# **"SOME ONE WILL BE HELPING YOU"**

**By Captain Nickels,  
of San Diego, California**

## **I.**

When you see some one in trouble.  
Walk right up by him and stand;  
Show the world that you are ready,  
For to give a helping hand;  
Try to speak a word of courage,  
To the one you find so blue;  
And while you are helping others,  
Some one will be helping you.

## **II.**

Try to lift them one step higher,  
As you pass along the road;  
Stop and give them strength and courage,  
Help them bear their heavy load.  
Never mind the scorns of others,  
To yourself and God be true;  
While you are helping others,  
Some one will be helping you.

## **III.**

Show the Master spirit in you,  
Try to do some good each day;  
Let your light shine through the darkness,  
As you travel o'er Life's way.  
Just a hand-clasp will encourage,  
Just a smile to those that's blue;  
For while you are helping others,  
Some one will be helping you.

## **"Some One Will Be Helping You"**

(Continued)

### IV.

When your work on Earth is over,  
And you leave this home of clay;  
If you have been kind to others,  
You will not regret the day.  
For while you were helping others,  
On this earth so full of woe;  
Some one higher up the ladder,  
Always was a'helping you.

### V.

When you travel through the Valley,  
To that land so bright and fair;  
All the friends that you've been helping,  
They will meet you over there.  
They will thank you for your kindness,  
When they were down and out;  
So while you are helping others,  
Some one will be helping you.

### VI.

Every deed it is reported,  
Be it good or be it bad;  
Every one will have to answer,  
For the chance on Earth they had.  
Just a word will oft bring sunshine,  
To the heart that's sad and blue;  
So while you are helping others,  
Some one will be helping you.

## THE HERITAGE OF CHRIST

“Verily, verily, I say unto you, he that believeth in Me, the works that I do shall he do also; and greater works than these shall he do, because I go unto my Father.”

Every Christian who believes in the New Testament must of necessity accept the above Prophecy of the Master as his heritage. He plainly states that what He has done, we shall be able to do also. And it is true. And it was especially meant with reference to disease of the human body and mind.

But how few of us ever analyze His statement; that “We” can do what He did? How many of us will even try? How many of us even believe that it is true? Very few! Why is this? The answer is simple. We have been told all our lives that the marvelous cures of the Master were “Miracles” or supernatural happenings and could only be accomplished under special direction of God. We have believed that just a few of God’s favorites had the gift of healing.

That this is not true, one needs only to read again his statement at the beginning of this chapter.

The meaning is so clear that it cannot be twisted around very easily.

“All that believe in Him or His works can do the same or even greater things.” That

means all who come **after** Him, because He knew at the time that He was to be crucified.

He never once claimed that He healed by supernatural or miraculous means, but made it very plain that any one who believed in Him or His methods could do the same or even greater things. To prove His assertions, He sent out his disciples to heal the sick and they performed many wonderful cures. To show that not only His own disciples could heal, the 70 others who went out to heal the sick, returned rejoicing at their success in doing the same as Jesus.

If, therefore, so many others outside of His disciples could do as He did, it is only reasonable to suppose that anyone who wanted to would be able to do the same. And all who want to can do the same today as two thousand years ago.

In fact, it is the duty of every Christian to alleviate the sufferings of his neighbor, or at least to teach him how to relieve his own distress, mental or physical. We have no right to complain, because we can help each other or ourselves if we but will. We have the power within us to do it according to the teachings of the Master.

**It Is the Heritage of Christ.**

## REQUIREMENTS TO MENTAL HEALING

“Ye shall know the truth and the truth shall make you **free**.”

One of the principal requirements to heal yourself as well as others, is contained in the above quoted statement of the Master.

“Ye shall know the truth” means nothing else but “to understand.” What? The laws governing man and his connection with his fellow man and his Creator. Understanding means knowledge and knowledge means Power and Freedom from all limitations.

It is because 95 per cent of all people do not understand themselves, much less their fellow man or God that there is so much misery, distress and disease in the world. The Master came here to teach us these laws and thereby bring happiness to all, but He was not understood except by a few. Because of this lack of understanding for nearly 2000 years, millions have suffered and died prematurely who could have saved themselves a great deal of misery and prolonged their lives many years.

Not knowing the truth keeps people in darkness and when we are in darkness we are deprived of our freedom.

In order to become free, it is necessary to lift the veil of superstition and ignorance

and this the Master attempted to do. But the people were not ready, except a few and as History tells us, they were persecuted, mistreated, killed, tortured until Rome became christianized.

Every statement the Master made was based upon sound scientific principles. This has, however, not been understood until a comparatively short time ago and is still disputed by many orthodox churches which do not wish the laity to use the Master's Heritage for reasons known best to themselves. But the hand writing is on the wall and the time is near, when all shall know the **"Truth that sets us free."**

Next to the principle of "understanding" for the purpose of healing is "Faith." He absolutely required "faith" to heal anyone. He not only demanded it from the sufferer but from His disciples as well. That he considered "Faith" of the utmost importance in healing diseases is plainly shown by the fact that whenever His disciples complained of not being able to cast out certain devils (diseases), He reproached them with the remark: "Oh, Ye of little faith!" Also, when anyone was healed through His efforts, He would say: "Thy faith has made thee whole." Or, if He was not sure of the sufferer's faith in Him or His method of healing, He would ask the patient: "Dost thou

believe I am able to do this?" If he answered "Yes" He would proceed to heal him.

Faith, therefore, is of primary importance in mental or spiritual healing. The more Faith or Confidence in your ability to heal you can inspire in your patient, the quicker and better the results are. If the patient has faith in you or your method, there is little trouble in healing him. If he has no confidence in you or your method and does not believe he will get better, he can naturally expect no results, unless he is treated by absent means and knows nothing about it. That no one can be healed as long as they resist consciously was demonstrated by Christ, when he went into His own home town and attempted to heal the sick. But according to St. Mark 6:1-6, "And He could there do no mighty works, save that He laid His hands upon a few folks and healed them."

And He marveled at their unbelief. This, to the thinker, should clearly demonstrate that Faith is required in healing. The fact that even He could not heal the sick unless they believed or hath faith in Him shows plainly enough that Christ did **not** heal by supernatural means. On the contrary, even He was subservient to the universal laws of healing, of which one is "Faith."

The power to heal is within all of us if we but care to exercise it. Were this not true and the Master had really done this healing by supernatural means, why should He have cared whether they believed in Him or not? He could have simply waved His hands and said: "Be thou well" and all within hearing would have instantly recovered their health. But such was not the case. They did not believe in Him and His works and, therefore, according to law could not receive any benefit. And this is true today as well. If you do not believe that a certain doctor can cure you, you will receive no benefit. If you do not have faith in a certain drug, it will not restore you to health. It depends entirely on the faith you have in the doctor, the method or the drug as to the benefit you will derive therefrom.

If we would receive benefit from Mental Therapeutics (Healing), we must have Faith of a certain kind at least. We must be anxious and sincere in our desire to get well; we must be open minded and not consciously resist the Healer by doubt and disbelief.

## THE REASON FOR IT

The fact that the Master never claimed to be a Healer, but always stated: "Thy faith hath made thee whole," establishes the truth plainly enough that all healing comes from **within** the **sufferer**. What this "within" is

that does the healing I shall try to make clear in this chapter. Science has clearly established that man is composed of a conscious mind and a subconscious mind, or soul. I shall not define these two minds here as it would take too much room, except to state that all healing comes by and through the action of the subconscious mind. This latter is always under the control of our conscious or reasoning mind and does only as it is told. It has no power to reason for itself, but believes all things it is told. The subconscious mind has charge of our involuntary organs, like the liver, lungs, heart, stomach, intestines, involuntary muscles of all descriptions and all the glands. It has the power to accelerate or inhibit their actions. In other words, it can cause them to perform their functions normally or stop them altogether. It perceives no pain at all if it is told not to. It has its home in the entire body from the top of the head to the soles of the feet, unlike the conscious mind which has its seat in the brain and directs all the affairs of the voluntary muscles and nerves from there.

### **POWER OF SUGGESTION IN DISEASE**

Man is constantly caused to do things through one agency, and that is suggestion. Suggestion is the only power by which we can

be and are influenced every moment of our existence.

Suggestion does not only mean, as the average person thinks, the spoken word. We are influenced by silent suggestion just as much, if not more, than by verbal ones. Our very thoughts (conscious) are suggestions to our subconscious mind and if actually believed (consciously) will cause the subconscious mind to act in accordance with that belief.

As long as our conscious thoughts are cognizant of pain or discomfort, we actually suffer pain and discomfort. But let our attention be diverted, as is often the case, by sudden shock, cry of fire or other accident, we feel no pain or discomfort until we again consciously refer back to our trouble. Then we often hear people exclaim: "Gee, I forgot all about my pain during the excitement and now it's back again." Often people cut themselves or receive minor injuries which bleed and they do not know it until they see the blood or someone tell them about it. This is due to the fact that they are consciously engaged in a different direction so intensely that they have no time to notice such trifles as a cut or injury. But as soon as they are told about it, it commences to pain them and they start to worry. The more they worry over it, the longer it will take to heal, because they suggest to the subconscious mind that it is

terrible and likely to turn out bad or poison will set in, etc. Of course, the subconscious mind accepts it as true and inhibits the natural process of healing.

If people would not consciously worry over ailments, nature would automatically cause the trouble to disappear. This is demonstrated in animals. Many animals receive injuries and often lose part of their anatomy, and in nearly all cases they recover spontaneously and even lost legs or other parts are grown back again. Why is this? Because animals do not consciously worry and, therefore, do not interfere with the functions of their subconscious intelligence which causes nature to create new cells, new muscles and bones and, of course, a new part is gradually provided for the animal. Man, with his superior intellect and reason, has been told through countless ages that if he lost a limb or any part of his body it would never be restored to him and he believes it. Naturally, the suggestion that this is true is so strong that he cannot overcome it and hence will remain crippled until death.

Whatsoever we suggest to our subconscious mind (Soul) that shall we be. If we suggest health to it continuously, by conscious thinking, we can and will never be sick, and should we start to do this after we have been or are

sick, it will produce perfect health sooner or later.

I do not claim that all disease comes from wrong suggestion. Not at all. Most of us get sick because we violate some law of nature. A great majority eat too much. They overload the stomach. This is congestion. Result—discomfort, pain and, if persisted in, chronic indigestion is the result and any number of other diseases that may follow as a result of imperfect digestion.

All disease in the human body is due to one primary cause—and that is congestion somewhere in the circulation. No one whose circulation is perfect can ever be ill or suffer any pain whatsoever.

Imperfect elimination is due to congestion of possibly the liver, lungs, skin, kidneys or bowels. And imperfect elimination means waste material and poison retained in the body that produce most of our suffering. People suffering from rheumatism, neuritis, many cases of paralysis, Bright's disease, lumbago, skin diseases and all chronic ailments, do so because their elimentary organs are not performing their functions properly. All of these organs are under the jurisdiction of the subconscious mind and can be made to perform their duty as nature intended they should. But

the only way we can reach them is by means of suggestion.

Ninety-five per cent of all our physical ailments are purely of a functional nature—that is, they are not organic. By functional disease, I mean that some organs within man are not functioning properly. By organic disease is meant the actual change of an organ in shape, size, etc., through accident, operation or other causes.

Mental healing (Suggestive Therapeutics) will positively heal 95 per cent of all our diseases if properly practiced and rationally carried out.

By this I mean that suggestion properly understood and used will restore normal health in all functional diseases if the patient gives his or her co-operation or consent.

## **HOW SUGGESTION WORKS**

I shall by giving the reader actual examples, show him the power suggestion has, both in a destructive way as well as in a constructive one.

I will give only a few cases out of several thousand I have personally observed and some of which I have not personally come in contact with, but which are, nevertheless, true according to history or the actual experiences of the narrators.

The power of suggestion is so great that it actually will produce physical death. If the conscious mind of a person is very forcefully impressed that the disease will kill him in a certain length of time, it is sure to do so. This is due to the fact that every conscious thought is a suggestion to the subconscious mind, which in turn, according to orders of its conscious mind, stops the proper functioning of the internal organs and thereby hastens death. It has been known in hundreds of cases when patients were told they had only three months or so many days or weeks to live, that they died on the day the time was up.

While in El Paso, Texas, in February, 1924, I met a man who related the following instance of which he was a witness:

Across the border in Old Mexico, an American company was surveying a line for a branch railroad. Among the young fellows in the surveying gang was one who was very much afraid of spiders. There were plenty of these in the camp which was in the desert. Tarantulas and other large ugly looking spiders were inside and outside the tents and shacks. Most of the boys became used to them and in a spirit of boyish pranks were always teasing this particular young man by placing spiders in his pockets or boots or under his blankets until one day he suddenly declared that he would

shoot the first man that played that kind of a joke on him. All went fully armed at all times. While he slept that night, the boys substituted blank cartridges in his gun. Next morning after breakfast, his best friend dangled a tarantula tied to a string in front of his face. The young man turned white, faced about, pulled his gun and shot at his friend. To make the joke look real, the latter sank to the floor as if mortally wounded. The would-be murderer ran out of doors, grabbed the first horse with a saddle and blanket on it and beat it as fast as the horse would run into the desert. When the horse became exhausted, he decided to camp for the night.

When he did not return to camp by night, three or four of the boys rode after him. They espied him next morning about nine o'clock and remarked to each other that he was sleeping late.

When they found him in his sleeping bag and realized that he was dead, they began to look around to see what could have killed him. The only thing they saw was the shell of a dead tarantula about six inches from his face and a drop of blood on his right hand where a safety pin had pinched him. This pin was in the sleeping bag to replace a broken hook. The deduction was that when he laid down to sleep he saw the tarantula and thought it was alive,

tried to protect himself with his arm and by doing so pricked himself and thought the spider had bitten him and, of course, suggested to his subconscious mind that he was poisoned and died.

Suggestion, therefore, caused death by the subconscious mind obeying the conscious mind.

Some twenty or more years ago, a condemned murderer was strapped in a chair, blindfolded, and told that his arteries would be cut and he would bleed to death painlessly. The doctors scratched his two wrists next to the arteries and at once allowed water to drop into two basins on the floor. The prisoner hearing this thought that his life blood was dropping down and died within thirty minutes. He never even lost a single drop of blood, but he died just the same. From what? Suggestion, pure and simple. His conscious mind believed what was told to him would happen and he told it to his sub-conscious mind and it in turn stopped the heart action and the man died.

Suggestion wrongly used can actually kill. Rightly used it is the greatest blessing humanity has. It can almost raise the dead from the grave. Suggestion has always been used, knowingly or ignorantly all through the ages with reference to healing. In 1900 in a little

village in Wiltshire, England, a man who had pleurisy was told by the doctor to apply a plaster to his chest. When the doctor came after a day or two he was told that the patient was much better and the plaster had given great relief. The doctor, however, examined the patient's chest and finding no signs of counter irritation from the plaster was greatly puzzled, but he soon learned from the mistress of the house that, having no "chest" at hand, she had pasted the plaster on a large box in the corner of the sick-chamber. Does that show what suggestion will do? Instead of a plaster on the patient, on a box in the corner, and yet the patient recovers. Marvelous power of suggestion!

Dr. John Brown of Edenburgh, England, tells of a case of a laboring man with colic, for whom he prescribed some medicine, directing him to take it and return to him and report in a few days, assuring him that he would soon be well. The man returned at the time requested entirely relieved and happy. The doctor was glad to see his patient so well and asked to see the prescription he had given him, whereupon the man explained that he had "taken" it, as he had understood the directions, by swallowing the paper.

The above is another instance of the power of suggestion and is only one of millions of

cures performed by means of charms, incantations, talismans and other superstitions, which, after all, are simply suggestions clothed in mysticism.

It depends entirely upon the faith the patient has in the remedy prescribed or, in other words, the strength of the suggestion given them with reference to the efficacy of the prescription as to how soon they will get well and recover. The physician who will give his patient pills or medicine with the positive assurance that he will get well by taking it as told, will find his patient at once on the road to recovery. If he tells his patient in a half hearted way to "try" the prescription and if it does not make him better to come back and try another he will invariably have his patient back for another experiment. Of course, many people want more than mere words to heal them. They want to have their back manipulated, electricity applied, medicine given, etc., before they will react for the better. This is the class of people who do not understand the power of suggestion.

Jesus, the Master Healer, understood this principle absolutely. Witness the cure of the blind man. The Master took spittle and sand and made mud therefrom. Then he plastered this over the eyes of the patient and told him to go to the Pool of Siloam and wash it off and

he would see. The man did as the Master suggested and commanded and lo and behold, when the mud was washed away, he could see again. This absolutely proves the power of suggestion, supplemented by a physical agency, mud. Surely, if the Master had healed by supernatural powers, he would not have needed to resort to mud.

A man in Pittsburgh, Pa., was in bed with Rheumatism for ten years. Could not walk or get up on his feet. One day, while home alone in winter time, the house caught fire. It was a case of getting up or being burned alive. He forgot that he could not walk, got up, went out on the porch and called for help. The fire was put out and he was cured. For ten years he had suggested to himself that he could not walk and believed it. Then the suggestion of burning to death overcame his fear of walking and he found that he could do so.

A young man in New York City had infantile paralysis at the age of three years. It left his lower limbs paralyzed. For twenty-four years he was in a wheel chair. At the age of twenty-seven the doctors wanted to amputate his legs, which had only developed about one-half the normal size, to save his life. He refused to let them do so. He found a doctor who understood how to use suggestion. In thirty days, the blueness left his limbs. They

became red and full of life. In six months they were almost normal as to size and in ten months he was able to walk with the aid of a cane. No medicine was given. His subconscious mind was told to send all the blood to his lower limbs and in this manner new cells, new sinews, new muscles and new bones were created. All by and through suggestion. Wonderful! Is it not?

These are just a few examples of what can be accomplished by understanding the machinery of man. The power to heal is within all of us and all healing comes from within. The Master never claimed to have healed any one. On the contrary, He always stated when anyone was healed, "Thy faith hath made thee whole."

But He certainly used suggestion in no uncertain manner. He was very positive and in a commanding tone of voice told the devils to leave the sufferer. In other words, He commanded the disease to leave at once, and it usually did. That's suggestion.

## **ALL CAN HEAL THEMSELVES AND OTHERS**

There is no one who cannot heal someone else or themselves, if they want to. By understanding the laws that the Master brought to us we can do as He did, according to His

promise. All we need is to create faith in ourselves and understand the law of suggestion, and we will be able to create perfect health in ourselves, as well as others. But we must know the truth and then act accordingly would we be free. Auto-Science is a continuation of the teachings of Christ and all who will learn shall be able to do as the Master promised us. These teachings are based upon scientific facts, demonstrable by anyone and in exact accordance with the teachings of Christ and verified by modern scientific research. Above all, they teach "Common Sense" and eliminate mysticism, superstition and supernaturalism. The world and the universe are governed by universal laws, and so is man, and all things are brought about by and through understanding these laws. Nothing just happens. Things are brought about by effort. That all who take a course in Auto-Science and desire to heal others or themselves can do so is plainly manifested by reading the following letters from students. They are very interesting, so please read them.

Chicago, Ill.  
March 12, 1925

Dr. E. C. Feyrer,  
Sherman Hotel,

Dear Doctor:—

Am pleased to write you of the success I have had in being able to demonstrate after taking your class work.

I was really forced to use it before I had created sufficient confidence in myself but obtained such wonderful results with the very first treatment, I not only received courage, but confidence as well.

My mother was suffering from a nervous breakdown, having aches and pains all over, especially in the back, and troubled with constipation and loss of appetite. I was able to completely wipe out the pain with the first treatment and did away with constipation in about three days. No more enemias or cathartics, and inside of two weeks have created an appetite, and I think well on the way to recovery, and without this help, I feel she would have had to spend considerable time in a sanitarium. ;

With this unbounded courage, I undertook a couple of cases of absent healing, with marvelous results. In one case, the patient knew he was being treated and corroborated with me; in the other case, which was a habit of long standing, and everything else had failed. I treated at a distance with absolutely no knowledge of it by the patient, began my treatment on Thursday night and before the end of the week, there was a marked change according to a member of the family and they wrote me it was almost unbelievable. Have kept it up and expect a complete cure in a very short time.

Yours truly,

Mollie E. Barnhart,  
1361 Este Ave.

Chicago, Ill.  
March 13th, 1925

Dr. E. C. Feyrer,  
Hotel Sherman,  
Chicago, Ill.

My Dear Doctor:—

I cannot praise your Auto-Science methods enough, or what it has done for me since taking your class work. By following your instructions and exercise, I have had wonderful success in healing others and assisting them to heal themselves.

I treated one lady for heart trouble of several years standing, also varicose veins of 40 years standing. She received immediate relief. Your class work is the greatest thing that was ever taught the public.

Sincerely your student,

Wilmina Waite,  
200 Laflin St. Apt. 10

---

12-11-24  
Waumatoso, Wis.

Dr. E. C. Feyrer,  
Dear Doctor:

I wish to state that your course delivers the goods plain and practiced without more essential. Words can't express the value of your course as my whole viewpoint of life has been changed and ideas clarified.

M. C. Weiss,  
58 Adler St.

---

San Francisco, Calif.

Dr. E. C. Feyrer,  
Dear Sir:

After suffering with neuritis for twenty years, I have been cured after ten minutes treatment by Dr. Feyrer. He is indeed the wonder man and a blessing to the world.

Mrs. George Dorsey,  
1810 Bush St.

Columbus, Ohio  
Jan. 5th, 1925

Dear Doctor Feyrer:

I have had one of the best night's rest last night in the last 30 years, of Asthma, and woke up this morning with the least waste in my bronchial tubes. Am delighted and want to thank Dr. Feyrer for his wonderful help.

I remain,

Yours truly,  
Mrs. Gillian Millington

---

Minneapolis, Minn.,  
Dec. 28, 1924

Dr. E. C. Feyrer and Wife:—

On my return from a visit with friends and relatives, I found your letter here awaiting me.

Since I took your course I have cured many cases of headache and have cured fevers. One case the boy has been subject to having pneumonia most ever since he was a baby; he is now eleven and from all appearances was starting in to have another attack. I cured his fever and released the tight feeling he had in his lungs. He is feeling much better.

When I finish this letter I am going to give him another treatment, which I think will be all he will need. I have also cured one man from the use of chewing tobacco. He had chewed tobacco for over fifty years and lately has been having pains around his heart which he thought came from chewing. He wanted to quit and now he has absolutely no desire to use tobacco in any form.

I am also treating some of the young men for the cigarette habit with success. I am surely glad I had the opportunity of taking your class work. I want to thank you for same—also Mrs. Feyrer—she gave me her private work. I took her advice and found that she was absolutely correct. I really believe her advice is going to bring me into a happy home.

I must again thank you both for the good I have gotten from your teachings and good advice.

Yours respectfully,

Mary E. Ross  
2015 24th Ave. South

Freeport, Illinois.  
June 7th, 1926

Dr. E. C. Feyrer.

Dear Doctor:

I will attempt to give you a few cases of different ailments that I have cured with Auto-Science which I think will help you in this good work. I think the lessons are practical and the most wonderful knowledge that the people in general can learn. I will give you a few of the many cures I have done with Auto-Science and I hope it will help you to get others interested in the work. Space will not permit me to give all the diseases I have been able to cure but will give a few so people will know that it can be done if they will try to learn the Science. I am ready to vouch for every testimonial I send you, if the people will send me a stamped envelope for reply.

1. I was called to Mr. S. in the city of Freeport last August, 1925. He had a pain in his side and no appetite to eat. He said he was weak and didn't know what was the matter with him. I treated him three times and he was well, and has been down town every day that it was fit to be out since.

2. In October, 1925, I was called to treat Mrs. M. for nervous headache. She used to have it three days at a time. I cured her head and gave her four treatments for her nerves. I saw her two weeks ago and she told me she was feeling fine and that she has not had a spell of the headache since I treated her. She says you are a good doctor.

3. I had another man with rheumatism; he was walking with a cane; I treated him seven times and he was well, and he had had it for eight weeks.

4. In February, 1926, I was called to treat a baby for a Mrs. K., the doctors said it had six-months colic. I treated it twice and its mother said it was cured. I saw the baby last Saturday and it was fat and healthy.

5. I went into a home to collect some money, and Mrs. K. was sick with pain in her side, had a hot water bag to her side. I asked her what was the matter with her, and she said it was neuralgia. She had had it for ten days and couldn't sleep. I told her I would cure her and I treated her three times and

she was well. I saw her the other day and she said she was feeling just fine since I cured her.

6. I went into another home where there was an old lady in bed with a pain in her knee. She said she couldn't walk. I treated her and then took her by the hand and told her to get up that she could walk and she got up and walked out in the kitchen and said the pain was gone with one treatment.

7. Last November, 1925, I was in a soft drink parlor to see a man. There was a young man there who claimed that the doctors said he had appendicitis. He was holding his stomach with both hands and said the doctors wanted him to go to the hospital to be operated on. I told him to come back in the back part of the room and I would cure him. He went back and I treated him once and the pain was gone and he has not been to the hospital yet. He was cured.

I could give you many other cases that I have cured of different ailments but don't think it is necessary to give all the details of every one such as lumbago, nervousness, headache, stomach trouble, insomnia, toothache, earache, neuritis, sore throat, la grippe and many other pains.

I hope this letter will help others to learn the Science. I remain,

Yours truly,

E. G. Geise,  
213½ So. Galena Ave.,

Seattle, Wash.  
September 25, 1924

Dr. E. C. Feyrer,  
Tacoma Hotel,  
Tacoma, Wash.

My Dear Dr. Feyrer:—

Feel that I must tell you of some of the wonderful experiences I have had since taking your course in Auto-Science:

The first one came the day after listening to your lecture on salesmanship. I was very much interested in the "impulsion" method explained by you and decided to try it on the very first person who came into my office regardless of what they came for.

Well, the first victim was a life insurance agent. I was not in the market for any life insurance, but gave her "our" hand-shake, at the same time saying mentally "I will send you some patients." The result was that although I displayed no interest in her proposition and she could not possibly consider me a prospect, she assured me twice that she would send me some patients, even turning at the door, shaking hands again and saying "I will send you some patients." A few days later she came in again and said she had decided she needed some adjustments herself and asked for some of my cards for some friends who were coming up.

Next I had a patient who imagined she was too ill to come to my office, and I did not want to go out to her house, so sat down and started sending her a "mental wireless" to come to the office. Shortly she called up and said she was dressing to come down.

Am also working your healing methods in connection with my work, and will say the results are marvelous. I never give a chiropractic adjustment for headache any more, as your method gives relief so much more quickly.

Words cannot express my thanks and my appreciation to you for the knowledge gained through taking your course in Auto-Science.

With very kindest regards to Mrs. Feyrer, Mrs. Castle and yourself, I am, Sincerely yours,

Mary A. Goodall, D. C. Ph. C.,  
418-419 Shafer Building.

Chicago, Illinois  
March 11, 1925

Hotel Sherman,  
Dr. E. C. Feyrer,  
Chicago, Ill.

Dear Doctor Feyrer:

The inspiration which I received from your work will live with me always, and I want to express my appreciation for the different aspect of life that the principles of Auto-Science has given me, for taking Auto-Science has indeed been an epoch making period of my life.

Making a mental gymnasium of one's brain is so

wonderfully simple and effective when using Auto-Science as taught by you. I consider you one of the greatest, and beyond any question, the most practical of all teachers of life's principles now before the public today, and your work will ever be a living monument to those who are fortunate enough to take Auto-Science.

I fail to find words in my limited vocabulary with which to frame a fitting tribute to the great and vital lessons of life's principles which you so ably propound.

Auto-Science has helped me to grow spiritually, mentally, and physically and given me renewed courage for further service.

It will be a privilege to have you use my name and as much of this letter as you may desire.

Sincerely and gratefully,

Yours for service,

Sarah Sabolsky,  
4305 Grand Boulevard.

---

Detroit, Mich,  
December 20th, 1924

Dr. E. C. Feyrer,  
Hotel Tuller,  
Detroit, Mich.,

My Dear Doctor:—

What do I think of Auto-Science?

There are not enough words in the English vocabulary for me to express just what or how much I think of Auto-Science.

If I cite my circumstances, it may in a meager way convey to you the faith I had and have in you and your teachings of Auto-Science. Owing to poor health I have been unable to work since May, 1923. Everything going out and nothing coming in sure does put a crimp in a savings account. I first attended your free lecture on Friday evening and was in such pain that I could hardly stand to stay until the meeting was over but I did and I never missed a meeting after that. I took up the class work, this with donations and books cost me fifty dollars. The benefits that I have received so far are worth that and more, too. I expect to receive it back a hundred fold. I was

instrumental in having two others take the class and they are just as well pleased as I am. I know that I did not get all I should have from the class work but that was no fault of yours. It was my own condition. The pain at times would be so severe that I could not pay the attention to your lectures that I wanted to. It was my loss that I could not receive a personal treatment from you as I know that it would have expedited a cure. But by following your lessons I am going to master the pain. I am going to get well. I have had this stomach and bowel trouble for years and cannot expect to get new health grooves in a minute but by perseverance I will.

You may recall that I asked you, on the night the Center was organized about how to treat myself to relieve the pain brought on by a fall I had that afternoon. I did as you told me and after a few minutes I felt a warm sensation all over my body and I fell asleep. I did the same in the morning when I woke up and am pleased to say that I am better. This is more than medicine would have done. /

I did not intend to write a volume and I hope that I have not tired you out. I never was able to write as long a letter before so you can see what you, Mrs. Feyrer and Mrs. Castle have done.

With kindest regards to you, Doctor, Mrs. Feyrer, and Mr. Myers, wishing you all a very Merry Xmas and a Happy New Year, I beg to remain,

Sincerely yours,

H. E. Newton,  
1538 Vinewood Ave.

---

Chicago, Ill.  
Feb. 11, 1925

Dr. E. C. Feyrer,  
Hotel Sherman,  
Chicago, Ill.

Dear Dr. Feyrer:

On behalf of the Sunday Evening Psychology Club, I desire to express our appreciation for the lectures that you have given before our organization and also for the excellent manner in which you are presenting "Auto-Science" to the people.

Your teaching is simple, practical and easy to understand and that is what is needed by the great majority. To take a theory and transform it into a concrete fact and make it work, is most unusual in the psychological field but you have accomplished the feat.

The above would not be complete without paying tribute to the powers of your dear wife, in reading the subconscious mind of those in the audience and correctly answering their questions.

Wishing you every success in your chosen work and assuring you of a hearty welcome upon your return to Chicago.

I am,

Sincerely yours,

Chas. M. Banta, President,  
Sunday Evening Psychology Club.

Freeport, Illinois.  
Rumsey, California.

Dear Dr. E. C. Feyrer:

I will write you a few lines to let you know I received my diploma and text book all O. K. and I thank you very much for these presents and I would like to tell you what wonders your teaching has done for me.

After my accident May 4, 1925, of being knocked down a rock cliff about 200 feet, by a rock hitting me, knocking me over backward down this incline of  $\frac{1}{2}$  to 1 slope, I was taken to a sanatorium and doctor there said in less than a year I would have to use a wheel chair. From there I was called by State Compensation Board to San Francisco to be examined by three of their specialists, and all they could tell me was I would just have to let nature take its course as they could not tell me anything to help me. While in the City I noticed your ad in one of the daily newspapers, and went and heard your free lecture, that was the starting point to my health and success, and I have been improving ever since till at present I am in better health than I was before the accident.

This epilepsy which I have been troubled with for over 20 years, I having tried several of these so-called cures for this trouble with no results, I have been treating this trouble less than two months by your method

and have it almost cured at present, also applying this power to others has helped them.

Last evening my father was telling me that his left arm was so lame from rheumatism that he could hardly use it, and without his knowledge I gave him a treatment after he went to sleep and this morning he noticed such a change for the better in it he asked me if I had been working on his arm. I told him I gave him a treatment last evening and he said he noticed the change as soon as he got up this morning. So it shows what this mind power can do when properly applied.

Words are not sufficient to express the praises I give you for this great knowledge I have obtained from your course.

May you live long that you may carry this great work on to many.

Your friend and student,

O. R. Buck.

---

Galveston, Texas.

Dear Doctor:

I have read and studied a great deal along psychological lines but these lessons are so simple and understandable that "I know" I will overcome through them the difficulties that have heretofore beset me.

They unerringly show that through the proper use of one's own mentality is his individual success to be achieved.

R. J. Bissell.

The Book the World has Been Waiting for  
264 Pages of Gripping Interest

A Tremendous Revelation of Man's Marvelous Powers Within  
a Revelation of FACTS and METHODS never before placed  
before the Public in the manner you will find in this book. It is  
written in Powerful, Straightforward, plain, simple style,  
characteristic of

**Dr. E. C. Feyrer**

Author of

Auto-Science, Practical Hypnotism, The Open Door, etc., and  
President of Auto-Science Institute,  
1037 Polk Street, San Francisco, Calif.

The subjects treated are The Mysteries of Telepathy, Spiritism,  
Ghosts, Super-Natural Phenomena, Clairvoyance, Thought  
Transference, Phantasms of the Living, Psychometry, Mind  
Reading, Self-Projection of the Astral Body, Table Tipping,  
Levitation, etc., all fully explained in a scientific manner and  
special directions given to develop these things in a simple, yet  
scientific way.

This Book is offered at a popular price, making it  
possible for everyone to own it.

## ALL IN THE STATE OF MIND

If you think you are beaten, you are.  
If you think you dare not, you don't.  
If you would like to win, but think you can't,  
It's almost a cinch you won't.  
If you think you'll lose, you're lost,  
For out in the world you'll find  
Success begins with a fellow's will.  
It's all in the state of mind.

Full many a race is lost  
Ere ever a step is run.  
And many a coward fails  
Ere even his work is begun.  
Think big and your deeds will grow,  
Think small, and you'll fall behind;  
Think that you can, and you will—  
It's all in the state of mind.

If you think you're outclassed, you are,  
You've got to think high to rise.  
You've got to be sure of yourself before  
You can ever win a prize.  
Life's battles don't always go  
To the stronger or faster man,  
For sooner or later the man who wins  
Is the fellow who thinks he can.

## LOOKING WITHIN

A great deal is being written and said in this day and age about Mind-Power and its possibilities. Every College, University, School of Learning is commencing to teach or at least talk about Psychology or Mental Science. This is due to the fact that we are living in an age of Mental awakening, of inquisitiveness, of wanting to know the why and wherefore of all the "miraculous" things happening all around us. Mankind is realizing more and more the so-called "unexplainable, supernatural, mysterious" phenomena of the past are in reality based upon exact Mental Laws, which produced them. We are seeing things in a different light. We are more and more shaking off the shackles of laziness, indifference and the old fashioned idea of **"Let George Do It."**

There are many bright, efficient and tireless men and women out among the masses today who are spreading the Gospel of Truth by tearing down the evil of Mysticism, superstition and its appendage of Human suffering.

Slowly, but surely, we are commencing to realize that we are deliberately, although often ignorantly, violating universal Laws, which, by so doing, causes us to suffer mentally as well as physically. Little by little we give Credit to Jesus, The Master, for saying: "Ye shall know the Truth and the Truth shall make ye free." For we are commencing to get glimpses of the Truth, by tearing down the veil of superstition and ignorance and we are realizing more and more the truth of the Bible's statement: "As a man soweth, so shall he also reap."

In other words, many of us have awakened to the fact that we, ourselves, and not God, are to blame for our misery, troubles, unhappiness, discontent, disease, poverty, etc.

This is a very good sign and all who have realized that they themselves are at fault will naturally look for the remedy. That is, they will search for the Truth that sets us free. Most people are always prone to blame someone else for their misfortunes, and if they cannot blame some neighbor or acquaintance, they naturally say that God made them suffer, for someone else "must" be at fault.

Shifting the responsibility of our troubles on someone else does not help us any. On the contrary, it only makes them worse, because as long as we have not learned to depend on ourselves, we are at the mercy of the other fellow. But just as soon as we realize that we "are the Sons of God and God is within us and the Kingdom of Heaven among us" we are on the High Road to Success, Happiness, Health, Prosperity, Long Life and Contentment. Because when that realization comes to us we at once start to look for the remedy in the right place. And that is "**within us.**" Man is created in the image and likeness of God and must therefore be perfect. This is true. The Sprit within is part and parcel of God, is God in fact, and perforce is perfect. It follows, then, that the spiritual part of man needs no help. It is the personification of our Creator. What then needs help? Our mental apparatus, governing our physical or material part, must be brought to a realization and understanding of God's perfect Laws, i. e., Universal Laws. Violating these Laws with impunity, through ignorance, lack of understanding, laziness, etc.,

will in all cases bring suffering, physical as well as mental.

Now, God never intended any of His Children to suffer, providing they lived up to His Universal Laws. Jesus, the Christ, stated this plainly when He said: "Ye shall know the truth and it shall make ye free." He proceeded to preach and teach these Laws to the people so that understanding might come to them and they would recognize the Truth and thereby become free. Because, when we obey the Laws we remain free, and when we see and know the Truth and follow it we are obeying the Laws of God. It is therefore up to us to search and look until we find the door that leads us into the pastures of happiness, health, success, wealth and peace. Because, unless you make an effort to find the Truth, you will remain outside the door that leads to the Kingdom of Heaven. God has given man an independent will, to do as he pleases, to procure his own salvation or happiness and He has thereby left it squarely up to him as to what he wants. "Seek and ye shall find, knock and the door shall be opened unto You." The trouble that has been with man is, that he has been told to

ask everything he wanted from God (mostly a personal God) without making an effort to use the instrument God gave him to help himself. He has been led to believe that by praying to an external being, of supernatural origin, he would be heard and all his wishes granted, without him doing his part or using any effort of his own. Naturally he has ever been disappointed and has lost faith in that kind of a God, and has started to search for a new God or simply stayed away from church and become antagonistic. The church is to blame for the falling off in man, perhaps of nearly 60 per cent of former followers. Why? Because it has failed to explain to the people that "God is within us" and that we have the instrument and power within to create that which we desire, providing we use this power in conformity with the Universal Laws of the Creator.

Jesus tried to explain this to the people. Many heard Him, but few understood, and this fact no doubt caused Him to exclaim: "Many are called, but few are chosen." To understand ourselves, then, is all that is necessary to a realization of the unlimited possibilities of our own powers. There-

fore, it shall be my endeavor to tell you how you may use the Power God gave you for your own benefit, as well as your fellow man (who is also a Son of God), and follow the Master's footsteps and so create for yourself and others perfect Health, Happiness and Success.

### **YOUR MENTAL APPARATUS**

It is now a recognized scientific fact that man has two minds. One of these is called the reasoning mind and has its seat in the Brain. It governs the conscious actions of man. It has the faculty of perceiving all things in the Material World and can accept or reject any proposition at will. It can deliberately send out its mental message and be perceived at any distance. This is called the Conscious Mind.

The other mind has its seat nowhere in any particular organ of the body, but seems to penetrate and permeate the entire body, like a hand filling out a glove. This mind has charge of the involuntary actions of many organs. It never sleeps, but is always alert and on the job. It does all things it is told to do without questioning. It cannot reason like the Conscious Mind.

This is called the Soul or Subconscious Mind.

The actions of these two minds are exactly like a wireless apparatus. The Conscious Mind is the broadcasting station or apparatus and the Subconscious Mind is the receiving station. Man can at Will send out impulses or thoughts in a similar manner as the broadcasting machine sends out music, speeches, etc., and make an impression on the receiving station or subconscious mind or minds of other people. A thought properly broadcasted will produce action, by the receiving station or subconscious mind of the person or persons receiving it. This, of course, will depend upon the force, velocity or power with which it is sent out through the Ether or Atmosphere.

Thoughts are vibrations set up in Universal Mind or Creative energy. They are of course invisible, but so are the vibrations sent up by the wireless broadcasting apparatus. And yet, we perceive them three thousand or more miles away and understand the message clearly. When we think positively we send out a Mental vibration that makes itself felt and the impression

upon the subconscious mind or receiving station is clear and distinct and causes action in the individual. If the thought is negative, it is weak, wobbly, uncertain and, while it makes a slight impression, it is not understood and cannot therefore be acted upon.

The reason some broadcasting machines can send vibrations many thousand miles and have them clearly understood, is because there is a tremendous voltage behind the impulse or vibrating diaphragm that pushes the sounds forward with enormous force. When the vibrations are in transit they are recorded by any receiving set or diaphragm that happens to tune in with the broadcasting machine. If the voltage or pushpower were of a low type or weak, the impulse or vibration set up in the Ether would not travel far and the receiving instrument would not receive the message clearly, could not understand it and of course could not act upon it. This often happens and is partly the cause of much unintelligible noise and confusion in the receiver. Of course, atmospheric conditions are responsible for part of this. Now, man has no such handicaps as conditions

in the atmosphere to overcome. He can send his wireless message at any time, night or day, and have it received and understood and acted upon. The only thing man has to do is to create sufficient voltage or push-power to send his thought vibrations out. He can send them out to one individual and be understood, without anyone else perceiving them or able to intercept, or to any number of people at the same time. In sending a wireless thought-vibration to any individual it can be done with or without the consent of the latter. This must be understood, however, and if it is done without his consent, it must be done at a certain time, when his receiving station is wide open. This is fully explained in my Course in Auto-Science, personal or Home Study.

### **MENTAL VOLTAGE**

Voltage is not electricity, as so many people suppose. It is that push-power, that force, that causes electrical particles to move. The greater the push-power, the more friction is set up and the faster the particles move. Mental voltage means the power or force behind the thought-vibration. We know the different thoughts vibrate to a certain rate of speed. It has

been established beyond a doubt that every emotion (thought) of man, like joy, love, happiness, anger, hate, jealousy, envy, poverty, etc., have a different rate of vibration. The more force or voltage man puts back of his thoughts, the better impression he makes upon the receiving station of the other fellow.

We are constantly influenced by the thoughts of our fellow beings and are always caused to act accordingly. If we were told that we were the puppets of other people's mental vibrations or suggestions we would resent it greatly, but it is nevertheless true.

For example: Someone has died in your immediate neighborhood; you go to pay your last respects to the deceased and you see the family crying and desolate, looking for sympathy, and your heart or mind goes out in sympathy to them.

You go to church and see an impressive ceremony or hear an inspiring sermon and your mental attitude becomes pious, meek and full of repentance. Go with a bunch of "Devil-may-care merrymakers," ready to have a good time, and someone proposes some crazy stunt, and you are right with

them, heart and soul. This is true in all things and is chiefly due to the fact that we do not know how to protect our receiving station from accepting and acting on mental vibrations received from others. In other words, we are negative. What is the remedy? We must create a positive mental attitude. We must create will-power and self-confidence. This produces push-power or mental voltage. It will enable us to protect ourselves against the acceptance of other people's thoughts or ideas as well as to send our own ideas or thought-vibrations with sufficient force to the other fellow's mind and bring about in him the action we desire.

Self-confidence is lacking in ninety per cent of the people. Will-power is equally absent. Yet both can be developed. Without self-confidence we are negative, weak, vacillating, not living, just existing. We have a wishbone instead of a backbone. Having no will-power of our own we are forced to do the other fellow's will. So, let's get busy and create self-confidence, will-power and positiveness. Let's be able to stand on our own "hind legs," let's have a backbone instead of a wishbone. Wishing

never gets a man anything. When we have will-power, self-confidence and a positive mind we have created push-power, mental voltage and are able to assume a different station in life. We **command** instead of obey meekly. A man with mental voltage plus an understanding of how to broadcast his mind properly can have **anything** he wants. He is happy, healthy, wealthy, successful, and knows he is living life to its fullest.

### BRINGING THINGS TO YOU

Inasmuch as we are human beings, live and have intercourse with our fellow man, we must expect to get our happiness from him while in this sojourn. We can no more be independent of our fellow humans and enjoy life as reversing the Law of Gravitation. No, we depend on each other for everything we want. One produces one thing, another something else. You need what someone else has and he needs what you have. Therefore we exchange service for value received and vice versa. But some people get more value for their service than others. Why is this? Because they attract more to them. They have created a reputation. They have will-power, mental volt-

age. They are magnetic. Everybody wants them or their services. They radiate success, good-will, kindness, firmness, justice, power. They attract, because they are positive. They always give value received. They believe in the Golden Rule. You can do the same. Train your mind; become the ruler of your own Kingdom. Get away from selfish thoughts, they bring you no good. They are negative. Get out of the rut, start a new habit. Do it now. Today is opportunity, tomorrow prophecy. The world of possibilities is in front of you. You can attract whatever you want to you. Get your mind right and all is right. Mind or thought directed into proper channels in the proper manner will create the things you desire. You will get people with similar minds to help you get what you want. Broadcast love, peace, harmony and good-will and watch results. Send out your thoughts with a **"Punch"** behind them. Stop worrying. Don't doubt. Have Faith. With Faith all things are possible, without Faith you remain a failure. Believe that it can be done and you will do it.

Eliminate all negative thoughts absolutely and success is yours. Things will

come to you if you broadcast properly. What others have done, you can do.

I submit a few letters of students who have taken my course in Auto-Science and the remarkable results of broadcasting by mental wireless after only a few days of practice. I shall select a few of thousands of similar letters with a variety of experiments to show that your thoughts can be used to bring every imaginable thing to you. By doing as the students did, they helped themselves and others. They did not violate any of God's laws. On the contrary, they but worked in conjunction with the God within. They did not sit down idly and expect God to do it all for them. They believed, and correctly, that: "God helps those who help themselves." They used their God-given faculties and made an effort, and in so doing brought about things they never could have gotten if they had not acted and used their spiritual and mental powers. Auto-Science teaches you all these things and hundreds more.

**MR. AND MRS. PHINNEY OF CIN-  
CINNATI, OHIO, CHANGED A  
DRUNKARD AND OBTAINED  
A GOOD POSITION BY MEN-  
TAL WIRELESS. READ  
THEIR LETTER:**

November 27, 1923.

"After taking your course in Auto-Science we had some wonderful demonstrations within a few days. We are friends of a family where the husband drank and spent all of his earnings on other people and left his family in want. Mrs. Phinney was able to change this man within one week, so that he now turns all his checks over to his family, and this is the first time in his life that he has done this. This demonstration alone was worth more than a thousand times the price of the course to us. I was out of a position at the time I took your course, and before I had finished I had a position I wanted and am making more money than I ever did. The course in Auto-Science is worth many times the price you ask, and to anyone wishing to do good, and have health and prosperity, we recommend your course above all others, and we have taken other courses but could not

demonstrate them. Auto-Science will bring demonstrations at once if instructions are followed as given, as your instructions are so simple that any child can understand them.”—O. B. Phinney and Mrs. O. B. Phinney, No. 5 Lincoln Terrace, Walnut Hills, Cincinnati, Ohio.

**MR. GATES OF CINCINNATI, OHIO,  
DEMONSTRATES IN A REMARK-  
ABLE WAY OVER CARBUN-  
CLES, BY “MENTAL  
WIRELESS”**

“After taking Dr. Feyrer’s class in Auto-Science and before I had reasonable time to master it, one of the men in the foundry where I am employed came to me and said his neck pained him to turn his head. I gave him a treatment as Dr. Feyrer had explained to us in his healing class, and when I had finished the man could turn his head easily and without pain. He was greatly worked up over the results. After giving him two more treatments I discovered he had a large carbuncle on the spinal cord of the neck. I sent him to a surgeon to have it lanced. He told the surgeon he had only noticed it in the last five days. The surgeon said he could not understand how a

carbuncle could be ready to lance in five days when it usually took from two to three months. He is still guessing.

"After taking other courses, I cannot understand how Dr. Feyrer can give his classes so reasonable for the value received."—Daniel Gates, 1419 Apjones, Cincinnati.

**TRIPLED BUSINESS IN ONE WEEK  
BY BROADCASTING MENTALLY  
AND HEALED A VERY BAD  
CASE OF NEURITIS**

"Here are two of the many experiences I have had in following your instructions: In my business I find it a wonderful help. I almost tripled my business last week over the week before. This is the truth.

"A girl that works for me had a very bad case of neuritis. She could not turn her head without turning the body. She had trouble for some time. I gave her five treatments and the pain was all gone and she feels fine."—Miss M. E. Woody, Meridan Beauty Shop, 826 State Life Building, Indianapolis.

### **MRS. LAURA ROELL USES HER MENTAL WIRELESS TO OVERCOME FEAR**

“Before taking Dr. Feyrer’s class I was timid, afraid and a coward. One night I dreamed my husband was in danger. I woke up shaking in every bone, then I did what Dr. Feyrer had told me to do. I became calm, got dressed (this was 1:30 a.m.) and went out to find whether my husband had met with an accident. I met a thief who was breaking in several squares from my home. He came towards me. I stood still, looked at him not a bit afraid, walked on and found my husband in good spirits, but very much surprised at my courage. I feel lifted up and more happy.” — Mrs. Laura Roell, 124 West Third St., Newport, Kentucky.

### **MRS. CARSON BROADCASTED FOR A RABBIT AND APPLES AND RECEIVED THEM**

Mrs. Geo. W. Carson, 314 E. Ross Ave., St. Bernard, O., told of using the Auto-Science concentration method in broadcasting for a rabbit and some apples. The rabbit was brought within two hours, and

two bushels of apples were brought to her without charge.

### **SOLD GAS RANGE BY MENTAL WIRELESS**

Mr. F. A. Tucker, 3139 Graceland Ave., Indianapolis, told the audience at one of Dr. Feyrer's public lectures that for six weeks he had advertised a gas range for sale, with no results. Through the use of **Auto-Science** concentration, thirty people called to buy the range and he sold it at the price he asked. He also used the concentration method on the night before calling on prospects and found he could sell them every time.

### **COLLECTS DEBTS BY USE OF MENTAL WIRELESS**

Mr. E. M. Peterson, 1031 Elm Street, Indianapolis, made a public statement that through the use of **Auto-Science** debts were paid which had been charged to profit and loss for three years. Another man stated publicly that a bill for \$18.75 which was more than a year old and which was considered lost, was collected by means of the **Auto-Science** method.

## DEMONSTRATES MENTAL WIRE- LESS 1500 MILES DISTANT

January 25, 1924.

"I wish to state that your course delivers the goods, plain and practical, without non-essential frills.

"On last Saturday I practiced a telepathy stunt on a person 1,500 miles distant. The circumstances of what I desired him to do and what I later found he did do, proves to me beyond a shadow of doubt that it was result of what I had learned to do through instructions of your course.

"Words can't express the value of your course, as my whole viewpoint of life has been changed and ideas clarified."—Lawrence Lynch, 404 East Tenth St., Kansas City, Mo.

## DEMONSTRATION OF \$5,000 IN- STANTLY BY THE USE OF MENTAL WIRELESS

"I esteem it a pleasure to say a few words in appreciation of your wonderful method of **Auto-Science**. As you well know, even before I had taken your first lesson through the privilege of appropriating one of your principles I had made a demonstration that

involved the sum of \$5,000. This was for value received, however, and was not used for the purpose of personal gain, as the law of compensation is too certain to tamper with it. This was merely on a deal where the original consideration had been \$10,000 and the party concerned had decided to only invest \$5,000 'til I applied 'Impulsion,' which, thanks to your teachings, proved **it works**. God speed your work wherever open doors are offered. With personal appreciation, believe me, Fred Geitz, Jr., Maryland Hotel, St. Louis, Missouri."

### **LOCATES FRIEND AND COLLECTS \$300 BY MENTAL WIRELESS**

"May I tell you how pleased I am that I have had the privilege of your teaching in **Auto-Science**? I have got that which I long have been searching for, and it was given in such a way that all could understand. I have made two demonstrations that prove positively that it works. I hunted a friend whom I had not heard from for almost a year. I sent a message to her, saying: 'Mary, please let me know where

you are.' In three days I received a letter reading thus: 'Dear Sarah, I am writing you a few lines to let you know that I am located in Richmond, Virginia, for the winter.' Answering my question absolutely.

"A man who lives 140 miles from here has owed me \$300 for two years. I concentrated for two nights, wrote him a friendly letter, mentioning the debt. Yesterday I received a letter from him saying that he would send me a check for \$150 and a note for \$150 in a few days. Have since received money and note."—Sarah R. Young, 4346 Olive St., St. Louis, Missouri.

### DEMONSTRATES HEALTH AND PROSPERITY THROUGH MENTAL WIRELESS

"This letter is written in a spirit of great appreciation for your wonderful work; having been a student of the subject you so skillfully handled for many years, I feel no hesitancy in saying to all that they cannot afford at any cost to lose the opportunity of taking the **Auto-Science** course of instruction. If one week of **Auto-Science** will enable one to accomplish what twenty years

of other methods failed to do, then **Auto-Science** is worth \$25.00. Thanks to you, I am positively **demonstrating health and prosperity**. The St. Louis class is dressing up right now for your return.”—Nina R. Warner, 4538a Laclede Ave., St. Louis, Missouri.

### HEALS MOTHER BY MENTAL WIRELESS

“I certainly feel very grateful indeed to the person who so graciously sent me the announcement of Dr. Feyrer’s lectures. I read fully the **Auto-Science** News and was very deeply impressed by same, and as my mother had been a constant sufferer for many years with nervous trouble, decided to try the healing, which gave instant relief. Words are inadequate to express the gratitude we all feel for this wonderful work. I would not take many times the price of what I have gained in this class, as I think Dr. Feyrer a most wonderful teacher, and could not recommend too highly to anyone seeking such practical knowledge.”—Mrs. Robert Schneider, 1109 Broadway, Kansas City, Missouri.

The foregoing are just a few examples of what can be accomplished by using the

**Auto-Science Method of Broadcasting the Mental Wireless.**

I have thousands of similar letters of things accomplished by using Thought-vibrations, but space forbids printing them.

The following are three actual experiments you can use at once and they will demonstrate to you that Thoughts are things.

**PSYCHIC CURE FOR HICCOUGHS**

How often have your children hiccoughs, and it seems that nothing will stop them? How many times have you met a friend with a distressing hiccough? You told him to take a drink of water, you slapped him on the back, and still it would not stop. Here is an absolute remedy for young and old, male or female. Try it!

Stand in front of patient and look at the bridge of his nose. Do not blink your eyes. Then tell him to raise his right hand as high as he can until it becomes a slight strain. Make him hold this position for one minute. Then have him close his eyes. Make three passes or movements in contact across

the throat of the patient in a partially downward direction with your fingers.

Then have him open his eyes and the worst case of hiccoughs has disappeared.

TRY THIS! IT WORKS!

## PSYCHIC ALARM CLOCK

Do you have trouble in arising at a regular time in the morning? Are you often late for work, because you don't hear the alarm clock? Do you have to go to work without breakfast because of getting up late? Do you have to run for the street car to get to work on time? If you have or had any of these troubles, here is the remedy. Try this:

Upon retiring at night and **just before going to sleep say to yourself audibly over and over until you fall asleep:**

**I will arise** (say 6 o'clock or mention whatever time is convenient).

Do not say: "I will awaken;" you will awaken all right, but there is a difference between simple **awakening** and **getting actually out of bed and dressing**.

If you do this for a week or two, your **subconscious mind** will have formed the habit and you need not bother any further consciously.

Whatever time you wish to arise, simply mention, as instructed. Also, whenever you wish to remember an appointment or date, simply sit down a minute, relax and say to your subconscious mind: "I will remember my appointment in time to meet it."

Repeat six or eight times.

## THE PROOF OF THOUGHT VIBRATION

The proof of the fact that Thoughts are an actual Force is found in the following experiment:

Take an ordinary thread, black, about 8 inches in length. Tie a darning needle or ring of your own or a small piece of metal of any kind to one end. Then grasp the other end of the thread between thumb and forefinger of your **right hand**. Extend the arm, **without supporting** same on table or chair. **Hold it perfectly still. Do not move it in the slightest.** Your arm is now extended with the thread and the metal article

hanging down from your thumb and forefinger. **Now think of someone you love.** If you do not happen to love anyone in particular send Love-Thoughts to someone anyhow. In a few seconds the article on the end of the string will **start to swing around and around in an ever-increasing circle. These are Love-Thoughts. They vibrate in circles.** Now change your thought to **Hate.** Send Hateful Thoughts to someone you don't like. **See what happens!** The article changes its vibration from the circular to a motion from left to right, or, as we call it, "To and Fro."

Now change your Thought to something material like a chair, table, watch or other things, and the vibration ceases altogether or will scarcely vibrate at all.

What has happened? Love and Hate are not material things, neither are Thoughts; therefore, they are **Spiritual and one and the same thing.**

Material things are so low in vibration that Thoughts have little or no influence over them **except as to their creation.**

## WHAT OUR SEATTLE CLASS STUDENTS SAY

Seattle, Washington,  
September 22, 1924.

Dear Dr. E. C. Feyrer:

We, the undersigned Seattle Auto-Science Class, at the conclusion of your Class work in Auto-Science (a new and simplified system of practical mind power), held September 8, 9, 10, 11, 12 in The Masonic Temple, Shrine Auditorium, Pine and Harvard, Seattle, Washington, desire to express our sincere appreciation for the great knowledge imparted to us.

The teaching has inspired us to greater efforts to aid suffering humanity and given us a practical, scientific system that does the work.

Your demonstrations in the class room have taught us more wonderful Truths about God, man and The Universe than ever dreamed of by many of us and the beauty of it is the seeing of one's self, the actual cause and effect in operation which banishes all element of doubt in the mind of the Student and leaves nothing to be taken for granted or on purely Faith. The proof is absolutely shown.

Dr. Feyrer, you are a Master Mind (THE WONDER MAN) in presenting this knowledge, as proven by our interest shown at every moment.

For years many of us have devoted our time to alleviating the ills of mankind and we now feel that your system fills a long-sought want for which countless thousands have longed.

We pledge you our loyalty, support and earnest endeavor to hasten the day when Auto-Science will lead the world in the Healing Art, as it surely will.

Signed:

R. E. Kittle, Director	Dr. Harl T. Brown, President
Mary A. Goodall, Director	Dr. F. L. Ball, Vice-President
J. Laurin Gillespie, Director	Margaret Preher, Secretary
W. T. Houston, Director	C. R. Watling, Treasurer
J. L. Field, Director	

# The Call of The Soul

*The Book of the Hour*

**THE BOOK THE WORLD  
HAS BEEN WAITING FOR**

—A Tremendous Revelation of Man's Marvelous Powers Within. A Revelation of FACTS and METHODS never before placed before the public in the manner you will find in this book. It is written in Powerful, Straightforward, plain, simple style, characteristic of

**DR. E. C. FEYRER**

Author of

**Auto-Science, Practical Hypnotism, The Open Door, etc.  
and President of Auto-Science Institute**

The subjects treated are The Mysteries of Telepathy, Spiritism, Ghosts, Super-Natural Phenomena, Clairvoyance, Thought Transference, Phantasms of the Living, Psychometry, Mind Reading, Self Projection of the Astral Body, Table Tipping, Levitation, etc., all fully explained in a Scientific Manner and Special Directions given to Develop these things in a Simple, yet Scientific way.

**This Book is offered at a Special Price, making it  
possible for everyone to own it.**

**Price \$2.85 Prepaid**
