FOREWORD

This book is the result of about twenty-five years of research into the study of the ether in the universe, and its application to the philosophy and phenomena of creation.

When the author began researching, he did it for his own personal information.

In conversations with many persons upon the subject of life, the author finally was persuaded to have printed in book form the results of his ceaseless work and findings, and this book is the result.

THE AUTHOR.

SYNOPSIS OF SUBJECTS

Herewith are some of the subjects which will be found fully explained by Etherology in this book "The Ether Wave":

Origin of Life.

Evolution.

Waves of Force and Power. Electric Waves. Ether Waves. Radio Waves. Light Waves.

Creation. How the World Was Created and Is Kept in Place in Space.

How the Physical Body of Man and Woman Was Created.

How the Soul—Spirit—is Born. (Where You Come From).

Why You Are Born. (Why You Are Here on Earth).

Elements of the Human Body.

Papers of the Author.

The Rights of Persons.

Prayers.

Where You Go From Here (Etherland-Heaven).

How You Go to Etherland and Where It Is.

What Ether is.

Sex-Hygiene.

To Mothers.

To Fathers.

Marriage, and What It Should Be.

Why, How, and What Causes You To Think.

Auto-Suggestion.

Mental-Telepathy.

What Electricity Is. Its Evolution.

What Radio Waves Are. Their Evolution.

Hypnotism.

Mesmerism.

Levitation — Suspension.

Guardian Angels — Guides — Controls — Doctors in Etherland.

Why You Sleep, and What Makes You Sleep.

Soul — Spirit — Development.

Claire-Voyance (How to See Soul, Astral, Spirit).

Claire-Audience (How to Hear Soul, Spirit).

Mediums, Full-Control, Semi-Control, Partial-Control, and Sensitives.

Public Mediumship from Platforms, and
How Done.

Psycho-Analysis.

Physico-Analysis.

Why More Women Are Mediums Than Men.

Astral Flights.

Dreams.

How You Journey In Etherland (Heaven).

Nurseries, Primary Schools, Grade
Schools, Colleges In Etherland (Heaven).

Communion On Ether Waves, and What
It Is.

Christ Science, Manifestations, Materi-
alizations.

Healing.

Life's Book of Sins. What They Are,
and How Kept by the Soul's Auros.

The Causes of and How to Prevent Wars,
Murders, Suicides, Law Violations, Insanity.

Status of a Person Electrocuted.

What and Where Hell Is, Purgatory,
Darkness, Outer-Darkness.

What Spiritual Progression Is; Spiritual
Perfection; Spiritual Affinities.

Redemption.

What Regeneration Is; Reincarnation.

Formula for a Universal Brotherhood of
Human.

THE ETHER WAVE

(9)

In introducing this work the author gives some facts about various waves of force and power.

**WAVES OF FORCE AND POWER. ELEC-
TRIC WAVES. ETHER WAVES.
RADIO WAVES. LIGHT
WAVES**

Electric waves, ether waves, radio waves, light waves are one and the same; the difference is in wave length.

Broadcasting waves average three hundred and sixty metres.

The wave length of a beam of light is approximately one twenty-five thousandths of a centimetre.

The wave length of the X-Ray is one hundred and twenty-five times shorter, approximately.

Electro-magnetic waves of long distance transmission lines have approximately five million metre wave length.

The difference in radio and light waves is their length.

A radio wave passes through a brick wall because the thickness of the wall is only a small fraction of the wave length.

A light wave is stopped by a thin sheet of metal, because the thickness of the thinnest sheet of metal is many times the wave length of a light wave.

Atoms we might term planetary systems with groups of positive and negative charges at their centres, a sort of sun or nucleus. Around this centre group are concentric systems of electrons. The hydrogen atom is a positive charge and one negative electron in an orbit around it.

From the electron we go to the etheron and then to spiriton.

Every animal, vegetable or human cell is a self-contained spiriton—etheron—electron—molecule—atom; their chemistry processes are according to the response of body vitality, nerve vitality.

This shows that there is but one evolution, spirit-etheron-electron; that all chemisteries in their final analysis are SPIRIT.

All life is of spirit origin. It absorbs electrical charge from the ether in the atmosphere.

Life growth, continues at body temperature in the presence of blood plasma, as iron is found in the nucleo-proteins of plant and animal cells and in the proteins of blood plasma.

Iron is electro-positive. Oxygen is electro-negative. These two with salts of plasma as an exciter, generate electricity.

Extract iron content of cells and plasma, the result is no growth.

The atmosphere is positive, and the earth negative. The air is permeated with ether.

Ether is a volatile inflammable liquid produced by the distillation of alcohol with sulphuric acid.

Spirit created everything physical. Everything physical is an exact counterpart of what is had in spirit, in Etherland.

The ether performs so important a part in all life, that the author has taken the word ether as the name for his book. Hence "The Ether Wave".

The Ether Wave

The knowledge of functioning upon this frictionless ethereal vibratory wave is had by the development of it within one's self while still functioning with the physical body on this earth.

This is the wave you function upon when in Etherland, and no longer have a physical body to function with. So it is just a question of whether you want to wait until you pass on into Etherland, where you will be forever, or whether you want to cultivate that power while still on earth.

It is much easier to cultivate that power while still on this earth where you have two bodies to work with, the physical body and the spirit body (soul).

As an illustration, if you have traveled by automobile or other conveyance to a certain place many times, the route becomes very familiar; you do not have to be stopping and asking the way; you can make better time, and you won't have to make detours and you will not become lost.

This is knowledge. Knowledge is power. No one can receive this actual experience for

you, nor "will it to you". You must get it for yourself.

The writer has this knowledge, and if you think enough of yourself, of your future life, this book should greatly assist you.

The writer wishes you a pleasant journey in Etherland.

Origin of Life

Everything has its origin in God, in good. God created this world, meaning God materialized this world. Spirit chemistry is stronger than physical chemistry.

Spirit chemistry holds the world in place. Creating is materializing. Creation is materialization. Dematerialization is decreating. Dematter is to decreate; physical matter made into spirit.

When physical matter is dematerialized it is made spirit.

All chemistry, whether physical or spiritual, in its last analysis is spirit chemistry.

Spirit is the Source of All

The quicker we learn this fact, the better off every one will be, the world. This is the real phenomena and philosophy. You may call it what you will. You can not remove it. It can move you, and it does move you.

Researching and analyzing with the physical eye through the microscope or other instruments, or methods of deduction and conclusions, we find matter reduced to atoms, atoms to molecules, molecules to electrons.

Then with the spirit eye and ear we begin with the electron, and go from electron to etheron, and from etheron to spiriton.

In physical chemistry you go as far with things to the electron. In spirit chemistry to spiriton, from etheron from electron, where the spirit forces work out upon the powerful frictionless ethereal vibratory waves or planes of functioning. You can not obtain this with physical instruments. You can only obtain this with spirit development through the human eye, the human ear; the I, the me, the soul, the ego, the entity, the consciousness within you that knows when you see a thing and that knows when you hear a thing. This is spiritual unfoldment, development, ability to function upon the higher planes of vibration; communion.

Evolution

Science informs us that communities consist of persons, persons of organs, organs of tissues, tissues of cells, cells the expression of which is life.

Every human being's body is composed of organs, as the heart, liver, kidney, etc., and every organ consists of tissues, of which there are four varieties; epithelial, connective, nervous and muscular. Each tissue is made of numbers of cells.

A cell is a microscopic bag of jelly-like substance called protoplasm, which often contains within its substance a smaller cell called a nucleus, and sometimes inside the smaller cell, a tiny dot called the nucleolus.

Protoplasm is formed of water, albuminous substance, sugary material, fat and chemical salts. The chief chemical salts entering into its formation are carbon, hydrogen, oxygen and nitrogen.

Cells vary from $1/5000$ to $1/120$ of an inch in diameter; they differ in shape; some form layers as in the skin, some bands as in muscle; some tubes as in the hair-like blood-vessels, and some float in fluid as the blood corpuscles. Some have the power of moving from place to place, called ameboid motion.

All this refers to the physical body.

We have a physical adaptation of the term evolution, which is perfectly correct. In living a physical existence on this earth, we must deal with things in a physical manner. There-

fore we draw the line of demarcation between things physical and spiritual. But after you will have arrived at the point of spiritual development where it is no longer a matter of belief with you, but knowledge, for knowledge is power (spirit power), and when your spirit can function upon the higher planes of vibration, you will know that there is but one evolution, spirit evolution.

This is knowledge of dimensions, if you are pleased to call it so. So you will never exhaust physical evolution, and you will certainly never exhaust spirit evolution.

Every one can not think in terms of vibrations and dimensions, but you will if you learn to labor and to wait.

Knowledge

If you have your house built on the firm foundation of truth and knowledge, all the winds and storms of time can not destroy it. So, fear not, falter not, weary not in well-doing.

There are no monopolies in spirit, no limit to your progression, and you can go as far as you like, if you have the power and development, if your chemistry is right.

Proof of This Work

The burden of proof or disproof rests with the investigator and experimenter.

If you were to take a journey to some foreign country entirely unfamiliar to you, and a friend of yours has just returned from that same journey, the natural thing for you to do is to go to that friend and ask him what is the best route to take, what hotels to stop at, in fact obtain the best itinerary for your journey. Would you not? This is how the author obtained his information, and he in turn is giving it to you.

As we must all make this journey, let us obtain all the information possible. Our stay here is short. Our future life is forever. Those in Etherland should know, they are there.

Cause and effect. For every effect there is a cause, and for every cause there is an effect.

The world and everything therein did not just happen; it required power to make them; a power more than anything physical, a Supreme Power. This is not theory, but an indisputable fact.

Do not say of anything "it is not true" until you can prove it. So if you read this

book, and do not investigate and search out for the truth as outlined herein, I would suggest that in all fairness you do not even venture an assertion of your uncompleted opinion.

Creation

Spirit is the all.

The Spirit of the Father within the Son, is the Trinity.

God, Spirit, always was.

God created everything. In His wonderful laboratory He created on and by means of a powerful ethereal vibratory wave the waters, sand, earth and all the other chemical elements and set all these evolving and involving.

This earth after creation was a globular glacier, and everything was conserved therein, just the same as you place food in an ice box to conserve it. So everything was conserved in the earth (glacier) awaiting man's development thereof for his physical needs.

After the world was created, then God created man in His image and likeness. And He breathed soul (spirit) into that physical body He created and called him man.

He next created woman in like manner.

He created man and woman to multiply their kind to occupy this earth and to learn

through their physical bodies the lessons of a physical existence.

Having learned their physical lessons man and woman quit their physical body functioning, and the intelligence that directed their physical bodies, that built their heavenly mansions while on earth, take on in spirit just where they left off in the physical.

Everything has its origin in God, in good. Good as well as bad have their origin in God. For the present I will call good "proper chemistry" and bad "improper chemistry". So everything having its origin in God, in good, and I mean both proper and improper chemistries, in their last analysis must be good.

In the human body you have two kinds of germs, friendly and unfriendly. The one builds up and the other tears down, if this were not so your physical body would not develop, for the food you eat must be digested and eliminated. The one germ helps to build up the body and the other takes care to see that the food you eat after the body takes what it requires, eliminates the residue. You may call this a resistance. If it were not for resistance you would have no electricity.

The air we breathe extends only a certain distance from the earth. Beyond this band

of air that surrounds the earth is space or vacuum. The universe is filled with very sensitive ether, showing periods of expansion and compression, or ether waves. On the front cover of this book is a word picture which explains this.

There are seven planes of ethereal vibration. The first plane is earthly, darkness. The second plane is lighter color. The third plane is still lighter. The fourth plane is a sort of blueish. The fifth is a sort of purpleish. The sixth plane is very light delicate purple. The seventh plane is pure white (spirit chemistry purity). On this plane is met the man called Christ. The first plane starts at the bottom of the ether wave, at the edge of the air belt, the second higher than the first, the third higher than the second, the fourth higher than the third, the fifth higher than the fourth, the sixth higher than the fifth, the seventh higher than the sixth. There is no limit to your progression. Whatever your auros of the soul show, this is the plane of vibration you are functioning upon. The subject of auros is this: Your soul is in possession of your physical body. (See illustration on next page.) The edge of the soul extends out from the physical body anywhere from an inch to

The soul in possession of the physical body.

three or four inches. The distance from the outer edge of the physical body to the edge of the auros give your spirit chemistry status, your sins. This is how your sins are kept. Further on in this work this subject is had in detail.

Elements of the Human Body

Water, weighing from 90 to 170 pounds, represents the greater part of the weight of a man's body, exceeding the sum of all the other substances in such body.

Carbon composes one-half the weight of the water, which is the basis of the organic constituents of the body, such as albumen, carbohydrates and fats. Next comes ammonia, which supplies in great part the nitrogen contained in the albumen. Then comes calcium carbonate, which builds up the major part of the bones, and phosphorus, which combines with calcium and oxygen to form calcium phosphate. Salt (sodium chloride) takes the next place, and is supposed to be dissolved in the water of the body, so it indicates the fluids of the body as a physiological solution of salt.

Flourine gives the bones and teeth their hardness; sulphur and potassium nitrate are also constituents of the albuminous substances of the body, and exist in hair, skin and nails.

Of the other elements which only exist in small percentage, iron is especially interesting, as the element giving the red color to the blood, and which absorbs the oxygen of the air; arsenic, which imparts its tonic qualities to the system, and iodine, which is found in the thyroid gland and keeps the body in the condition of activity indicated by its temperature. The remaining elements appear to have very little effect on the system, but seem to be little more than a mixture, introduced into the body with the food.

The human body appears more complex the closer it is examined and is revealed as the most marvelous manufacturer of chemicals. There are present within it the secretions known as enzymes or ferments, hormones or bodies whose only function apparently is to excite other secretions, and antitoxins or substances which act as antidotes to persons.

They are all organic compounds with a very complicated molecule, and can only be manufactured by the subtle chemistry of the body itself.

The human body contains certain inorganic substances, metals and elements of comparatively rare occurrence in nature.

The human body is composed of so many

pounds of carbon diffused through so many pailfuls of water, and when burned to ashes, sulphur and phosphorus are found in the residue.

Deaths from arsenical poisoning from imbibing beer from a common source, proves in evidence that the thyroid gland secretes arsenic in perceptible quantities.

Manganese, a metal which imparts excessive hardness to different alloys, is much used in the manufacture of oxygen, and forms the active principle in disinfectant and is found in the human body as well as in the bodies of birds, reptiles and fishes.

Boron, a light metal of the family aluminum, forms the base of borax, and is found in the body of man and nearly all animals.

The most unexpected constituents is flourine chemically grouped with chlorine, bromine and iodine. Flourine is in nearly every part of the human and discharges a useful function. In the enamel of the teeth, in the bones, in the skin and in the striped muscular tissue. Flourine is present in greater quantities in the embryo than in the adult.

The thing that counts is ACTION. Men come here to inherit what other men have accomplished before them, to add something

to the accomplishments and leave that something for the benefit of future generations. And what they leave, added to the knowledge that men possessed before them is WHAT COUNTS.

On page twenty-nine is shown the physical body possessed by the Soul (or the Astral body). From the outer edge of the physical body to the edge of the Soul (dotted lines) is shown the chemistry status of the Soul (auros); your sins or your goodness.

Whatever chemistry status of your auros (Soul) show, is the Plane of Vibration (chemistry) you are functioning upon.

When the process called death occurs (the fluetic cord severed), the Soul slips off onto the Plane of Vibration shown by the auros. You take on in spirit where you left off in the physical body.

The Etheral Vibratory Planes are the chemistry planes of purity status. To function upon the higher planes of vibration, it is absolutely necessary to have the chemistry purity required of the various planes of vibration.

The picture shows how you, yourself, keep your book of sins, your darkness, your lack of knowledge of your being, if this be the case.

It is human to err, but mind (Soul) elevates one above the human.

A Little Personal Experience

As an introduction to the remainder of the book, the following four papers were taken in shorthand by the author from his advisors, by means of the etheral wave:

Only the etherialists, in applying the definition, give to the world all the lessons, where many religions use the symbols. Where religions have Holy Communion, the communion with the Saints, the etherialists have communion with their sainted loved ones. Brother, I repeat the words of the Master, "If it were not so I would have told you. I am helping to prepare a place for you, that where I am may ye also be."

Every individual has a soul, every individuality has a mansion, and with the soul, which is mind, ego, is permitted to dwell therein.

You have a natural body, you have a spiritual body; a body celestial and a body terrestrial. The natural body is of earth, the spiritual body is of spirit. The natural body is the mansion you inhabit upon the earth plane, the spiritual body is that that is mentioned or

spoken of by Jesus Christ "In my Father's house are many mansions."

Oft times men abuse the mansion upon this earth plane by neglecting to care for that body properly, so also are the spiritual bodies neglected by some. Therefore, it is necessary to call in a physician to heal the natural body, so also is it necessary for the Guardian Angel to be called in to administer to the spiritual bodies, to clarify them of sin, which is darkness.

A man who seeks only for material, caring nothing for his soul, his condition after arriving in spirit is in what some religions term purgatory, a darkened state. Therefore they have church services to help relieve the earthly or material condition from the spiritual body.

The following is paper number two on Communion.

When the Body was upon the Cross, a thief at either side, the one's eyes were opened to the realization that that was the Prince of Men. And when he asked of our dear Lord that when He entered into his Father's home, to ask for forgiveness for him, the Lord answered him "This day wilt thou dwell with Me in paradise", because the scales had fallen

from his eyes, and he could see with a clear vision. So also have your eyes been opened (meaning the writer and stenographer), and you too have received that blessing. I had interceded for you, and was requested to give you communion. You believing in the communion of the laws of your church, while we gave you that to satisfy the material condition, we also gave you the spiritual communion, communion one with another. We receive communion in the spirit world, but this is communion with the forces upon the higher planes of ethereal vibration.

As you break bread each day, let it be in remembrance of Him who taught us to say "give us this day our daily bread".

Little did you think that even in the innermost secrets of your chambers I was with you. I will always be with you. We are constantly with you out on the ether waves.

My work was to reform you. I dedicated my life to you and for you, and so, as each one has some mission in life, some duties to perform, one must accomplish these duties before you have made a success of life. I lived upon the earth plane and could not perform the duties given me, but now after coming into

spirit I have succeeded in my efforts. So you see that my life has not been lived in vain.

You do not commune with words, but thoughts, spiritually. When you commune you are attuned with your guardian angel and the higher forces on the ethereal vibratory planes of functioning.

The following is paper number three on schools in the Ether world (spirit):

When a spirit reaches this plane, they are sent to school, taking on where leaving off before what people call death, but which is only being reborn in spirit, and after schooling, then they are sent to the seminaries and the colleges, and when they finally have gone through all of the universities and graduated, taking a post-graduate course, then they are professors in their line. These professors are turned into the spiritual world as angels, because they have been cleansed of all things material and are spiritualized so that they may reach the hearts of you children on earth. They have different grades, and pass on from one grade to another studying chemistry, human anatomy, etc. It is necessary for them to have a good understanding of the human anatomy, as they must know whether or not

it is possible for them to take possession of the organisms of the medium, and if there should be qualities lacking in that instrument for the one that is to take possession of it, then they must search out on the earth plane until they have found one who will fit into that condition.

Brother, you can not loose materially nor spiritually, but in each good act and deed you perform, your development will go on higher.

The following is paper number four, and is self-explanatory:

Oh, God, Thou Spirit of Divine love and wisdom, we turn to Thee at this hour and would ask Thy blessing. We realize in Thee, in answer to our aspirations, strong, wise and lofty spirits will come to guide and protect us. The yearning of our hearts today to serve, must ever find some service in this world. The desire to create something of peace and happiness must ever find an answer to a better life and better order, in the community and a more spiritualized people. Though sometimes our pathways are dark and dreary and we only dimly see the steps we are about to take, yet we realize that Thy power is there, Thy Love is ever round and about to support and sustain us.

Wherever there is a heart that aches today, wherever there is sickness and sadness, there may we go, and with this truth of Thy love and Thy ministering angels bring joy and happiness.

We ask that our heavenly Father, through Thy Son, Jesus Christ, who administered to the sick and healed the lame, go to the sister upon that bed of affliction, to bring comfort and alleviate her suffering, to bring her to a perfect light, and let the occasion be a revelation of Thy works.

The above was a prayer from spirit taken in shorthand as were all of the above papers. This prayer was for an expected dying mother, but who regained her health and lived for sometime after. The following paper explains quite fully just what occurred.

The following is paper number five:

The guides permitted her (your mother) to return to prove the demonstration and also let them more thoroughly understand the lesson I had given. You will remember I had said that the guides would take your mother down into the valley of souls, and would be with her, and would permit her to return, so that she might learn the lessons as well as the

truths. Therefore, with your assistance we worked through you as the medium. Had we snipped the flora cord, the life cord, your mother would not have returned to occupy her body and functioned any further with it. But we did not snip this cord, only let her travel the path once, so that when she does go, she will be familiar with the change called death. I had told you that your mother would not be taken that night, nor in seven nights, nor in seven more nights, and how long she would be permitted to remain with you would be a matter of how well she learned the lesson and took care of the new chemistry given her when the improper chemistry in her anatomy was dematerialized and supplanted with the proper chemistry gathered from those in the room and from us, which was materialized into her body, and especially her pancreas. We worked in conjunction with her physical doctor. He is a well-developed sensitive. We drew all we were permitted to, on and from you, as you understand, with your years of communing with us, seeing us, hearing us, as one of us are always round and about you, guiding you.

The snipping or severing of the fluetic cord connecting spirit to the material body, is mentioned in the Bible "unless ye be born again,

ye shall not be saved". •So we must all go through this. The severing of the cord is similar to snipping the cord which connects child to mother at birth, and must be snipped so that the child can function by itself.

We took possession of your mother so that the others might see the manifestation.

Be Reasonable

Your fellowman has certain inalienable rights, just the same as you have. A certain big magician, purporting himself to be and appoints himself as a committee of one as authority on investigation into the phenomena and philosophy of life, and who said that his knowledge would be taken with him to his grave, was endeavoring to have certain legislation passed to prevent a person from trying to find out all about himself in matters of spiritual knowledge.

This person is to be buried in a few days.

There are no secrets to one learned in the phenomena and philosophy of the ether waves. They tell all. It is just as if you were on a party-line telephone and pick up the receiver while another party is talking. You hear all. You would not call this such a wonderful secret, would you?

It is true that in searching for the truth, spiritually, one makes mistakes. Human flesh is subject to error, but spirit elevates one above the human.

A child creeps first, then learns to walk.

One of the strong stones in the foundation of the Constitution of the United States is "freedom of religion". Thank God for this.

If I absolutely know, I did not say believe, that, what I have written in this book is the Truth, the Whole Truth, and nothing but the Truth, it will take something more than physical force to snuff out that thing that thinks, soul, mind, entity, ego, I, me, personality.

I shall worship in the manner which to me personally is the best for the salvation of my soul. I use the superlative of the word good, "best".

God, the Master of Masters, is Master of my soul. To Him do I bow in humble acknowledgment and submission, because He knows more than I do. To where He leadeth me, I shall follow, for in Him is life, life everlasting.

Judge not, lest ye be judged.

Pick first the mote out of thine own eye.

Be tolerant, be reasonable, be fair.

Prayers

Following are prayers the Etherialist says:

On awakening in the morning:

Now I awake and see the Light,
It was God and the angels,
That kept me through the night,
Now I raise my voice and pray,
That they will guide and protect me,
Through this day.

Before meals this prayer is said:

Bless us, Oh Lord, and these Thy gifts,
Which we receive from Thy bounty,
Through Christ, our Lord, amen.

On retiring for the night this prayer is said:

We come to Thee, Oh Heavenly Father,
And would ask Thy blessing.
We realize in Thee, in answer to our aspirations,
Strong, wise and lofty spirits,
Will come to guide and protect us.

The yearning of our hearts to serve,
Must ever find some service in this world.

The desire to create something of peace and
happiness.

Must ever find an answer to a better life and
better order,

In the community, and a more spiritualized
people.

Though sometimes our pathways are dark and
dreary,

And we only dimly see the steps we are about
to take,

Yet we know Thy presence is there,

That Thy everlasting Love,

Is round and about to support and sustain us.

Wherever there is a heart that aches today,

Wherever there is sickness and sadness,

There may we go, and with the truth of Thy
ministering angels,

Bring joy and happiness.

We ask that our Heavenly Father, through

Thy Son Jesus Christ,

Who healed the sick and the lame,

Visit us in our necessities,

Bring us to Thy Perfect Light,

And may the occasion be a revelation of

Thy Works.

Spirit-Soul

Spirit is mind, ego, entity, soul, it never loses its personality.

There is nothing supernatural; everything is natural, nature. You may ask the question, how may I know? "Seek and ye shall find, ask and ye shall receive, knock and it shall be opened unto you".

Going through life be just natural, yourself, no one else. You must be good and true to yourself and everyone and everything. Do not think that you are alone, that you are really alone, for you are not. Every force or thought that you set in motion, whether you say it or think it, is broadcasted out on the ether waves, similar to broadcasting from a radio broadcasting station; the principle is precisely the same. This is how your guardian angel (guide) is in constant communication with you (your thought), and knows everything that you are doing or thinking about, good and bad. It is by the ether wave that your guide when possible to penetrate your vibration will cause you to change your mind to do a thing, controlling your thought, as it were, mayhap

to prevent you harm, and this is very often called "a hunch".

Birth

At the time of conception God breathes the spirit (soul) from his laboratory on an ether wave into the physical organism in the womb, and at birth, when the cord is cut which connects mother to child, the child begins to function by itself, independently as an individual.

The child then begins to learn as the years go by and develops physically and mentally (spiritually). That intelligence, personality, soul, spirit, ego never dies.

When this person, grown up, completes its living, functioning, on this physical plane of vibration, it passes over to spirit through the valley and shadow of souls, and takes on spiritually just where it left off in the physical existence. The doctors in spirit attend your spiritual birth just the same as they attend your physical birth here on earth. They assist in severing the cord which keeps the physical body inside of the soul, possessed by the soul. These doctors and their assistants probably days before the physical organism discontinues functioning, begin the loosening process, the thinning down of the fluetic cord; and

when death really occurs, as we call it, then the fluetic cord is entirely severed. Then we occupy our heavenly mansion which we have prepared for ourselves while on earth.

Physical chemistry is always alive in various forms and proportions, more or less at times everywhere and in everything.

Just remember everything is possible; nothing is impossible.

Under the proper instructions of etherialism, of the phenomena and philosophy of the human nature, and a true teaching and instructions thereof, as they always were, as they now are, and as they always will be, we would have a more universal brotherhood of human, and a more spiritualized people. You must begin with the child. The thoughts of youth are long, long thoughts.

All religions are making for good. Anything is good that helps to make for good. There is nothing bad or no one is really bad, but by ignorance and lack of the true knowledge of the real issues of their being. Who is to blame? The subject's auros will tell the story. And, some one will have to either correct or assist to correct all wrongs. It may be a father, it may be a mother, through improper chemistry, it may be negligence either con-

tributory or direct. The sins of the father are visited unto the third and fourth generation thereof; what if every generation keeps this up?

Sex-Hygiene

The one great advancement which should be made in this world is compulsory sex-hygiene laws. A law requiring before marriage a physical examination of not only the man, but the woman, a law compelling a certificate to be shown before marriage that both man and woman are fit physically to be the instruments of bringing children into this world. If the doctor finds either unfit physically, have the condition corrected first. Give the child a one hundred per cent birth-right to start life with, it will have enough to contend with anyhow at the very best. This is one of the strong stones in the physical foundation of this world.

An ounce of prevention is worth more than a pound of cure.

Womanhood

Protect her, men, be good to her. Shield her on every occasion. Help her without looking for physical reward. If you have a sister you want some brother to do so. Do unto others as you would that they do unto you.

Manhood

Be a man, as the Creator intended you to be. Come clean with Him.

Mothers

Women can make regretful occasions impossible by avoiding such occasions. So impart to the daughters early in life the necessary useful knowledge of sex-hygiene. This is your duty. Do your duty.

Fathers

Do not put off until too late imparting to your son the dangers ahead of him in the matter of sex-hygiene. Take him into your confidence and tell him all. Companion with your son as much as possible. Remember your boyhood days, and how if you now had the opportunity to do it all over again, you would do it different, better, good. Circumcision, yes, by all means.

Marriage

On the question of marriage. Well, you can not tell young prospectives very much at this period of life. I would suggest that compatibility is the paramount issue. Be sure you are right, then go ahead. The man should

have a good position or vocation, a home and a bank account before taking a girl away from a good, comfortable home.

And after you get your girl, young or old man, treat her as a woman should be treated, you know. If you do not, do not get married yet; wait until you do.

Owning your own home and having a bank account, a compatible and helping companion, next is the question of children. Buddy with them. They will ape after you, so it behooves you to set the best possible example. Be patient with them, be tolerant. Above all see to it that they obtain the best education within your means. Give them something with which to battle life's problems.

In case you have anything to leave your family, your estate, after your demise, proportion the residue equally, do not show partiality, be fair to all. And above all make your will while still in good health and sound mind — now.

Endowments for financially helpless children for educational and instructive purposes, are the building of heavenly mansions for the endowers. There is many a flower born to blush unseen and waste its fragrance upon the

desert air for want of the necessities for development.

Prayers

Prayer moves mountains. You can do anything you desire if for good, with the power of prayer. Pray in your own way if you do not know a prayer. When you pray you receive that "mana" from heaven on ether waves, and that mana is corrective chemistry or chemistry which you require and are lacking. This is partaking of the body and blood of Jesus Christ. Pray to your God, your Christ, your guardian angel (guide). Pray on awakening, before meals, on retiring. Pray for the light, the desire to function upon the higher ethereal waves of vibration. This is communion.

All souls in darkness in the physical world and in Etherland, are always helped by the higher developed spirit guides and teachers. This is part of their work which enables them in turn to progress. This is how the higher order of things spiritual is opened unto them.

Religions have their rules to live by, starting with birth, instructions in their creed or faith, marriage, family, sickness, death. What is this for? For purity.

Guides — Guardian Angels

The good guides are always round and about us. The spirits in darkness, in ignorance, in misery, seeing the light of our auros or developed spirit bodies (soul), endeavor to make for them as a drowning person would for a life raft or life preserver, and if you are not reasonably developed spiritually you are in for considerable discomfort in bad thoughts, difficulty in getting your true self together again in actions and deeds, and from which you only awake when remorse has hold of you. This is what your guides try to prevent. So if you do your best with them, they can with you. You should desire them with you always. It makes it easier for them to come to you. This is attuning with the forces on ether waves. Then take an inventory of yourself in the course of time, and at intervals.

A guide is your guardian angel. The guide is one who has advanced to the higher planes of education and spiritual development, thoroughly understanding the natural laws (spirit and physical), and this is the chemistry I speak of, gained either on this earth from learning and also from Etherland; who

have gone through the schools and colleges in spirit and have taken post-graduate courses, then specializing in a certain line of work. Every person has a band of guides at instant call when necessary and more power is needed for to do a certain thing.

Control — Guides

Control at night is done by the guides by means of etherialization. You are etherialized and taken into the spirit world, but it is so new to some persons and they are usually so unprepared from lack of development of that power within themselves, that they remember little of what they see or hear, usually only a word picture remains on awakening and coming out from under the spirit ether. This etherialization is similar as to when a doctor on earth applies ether to one on whom he is about to operate, placing the person first to sound sleep with ether so no pain is felt. The sensations are the same. I know whereof I speak for I have had this experience many times, in fact, I always look forward to this as it certainly does me good, physically, mentally, morally, spiritually. Well, you become very sleepy, and you have no control of your physical body, but your guides have and perfect control too.

What is Sleep?

If it were not for the spirit ether out on the ethereal vibratory waves or planes of functioning there would be no sleep for any of us. This is what makes us sleep, or gives us sleep, the ether in the air. Keeping your windows open at night while sleeping enables more ether to get into your room. It passes through buildings and walls, etc., but it is better to leave the window open while sleeping.

I rambled off on this sleeping question while it came to me. Now to get back to etherizations at night while sleeping.

Control at Night

Your guide or guides stay with your body, not all of the band of your guides, but enough of them to see to it that no other earth-bound spirit in darkness seeking the light, may try and take possession of your physical organism while your spirit (soul) is traveling in spirit (etherdom). This is what your guide prevents. Your guide is a doctor or thoroughly understands spirit chemistry as well as physical chemistry. That is what he went to school in spirit for, just that very thing. So one stays with your physical body, and others go with your soul, the astral body (spirit) and accom-

panies it on its journey into etherdom (spirit). The fluetic cord is not severed, which connects your two bodies, keeps them together. It is stretched out, and the length of this stretching out process is according to the strength and the power, the purity of your spirit chemistry. See illustration on page sixty-Six. You journey where you desire, if you so desire, as your spirit is a desire body, and as it desires, so is it. As you think here so you think in spirit, I mean the same force, the ego, the spirit, the soul, the entity. You travel in spirit by means of the power of your thought. Usually under the very best conditions you can remain away from your physical organism about forty-five minutes, seldom more unless you are very highly developed and know something about the laws governing this process.

Your guide assists you to return to your physical body. Sometimes it is all so beautiful in spirit journeying, that your guide has difficulty in inducing you to return to your physical body. While with others, and on other occasions, the guides have difficulty in inducing them (their soul) to leave their physical bodies and very often fight the control. But the control (guide) will win eventually. He will gradually get enough ether into you to

take you across. He has the power and plenty more of it from where he came and where he lives.

Now just to break the vibration—the ether wave for a moment.

We are here for the purpose of producing. Be a producer. If you are not producing, you are sharing the product of another producer. Occupy yourself and your time one hundred per cent. Idleness breeds mischief.

Visiting Mars, Venus, Mercury, Jupiter, Saturn, Uranus, Neptune, Herolit, and all other Worlds Spaced About in the Ether Universe

Regardless of what language one speaks, whether English, German, French, Latin, Greek, Spanish, or any other language, and regardless of whether one's skin is black or white or yellow or any other color, and regardless of whether one is an inhabitant of this earth, the Eastern or Western Hemispheres, and regardless of whether one is an inhabitant of Mars, Venus, Mercury, Jupiter, Saturn, Uranus, Neptune, Herolit or any other world in the ether universe, the expression of the desire body, the soul, the spirit, the entity, the ego, the thought, the I, the me, the personality,

Cross section through center of head.

they all have their physical methods of expression of desires, their physical methods of living, functioning. But they all have the one method of spiritual functioning, the same spiritual evolution. They all have their source in God, in good, IN THE ALL, SPIRIT.

They all have the same process of evolution: Communities consist of persons, persons of organs, organs of tissues, tissues of cells,

cells the expression of which is life. From the cell to protoplasm, to nucleus, to nucleolus, to atoms, to molecule, to electron, to etheron, to spiriton, — S P I R I T.

When all these nationals, persons, pass through the valley and shadow of souls, into Etherland, they all function with that desire body, that strength, that purity of spirit chemistry, that spiritual development which is the power to travel, that purity of soul, spirit, ego, entity, I, me, personality.

We here on this earth are only in the primary grades. Too much physical force expended for material things, and not enough of that thinking force, soul force, expended seeking, searching, developing for the higher order of things in the realms of Etherland.

How to Develop to See Soul — Spirit

The writer took the picture of Christ and hung it upon the wall. He then seated himself about six to eight feet away from the picture. Here is the process which goes on. See picture on page fifty-five. From the rear of the head on an ethereal vibratory wave or plane your guide will begin to show himself. At first this will be found difficult. The process is similar to projecting the picture in the picture show from the rear of

the house to the screen in front of you. Your guide will at first test your eyes, then begin focusing them, and will also test them to see what they and you physically and spiritually can stand of their power. The picture does not fade out at once, but gradually it will. At first you will see the face change in the picture, and another face take its place, it may be dark to start with, but as the doctor in spirit corrects the chemisteries within you, dematerialize the improper and materialize the proper chemisteries within you, gradually the face will become very bright, intelligent, as it were, and you can see the face move, the eyes move, and as the face becomes very bright, the process of purification is or has taken place. This all through your line of vision. This is receiving the mana from heaven. The same results can be had by sitting in a dark room, and this is called developing for *claire-voyance* (seeing clearly).

Claire-Voyance

In the beginning of spiritual development for seeing spirit, a dark room is best, as the black background enables you to better see the white form and also the various lights.

Your main guide (guardian angel) will work on one eye at a time for focusing, stand-

ing in front of you, then the other eye, then the guide focuses both eyes, and as your development continues the guide will show you himself coming out of the astral curtain. This astral curtain is all that separates the physical world from the spirit world. At first the guide will show you lights, perhaps white, red, blue, etc., and they are about the size of a pea or maybe they will be large, as large as an inch in diameter. All these lights are good ones, except the black one. Watch out for the black lights and black forms. They show the presence of earth-bound souls, in hell, in darkness, in purgatory, in the outer-darkness, in ignorance, in sin, in improper chemistry predominating.

Then again you may receive raps, anywhere. They like to use the alarm clock because the spark on metal sounds louder, the same principle as a bell. You will have to work out your own code. Usually no rap means no, one rap means yes, two or more or continuous raps means danger is near or that something is wrong.

Mediums—Psycho Analysis—Public Exhibitions of Mediumship from Platforms

They are those persons whose physical and spiritual chemisteries are suitable to be used

by the guides, the chemisteries in proper proportions or nearly so. Then here is the *modus operandi*, or just how it is done. You go to a genuine medium and with you goes your guide or guides (guardian angel). Now this medium, if fully developed both for *clairvoyance* and *clair-audience* (to hear) is what I term genuine, and there are many such not only in America but all over the world. Your guide knows all your thoughts, what you have been doing and what you are now doing, and what you intend to do, all this he receives by means of the ethereal wave. You see you are constantly broadcasting to him or her and he or she tries to do the same with you but is not always successful because you have your mind concentrated somewhere else. Then your guide knows your status by studying your auras. Well your guide informs the medium's main guide what it is you desire to know or should know. The medium's guide imparts this information to the physical ear of the medium on an ether wave which is properly attuned. Now, isn't this simple. Then the medium tells you exactly what you want to know, maybe tells you your name, where you live, the names of your relatives in spirit, who maybe deliver a message through the medium to you.

Broadcasting

If you think a thought you might just as well go to a broadcasting station and broadcast it to the world, for your thought goes out upon the ether waves, and if constructive chemistry, good thoughts, well and good, then you are helping proper chemistry to predominate out upon the ether waves or planes of functioning.

This is what I am endeavoring to impress very emphatically upon the minds of the readers, and especially that ALL LIFE IS CHEMISTRY. Every thought goes out on ethereal vibratory planes or waves either for good or for bad, depending on what you send out.

Why are More Women Mediums Than Men?

Because at certain periods poisonous matter is eliminated from their systems. Then, too, as a general rule they live clean lives.

Claire-Audience

This is the full development of the ear so the vibration or communication is heard distinctly by the medium, and the medium is in full possession of her physical organism and faculties, although the medium is slightly etherialized, but accustomed to it, developed

for it. The guides do not always announce themselves, but start right in speaking, but as a rule they do or should give their names and the name of the party they wish to have addressed or receive the communication through the medium. This action is similar to the at-tuned radio wave.

Full Control — Mediumship

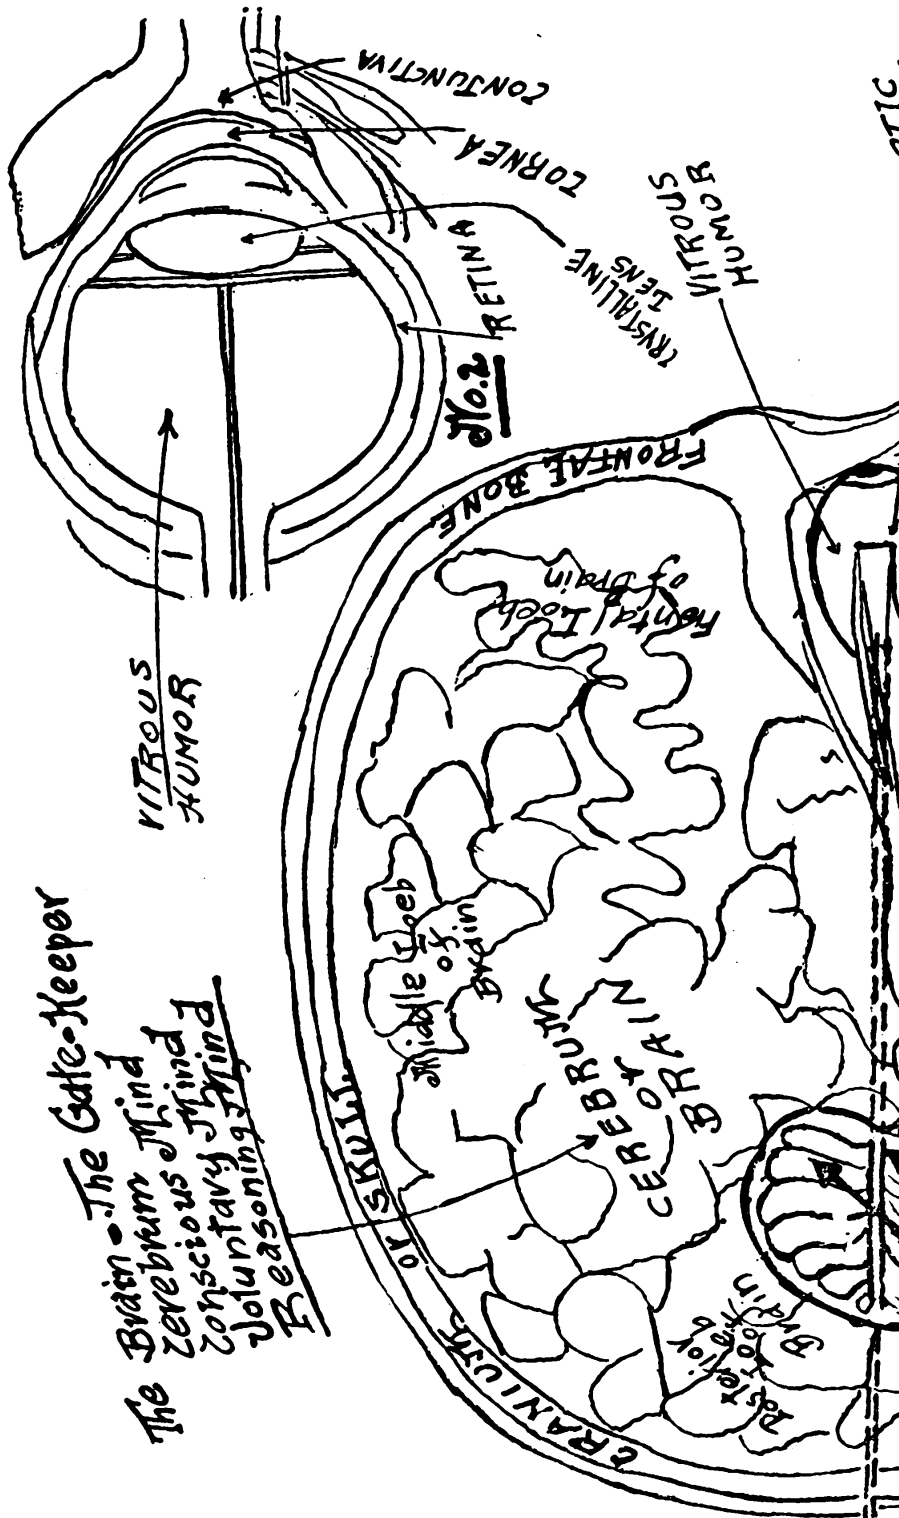

The medium is spiritually and physically fully and thoroughly etherialized, every part of his or her anatomy. Then the spirit body of such medium under control steps out of its physical body, but its fluetic cord, connecting spirit to the physical body, is not severed, as in death, but merely stretched out, maybe journeying in spirit, while a main guide remains with the physical organism not only to guard it but control it, and also say who shall use that physical organism or who shall not. Usually the most urgent cases are taken first. At this stage it is possible for the souls (spirits) of one in spirit to occupy the organism of the medium and use same, but with the main guide's permission, as it did on this physical plane, this earth, when it functioned in its own body. It can use the mouth of the medium, the ears, the eyes, the organs of

speech. But the physical body at this point should not be disturbed and absolute quiet should reign as the utmost care is being taken to see that nothing interferes with that "fluetic cord" that is connected from the medium's body to the medium's soul that is journeying. That soul's time is not yet to forever quit her body; so the medium is merely renting her physical body out for the time being while a seance is going on. Now let me warn those attending seances of this important behaviour. Until the medium is again in full possession of her physical body, until her soul has returned (spirit) and comes out from under the ether, absolute quiet should reign. A spiritual prayer should be said, or song should be sung. A glass of water should be taken by the medium. This glass of water should be placed in front of the medium at the beginning of the seance, as during the seance the spirit doctors will medicate this water with whatever chemistry is needed by the medium. This is termed "releasing the medium".

Semi-Control or Partial Control or a Sensitive Mediumship

Just enough ether is applied by means of the ethereal wave by the medium's doctor to permit the main guide to control its organism,

but the medium's spirit remains in its body, but puts, so to speak, the words directly into the mouth of the medium. To see just the operation study carefully the action of the ether wave in cut on pages 63 and 64 showing how it goes directly through the mind, controlling the cerebellum and the cerebrum, optic nerve, etc.

Many public speakers are semi-controlled and are not aware of it. They may say things which after the meetings when shown verbatim reports of assertions can hardly believe they said what has been recorded.

This is what makes many very fine inspirational speakers.

Astral Flights—Dreams—Journeying in Spirit Land — Etherland

A person, a human, is thoroughly etherialized while asleep. You can sit and become etherialized thoroughly just the same as going to bed and relaxing for this. Your guide remains with your physical body, while another of your guides accompanies your spirit into etherland.

You travel where you desire, visit places you wish, you have perfect memory, you converse (commune), and often the next

No. 1 shows the physical body asleep (etherialized).

No. 2 shows the soul leaving the physical body.

No. 3 shows the fluetic cord stretched out (but not severed as in death) enabling the soul to again take possession of its physical body and function **with same**.

morning is heard something like this, oh, I saw the most beautiful country last night, or I dreamed I was in a bank and counting a lot of money, or I met my father or mother who are dead, or I was with so and so, then I do not remember anything more; I awoke, meaning came out of the ether. Now it happens that very often when a guide endeavors to etherialize a person that just at that point when the process of almost full etherialization is had, that one rebels and fights and does not want to leave its physical body, awakening all frightened and disturbed.

This same process takes place when death occurs, only the cord is cut which keeps the physical body inside of the soul (spirit); then is had the final etherialization with your physical body. The physical functioning is all over

for you. You must move on whether you will or no.

Christ-Science—Healing—Communion in Any Church?

Take the picture of Christ, a life-looking picture of Him, one that has the hair tinted, the eyes colored, the cheeks colored quite like natural, the robe colored. In this manner you will see quicker and be more easily satisfied with the genuineness of the test. But you may take any full-size picture, or two persons may look at each other and obtain the same results.

Sit in a chair, comfortably, relaxing, keeping the mind blank (do not concentrate), for example take any street, block it with autos, how can another auto get past them? So keep your mind blank. Your main guide (doctor) projects his face through your line of vision from the rear of your hear (see illustration on pages 63 and 64), and when not possible from the rear of your head then on either side. But preferably from the rear of your head the guide (doctor) projects his face through your line of vision onto the face of Christ in the picture and you will see the guide's (doctor's) face instead of that of Christ—the picture.

Now the picture does not change, is not harmed one particle, it is your line of vision

that has changed. As the guide's face becomes brighter it shows that a dematerialization of improper chemisteries has taken place and the proper chemisteries have been supplied on this ether wave supplanting the improper chemisteries. With regular sittings but not too often as you do not require them, say once or twice a month, you will be able to see the guide's face immediately and clearly.

Now, of course, you must request just what it is you desire. The doctor in spirit can not always prognosticate or tell in advance just what ails you until he examines you. If a thing is not worth asking for, it is not worth having. Ask and ye shall receive, seek and ye shall find, knock and it shall be opened unto you.

Then, too, lead the life. Build every day in every way better. If you have weak spots physically, mentally, morally, spiritually, or otherwise try to correct these. You can. You must eventually, why not now? Think and remember. Use that machine God gave you. It's the only machine you can get there with. When I say machine, I mean YOU.

A doctor on earth can be greatly benefited with a thorough knowledge of this ether wave, in diagnosis, operations, convalescence, etc.

Why Doctors Employ Ether for Operations

In the application of physical ether as employed in operation on humans on this earth in this day and age, the physical chemisteries of the physical body through which we function, are temporarily arrested, functioning is practically, if not entirely, dormant.

The consciousness, the soul, (spirit), the I, the me, the entity, the ego, the personality, is also etherialized. This is why one being operated upon, who is fully etherized, is not conscious, not cognizant of anything whatsoever, unless, possibly, of very high spirit (soul) development, sould purity, purity of spirit chemisteries. But the point of probable consciousness is not while the soul (spirit) is in possession of the physical organism (body), but while in control (ether controlled spiritually) by its spirit doctor in Etherland.

As far as the author has been able to learn in the past twenty-five years of research and findings, not a single case of consciousness has been discovered where full and complete etherialization is had.

This is necessary for the reason that the fluetic cord connecting the physical and spirit (soul) bodies together, is not severed as in death, and unless there is full etherialization

of not only the physical and spirit (soul) bodies, the spirit (soul-consciousness) is naturally going to try very hard to regain possession of its physical organism (body).

The physical ether used by the physical doctor on this earth and the spirit ether used by the spirit doctor in Etherland (spirit), are one and the same in final analysis. In analysis we go to the atom, atom to molecule, molecule to electron, electron to etheron, and from the etheron to spiriton — the ALL — GOD.

There is but one evolution. This is the evolution mentioned above and in numerous subjects in this book.

Unless there is a thorough knowledge of etherology, the line of demarcation must be drawn between things physical and things spiritual, but in final analysis all chemistries are spirit — SPIRIT IS THE ALL.

Communion

We commune on vibratory planes. This is why one feels so refreshed after communion in church, as one does really and substantially partake of the body and blood of Jesus Christ, especially if they are in earnest. To illustrate, take the radio, and attune it to a sending station, you receive clear and beautiful music, and hear perfectly, it is relaxing. So when you are

attuned with the forces upon the higher planes of vibration you commune.

Life's Book—How Your Sins are Kept— Auros

Auros are the force of God within us, (see illustration on page 29), and the greater they are developed the distance of them becomes greater. That is why the colors emanate from our body, and when you see the astral body it is just the form. When you see the spirit leave the body, it comes up from the feet and gradually takes off from the head.

That is the breath of life, the astral body. That is why at times in viewing a remains whose spirit has left the body, if you are de-

The soul drawing off at the physical head, or leaving the physical body, as in death. The fluetic cord severed.

veloped, you see a thin vapor coming from the mouth, at the same time you will notice at the feet the raising of this astral body, joining together when it reaches the edge. You can see it floating as vapor. The above illustration gives you a good explanation.

To prove to you that the material is within the spirit. You probably remember that the scientist, Sir Conan Doyle, spoke about having a medium under strict test condition, that the spirit body was up here (meaning higher than the physical body), the material body sitting in the chair. They pricked the finger into what appeared to be the spirit finger, but the glove that the medium was wearing showed the blood spot. So from the outer edge of the physical body to the outer edge of the soul, is shown the chemistry status of the auros; or in other words, your sins or your goodness. And whatever chemistry status your auros show, this is the plane of vibration you are functioning upon. And when the process called death occurs the soul slips off onto the plane of vibration shown by its auros; so you take on in spirit where you left off in the physical body. The ethereal vibratory waves or planes are the chemistry planes of purification, and to function upon the higher planes of vibration it is

absolutely necessary to have the chemistry purity required of the various planes of vibration. By consulting the picture on page 29 you obtain a much better idea, and it is self-explanatory.

HEALTH AND HAPPINESS

As all nature is God, and you are created as one of God's children, in his likeness and image, and you do not commit any wrongs against nature, in other words, sins, why should not your body be whole; it was made whole, so that if you do not err or disobey one of the laws of nature, why should your body suffer. When I say body, I mean both bodies, physical as well as spiritual.

If you place food in your system that is injurious; the only way that nature has to make known that you are forgetting nature, is to make you suffer. If you will be careful of your diet, living clean thoughts, why would not the body be perfect? You can not have good guides unless you attract and send out the good thought. Good guides are the result of right living. One must work out their own salvation. That is what is meant when it is said that "you are master of your own destiny"; God is Master of destinies.

Sin — Hell — Darkness — Outer-Darkness — Purgatory

This inability to function, being in the darkness, in ignorance, in sin, in hell, in purgatory is absolute neglect of spiritual development. The picture on the front cover of this book, "Heaven and Hell", (From the darker ether waves nearest to the air belt, to the lighter waves the further one functions away therefrom without limit) explains fully. This is what is meant by improper chemistries predominating; inability to function; no power to travel; no light (purified chemistry); no nothing; dormant. What you pass through is worse than anything you could possibly begin to imagine. This is all the result of disobeying the ten commandments; that is about the best way I can explain it.

Redemption

But, thanks to God, you will work your way upward and onward. This is the work of the teachers in spirit; to do for you what you neglected to do while on earth; if you did neglect this development.

To give you an idea of how pure one must become to function in spirit. Remember, you travel continuously on ether waves. As a test,

just how much ether can you withstand without losing consciousness, without becoming etherialized? There is not one person on this earth but who can not be placed to sleep (etherialized) with physical ether (as we have ether on earth). The same principle applies in spirit. This is what is meant by the Bible "unless you become as little children ye shall not enter the Kingdom of Heaven". So to function on the higher ethereal vibratory waves or planes of ether chemistry, it requires purity of chemistry, spirit chemistry, and this can not be willed to you. You must work out your own salvation, your purification process. You have a physical body to learn these things with, to give you a start; some have very poor starts, others fairly good starts, others good starts. Where do you belong in this classification?

Spiritual Progression

All those who are unable to function at all, or very little, who are in the darkness, in ignorance, and I include both worlds, the physical world and the spirit world, but especially the spirit world where only the power of that thought, soul, entity, ego, personality, has itself to function with, one body, not two as in the physical world. This soul after it begins to come out of the ether, soon manifests de-

sires to know what it is all about and begins to ask "where do I go from here", if it is able to ask the question — to commune it. Remember you function with the power of the thought, that desire, that soul; and as you desire so are you, nothing more.

Well, along comes your guardian angel (guide), assists you with the elementary lessons, lending you power for the time being. You go to school, high school, college, take post-graduate work, then you undoubtedly will specialize; you will do these things sooner or later. With some it takes eons of time.

Spiritual Perfection

As far as I have gone I have not been able to find that for any soul passing on into spirit having reached any such pinnacle of perfection; personally I do not believe there is any such thing as perfection for any one of us or anybody else (humans on earth); but what I have found is this: a constant unfoldment, a constant progression, always progressing, ever onward and upward; no end, no limit to our progression. Do you not think this is a beautiful phase of our creation? This is evolution. I say there is only one evolution for everything and everybody. SPIRIT EVOLUTION.

Spirit Affinity

When both male and female purify to the seventh plane of vibration, they are at-one-ment, one in thoughts, one in desires, one in actions, one in deeds, etc. The male is the one-half and the female the other half. There must be the affinity of the two to make the "one whole unit of pure love, the God love". Spiritual marriages are made in Heaven. The male may be born first, or the female may be born first, but whatever one is born first, and goes through this physical existence, and purifies to this seventh plane of vibration, can not go further into the higher order of things spiritual until the other half will have gone through the same process. This is the affinity of spirit chemistry. God created it; we can not change it.

**GOD LOVE**

Set me as a seal upon thine heart,
For love is strong as death,
Jealousy is as cruel as the grave.
The coals thereof are coals of fire,
Which have the most vehement flame.
Many waters can not quench love,
Neither the floods drown them.
If a man would give of the substance
of his house for love
It would be utterly destroyed.

WHY WARS, MURDERS, SUICIDES, LAW VIOLATIONS, INSANITY, RACE SUICIDE?

Why Wars

All things can be explained when one knows the power of The Forces of Spirit. In our desire for worldly goods, money, position, influence, whether individual, a city, a state, a nation, or nations, we are all seeking for material, for commercial supremacy. This condition has always been and is the cause of wars. The next cause is race hatred. Another cause is due to the misunderstandings in things religious.

Wars are the result of improper chemistry predominating out on the ethereal vibratory waves pervading the physical world and the spirit world.

For example: At some point geographically, physically, some high dignitary of a nation is insulted, maybe murdered. This murdered man's government demands explanations. They are not satisfactory. The two governments parley, may be eventually war can be prevented. In the meantime the news

is spread all over the world. People read the news. Each one reading the news is forming their own opinion. Each nation has a flag symbolic of unity.

Each mind reading and thinking is broadcasting out upon the ethereal vibratory waves destructive chemistry, eventually we have improper chemistry predominating on the ether waves, germinating and multiplying, and this rapidly. You can not prevent war. The desire of the predominating chemistry is for war. Well, war it is.

War

The ether waves impart to me that a certain ruler has "*thought*" (thoughts are things) (I did not say he said it) that if he lost a certain war, he would go through race and religion.

By the means of the ether waves we hear the destructive plans, just as a builder sees the perspective of the building he is to build from the blueprints of the architect.

We had better be getting somewhere with a universal understanding for the settlement of disputes without resorting to armed force. The minds of the people are in the right mood to embrace doctrines of world peace.

How to Prevent Wars

To prevent wars you must work ahead of them. The real knowledge of the philosophy and phenomena of the human and all creation, (the knowledge of etherology) should be taught, compulsory education on this matter the most vital in all the world, next to our personal salvation. This is the real and only cure for war.

Construction, Not Destruction

The original idea, and the one that will never change is, "in the beginning God created man", He did not destroy him. What was His idea in constructing man? To multiply their kind with the assistance of woman. In all that God and Christ did they always manifested construction, not destruction.

Men losing their lives in war, certainly are not spiritually prepared to occupy their heavenly mansions. They give themselves a very poor birthright into the spiritual kingdom, into Etherland. They are a charge on the hands of their spirit guides, doctors and teachers, unless they are spiritually developed.

Universal Brotherhood of Man

A true knowledge of where we came from, why we are here, and how we leave here, and

where we go from here are some of the cardinal points that will make for a general and universal common and mutual understanding of one another; of who you are, who am I. The true knowledge. This KNOWLEDGE IS POWER. GREATER THAN WAR POWER.

War is destructive power.

IN TIMES OF PEACE PREPARE FOR A BETTER PEACE.

Lead the army with the cross, not the sword.

OUTLAW WAR.

Murders

An earthbound spirit taking possession of a person while he is functioning on this low plane of vibration is the cause of his act. If a man were himself, as God intended him to be when he was created, he would not of and from within himself commit murder.

What makes a man commit murder?

He is simply functioning on a very low plane of vibration, very earthly, very material. He revels in these things. What is the result? Like attracts like. He is a physical, mental, spiritual defective, functioning in hell, in improper chemisteries predominating in his entirety (physical and spiritual bodies).

He is an easy prey for a spirit entity to occupy his physical organism with him and use him to commit murder.

A true knowledge of the issues of his being is the remedy; Etherology.

Suicides

A person who commits suicide is a mental and physical defective functioning upon a very low plane of vibration. A spirit in ignorance, in darkness, in hell, takes possession of his organism, controls it, and does the deed, either directly or indirectly using his organism.

Insanity

The foundation for insanity is usually inherited, improper chemisteries predominating. This insane person is functioning also on a very low plane of vibration, an easy prey for others in spirit to associate with, occupy with him his organism at times, keeping him right where desired.

I have tried auto-suggestion and hypnosis, in cases, and by auto-suggestion and hypnosis I mean partial or full etherializations; this force working through the writer. In some cases it helps, in others it would require constant attendance almost. A very badly decomposed spleen in the physical body is something

you can look for in insanity cases. It poisons both the physical body and spiritual body. Melancholy is traced to this cause.

Murders, suicides, insanes, thanks to God, are eventually brought to the "light", purified chemistry. It takes time as we measure time. It may take eons of time, but they will progress spiritually. Spiritual hospitals are marvels—the greatest.

Electrocutions

Has any one ever been able to make a "right" with two "wrongs?" A person is placed in the electric chair, the current is so powerful that it stills the physical heart, or is kept applied until it does. The doctor in spirit can do nothing else but assist in severing the fluetic cord connecting the soul (spirit) to the physical body.

The soul (spirit) of the person electrocuted is not lost. Nothing is ever lost in nature. This soul (personality) does not loose his identity, he is he always, his ego is his ego always.

He takes on in spirit where he left off in the physical and this is shown by his spirit chemistry status. He will go to school, progress, but how long it will take we know not.

May be a long time. But he will learn to progress in time. We will meet him somewhere, sometime, in spirit.

Regeneration; Reincarnation.

The common accepted term of the word regeneration is that the intelligence is returned again at some future time to function again in a physical body its own as before.

I have never been able to find this a fact. Thus far this is what I have found: a regeneration of effort, another opportunity, but not in a physical body you can call your own, but through another's physical body.

For instance, take a case of still birth, or a case of premature birth, or even a case of an infant passing away. That intelligence is not lost. That intelligence goes to school in spirit for development, beginning in the nursery, then to the primary grades, then to high school, college, pursuing post-course work, specializing in whatever its desire is.

The developed spirit entity then searches out for work to do in the physical world, finds one or more needing its assistance, then through them (humans on earth) enjoys physical functioning, a physical association, assisting in their guidance, having gained not only

spiritual development so far as they will have gone spiritually, but also lessons in things physical. This is what I have found to be regeneration; *reincarnation*.

The whole process of life as created by God is regeneration, a working out of your own salvation and being assisted in doing it. Not some one else doing it for you, but assisting you, as in the final analysis you work it out for yourself.

You never loose your personality, you will always be YOU.

Your intelligence is created at conception. It is never lost forever. It may have difficulty in progression, but it will with kindly assistance attain its desire, especially if this desire is for good. So, sooner or later you will get there; it all depends upon you. It all depends upon your development upon the higher planes of vibration and your ability to function thereon, as this development is the power within you which must be developed. It's up to YOU.

Thoughts Are Things

We can never tell what our thoughts will do
In bringing us hate or love,
• For thoughts are things, and through aero
wings,
They are as swift as the carrier's dove.
They traverse the course of the universe,
Each thing must create its kind,
And as it speeds o'er the tract, it brings us
back,
Just what went out from our minds.

How One Thinks

See illustrations on pages 63 and 64.

All things begin in the mind, are brought forth by thought and shown by word and deed.

There are two places of intelligence, the voluntary or reasoning, and involuntary or intuition.

The voluntary or reasoning seat is in the brain, the conscious mind.

The involuntary or intuition has its origin in the Soul. It belongs to the sub-conscious mind and is in constant communication out on the frictionless ethereal vibratory waves or planes of functioning.

The conscious mind excites to action the brain. It controls the central nervous system which controls the voluntary muscles. It controls the physical senses and does not accept anything against reason or knowledge gained by education. It reasons by induction and deduction and synthesis. It is with the mind you do your work, transact business and make illustrations.

The memory of the conscious mind is imperfect. It can not at will accept or reject any proposition, opinion or insinuation.

The subconscious mind is not capable of inductive reasoning. It reasons by deductions only. It is the creative mind, the mind that does things. It does not reason, examine or compare truth and untruth, and is liable to carry out any suggestion, sometimes with grave consequences.

The sub-conscious mind has perfect memory, retaining everything learned by experience or education and is the store-house of learning.

The sub-conscious mind is also the seat of imagination, emotion, intuition, also for the transmission of eternal vibratory wave power, (see illustration on pages 63 and 64) the various functions respond to the commands and suggestions of the conscious mind or of another's mind, if the other's power is greater, meaning proper chemistry predominating, and this developed, and this is soul power, ethereal power, astral power.

Auto-Suggestion — Mental Telepathy — Hypnotism — Mesmerism

They are the combined forces of your guides in spirit who project on a powerful ethereal wave "your desire", as thought is a "desire body" from the rear of your head

(see picture on pages 63 and 64) through your eyes into the eyes of your subject. Your development must be the stronger of the two, though, if not, you will not be able to predominate with your thought. The stronger power predominates. Remember, you are just the medium through which the power is going. You have not got this power; it is your helpers back of you using you, because your chemistry is suitable to be used. You can sit for this development by using the picture I explained about in another chapter, (on pages 63 and 64).

Real Levitation — Suspension

If God can create a world and keep it in place in space with a powerful ethereal vibratory wave, why can not He do the same with a human, that is, suspend him in the air without anything physical holding him there? This is called levitation or suspension. Some persons are capable of doing this, or rather of having this done through them. They are the instruments by which a powerful ethereal vibratory wave is transmitted to hold a physical body in space. The person is not only assisted by his main guide but by all the guides of those persons sitting in the audience. These guides take

the necessary chemisteries from the persons in the audience, dematerialize it, convey it on an ether wave to the subject to be levitated. Few people realize that some of their chemisteries are assisting in performing this feat.

Crystal-Gazing

The person doing this work is highly developed spiritually. A genuine medium, I would call this. From the rear of his head (we will assume a man does this) on an ether wave his guides in spirit project panoramic views, a picture story as it were onto the crystal he holds in his hand. He is also sensitized, given the thought, (sufficiently etherialized) so that he has a complete knowledge of what is being shown him and told him. He may have the ear-development (claire-audience). This makes him so much more a marvel to his audience, and can hear also.

What is Electricity?

That imponderable and invisible agent producing light, heat, power, chemical decomposition, and other physical phenomena, that most powerful physical force, is traced to the electron, electron to the etheron, and etheron to spiriton.

This furnishes another case of spirit evolu-

tion. Electricity in final analysis is spirit power. It comes from the source of THE ALL.

The radio with the assistance of the human being can receive spirit communications. But it has been impossible to substitute, so far as I have tried, a mechanical instrument in lieu of the resultant in its totality of the physical chemisteries of a human. So I am still working at it.

Cremation

In cremation there is no more body for a person (spirit, soul), to linger over, and progression begins almost immediately. Therefore, it has been known that spirits reenter the physical body after they have been placed in the ground, and some time they claim they have been buried alive.

If there would be no bodies buried at all, the air would not become polluted, as it is at times. The water seeps through the ground, the germs are brought to the surface and scattered to the four winds. Sickness, epidemics are the result.

Buried Alive Under Water and Live After

The subject (a human being alive) is placed in an air-tight and water-proof coffin and

lowered to any depth of water. When I say a subject, I mean that the person must be instantaneously capable of thorough, full and complete etheralization by his main guides and his band of spirit helpers and must have absolute confidence in them. When so thoroughly etheralized his heart beat is not perceptible by the stethoscope. His soul leaves his body (his physical body), the fluetic cord is stretched out according to the purity and strength that his spirit's chemistry status will permit. On an ethereal vibratory wave his physical chemistry becomes temporarily inactive (thoroughly etherized). His physical body has no sense of feeling. His soul is not housing his physical body. The only difference between him and a person who dies is, the fluetic cord is not severed, therefore, after coming up out of the water and the coffin is opened, his guides bring back his soul (spirit) and he again functions with his physical body. He will be none the worse off for his experience, as any improper chemistry present in his physical and spiritual bodies is supplanted by proper chemistry he may require, as purified spirit helpers only can do this so that the subject functioning with his guides receives "mana from heaven" corrected

and purified chemistry, while with his guides on the higher ethereal waves of chemistry. Remember, I said all life is chemistry.

Hobbies

If you have a hen on the roost, see to it that the egg hatches. Complete one thing at a time, thoroughly. Do not give up, keep banging away at it until you will have succeeded in obtaining your desire, but be sure your desire is good.

Do not get into a rut, avoid them. Be broad, be reasonable; give and take.

If you become discouraged and disgusted, go out and take the air, commune with nature, and forget it.

If you can not get a thing, forget it.

If you make a mistake, no matter what it is, do not live it. Ditch it.

Food

Tell me what you eat and I will tell you what you are.

All life is chemistry. All food is chemistry.

With a proper regulated diet you should be fit at all times. What this diet is must be worked out by each individual. Have a doctor analyse you, examine you, as he knows physical chemistry, and should know spirit chemis-

try. Pay a doctor to keep you well, not to make you well after you become sick—prevent sickness. What is good for the goose may be poison for the gander. As you go along in life do not neglect your physical body. Your spirit, your soul, your consciousness must have a healthy body with which to do the best. With a properly regulated diet one can prolong their journey upon this earth. You owe it to yourself to look into this thoroughly.

Voting

If you do not exercise the right of franchise (voting) at the polls at election, you are entitled to no comment upon the results of elections. Vote for the person regardless of their affiliations, but pick the best suited, in your opinion, for the position or office to be occupied. Do your duty. It makes for the most efficiency. Efficiency is what counts. Be efficient.

If you can not be a leader, be a good follower. In this way you will learn to become a good leader. And always lead with truth.

The author has been working on another book of purely Chemistry, and expects to complete it within a year. He feels that he has now done a duty to mankind thus far, and wishes all who read this book, success in all things, and prays for their continued enlightenment.
