PREFACE.

DR. J. MARMADUKE ROSE, who is the founder of a new system of treatment, which he has designated "Panopathy," has discovered several methods of treating successfully the different diseases which afflict the human system. He was led to these discoveries by the unsatisfactory state of medical science, both when lecturing to the medical students, and in hospital and private practice. According to the old system there was so much uncertainty, and, as a rule, in some of the chronic and more severe diseases, such as cancer and other tumors, bleeding from the lungs, asthma, consumption, gangrene, hydatids, fatty, weak and irregular hearts, gout, rheumatics, sciatica, diabetes, liver and stomach troubles, acute croup, diphtheria, and many nerve and skin diseases, apparently no certain cure, but frequently either lingering misery or death; that to visit such cases was a source of torture to any sensitive medical man.

To see the strong and beautiful child cut off in a few hours, and to be almost helpless to save, was terrible. Not only so, but questions being continually asked by the inquiring students, of whom he taught over a thousand, still more revealed how widely defective was the old system of treatment, and, in many instances, how irrational and injurious.

PREFACE.

Numbers of cases that were operated on under the old system may be, and are cured under the new without operation.

Cases which, under the old system, resulted in a long illness, are now speedily cured, instead of leaving the system weak and life but a misery.

Of course, there are some cases so destroyed by irrational drugging, long neglect, and absolute destruction of organs, that they can only be relieved.

Diseases of children are treated quite differently to the old system, and diseases of women, a frequent source of misery and premature age, are cured without much expense.

The secret diseases of young men are especially a prolific source of income to designing practitioners, frequently ruining them in body and mind; these are rapidly cured by the new system.

This little pamphlet is printed in response to numerous requests from grateful patients who have been cured, and who are anxious to encourage and benefit their fellow sufferers.

TESTIMONIALS.

I.

From JAMES SPENCE, Esq., F.R.C.S.E., F.R.S.E., *Surgeon-in-Ordinary to Her Majesty the Queen for Scotland; Professor of Surgery, Edinburgh University; Senior Surgeon, Edinburgh Royal Infirmary; Consulting Surgeon to Royal Dispensary, Royal Hospital for Sick Children, Leith Hospital, and Edinburgh Dental Dispensary, &c.*

UNIVERSITY OF EDINBURGH,
8th March, 1881.

I have very great pleasure in bearing my testimony in favour of Mr. MARMADUKE ROSE, M.B. and C.M. Edin.

Mr. ROSE was a most diligent student of his profession, and a most successful one. He long acted as Demonstrator of Anatomy to my late friend, Dr. Handyside, who, I know, held him in great esteem. He was a pupil of my surgical classes, and subsequently acted as my Assistant in the class of Operative Surgery, and also assisted in teaching the Bandaging Class. From what I saw of Mr. ROSE's work, and the thorough knowledge he possessed of surgery, he was, on my recommendation, appointed as Resident Surgeon to my wards in the Royal Infirmary, and discharged the important duties of that office to my most entire satisfaction, until recently, when the state of his health laid him aside. I have thus had many opportunities of judging of Mr. ROSE's abilities and attainments, and I have a very high opinion of both. Whilst, as regards his earnestness in his work, and his general bearing, the more I have seen of him the more he has gained my esteem and confidence, and I feel satisfied, that, in whatever position he may be placed, he will gain the esteem of all with whom he is connected.

JAMES SPENCE, F.R.S.E., F.R.C.S.E.,

*Surgeon-in-Ordinary to the Queen in Scotland;
Professor of Surgery, Edinburgh University;
Senior Surgeon, Edinburgh Royal Infirmary, &c., &c*

II.

From DOUGLAS MACLAGAN, Esq., M.D., F.R.C.P.E., Professor of Medical Jurisprudence and Clinical Medicine, University of Edinburgh; Physician to Royal Infirmary; Surgeon-General, Queen's Body Guard for Scotland, &c.

UNIVERSITY OF EDINBURGH,
8th March, 1881.

I have very great pleasure in bearing testimony to the high professional acquirements of Mr. J. MARMADUKE ROSE, M.B. and C.M. of this University.

Mr. ROSE is known to me as having been a most diligent and earnest student in my class of Medical Jurisprudence and Public Health, as well as in the class of Clinical Medicine, and indeed, I may add, in all his other classes, as was manifested by the appearances which he made at his examinations, which resulted in his taking his degree with honours.

Mr. ROSE has enjoyed, and duly availed himself of, the ample opportunities which his Medical School affords of adding practical knowledge to his large scientific attainments. From my knowledge of him I am enabled to state my conviction that wherever he may enter on the work of his profession he will show himself to be an erudite and efficient medical man.

DOUGLAS MACLAGAN.

III.

From ALEX. CRUM BROWN, Esq., M.D., F.R.C.P.E., F.R.S.E.,
F.R.S.L., *Professor of Chemistry, Edinburgh University, &c.*

UNIVERSITY OF EDINBURGH,
18th March, 1881.

I have known Mr. J. MARMADUKE ROSE since 1876, when he was a student in my class of Chemistry. He was a very diligent and successful student, obtaining very high marks in the written examinations, and, in conversation on scientific subjects, showing an unusual penetration and real understanding of the subject. From the reports of his examinations in other classes, and also of the degree examinations, as well as from what I have heard from my colleagues, I know that he was equally successful in acquiring a sound and thoroughly scientific knowledge of the other branches of a medical education. He graduated with honours, as Bachelor of Medicine and Master of Surgery, last year. From all that I have seen of Mr. ROSE, I have formed a very high opinion of his character, of his ability, of his attainments, and of fitness to occupy a high place in his profession.

ALEX. CRUM BROWN,
Professor of Chemistry.

IV.

*From WILLIAM TURNER, Esq., M.B. London, F.R.C.S.E.,
M.R.C.S.E., F.R.S. Edin., F.R.S. Eng., Professor of Anatomy,
Edinburgh University and Royal Scottish Academy; late Dean
of the Medical Faculty, Edinburgh University; Examiner in
Anatomy, London University; and Lecturer on Anatomy and
Physiology, Royal College of Surgeons, England.*

UNIVERSITY OF EDINBURGH.

19th March, 1881.

The Rev. J. MARMADUKE ROSE, M.B. and C.M., was a member of my class during the winter session 1875-76. I have reason to think highly of his abilities and power of work. He has enjoyed excellent opportunities of becoming acquainted with his profession of medicine, in both its scientific and practical aspects, and I believe him to be well qualified to discharge the duties of a medical or surgical appointment.

WM. TURNER, M.B., F.R.S.,

Professor of Anatomy.

V.

*From ALEX. R. SIMPSON, Esq., M.D., F.R.C.P.E., F.R.S.E.,
Professor of Midwifery and Diseases of Women and Children,
Edinburgh University; Physician, Royal Infirmary, and
Royal Maternity, and Simpson Memorial Hospitals, &c.*

52 QUEEN STREET,
EDINBURGH, 24th February, 1881.

I have great pleasure in testifying to the eminent ability displayed by the Rev. MARMADUKE ROSE, M.B., as a student of medicine in the University of Edinburgh. He was one of the most intelligent and industrious students in my own department, and worked with much zeal and success alike in the Systematic and Practical Classes and in the Maternity and Infirmary Wards.

In other departments he must have studied with equal devotion, for at his graduation examinations he stood among the most distinguished men of his year.

I ought to add that his attractive personal character won him here many friends, and that his influence among his fellow-students was in every way healthful.

ALEX. R. SIMPSON.

VI.

*From T. GRAINGER STEWART, Esq., M.D., F.R.C.P.E., F.R.S.E.,
Professor of Practice of Physic, Edinburgh University;
Physician to Royal Infirmary, &c.*

UNIVERSITY OF EDINBURGH,
25th February, 1881.

I have much pleasure in certifying that Mr. MARMADUKE ROSE, M.B. and C.M., is well known to me; that he is one of the most distinguished of the recent graduates of this University, and was, throughout his whole course of study, among the most diligent and able of the students; that he has, since his graduation, acted as House Surgeon in the Royal Infirmary; and, before that time, as Demonstrator of Anatomy at the Surgeons' Hall. His character, ability, and attainments alike satisfy me that, wherever he may ultimately settle, he will take a foremost place in the profession.

T. GRAINGER STEWART, M.D.,
Professor of the Practice of Physic.

VII.

From THOMAS ANNANDALE, Esq., F.R.C.S.E., M.R.C.S. Eng.,
F.R.S.E.; *Regius Professor of Clinical Surgery, Edinburgh*
University; Surgeon, Edinburgh Royal Infirmary.

34 CHARLOTTE SQUARE,
EDINBURGH, 28th February, 1881.

Mr. MARMADUKE ROSE, M.B., is known to me as a most earnest and successful student, and distinguished graduate of this University. Having had constant opportunities of observing his work and progress, I testify with the greatest confidence to his abilities and excellent practical knowledge of his profession. I consider him to be a well-educated and highly-qualified practitioner of medicine.

THOMAS ANNANDALE.

VIII.

From THOMAS RICHARD FRASER, Esq., M.D., F.R.C.P.E.,
F.R.S.L. et E., *Dean of the Medical Faculty, and Professor of
Materia Medica and Clinical Medicine, Edinburgh University;
Corresponding Member, Therapeutic Society, Paris; Cor-
responding Member, Acad. Nat. Soc., Philadelphia; Examiner
on Public Health, University of London.*

UNIVERSITY OF EDINBURGH,
12th March, 1881.

While the Rev. J. MARMADUKE ROSE, M.B. and C.M., studied medicine in Edinburgh, I had ample opportunity to observe his great industry and to form a high opinion of his ability.

He was a distinguished student, and graduated with honours. His excellent qualifications led to his being appointed Demonstrator of Anatomy to the late Dr. Handyside, and Resident Surgeon in the wards of Professor Spence, in the Royal Infirmary.

I have the greatest pleasure in stating that he is thoroughly qualified to undertake the duties of a medical practitioner, and that I believe that his personal characteristics will gain for him the cordial esteem of everyone with whom he may be brought into contact.

THOMAS R. FRASER, M.D., F.R.S., F.R.C.P.E.

*Professor of Materia Medica and of Clinical
Medicine, and Dean of the Medical Faculty,
in the University of Edinburgh.*

IX.

From DAVID JAMES HAMILTON, Esq., M.B., L.R.C.P.E.,
F.R.C.S.E. ; *Acting Professor of Pathology, Edinburgh*
University; Pathologist, Royal Infirmary, Edinburgh, &c.

13 GRANVILLE TERRACE, MERCHISTON,
EDINBURGH, 16th March, 1881.

It gives me much pleasure to testify that Dr. MARMADUKE ROSE has been, throughout his student career in Edinburgh, a most distinguished alumnus of our University.

Since graduating, he has had exceptional opportunities of being initiated into the practice of his profession by holding the distinguished position of House Surgeon to Professor Spence, in the Edinburgh Royal Infirmary.

Having also been Demonstrator of Anatomy with Dr. Handyside in the College of Surgeons, he has thereby laid a sound foundation for future achievements in medicine and surgery, and would be well qualified to teach to others what he so well taught to students of this school.

D. J. HAMILTON, M.B., F.R.C.S.E., L.R.C.P.E.,
Demonstrator of Pathology, Edinburgh University;
Pathologist to the Edinburgh Royal Infirmary;
and at present
Lecturer on Pathology, Edinburgh University.

X.

From PATRICK HERON WATSON, Esq., M.D., F.R.C.S.E., F.R.S.E.,
Ex-President of Royal College of Surgeons, Edinburgh; Lecturer
on Systematic Surgery, and Examiner, Royal College of
Surgeons, Edinburgh; and Examiner in Surgery in University
of St. Andrews, and Royal College of Physicians, Edinburgh;
Surgeon, Royal Infirmary, Chalmers Hospital, Eye Infirmary,
&c.

16 CHARLOTTE SQUARE,
 EDINBURGH.

I know Dr. MARMADUKE ROSE to be a most highly-educated practitioner, who has enjoyed opportunities of a most unusual kind in perfecting himself in everything best calculated to form a reliable surgeon.

He occupied, in the School of Medicine connected with the College of Surgeons of Edinburgh, the important and responsible post of Demonstrator of Anatomy; and, under the superintendence of Dr. Handyside, taught anatomy with success and ability.

Dr. ROSE has more recently been the Resident Surgeon in the Royal Infirmary, under Professor Spence, and has thus become familiar with the care of a large number of surgical cases of the most varied and interesting nature.

He has thus matured his knowledge and judgment, and, at a comparatively early age, become familiar with everything in connection with surgery calculated to make him a most trustworthy practitioner and a reliable teacher of his art.

I may, perhaps, further be permitted to say that Dr. ROSE possesses in himself those qualities of a personal kind which will secure for him confidence and esteem wherever he may settle in professional life.

PATRICK HERON WATSON.

XI.

*From P. D. HANDYSIDE, Esq., M.D., F.R.C.S.E., F.R.S.E.,
Lecturer on Anatomy, and Examiner R.C.S.E.; late Senior
Surgeon, Royal Infirmary; and Senior President, Royal
Medical Society, &c.*

EDINBURGH SCHOOL OF MEDICINE,
29th November, 1880.

Mr. J. MARMADUKE ROSE, M.B., C.M., while a student of medicine, pursued his studies in Anatomy under my superintendence. He acted subsequently as Demonstrator in my rooms for a period upwards of two years, during the latter of which he delivered, in my stead, seventeen lectures on Systematic Anatomy.

I entertain a high opinion of Mr. ROSE's abilities, and of his distinguished success as a teacher. His marked general accomplishments, his gentlemanly demeanour, and invariable maintenance of the loftiest standard of moral conduct, single out Mr. ROSE, in my opinion, for a very honourable career as a professional brother.

P. D. HANDYSIDE, M.D., &c.

XII.

From ALEXANDER KEILLER, Esq., M.D., F.R.C.P.E., F.R.S.E.,
 &c., *Ex-President of Royal College of Physicians, England;*
Fellow Obstetric Society, Edinburgh; Honorable Fellow,
Obstetric Society, London; Consulting Physician for Diseases
of Women, Royal Infirmary, Edinburgh; Consulting Obstetric
Physician, Royal Dispensary; Examiner in Midwifery, Edin-
burgh University; Physician, Royal Maternity Hospital;
Lecturer on Midwifery and Diseases of Women and Children,
Surgeon's Hall, Edinburgh, &c.

21 QUEEN STREET,
 EDINBURGH, 22nd March, 1881.

Having enjoyed ample opportunity of estimating the qualifications of Dr. MARMADUKE ROSE, it affords me great pleasure to state that I have been led to entertain the highest opinion of his character and professional acquirements. Dr. ROSE was first known to me when acting as the Demonstrator of Anatomy to my colleague, the late Dr. Handyside, at the Medical School, Surgeons' Hall, where Dr. ROSE was much esteemed. Subsequently, as one of his examiners at the University, where he passed with distinction and graduated with honours, I had occasion to observe his successful merits, and, during his valuable hospital experience, I know, from my friend Professor Spence, that his duties as House Surgeon were admirably performed.

From his wisely considered and thoroughly practical training, I believe Dr. ROSE unusually well qualified to practice his profession, and feel assured that he will at all times be found to discharge ably and faithfully every duty he may be induced to undertake.

ALEX. KEILLER, M.D., F.R.S.E.,
Ex-President R.C.P.E.

XIII.

From JOSEPH BELL, Esq., M.D., F.R.C.S.E., F.R.S.E., *Lecturer on Clinical Surgery, and Examiner, R.C.S.E.; Secretary and Treasurer, R.C.S.E.; Late President of the Royal Medical and Medical Chir. Societies, Edinburgh; Surgeon to the Royal Infirmary, Edinburgh, and to the Edinburgh Eye Infirmary, &c.*

20 MELVILLE STREET,

EDINBURGH, 24th February, 1881.

Mr. MARMADUKE ROSE is well known to me, not only as a most diligent student, dresser, and clerk, but also as a skilled and enthusiastic teacher of anatomy, a most efficient, hardworking, and zealous house surgeon, and a most competent and valuable assistant at operations. I have seen much of his work is nearly all the above capacities; and know him also to be a gentleman of unblemished character and conduct, well fitted for the practice of his profession in any sphere.

JOSEPH BELL.

XIV.

From JOHN DUNCAN, Esq., M.A., M.D., F.R.C.S.E., F.R.S.E.,
Lecturer on Surgery, and Examiner R.C.S.E.; Surgeon to
the Edinburgh Royal Infirmary; late President of Royal
Medical Society, &c.

8 AINSLIE PLACE,

2nd March, 1881.

I have much pleasure in stating that Dr. ROSE has been known to me for some time as a distinguished student of this school. He has graduated with honours, and has discharged with ability and success the duties of Demonstrator of Anatomy and of Resident Surgeon in the Infirmary. I believe him to be well qualified for his work in the profession.

JOHN DUNCAN, M.A., F.R.C.S.E., &c.,
Surgeon to the Royal Infirmary,
Lecturer on Surgery.

XV.

*From JOHN CHIENE, Esq., M.D., F.R.C.S.E., F.R.S.E., Lecturer
on Surgery, Edinburgh School of Medicine; Surgeon, Royal
Infirmary, Edinburgh; Examiner, University of Edinburgh;
Surgeon, Edinburgh Ear Dispensary, &c.*

21 AINSLIE PLACE, EDINBURGH.

2nd March, 1881.

DEAR MR. ROSE,—From personal knowledge of the training you have had, both as Demonstrator in the late Dr. Handyside's rooms, and as House Surgeon in Professor Spence's wards, I feel confidence in stating that you have availed yourself of these excellent opportunities, and have gained such a knowledge of anatomy and practical surgery that will best fit you for surgical practice.

I most heartily wish you success in your profession. You deserve to succeed.—Yours truly,

JOHN CHIENE.

XVI.

From ARGYLL ROBERTSON, Esq., M.D., F.R.C.S.E., F.R.S.E.,
Ophthalmic Surgeon, Edinburgh Royal Infirmary, and to
Royal Hospital for Sick Children; Examiner R.C.S.E.;
Lecturer on Eye Diseases to the Edinburgh Medical School;
Surgeon to the Edinburgh Blind Asylum, and Edinburgh Eye
Dispensary, &c.

18 CHARLOTTE SQUARE, EDINBURGH.

12th March, 1881.

I have much pleasure in expressing the high opinion I entertain of the professional qualifications of Mr. MARMADUKE ROSE, M.B., C.M.

He availed himself, during his career as a student here, of the opportunities of practical instruction, and manifested much interest in the study of eye diseases. As Demonstrator of Anatomy, he has shown himself proficient in that important groundwork of surgery, and recently, as a Resident Surgeon in the Royal Infirmary, has had most excellent practical training in the treatment of surgical affections.

Having graduated with honours, he takes a high position among the students of his year.

I have every confidence in recommending Mr. ROSE as entitled to the trust of his patients, and the respect of his professional brethren, wherever he may settle in practice.

D. ARGYLL ROBERTSON.

XVII.

From JOHN WYLLIE, Esq., M.D., F.R.C.P.E., M.R.C.S. Eng.,
Secretary to the Royal College of Physicians, Edinburgh;
Lecturer on Practice of Medicine, School of Medicine, Edinburgh;
Assistant Physician, Royal Infirmary, Edinburgh,
&c.

9 HOWE STREET,
 EDINBURGH, 11th March, 1881.

I have much pleasure in stating that I have known Dr. MARMADUKE ROSE for some years. He was formerly Demonstrator of Anatomy in the Medical School, under Dr. Handyside; and he has, during the last six months, been House Surgeon in the Royal Infirmary, under Professor Spence. The very fact of his having held these two appointments, implies that Dr. ROSE possesses an exceptionally accurate knowledge of anatomy, and has received an exceptionally good training in practical surgery. From all that I have seen and heard of Dr. ROSE, I understand that he has discharged his duties in the Medical School and Infirmary in a most creditable manner. He has the reputation of being a man of ability; and, I think, there is every promise that he has before him a successful and useful career, whatever department of the profession he may devote himself to.

JOHN WYLLIE, M.D., F.R.C.P.E.,
Senior Assistant Physician to the Royal Infirmary;
Lecturer on the Practice of Medicine in the Extra-
Mural School, &c.

XVIII.

From STEVENSON MACADAM, Esq., Ph.D., F.R.S.E., Lecturer on Chemistry; Secretary to the School of Medicine; Analytical Chemist, Examiner, and Secretary to the Royal College of Surgeons, Edinburgh, &c.

SCHOOL OF MEDICINE,
EDINBURGH, 26th February, 1881.

I have much pleasure in certifying that Dr. MARMADUKE ROSE is personally known to me as a successful student of medicine, and one who has devoted much special attention to the important departments of Anatomy and Surgery. For two years he acted as Demonstrator of Anatomy at the School of Medicine, Surgeons' Hall, under my colleague, the late Dr. P. D. Handyside; and I know that he was highly esteemed by Dr. Handyside and respected by all the students. I have no doubt he will continue to devote himself to the science of medicine, and that he will prove himself an able and successful medical practitioner or professor of medicine and surgery.

STEVENSON MACADAM, Ph.D., F.R.S.E., &c.,
*Lecturer on Chemistry, and Secretary to the
School of Medicine.*

XIX.

*From J. SYMINGTON, Esq., M.B., C.M., F.R.C.S.E., Lecturer on
Anatomy, School of Medicine, Edinburgh, &c.*

It has been my privilege to know Dr. MARMADUKE ROSE as a student, Demonstrator of Anatomy, and House Surgeon. In all of these capacities he distinguished himself by his unflagging industry and great natural abilities. While a student, Dr. ROSE was extensively engaged in teaching, and yet, in spite of these interruptions to his regular studies, he graduated with honours in the Edinburgh University.

His thorough honesty of purpose, agreeable manners, and gentlemanly conduct made him a universal favourite with his fellow-students, pupils and colleagues.

J. SYMINGTON, M.B., F.R.C.S.E.,
Lecturer on Anatomy, School of Medicine, Edinburgh.

XX.

*From FRANCIS WALTER MOINET, Esq., M.D., F.R.C.P.E.,
F.R.S.E., Lecturer on Materia Medica and Therapeutics,
Surgeons' Hall, Edinburgh; Physician, Royal Dispensary, &c.*

13 ALVA STREET,
EDINBURGH, 28th February, 1881.

Dr. ROSE has distinguished himself both as a student and graduate of our University, and has enjoyed unusual opportunities of acquiring a thorough knowledge of his profession. As a Demonstrator of Anatomy to the late Dr. Handyside, his services were much appreciated by the students. His skill in teaching, and his power of imparting knowledge to his students, rendering him a valuable assistant to Dr. Handyside. Since then, as House Surgeon to Professor Spence, he has had great scope for acquiring practical knowledge, and is thus well equipped to practise his profession with credit to himself and to the profession of which he is a member.

FRANCIS W. MOINET, M.D.,
*Lecturer on Materia Medica, Surgeons' Hall,
Edinburgh,*

XXI.

*From A. G. MILLER, Esq., M.D., F.R.C.S.E., Lecturer on
Surgery; and Senior Assistant-Surgeon, Edinburgh Royal
Infirmary, &c.*

11 WALKER STREET,
EDINBURGH, 26th February, 1881.

I have much pleasure in testifying to the eminent professional qualifications and attainments of Mr. J. MARMADUKE ROSE. He has been Demonstrator of Anatomy at the Royal College of Surgeons; and, more recently, has held the important post of Resident Surgeon to Professor Spence, in the Royal Infirmary. These appointments have given Mr. ROSE exceptional opportunities for acquiring a thorough and practical knowledge of surgery.

Mr. ROSE is known to me as a gentleman of high Christian character, and as one who exerts a great influence for good wherever he is; and I am certain that, in any position to which he may be appointed, he will discharge the duties of the office most efficiently and conscientiously.

A. G. MILLER, M.D., F.R.C.S.E.,
Senior Assistant Surgeon, Royal Infirmary, Edinburgh.

XXII.

From ALEXANDER JAMES, Esq., M.D., F.R.C.P.E., *Lecturer on Institutes of Medicine; and Clinical Medical Tutor, Edinburgh School of Medicine, &c.*

11 ALBYN PLACE,

EDINBURGH, 26th February, 1881.

I have much pleasure in stating that I knew Dr. MARMADUKE ROSE intimately during the period in which he was engaged in the study of medicine in Edinburgh, and that I have formed the very highest opinion alike of his character and professional qualifications. After a diligent student career, he graduated with honours; and, as Demonstrator of Anatomy in the Edinburgh Medical School, and as House Surgeon in the Royal Infirmary, he has gained the respect and regard of all with whom he has come in contact. I can conscientiously recommend him for any duty which he may desire to undertake.

ALEXANDER JAMES.

XXIII.

From J. MURDOCH BROWN, Esq., M.B., C.M., F.R.C.P.E.,
Clinical Medicine Tutor, University of Edinburgh, &c.

2 COATES PLACE,

EDINBURGH, 5th March, 1881.

DEAR DR. ROSE,—It gives me much pleasure to express the high opinion I hold of your professional qualifications and personal worth. It is more than two years since we came into intimate contact at the bedside; and, since then, I have had many opportunities of observing how earnestly you pursued your studies, and how carefully you discharged your duties. Your appointment as Demonstrator of Anatomy in the College of Surgeons, and as Resident Surgeon in the Royal Infirmary, show how you have been appreciated by your teachers. I am certain that wherever you may practise your profession, your patients will always look with confidence to your treatment, and your neighbours with satisfaction to your presence.

I am, yours sincerely,

J. MURDOCH BROWN, M.B., F.R.C.P.E.,

*Clinical Medicine Tutor,
 University of Edinburgh, &c.*

MARMADUKE ROSE, Esq.,
Royal Infirmary.

XXIV.

From DAVID BERRY HART, Esq., M.D., F.R.C.P.E, *Assistant to the Professor of Midwifery, University of Edinburgh; Syme Surgical Fellow; Secretary to the Edinburgh Obstetric Society; late President, Royal Medical Society, Edinburgh, &c.*

65 FREDERICK STREET,

EDINBURGH, 25th February, 1881.

Mr. J. MARMADUKE ROSE, M.B., C.M., is known to me personally as a graduate in medicine of the University of Edinburgh, with abilities of the highest order. Dr. ROSE was not only a brilliant student, but also a highly acceptable anatomical demonstrator. He has thus laid well the best foundation for future success any medical man can. In the department of Midwifery and Diseases of Women his knowledge is thorough and accurate, and not merely theoretical, but practical as well.

I feel confident, therefore, that Dr. ROSE's accurate and extensive knowledge of his profession, great ability as a teacher, and high moral character, will give him a position in the first rank of medical men.

DAVID HART, M.D., F.R.C.P.E.,
Assistant to the Professor of Midwifery, University of Edinburgh;
Secretary to the Edinburgh Obstetric Society, &c.

XXV.

*From J. M. COTTERILL, Esq., M.B., F.R.C.S.E., Clinical Tutor
of Surgery in the University of Edinburgh.*

24 MELVILLE STREET,
EDINBURGH, 1st March, 1881.

It gives me very great pleasure to express the very high opinion I possess of the character and professional abilities of Dr. MARMADUKE ROSE.

During his years of study at Edinburgh University he was well known to me as a conscientious and earnest worker, and the high position he attained in his professional examinations attests to the thoroughness and success of his method of study.

But it is in connection with the most practical part of his work that I am able to speak most highly, as Dr. ROSE not only was a regular and hard-working member of my tutorial classes in the Royal Infirmary, but also was one of my students at the Royal Dispensary, where I had ample opportunities of judging of his capabilities. I can truly say that I have never had so satisfactory a worker with me. With a thorough theoretical knowledge of medicine and surgery, he combined a power of practical application, a regularity and interest in his work, a sympathy with his patients, which it is seldom one's privilege to experience. I am convinced that he will do honour to himself, and give satisfaction to those around him, in any position to which he may be called.

J. M. COTTERILL, M.B., F.R.C.S.E.,
Clinical Tutor of Surgery in the Edinburgh University.

XXVI.

From JOHN BISHOP, Esq., M.D., F.R.C.S.E., *Assistant Surgeon,*
Royal Infirmary, &c.

12 WALKER STREET,
EDINBURGH, 28th February, 1881.

I testify with pleasure to the zeal, intelligence, and remarkable kindness with which Mr. MARMADUKE ROSE discharged his duties as clerk and dresser in the Royal Infirmary.

I believe that he will discharge, with conscientious care, any duties which he may undertake; and that he will secure the affection of his patients and the esteem of his professional brethren.

JOHN BISHOP.

XXVII.

From PETER HUME MACLAREN, Esq., M.D., F.R.C.S. Edin. et
Lond., *Surgeon, Convalescent Hospital; Assistant Surgeon,*
Royal Infirmary, Edinburgh.

I DRUMSHEUGH GARDENS,
EDINBURGH, 12th March, 1881.

During the autumn of 1880, when I had charge of Professor Spence's wards in the Royal Infirmary, Dr. M. ROSE became House Surgeon, and I can conscientiously say that I never saw the duties of that office discharged with more intelligence, zeal, and tact in all its varied relations to patients, students, and nurses.

His high professional attainments, matured judgment, and courteous demeanour, made a most favourable impression on all with whom he came in contact, and will, I am sure, in any position Dr. ROSE may hereafter occupy, ensure his unqualified success.

P. H. MACLAREN, M.D., F.R.C.S.E.,
Assistant Surgeon, Edinburgh Royal Infirmary.

XXVIII.

*From WILLIAM TAYLOR, Esq., M.D., Senior Assistant to Professor
of Surgery, Edinburgh University; Fellow of Obstetric Society,
&c.*

67 YORK PLACE,

EDINBURGH, 28th February, 1881.

During the past few years I have had every opportunity of observing the career of Mr. MARMADUKE ROSE, and I have been led to form a very high opinion of him.

He is possessed of great energy, perseverance, and ability, which, guided in a right direction, have placed him high in the honour list of his University, and superior to most of his compeers, as regards practical knowledge and grasp of his profession in its various departments.

He has met with great acceptance as a demonstrator and lecturer.

It is impossible to associate with Dr. ROSE without feeling that he is imbued with the highest spirit of his calling, and that his life, apart from this, is formed upon a high ideal.

WILLIAM TAYLOR, M.D.,
*Senior Assistant to the Professor of Surgery,
Edinburgh University.*

XXIX.

From DANIEL JOHN CUNNINGHAM, Esq., M.D., F.R.S.E., &c. ;
Senior Demonstrator of Anatomy, Edinburgh University ;
Professor of Physiology, Royal Veterinary College, Edinburgh.

UNIVERSITY OF EDINBURGH,

8th March, 1881.

It gives me much pleasure to add my testimony to the high professional attainments of Dr. M. ROSE. I have known him intimately for several years, and have noticed the thorough manner in which he pursued his studies. The success which has attended his efforts in this direction is proved by the fact that, when he graduated, he obtained a place in the honours list.

For some time Dr. ROSE acted as Demonstrator of Anatomy at the Royal College of Surgeons, and, more recently, he has held the post of House Surgeon in Professor Spence's wards of the Royal Infirmary. He has, therefore, enjoyed exceptionally good opportunities for perfecting himself in these very important branches of his profession. His knowledge of Anatomy I know to be both wide and accurate.

D. J. CUNNINGHAM.

XXX.

From JOHN B. HAYCRAFT, Esq., M.B., B.Sc., F.R.S.E., &c.,
Senior Demonstrator of Physiology, University of Edinburgh,
&c.

PHYSIOLOGICAL LABORATORY,
(UNIV., EDIN.)
March, 1881.

I have known Dr. ROSE for some time, and it is with great pleasure that I bear testimony to his scientific attainments, and to his unfailing courtesy of manner. He is known as a distinguished student of medicine, having graduated with high honours, which is the privilege of but few in this University. I have not myself heard Dr. ROSE lecture on Anatomy, but report speaks most favourably of both his lectures and demonstrations. He is a clear and precise speaker, and has, what is all-important, energy and enthusiasm. With these qualities, he will, I am sure, take a high position in any school of medicine to which he may attach himself.

JOHN BERRY HAYCRAFT, M.B., B.Sc., F.R.S.E.,
Sen. Dem. Phys., Univ., Edin.

XXXI.

From JAMES ALLAN GRAY, Esq., M.A., M.D., M.R.C.P.E.,
Assistant to Professor of Medical Jurisprudence, Edin.; Surgeon
to Leith Hospital, &c.

32 MADEIRA STREET,
LEITH, 10th March, 1881.

It gives me very great pleasure to express the high opinion I entertain of the personal character and professional attainments of Mr. MARMADUKE ROSE, M.B. and C.M.

Mr. ROSE brought with him, to the study of medicine, a mind matured by experience, and cultured by a prolonged course of previous professional training. He applied himself with diligence to the task he had thus set himself to perform, and the success which has rewarded his efforts has already shown itself in his obtaining honours at the examination for his degree at Edinburgh University in August last, and in his being selected, by Professor Spence, as the Resident Surgeon to the chair of Surgery Wards in the Royal Infirmary, Edinburgh.

Mr. ROSE has been known to me personally during the greater part of his medical curriculum, more especially during the time he was a student in the class of Medical Jurisprudence at Edinburgh University, and again while he acted as Demonstrator of Anatomy at the Royal College of Surgeons, Edinburgh. My more intimate acquaintance with Mr. ROSE at these times has only confirmed the very favourable opinion I had otherwise formed of him.

Mr. ROSE is a gentleman of clear insight and broad views, an observant student, and an able teacher; possessed of a knowledge of the healing art in all its varied branches—theoretical and practical; and being thus fully qualified for the work of his profession, whether in hospital or private practice, Mr. ROSE will be found a thoroughly competent and trustworthy medical man, and a valuable addition to the medical staff of any institution.

J. ALLAN GRAY, M.A., M.D., M.R.C.P.E.

XXXII.

*From R. J. BLAIR CUNYNGHAME, Esq., M.D., F.R.C.S.E.,
F.R.S.E., Examiner, Royal College of Surgeons, Edinburgh;
Physician to Royal Hospital for Sick Children; Surgeon, Ear
Dispensary, &c.*

6 WALKER STREET,
2nd March, 1881.

Mr. MARMADUKE ROSE, M.B., C.M., is well known to me. While he was a student I first became acquainted with him, and was soon struck by his energy, assiduity, and studious habits. To such an extent did he carry his desire of work that at last, for the sake of his health, I had to curtail his hours of study.

Mr. ROSE graduated with honours, and has filled several of the best appointments held by our young graduates.

For over two years he acted as Demonstrator to Dr. Handyside, Extra Academical Lecturer on Anatomy, and so perfected himself in this study, paving the way in the best manner possible, for perhaps the more professional subject of Surgery. This branch he has also fortunately been able to cultivate to a greater extent than falls to the good lot of most young practitioners, by being appointed House Surgeon to Professor Spence, in our great Infirmary, which post he at present fills.

In my opinion, Mr. ROSE leaves this with his mind professionally well equipped and well able to practise his profession to the advantage of those who may place themselves under his care.

R. J. BLAIR CUNYNGHAME, M.D.,
F.R.C.S.E., F.R.S.E.,
Physician, Royal Hospital for Sick Children, &c.

XXXIII.

*From WILLIAM HUSBAND, Esq., M.A., M.D., F.R.C.S.E.,
Physician, Royal Public Dispensary; Superintendent, Central
Vaccine Institution for Scotland.*

28 CLARENCE STREET,
EDINBURGH, 15th March, 1881.

The Rev. MARMADUKE ROSE attended my vaccination course at the Royal Dispensary, in the autumn of 1879.

He took a thorough interest in the work of the class, finding time, in the midst of the most important studies, to do it full justice. Mr. ROSE does not need any expression of opinion from me as to his qualifications for entering with acceptance and success on the active duties of his profession. He has the highest testimonials from others, who, knowing him better than I do, are more capable of judging; but I have much pleasure in having an opportunity of adding my cordial testimony in his favour.

WM. HUSBAND, M.D., F.R.C.S.E.

XXXIV.

*From JOHN LOWE, Esq., F.R.C.S.E., Superintendent, Edinburgh
Medical Missionary Society's Training Institution, &c.*

MISSION HOUSE, 56 GEORGE SQUARE,
25th February, 1881.

I have known Dr. MARMADUKE ROSE while he prosecuted his studies at this University, while Demonstrator of Anatomy in the Extra-mural Medical School, and as Resident Surgeon under Professor Spence, in the Edinburgh Royal Infirmary; and it gives me much pleasure to bear my testimony to his high moral character, his well-merited success, his ability and professional accomplishments, and to the high estimation in which he is held by all with whom he has been associated.

The students of our Society, who have from time to time been his pupils, have often expressed to me their indebtedness to him, and their appreciation of his clear and effective teaching.

Dr. ROSE carries with him the best wishes of many well-known practitioners in this city, and of all his former pupils.

JOHN LOWE, F.R.C.S.E.,
*Supt. Edinburgh Medical Missionary Society's
Training Institution.*

XXXV.

From CHARLES H. FASSON, Esq., *Deputy Surgeon-General;*
Superintendent, Royal Infirmary, Edinburgh.

ROYAL INFIRMARY,

EDINBURGH, 18th March, 1881.

The Rev. MARMADUKE ROSE, M.B. and C.M., held, for some months, the appointment of Resident Surgeon in the Royal Edinburgh Infirmary, and I have great pleasure in bearing testimony to the very able and efficient manner in which he conducted the administrative duties of that most responsible position.

With his high professional attainments, his kindness of disposition, his courteous and gentlemanly bearing, his solicitude and care for those committed to his charge, I know no one more eminently qualified to practise, with success and distinction, the profession he has adopted, than Dr. MARMADUKE ROSE.

C. H. FASSON,

Deputy Surgeon-General,
Superintendent R.E.I.

XXXVI.

*From T. M. BUTLER, Esq., M.R.C.S. Eng., Honorable Medical
Officer, Royal Surrey County Hospital, &c.*

GUILDFORD,

8th February, 1881.

I have *unusual* pleasure in adding my testimony to the very high abilities and professional attainments of Dr. MARMADUKE ROSE. He performed the duties of acting House Surgeon to the Royal Surrey County Hospital, for one month in last year, with great efficiency and zeal. He was *always* at work, and took the greatest interest in the cases—both medical and surgical. He was very shrewd in diagnosis, and practical in carrying out the treatment of disease, most kind to the patients, and courteous in his manners.

I wish him every success, and feel satisfied he will be much valued wherever his services are in request.

T. M. BUTLER,
*Senior Honorary Surgeon, Royal
Surrey County Hospital.*

XXXVII.

From CHARLES J. SELLS, Esq., L.R.C.P. Lond., M.R.C.S. Eng.,
Medical Officer, Royal Surrey County Hospital; Surgeon ;
Abbots Hospital, Guildford, &c.

GUILDFORD, 6th February, 1881.

I had the pleasure of making the acquaintance of Dr. MARMADUKE ROSE during the time he was filling the post of House Surgeon at the Royal Surrey County Hospital.

I formed a very high opinion of both his medical and surgical skill, and can recommend him most favourably to any public institution requiring the services of a gentleman accomplished in his profession, and most persevering in his duties to those under his charge.

CHARLES J. SELLS, L.R.C.P. Lond., M.R.C.S.,
Med. Officer, Royal Surrey County Hospital.

XXXVIII.

From HENRY S. TAYLOR, Esq., F.R.C.S. Eng., *Consulting Surgeon, Royal Surrey County Hospital, &c.*

GUILDFORD, 5th February, 1881.

From opportunities I have had of seeing Dr. MARMADUKE ROSE, while he was acting House Surgeon at the Surrey County Hospital, I have formed a very high opinion of his professional character, and I consider him well qualified for the post of Medical Officer.

HENRY S. TAYLOR, F.R.C.S.,
Consulting Surgeon, Royal Surrey County Hospital.

XXXIX.

From Rev. D. MACMILLAN, M.A., M.B., C.M., Edinburgh.

EDINBURGH, 12 CHALMERS CRESCENT,
12th March, 1881.

I have much pleasure in bearing testimony to the superior talents, indefatigable industry, and high moral worth of the Rev. J. MARMADUKE ROSE, M.B., C.M.

He distinguished himself highly in passing through his various medical classes in this city, and secured for himself the warm approbation of his instructors and fellow students.

His experience as Demonstrator of Anatomy for several years in the Royal College of Surgeons, under the late Dr. Handyside, and as Resident Surgeon in the Royal Infirmary, for a session, under Professor Spence, guarantee his thorough acquaintance with the department of Surgery; and I am aware that his knowledge of Medicine is equally sound.

Altogether, I have no hesitation in stating that, in my opinion, few leave our medical schools so well equipped for the general practice of the healing art as Dr. ROSE, and that he will prove a valuable member of society wherever his lot may be cast.

His accurate acquaintance with the several subjects embraced in a course of Surgery and Medicine, and his aptitude to communicate knowledge, suggest him as a fit person to occupy a chair in one of our colonial medical colleges. The propriety of this suggestion is attested by the fact that hundreds of students in Medicine and Surgery who obtained diplomas—some at our Scottish Universities, and some at the University of London—acknowledge their deep obligation to Dr. ROSE for valuable assistance given by him, as their private tutor, in the prosecution of their professional studies.

Dr. ROSE leaves this country with the highest esteem and best wishes of all who have had the pleasure of his acquaintance.

D. MACMILLAN, M.A., M.B., C.M.

XL.

From JOHN SMITH, Esq., M.D., F.R.C.S.E., F.R.S.E., *Surgeon-Dentist to the Queen in Scotland; Examiner, Royal College of Surgeons, Edinburgh; Dental Surgeon, Royal Infirmary, &c.*

11 WEMYSS PLACE, EDINBURGH,
28th February, 1881.

MARMADUKE ROSE, Esq.

MY DEAR SIR,—I have great pleasure in adding my testimony to your abilities and acquirements, both as a practitioner and teacher of Medicine and Surgery.

I can do so from ascertaining, in the course of examinations, the knowledge you have imparted, under peculiarly difficult circumstances, to some of those candidates admitted *sine curriculo* to the dental examination of the Royal College of Surgeons of Edinburgh, and who acquitted themselves in the general subjects of that examination—altogether apart from special ones—with much credit.

I am also aware of the experience you have enjoyed during the responsible positions held by you in the Royal Infirmary here, of which others, however, will be able to speak with more precision and greater influence than I can, and wishing you every success. I am, yours very truly,

J. SMITH, M.D., F.R.C.S. Ed.

XLI.

*From WILLIAM BOWMAN MACLEOD, Esq., L.D.S.R.C.S.E.,
Dean of the Dental Faculty, and Lecturer on Mechanical
Dentistry, and Surgeon-Dentist to Edinburgh Dental Hospital
and School.*

"VERONA," 43 GEORGE SQUARE,

EDINBURGH, 11th August, 1880.

Having been under the tuition of the Rev. J. MARMADUKE ROSE, M.B., for a period of three months, as well as having the pleasure of his acquaintance for a much longer period, I have had many opportunities of estimating his private character and professional abilities; I have, therefore, great pleasure in bearing testimony to his promptitude in fulfilling business obligations, his thoroughness in knowledge acquirement, and his aptitude in application thereof—qualities which eminently fit him for professional practice.

W. BOWMAN MACLEOD, L.D.S. Ed.

XLII.

From ANDREW WILSON, Esq., L.D.S.R.C.S.E., *Lecturer on Dental Anatomy and Physiology, and Surgeon-Dentist to Edinburgh Dental Hospital and School; Examiner for Diploma of L.D.S.R.C.S.E.*

21 YOUNG STREET,
CHARLOTTE SQUARE,
EDINBURGH, 3rd August, 1880.

Rev. MARMADUKE ROSE,
M.B., C.M., Ed.

DEAR SIR,—Having had, while preparing, along with a few professional friends, for the medical portion of the L.D.S. examination of the Royal College of Surgeons, Edinburgh, the very great, I might almost say inestimable, advantage of doing so under your supervision, I gladly give my testimony, not only to the great extent of medical knowledge you always had at command, but also to the great power you had of impressing upon us the more important points in the several subjects included in that examination.

These, coupled with your uniformly courteous and thoroughly gentlemanly bearing, qualify you to fill, in a most creditable manner, any professional appointment, whether as medical officer or lecturer. With best wishes for your professional success, believe me, dear Sir, yours respectfully,

ANDREW WILSON, L.D.S. Ed.,
Lecturer on Dental Anatomy and Physiology.

XLIII.

From CHARLES MATTHEW, Esq., L.D.S.R.C.S.E., *Lecturer ;*
Surgeon-Dentist to Edinburgh Dental Hospital and School.

59 QUEEN STREET,
 EDINBURGH, August, 1880.

Having for some time been under the able tuition of Mr. ROSE, it affords me very much pleasure to state that I considered myself fortunate in being brought into contact with him. I formed the highest opinion of his acquaintance with those subjects, the knowledge of which is necessary to the physician and surgeon. His distinction as a student of Anatomy, Physiology, &c., along with the conscientiousness, amiability, and assiduity, which secured his success as a teacher of those subjects, mark him, I believe, as a man eminently calculated to fill, with credit, any post for which he is applying.

CHARLES MATTHEW, L.D.S. Ed.

XLIV.

From G. W. WATSON, Esq., L.D.S.R.C.S.E., Lecturer on Dental Surgery and Pathology, and Surgeon-Dentist to Edinburgh Dental Hospital and School.

EDIN , 4 STAFFORD STREET,
30th July, 1880.

I have great pleasure in stating the very high opinion I entertain of Dr. J. M. ROSE, who has been known to me some time as a highly distinguished anatomist and student of Medicine and Surgery, as well as a very successful medical tutor ; while his gentlemanly bearing, manly, sincere, and frank manners, have made him many friends and well-wishers. Altogether his career has been such as will, in every way, qualify him to fill any post with honour and credit.

GEO. W. WATSON, L.D.S. Ed.,
*Lecturer on Dental Surgery and Pathology, Edin.
Dental Hosp. and School, &c.*

*From ALEXANDER CORMACK, L.D.S.R.C.S.L., Dental Surgeon to
Edinburgh Dental Hospital and School of Dentistry.*

I GEORGE SQUARE,
EDINBURGH, 3rd August, 1880.

I have much pleasure in testifying to Dr. MARMADUKE ROSE's capabilities as a physician and teacher, in which latter capacity I have had better means of judging; and in it he possesses, in an eminent degree, that power of putting difficult subjects in such a light as to bring it within the reach of the most ordinary intellect.

I can also testify to his capabilities for hard work.

In my intercourse with him, I have been always impressed by his intelligence and earnestness of purpose, and, have no doubt, through life, he will obtain the success that I am sure he deserves.

ALEX. CORMACK, L.D.S.R.C.S.,
Surgeon to the Dental Hospital of Edinburgh.

XLVI.

From MALCOLM MACGREGOR, Esq., L.D.S.R.C.S.E., *Surgeon*
Dentist to Edinburgh Dental Hospital and School.

20 QUEEN STREET,
EDINBURGH, 3rd August, 1880.

DEAR DR. ROSE,—I have great pleasure in bearing testimony to the very great benefit we derived from your tuition, while preparing us for our L.D.S. degree. Your thorough knowledge of the different subjects to be got up, and the able manner in imparting them to us, was beyond all praise.

I remain, yours truly,

MALCOLM MACGREGOR, L.D.S.

XLVII.

From LEON. SALLONCKI PLATT, Esq., *Stirling.*

STIRLING, 3rd August, 1880.

DR. MARMADUKE ROSE.

DEAR SIR,—It affords me very great pleasure to be able to say how highly I appreciate your character as a friend and a teacher, and during the time I enjoyed the privilege of being under your tuition, for my examination at the Royal College of Surgeons, at Edinburgh, I was much impressed by the manner in which you communicated to me a quiet enthusiasm for honest and thorough study. Your anxiety and care for my success, I am sure, was almost equal to my own; and we were both awarded for our work by coming off at the testing time with “flying colours.”

I am much pleased to hear of the very distinguished manner in which you acquitted yourself recently at your final examination. Such a result I well anticipated, knowing, as I do, from my intercourse with you, the extent and exactness of your knowledge. You have my best wishes for your success in life, and I shall always remain your grateful pupil and friend.

LEON. SALLONCKI PLATT.

TESTIMONIAL.

ROYAL COLLEGE OF SURGEONS, EDINBURGH.

SESSION 1878-79.

This Address, accompanied with a Gold Watch, was presented to MARMADUKE ROSE, Esq., by the Medical Students, 21st March, 1879.

In requesting your acceptance of this small memento, we desire to thank you for your kindness toward us, and to express our high appreciation of your abilities both as an Anatomist and as an Eloquent Lecturer, while, at the same time, we regret that you have resolved to discontinue as Demonstrator at the close of this Session; but we wish you, in the future, that measure of success, either as a Lecturer or Practitioner, which your genial manner, extensive knowledge, and high attainments in the Medical Profession so fully merit.

(Signed by over eighty.)

XLIX.

*From Rev. JOHN CAIRNS, D.D., Professor of Divinity and
Principal of United Presbyterian College for Scotland, &c.*

10 SPENCE STREET,
EDINBURGH, 26th February, 1881.

Since I came to Edinburgh, more than four years ago, I have had a great deal of intercourse with Mr. J. M. ROSE, now Resident Surgeon to Professor Spence, and have been led to form a very favourable opinion of his character and abilities. I have chiefly met him in connection with temperance organizations. In this he has shown a zeal and an energy, as well as an administrative ability, beyond all praise, and has commended himself universally to the friends of that cause in the city. I cannot, of course, speak from professional knowledge of his medical qualifications, which others will attest; but, from his high principle, I have no doubt that in any public office he would be a valuable servant, and would seek the moral and religious welfare of those under his care with the same earnestness which he has here displayed.

JOHN CAIRNS, D.D.,
United Presbyterian Theological College.

L.

FALLING OF BOWEL AND BLEEDING THEREFROM.

QUEENSBERRY STREET.

HOTHAM, 6th April. 1883.

DR. J. MARMADUKE ROSE.

DEAR SIR,—I had suffered almost incessantly for over five years with prolapsus and bleeding, at times in alarming quantities, losing in a day over half a pint of blood, in severe attacks often more.

I consulted, and was attended by thirteen medical gentlemen, and I spent over £500.

With life almost drained out, I saw you in July, 1882, and in one month I felt so much better, it resembled the waking from some horrid dream. I now have better health than I have known for seven years past.

I visited you four times, and my present state of health is a wonder, and often elicits remarks from all who know me.

Wishing you God's blessing,

I remain, yours ever gratefully,

THOS. E. M.

LI.

ENLARGED AND STIFF JOINTS—RESULT OF RHEUMATICS.

LOTHIAN STREET,
HOTHAM, 31st October, 1883.

DR. J. M. ROSE.

DEAR SIR,—I have much pleasure in testifying to the wonderful cure you performed on me.

Before you came I had five doctors, and none of them did me the least good. One of them, Dr. —, told me that I would be a misery to myself, and a burden to my friends, as long as I lived, and that I would be better dead. I was getting worse every day, and got so bad before you came that, if I were put upon my legs with crutches, I could not stand.

I was just fifteen months ill when you first visited me, and when you told me you would guarantee me a cure, if I would do as you told me, I did not think it possible, for I had tried almost every known remedy, and burnt myself with some of them, so that marks remain to this day.

After about a week of your treatment I felt a great improvement, and continuing on with the same, in ten weeks I walked without crutches very comfortably, and have since improved so wonderfully that I will soon be able to attend to business as before.

H. J. NASH.

P.S.—The above patient completely recovered.

LII.

DECAYED BONE IN GREAT TOE. FORMATION OF NEW TOE.

TRUNAN STREET,
PRAHRAN, 10th January, 1884.

DR. ROSE.

DEAR SIR,—I desire to bear my grateful testimony to your kindness and surgical skill in the treatment and complete cure of my daughter's toe.

In June, 1882, my daughter, a girl of seventeen, complained of pain and swelling in the great toe of her right foot. In July, I consulted a local surgeon, who treated it for six months without the least sign of improvement.

I then consulted a Melbourne surgeon, and the toe got worse. The local surgeon then said the only thing was to cauterize it, which he did, and for five months he was in constant attendance. During that time my daughter was unable to put her foot to the ground, and was suffering great pain. The doctor told me the bone was decayed; I began to look upon the case as hopeless.

How thankful I am that I then heard of you. When you saw it, you said you had never seen such a toe. You removed the diseased bone, and formed a new toe, and in seven weeks, from the day of the operation, my daughter was able to put on her ordinary boot and walk quite well, without any pain or trace of lameness; she rapidly regained her health, and has continued well.

I desire thus most sincerely to thank you for what, under God's blessing, you have been able, by your surgical skill, to do for my child.

I remain, dear Sir,

Yours most gratefully,

ELIZABETH DAVIS

LIII.

PRAHRAN,

October, 1883.

DR. ROSE,

DEAR SIR,—I desire to thank you most sincerely for your very great kindness to my friend Miss Davis. Mrs. Davis and her daughter are delighted at the success of the operation so kindly performed by you, and do not know how to express their deep gratitude for your sympathy, help, and kindness. Again thanking you very earnestly for your readiness to help the fatherless and the widow.

I remain,

Dear Sir,

Yours very truly,

JOHN J. MACKENZIE,

LIV.

DISEASED BONE IN ANKLE.

11th September, 1884.

DR. ROSE.

DEAR SIR,—I feel under an obligation to you for the successful operation you performed, on the 4th February, 1883, on my child, by removing the decayed bone from the centre of the ankle. Moreover, I have to admit that the physicians of our district considered it an hopeless case unless the foot was taken off.

But I am most happy to congratulate you on your ability, for I am happy to state that the child is getting healthy and strong. Trusting you will accept these few words as a testimony,

I remain,

Yours, &c.,

H. ELY HARCOURT.

LV.

GENERAL NERVE DEBILITY.

AUSTRALIAN HOUSE, KING STREET,
NEWTOWN, SYDNEY, N.S.W.

DR. ROSE,

I do not feel like leaving Australia without stating that, so long as life and memory last, I shall never cease to be grateful for the benefit derived from your treatment.

When I came to you I was dying of weariness ; I felt that I had lost youth and hope, and the desire to live any longer under the same conditions ; I had come to regard the grave as a desirable place ; but now, thanks to your treatment, life has again become a pleasant thing.

I shall not be in Melbourne to see, but I hope to hear, that you remain a steadfast member of that class of doctors, possessing both conscience and ability, in which case you will reach an eminence which none can surpass, and but few, indeed, attain.

That you may not only do this, but be both happy and blessed, is the sincere wish of

L. HALEY.

LVI.

CANCER OF THE NOSE.

LONGFORD, TASMANIA,

19th January, 1885.

DR. ROSE.

DEAR SIR,—I dare say you will think I have forgotten my promise to write *re* Mrs. Cotter's face ; I am now glad to state it is quite well and healed up thoroughly. She has had plenty of visitors to see her since she returned. The first question asked by most of them was, "What doctor did it?" You may be sure it has not done your reputation any harm. Thanking you for past kindness to Mrs. Cotter,

I remain,

Your obedient Servant,

CHARLES COTTER.

LVII.

PILES (HÆMORRHOIDS).

55 NOTT STREET,
PORT MELBOURNE, June, 1885.

DR. J. M. ROSE.

DEAR SIR,—I beg to express my heartfelt gratitude to you for your successful treatment of my case. I was suffering from piles, and first visited you on the 8th December, 1884, when you informed me that my case was a desperate one.

I have been under your care for twenty-eight weeks, during which time I have gone under seven distinct operations; when I think of this I am surprised that I am still alive. However, I am happy to state that I am thoroughly cured, and am now able to follow my occupation, viz., that of a boiler-maker's assistant, being now in excellent health. I beg to testify to your professional skill and kind and gentle treatment throughout the whole time, and shall ever gratefully remember you for curing me so successfully, and can confidently recommend you to anyone suffering from the same complaint.

Believe me to be,

Yours sincerely,

THOMAS GEORGE STEPHENS.

LVIII.

STONE IN BLADDER (CURED IN FOURTEEN DAYS).

INDEPENDENT ORDER OF ODDFELLOWS, MANCHESTER UNITY,
(Loyal Abbotsford Lodge, No. 6025),
WAIPAWA, HAWKES BAY,
NEW ZEALAND, December, 1885.

TO DR. J. M. ROSE,
37 Latrobe Street West, Melbourne.

DEAR SIR,—At a summoned meeting of the above Lodge, held on the 19th December, 1885, the following resolution was passed unanimously, viz.:—

“Resolved, that this Lodge record a special vote of thanks to Dr. J. M. ROSE, residing at 37 Latrobe Street West, Melbourne, for his great attention, care, and successful operation on Bro. John C. Ross, a member of this Lodge, who was under medical attendance at Waipawa, Hastings, and in Napier Hospital, and received no benefit from them, but we are happy to state is now cured by your successful treatment.”

In accordance with the aforesaid resolution, we hereby sincerely thank you, on behalf of the above Lodge, numbering 184 members, and

Remain yours respectfully,

M. FITZGERALD, *Chairman of Lodge.*
MARTIN COLLETT, *Chairman of Trustees.*
WM. BROWN, *Secretary.*

LIX.

TUMOR IN SHOULDER (CURED IN A WEEK).

WEST ALBERTON,
GIPPSLAND SOUTH, February, 1886.

TO DR. J. MARMADUKE ROSE.

DEAR SIR,—I take this opportunity of acknowledging the very great care and attention you bestowed on my daughter, Christina Ross, who suffered from Tumor in the Shoulder about ten months back.

I am glad to say that the operation you performed, and general treatment of the case, proved thoroughly successful. In proof of which her health is better than she ever enjoyed before, and it is due to you to give this gratifying information, for both myself and wife feel very much indebted to you for these favourable results.

I remain,

Yours respectfully,

JAMES ROSS.

LX.

BAD LEG.

110 COMMERCIAL ROAD,

PRAHRAN, August, 1886.

TO DR. J. M. ROSE.

DEAR SIR,—It is now two years since I was under your treatment of a very bad leg. From that time I have not experienced the slightest symptoms of it troubling me again.

Having visited two Collins Street doctors for many months, who afforded me no relief whatever, and you healed me in five weeks. The cure has been an eminently successful and permanent one.

It will afford me great pleasure to recommend any one to you requiring medical aid.

I am, Doctor,

Yours very truly,

ALFRED R. TODD.

LXI.

LADIES' COLLEGE,

LAUNCESTON, TASMANIA,

November, 1886.

DEAR DR. ROSE,—I do not know how to thank you sufficiently for your genuine kindness to me and my family. Were I to express all I feel in the matter, we should need a new vocabulary and skill to use it ; you will, however, thoroughly understand that I feel the deepest gratitude and the fullest confidence. You have many friends ; those this side of the Strait whom I have seen who have consulted you, are high in their praises and unshaken in their confidence.

I am, my dear Sir,

Yours sincerely,

REV. SPENCER WILLIAMS.

LXII.

NERVOUS DEBILITY.

MELBOURNE,

January, 1887.

MY DEAR DOCTOR,—I thank you very much indeed for your kind letter. I am not given to flattery, Doctor, but I must tell you that I have never met a medical gentleman yet who fully understood my case as you do.

Yours faithfully,

JOHN REID,

REID BROS. & RUSSELL, Iron Merchants,
27 Elizabeth Street North, Melbourne.

LXIII.

CONSUMPTION.

BURWOOD, May, 1887.

DR. J. M. ROSE.

MY DEAR SIR,—Having in September, 1885, suffered from Fog Fever, for the following year I suffered from severe colds, one on another, and in October, 1886, applied to my Lodge Doctor for treatment, and was told by him that I was in Consumption; two other doctors also told me the same.

I then had a racking heavy cough, heavy sweats, and there was a great diminution in weight, as much as 22lbs. in three weeks.

Being recommended to come to you, I did so, with the result that, after paying you seven visits, from December, 1886, to February, 1887, I am quite well again. The cough and sweats have entirely left me, my weight has returned, and I am again able to do my work, that of a market gardener, as well as ever.

I send this spontaneously, and if you ever require to make use of this letter do so.

I remain,

Yours, &c.,

JOHN LEON.

LXIV.

KNEE-JOINT DISEASE AND SWELLING OF THIGH.

34 CROMWELL ROAD,

HAWKSBURN, 26th April, 1888.

DEAR DR. ROSE,—I fear I inadequately expressed my thanks to you yesterday for your skilful treatment of my knee, and of your kind and courteous manner to me while under your care ; but, knowing your sympathetic nature, I rest assured that you will feel the gratitude I am, in words, unable fully to express.

If reference to my case can benefit you at any time, pray do not hesitate to make use of it.

With kind regards,

Sincerely yours,

MARY A. CARTER.

P.S.—This lady was suffering for two years from effusion of the knee-joint, and had been under surgical treatment in England by the leading doctors ; the case was looked upon as hopeless.

LXV.

WATERY BLOOD (ANÆMIA).

BOORBOORBAN,

Via DENILQUIN,

June, 1888.

DR. ROSE,

DEAR SIR,—I have to thank you for your kind attention to my daughter ; under your treatment she has perfectly recovered, and is as well as ever she was.

Yours faithfully,

S. PORTER.

LXVI.

SEVERE AND PROTRACTED DISEASE OF KNEE JOINT.

SASSAFRAS,

NEW SOUTH WALES, August, 1888.

DR. ROSE.

DEAR SIR,—This comes with many thanks and great pleasure to you for your kindness to our little boy, who is improving splendidly. He is able to walk about. His knee is not exactly stiff, he can bend it a little, and it is but a trifle larger than the other.

We weighed him after you left and he was only 25lbs., and when he had taken your medicine he was 5lbs. heavier.

I remain,

Yours, &c.,

E. HIGGINS.

P.S.—This case was only seen once, and had been ill for months.

LXVII.

CONGESTION AT BASE OF BRAIN.

DANDENONG, December, 1888.

MY DEAR DR. ROSE,—I am afraid I have been very remiss in not sending an expression of my gratitude to you before. However, will you please accept it now ; I am very much better, I am happy to say. You are the only medical man who rightly understands my case and its necessary treatment.

I am greatly indebted to you for your kindness.

With kind regards,

I am, sincerely yours,

REV. J. NALL.

LXVIII.

HYDATIDS OF LUNG.

RACECOURSE ROAD,
NEWMARKET, November, 1889.

DR. ROSE, Latrobe Street West, Melbourne.

DEAR SIR,—I have very great pleasure in testifying to your skill and great ability and attention in performing an operation ; the success of which you took two quarts of fluid from my side, which has been the means of completely curing and restoring me to my usual health, free from pain.

Previous to this I had been under two other doctors, who did me no good.

I remain,

Yours truly,

MINNIE MALCOLM.

LXIX.

CONSUMPTION.

LENNOX STREET, HAWTHORN

(late of Bourke Street East),

January, 1890.

DR. ROSE has been my medical adviser during the last four years. I have consulted many other physicians during that period, but have found none so capable of correct diagnosis, nor so apt in prescribing means of relief. The Doctor has also been remarkably prompt and attentive.

My case is one of Fibroid Phthisis, accompanied with a great amount of nervous debility. I selected Dr. Rose as a medical man from seeing him on a public platform some time before needing his services. I regard him as a most efficient Doctor all round, and more particularly in the diseases of the sympathetic system of nerves.

I can conscientiously recommend sufferers from these lingering complaints to consult him.

Yours, &c.,

JOSEPH FRAZER,

Phrenologist.

LXX.

SPINE AND SKIN DISEASE, DROPSY, ASTHMA, REMOVAL OF
TONSILS, CONSTRICTION OF THROAT, MORTIFICATION OF
BOTH ARMS AND ONE LEG, AMPUTATION OF BOTH ARMS
AND ONE LEG.

MELBOURNE, 27th February, 1890.

DEAR DR. ROSE,—In August, 1883, I came to you suffering from a complication of diseases, which had baffled most of the leading medical men of Melbourne. I had consulted no less than sixteen doctors, seven of whom told me at that time I could not live more than two weeks, unless I had my right arm amputated at the shoulder. I was suffering intense agony with an eruption on the arm, leaving holes the size of a pea in many parts; also, with severe pain at the back of my head, indigestion, general debility, enlarged tonsils, vomiting, and shortness of breath. When you saw me, you at once told me the cause of the trouble was in the spine, and gave me very little hopes of a cure, as the disease had such a firm hold of my system. I had been ill for over eight years, but, after persevering for some months with your treatment, my arm healed, and I was able to leave off the sling, which I had worn continually for five years, and use the arm a little; my health also improving, after the removal of my tonsils, till 1887, when, owing to severe strain on my nerves, I was again taken ill. My arm broke out again, mortification set in, and I was compelled to have it amputated below the elbow, and not at the shoulder, as I had been told by other doctors. The operation was a great success, the arm healing perfectly.

About six weeks afterwards the disease showed itself in the left leg, which also began to mortify, and that, too, had to be

amputated in December, 1887, and though not six months between the two operations, it was again a great success, the wound healing splendidly in ten days, and pain almost gone. Again, six weeks afterwards, I was taken with shortness of breath and dropsy, with great weakness, my life being despaired of, but, owing to your great care and attention, I again recovered, doing fairly well until February, 1889, when the left arm was attacked with the same complaint, the disease increasing so rapidly that Dr. —, who has taken a great interest in my case, calling, could see plainly the hand mortifying during the short time he was with me. It, too, had to be amputated, on the seventh day, below the elbow, doing very well for some time, when the elbow became affected, and was operated on with a splendid result, healing perfectly. Though these four operations have been performed by you between July, 1887, and November, 1889, and notwithstanding the many difficulties you had to fight against, viz., Shortness of Breath, Asthma, Dropsy, and Stricture of the Throat, owing to which I could only take nourishment through a tube for many months, and in very small quantities. I am in a better state of health than I have been for many years, and I am perfectly cured of Dropsy, Asthma, and Skin Disease, which fact is a marvel to all who know me.

Thanking you most sincerely for all you have done for me, and trusting you will be spared for very many years to labour amongst the sick and the suffering with as good results as in the past,

Your ever grateful patient and friend,

HANNAH R. HIGGENS.

LXXI.

CHRONIC INFLAMMATION OF BLADDER.

FAIR VIEW FARM,
DINGEE, VICTORIA,
June, 1890.

DR. J. M. ROSE, Melbourne.

DEAR SIR,—Having been a sufferer from Chronic Inflammation of the Bladder for over twelve months, I was under one of the leading doctors of Sandhurst for six months, but, instead of deriving any benefit from his treatment, I was rapidly becoming worse, and I had almost despaired of ever again enjoying health, when a friend persuaded me to place myself under your care. I did so, but only with the hope that you might relieve me for a time from the pain that I was suffering, but I did not dare to hope that you would be able to cure me, but, under God's mercy and your skill, I am thankful to say that, after being under treatment for four months, I am now restored to health.

I am, gratefully yours,

MRS. W. C.

LXXII.

SEVERE BLOOD POISONING—EXTENSIVE DISEASE OF LEG,
KNEE AND THIGH.

525 LATROBE STREET WEST,
MELBOURNE, July, 1890.

DR. J. M. ROSE.

DEAR SIR,—Allow me to convey to you my sincerest and most grateful thanks for having cured me of Blood Poisoning in my leg. Having had a medical man attending me for the last three months, and doing me no good, he advised my removal to the hospital, as it was a bad case. I was advised by a friend to seek your skill, which I am happy to say has resulted in a complete and perfect cure.

Trusting that every success may attend your great and wonderful treatment,

I am,

Yours sincerely,

MRS. CIVILL.

LXXIII.

STONE IN THE BLADDER, WEIGHING $\frac{1}{4}$ LB.

83 PARKER STREET,

WILLIAMSTOWN, July, 1890.

DEAR DR. ROSE,—I had been suffering for many years, and consulted several doctors ; none of them could give me any relief or any satisfaction as to the complaint or its cause.

About the end of March, 1887, I came to you ; after examining me, you at once told me that I was suffering from stone in the bladder, and should have it removed as soon as possible, to which I readily consented, as I was in great pain and getting weaker every day. The operation was performed by you on 22nd April, 1887.

The stone, which was very large and most difficult to remove, weighed 4 ozs., and measured $5\frac{1}{2}$ in. by $6\frac{1}{2}$ in. in circumference. Though I was 69 years of age at the time, the operation was a great success, the wound healing very quickly, so that I was able to go out for a walk on the 19th day after the operation, getting stronger every day, and I have enjoyed the best of health ever since, having increased in weight from 11 st. to 12 st. 4 lbs. in a very short time.

WILLIAM SCOTT,

Shipwright.

LXXIV.

TUMOR OF CHEEK.

ESSENDON, VICTORIA,

August, 1890.

For several years I had been afflicted with a small Tumor in the Cheek, which considerably impaired my appearance, and latterly had caused me much suffering.

Owing to the increasing growth of the Tumor I was necessitated to obtain surgical assistance in order to have it removed. As the operation was a difficult and painful one, for a long time I was unwilling to run the risk of permanent disfigurement in case of failure, but, owing to continuous pain and the urgent entreaties of my relatives, I consented to undergo the operation.

My friends had been recommended to Dr. J. M. ROSE, of Latrobe Street, Melbourne, and accordingly I was taken there. I cannot speak too highly of the kindness and skill of that gentleman during the time I was under his care.

He successfully removed the Tumor from my face, and, in a short time I was enabled to go out and visit my friends. It is only by exercising a keen scrutiny that one could detect the mark.

I am deeply grateful to Dr. ROSE, and will never forget his rare skill, gentle treatment, and unvarying kindness.

S. A. F.

LXXV.

DIPHThERIA.

LAWRY STREET,

NORTHCOTE, October, 1890.

I wish to state that at the beginning of this month my daughter, aged sixteen years, was taken with a very severe attack of Diphtheria. Having very great confidence in Dr. ROSE, I called him in, and, much to my astonishment, in four days she was pronounced out of danger, which, I believe, was solely due to his method of treatment and assiduous care.

SARAH DAVIES.

LXXVI.

TYPHOID FEVER WITH SEVERE HÆMORRHAGE.

BRUNSWICK ROAD, BRUNSWICK,
November, 1890.

DR. ROSE, Melbourne.

DEAR SIR,—It is with great pleasure that I tender to you my sincere thanks for the great success in your treatment of my case of Typhoid Fever and severe Hæmorrhage ; also for the interest and energy you disposed upon my lengthened illness, which proved that I could not have been in better professional care.

Yours thankfully,

JOHN E. LAUGHTON.

LXXVII.

CRUSHED FOOT.

222 FRANKLIN STREET,
WEST MELBOURNE,
December, 1890.

TO DR. ROSE.

DEAR SIR,—I met with an accident in the year 1883, at the City Brewery, having had my foot crushed between the hydraulic lift and an iron girder. I was taken home, and doctors sent for; there were two who came, but upon seeing the case would not undertake it, but strongly advised my friends to take me to the hospital as my foot would have to be amputated.

Then Dr. Rose was called in; he examined the foot, and undertook to save it; and I may thank his skill for having my foot this day.

Believe me,

Yours respectfully,

JOHN EASTON

LXXVIII.

BRAIN FEVER, PLEURISY, AND INFLAMMATION OF THE BOWELS.

HOWARD STREET, NORTH MELBOURNE,

December, 1890.

DR. J. M. ROSE.

SIR,—I feel it my duty to thank you most heartily for your kind attendance on me during my illness with fevers of different kinds, viz., Brain Fever, Pleurisy, and Inflammation of the Bowels. I must say through your wonderful skill and treatment I have recovered, and once more able to go to work again.

Please accept this testimony, and believe me to be,

Your humble servant,

JAMES McALERY.

LXXIX.

HÆMORRHAGE FROM THE LUNGS.

CARLTON,

March, 1891.

TO DR. J. M. ROSE.

DEAR SIR,—Having suffered for the last fifteen months from Chest and Lung disease, during the above period I consulted several leading doctors, and spent an enormous sum of money, and received no benefit from any of them. I was persuaded to try a well-known herbalist of East Melbourne, and he promised to cure me for the sum of £12, which I paid to him, but received no cure. The week I discontinued his medicine I was really as bad as ever.

Having heard a great deal of praise with reference to your treatment, I resolved to give you a trial. You informed me that I was in a very bad state, but held out from the very first that you would cure me.

Three days after I had consulted you, I had a most dangerous attack of Hæmorrhage from the Lungs, from which attack I lost over two quarts of blood; but you still informed my friends, although I was apparently on my death bed, that you could cure me, and, to their great surprise, you did, and in the course of a few weeks you had me about again.

I then returned to business again too soon (against your advice), and the consequence was I strained myself lifting, which

brought the Hæmorrhage on again, and I lost a quantity of blood ; and again, with your wonderful and kind treatment, I am about again.

I should strongly advise any person suffering from chest or other diseases to consult Dr. ROSE. They would be surprised at his wonderful treatment.

For further proof of my terrible case, I shall be glad for any person to call and see me. I cannot say too much in praise of Dr. ROSE for saving me from an early grave.

I hope you will publish this letter, and by so doing I sincerely hope those suffering from consumptive complaints will notice my case, and give you a fair trial, and receive the same benefit as I have from your kind treatment.

I am, Sir,

Yours obediently,

GEORGE TOOHEY.

LXXX.

INTERNAL HÆMORRHAGE, DROPSY, AND ANÆMIA.

HAWTHORN, 23rd May, 1891.

DR. ROSE.

DEAR SIR,—It gives me great pleasure to testify to your skill in my case, which was a severe one.

I was for four months the victim of medical ignorance; the doctor consulted did not know what was the matter, and came to the conclusion I could only last a short time, as Dropsy had set in, and had a firm hold on the vital parts.

You were called in on the 17th May, 1883, in consultation; on the 19th May, my case was put into your hands, and on the 21st of the same month you could honestly say I was better; in six weeks the Dropsy had disappeared, and I was able to walk about as I had not done for months. Eight years have passed, and I am thankful to say I am strong and well and have had no return of the complaint, thanks to your skilful treatment.

Yours respectfully,

E. A. T.

LXXXI.

BRONCHITIS, CONGESTION, GANGRENE OF LUNGS.

HAWTHORN, 23rd May, 1891.

DR ROSE.

DEAR SIR,—It gives me great pleasure to add my humble testimony to your superior skill and ability in chest diseases. I found you especially so in my case, which was a very severe and complicated lung disease, viz., Bronchitis, and Congestion followed by Gangrene, also at the same time weakness of heart and brain with great debility.

Your skilful treatment removed all, and I am thankful I can say for the last five years I have enjoyed good health. I was not a young man, being between 60 and 70 years of age. I have travelled across the sea since, and have had no return of the old disease.

Yours respectfully,

JOSEPH TOUGH.

LXXXII.

CONSUMPTION.

MELBOURNE, 1st June, 1891.

DEAR DR. ROSE,—Hoping to benefit my fellow sufferers, I take this opportunity of stating my case and your treatment of it. Eight years ago I was taken very unwell, the symptoms being a bad cough, with a great deal of phlegm, great weakness and shortness of breath; being a professor of music, I was often called upon to go out at night, which made my complaint worse. At the end of two years, Hæmorrhage of the Lungs commenced, and all the other bad symptoms of the chest became more pronounced. I had to leave off playing my instruments, and everything else that caused the least exertion.

For five years my disease gradually gained ground, till I became extremely weak with almost continual hæmorrhage, and breathing so bad that I could only walk a few steps without getting out of breath; I also felt very ill night and day, with extreme lowness of spirits. During this time I had consulted fifteen of the first Melbourne doctors, and, astonishing to say, all these great men were as powerless as children to do me the slightest good; on the other hand, they had skilfully conducted me to this pit of misery and despair.

Just at this time, when at my worst, and without a ray of hope, a friend of mine was taken very ill with the worst form of Consumption; he consulted two doctors who gave him up as hopeless; he then consulted Dr. ROSE, and in two months' time he was at work in his garden as well as ever. This wonderful cure greatly astonished my friend and myself. I lost no time in

consulting Dr. ROSE also ; his opinion of the nature of my complaint, as well as the treatment of it, was exactly opposite to that of all the other doctors ; he said that, of course, after being crammed with the wrong medicines, and otherwise badly treated for so many years, it would take a considerable time to get the upper hand of it, but, that if I faithfully attended to his instructions and treatment, I should eventually get cured.

I have done so for twelve months, with the result that I can walk about well without getting out of breath, can do an exercise with dumb bells, four pounds weight, forty times a day, can take my coat off and dig for an hour at a time in the garden, can play my violin and violoncello, and teach as many pupils as will do me the favour to come to me. The hæmorrhage has ceased, the cough very little, I have a good appetite, can sleep well, and am in fact cured of the disease. I am still under the doctor's care, as he says I still require building up. With these solid proofs, and many others of Dr. ROSE's wonderful skill, I am forced to the conclusion that he is, to say the least, by far the greatest doctor in Australia. Hoping you will make this as public as possible.

I am,

Your most grateful patient,

SYDNEY HART.

LXXXIII.

PLEURISY, INFLAMMATION OF STOMACH, DIARRHŒA.

PROSPECT HILL,
CAMBERWELL, 1st June, 1891.

DR. J. M. ROSE.

DEAR SIR,—I have much pleasure in giving my testimony to your rare skill, ability, and marked success as a medical man, in apparently hopeless cases.

Twice during the past six years you have, by God's help, brought me back from the very brink of death.

My first hard struggle with death arose from a severe attack of Pleurisy and Inflammation of the Lungs. My second, just about a year ago, was a still more terrible one, owing to the complication of diseases. I then had, viz.:—Pleurisy, Inflammation of the Stomach, Diarrhœa, Catarrh of the Stomach, with such extreme Indigestion, that I was only able to take one teaspoonful of liquid nourishment at a time; and, along with all this, an utter nerve weakness; yet out of all this you were enabled to bring me.

Now, I am hale and hearty, although I am within a year of threescore.

I am,

Yours sincerely,

D. H.

LXXXIV.

GANGRENE OF THE LUNGS.

HAWTHORN,

2nd June, 1891.

DR. ROSE.

DEAR SIR,—I wish to bestow my most grateful thanks to you for the great and wonderful cure you have wrought in me.

Before having you to attend me I was treated by two doctors of high standing (at least considered so) for seven weeks, during which time I was still getting weaker. I lost 14 lbs. weight in that short time, and then I was given up as incurable, but as soon as I was brought under your treatment I found I was getting stronger each day, and in the short space of three weeks I was able to take my walks abroad, and feel now as strong as ever. I was, before my lungs were affected, in fact, in perfect health.

Kindly make use of this in any way you think best, so that others may participate.

Yours truly,

J. M. F. SMITH.

LXXXV.

CONSUMPTION.

AUBURN,

2nd June, 1891.

DR. ROSE.

DEAR SIR,—In October, 1890, I was taken with a very bad cold, which turned to Influenza and several other complaints, followed lastly by Disease of the Lungs and severe night sweats.

For eight weeks I was attended by three doctors, two of whom said I was in Consumption and could not live but a few days. My husband was persuaded by a friend to send for Dr. ROSE, which, I am thankful to say, he did. In a week I was taken out on to the verandah, and in a month from the Doctor's first visit I was taken to the country for a change. I am now able to do my household work, and am in better spirits than I have been for years.

I cannot speak too highly of him for his kindness and sympathetic manner.

Yours sincerely,

MARY PARSONS.
