## ALL IN THE STATE OF MIND

If you think you are beaten, you are.  
If you think you dare not, you don't.  
If you would like to win, but think you can't,  
It's almost a cinch you won't.  
If you think you'll lose, you're lost,  
For out in the world you'll find  
Success begins with a fellow's will.  
It's all in the state of mind.

Full many a race is lost  
Ere ever a step is run.  
And many a coward fails  
Ere even his work is begun.  
Think big and your deeds will grow,  
Think small, and you'll fall behind;  
Think that you can, and you will—  
It's all in the state of mind.

If you think you're outclassed, you are,  
You've got to think high to rise.  
You've got to be sure of yourself before  
You can ever win a prize.  
Life's battles don't always go  
To the stronger or faster man,  
For sooner or later the man who wins  
Is the fellow who thinks he can.

## LOOKING WITHIN

A great deal is being written and said in this day and age about Mind-Power and its possibilities. Every College, University, School of Learning is commencing to teach or at least talk about Psychology or Mental Science. This is due to the fact that we are living in an age of Mental awakening, of inquisitiveness, of wanting to know the why and wherefore of all the “miraculous” things happening all around us. Mankind is realizing more and more the so-called “unexplainable, supernatural, mysterious” phenomena of the past are in reality based upon exact Mental Laws, which produced them. We are seeing things in a different light. We are more and more shaking off the shackles of laziness, indifference and the old fashioned idea of **“Let George Do It.”**

There are many bright, efficient and tireless men and women out among the masses today who are spreading the Gospel of Truth by tearing down the evil of Mysticism, superstition and its appendage of Human suffering.

Slowly, but surely, we are commencing to realize that we are deliberately, although often ignorantly, violating universal Laws, which, by so doing, causes us to suffer mentally as well as physically. Little by little we give Credit to Jesus, The Master, for saying: "Ye shall know the Truth and the Truth shall make ye free." For we are commencing to get glimpses of the Truth, by tearing down the veil of superstition and ignorance and we are realizing more and more the truth of the Bible's statement: "As a man soweth, so shall he also reap."

In other words, many of us have awakened to the fact that we, ourselves, and not God, are to blame for our misery, troubles, unhappiness, discontent, disease, poverty, etc.

This is a very good sign and all who have realized that they themselves are at fault will naturally look for the remedy. That is, they will search for the Truth that sets us free. Most people are always prone to blame someone else for their misfortunes, and if they cannot blame some neighbor or acquaintance, they naturally say that God made them suffer, for someone else "**must**" be at fault.

Shifting the responsibility of our troubles on someone else does not help us any. On the contrary, it only makes them worse, because as long as we have not learned to depend on ourselves, we are at the mercy of the other fellow. But just as soon as we realize that we “are the Sons of God and God is within us and the Kingdom of Heaven among us” we are on the High Road to Success, Happiness, Health, Prosperity, Long Life and Contentment. Because when that realization comes to us we at once start to look for the remedy in the right place. And that is “**within us.**” Man is created in the image and likeness of God and must therefore be perfect. This is true. The Sprit within is part and parcel of God, is God in fact, and perforce is perfect. It follows, then, that the spiritual part of man needs no help. It is the personification of our Creator. What then needs help? Our mental apparatus, governing our physical or material part, must be brought to a realization and understanding of God’s perfect Laws, i. e., Universal Laws. Violating these Laws with impunity, through ignorance, lack of understanding, laziness, etc.,

## 6 THE AUTO-SCIENCE WAY

---

will in all cases bring suffering, physical as well as mental.

Now, God never intended any of His Children to suffer, providing they lived up to His Universal Laws. Jesus, the Christ, stated this plainly when He said: "Ye shall know the truth and it shall make ye free." He proceeded to preach and teach these Laws to the people so that understanding might come to them and they would recognize the Truth and thereby become free. Because, when we obey the Laws we remain free, and when we see and know the Truth and follow it we are obeying the Laws of God. It is therefore up to us to search and look until we find the door that leads us into the pastures of happiness, health, success, wealth and peace. Because, unless you make an effort to find the Truth, you will remain outside the door that leads to the Kingdom of Heaven. God has given man an independent will, to do as he pleases, to procure his own salvation or happiness and He has thereby left it squarely up to him as to what he wants. "Seek and ye shall find, knock and the door shall be opened unto You." The trouble that has been with man is, that he has been told to

ask everything he wanted from God (mostly a personal God) without making an effort to use the instrument God gave him to help himself. He has been led to believe that by praying to an external being, of supernatural origin, he would be heard and all his wishes granted, without him doing his part or using any effort of his own. Naturally he has ever been disappointed and has lost faith in that kind of a God, and has started to search for a new God or simply stayed away from church and become antagonistic. The church is to blame for the falling off in man, perhaps of nearly 60 per cent of former followers. Why? Because it has failed to explain to the people that "God is within us" and that we have the instrument and power within to create that which we desire, providing we use this power in conformity with the Universal Laws of the Creator.

Jesus tried to explain this to the people. Many heard Him, but few understood, and this fact no doubt caused Him to exclaim: "Many are called, but few are chosen." To understand ourselves, then, is all that is necessary to a realization of the unlimited possibilities of our own powers. There-

fore, it shall be my endeavor to tell you how you may use the Power God gave you for your own benefit, as well as your fellow man (who is also a Son of God), and follow the Master's footsteps and so create for yourself and others perfect Health, Happiness and Success.

### **YOUR MENTAL APPARATUS**

It is now a recognized scientific fact that man has two minds. One of these is called the reasoning mind and has its seat in the Brain. It governs the conscious actions of man. It has the faculty of perceiving all things in the Material World and can accept or reject any proposition at will. It can deliberately send out its mental message and be perceived at any distance. This is called the Conscious Mind.

The other mind has its seat nowhere in any particular organ of the body, but seems to penetrate and permeate the entire body, like a hand filling out a glove. This mind has charge of the involuntary actions of many organs. It never sleeps, but is always alert and on the job. It does all things it is told to do without questioning. It cannot reason like the Conscious Mind.

This is called the Soul or Subconscious Mind.

The actions of these two minds are exactly like a wireless apparatus. The Conscious Mind is the broadcasting station or apparatus and the Subconscious Mind is the receiving station. Man can at Will send out impulses or thoughts in a similar manner as the broadcasting machine sends out music, speeches, etc., and make an impression on the receiving station or subconscious mind or minds of other people. A thought properly broadcasted will produce action, by the receiving station or subconscious mind of the person or persons receiving it. This, of course, will depend upon the force, velocity or power with which it is sent out through the Ether or Atmosphere.

Thoughts are vibrations set up in Universal Mind or Creative energy. They are of course invisible, but so are the vibrations sent up by the wireless broadcasting apparatus. And yet, we perceive them three thousand or more miles away and understand the message clearly. When we think positively we send out a Mental vibration that makes itself felt and the impression

## 10 THE AUTO-SCIENCE WAY

---

upon the subconscious mind or receiving station is clear and distinct and causes action in the individual. If the thought is negative, it is weak, wobbly, uncertain and, while it makes a slight impression, it is not understood and cannot therefore be acted upon.

The reason some broadcasting machines can send vibrations many thousand miles and have them clearly understood, is because there is a tremendous voltage behind the impulse or vibrating diaphragm that pushes the sounds forward with enormous force. When the vibrations are in transit they are recorded by any receiving set or diaphragm that happens to tune in with the broadcasting machine. If the voltage or pushpower were of a low type or weak, the impulse or vibration set up in the Ether would not travel far and the receiving instrument would not receive the message clearly, could not understand it and of course could not act upon it. This often happens and is partly the cause of much unintelligible noise and confusion in the receiver. Of course, atmospheric conditions are responsible for part of this. Now, man has no such handicaps as conditions

in the atmosphere to overcome. He can send his wireless message at any time, night or day, and have it received and understood and acted upon. The only thing man has to do is to create sufficient voltage or push-power to send his thought vibrations out. He can send them out to one individual and be understood, without anyone else perceiving them or able to intercept, or to any number of people at the same time. In sending a wireless thought-vibration to any individual it can be done with or without the consent of the latter. This must be understood, however, and if it is done without his consent, it must be done at a certain time, when his receiving station is wide open. This is fully explained in my Course in Auto-Science, personal or Home Study.

### **MENTAL VOLTAGE**

Voltage is not electricity, as so many people suppose. It is that push-power, that force, that causes electrical particles to move. The greater the push-power, the more friction is set up and the faster the particles move. Mental voltage means the power or force behind the thought-vibration. We know the different thoughts vibrate to a certain rate of speed. It has

## 12 THE AUTO-SCIENCE WAY

---

been established beyond a doubt that every emotion (thought) of man, like joy, love, happiness, anger, hate, jealousy, envy, poverty, etc., have a different rate of vibration. The more force or voltage man puts back of his thoughts, the better impression he makes upon the receiving station of the other fellow.

We are constantly influenced by the thoughts of our fellow beings and are always caused to act accordingly. If we were told that we were the puppets of other people's mental vibrations or suggestions we would resent it greatly, but it is nevertheless true.

For example: Someone has died in your immediate neighborhood; you go to pay your last respects to the deceased and you see the family crying and desolate, looking for sympathy, and your heart or mind goes out in sympathy to them.

You go to church and see an impressive ceremony or hear an inspiring sermon and your mental attitude becomes pious, meek and full of repentance. Go with a bunch of "Devil-may-care merrymakers," ready to have a good time, and someone proposes some crazy stunt, and you are right with

them, heart and soul. This is true in all things and is chiefly due to the fact that we do not know how to protect our receiving station from accepting and acting on mental vibrations received from others. In other words, we are negative. What is the remedy? We must create a positive mental attitude. We must create will-power and self-confidence. This produces push-power or mental voltage. It will enable us to protect ourselves against the acceptance of other people's thoughts or ideas as well as to send our own ideas or thought-vibrations with sufficient force to the other fellow's mind and bring about in him the action we desire.

Self-confidence is lacking in ninety per cent of the people. Will-power is equally absent. Yet both can be developed. Without self-confidence we are negative, weak, vacillating, not living, just existing. We have a wishbone instead of a backbone. Having no will-power of our own we are forced to do the other fellow's will. So, let's get busy and create self-confidence, will-power and positiveness. Let's be able to stand on our own "hind legs," let's have a backbone instead of a wishbone. Wishing

never gets a man anything. When we have will-power, self-confidence and a positive mind we have created push-power, mental voltage and are able to assume a different station in life. We **command** instead of obey meekly. A man with mental voltage plus an understanding of how to broadcast his mind properly can have **anything** he wants. He is happy, healthy, wealthy, successful, and knows he is living life to its fullest.

### BRINGING THINGS TO YOU

Inasmuch as we are human beings, live and have intercourse with our fellow man, we must expect to get our happiness from him while in this sojourn. We can no more be independent of our fellow humans and enjoy life as reversing the Law of Gravitation. No, we depend on each other for everything we want. One produces one thing, another something else. You need what someone else has and he needs what you have. Therefore we exchange service for value received and vice versa. But some people get more value for their service than others. Why is this? Because they attract more to them. They have created a reputation. They have will-power, mental volt-

age. They are magnetic. Everybody wants them or their services. They radiate success, good-will, kindness, firmness, justice, power. They attract, because they are positive. They always give value received. They believe in the Golden Rule. You can do the same. Train your mind; become the ruler of your own Kingdom. Get away from selfish thoughts, they bring you no good. They are negative. Get out of the rut, start a new habit. Do it now. Today is opportunity, tomorrow prophecy. The world of possibilities is in front of you. You can attract whatever you want to you. Get your mind right and all is right. Mind or thought directed into proper channels in the proper manner will create the things you desire. You will get people with similar minds to help you get what you want. Broadcast love, peace, harmony and good-will and watch results. Send out your thoughts with a **"Punch"** behind them. Stop worrying. Don't doubt. Have Faith. With Faith all things are possible, without Faith you remain a failure. Believe that it can be done and you will do it.

Eliminate all negative thoughts absolutely and success is yours. Things will

come to you if you broadcast properly. What others have done, you can do.

I submit a few letters of students who have taken my course in Auto-Science and the remarkable results of broadcasting by mental wireless after only a few days of practice. I shall select a few of thousands of similar letters with a variety of experiments to show that your thoughts can be used to bring every imaginable thing to you. By doing as the students did, they helped themselves and others. They did not violate any of God's laws. On the contrary, they but worked in conjunction with the God within. They did not sit down idly and expect God to do it all for them. They believed, and correctly, that: "God helps those who help themselves." They used their God-given faculties and made an effort, and in so doing brought about things they never could have gotten if they had not acted and used their spiritual and mental powers. Auto-Science teaches you all these things and hundreds more.

**MR. AND MRS. PHINNEY OF CIN-  
CINNATI, OHIO, CHANGED A  
DRUNKARD AND OBTAINED  
A GOOD POSITION BY MEN-  
TAL WIRELESS. READ  
THEIR LETTER:**

November 27, 1923.

"After taking your course in Auto-Science we had some wonderful demonstrations within a few days. We are friends of a family where the husband drank and spent all of his earnings on other people and left his family in want. Mrs. Phinney was able to change this man within one week, so that he now turns all his checks over to his family, and this is the first time in his life that he has done this. This demonstration alone was worth more than a thousand times the price of the course to us. I was out of a position at the time I took your course, and before I had finished I had a position I wanted and am making more money than I ever did. The course in Auto-Science is worth many times the price you ask, and to anyone wishing to do good, and have health and prosperity, we recommend your course above all others, and we have taken other courses but could not

demonstrate them. Auto-Science will bring demonstrations at once if instructions are followed as given, as your instructions are so simple that any child can understand them.”—O. B. Phinney and Mrs. O. B. Phinney, No. 5 Lincoln Terrace, Walnut Hills, Cincinnati, Ohio.

**MR. GATES OF CINCINNATI, OHIO,  
DEMONSTRATES IN A REMARK-  
ABLE WAY OVER CARBUN-  
CLES, BY “MENTAL  
WIRELESS”**

“After taking Dr. Feyrer’s class in Auto-Science and before I had reasonable time to master it, one of the men in the foundry where I am employed came to me and said his neck pained him to turn his head. I gave him a treatment as Dr. Feyrer had explained to us in his healing class, and when I had finished the man could turn his head easily and without pain. He was greatly worked up over the results. After giving him two more treatments I discovered he had a large carbuncle on the spinal cord of the neck. I sent him to a surgeon to have it lanced. He told the surgeon he had only noticed it in the last five days. The surgeon said he could not understand how a

carbuncle could be ready to lance in five days when it usually took from two to three months. He is still guessing.

“After taking other courses, I cannot understand how Dr. Feyrer can give his classes so reasonable for the value received.”—Daniel Gates, 1419 Apjones, Cincinnati.

**TRIPLED BUSINESS IN ONE WEEK  
BY BROADCASTING MENTALLY  
AND HEALED A VERY BAD  
CASE OF NEURITIS**

“Here are two of the many experiences I have had in following your instructions: In my business I find it a wonderful help. I almost tripled my business last week over the week before. This is the truth.

“A girl that works for me had a very bad case of neuritis. She could not turn her head without turning the body. She had trouble for some time. I gave her five treatments and the pain was all gone and she feels fine.”—Miss M. E. Woody, Meridan Beauty Shop, 826 State Life Building, Indianapolis.

**MRS. LAURA ROELL USES HER  
MENTAL WIRELESS TO  
OVERCOME FEAR**

“Before taking Dr. Feyrer’s class I was timid, afraid and a coward. One night I dreamed my husband was in danger. I woke up shaking in every bone, then I did what Dr. Feyrer had told me to do. I became calm, got dressed (this was 1:30 a.m.) and went out to find whether my husband had met with an accident. I met a thief who was breaking in several squares from my home. He came towards me. I stood still, looked at him not a bit afraid, walked on and found my husband in good spirits, but very much surprised at my courage. I feel lifted up and more happy.” — Mrs. Laura Roell, 124 West Third St., Newport, Kentucky.

**MRS. CARSON BROADCASTED FOR  
A RABBIT AND APPLES AND  
RECEIVED THEM**

Mrs. Geo. W. Carson, 314 E. Ross Ave., St. Bernard, O., told of using the Auto-Science concentration method in broadcasting for a rabbit and some apples. The rabbit was brought within two hours, and

two bushels of apples were brought to her without charge.

### **SOLD GAS RANGE BY MENTAL WIRELESS**

Mr. F. A. Tucker, 3139 Graceland Ave., Indianapolis, told the audience at one of Dr. Feyrer's public lectures that for six weeks he had advertised a gas range for sale, with no results. Through the use of **Auto-Science** concentration, thirty people called to buy the range and he sold it at the price he asked. He also used the concentration method on the night before calling on prospects and found he could sell them every time.

### **COLLECTS DEBTS BY USE OF MENTAL WIRELESS**

Mr. E. M. Peterson, 1031 Elm Street, Indianapolis, made a public statement that through the use of **Auto-Science** debts were paid which had been charged to profit and loss for three years. Another man stated publicly that a bill for \$18.75 which was more than a year old and which was considered lost, was collected by means of the **Auto-Science** method.

## DEMONSTRATES MENTAL WIRE- LESS 1500 MILES DISTANT

January 25, 1924.

"I wish to state that your course delivers the goods, plain and practical, without non-essential frills.

"On last Saturday I practiced a telepathy stunt on a person 1,500 miles distant. The circumstances of what I desired him to do and what I later found he did do, proves to me beyond a shadow of doubt that it was result of what I had learned to do through instructions of your course.

"Words can't express the value of your course, as my whole viewpoint of life has been changed and ideas clarified."—Lawrence Lynch, 404 East Tenth St., Kansas City, Mo.

## DEMONSTRATION OF \$5,000 IN- STANTLY BY THE USE OF MENTAL WIRELESS

"I esteem it a pleasure to say a few words in appreciation of your wonderful method of **Auto-Science**. As you well know, even before I had taken your first lesson through the privilege of appropriating one of your principles I had made a demonstration that

involved the sum of \$5,000. This was for value received, however, and was not used for the purpose of personal gain, as the law of compensation is too certain to tamper with it. This was merely on a deal where the original consideration had been \$10,000 and the party concerned had decided to only invest \$5,000 'til I applied 'Impulsion,' which, thanks to your teachings, proved it **works**. God speed your work wherever open doors are offered. With personal appreciation, believe me, Fred Geitz, Jr., Maryland Hotel, St. Louis, Missouri."

### LOCATES FRIEND AND COLLECTS \$300 BY MENTAL WIRELESS

"May I tell you how pleased I am that I have had the privilege of your teaching in **Auto-Science**? I have got that which I long have been searching for, and it was given in such a way that all could understand. I have made two demonstrations that prove positively that it works. I hunted a friend whom I had not heard from for almost a year. I sent a message to her, saying: 'Mary, please let me know where

you are.' In three days I received a letter reading thus: 'Dear Sarah, I am writing you a few lines to let you know that I am located in Richmond, Virginia, for the winter.' Answering my question absolutely.

"A man who lives 140 miles from here has owed me \$300 for two years. I concentrated for two nights, wrote him a friendly letter, mentioning the debt. Yesterday I received a letter from him saying that he would send me a check for \$150 and a note for \$150 in a few days. Have since received money and note."—Sarah R. Young, 4346 Olive St., St. Louis, Missouri.

### DEMONSTRATES HEALTH AND PROSPERITY THROUGH MENTAL WIRELESS

"This letter is written in a spirit of great appreciation for your wonderful work; having been a student of the subject you so skillfully handled for many years, I feel no hesitancy in saying to all that they cannot afford at any cost to lose the opportunity of taking the **Auto-Science** course of instruction. If one week of **Auto-Science** will enable one to accomplish what twenty years

of other methods failed to do, then **Auto-Science** is worth \$25.00. Thanks to you, I am positively **demonstrating health and prosperity**. The St. Louis class is dressing up right now for your return.”—Nina R. Warner, 4538a Laclede Ave., St. Louis, Missouri.

### HEALS MOTHER BY MENTAL WIRELESS

“I certainly feel very grateful indeed to the person who so graciously sent me the announcement of Dr. Feyrer’s lectures. I read fully the **Auto-Science** News and was very deeply impressed by same, and as my mother had been a constant sufferer for many years with nervous trouble, decided to try the healing, which gave instant relief. Words are inadequate to express the gratitude we all feel for this wonderful work. I would not take many times the price of what I have gained in this class, as I think Dr. Feyrer a most wonderful teacher, and could not recommend too highly to anyone seeking such practical knowledge.”—Mrs. Robert Schneider, 1109 Broadway, Kansas City, Missouri.

The foregoing are just a few examples of what can be accomplished by using the

**Auto-Science Method of Broadcasting the Mental Wireless.**

I have thousands of similar letters of things accomplished by using Thought-vibrations, but space forbids printing them.

The following are three actual experiments you can use at once and they will demonstrate to you that Thoughts are things.

**PSYCHIC CURE FOR HICCOUGHS**

How often have your children hiccoughs, and it seems that nothing will stop them? How many times have you met a friend with a distressing hiccough? You told him to take a drink of water, you slapped him on the back, and still it would not stop. Here is an absolute remedy for young and old, male or female. Try it!

Stand in front of patient and look at the bridge of his nose. Do not blink your eyes. Then tell him to raise his right hand as high as he can until it becomes a slight strain. Make him hold this position for one minute. Then have him close his eyes. Make three passes or movements in contact across

the throat of the patient in a partially downward direction with your fingers.

Then have him open his eyes and the worst case of hiccoughs has disappeared.

TRY THIS! IT WORKS!

### PSYCHIC ALARM CLOCK

Do you have trouble in arising at a regular time in the morning? Are you often late for work, because you don't hear the alarm clock? Do you have to go to work without breakfast because of getting up late? Do you have to run for the street car to get to work on time? If you have or had any of these troubles, here is the remedy. Try this:

Upon retiring at night and **just before going to sleep say to yourself audibly over and over until you fall asleep:**

**I will arise** (say 6 o'clock or mention whatever time is convenient).

Do not say: "I will awaken;" you will awaken all right, but there is a difference between simple **awakening** and **getting actually out of bed and dressing**.

If you do this for a week or two, your **subconscious mind** will have formed the habit and you need not bother any further consciously.

Whatever time you wish to arise, simply mention, as instructed. Also, whenever you wish to remember an appointment or date, simply sit down a minute, relax and say to your subconscious mind: "I will remember my appointment in time to meet it."

Repeat six or eight times.

### THE PROOF OF THOUGHT VIBRATION

The proof of the fact that Thoughts are an actual Force is found in the following experiment:

Take an ordinary thread, black, about 8 inches in length. Tie a darning needle or ring of your own or a small piece of metal of any kind to one end. Then grasp the other end of the thread between thumb and forefinger of your **right hand**. Extend the arm, **without supporting** same on table or chair. **Hold it perfectly still. Do not move it in the slightest.** Your arm is now extended with the thread and the metal article

hanging down from your thumb and forefinger. **Now think of someone you love.** If you do not happen to love anyone in particular send Love-Thoughts to someone anyhow. In a few seconds the article on the end of the string will **start to swing around and around in an ever-increasing circle. These are Love-Thoughts. They vibrate in circles.** Now change your thought to **Hate.** Send Hateful Thoughts to someone you don't like. **See what happens!** The article changes its vibration from the circular to a motion from left to right, or, as we call it, "To and Fro."

Now change your Thought to something material like a chair, table, watch or other things, and the vibration ceases altogether or will scarcely vibrate at all.

What has happened? Love and Hate are not material things, neither are Thoughts; therefore, they are **Spiritual and one and the same thing.**

Material things are so low in vibration that Thoughts have little or no influence over them **except as to their creation.**

## WHAT OUR SEATTLE CLASS STUDENTS SAY

Seattle, Washington,  
September 22, 1924.

Dear Dr. E. C. Feyrer:

We, the undersigned Seattle Auto-Science Class, at the conclusion of your Class work in Auto-Science (a new and simplified system of practical mind power), held September 8, 9, 10, 11, 12 in The Masonic Temple, Shrine Auditorium, Pine and Harvard, Seattle, Washington, desire to express our sincere appreciation for the great knowledge imparted to us.

The teaching has inspired us to greater efforts to aid suffering humanity and given us a practical, scientific system that does the work.

Your demonstrations in the class room have taught us more wonderful Truths about God, man and The Universe than ever dreamed of by many of us and the beauty of it is the seeing of one's self, the actual cause and effect in operation which banishes all element of doubt in the mind of the Student and leaves nothing to be taken for granted or on purely Faith. The proof is absolutely shown.

Dr. Feyrer, you are a Master Mind (THE WONDER MAN) in presenting this knowledge, as proven by our interest shown at every moment.

For years many of us have devoted our time to alleviating the ills of mankind and we now feel that your system fills a long-sought want for which countless thousands have longed.

We pledge you our loyalty, support and earnest endeavor to hasten the day when Auto-Science will lead the world in the Healing Art, as it surely will.
