

# The Racial Problem

There is a racial problem, for the Plan of Life, inaugurated by the Creative Mind from the founding of the planet and the race, introduced itself into the consciousness to be worked out. The working out of the Plan of Life is first symbolical, for the reason that the world, which is not of the Father, or the Laws of Being, forms from the movement of darkness, that arises because of the movement of the Light, this causing a kind of a man and a kind of a Plan of living which is not the real Plan or Man. Fundamentally, every planet has its void or negations, incidental to the running down of forces in the course of a planet's progression, this centralizing as the void for the next planet's beginning, upon which God, the Creative Mind moves, to cause the Plan of that Mind to work out. Planets are formed in a certain order, one preceding the other in the God-Plan, this causing some to appear to be older and more advanced; so that the naught of one becomes the void of the next one to be formed, this being the fundamental elements that make up the world of darkness in the planetary course.

The problem arises in the effort of the Principles and Laws of the Plan, introduced into a planet and the race that is to inhabit it, to work themselves out, though with every movement of Light there is a corresponding one of darkness, this darkness becoming ignorance on the plane of the material. Ignorance poses as intelligence among mortals, though before the Plan of Life for that planet, it is gross darkness, hence not light. The problem continues until the end of mortality, darkness reaching its height at mortality's end, at the same time that the Light has worked itself out and made known the Plan of God for the particular planet. Progression is in

cycles, called on the plane of government, eras of development, with the Plan revealing something of itself, at the same time revealing the errors of darkness; though with the first coming of Christ, consciousness reached the state of advancement that permitted the Plan to make itself known in its own Light and Truth. Darkness arose because of the movement of the Divine Light, and the dark ages that followed taught the way of the outworking of the Plan of Life. The second coming of Christ, actually begun in November, 1922, made known the fuller Light, as well as led to a fuller revelation of the darkness, by which both the Plot with the problem, and the Plan of Life, could be known.

### **The Plot Against the Plan of Life**

The Plot against the Plan of Life arises from the developed darkness, in which is the law of sin and death, a law opposite to the Law of Life that is in the Spirit of consciousness. The Plot arises from the problem, the problem being the intricacies involved in the Qualities of Light taking on form in a world controlled to the Lord of darkness; yet, paradoxically, the Light is never formed in the darkness, but because of it consciousness is forced to turn from the darkness toward the Light, this inviting the intelligence and love necessary to promote the Plan of Life and to know it. The Plan of Life is known as it works out, hence is actuated by the Principles and Laws of God that caused it to be, when they have a consciousness in which they can work and make themselves known. The Plot embraces all the forces that are anti or against the Plan of Life, hence is promoted by the agents of antichrist. It embraces all the enemies of God and Man, and all the inhuman and cruel tendencies of mortals, who never having had the Spirit of God, as Christ, incorporated into consciousness, plot and plan in darkness and for darkness, in the false belief that they work for a Cause; though some agents necessarily work for themselves and their particular cliques. Since the Light can be consciously known,

the darkness is also known, though this may be as to its aim and purposes, and not necessarily as to why or how it exists.

The Plot embraces all the hellish machinations of men that betray and kill. It embraces as an ultimate wars that are always instigated by antichrist agents, however apparently good men may appear (and I do say men, for women in recent centuries have not had enough direct voice in the control of governments to affect marked changes for the betterment of the nations). The Plot embraces deceit, trickery, personal domination and desire, jealousy and hate, rivalry and greed, and kindred forces of consciousness, though on the outer plane of living these may take the form of debt, interest, double-talk, political and financial trickery, usurpation of the people's privileges by political and financial powers, strikes for domination and control, totalitarian practices in government via socialism, communism and fascism, and such other machinations of evil that impose bondages and burdens upon the people. The Plot especially centers to lies, trickery and deceit, that are practised in business, government, religion, over the radio, via the press, and even in the home. Wherever there is lack of honesty, understanding and frankness, there are aspects of the Plot in action, as it is a work of spiritual understanding and overcoming to weed out of oneself all that makes for lies and deceit. Even ignorance, by which persons fail to do what they should do, or fail to think what they should think, is one with the Plot, though where persons are eager and willing to learn and can put their errors to rout through understanding, there is natural growth, which all are allowed, for they must first work out the natural before they can put on the rudiments of the spiritual.

Those who know anything about the Plan of Life, can discern the machinations of the Plot in the degree of their understanding; though strangely, those promoting the Plot always imagine they are hiding themselves and that their ungodly works are not known. They may

even go so far as to attempt to enact legislation to protect themselves from being uncovered, making it unlawful to call them by name, not having enough common sense to know that they violate the governmental principles of Freedom of Speech or Freedom of Assembly; for some of these agents of hell attempt to prevent persons from speaking out ideas that will uncover them, or that will show the other side of a proposition; though God, Itself, has permitted two sides of a proposition, on the plane of the dual world of mortality. The plotters always attack the upholders of the Plan of Life, though the latter may expose the machinations of evil of the former, which is quite within the province of humanity and decency. Thus the Plan of Life so operates, that if people have eyes to see, meaning if they have any degree of human intelligence, they can detect the enemies of God and Christ, and know by their conduct that they work the works of the devil, and not for the good of humanity. However, it appears there are many undeveloped souls in our nation, persons who are deceived by the plotters, and who take a stand against the upholders of mercy, justice, decency and order, thus damning their own souls. The Plan of Life so operates that egos give an account for all that is thought, said, felt and done, whether it be good or evil, hence invite at the end of mortality the retribution or compensation of their works. If one is growing, he or she will look into either side of a proposition, weigh and balance the activities, and take a stand with that with which one's development is attuned, which is the most anyone can do; and so declare to those who can see the state of development. What one declares before humanity, one also declares before God and Its Laws, inviting good or evil, according to the development.

### **Purpose and Result of the Racial Problem**

The racial problem centers toward making Man to partake of the nature of God. The nature of God is revealed as Christ, hence Christ becomes the goal to be

attained. Christ is not person, though functioned by means of an organism of consciousness, attuned to its Principles and Laws. The whole purpose of the Plan of Life is to make itself known, and since God works by means of Man or Woman, it having no Being apart from them, the purpose of the Plan will be revealed among men. The spiritual import of the purpose of the Plan was revealed with the first coming of Christ, and the bodily or earthly import of the purpose with the second coming of Christ. The first coming by means of Man solved the problem of the race as to its spiritual import and inaugurated the Christian religion as the system of living by which the Plan would work itself out. Being spiritual, the first coming of Christ met the attack of its opposite, the material, and stirred up the racial problem and the devils who adhered in the darkness. The devils are the forces of consciousness developed in darkness and ignorance, though men and women function these forces and can become so at-one with them as to partake of their devilish nature. There is always opportunity for repentance, through understanding, if one's development permits; though since the mortality of the race is in duality, there are states of consciousness destined to function the evils and hells, hence these love the evils and the promotion of their forces until the end of mortality.

The racial problem is in the necessity of the law of sin and death, which is the Law of Life inverted or reversed to Principles and Laws of God, hence is a system of living in the involvement of dark forces by which egos are forced to find the light. Mortality is in death, and under the jurisdiction of the mind of the flesh. The raising of the mind from darkness to the light, by which understanding offsets ignorance, is a phase of development that characterizes the human nature from the animal, though this is but the light that is darkness, hence, must be carried forward to the Light of the Mind, by which one discerns the darkness in some comprehension of the spiritual, and contrast with it. The Light of Mind

developed will give way to the Light of the Spirit, by which one finally understands the duality and knows that neither good nor evil belongs to the Plan of Truth and reality. Thus the racial problem is solved only in Truth, through an individual solving the problem of living and attaining to the Truth. Such an individual becomes the Throne of Truth, through which God works to project all gained into the forces of the race and the planet, by way of the Law of the Cross. Thus all egos receive the gains of One according to their works, and at the end of mortality, after the second coming of Christ, are brought to compensation or retribution, according to the works or state of development.

The purpose of the racial problem is to make Man, and the result of the working out of the racial problem by individual Man and Woman, is to lay the Plan of Life for all the race, as Scientific Government and Credit, by which all men and women may put on the true character of Man and of Woman. A system of Scientific Government and Credit is comparable on the plane of the race to the Plan of Life, as it issued from the Creative Mind, hence is present to the race as Immortality, in which the true human state of being is revealed. As the Light and Truth of the scientific Plan of Life is opened to consciousness, the darkness and unscientific aspects of the planet and of the race uncover themselves, this permitting the advancing egos to take dominion and mastery over them unto the establishment of a real system of living, in which all things are made to count to the glory of God and the honor of Man. It is quite scientific that darkness should arise in degree of the intensity of the Light, hence today we are in the midst of such darkness, evil and devilry, as have never before been witnessed on the governmental plane. Politicians and financiers, the two chief agents of darkness, on the plane of government, who necessarily deal with the forces of the world, are coordinated to control materialism and to introduce new methods of darkness, as indicated by the various forms of totalitarian government they would pro-

mote. While this is a necessary evil, it is all the more imperative that those who love the Light and the Truth should dominate and control the powers of darkness and evil, so that they will be reduced to nothingness in the presence of the known Plan of Life. Since evil works by means of persons, good works also by means of them, with Light and Truth functioned among men to make known the Plan of Life, though using the two poles of duality as means to establish the Plan in a working and living way.

### The Plan of Life

The Plan of Life is within the consciousness of Man and of Woman, they being the organism of consciousness by which God has Being. This is to say, there is no being of God apart from Man (race). God is not something in the skies nor existing apart from the creation, for God as Creator has being by means of consciousness that becomes, when completed, Man and Woman. Man and Woman are the racial expressions of the Male and the Female Poles of God, respectively, though they have their identity in Christ, the Male-Female of God, the Image and Likeness. God works by means of Christ, and Christ by means of Man and Woman, though God and Christ are the within and the without of each other, hence are not separate, except for purposes of understanding. The Male and Female Pole of God, united in manifestation make up Christ, but as Twain make up Man and Woman. Men and Women are the separated expressions of these two poles on the plane of the world, and are the means by which all forces are progressed in the race, including themselves. Since God works out the mortal race by means of men and women, it follows that God works out Its Plan of Life by means of Man and Woman.

The Plan of Life, made racial, is the Plan of Scientific Government and Credit, because it is only on the plane of Government that Principles and Laws of living can be made to apply to all. The Plan of Life directly works

itself out in an individual Man or Woman, and from this consciousness, gained in Christ, the Truth, universalizes itself to the entire race; or to all men and women. The process by which the Truth universalizes itself and makes itself racial is spiritual, and understandable only by one in the Truth; but the fact that the Science of Government and Credit is made known proves that the Truth has worked universally and made itself known on the plane of the body. Body, in its relation to the race, is governmental, the outer expression of the Spirit. Government, when it is scientifically premised is the Plan of Life in a universal aspect, with egos living under the Plan to become individualized; though an ego individualized in male-female union has been the means by which the Plan has been universalized to all, governmentally. Government, when it is real as God intended, is a science of living, hence the means by which men and women are advanced, according to the Plan of Life.

A kind of a government exists even as a kind of a man, before their reality is manifested. The United States is a kind of a government in which is a kind of a man that could become enlightened to receive the impregnation of the Spirit and be born in the Truth; though this Man in identity is Woman in the second coming of Christ, she being the means by which the Science of Government is made known. The Science of Government, while it is the Science of Life is also the Science of Love, and Woman, the Principle of Love, is the means by which the law of sin and death is understood, and the Law of the Spirit of Life in Christ is opened to make known the Science of Life and Government. Thus, Woman, in God-function, gives birth to universal Man, or the race in position to attain to the true human state, even as the Mother Principle of God was the means by which the race and the planet were primarily created. The United States has developed a kind of individuality, with initiative and liberty, by which freedom of spirit, soul, mind and body could be promoted to permit the Lord to act to make known its Plan. The United States

is the nation, chosen of God, to become the Ensign or Pattern to all other nations, when she has put on the Science of Government and Credit, and has been born into Immortality as the beginning of the New Order in the Ages; which she was at her founding in symbol, but which she becomes in reality at the end of mortality.

The Plan of Life is always working itself out, and while many adverse forces arise, all darkness moves because of the movement of the Light, hence we can rejoice that our redemption, as a race, draweth nigh, when the hidden forces of darkness and the principalities of hellish powers are uncovered, as has been the case the last twenty years, especially. The hellish forces become more hellish as mortality comes to a close, though on the other side, the Light asserts itself, with the plane of science showing a corresponding advancement to the plane of the Spirit. The gains of Light carry over to the New Order, while the gains of darkness carry back to become the naught of another mortal planet's beginning, though both come to a harvest at the end of mortality, now working out. Bogus plans of living work out as the height of materialism, because mortal minds, puffed up in the vanity of themselves, and stimulated by the introduction of the Qualities of Christ-Truth into the race, attempt to work out in their own wills new systems of living at the dying down of the old system of materiality, though these necessarily are more evil than the old, since they come from mortal minds at their heights of material power and development.

### **The False Plan of Life Arises From Darkness**

The false Plan of Life arises at the time of the rising of the real Plan of Life, for the darkness moves because of the Light. Since the darkness has reached its height of materialism at the time Light culminates in Truth, a false and untrue system of living arises from the highly evolved material minds at the end of mortality. This false and untrue system of living comes under the head of socialism, communism or fascism, all forms of totali-

tarianism. These arise because the Plan of Life is working out universally, to bring all governments and nations under its own system of Scientific Government and Credit, but instead of working all separated nations out as one system, as the leaders and promoters of totalitarianism would do, it works out each nation in the system of Scientific Government and Credit, according to the state of progression; following along the line of making individualism the central throne for the action of God. Individual nations are aggregations of individuals, hence in their orders of progression can partake of the Science of Government and Credit; but the mortal minds, highly evolved in materialism, and that are found on the plane of government, would work out all nations in an international system before each nation has attained its nationalism. This is comparable to trying to unite all individuals of a group in a cooperative system before each has learned the spirit of cooperation.

God's Plan of Life is laid, the kingdom of heaven is already preached, and all individuals and nations press into it, either through understanding or tribulation. The Plan of Life cannot be changed because Roosevelt, Churchill or Stalin set themselves up as God and attempted to dictate a plan of living. The Plan of Life centers to the individual, already worked out as the first and the second coming of Christ, though persons not conscious of the second coming may use the first as an example of this principle. From one individual, coordinated to the Principles and Laws of God, a standard and an example were set for all egos by which they could attain to the advancement of the first-born of them who slept in darkness and death (mortality). The first individual, as man, raised up the second, as Woman, and from the two perfected in coordination to the Plan of Life, all men and women are to be raised up through living under Scientific Government and Credit. But as there is a Type Man and a Type Woman, so there is a Type Nation, or Universal Man, after which all nations

may pattern their governments and come under the Science of the Plan of Life and Love.

The false Plan of Life could arise only as the true Plan of Life was working out, hence the true Plan working out individually from 1912, forced the false Plan to assert itself. The false had its inception in communism, with Cain again asserting his power to slay and to kill, for violence and death was directed toward the more advanced in Russia, where the forces of darkness had their first ascension in the spirit of death and sin. Now, due to the schemes and machinations of men's minds, the whole of Europe is prepared to be swallowed up in the forces of communism, though a more highly evolved aspect of communism would assert itself in England and the United States, where politicians and financiers are masters in the art of intrigue and deception; though of course, England should receive the high score for this accomplishment. But under Roosevelt, the politicians of the United States learned rapidly, though their direct education could be said to have begun with the first World War. This is not to say that intrigue and deception were not before used in our government, for they were rampant during Lincoln's administration, even resulting in his assassination; but they did not include the international plot until the first World War, though the plot has been in process of development, from its financial side, for several centuries.

It is the financial forces that keep alive the false Plan of Life, for by controlling the power of money, certain financial groups plan on controlling the world of nations. The international scheme, though centered toward national peace, has its first purpose as financial control of all peoples. A certain moneyed group, not necessarily possessing money but the power to control it, profit by wars, for they promote the schemes to produce rivalries and jealousies that cause nations to rise up against each other, then they finance the wars produced, then they finance the building up of the nations that they have financed to have torn down, and in this way,

the plot centers directly to the financiers. Politicians play into the hands of financiers to control the financial power. These two poles of the devil or of hellish forces build up the material world, and when the time has come for all authority, in the unformed and the formed world (heaven and earth) to be given to Christ, the Truth, they are used to tear down the material world they have built up. Fools that they are, being ignorant of the Plan of Life, they begin to plot new forms of materialism that are ten-fold more steeped in hell than the first system of materialism, that necessarily arose in the law of sin and death in the outworking of the Plan of Life. Such is the nature of any form of totalitarianism, which is exactly reverse to the Plan of God that has placed all responsibility in the individual, and has made him or her the seat of its action.

### **The Universal and Individual Plan of Life**

The Universal Plan of Life applies to all nations, or the race as a whole, but it is evident that since people live under governments, that it must apply to nations, governmentally. The Universal Plan of Life is alike for all nations, though until all persons in a national group are coordinated to the Individual National Plan there is no possibility of coordinating all nations to one universal system of living. It is a sign of the desire for coordination that nations attempt to work out a Plan of Internationalism, but this is as far as it has any virtue; for it is impossible to coordinate national groups, when the group is not coordinated within itself to a plan of Life and Government. When each nation is coordinated to the Plan of Life, individually, then all nations can be coordinated, universally. This is the way that makes for order and science; but trying to unite a conglomeration of nations together, without anything to which to coordinate them, is without science, order, system, harmony or anything else that makes for a constructive expression of living.

The Universal Plan of Life applies to all people, as national groups, while the Individual Plan of Life applies to citizens of each nation, individually. It follows that if each nation, in its order of advancement, established Scientific Government and Credit, all nations would be coordinated in a scientific manner at a certain time. We would have Internationalism based upon genuine nationalism, for all citizens of a nation owe allegiance to that particular nation, before they owe anything to other nations. Mortal minds attempt to work out Internationalism from a premise of materialism, hence establish force and legal requirements, to which nations cannot conform if their developments do not permit. Anything that is scientifically premised will produce scientific results, while that which is materially premised will produce material results. Material results have their acme as wars and the hells they occasion. Materially minded men are responsible for wars and the hells they promote, by making themselves agents of darkness and by failing to learn the Principles that underlie the system of living. Especially, are they loathe to touch anything that relates to the financial, though a false financial premise of living is the root cause of all national calamities, inclusive of wars.

The Science of the Plan of Life is so perfect that it would appear that anyone could discern it. They might not discern how an individual became conformed to the Principles and Laws of Life, but they should see that the same Principles and Laws that apply to one individual, applied to all individuals in a national group, would make for Scientific Government, individually premised; and that one ego credited before the Principles and Laws of Life invites the knowing of Credit to apply to all. An ego is a State of being when completed in conformity to the Principles and Laws of Life, hence a completed individual is the Pattern for all individuals, or of the State, as government. All individuals make up the State, though they are divided into national groups. Each national group, conformed to the Plan of Life

whereby each individual can exercise his or her God-given Rights through the free use of Credit, premised to the Word-Standard of Value in the enumeration of itself, would be a perfect State of individuals, hence a perfect State. The aggregation of a group of nations, or a group of perfect States, would be scientific Internationalism, or the Commonwealth of God, referred to in scripture. The only wealth that people can have in common is that which each can invite, according to his or her state of development, living under a system of Scientific Government and Credit. Only under such a system could citizens be free and equal.

The Individual Plan of Life relates primarily to one, then to many; to one as an individual, and to many as a group of individuals, called a nation. Every nation established as an individual group, coordinated to Scientific Credit by which Scientific Government has its being, would make up the Individual Plan of Life for nations; the coordination of all groups being the Universal Plan of Life. The Universal Plan of Life would outpicture the Plan of God for the race, and characterize Immortality; though potential Immortality or its beginning, is premised to a national group being centered to the Plan of Life as Scientific Government and Credit. Mortality ends on a wave of destruction of material governments and their credits (debts), for they gather the totality of materialism and must be reckoned with. It would seem that the United States is now in a position to be overthrown in her materialism, she having taken on the materialism of the European civilization in order to become the first-born nation into the New Order, or Immortality; corresponding to the Type Man and the Type Woman taking on the sins of the world that the world, through them, might be brought to an accounting and judgment. Even so all nations will be brought to accounting and judgment, through the Divine Laws that bring the United States to an accounting, to become the Ensign to all nations in a New Order, or in Immortality. The problem of the

race is to make Man as God intended him to be, hence Government under which he lives must be conformed to the Plan of Life that he may make himself through processes of living, at the same time promoting the love of the self in the Lord (Laws of Being) and the love of the neighbor, by which a genuine international unit can be formed among men.

(Editorial Note: This matter was published in the March, 1946, "Light of Truth," and written by Ida Mingle. Write for sample copy of this monthly paper, and receive it free for the next six months).
