and radiation--each one doing his own perfect work -- "All for one and one for all".

Working this way in unison, beloved ones, you will be able to hold a centripetal force long enough for Sanctuary Directors, Group Directors and students to come to the heart center, as they came in bygone ages to Atlantis, where they may get instruction and the encouragement to go forth again carrying the light into the channels where they are individually serving.

Now, beloved children, I want you to feel as though you were riding daily on Apollo's Chariot, with the reins of four beautiful, fiery steeds held in your right hand. See each of these steeds representing one of your lower bodies -- your emotional, mental, etheric and physical -- but YOU, as the CHRIST -- the Charioteer-- in full control -- the lightest pressure of the reins turning your steeds, guiding your chariot right or left -- but NEVER permitting any one of these steeds to get beyond your conscious control.

Do this now, beloved ones, in the Holy Name of God. Call to Me when you need assistance and I will answer you. Remember, I have been your Mother in every embodiment since you first placed your feet upon this planet.

God bless you, dear ones.

VIRGO.

SUGGESTED DECREE

Blessed, beloved Virgo, Goddess Divine and Mother of our sweet Earth! We, the unascended of mankind - in the Name, Authority and Love of our own Beloved "I AM" Presence, most earnestly call on the Law of Forgiveness for all the devastation we have created upon Your dear Star! We call on the Law of forgiveness for every shadow ever created here and for all substance which has been thus despoiled.

In the Most Holy Name of God, our very own Beloved "I AM" Presence, we call forth oceans and oceans of the Violet Transmuting Flame in Its Most powerful transmuting action to sweep, sweep, sweep in, through and around every cell and atom of our planet, all its elementals and all mankind! Let that Flame blaze in overwhelming Cosmic power, doubled each instant of each hour, under the direction and from the heart of our Beloved Saint Germain (Lord of the Violet Fire); as well as from the hearts of the Beloved Portia, Beloved Buddha, Beloved Kwan Yin, Beloved Zadkiel and Holy Amethyst!

Illumine all mankind belonging to the evolutions of this Earth, still unascended (whether in or out of embodiment at this time) concerning the merciful gift of this Flame to all life, who will use it and help all to consciously, lovingly co-operate with Its ever-present, tireless and limitless release which makes all things right, as It is persistently called forth and Its loving service accepted!

Beloved Virgo, we love, bless and thank You without limit for the gift of Your

life to us all in sustaining our planet as a platform beneath our feet so that we might have a place of habitation upon which to work out our individual and collective destinies.

This persistent use of the Violet Fire which we have called forth above shall redeem Your and our sweet Earth, making It Freedom's Star - dazzling as the noon-day Sun, in the full perfection in which it was created by the Seven Mighty Elohim, Whom We also love, bless and thank for Their great service to us all.

We consciously accept this done RIGHT NOW with FULL POWER. (3) eternally sustained, all powerfully active and world engulfing until all are wholly ascended and free! Beloved "I AM"
