

THE SCIENCE
. . . . OF HEALING

Outline of the Full Course as Taught
and Demonstrated by

PROF. S. A. WELTMER

THE EMINENT

Magnetic Healer.

ALL THINGS ARE YOURS WHEN YOU KNOW THE LAW

THE full course in Magnetic Healing as taught by Prof. Weltmer, includes Mesmerism, Hypnotism, Vital Magnetism, Mental Science and Personal Magnetism. Prof. Weltmer has gone deeper into these subjects than any living man, having spent almost a quarter of a century in investigation.

HYPNOTISM.

Hypnotism furnishes the best means of investigating the mind, developing and strengthening the latent faculties; teaches the student how to use the will and the power of suggestion. A complete knowledge of Hypnotism enables one to develop the powers of Clairvoyance, Mind Reading, Telepathy and Psychometry. There are six different stages or phases of the Hypnotic sleep. Prof. Weltmer in his course of instruction demonstrates that all the powers of Clairvoyance and Mind Reading are common to every subject. He is the only man in the world who is able

to produce Conscious Clairvoyance, in which the subject remembers when awakened all that was seen in the Clairvoyant condition.

VITAL MAGNETISM.

This occult science, designated by the ancient priests under the name of *Regeneration*, is that which at the present day is known as Animal Magnetism, a science that for more than three thousand years was the peculiar possession of the priesthood, into the knowledge of which Moses was initiated at Metropolis where he was educated, and Jesus Christ among the Essenian priests at Jerusalem.

This science, that an illustrious Dominican priest calls "a piece broken from a grand palace, a ray from the Adamic power, destined to confound human reason and humiliate it before God, a phenomenon belonging to the prophetic order"—is the same science which a few years ago was resuscitated by a noted

French scientist, whose mighty works astonished the medical profession at that time, as by the application of it as a therapeutic agent, he instantly alleviated the condition of the sick and afflicted.

Magnetism, the vital principal of all organized beings, the soul of all who respire, made a part, under various names, of the secret teachings of the priests. The titles of *Regenerating Fire*, *Living Fire*, *Magic*, were given to it by them, and the initiation into this divine science was participated in by but a small number of the elect.

Believing it to be my duty to define the meaning of this science in as clear and distinct a manner as possible, I have chosen for this purpose to select a passage which I find in the works of Henry Delage, entitled, "Perfection of the Human Race," in which he expresses himself upon the subject as follows: "The knowledge of this magnetic fluid is the most precious gift of Divine Providence. It is the mysterious key

that opens to our dazzled intelligence the world of truth and of light, and joins the finite to the infinite. It is the chain of gold so often chanted by the poet, the basis of that secret philosophy that Democritus, Plato and Pythagoras traveled to Egypt to demand of the hierophants of Memphis and of the gymnasophists of India. Invisible to the eyes of the senses, it must be studied by the vision of the soul as seen in the rapt gaze of the somnambulist. In other days the truth was heard proceeding from the lips of the initiating priests; *to-day* we see it in the eyes of the Clairvoyant—a magnetic fluid, very subtle, placed in the human race between the soul and the body, it circulates in all the nerves and is particularly abundant in the great sympathetic of the healthy subject, it constitutes the spirit of the living being. Its color, that of fire or the electric spark, induced the name of *Living Fire*, given to it in the works of the magicians of Persia, or of the *Intimate Star* in those of the alchemists

and astrologers of the middle ages. One of its principal virtues is the regenerative power, hence the sacred books give it the name of *Regenerating Fire, Soul of the World, Universal Spirit permeating all Nature*; it is the essence and the vital spark of all that it animates, of all order of beings, classes and races, in which it is incarnated, and is profoundly modified by all through which it passes."

Under the head of Vital Magnetism is taught the healing of diseases by the laying on of hands. It has been practiced for centuries under various names, as Divine Healing, Animal Magnetism, and Electro Biology. It has usually been considered a gift peculiar to certain persons, hence the public has never investigated or fully understood it. Prof. Weltmer teaches and fully demonstrates that it is not a *power peculiar to individuals, but a power peculiar to man*, and that every person who has a will can learn all about Vital Magnetism by learning how to use the will, and

learning how to send the will through the hands.

MENTAL SCIENCE.

Mental Science is the philosophy of affecting the human body and human character through the power of the mind to control matter. In this department is taught how to cure diseases by the Mind Cure method, how to overcome in yourself and others disease, poverty and unhappiness. The student is taught how to use the mind in the treatment of diseases by the Silent or Absent method. Telepathy and Thought Transference or Mental Telegraphy are taught and fully demonstrated. A knowledge of Hypnotism such as the student receives through the instructions given by Prof. Weltmer enables him to see and understand what is in the mind. Having been brought in direct contact with the latent forces of other minds through that investigation, he is enabled to use those powers in the highest, most effective and best sense.

PERSONAL MAGNETISM.

Personal Magnetism is the power, the acquisition of which enables you to influence and control, for good, those about you. It is coming to be a matter of self-protection that those who wish to be in the front ranks of the world of thought or material achievement must develop this self-conscious power within themselves, for every person you meet, in some degree and however unconsciously, dominates you or is dominated by you. Your rightful state in life is that commanding position, that state of serene self-poise, in which you dominate others but are not dominated by them. You must bear in mind that this course in Personal Magnetism is a development of the individual physically, mentally and morally. It teaches one how to live so as to acquire health, strength, prosperity, influence, friends, in fact anything you want. The benefits derived from a knowledge of this subject cannot be estimated.

INSTANTANEOUS MAGNETISM IN THE PAINLESS EXTRACTION OF TEETH.

Prof. Weltmer gives complete instructions to Dentists in the art of extracting teeth by Instantaneous Magnetism. Extracting by this scientific method obviates the entire use of the dangerous anaesthetics now so generally employed by the profession, as the pain is completely overcome by the powerful action of the educated will. This method is being rapidly adopted by the leading Dentists of this country, and it has already been fully demonstrated to be far in advance of any other method in filling the wants of suffering humanity. People as a rule dread taking anaesthetics more than the pain of having teeth extracted, hence the growing popularity of the Instantaneous Magnetic Method taught only by Prof. Weltmer. This method can be learned by any Dentist in two or three days. Price for full instructions \$100.00.

AS A PROFESSION.

If there is any doubt in your mind as to our reliability, and as to the value we have to give you, or the success you will meet with, were you to enter upon this course, we can refer you to our students, who are men of character and stability, such as Ministers, Doctors, Lawyers, Merchants, whose mature sense and good judgment would prevent them having anything to do with any subject which was not up to the proper standard. Many of our students learn this art for the benefit of their own or their family's health, as it not only saves many dollars in doctor bills and drug bills, gives you entire mastery over your body as well as self-mastery in whatever position you are placed in the material world. Many of our students are now practicing the art of healing as a profession, and are reaping rich rewards, as the field is great and the laborers are few in this line. We know of no other business that can be learned so easily, in such a short time and for so little money, that an ordinary man can go out and earn from \$10 to \$50 per day. There is in this State alone, over 14,000 regular doctors.

who are constantly busy, so you can easily see what a large field there is for this system of healing, as diseases can be cured by this method when all other methods fail. People in general are rapidly forsaking the dangerous, obnoxious and poisonous drug system, wherein doctors, rather than break one of the rules of the "profesh" would let a patient die, and are looking for newer and more scientific methods.

The price for the complete class course of Instruction as outlined above is at this time but \$100, payable in advance. This course is embraced in fifty-one lectures, seventeen of which are given each week; it therefore takes three weeks for the student to complete the course. Two lectures are given every day and three lectures every other day except Sunday. Everything taught in this course is fully demonstrated to the satisfaction of each student.

We give below the statements of several of our students who have graduated.

NEVADA, MO., June 17, 1898:—I am a graduate of the American school of magnetic healing of this city and I must say everything taught in their course

was fully demonstrated to my entire satisfaction. I cheerfully recommend this course to anyone who is desirous of becoming a Healer.

MISS MABLE HAIRE.

JONESBORO, ARK., Dec., 10, 1898.—When I first entered your school a few weeks ago I was somewhat skeptical because I was ignorant concerning this science of healing. After completing the course I must say that I am fully satisfied and know that every claim made for the "Weltmer Method" of healing is positively correct.

C. W. BROOKS.

NEVADA, MO., June 10, 1897.—I finished Prof. Weltmer's course in magnetic healing and am more than satisfied. I have never made a failure on any case that I treated. I expect to locate in Texas to practice this profession. Prof. Weltmer makes everything so plain and comprehensive that no one can fail to understand and grasp all he teaches.

DR. H. C. ROWE.

Information of any kind bearing on this subject will be cheerfully given.
