**World or Region.**

5. World of Divine Spirit ........ Divine Spirit
4. World of Life Spirit .......... Life Spirit
3. World of Thought ............. Region of Abstract Thought ...... Region of Concrete Thought .. Mind ...

**Corresponding Vehicle.**

The Threefold Spirit
The Ego

(The Mind is the mirror through which the threefold spirit reflects itself in the threefold body; the focusing-point. See Diagr. 1.)

2. Desire World ............. Desire Body
1. Physical World ............ Etheric Region .. Vital Body

The Three-fold Body; the Shadow of the Threefold Spirit.

Diagram 4A
Diagram 5 shows the Tenfold Constitution of Man.

Man is a threefold Spirit, possessing a Mind by means of which he governs a threefold Body, which he emanated from himself to gather experience. This threefold body he transmutes into a threefold Soul, upon which he nourishes himself from impotence to omnipotence.

The Divine Spirit \( \text{emanates} \) \{ \begin{align*}
\text{The Dense Body} & \text{ extracting } \text{Conscious Soul} \\
\text{The Vital Body} & \text{ as } \text{Intellectual Soul} \\
\text{The Desire Body} & \text{ pabulum } \text{Emotional Soul}
\end{align*} \}

The mirror of Mind also contributes increasingly to spiritual growth as the thoughts which it transmits to and from the Spirit polish it to greater brightness, sharpening and intensifying its focus more and more to a single point, perfectly flexible and under the control of the Spirit.

The Twelve Great Creative Hierarchies.

1 - Aries .... Nameless ...... The first and second orders are said to have passed beyond the ken of anyone on Earth. It is known that they gave some assistance at the beginning of our evolution.

2 - Taurus .... Nameless ......

The three following orders worked of their own free will to help man during the three periods which preceded the Earth Period. They have also passed to liberation:

3 - Gemini ...... Seraphim ...... who, in the Moon Period, aroused in man-in-the making the germ of the human spirit—the Ego,

4 - Cancer ...... Cherubim ...... who, in the Sun Period, aroused the germ of the life spirit.

5 - Leo .... Lords of Flame. ..... who, in the Saturn Period, aroused the germ of the divine spirit and gave the germ of the dense body.

The following Seven Creative Hierarchies are active in the Earth Period:

6 - Virgo .... Lords of Wisdom .... who, in the Sun Period, started the vital body.

7 - Libra . Lords of Individuality .... who, in the Moon Period, started the desire body.

8 - Scorpio .... Lords of Form .... who have special charge of human evolution in the Earth Period.

9 - Sagittarius. Lords of Mind .... the humanity of the Saturn Period.

10 - Capricornus . Archangels .... the humanity of the Sun Period.

11 - Aquarius .... Angels .... the humanity of the Moon Period.

12 - Pisces . The Virgin Spirits .... who are the humanity of the present Earth Period.
Thus at the beginning of the Moon Period there were the following classes:

1—The Pioneers who had successfully passed through the Saturn and the Sun Periods. They had dense and vital bodies, divine and life spirit germinally active.

2—The Stragglers of the Sun Period, who had dense and vital bodies, also divine spirit—all germinal.

3—The Stragglers of the Saturn Period, who had been promoted in the seventh Revolution of the Sun Period. They had the germ of dense body and divine spirit.

4—The Pioneers of the new Life Wave, who had the same vehicles as class 3, but belong to a different scheme of evolution from ours.

5—The Stragglers of the new Life Wave, who had only the germ for the dense body.

6—A New Life Wave, which entered upon its evolution at the beginning of the Moon Period and is the life that ensouls our plants of the present day.

The diagram illustrates the relationship between the zodiacal signs and the corresponding vehicles for the highest initiates and ordinary humanity, categorized under Saturn, Sun, and Moon periods.
AS ABOVE, SO BELOW.

The world, the man, and the atom are governed by the same law. Our dense earth is now in its 4th stage of consolidation. The mind, the desire body, and the vital body are less solid than our 4th vehicle, the dense body. In the atomic weight of the chemical elements there is a similar arrangement. The 4th group marks the acme of density.

CONSTITUTION OF THE EARTH
Desire for New Experience and Soul-Growth finally draws Ego to Re-birth. While maintaining its Individuality, the Ego usually changes Sex each Earth Life.

Here the Ego rests and gathers strength for a new Earth Life, while the Mind, essence of "Right Thought," and the Soul, essence of "Right Feeling," are built into the Spirit as basis for future "Right Acts."

THOUGHT

Here the Ego works with the Archetypal Forces on new environment to be used in next Earth Life. The good acts done in past life are built into the Mind as "Right Thought."

DESIRe BODY discarded

Essence of Pain built into Soul as "Right Feeling." Ego realizes artistic ambitions.

VITAL BODY discarded

The Ego suffers and is purged of vices & passions.

NOTICE TO STUDENTS:

This chart is designed to give you a bird’s eye view of the whole subject of Astrology, including keywords, elements, metals, colors, a star map, and general astronomical information.

It should be used as a means of correlating the information which you gradually obtain from our correspondence course and books. A careful study of it will well repay you. There are no answers required in connection with it, it is merely to be kept for reference. If you have any questions about it, we would suggest that as far as possible you wait until you are able to obtain the answers from your study of the correspondence course and the textbooks recommended. We would call your attention to the fact that every sign, house, and planet has several keywords to describe all its various qualities. As you progress in your study of the subject, you will constantly add new keywords to your previous list.
