

Are You Perfectly Well?

— IF SO —

Do all of your friends and acquaintances enjoy Perfect Health?

IF NOT VISIT

J. M. PEEBLES, A. M., M. D.,

THE DISTINGUISHED

SPECIALIST

IN ALL

CHRONIC DISEASES,

AT HIS PARLORS, 1 and 2,

No. 1 POLK ST., San Francisco.

IMMENSE MEDICAL PRACTICE.

"Thirty-seven patients," said the *San Antonio Express* last winter, "called at Dr. Peebles' office yesterday for medical advice or medicines." He has patients from a great distance, and from nearly every section of the country. His successful treatment of the private diseases of both sexes is considered almost supernatural. "His very presence," said Prof. Baine, of Philadelphia, "carries conviction and confidence."

Dr. Peebles has saved hundreds of women from being unsexed (ovariotomy) by a class of experimenting surgeons. The removing of the ovaries or the unsexing of women is just as unnatural, reprehensible and unnecessary as would be the unsexing of men for hydrocele. Female weakness, ovarian disease, requires no such treatment. Nineteen-twentieths of uterine diseases can be cured by Dr. Peebles without any surgical operation. This he guarantees.

The doctor is specially successful in Catarrh, Bronchitis, Epilepsy, Scrofula, Consumption, Constipation, Dropsy, Heart Difficulties, Neuralgia, Asthma, Nervousness, Skin Affections, Rheumatism, Paralysis, Sleeplessness, Spinal Diseases, Ulcers, Dyspepsia, Urinal Difficulties, Liver Complaint, Salt Rheum, Deafness, Female Troubles, Kidney Diseases, Seminal Weaknesses, Hysteria, Drunkenness, the Opium and Morphine Habits—in brief, all CHRONIC DISEASES and morbid conditions of the system.

He prescribes and prepares his own medicines, thus avoiding stale or adulterated preparations.

Those whom the doctor thinks he cannot greatly benefit or perfectly cure he plainly so informs them.

HIS CONSULTATIONS ARE FREE.

Hours from 2 to 6 P. M., and from 7 P. M. to 9.

"WHERE DID DR. PEBBLES GRADUATE?"

Dr. Peebles graduated from the Philadelphia University of Medicine and Surgery, and there registered and practiced. He also graduated from the

PHILADELPHIA UNIVERSITY HOSPITAL,

and later from the

PHILADELPHIA POLYCLINIC,

a college for regular graduates only. Reaching San Francisco, he promptly recorded his State license as a medical practitioner.

While practicing in Philadelphia he was appointed U. S. Consul in Asiatic Turkey by Gen. Grant, thus throwing him almost daily into association with the most eminent English, French and German physicians employed in the Infirmaries and Medical Hospitals of that and European countries.

It is the long study of chronic diseases, coupled with his experiences in Hospitals and Medical Infirmaries, at home and abroad, that gives him, in connection with

PSYCHIC INTUITION,

such unparalleled success in curing the supposed "incurables."

What Newspapers Say of Dr. Peebles :

"Some of the astonishing cures of Dr. J. M. Peebles in some of our prominent Philadelphia families would almost compare with ancient miracles. One of these was the late president of the Pennsylvania railroad."—*Philadelphia Daily Times.*

"If the day of miracles had not passed we should write down some of Dr. Peebles' cures in our Quaker city as miracles. In addition to his medical skill he certainly has some method of curing paralysis, nervous and other diseases in an incredible short space of time."—*Philadelphia Daily Item*.

Prof. E. S. White, so well known in the world of literature, writing in the *New York Sun* of Dr. Peebles after having met him in Bellevue Hospital and heard him upon the rostrum, says: "The doctor's power, whether by impression, intuition, or from a long medical experience, enabling him to diagnose disease without asking the patient a question, inspires unlimited confidence at once. He does not undertake to cure such chronic cases as he considers incurable, but his cures of those at the very jaws of death are absolutely marvelous."—Hundreds of others will gladly testify to similar facts.

The Rev. Dr. Willis, of Philadelphia, writing in the *Christian Review*, states that he "considers Dr. Peebles one of the most remarkable men of the country. His extensive travels in foreign countries, his published works, his gift of diagnosing and curing the most stubborn and supposed fatal diseases, make him in my estimation a phenomenal man. Catarrh, Consumption, Paralysis, Rheumatism, Cancer, Dyspepsia and nervous troubles he cures in seemingly an incredibly short time."

That excellent woman, Mrs. E. H. Vasmer (the mother-in-law of his honor, Mayor Paschal) residing at 305 West Cypress street, San Antonio, Texas, was greatly afflicted with rheumatism and a complication of other serious diseases endangering her life. She contemplated going to Hot Springs, but finally decided to go to Dr. Peeble's Sanitarium for treatment. In a few weeks, to the great joy of her friends, she was perfectly cured. Here is her statement:

"It gives me much pleasure to state that after being under Dr. Peebles' medical treatment at his West End Sanitarium for rheumatism and other painful difficulties for a few weeks I am relieved of all soreness and suffering and consider myself perfectly well."

MRS. E. H. VASMER.

Dr. Peebles has hundreds upon hundreds of similar testimonies.
