Dr. W. I. GORDON

The Guiding

of Humanity

IT IS

NEW THOUGHT,
SOCIALISM and
SUGGESTIONS,
UNITED THOUGHT FORCE.

No Person can afford to be without this booklet.
—Percival Hancock, B. A.

Price 25 cents.

SUGGESTIVE NEW THOUGHT PUB. CO. CLEVELAND, OHIO.

# INTRODUCTORY OFFER!

## TO INTEREST YOU TO INTEREST OTHERS

To the first three ladies or gents, selling \$50.00 worth of our publications (wholesale price) furnished through us or any other source, we will give either a gent's or ladies' Gold Watch with the maker's 20-year guarantee. Each one will be the celebrated Dueber Case and Hampden movement, open or hunting case as preferred. Lever Setting, with the following make up:

13 extra fine high colored ruby jewels, gold settings; accurately adjusted to temperature, six positions and isochronism, very carefully timed; compensation balance, gold screws; including four timing screws; gold beveled, polished train; highly finished, hardened, beveled, steel escape wheel; chamfered teeth, entire escapement cap jeweled, hand finished conical pivots; counterpoised fork and pallet; best quality Swiss Breguet hairspring, Phillippe coil; patent micrometric screw regulator; all parts highly polished; double concav-

ed visible winding wheel; best quality Swiss mainspring; double sunk glass enameled dial; richly damaskeened in new style bright rayed pattern, black enamel lettering.

#### INTRODUCTION AND DEDICATION.

The masses must become thoroughly awakened to the fact that they should and can enjoy a Heaven on earth, now; and through the application of these teachings, this condition will surely come about. This has been certified by actual experience wherein results have proven entirely satisfactory. To-day we find co-operative communities founded upon these teachings that are models of success in every detail, furnishing enjoyment of all of nature's provisions and affording unequaled advantages, especially in the study of economics, science, art and literature. These colonies have demonstrated that all nations can be governed by love, honor and friendship.

These new teachings produce, in those who accept and apply them, an energy and vitality that does not and cannot exist under our present competitive or unnatural system. Our present system produces war, crime and disease, which are the results of barbaric ignorance, tolerated by a long suffering people. Trusts and combines are the present methods utilized to keep the masses under subjection and enslavement. Therefore, to the masses, the great army of natural producers of all countries, these thoughts are respectfully and cordially dedicated.

#### NEW THOUGHT.

The New Thought comes as a message to a world that has wandered away from the right path, but it is an old message regenerated and retold, differently understood and applied. In its present interpretation it is devoid of mysticism, and under the new dispensation we have a practical working formula to guide man aright establishing individuality in him that strengthen him to stand up for the absolute truth in this life, and we believe our individuality lives in the future, therefore we will be better developed when we depart this life than our forefathers were through this teaching, hence we will enjoy the great hereafter more fully, resulting from broader development and conception while on earth.

New Thought teachings inspire us to assist all mankind. It does not conflict with any religious doctrines or views. Neither does it limit any one's opinions. It broadens every one's conception of life and solutionizes the feeling of unrest that has always existed in man. He has unceasingly prayed and sought for a panacea to establish full freedom within himself and develop an individuality strong enough to act conscientiously and meet conditions under all circumstances manfully.

#### TRUTH.

"The New Thought recognizes truth in religious denominations of all kinds but does not subscribe to creeds or dogmas yet grants the privileges and full rights to all who feel the desire or need of them. The New Thought movement has not come to destroy but to build up, yet that building will not be made by the hands of man but will abide in the hearts of the people, wherein their minds will become strengthened and their bodies made whole. It affirms the omnipotence, omniscience and omnipresence of God with all that these words imply. It stands for a gospel of peace and good will to all men. We believe that it is easier for man to be well and happy than to be the reverse. It is easier to go with the law than to put one's self in opposition to it. New Thought teaching is in reality a Universal Religion adapted to all nationalities; it teaches Natural and Spiritual Laws and their application in every day life; it is a vital living Christianity without a weak point, bringing man to see the advantages of living to nature and bringing about a heaven right here on earth."

#### NEW THOUGHT SCIENTIFIC TEACH-INGS.

These teachings produce ideal manhood and fascinate all who investigate their workings, which are readily grasped. They appeal to every one's common sense, and all intelligent people concede that it is now possible to produce the ideal man with these teachings, because they bring about ideal environments. The basic principles of this science are identical with those expounded by Jesus in his sermon on the mount, and at other times and places during his life. New Thought teachings do not waste time endeavoring to prove or disprove past failures in any direction. They expect and work for success, fully believing it is due every honest person, hence constantly suggest success to themselves and educate others how to be a success right now and for all time.

This teaching disarms us of all fear and makes us absolutely free as God intended we should be before selfish man created mystical theories and statutory laws which have controlled us through fear; we must acknowledge that fear has become so deeply rooted and thoroughly incorporated in us that we submit quietly to hideous wrongs from men said to be Christians, with sittings in the Christian churches. The advantages that are taken by the pretended Christians (as well as

others who make no profession or pretense of being followers of Christ) are appalling.

### EXISTING RELIGIOUS TOLERANCE.

Both classes of men filch from their confiding brother his hard earned money, and take undue advantages often when he is aged, and then, if unable to work and recover himself, they kindly extend the poorhouse to him for his credulity. My dear friends, think of the present tolerated system and its existing slavery produced by socalled Christian nations, and the impossibility of educating the masses right, while the present existing conditions prevail, i. e., long hours, scant pay for service, bad sanitary conditions, etc. We see the oppressors of the masses sitting comfortably in their pews in most all Christian churches, pretending to follow the footsteps of the one unselfish man in history, a true New Thought Scientist, Socialist, Suggestionist or ideal man, Jesus Christ. Just think of it.

### THE OUTRAGEOUS SYSTEM.

Our present system allows one man to possess and hold over ninety thousand acres of man's soil—a birthright from God Almighty to His

children. Being deprived of the soil, through this selfishness, three hundred and sixty thousand families representing over one million people, are robbed and deprived of a quarter acre site for the foundation of a home where they could enjoy green grass and fresh air, etc., surrounded by natural conditions so dear to all who have tasted of nature's gifts to her children. These misplaced people, the result of the above mentioned greed, without homes, huddled together in unsanitary places, surrounded by rum and beer shops, tempting them to drink, become beasts, outlaws and criminals, after imbibing these hellish draughts, they become disheartened and forget temporarily their heritage and the goodness of Nature, and the deluded wretches become the slaves of habits more difficult to eradicate than it was for any nation to free its slaves. I ask you if any man can be a Christian with such holdings? If a church holds great properties and receives immense revenues from its rentals, is it a Christian church? Especially is this question to be asked when these rentals are received from the poor, who are obliged to meet the high rental imposed by the agents of the church to maintain their abiding place, often being deprived of the necessaries of life on this account. How in the name of common sense could a man recover

himself who is in the toils of such environments and selfishness?

### THE PRESENT HORRORS.

Men living under the above conditions often become outlaws, criminals and degenerates. If any one thinks this picture is overdrawn let him go into the slums of our cities any night and then go into the police court next morning, and he will be convinced of all and more than I have depicted. Only a small percentage comes to light.

These conditions result from existing teachings and tolerations, which produce pauperism, and crime. Think of it, our cities filled with churches, and the majority of our people attending services, and this majority supposed to be Christian people composed of keen business and professional men, together with all other good people who are largely in the majority, allowing such baseness to exist, and the authorities stating they are handicapped by the doubtful policy of the people in power. Are these people in power Christians? If not, why not? Who is to blame? Oh, readers, this is not all we have to contend with! Think of the result of thought sent out from most pulpits asking people to be meek and lowly, who are suffering from the results of this prevailing selfishness; women losing husbands

and sons through drink, their daughters often beaten by brutes in human form, produced through these selfish teachings; can they who suffer feel tolerant toward these supposed Christians who could remedy it if they chose, i.e., those who are wealthy and prosperous, basking in God's sunlight, who enjoy and can adapt all the natural laws to their body. Just think, the poor who produce all products are being deprived of sufficient soil to erect a home upon, and most every law violated, necessarily, that is required to procure health. Can these people think right, living as they do? No. They can not; it is a proven fact that no person can think naturally who partakes of unnatural foods or compounds of any kind, or breathes impure air for a short time; he then has as a result an unnatural body, consequently he will have an unnatural mind and can not think naturally, hence submits to the existing conditions.

## THE QUESTION SOLVED.

This solves the question why men do not adopt the "Golden Rule" under the present theological interpretations and teachings.

Two thousand years have elapsed since Christ explained the truths of nature. The present teachings have failed to produce unselfish man-

hood. New Thought teachings are pointing out the way to change conditions and produce healthy minds and bodies, bringing man to God's standard of manhood, thus freeing him from sin and its discomforting results. Man is far away from nature and must be brought back to gain the change desired. We now understand how impossible it was under the past teaching and conditions and how impossible it would be under the present conditions for man to be free from crime, degeneracy and disease without adopting natural laws, and receiving the necessary education to reclaim him. We have awakened to the fact, with unspeakable joy, that there is now a working formula based upon experience making it possible for man through the force of the above teachings and the scientific application of nature's law called suggestion, to control his condition at once. The force of other minds working in the same direction is a great assistance, therefore, we now assert that man's enslavement in every direction will soon become abolished, understanding as we do how to purify the body, thereby producing healthy minds.

#### LAW OF NEW THOUGHT.

New Thought explained by Charles Brodie Paterson is so concise and clear I quote him: "New Thought people believe the visible uni-

verse is God's power expressed.

"New Thought teaches that all life is one life; that all intelligence is one-that God is the All in All. God is omniscient, omnipotent, omnipresent. That God's spirit is more or less active in the minds of all people, and that each individual receives according to his desires and needs; that there is a natural evolutionary process in the life of man, and little by little he is unfolding the latent power and possibilities; that the ideal man already exists, but the ideal is still seeking perfect expression; that man grows as naturally as does the plant or tree; that law is universal and it is through knowledge of universal law that man brings his life into oneness with the universal life; into a condition of harmony wherein he expresses both health and happiness.

"The new Thought teaches that we should live from the center of life outward, that we should recognize the power of God working within us to will and to do. There should be such an outflow of faith and love and hope from the soul into the mind of man that his thought would really become transfigured, his body transformed and God's Kingdom expressed, 'On earth as it is in Heaven.' We believe that any reform that shall ever come into the world will not be through a work that deals solely with the external life, but

will have its inception in the heart, in the soul and life of man; that there is no problem in life that cannot be solved through knowledge of the law of God as it is written in the heart of man, and obedience thereto. The New Thought stands for a vital Christianity that goes to the very heart of things; that pays no attention to the letter or the form, but creates both letter and form for itself in perfect accord with the inner life.

FREEDOM THROUGH NEW THOUGHT, SOCIALISM AND SUGGESTION.

Humanity's appeal for freedom will be gained through New Thought and Socialistic teachings. Suggestion, the newly discovered law, is the force to use that will give us freedom NOW.

#### HUMANITY'S RELIGION.

New Thought and Socialistic philosophy applied as a working force means the application of the principles and practices of the only known proven governing guide that meets the approbation of all men, "The Golden Rule," "Do unto others as you would have them do unto you." This is God's or nature's message to man. New

Thought and Socialistic people believe the word sin, properly interpreted, means violation of natural law. Violation of the law was originally foreign to us. Man was made perfect and in the likeness of his Creator, therefore our sins are the result of choice with us. I know our present weakness may be partially inherited; we find on the other hand, practically speaking, all of life's ills are traceable, directly or indirectly, to our failure to apply natural laws, to build us up where we are weak through inherited or acquired habits; it has been proved through New Thought teachings, suggestively applied, that natural law will redeem humanity and cure all diseases and habits. New Thought science has adopted the "Golden Rule" as its guide to reach and redeem humanity. Its teachings are rapidly educating and elevating mankind to that high standard of morality and spirituality intended by our Creator. The results already gained have aroused great interest in all public educators. especially among theologians and the learned professions, as a natural cure for mind, body and soul, through the power of thought. New Thought is a philosophy that claims that through the introduction of true thought, into the inner mind or soul, man will eventually become the ideal man. New Thought followers have proved that the inner mind is the

real temple of God, incorporated in us; that we can communicate directly with our Creator; they receive knowledge and power from the center of all knowledge without the aid of any intermediary assistance; they do their own thinking, and they fully believe that the material universe is the word of God, expressing His power and love to all mankind. They accept that God's word becomes manifest in material form; they believe the material or human body represents to some degree man's spiritual and mental life, therefore making it possible for the mind to be invigorated and the body strengthened and made whole through the workings of the inner mind, soul or inner consciousness of every person.

#### THE DOUBLE MIND.

The result of this teaching and training for twenty-five years has awakened all intelligent people to the fact that man's body contains a dual mind. Both of these minds are so delicately blended that it is impossible to educate or treat either separately and procure the ideal result; therefore, to-day we realize that a man to be a follower of God Almighty, must learn nature's laws and apply them. No man can be a Christian in the fullest sense of the word, and be unnatural in mind or body; God's or Nature's laws

must be understood and applied by man to become natural, or, in other words, in perfect harmony with his Creator, which means, perfect health.

New Thought people recognize the fact that no one was ever redeemed or cured by whiskey, drugs, tobacco, etc., because they are unnatural to the body and these products have been the most potent power the non-producer has always used to keep man from enjoying perfect harmony with his Creator and fellow man, producing a hell on earth.

New Thought people, realizing and recognizing the fact that these products make man weak in mind and body, show him how to abandon their use at once without any effort on his part. They bring all to recognize the advantages of purity in life, thus producing Godlike or natural people. Either of these terms will satisfy the person searching for health and happiness.

The practical results obtained have been traced to cause and effect, therefore to-day there can not be found a person who intelligently studies the results gained who will not agree to this statement: New Thought, as now understood and applied, is the exact Science of Life.

P. P. Quinby of Maine was the first New Thought teacher. He was followed by Dr. F. W. Evans, who wrote extensively upon the New Thought teachings. To-day we find the most popular writers of our times advancing these teachings and using their efforts to bring about the universal adoption of the *New Thought Science of Life*, more appropriately called *The* 

Exact Science of Life.

Among the writers can be found Ralph Waldo Trine, Ella Wheeler Wilcox, Charles Brodie Patterson, Prentice Mulford, Horatio N. Dresser, Henry Wood and many others whom space will not allow me to mention. Many journals are being published under different titles, all advocating Mind and its product, Thought, to bring about man's freedom. They represent this progressive movement that is uplifting manhood, without money or price. The new duties and the new powers developed by this ideal, vigorous teaching is stimulating all mankind to believe in a living God, and the possibilities of a Heaven on earth NOW.

The Vanguard and other publishing companies whose advertisements appear in the back of this booklet, publish works on New Thought, Socialism and Suggestion. Send direct to them and you will obtain free catalogues and magazines. Note ads in the back of booklet.

#### SUGGESTION.

Suggestion defined, means any impression received through our five physical senses. Continued Suggestion along the lines of the Golden Rule, reaching our inner mind will become second nature to us and make all humanity live beyond self. Through suggestive science we can regenerate mind and muscular forces. The necessary suggestions applied will produce Phenomenal Power. This power will give man a thorough education along good, honest lines, which means a future working force for good and a conscientiousness produced and incorporated in every one that will bring about a *Heaven on earth*, and men will enjoy that ideal condition looked for from the beginning of time, while living, instead of waiting until they die.

#### SUGGESTION EXPLAINED.

Scientific Suggestion can be utilized to educate the people that receptivity is necessary and essential if they wish to bring about a "Heaven on earth."

The person wishing to become receptive (or

commanded to become receptive) relaxes in mind and muscle and accepts thought, which will impress the *inner mind* when in this condition. This is the ideal state of receptivity, i.e., to accept suggestions given by the operator or speaker. The suggestions thus received are vividly impressed upon the inner mind of the person, and perfect harmony, and perfect confidence will exist between the suggestor and the party or parties suggested to, i.e., if the suggestions are not contrary to the code of morals of the person re-

ceiving the suggestion.

I was the first to dispel the illusion that has existed for ages in the minds of the people in regard to mesmerism, hypnotism, etc. There is nothing in hypnotism and mesmerism except the suggestion given to the inner mind or soul of the person receiving the suggestion, which will receive impressions and act upon them when they do not conflict with the fixed impressions in the inner conscience or soul regarding right. I request you to relax fully in mind and body, and follow me through, promising you that you will receive the Suggestion of truth, and be refreshed by so doing, and you will acknowledge when you understand my work\* and this new gospel, that your future redemption from human slavery is right here, i.e., if you will accept it, and continue to walk with us along New Thought

See Suggestion and Osteopathy by W. I. Gordon, M. D. Suggestive New Thought Publishing Co., Cleveland, O.

and Socialistic lines and use the law of Suggestion. History shows us that the past four thousand years have been controlled by man's selfish suggestions to his brother. New Thought will educate you how it is possible to overcome this selfishness. Then if you will suggest nature's proposition to yourself, you will be free in mind, and no one can then enslave you, and you will become one of the practical working units in nature, assisting to restore those who cannot, and will not accept Heaven now. This is due to their ignorance of natural law, and its workings upon them. They must be strengthened and educated up to the conception of our ideal life. Man was originally free from all enslavement in mind and body and born to enjoy all of nature's blessings, which consists of soil to live upon where a home can be built to enjoy fresh air, sunlight, and a share of this world's goods. These enumerated blessings are necessary for perfect health and happiness and belong to every producer.

It is always necessary to receive any teaching from those who can give truth. Especial precaution is necessary when receiving scientific sug-

gestion.

#### SUGGESTION APPLIED.

If men would live on this earth for one genera-

tion, deal justly with their fellow man, their future existence would be doubly secure and war, pestilence, crime, misery, degeneracy and those factors that are undermining society today would be eradicated and we would enjoy Heaven on earth and we would not be obliged to leave the body before realizing our ideal future. Until the law of Suggestion was fully understood and its application proven, the conditions enumerated above, i.e., (a Heaven on earth) was not deemed feasible, but now it is a scientific fact that this ideal condition can and will be realized soon. The rapid advancement of suggestive training within the past two years and the results obtained through the power gained by educating the inner mind proves there is an adaptable working force latent in all people that can be utilized to elevate man. Suggestion proves there are higher and better methods to be used to produce good than have ever been utilized in the past to produce evil and evil powers can not be used when Suggestion is thoroughly understood by the people. We now utilize scientific suggestion to suggest right thoughts to the mind and through thought the mind forces are built up and the mind becomes so strong that it conquers all bodily weaknesses, bad habits of all kinds are abolished. And man becomes strong within himself. In conclusion we wish to state that puremind forces will soon predominate over all evil ones and "The Golden Rule" will be adopted through the scientific education of suggestion to the inner mind. Every man and woman should begin to educate themselves so as to educate their children in this direction making it possible to produce a second ruler equal to the lowly Nazarine in the near future.

#### SUGGESTIVE CURES.

A few of the many individual results gained by scientific Suggestion in my own practice:

Ist —Mr. G. —, over forty years of age, unmarried, had been an alcohol and tobacco user for over twenty years, cured in two months. Two years has elapsed since treatment and he has never touched liquor or tasted tobacco since beginning treatment. He is now a sober and industrious man, lately married, has a genial companion and a happy home.

2nd.—H—— T——— of Cleveland, 42 years

2nd.—H—— T——— of Cleveland, 42 years of age, who was for sixteen years incarcerated in the insane asylum, after taking three months treatment was cured and again resumed the re-

sponsibilities of life.

3rd.—Mr. C— E—— of Cleveland, age 32 years, married, spent the past seven years in insane asylum, cured in five weeks and began

working at his trade and is now a good and useful citizen.

4th.—J— T——, age 32 years, married, pronounced incurably insane by eight different physicians, after they had treated him five months cured in seven weeks' treatment and worked ever since. Nearly two years has elapsed since being cured and no return to insanity.

#### THOUGHT SUGGESTIONS ACTING UPON THE BODY SECRETIONS PRODUCE POISONS THAT KILL.

Striking illustrations of thought force acting upon the body functions: Prof. Elmer Gates has demonstrated by chemistry, that thoughts of envy, hate, anger, and others that will produce evil, produce a poison in the system, which ultimely results in disease. Authenticated cases are recorded of nursing children having been thrown into convulsions shortly after suckling, and an examination of the mother's milk proved that it was poisoned. The only cause which it could be attributed to was the violent passion of anger the mother had indulged herself in which had produced chemical changes in her secretions. and poisoned her milk. I have had three cases in my own practice which could be accounted for in no other way. Two occurred in one family. The facts in this instance were as follows: The husband came home intoxicated, money squandered and the wife indignantly upbraided him for his neglect of the family. After the altercations she nursed her babies to quiet them; the babies died in convulsions a few hours afterward in each case. After the second death under like circumstances the mother was convinced the cause was due to her poisoned milk through the effects of anger. These deaths were two years apart. The third death alluded to, the conditions were very similar to the ones before narrated.

#### INSPIRATION FROM SUGGESTION.

5th.—Mr. H——, age 21, had given up ever trying to educate himself to reach his ideal of life, his family and immediate friends had also lost faith in him. After four months suggestive treatment he is studying law, his ideal profession, with a lawyer who tells me he has a great future before him. I have, through the application of Suggestive law, reclaimed many of the worst cases of stammering, and stuttering, requiring from one to three months time; children and adults with vices and bad habits, also kleptomania, etc., and many forms of nervous and other diseases. I trace thought as a cause of many

diseases. I will enumerate a few of the many. Nearly all forms of nervousness, insanity, maliciousness, stealing, lying, bad habits in general, etc. They can be cured by thought ONLY. Suggestive power is unlimited. We find many honest working cults, isms and ologies, claiming motherly protection, under the broad banner of suggestion and adopting its laws. Others are using Suggestive laws, and being too dishonest to admit it, they pretend to be especially endowed in certain directions, thereby trying to delude humanity; they too often accomplish this result. Nature, or God, is not mystical, and can be un-derstood by all intelligent people who carefully study her laws. Therefore, it is necessary for the people to guard against those who pretend great powers and new discoveries.

# PROOFS THAT NATURE CURES: MEDICINE NEVER CURED.

Professor Valentine Mott, the illustrious British surgeon: "Of all the sciences medicine is the most uncertain."

Dr. Marshall Hall, F. R. S.; "Thousands are annually slaughtered in the quiet sick-room."

Dr. Gilman, of New York: "A mild mer-

curial course and mildly cutting a man's throat are synonymous terms."

Professor E. R. Peasley, M. D., New York Medical College: "The administration of powerful medicines is the most fruitful cause of de-

rangements of the digestion."

Professor A. H. Stevens, New York College of Physicians and Surgeons: "The older physicians grow the more skeptical they become of the virtues of medicine, and the more they are disposed to trust to the powers of Nature."

Professor Chapman, author of a standard textbook, Therapeutics and Materia Medica: "Onehalf of all who are born die before they reach seventeen years of age. The average man, according to statistics, does not live out half his days. The responsibility of the medical system for this sad uncertainty of life cannot be questioned."

Professor B. F. Parker, New York: "Hygiene is of far more value in the treatment of disease than drugs. As we place more confidence in Nature, and less in the preparations of the apothecary, mortality diminishes. The drugs which are administered in scarlet fever, for instance, kill far more patients than the disease does."

The late John Hilton, F.R.S., F.R.C.S., Pres-

ident of the Royal College of Surgeons of England, Surgeon Extraordinary to Her Majesty the Queen, etc.:

"By therapeutics, however, I do not mean to imply the action of drugs \* \* \* but what I may call 'Natural Therapeutics'—rest, physiological as well as mechanical. \* \* \* Nature's power of repair \* \* \* That the Lord of all should have implanted in man a recuperative power from the accidents and mischances of his precarious existence, appears to me to supply an evidence of His merciful and unspeakable love, too lightly considered."

Dr. Oliver Wendell Holmes, for forty years professor of anatomy in the Harvard University

Medical School:

"Mankind has been drugged to death, and the world would be better off if the contents of every apothecary shop were emptied into the sea, though the consequences to the fishes would be lamentable. The disgrace of medicine has been that the colossal system of self-deception, in obedience to which mines have been emptied of their cankering minerals, the entrails of animals taxed for their impurities, the poison bags of reptiles drained of their venom, and all the inconceivable abominations thus obtained thrust down the throats of human beings suffering from

some fault of organization, nourishment or vital stimulation,"

William Porter, M. D., Hartford, Conn., author of "Health and Disease":

"A vast amount of brain work has been applied to observe and classify the symptoms of disease; a vast number of theories have been invented how to destroy symptoms; but nearly all the progress that has been made during the past ages is summed up in the fact that a greater potency overcomes a less. And as most of the means used have been pernicious and deadly in their tendencies, it corresponds to the wisdom of burning a barn to kill the rat in it."

W. I. Gordon. M. D., D.P., D. O. in "Suggestive New Thought:" All systems depend upon the natural law called suggestion; there is only

one law of CURE.

C. W. Cram, M. D., in "The Arena:"

"Practical medicine is an old hulk, out on the professional sea, without sail, oar, rudder, compass or North star. It has no head. It has no body, unless we accept as such the conglomerated mass of discordant elements seen in the opposing schools, allopaths, eclectics, homeopaths, etc. Its reliance is in its voluminous tail, a prehensile tail by which it clings tenaciously to old-time theories and dogmas. It looks to its tail, with its old theories, dogmas and traditions for impulse and guidance."

# HUMAN BODY CHANGED IN THREE MONTHS BY SUGGESTION.

We know by actual results that every diseased person's body can be changed in three months, therefore man's enslavement could exist only three months, i.e., if every man would adopt natural law. The majority of people—the masses—who wish nature's plan to prevail must adopt these suggestions to receive their freedom, and the minority will have to accept God's plan at last and awake to the realization that this earth can be a heavenly place now.

#### AN AWAKENING NECESSARY.

Readers, arouse from your slumbers and demand what these teachings with scientific suggestions will do for us in the future. Give suitable impressions to those who have been suggesting to you, i.e., to live without your heritage and inform them that we now understand the channels through which they have operated to produce existing conditions, therefore, we will now use the same method to correct the present systems and conditions and demand liberty to its fullest extent *Right Now*.

The method to be used in the future will be continued affirmation or suggestion of freedom to ourselves along the line that we have been wronged. The continued impression gained upon the inner mind, or soul, of the individual will become a working force in him to such an extent that it will control him completely, and future enslavement cannot exist.

What will Suggestion do for humanity quickly? It will give them nature's freedom in every respect—no man is a Christian who does not use his influence, money and individual effort, to assist in righting the wrongs of nature's children NOW.

#### THE DOUBTER.

I hear the pessimist say it is impossible to right the people immediately after four thousand years failure to bring about universal brotherhood, which means equal rights to all men. I know it is possible and if you have followed me closely you will agree with me. Through thought you can throw off the present existing condition of slavery forced upon us by our enemies, *The Non-Producers*. You must stand for nature, adopt her laws, and after three months universal education we will purify the body and mind, and natural or Godlike men will be the result, and they will demand freedom—the Non-Producer will be dethroned.

"And all men kill the things they love,
By all let this be heard:
Some do it with a bitter look,
Some with a flattering word.
The coward does it with a kiss,
The brave man with a sword."

#### SOCIALISM!—WHAT IS IT.

IT IS A PRACTICAL GOSPEL, PROPOUNDING A SCHEME OF SOCIAL ORGANIZATION TO BRING ABOUT THE REALIZATION OF THE BROTHERHOOD OF MAN; MAKING THE PRESENT UNJUST SYSTEM INOPERATIVE.

The essentials of New Thought and Socialism, as now understood by the best developed minds in both movements, are identical; therefore they will be inseparable in the future, working together, with one common object in view, namely, the development of humanity to a conception of the fact that the realization of the brotherhood of men is necessary now, to enable humanity to evolute. Selfishness in the individual, as well as collective selfishness in our institu-

tions, renders imperative the necessity of puting this doctrine of unselfishness into operation RIGHT-NOW; and the people must first realize this necessity, and then demand its relief.

New Thought is developing the inner mind of the individual, therefore regenerating soul, mind and body. The latent powers within man are first awakened, then quickened into action under the inspiration of the teaching, and we necessarily become broader in our conception of duty, to others as well as ourselves. Once awakened, we see the impossibility of doing our duty to self without extending the same privileges we covet or desire, to others. In other words, we see that the unity of humanity is necessary because man's duty to self and others is one and the same. With the full conception of his own responsibility, the unity of humanity's interests becomes necessary to man, because inseparable from his development, This fact forces him to accept what Socialism stands for.

Each movement has its individual work in revolutionizing existing unbearable conditions, which dwarf mind and body. These two movements necessarily revolutionize past teachings in regard to humility, long-suffering, sin, disease, privation, etc., being necessary. Having the

proper conception of God's bounty, they teach that poverty, suffering, crime, disease, pain and all unnatural conditions are unnecessary, and have been tolerated because man has been a slave to doctrines founded in selfishness and greed, to perpetuate the ease and idleness of a part of mankind by the sacrifice of the comfort, and, in millions of cases, the lives of the remainder.

These teachings are developing God-like men, who are becoming capable of entering upon the duties of the New Commonwealth that is

struggling for existence.

The brotherhood of man can never be realized until the facilities of production, distribution and exchange are owned and controlled by the whole people, instead of individual trusts and combines, as they are at present. Adam Smith wrote: "Labor creates all wealth; therefore to labor all wealth is due."

#### SOCIALISM IS PRACTICAL CHRISTI-ANITY.

It is an undeniable fact that Christ's philosophy has been embodied into a practical plan for the

government of God's children.

It is two thousand years since this teaching was given to the world, and the lack of application up to this time has been keenly felt by practical men. All along the ages the lack of application has caused wars and riots, with their

degenerating effects upon the people.

It is a fact that greed, either in the individual, state or church, has been the producing factor to continue this system of ignorance. We can attribute all crime, misery, and want to this factor; therefore, it has practically caused all the trouble that man has had to contend with in the past. The party advocating this philosophy to govern the people is composed of the brainy men among the producers, those who produce all commodities that man requires or uses. The party has not covered up its purposes and aims with uncertain terms; it advocates equal rights to every producer, the same principles that are laid down in the Golden Rule.

It endeavors to cut out all products that are worse than useless, as sustenance, and produce hell on earth, namely, whiskey, tobacco and all unnatural food compounds, which are the cause of necessitating jails, reformatories, insane asylums and criminal courts, and which furnish victims to fill up these institutions, causing unnecessary labor in all directions.

Every Christian wishes to assist in eliminating all factors producing or making necessary these institutions, and unnecessary labor, hence you should join in bringing about a Heaven on earth, as well as one in the great hereafter. These are a few of the many reasons for every Christian to support this party. It is trying to assist the downtrodden people, and aid them in this great effort of reform right now! Your services and support are needed.

### FREEDOM THROUGH SOCIALISM.

Why should all people support Socialism?

Because every person of intelligence who has studied its philosophy has pronounced it sound in principle and logical for adoption as a working formula to bring about man's freedom, therefore, this new departure from the old method has received the endorsement of all intelligent men who have humanity and its privations, sufferings, etc., at heart. The new party is the producer's party. We find all unselfish producers advocating this party; many clergymen and physicians have espoused its principles, hence favor and support it, and a few lawyers have joined the ranks.

Socialism is a direct appeal to every producer to vote for his own interests and bring about individual rights through co-operative methods. (E. Pluribus Unum is the motto we have adopted to the control of the contro

ted.

Sociological students and college professors noted for their learning have assisted in the formation of this movement, known as the Socialist plan for government. They are men noted for having the interests of the people at heart.

The thinkers of the civilized world concede that this is the most practical plan ever presented to man to bring about equal rights to all men. Freedom and justice, extended to the people, are the only necessary requirements to produce what Socialists are seeking to produce—manly men, who will recognize their rights and then vote for them. The logic and practicability of this party has given it a footing RIGHT NOW, and its followers have a right to expect to elect their president within a short period.

#### HUMANITY'S GOSPEL.

This is the first party to incorporate in its workings those standard and fixed principles of love and justice that characterized the life of the world's greatest reformer, in fact, the ideal and greatest Socialist that ever lived, Jesus Christ. Strange, is it not? But none the less true. It has required nearly two thousand years for this unselfish example to be formulated for adoption into politics and to be used as a political basis to

appeal direct to the people. The grandness of the men who formulated this party led them to adopt the principles and teachings of the lowly Nazarene, whose unselfish life was lived for the people's guidance and has always been pictured since the crucifixion as the ideal life for man to pattern after, to live happily on earth, as well as in the great hereafter. The clergy of all Christian denominations have failed, up to date, to put this emblematic life into politics, to govern the parties in power, who have defrauded the people of their rights in every direction and caused almost all of the suffering and crime and most diseases that humanity must contend with. It remains for the ideal party to adopt these principles. Therefore, we call the Socialist party the ideal one. We must not be deceived by the selfish motive or the mistaken idea that the clergy may entertain now, if they enter any of the old political parties and seek to carry by their influence the voters who have been so treacherously dealt with in the past. The millionaires have a logical way of inducing the clergy, very often, to do their bidding.

It has been wisely remarked, "that one swallow does not indicate summer," neither will a few ministers in the minority of power purify either of the old parties of their corruption and treachery to God's children. Beware of such tactics. Every clergyman knows that the governing powers of nations for ages have done but littlepractically nothing-for the elevation of man; therefore, I think but few clergymen will lend their influence to perpetuate this system of slavery, which has become a menace to all good-It must be abolished, as it is against all of God's laws. The laborer who is compelled to toil eight, twelve or eighteen hours out of each day can be excused if he does not vote intelligently for his own interests. He is enslaved by conditions, and cannot procure necessary time to become educated, but who can or will excuse the clergyman who dares perpetuate the old systems and their methods, with the innumerable examples of humanity's past suffering from the grinding policy that has been forced upon the people by the old parties, confronting them? We are hearing some noble appeals from the pulpits for Socialism, and we know that every clergyman must feel it his religious duty to purify politics by assisting to bring about a change on earth now. Socialism is the political remedy to produce Heaven on earth by relieving the distressed, bringing back health to the starved and dying, giving them the requisites necessary to live beyond want and anxiety.

#### SOCIALISM IS MAN'S EMANCIPATOR.

The intelligent observer begins to realize that the rapid exchange of ideas within the past two years has produced the keen, intelligent perception in man that is absolutely necessary to solve the greatest and most vital problem that confronts humanity now, i. e., emancipation from slavery. History proves that the few who have lived at the expense of the many in the past have

been non-producers.

They have become emboldened through the submissiveness of the masses, and to-day the climax of their greed is seemingly reached when one man in the United States, known as Pierpont Morgan, has concentrated the non-producers' accumulated wealth, which was produced through sacrifice of thousands of producers' lives, and uses it as a leverage to dictate to hundreds of thousands of producers what they shall accept as a living wage. It has been authoritatively stated that with every meal Pierpont Morgan drinks a bottle of wine that costs \$28. This amount is nearly equal to the average amount that each coal miner receives per month for his labor, which requires him to risk health and life to earn.

Upon this amount his family must live. The non-producers maintain the producers are well paid for their labor. They can spend one hun-

dred dollars or more for a meal while people who work nearly starve for bread. The non-producers through avaricious greed have brought this ungodly state of affairs to a climax. The producers have been obliged to form a political party to exist. Therefore, the important problem that confronts the people to-day is, who shall govern? The representatives of the producer, or the representatives of the non-producer. The Socialist party stands for, and is the heart and soul and very life of the producer. It demands compensation for all labor, claiming the laborer is worthy of living naturally. The existing political parties stand for the non-producers (the millionaires), who have nothing to offer God's people but their selfish, unnatural system, which has and is producing war, crime, pestilence, disease and untimely deaths. We have had enough of this slavery. Society is practically divided into two classes at present. The slave and the slave holding class. The industrial slave is the producer of all wealth, and the product of his toil is confiscated by the non-producers, the slaveholders, who act as self-constituted guardians, giving the laborer what they say or think he deserves out of his own production.

Readers, just think of this monstrous audacity. The masses producing everything, and the capitalists giving them what they see fit out of their own production. Who gave them the power? Did God Almighty ever give them this authority? NO! Decidedly no! Man has been reduced to slavery through his own brother's selfishness.

#### THE NEW AGE.

A new age is here now. The causes of man's enslavement are becoming fully understood. Socialists are appealing to the producers in every country to overthrow the so-called masters' power through mental methods, to obtain partial if not entire freedom through legislation and arbitration. This has been denied them in the past. The so-called masters claim they have nothing to arbitrate. Their attitude plainly shows us they expect this unnatural system to continue. You and your families must live in uninhabitable places, live upon unsuitable food, risk your lives to obtain the miserable pittance allowed you, that the masters may drink wine at \$28 per bottle, and have everything else in accordance. These plain facts cannot be denied; therefore, every true, manly man must and will cut loose from all past entanglements in politics and stand and work for Socialism, the party whose aim is to produce homes, health, virtue, happiness and give all producers plenty to eat and wear. With these

necessary requisites assured, man will strive for that higher plane of development his creator intended him to occupy, but which has been denied him in the past ages by self-constituted rulers. The masses have no middle ground. If they obtain freedom now, they must vote for themselves

and wipe out class distinction.

The people are now offered a new plan of gov-

rnment which has the basic proposition of uniting all material efforts for the advantage of all the people, and bringing them into possession of perfect happiness and prosperity. It is Christ's philosophy practically applied in government and called Socialism. Its adaptability is being generally accepted, hence it is a most practical educator of the internal life, making environments and conditions possible for man's inner nature to develop. Call man's inner nature what you will, this fact stands out clear and distinct, that there is an internal entity in every person that can be cultivated to a degree undreamed of in the past.

Suggestive law will quickly free all persons from enslavement. How? Through the edu-

cation of the internal mind.

The suggestive method can be used individually, to develop the internal nature, but better results are obtained at the beginning, through experienced operators.

#### NATURE'S GREATEST POWER IS DE-VELOPED THROUGH

Constant affirmation or Auto-Suggestion to the internal mind or soul, will educate man, and bring about any result required quickly and scientifically. This is the method for man to understand to be free, and when understood he will demand freedom. I know that man's freedom will be granted as soon as he understands this law and its workings upon himself. All who understand Suggestion can prove that man has been kept enslaved in the past by the non-producer's suggestions.

The masses have been receptive to the suggestions given; hence, became enslaved and hell on earth has been produced in past ages. Suggestions reaching the public come principally through two channels. The two channels or mediums that are utilized for fixing suggestions upon the public mind have been principally, the Press and the Pulpit, therefore humanity has them to thank for its present condition. can free it now. Will they?

The up-to-date clergyman begins to read the sign of the times, and he no longer preaches the enslaving ideas of class distinction. He knows that the public begins to realize that it is unchristian or ungodly teaching, therefore the educated

among the masses will not listen to it any longer; they realize it is this teaching that fettered them, and produced the non-producer. Many clergymen have been obliged to recognize this factthey also recognize the working of one of nature's greatest laws, which is, "Like produces like," and therefore have made a radical change in their teachings; they no longer personify God as a being filled with wrath, requiring and demanding his people to war upon each other to establish creeds, to build churches, with the many annexes these institutions seem to require. Their aims and purposes are now fully recognized and known to all observers, hence the change in their doctrine and methods. We know the desire of their founders was to establish certain methods for self preservation. The clergy have further discovered that humanity demands the so-called Christian to be humane, therefore every Christian teacher must educate his followers that God is humane, all-love—that he gave his children as a birthright all of nature's blessings, which consist of soil to live upon, where a home can be built to enjoy fresh air and water, sunlight and happiness; for these are essential and necessary to perfect health—to a Christ-like life.

The Vanguard and other publishing companies whose advertise ments appear in the back of this booklet, publish works on New Thought. Socialism and Suggestion. Send direct to them and you will obtain free catalogues and magazines. Note ads. in back of

booklet.

#### THE NEW INTERPRETATION.

Any theology that educates the people "Whom the Lord loveth he chasteneth," is keeping the people diseased, and environed in localities where they can not recover morally, mentally, physically or spiritually. Why? Because God's ex-

tended blessings are absent.

The people have accepted unnatural teachings in the past, given by their spiritual advisors and other teachers through ignorance. This acceptance has produced hell on earth and the human slave. You ask, "How did this extreme submission come about?" I answer, because it was continually suggested to the people by the clergy that our Almighty Father requires us to be meek and lowly, long suffering, etc., and the non-producers all sanctioned this doctrine and unfortunately the people accepted. How can any intelligent person accept this teaching now? one should. THE NEW AGE HAS DAWNED. Suggestive, New Thought and Socialistic people invite all to believe in the fullness of God's bountiful gifts to his children, and educate others to a proper conception of His methods and blessings. They believe God's messengers should be living examples of Health, and unflinchingly give Christ's philosophy. They assure the clergy if they will accept the reward good old Dame Nature extends to all of her children, i.e., those who obey her laws, they will receive and enjoy perfect health.

#### THE NEW TRINITY.

They teach that every person requires and must have, to become natural or Godlike, fresh air and water, sunshine, natural food, physical exercise, recreation and mind stimulus to be healthy. They fearlessly assert that any person or corporation employing persons to workand who do not give them sufficient means to procure above necessaries to produce health, are not working according to nature's plan, therefore they are unjust, ungodly, and in the near future will receive the result of their present greed. Most of them receive their punishment on earth. No dejected or sick person who has suffered from the result of past conditions, after reading this article need despair. I have directed diseased and despondent people to health when they were supposed to be beyond assistance, times without number, within the past five years. This proves that every cell in the human body can be entirely renewed. This result was generally accomplished within three months in every person under sixty years of age. As a rule all persons treated Suggestively and naturally by

competent operators, will become perfectly healthy. There is only one law of cure and that is nature's law, now called "Suggestive Law." All systems of healing do, and must, depend upon this law.

#### THE NEW LIFE.

A new life is produced through understanding and applying this law, without drugs. This is the only method that can be used to promote *mind force* or health.

There are thousands of ways or systems advocated to produce health—only one law, now

called the law of suggestion.

No apology is necessary for giving the above suggestion here, because the masses need mental force and healthy bodies to win freedom. We must all come to nature to procure health or vital force, and with this same force we can gain all material changes desired, right now. The sooner we learn how to develop this force, the quicker we will become healthy and happy. It is impossible for anyone to develop morally, mentally or spiritually without health.

Health produces manhood, manhood requires

freedom.

#### ALL PEOPLE KNOW.

We require a healthy body to produce a healthy mind, and no one can think properly, who is diseased or out of harmony with nature or God. I believe when the soul educators, (the clergy), are perfectly healthy, God's spirit works in them with irresistible force, and the inspiration gained will give them moral courage and power to live as they suggest the masses should. They will then fight for natural conditions for the people and wage unceasing war upon the manufacturers of and dealers in whiskey, tobacco, unhealthy foods and all forms of dope; also upon the ungodly politics that produces trusts and combines, which make the existing unnatural system possible.

Again, it is absolutely necessary for them to develop the requisite stability of character and unselfishness to enable them to use their influence with their wealthy parishioners who manipulate securities, form trusts, etc., giving nothing for something. It is the clergyman's duty to inform these people that no man can be a Christian or a Christlike man, and ask for more than he will return—church members in many instances under the present system give nothing but worthless securities, pretending they represent value, for good, hard-earned dollars, that have

caused the people years of toil and privation to accumulate. These vampires and parasites, are masking under many different names-brokers, speculators, etc. Practical work along the above lines will be of great value to God's children. It is the only practical, Christian work towards the building of a Heaven on earth, and it will revive the faith of the masses in the clergy, which is sadly lacking at present. It is a surprising fact, but nevertheless true, that most non-producers pretend God requires them to take yearly trips abroad for the benefit of their health, while the producers stay at home and toil for them while they are in search of health. The producers must live in unsanitary places twelve months each year without a change of air or conditions, and in the past have been obliged to submit to the belief that what God requires for the non-producers, the capitalists and partial producers' health, does not apply to them.

#### SLAVES THROUGH PAST SUGGES-TIONS.

What stronger proof of suggestion could we have demonstrating man's mental enslavement and submission from past suggestions given by the classes than this simple example affords?

Another strong suggestion to face is this: The

laborers have built the churches and all structures yet have neither homes to live in nor pews to worship their Creator in. Is it not strange that those who have taken possession of the products of labor for ages should imagine that they can continually invest and hold man's inheritance given to him by Almighty God, and still be Christians?

Unselfish, practical religion is what the people want, together with natural rulers and teachers, because we can produce, through education, homes with conditions and facilities to enjoy nature's blessings.

These conditions produce healthy people in-

stead of degenerates and weaklings.

The present tendency of most religious sects is to build grand churches costing fabulous sums of money. This money should be used to produce christian homes and not material temples to worship in; all true religion is within each person's soul. To illustrate this statement I will cite a church being built in the city of Cleveland (corner Euclid and Perry) which is to cost three hundred thousand dollars. That means three hundred thousand days' work at a dollar a day.

If this amount were divided into three hundred parts, it would furnish three hundred families with respectable homes with plenty of soil to make a living upon, where all of nature's blessings could be enjoyed three hundred and sixty-five and one-fourth days in the year. If we calculate five persons in every family it would give shelter and health to fifteen thousand people. This church will furnish a meeting place for a few people two or three times a week. This example is only one of the hundreds of thousands throughout the world. Who could be so ignorant as to imagine that this is God's plan to educate his people for eternal blessings?

I answer, no one!

Why perpetuate these ungodly methods?

#### CHRISTIANITY AND SOCIALISM.

Every Christian is necessarily a Socialist, because Socialism has only one aim, and that is to procure for man his natural rights, thus elevating him and enabling him to live in conformity with true Christian teachings. All Christian ministers must advocate Socialism if they do justice to God and his people, for it is the only feasible plan to bring about the principles laid down by the world's greatest Socialist, Jesus Christ, their guide.

Socialism summarized means the application of the golden rule, "Do unto others as you would have them do unto you." People advocating

these principles are the only ones that can be trusted to represent us. What sensible voter would support any man who has gained millions from the people. He never earned this amount honestly, therefore cannot be trusted. We know all inherited wealth was earned by the producers. Can a minister of the gospel conscientiously advocate such a man? No! The clergy know that no man can gain one million in his lifetime honestly, and for that reason he is a stranger to

God and his people.

The only charitable conclusion any intelligent' person can arrive at in regard to the clergy advocating or upholding millionaires for office is their ignorance upon economic questions. The masses will not support them if they remain in ignorance upon this most vital question. Their energies and entire support are needed now to produce man's freedom and make Christian environments for the sick, aged, distressed, overworked and downtrodden people who look to God's messengers (the clergy) to assist this grand and glorious effort. We await the outcome with intense interest.

I conclude by stating every voter irrespective of color, religion, political affiliations, or what not, must and will support Socialism if he is a true man trying to uplift humanity and make this earth a Heaven NOW.

#### WHAT IS THE NEW FORCE?

It is the energetic life produced in man through the inspiration gained by awakening the dormant energies within them through these "New Teachings." The individual strength produced has been considered phenomenal. I know it is the natural undeveloped character-building strength in man which unfolds and develops rapidly under these inspiring teachings. The harmonious and natural thoughts emanating from new thought, socialistic and suggestive reading is crystalizing into one grand and glorious message which will revolutionize existing conditions, and man will soon be able to look his fellow man in the eye, and say "My brother." I have endeavored to show the parallel purposes in each movement. The space allowed in this booklet is insufficient to enter into details. I fully believe other authors will realize the necessity of joining these three great movements, after perusing this booklet they will then assist in harmonizing all people who follow these movements into One Party. When this is accomplished Nature's banner will be unfurled and Man will be FREE.

"Surely there was a time when I might have trod The sunlit heights, and from life's dissonance Struck one clear chord to reach the ears of God. Is that time dead? Lo: with a little rod

I did but touch the honey of romance—And must I lose a soul's inheritance?"

HUMANITY'S REDEMPTION will come through New Thought, Socialism and Suggestions' combined inspiring force. Unified it is known as "THE NEW FORCE." This force inspiring man produces individual strength and character herebefore unknown. Man's redemption is now sure with

#### THE NEW FORCE.

#### HEAVEN ON EARTH IS POSSIBLE NOW.

The New Era is here and every intelligent person believes that his Creator meant him to be happy and healthy and enjoy his natural birthright. This full enjoyment is not possible under existing conditions, therefore it is dawning upon man that there must be a cause and a grave one. Our Creator's purpose has been thwarted, therefore all humanity suffers in some degree from the result of the present barbaric system, which produces hell on earth for many of God's children and a heaven for none. We naturally ask how is the present system to be overthrown and our all-wise Creator's plan established right here on earth, "Thy will be done on earth as it is in heaven." We find clergymen who have awakened

to the fact that the people demand that the selfish teachings of the past be substituted by genuine Christian teachings that meet the requirements of the people now; therefore the up-to-date clergyman is throwing off all mysticism and taking up practical Christian work and applying it. The greatest amount of good that they can accomplish right now is to help the people throw out the degenerate office holders who are continu ally establishing laws to perpetuate their own defiled existence, which is both unnatural and ungodly. What a grand work the clergy can do for their Creator and his people, if they will direct their efforts toward making these human parasites return to honorable work and elevating honest men to office. No country can be a Christian country until every citizen in the country produces something for the benefit of his fellow man. The non-producer is the only devil humanity has ever had to contend with, and every honest, intelligent clergyman will acknowledge this.

## NON-PRODUCER IS HUMANITY'S DEVIL.

These parasites are working night and aday to perpetuate their present system, which enslaves the many and keeps them intemperate, poor and sick, or in other words, unnat-

ural. The rapid exchange of thought within the past few years has produced in the masses that intelligent, keen perception so necessary to gain radical changes in every direction, especially necessary in solving this problem, which outweighs all others. How can the masses force the non-producer to go to work and not spend his time as he is now doing, i. e., concocting all kinds of laws and schemes to outwit God and deceive man. This problem is up to the clergy and the people right now, and should be solved in a human manner. It is no more possible to continue the present system and its false doctrine and have peace and harmony, than it was to continue human slavery 40 years ago. It is slavery only in a different form now. The few who have been non-producers in the past, and lived upon their fellow men, have, through their avaricious greed, awakened the people to a slight conception of the extent to which they are already enslaved by these parasites, and if they are not checked, no one can prophecy the result. The

## ALL SLAVERY IS PRODUCED BY THE NON-PRODUCER.

people begin to see the real cause, and the producers are challenging these human monsters, parasites, or non-producers, and demanding bet-

ter conditions and fair pay for their labor. This being denied them, they are suffering from the effects of strikes brought about by the non-producers, the capitalists, not by the producer, who is willing, and does work although often half starved. Readers, do not be deceived by any one's theories. The greatest question of all questions that confront you, is how are we to educate the non-producer to accept and understand God's law, "Man must earn his bread by the sweat of his brow," and bring him to a realization of the nobility of honest toil and make him productive. These unproducing people have brought about war between Capital and Labor, better termed war between the Non-Producer and the Producer It is, practically speaking, a war between the slaveholder and slaves. I will explain these terms according to my application. I hold the slave holder is the *non-producer*, who is manipulating capital, trusts, combines, etc., backed by the unjust laws he has created to enforce their workings, together with all governmental powers which are being used to continue this ungodly system of slavery. The slaves are the persons who are the producers, or in other words, the victims of the present system.

We, who are students of Suggestion, understand how this system was produced, and why

tolerated for thousands of years.

#### SUGGESTION WILL FREE US.

The Law of Suggestion is just being explained to the masses through some of the leading magazines and periodicals. It is now an understood fact by all investigators that all the different sects and societies are depending entirely upon this law to place their philosophies and theories before the people. Some of the recent ones are, Mental Science, Christian Science, Mental Affirmation, the "I Am" theory, Spiritualism, and others too numerous to mention. All these sects directly or indirectly advocate the education of the inner mind, the inner conscience, the inner self, subconscious mind, the involuntary mind, the still small voice, or the soul, all meaning the same. The sects enumerated have a philosophy which is grand and inspired, but attached to them are the parasitical non-producers who have always lived without working. Every producer must become educated that the inner mind forces control him, unconsciously to himself. This realization will place him in touch with those who can impart knowledge, and teach him how he can intelligently educate himself, and build character scientifically, and accurately. Socialistic doctrine is absolute truth, and one of the new applications of Christ's philosophy energetically applied, for bringing the people out of darkness, sin and mis-

Suggestion and its laws fully explained in "Suggestion and Osteopathy," by Suggestive New Thought Pub. Co., Cleveland, O.

ery to perfect health and happiness on earth.

#### NATURE'S REQUIREMENTS ARE NEC-ESSARY TO PRODUCE HEALTH AND HAPPINESS.

You will agree with me that it requires a healthy body to have a healthy mind, therefore, every man must awaken to the fact that he cannot drink spirituous liquors, eat unhealthy and unnatural food products, drug his body, and have a natural mind. All transgressions cause weakened mind and body forces, therefore we often allow hereditary and acquired weaknesses to control us, and we do not insist upon having our liberties, and often when we do insist upon having them, our weakened minds give way to the mind force brought to bear against us by our oppressors who are well nurtured and stimulated by the unjust laws to expect injustice must prevail, We fall back and submit, thereby admitting servile weakness, although in the majority, and physically the stronger, we lack confidence in ourselves or leaders. I contend no cause can be lost that is just, if men believe in themselves.

If you wish freedom you must understand New Thought, Socialistic teachings, and you will then eat and drink and live right, and then your mind will be so strong that it will be impossible for any combination to enslave you. You will

suggest to your oppressor.

The results now being obtained from suggestive application of these teachings were looked upon in the past ages as miraculous. We now understand that it is the result derived from ap-

plication of natural law.

The leading periodicals are either trying to prove or disprove these teachings. They universally agree that Suggestion has solutionized the greatest of all questions, i.e., the redemption of man. New Thought people are utilizing affirmation, which is auto-suggestion, to bring about their ideals of life. The methods of giving Suggestion, being now established, we apply this natural law which governs man. Hence we are positive of gaining results immediately, therefore we can unhesitatingly state that the new teachings applied through this law called Suggestion, based upon present results, will rule and free the world quickly.

#### PAST METHODS.

The oppressor of mankind has used all conceivable methods to accomplish his designs—to procure the *present system* we exist under. The dawn of universal freedom is with us.

In recapitulation I will say, New Thought and Socialistic teachings applied as a working force through Suggestion will free the world. We all agree continued suggestion for ages has enslaved, and is still enslaving the people. I know by experience this can be over-come through New Thought and Socialistic teachings with continued suggestion scientifically applied. Wrong Suggestion in the past has produced the non-producer or the unscrupulous persons who became wealthy and powerful, generally fat and lazy, taking plenty of time to place themselves or others who will do their bidding, in power, then, through the subtlety of lawyers, statutory laws and all political chicanery and power gained thereby, together with the influences of the public press, controlled by these ungodly powers, take away man's natural rights and decry any effort on the part of the enslaved to procure liberty, and demand from their unjust courts injunctions, imprisonment, etc., to outwit the people in their attempts to gain liberty. The subtlety of the unjust laws are brought to bear to crush out all individuality among the people. The workings of these people are often so nauseous and hideous that the lowest criminal would not dare to parallel them, still they are tolerated in the churches and pretend to follow in the footsteps of the world's only

true Suggestionist, Christian or Socialist, Jesus Christ. Readers, do not despair, right suggestions will free you and make all producers equal

partakers of nature's plan.

All will, I know, admit the new teachings are right, and upon examination they will become clear to any thinking person. New Thought and Socialistic teachings with the natural law suggestion to place them will procure humanity the ideal life here. The unselfishness of these teachings are unquestioned, its present popularity is merited and its future outlook is a successful life on earth because its teachings will produce a race of pure unselfish people, living up to the "Golden Rule" and man's redemption will be complete, and Heaven will be with us always.

#### THE NEW METHOD.

Readers, I feel that the few suggestions here given will appeal to your reason, and you will fully realize that ungodly, uncharitable suggestions have enslaved you, also that the method as now understood of giving scientific suggestion, can free you Now, from sickness, poverty and unhappiness. I know these new scientific teachings which are embodied in New Thought and Socialism, will accomplish man's freedom

quickly. God produced the ideal or natural man with a desire for *Heaven on earth* and the power needed to make this force a working force in each individual, can be produced through *Scientific Suggestion* to that inner mind which controls every person either for good or evil. The result gained depends entirely upon the suggestions received. Let us continually suggest freedom to ourselves. Then freedom must come.

The people cry for it now, now, now!

To summarize the above we can conclude with certainty: Unselfish teaching from all christian pulpits can produce this desired change now. We know that the fraternal associations and societies have done more to bring about the universal brotherhood of man during the past twenty-five years, than all churches combined have for centuries. You ask how this has been possible? I answer, their teachings go beyond selfishness, trusting fully in realities, showing that man requires nature's provisions to become manly, and not costly edifices to worship within. Their teaching is centered in building up the inner mind or soul, thus producing natural men on earth. This is practical christianity and what the people demand Now. I would appeal to our clergymen to divest themselves of all selfishness, stop advocating the building of temples to worship in, and turn all effort and money toward bettering the environments of the people and assist them in procuring homes, teaching them that only undefiled bodies will produce Christians. And if the so-called Christianizers will be earnest in their work, in three months they can become pure in mind and body, and then they will be ready to assist in building a Heaven on Earth. Humanity's messengers will do it.

NEW THOUGHT EXPLAINED; also its applica-

tion pointed out. 10 cents.

SOCIALISM and its applied truths, showing the Clergyman, Educators and all others, they are either Socialists or working against humanity. 10 cents

HUMANITY'S REDEMPTION, The New Force; points out the way to procure our natural rights. 10

cents.

Address SUGGESTIVE NEW THOUGHT PUB. CO. Pythian Temple. CLEVELAND OH!O.

N. B.—Special prices given for large number of copies of either subject. Agents wanted.

#### Suggestive Law Cures All Curable Diseases.

Why? Answer—Because it reaches the internal mind and awakens the internal forces or internal conscientiousness in the individual which are always at fault when a person is said to be sick in mind or body. My experience has proved these facts; it has also proved to me the following knowledge: The proper interpretation of the word SIN is violation of nature's laws; violation of her laws brings weakness and disease in mind and body.

I know "Disease is not a necessary part of our life or nature.

Therefore, 'Suffering is not a necessary part of our life or experience.

Iknow "Our nature is two-fold, i.e., the physical life and the internal consciousness, or, if you prefer, call it spiritual life.

I know "That without both physical and internal life working hand in hand man could not unfold," or be cured when sick.

I know "Nature has made ample provision for both sides of our

nature.

I know "Nature holds our internal nature above our physical or earthly nature, and has provided for all mankind a cure for sin" through the application of properly directed suggestive law.

I know "That most afflictions of the body are produced by us in our ignorance of spiritual as well as natural laws, and sometimes in defiance of natural laws, i.e., when we prefer to carry out our own will in preference to the laws as made known to us through consciousness.

I know "Mankind to-day is not enjoying the blessings of life nature intended him to enjoy, mentally, morally, spiritually or

physically.

I know "Natural law alone can heal a sin stricken soul; i,e.when

man complies with the rule laid down for the curing.

I know "Suggestive law properly applied stimulates the operative forces that are often inactive, hence inoperative, regenerates man; thus the sick are healed, the blind cured, and the leper cleansed. The person who suggests nature's provisions or is the physician employed, must live near to nature, then nature bestows

almost unlimited power on him.

I know "There are two classes of men badly needed in our own day: Ist class, the minister of the gospel to so preach that the inner mind or soul of men will not accept diseased or sinful thoughts. The physician, medium or doctor of the body, who understands how to keep man's physical nature pure; then man will be free from suffering from the various pains to which we are now subject, and he will be ready to believe in the philosophy laid down by the lowly Nazarine, and will grant universal brotherhood, no mistakes in diagnosis, no mistaken remedy, results sure with the new treatment. Send symptoms and enclose stamp for reply.

Yours for health and happiness,

W. I. GORDON, M. D., D., D. O., Cleveland, O.

## "LEADS THEM ALL" THE VANGUARD

#### A Unique High-Class Magazine

Devoted to the best things in life and literature. A vigorous and independent expotent of

#### SOCIALISM and NEW THOUGHT

A field not covered by any other one journal. No matter what other periodicals you take, you still need THE VANGUARD.

TRY IT. 50c. a Year. 25c. for 6 months.

Address The Vanguard Press, Green Bay, Wis., Box R

The National School of Suggestive, Physical and Manual Therapeutics (Formerly the Cleveland School of Suggestive Therapeutics.)

#### Teaches Suggestion and its Laws

Which govern every person making them a SUCCESS or FAILURE in business or social circles, or in any occupation in life; in fact it governs our lives from the CRADLE to the GRAVE. Every person should understand this law to be able to control conditions in themselves or others.

#### WHAT WILL IT DO FOR YOU?

It will give you a salary ranging from \$100.00 to \$1000.00 per mo. It makes us a Success or Failure, Greedy or Philanthropic, Strong or Weak, Rich or Poor, Healthy or Diseased, Governable or Ungovernable, Ambltious or Lazy, Happy or Sad—therefore the importance of all Parents, public educators and

teachers understanding this law and applying it can not be over-estimated. This school was established to educate nurses, medical students, lawyers, doctors

and other worthy people.

This school is the National School of Suggestive Physical and Manual Therapeutics located at Cleveland, Ohio. It is the only school that educates young and old in these most important sciences and gives

the following courses:

A FAMILY COURSE in Suggestion costing \$5.00, certificate granted, that enables all parents and educators to understand Suggestive law thoroughly and apply it to govern, control and educate the young; it is particularly useful in correcting vicious habits, namely: Lying, Stealing, Swearing, Smoking, Cheating, etc. It transforms young and old quickly, changing thoughts, tendencies and desires.

A course complete in Suggestion, Suggestive, Physical and Manual Therapeutics, at the school with clinical advantages which will enable the student to become proficient to practice as a nurse or operator; complete course, \$50.00; correspondence course, covering the same, \$25.00. DIPLOMAS GRANTED.

This school is the oldest one in this line of education, teaching as it does Suggestion in all its branches. It is a regularly incorporated institution under the laws of the State of Ohio. Incorporated 12th of February, 1898. Dr. W. I. Gordon, Medical Director.

#### Do you want to learn

## Natural Nursing?

Now is the time to earn from \$15 to \$25 per week

The great opportunities in this field are open to you.

All educated persons NOW want a nurse who does not depend upon medicines to do the work but rather works hand in hand with nature's laws, and brings the sufferer back to perfect health. Call or write for particulars. When writing enclose stamp for reply.

The National School of Suggestive
Physical and Manual Therapeutics,

Cleveland, O.

## CURE THE TOBACCO HABIT.

Electine Tobacco Cure. This remedy is a vegetable compound, guaranteed harmless, but is specific

for the tobacco habit; also used with great success in curing morphine, cocaine, chloral, alcohol and all other habits that cause great depression of nerve force. Cases are continually being reported cured.

P. S. - If exceptional and obstinate cases do not yield to treatment, special attention will be given by writing freely about the same to the ELECTINE MEDICAL COMPANY sending all communications requiring medical advice to the Main Office, Cleveland, Ohio. The Y. M. C. A., the Y. W. C. A., Church Societies, Salvation Army and all church workers, and all people who are interested in the upbuilding of good morals and habits are interested in this remedy. By assisting us you will help the fallen and relieve untold suffering. Any assist nee given will be acknowledged whenever it comes to our notice. Write us freely with regard to anyone you may be interested in and we will communicate with them direct, keeping all communications strictly confidential. The writer's name will be withheld in all cases when so directed.

How Does it Act?-This remedy acts by simply eliminating or throwing off the poison from the system, furnishing the nerve centres with nerve food, which has a tonic and stimulating effect, reviving and strengthening the entire nervous system. Benefit will be experienced at once, but markedly so after the second week when the p ison becomes

eliminated from the system.

Symptoms Indicating Use.—The symptoms of nicotine poisoning are too well known to all users of tobacco to require any special attention. Anout the first that is noticed is twitching in the muscles of the upper eyelid, and extending to different muscles of the body. The heart then begins to suffer, and irregular action comes on which attracts the notice of the person using tobacco, and he finds it often impossible to lie on the left side, and at times heavy breathing comes on, nervousness, loss of sleep or insomnia, loss of appetite, craving for stimulants, and a general feeling of uneasiness whenever the nicotine poison becomes partially eliminated from the system.

Directions to regulate the Tobacco Habit if you do not care to stop entirely .-If you begin to feel the effects of nicotine in the system, but do not wish to stop the use of tobacco but wish to keep the poison from accumulating in the system and doing harm, use the Tablets to throw off the poison. To regulate the habit or reduce the amount used take a Tablet when you feel the desire for tobacco, and you can cut your tobacco down easily fif y per cent. in one week.

SUGGESTION.—Always remember when taking a tablet, to THINK HOW IT Acrs, it throws off the poison and builds up the nervous system. It will make the sight, taste and smell of tobacco disagreeable and obnoxious to the user in a few days. Keep repeating to yourself how it acts and say if I follow directions. a cure will be permanent. This medicine and suggestion will cure the babit in the WEAKEST WILLED PERSON, AND

WUILD NERVE. Address. ELECTINE FOOD REMEDY CO. LOOD, MUSCLE, CLEVELAND, OHIO.

The cure or lessening of the amount used in a short time will more than pay for the necessary medicine. Price, 50 cents per box, containing 50 doses; \$1.00 per box, containing 110 doses. One dozen 50 cent boxes or six \$1.00-boxes sent for \$5.00. Cure guaranteed, if directions are followed.

### Osteopathy and Suggestion

By W. I. GORDON, M. D., D. O.

Up-to-date, just out of the press. 304 pages fully illustrated with half-tone engravings.

#### Price \$1.50, Postpaid.

This is the only up-to-date work that explains these two sciences. It applies Suggestive Laws, and shows how SUCCESS, WEALTH, HAPPINESS and HEALTH are produced and retained.

Shows how MAN'S LOST HERITAGE can be regained through applying suggestion, also contains letters from the pens of Hon. Eugene Debs, Morgan Wood, D. D., and others, clearly proving the great sociological problem will be solved through this channel.

The AUTHOR'S METHOD OF GIVING SUGGESTION is original with him. No failure where this method is used. This book contains a complete course in suggestion.

OSTEOPATHY, clear and distinct, showing how to treat patients successfully. AUTHOR'S NEW METHOD EXPLAINS how to cure LOCOMOTOR ATAXIA, PARALYSIS and SPINAL COMPLAINTS, by flushing the spine.

No Osteopath can afford to be without it. Address P.

O. order or certified check to

## SUGGESTIVE NEW THOUGHT PUB. CO. CLEVELAND, OHIO

## The COMING MAN

A Journal for the redemption of the mind and body. The Coming Man advocates a living Christ within, that is powerful enough to raise man out of death into health, out of poverty into opulence, out of the shadows or negations of life into its living realities.

Published Monthly. Price 50 cts per annum.

FRANK M. CHAPMAN, Editor, 209 San Juan Street, Trinidad, Col.

WITHOUT the redemption of the Physical Health the Individual can never realize itself or become manifest to the world. This means nothing more or less than that you, reader, may continue to struggle and strive through a lifetime, for success or a realization of yourself; but if your physical body is not in healthy harmony with your mind, you will NEVER GET THERE.

#### REGENERATION

IS BECOMING the watchword of the times. Earnest, humane men and women are flocking in always greater numbers around the leaders, who demonstrate through their own lives the truth of their teachings. The age of quackery and imposition, of greed and brutality, is slowly passing. Let's all help to give it the finishing push, down into the place where it belongs.

#### WE WISH TO KNOW YOU.

IF YOU ARE broken in health or spirits, and have perhaps been drugged and quacked until you lost faith in humanity. We would like to teach you how by simple, natural means, you can easily regain your health, and keep it for the remainder of your life. The sworn enemies of all quackery and imposition, we teach nothing which we do not ourselves live and know to be true. We invite you to write us particulars of your troubles. If you wish, you can at the same time in a short letter describe one of your friend's trouble, and we will reply to it free, giving kindly suggestion and advice. Stamps for reply.
