PREFACE

A FEW interesting facts are here given concerning the Planets' influence upon human beings and children at the hour of their birth.

To explain this fully the Planets' dignities and qualities must be divided into four classes which up to the present time have only been explained in two classes or two dignities. To my mind it is rather a narrow margin because this would give only two classes, one well dignified which would produce the persons of the very greatest success in the world and the very ill dignified which would produce the persons of the very poor and unfortunate. This would leave the second and third class persons out, which to my judgment is entirely a wrong method. By giving the characteristics and qualities in four different classifications would without a doubt be proper and better for every one to understand the influences of the Planets upon human beings and could also be given a

sound judgment of a child's disposition and characteristics, tendencies and their success in life at the hour of their birth. This statement stands good for all the seven Daily Planets, namely Sun, Venus, Mercury, Moon, Saturn, Jupiter and Mars for either good or evil.

The class dignifications vary according to the relation of the planets to the ruling Planet at the hour of birth.

CHAPTER I.

THE SUN HOUR

NATURE AND QUALITIES

THE SUN is masculine positive and is considered as temperately hot and dry of his own Nature. It is scarcely good or evil but a powerful source of ill fortune when afflicted by other Planets and placed in his debilities or signs contrary to his nature. When placed in signs of a first class dignification which are those of his own nature he is then the natural significator of credit, honor, dignity and respectability.

THE SUN is by sympathy friendly to all the Planets except Saturn.

THE SUN causes eastern winds and delights in the eastern part of Heaven.

THE SUN governs gold, brass, yellow apparel, diamonds and valuable things.

THE SUN'S colors are yellow inclined to purple.

DESCRIPTION AND CHARACTERISTICS

A PERSON born when the Sun is principal significator is usually a large, bony, athletic, strong person, broad high forehead, light, sandy, curling hair, quick piercing eye and well built person, but one who would soon become bold.

They are noble, proud, lofty but humane and always a faithful friend and a generous

enemy scorning the use of advantages over their opponents. They are fond of dress ornaments, decorations, costly jewels and splendid attire.

VOCATIONS

PERSONS of the first class dignification of a Sun hour are naturally qualified for positions of trust being honest and respectable.

They are well qualified for Presidents, rulers, high federal officers, Governors, Mayors coiners, goldsmiths, etc.

I might state that although many rulers of countries, town and cities are not men of first class dignities of a Sun hour but were they such, the place they are ruling would be greatly improved making everything better for the welfare of the people under whose rule they are.

DISEASES

PERSONS born in a Sun hour are either subject to, or have tendencies to fainting, palpitation of the heart, weak sight, fever, disordered brain, cramps, foul breath, catarrhs, defluxious disorders of the mouth and throat.

THE SUN governs the heart, back, arteries, right eye of man and left eye of woman.

PLACES

Palaces, magnificent building dining rooms, towers, splendid apartments and costly houses and places attractive to Sun hour people.

THE FIRST CLASS

DIGNIFICATIONS OF THE SUN

A child born in a Sun hour and the Sun being of first class dignities he or she would rise to great success and honor. They would be well qualified to hold position in public life, they would be courteous, dignified, fond of refined society, sports and outdoor life. They would also have the characteristics given on the preceding page in the Chapter on that subject.

THE SECOND CLASS

DIGNIFICATIONS OF THE SUN

A child born in the Sun hour of second class dignities he or she would have the same disposition, characteristics, tendencies as those of the first class, but with less success and honor. Persons of the second class would have to act more cautiously and exercise a greater degree of prudence and put forth more effort to attain success than would persons of the first class who attain things with ease.

THE THIRD CLASS

DIGNIFICATIONS OF THE SUN

A child born in a Sun hour of the third class dignities he or she would have the same disposition, characteristics and tendencies similar to those of the other class of the Sun hour but with a very little chance for success and honor, they would have to guard against illness, be very attentive and

on the alert. They would have to strive hard in order to attain any degree of success but would have a far better chance than would persons of the fourth class.

THE FOURTH CLASS

DIGNIFICATIONS OF THE SUN

A child born in a Sun hour of the fourth class dignities is under the full influence of the ill dignified, their disposition, characteristics and tendencies would be similar but of a lower order, he or she would be proud, mean, great talker, boasting, uncharitable and always on the lookout for themselves first. Those persons would have a very poor chance for success and honor. In order to attain to any amount of success they would have to strive very hard and exert the greatest effort possible, be very steady in their work and act with the greatest possible care. If they overcome some of their faults there is hope for persons of this class.

CHAPTER II

THE VENUS HOUR

NATURE AND QUALITIES

VENUS is a feminine, cold, moist, nocturnal, temperate and positive Planet, and considered as next to Jupiter in beneyolent influence. Her beautiful brightness may well denote an auspicious planet.

VENUS is by sympathy found to be friendly to every planet except the leaden planet Saturn.

VENUS is delighted in the South and governs the South wind and this denoting gentle showers in winter and temperate heat in summer.

VENUS rules beryl, chrysolite, emerald, sapphire, green jasper, coral, alabaster, marble, copper, brass and various ores.

VENUS governs women's apparel, rings, ornaments, brooches, ear-rings, white clothes, bedding and white wines.

VENUS' colors are white and bluish purple.

DESCRIPTION AND CHARACTERISTICS

PERSONS born when Venus was principal significator are generally beautiful, having a graceful form of body, sparkling hazel or black eyes, round smooth face, light or chestnut hair, dimples in the cheek or chin, an amorous look but sweet voice. They are unusually graceful, sweet, merry

and cheerful. Venus is addicted to song, music and dancing — enchanting fascinations—fair Venus is the queen of love.

VOCATIONS

WHEN VENUS is well placed and of the first class dignification at the hour of birth the persons would be well qualified and have a natural instinct for music, embroidery, perfumes, art painting, classic modeler or sculptors. They would be very prosperous dealers in dresses, ornaments of great value. They would be very good sales persons in large stores selling things of great expense.

DISEASES

VENUS persons are generally troubled with diseases of the back, syphillis, heart-burns, diseases due to luxurious living such a dyspetia and indigestion.

VENUS governs the reins, spine, generative organs, the neck, throat and breast.

PLACES

VENUS denotes beds and bed chambers, dining rooms, fountains, gardens, wardrobes, banquetting halls and theatres.

THE FIRST CLASS

DIGNIFICATIONS OF VENUS

A child born in a Venus hour and of first class dignities, that child would rise to great success and honor. These persons would develop to be great musicians if study was made in this line. They would be well qualified for art, having a natural

instinct in this line of working. They are cheerful, congenial, poetic, pleasant persons to have in company. They could gain success with ease in the vocations specified for persons born in the Venus hour.

THE SECOND CLASS

DIGNIFICATIONS OF VENUS

A child born in a Venus hour and of second class dignities are of the same characteristics and description as persons of the first class but that success and honor is not as easily attained as that of the first class.

THE THIRD CLASS

DIGNIFICATIONS OF VENUS

A child born in a Venus hour and of third class dignification—they would have to watch for opportunities to better themselves and when the opportunity comes they would have to strive very hard to attain to success which would be easily gotten by persons of the first class. If, however, persons of this class took up one of the vocations of a Venus hour which they are naturally adapted to they would attain better success than a vocation not of a Venus hour.

FOURTH CLASS

DIGNIFICATIONS OF VENUS

A child born in a Venus hour of fourth class dignity would have a poor chance for success and honor being very ill dignified

at the hour of birth. In this class Venus persons represent gamesters and those pleasure seekers of the lower class and voluptuousness. In rare cases the persons of this class can attain to a moderate success by great struggle on their part to overcome obstacles which present themselves.

CHAPTER III

THE MERCURY HOUR

NATURE AND QUALITIES

MERCURY is a cold, dry, earthy, melancholy and negative planet.

Colors—light blue, azure or dove color.

DESCRIPTION AND CHARACTERISTICS

MERCURY when well placed or free from hostile aspects of afflicting planets the mind is strong, vigorous and active, the memory is tenacious, retentive, inheriting a natural thirst for knowledge. Generally the most eloquent orators, the most learned

philosophers, the most eminent mathematicians and the most rare and curious of mankind are under Mercurian influence. Persons born under Mercury are of a tall, upright, spare body, long nose, dark eyes, long visage, dark hair, long slender hands and fingers which is a peculiar mark of Mercury. SECOND CLASS

DIGNIFICATIONS OF MERCURY

A child born in a Mercury hour of the second class dignities he or she would naturally be of a cunning and mischievous nature. They are not so apt to attain to success and honor owing to this nature which causes them to be foolish in business instead of being reserved and dignified. There is, however, a good chance for them to attain to success by overcoming this obstacle and being on the alert.

THIRD CLASS

DIGNIFICATION OF MERCURY

A child born in a Mercury hour of third class dignities he or she are of the same characteristics and description as those of the second class being a cunning and mis-

chievious nature but having a poor chance for even moderate success owing to the evil affliction of the planet at the hour of birth.

IF THE MOON being in good aspect to Jupiter at the hour of birth will then be

exceedingly fortunate. Persons of the first class dignification of the Moon at the hour of their birth, has manners, are lovers of science and delighter in novelties and naturally inclined to remove their habitation, unsteadfast caring for the present time timorous and easily brightened loving peace and to live free from care of life.

A child born in a Moon hour of the third class dignities she or he are not very likely

FOURTH CLASS

A child born in a Moon hour of fourth class dignities she or he is under the full power of the ill dignified and afflicted planets at the hour of their birth, those persons would be of an idle nature, careless, hating labor, delighting in careless beggarly living and very seldom attain success, however, if they strive hard they may by a possible chance attain moderate success if they keep away from drink and are very prudent.

A child born under Saturn of the first class dignities and in good aspects to Jupiter and Venus he or she would rise to success and honor. Saturn is the most powerful planet for evil especially if placed in the mid-heaven at the hour of your birth, the house of trade and honor which would cause trouble in your principal undertakeing, this misfortune cannot be counteracted except as given above the great help Saturn persons have to attain to success is the faith they have which is one of this planet's good qualities.

SECOND CLASS

DIGNIFICATION OF SATURN

A child born under Saturn and of a second class dignification would have the qualities and characteristics of the first class but the success and honor would vary according to the aspect of Saturn to the other planets whether for good or evil. If in favorable aspect they would attain to moderate success, if unfavorable they would have trouble in business and gradually fail according to the aspects of Saturn.

THIRD CLASS

DIGNIFICATION OF SATURN

THIS PLANET being the most evil of all, there is little hope for success of persons of a third class dignity of Saturn. However, a child born of the third class and Saturn friendly aspected to the good and beneficial planets, faith is a strong point for the good in Saturn persons which is important to attain a very moderate success in this class.

FOURTH CLASS

DIGNIFICATION OF SATURN

A child born under this class of a Saturn hour need expect poor success owing to the tremendous power of evil which makes them suspicious, envious, treacherous, malicious and stubborn all of which tend to reduce success in any business to the lowest degree—the real nature of Saturn especially in this class is repining and gloominess persons under his immediate influence generally see everything through the worst possible medium and this generally breeds fear and mistrust. If Saturn be of the fourth class and very much afflicted to the evil planets at the hour of birth they become prey to the most gloomy misanthropy and frequently commit suicide especially if Venus join in the malignancy of the operating directions.

have riches, honor, being of Jupiter qualities they would be very generous, free of care, benevolent, all of which would cause the happiness spoken of in the beginning of this class. Religious persons born under Jupiter are useful and happy members of society and the most universal beloved people.

SECOND CLASS

DIGNIFICATION OF JUPITER

A child born under this planet and of second class dignification he or she would also rise to success and honor, being of the same characteristics and qualities as those of the first class. They would be happy and attain wealth but not as easily as and possibly not as great as would persons of the first class.

THIRD CLASS

DIGNIFICATION OF JUPITER

A child of the third class dignification of Jupiter while they were born under a very good planet are not very apt to hold to the success and happiness of the two classes preceding, they may reach success and honor but greater spenders than those of the first class and in some cases too good natured, they lose their money through sometimes squandering themselves.

FOURTH CLASS

DIGNIFICATION OF JUPITER

A child born of this class are generally squanderers of money, reckless of mild

abilities, easily led astray by fools, unreligious, given to intoxication, luxury, lustful, never quarreling, a spendthrift *and a general but not a firm friend*, honest only in appearance. Yet even then they will be esteemed as a good companion given up to every one's humor.

CHAPTER VII

NATURE AND QUALITIES

THE MARS HOUR

MARS is a hot, dry, fiery, chloric, nocturnal and positive planet.

COLORS fiery red or scarlet.

MARS is in friendly sympathy with Saturn, Jupiter, Sun, Venus and Mercury having no enemy but the Moon.

MARS delights in the western quarter of the heavens and causes western winds with thunder, lightning, fiery meteors and a dry pestilential air.

MARS is of a peculiar color appearing like a bright flame or spark in the heavens especially when in perigee and thus readily distinguished from the other planets.

MARS in the mineral world governs blood-stones, load-stones, touch-stone jasper asbertos and the adamant also iron, steel, arsenic, antimony, brim-stone and pugent minerals of a fiery or inflammable nature.

MARS governs pepper, brass, silver, red clothes, red wines, sharp instruments, cutlery, cutting instruments, horses for use in war and all implements of war.

MARS denotes symbolically generals and commanders of armies, soldiers, and men connected with military affairs, chem-

ists, apothecaries, druggists, surgeons, physicians, watch-maker, barbers, black smiths, cooks, bakers, firemen and all who use sharp implements or vocations in which fire is used.

PERSONS born under Mars are generally subject to the following: small pox, jaundice, fevers, measles, hot eruptions, carbuncles, diabetes, strangury, burns, scalds, wounds and bruises in which inflammation arises.

MARS governs the gall, left ear, head, face, smell, imagination, veins, genitals.

PLACES

MARS denotes all places that pertain to fire or bloodshed as battlefield, laboratories, furnaces, bake houses, cutlery stores, ovens, butcher shops and the like.

FIRST CLASS

DIGNIFICATION OF MARS

A child born in a Mars hour of first class dignification he or she will rise to great success and honor especially if they are fortunate by aspect with the leading significators. They are very fearless people wishing every one to submit to their way of thinking otherways. They are prudent, rational, generous, magnanimous and conscientious. Yet these people are very fond of quarrels and warfare and if entering military service or other occupations of a Mars hour particularly surgeons, they would have great success in their profession.

SECOND CLASS DIGNIFICATION OF MARS

A child born in a Mars hour and of second class dignification he or she would also rise to success and possibly honor, although the chance of the second class of Mars is not apt to have the honor that would be had by persons of the first class, they are not as conscientious or generous as persons of the first class although retaining their other characteristics.

THIRD CLASS DIGNIFICATION OF MARS

A child born of the third class dignities of Mars are not apt to attain to success or honor being of unsubmitting nature and always in quarrels and trouble on their own accord, they are not half as prudent as the first class which causes them to fall short of the success and honor attained by the first and second class.

FOURTH CLASS DIGNIFICATION OF MARS

A child born of the fourth class dignifications of a Mars hour he or she would have a poor chance for success especially if they take a vocation not of a Mars hour they have the same characteristics and qualities as persons of the third class, but of a much lower order. Mars is the cause of anger, quarrels, contention, violence, war, laughter and bloodshed. In other respects far from fortunate in himself, but not so evil as Saturn as his influence is by no means so

lasting; in which respect the influence of Saturn may be compared to a lingering but fatal consumption; and that of Mars to a burning fever slakeing its thirst in the life blood of the patient.

IF very unfortunate in configurations and evil dignified the native is wholly destitute of any virtue prone to violence, quarrels, treachery, robbery, murder, treason and every species of cruelty and wickedness.

CHAPTER IX

In this rotation the seven planets are following each other every 24 hours, day and night through the year.

HERE are given the explanations which will show you the hours of success according to their dignities. This will also show you why you do not always succeed in your deal this explanation standing good for all the seven daily planets.

If you have not obtained success say in the Sun hour the question perhaps would be where could this party be ill dignified at birth, they are refined, highly educated and of great dignity and manners and very rich. Then you will do well by referring to the fact that this party was born in a third or fourth class dignity and has the outward appearance which only rich people can give their children.

How many rich parents' children have not squandered their own and their parent's millions and at a later date in life meet with great reverses, examples of which can be seen by referring to the daily newspapers.

We have many rich men living to-day who were poor working boys, having worked their way up to be multi-millionaires, some of them do not know how it

happened but some beneficial planets most assuredly have been in the first class dignification at the hour of their birth and their guiding Planetary hour having been in good aspect to the Earth which is called the money part or the fortune.

This explanation I hope can give you some understanding that we not all can be rich, no matter how earnestly we strive for it. The seven planetary hours are the best hours only for their especially described purposes which have been explained to you in the seven chapters of the planetary hours nature, quality and their influence upon human beings and on children at the hour of their birth.

If a person would have patience and continue their operation in the same special hours for the special purposes, they surely would reach a far greater success than would that person who gave up hope to live in hope trying to reach success. You would be stronger and feel more satisfied that you have done the very best you possibly could with the gift that God has bestowed upon you at your birth and the reward would be yours because you had been faithful and honest in your purposes and that was the best which could be expected of any human being.

CHAPTER X

EXAMPLES OF THE FOUR CLASS DIGNIFICATIONS

TO show the class dignification of individuals at the hour of the birth.

I will give an example in which are men of the first, second, third and fourth class dignifications.

A wealthy farmer gave to four men 100 acres of land each one receiving 25 acres.

THE first man being a man of the first class dignification would probably find valuable minerals on his land and would make 100 per cent. or 1,000 per cent. more money from his land than all three others put together without the least effort on his part to work the land.

THE second man being of the second class dignification would be very attentive to his land and would derive far greater benefits from it than he had expected but he would not have it as easy as a man of the first class dignification.

WE now turn to the man of the third class dignification and find him working harder and longer than the man of the second class and being just able to pay expenses.

AND coming to the man of the fourth class dignification we find him bearing the heavy burden working the longest time and deriving the least benefits of all which goes to show that the hardest working man is not always the most successful. I might state in conclusion that this can be proven right in your own surrounding if you were to think of some whom you know who is meeting the same conditions.

CHAPTER XI

HERE is given an example of a Mars quality which occurred the 22d day of June, 1912 and ended March 4, 1913.

THE hour of Mars is very unreliable, being favorable for dishonesty and evil reports.

TO corroborate this fact allow me to refer you back to the time of Ex-President Taft's return to Yale College of which time he makes the following statement to the *Evening World*. "I am ready to begin teaching at a moment's notice. I shall probably start lecturing immediately. This is the first time in twenty-seven years that I have been out of public life.

"I feel better and freer.

"FEW PEOPLE REALIZE THE STRAIN I WAS UNDER DURING THE LAST FEW MONTHS OF MY ADMINISTRATION."

THIS statement speaks for itself. When we turn back to the 22d day of June, 1912, at 8:35 P. M., the time of Wm. H. Taft's renomination and find it to be a Mars hour which as has been mentioned in the preceding paragraph is an hour for all fiery, bold and courageous transactions from which dangerous results are liable.

ANOTHER proof of the planetary hours' effects on human beings is given by referring to Mayor John Purroy Mitchel, nomination as given below every word of which is known to be true by the citizens of New York City and surrounding communities. The letter sent to Mayor Mitchel is given as follows: November 3, 1913, 500 Fifth Avenue, Suite 402, New York, N. Y.

ASTROLOGICAL PREDICTIONS

For Mr. John Purroy Mitchel, Candidate for Mayor of New York. You were nominated in the Fusion ticket at 501 Fifth Avenue, on Friday, August 1, 1913, at 4:25 A. M., one-half hour before Sun rise.

(The Time was stated in the "Evening Telegram.")

It was in a Sun hour, the best hour for all matters connected with the governments political and public affairs.

The Sun hour is positive and good for all important business matters and any transactions. Signatures made in that hour are apt to appear certain. It represents a man of courteous manner, a natural signifier of credit, honor, industry and respectability and a man that will be just and sympathize with the poor and rich alike according to circumstances.

A Sun hour man will always make good his promises, and to-morrow, Tuesday, Nov. 4, 1913, there will be another Sun hour between 7:36 and 8:36.

NOTE: It may be of interest to know that this letter was written in October before Election and a copy sent to Mr. John Purroy Mitchel.

CHAPTER XII

I give here an illustration of a twenty-four hour clock, which I invented.

THIS is the first of its kind requiring but one hand to give the exact time.

BY this clock you can ascertain the ruling planet for any given time, the dial also stating whether a good or evil hour. For further particulars regarding this clock you can correspond with the Author.

Address:

New York City

For an accurate configuration of the class of dignification to which a person belongs, whether first, second, third or fourth, I would advise you to secure from a skilled and reliable astrologer a cast of your native horoscope giving an explanation of the planetary influences over any person.

If you wish to figure it out yourself which is a very interesting way of doing it, I would refer you to any good astrological book which no doubt can be had at your local library. This horoscope will be of advantage to you telling you at which time to be careful of certain troubles which arise and give you the time at which the evil planets are ruling. If there is any question regarding the matter described in this book which you do not understand I should be pleased to answer you if a stamp is enclosed for reply.
