INTRODUCTION

Cosmology means the Science of the World, mystic or unknown to the average person. It is ancient, since the Magi of old knew its secret and through it made the greatest prophecies. Under its ancient name it was known as the Kabala to the Chaldeans, the Egyptians, and later the Hebrews. It became practically a Bible of Wisdom.

The author received his information on the subject in his travels over India. He met many Magi, and finally after much searching found its secret. Placing it in a modern form, he now publishes it, that humanity may learn the great value of true prophecy which is mathematically and logically correct. The reader is entitled to test this system and compare it with astrology or numerology. The writer is confident that this old science will prove far superior, since it is based on the different degrees of vibration between the Sun and the Moon.

This system was fitted to the Roman Calendar and is therefore scientifically correct. The author tested it over a period of seven years, using it to read "Mind Problems and Character" before vast American audiences who verified the accuracy of the demonstrations. As the accuracy of the system made the demonstrations seem almost supernatural, the writer asks the reader to carefully consider the statements herein.

Past users of Cosmology are its greatest boosters, and it is through the demand of these users that it is again being published this year.

COSMOLOGY

Every person celebrates a certain day each year in commemoration of his birth on this earth, or his birth-day. The number of this day, associated with his life, subconsciously places him in a cycle. This cycle represents certain conditions in the universe. These conditions can be determined by the relation of one's cycle to that of the year, the month, and the day.

The year 1914 was the 6th cycle, therefore the world was in great distress, the World's War. Likewise, 1932 was in the 6th cycle and the world in general suffered a great depression. The year 1933 was in the 7th cycle and great religious persecutions manifested in many countries, which was common to this cycle.

All conditions are represented by a number and a cycle, or as the Bible says, "Even the hairs of the head are numbered". Therefore, Cosmology seeks to bring light to the events and conditions common to your birth-date, and through this means desires to help you out of your difficulties.

Pythagoras, a great Saint of Greece in the middle ages, discovered the first universal mathematical science defining these cycles and values. The author, after many years of research, offers you the prophecies of the greatest system of prediction ever discovered. If you like Cosmology, please tell your friends about it and its great value in one's everyday life. Help them to learn of this great science of the world so they may also be benefitted by it.

The Author.
COSMOLOGICAL FORECAST

The following analysis and interpretation is based upon the author's knowledge according to Cosmology, the Science of the World. This analysis is based on the mathematical calculations as taught in this new Science of the Cycles. This system is the result of years of study and research on the part of the author.

This work differs from astrology, numerology, and other systems of forecasting, in that it is more in harmony with logic, science, truth and human understanding.

In presenting this work to you, Dear Friend, the author desires to be of the greatest assistance in helping you to attain health, happiness and success. Therefore, know that he is your friend and teacher and feel free to write him at the address given herein.

The student who learns well is a credit to the teacher, therefore, you, the reader, must realize that your success is the chief concern of the writer. The more you devote yourself, the greater will be your reward in this pleasant study.

The wisdom contained in this forecast is based on the cycles of life, and the relation of your cycle to the cycle of the year, month, etc. This is an accurate way of forecasting, as has been proven in the past.

Yours for Success,
The Author.

LIFE'S CHARACTER ANALYSIS

For all persons born on the 2nd, 11th, 20th, and 29th of any month.

You are creative, original in ideas; fairly healthy, of robust appearance, but you are torn between two forces: positive and negative, good and bad. You must learn self control through Mind Science if you desire good results in your life.

When positive you are successful; you have managing ability and are very clever with your hands. People like you and trust you. You are magnetic and attractive.

You have too many ideas and do not concentrate on one sufficiently, for that reason you must learn this art or you will never be true to your highest nature and talent.

Your emotions are very pronounced, also your likes and dislikes. Do not make changes while discouraged. You love music and art, and have some talent in that line. Develop mastership and you will be versatile because God has indeed favored your type by giving them power in many ways. As a child you were very hard to teach and learned slowly, but as you grow older you improve in this ability. Avoid inferiority complexes; if you have a lack of self confidence you may fail to attain your desired goal in life. Therefore I urge you to study Mind Science and make the most of your talents, as life is short unless well lived.

To develop your best traits of character you should work where positiveness is required, and learn to solve problems quickly. Your type is usually healthy but unless they control emotions they will be affected with nervousness and impatience.

This year you should study your forecast well and try to master your weak points of character. Life runs in cycles and the Creative Cycle is the third, fifth, and seven times seven. After that you should study spiritual laws and philosophy. Man owes one half of his earthly life to God.
MARRIAGE

Your type harmonizes with those born on the 3rd, 12th, 21st and 30th of any month better than any other type. Next to that, they harmonize with those born on the 7th, 16th and 25th of any month. However, this does not mean you cannot be happy with other types. Life is what you make it. There is no such thing as fate and predestination, or luck. We "sow as we reap", and reap as we sow. Self improvement is the purpose of life. Marriage is a divine institution, provided it exists on a basis of real love and spiritual concept.

MIND PROBLEM

You are probably thinking over the idea of a creative calling where you will be boss or owner. You are also thinking of a more congenial atmosphere in your environment. Remember, the solution to all mind problems is in Mind Science, which you should study.

During this month your ruling powers enter the cycle of creation, God and mind power, the symbol of which is Saturn. This influence favors all new projects and is constructive, provided you take advantage of your opportunities.

This is also the time to plan an education for your child if you are a parent. It is also an ideal time to plan on any subject which includes self control and powers of the mind effecting one's destiny.

Your favorable days are the 1st, 10th, 19th and 28th of the month. On these days you can succeed better than on any other, therefore this is an ideal time to transact your most important business, and to put into operation your new plans and ideas.

Your unfavorable days are the 4th, 13th, 22nd and 31st of the month. On these days you are subject to despondency and mental depression, therefore, be careful to go smiling through.

Remember, that no harm comes to a good person and the hand of fate rules only those negative mortals who permit it to rule them.

The practice of concentration on God within you will guide you through this cycle to perfect success. Learn to listen to the "still small voice within" for advice when in trouble, and all will go well.

APRIL

During this month your ruling powers enter the cycle of creation, which is also the cycle of the opposites in Nature. This influence favors marriage, business, partnerships and combinations. However, many people may oppose you, but do not let them discourage you. Be sure you are right, then go ahead.
This is an ideal time to do those things you have been postponing. This is also an ideal time to pay debts, as this period is progressive, favoring all things which are developing, bringing all your new ideas into maturity.

Your positive days are the 2nd, 11th, 20th, and 29th of the month. On these days close deals and do all things favored this month.

Your negative days are the 4th, 13th, and 22nd of this month. On these days you must be careful of arguments, and all types of contention, as they are very negative in human relationship.

You are a person who possesses great magnetic power. Through a study of mind science you can manifest your hidden powers, and use your power to overcome any apparent trouble on these negative days.

MAY

During this time you can succeed well in business, because your ruling powers enter the cycle of reproduction, favoring growth, promotion and expansion in the business world. Therefore, take advantage of this influence by improving your business, or seeking a new or higher position, as the case may be.

Your favorable days are the 3rd, 12th, 21st and 30th of the month. On these days you will be favored in almost all business transacted.

Your negative days are the 4th, 13th, 22nd and 31st of the month. On these days you can do all types of minor or regular transactions, but you are advised to postpone the major or greater activities.

This month you will feel like dropping everything and going for a trip, but conditions will not favor the journey. Therefore, you will in all probability postpone the trip until a more favorable time.

Your mystical powers seek expression this month. During this period you will feel the urge to teach and help mankind. For this is the urge common to your type. You should prepare yourself to do great work, for our life really belongs to the service of God.

JUNE

This period your ruling powers enter the cycle of the elements which brings radical changes and threatening conditions. Yet it favors finance, change and family life. During this month be careful to guard your temper well.
Your positive days are the 4th, 13th and 22nd. On these days receive callers, conduct social affairs and press forward in business agreements and combinations. All of these are under a progressive influence, since the magnetic body of your type is more vibratory. However, the disturbing elements of the sub-mundane world also manifest and you can succeed only through self control.

Your unfavorable days are the 5th, 14th and 23rd of the month. On these days be careful of sudden impulses. Also be careful of arguments and disputes, as you are subject to lose in these things on these days.

JULY

The ruling power operating for you enters the cycle governing the physical senses, art, and beauty. Conditions seem to present many difficulties to you, but they can be solved if you keep your mind positive and creative. Due to the lack of stability it is prophesied that your home life will be disturbed and your business unsettled.

This month favors the beautifying of your home, the purchase of new things and improving all appearances. It is also a good time to study and improve yourself.

Your favorable days are the 5th, 14th and 23rd of the month. These days favor deals, investments and human relationship. Make all necessary changes if possible on these dates. The entire month should be one of improvements. You should also meet during this month, those who should contribute to your success.

Your negative days are the 6th, 15th and 24th of the month. These are days to avoid signing important papers or to enter into new business.

You should avoid becoming discouraged, morose and sad. These morbid states of mind have an ill effect on the body if allowed to manifest, but you can overcome them if you will to. Be alert to all good by keeping your mind on truth.

When these states of mental depression come upon you, place your mind on something cheerful, - get out into the air and sunshine, or read a book embodying some powerful, constructive philosophy and you will find you will soon overcome them.
The thought forms of every person are constantly being clothed in materiality because mind rules matter. Therefore, you should release only thoughts of power, health and success, for all thoughts return to their creator through the fourth dimension of mind, as mind vibrates in a circle.

AUGUST

This period finds your ruling powers entering the cycle of Intuition where your perception becomes greater. Therefore, you can speculate and do those things which improve your future. You can also pay debts and collect money, as this time favors finances.

This period is a time when you are liable to become attached to people and become sad when having to separate from them. You should remember that you have a sensitive nature, which means you suffer easily, therefore, be careful of attachments at this time.

Your positive days are the 6th, 15th and 24th of the month. On these days you can build for the future, engage in social affairs, and do educational work in many fields of endeavor.

Your negative days are the 8th, 17th and 26th of the month. These are days on which to avoid despondent ideas, as your thoughts are powerful to affect your destiny. These are days which will also be adverse to human relationship. For that reason, avoid arguments and all forms of contention.

SEPTEMBER

This is a period of enlightenment, and your ruling powers enter the seventh sense, the cycle of Intelligence. This is also the cycle of spiritual perfection.

This cycle of spiritual perfection favors all forms of spiritual study and growth. In material affairs it favors the highest aspirations and wealth. This is an ideal time for you to put forward your ideas of self improvement and spiritual wisdom. Study, meditate and improve yourself, as you will get the best results at this time.

Your positive days are the 7th, 16th and 25th of the month. On these days you will succeed in all types of business transactions, therefore, plan to do those things most important to you.
Your negative days are on the 8th, 17th and 26th of the month. On these days be careful of contracts, business deals and trouble when you work if employed. Keep your mind positive and all will be well.

You can accomplish much this month through the power of concentration if you will only try. Study your mind and its unlimited powers and great will be your unfoldment.

**OCTOBER**

During this month you enter the mystical cycle of infinity, which is the cycle preceding the end of a great cycle. During this period your ruling powers enter the incomprehensible and mysterious realm of being. Be careful of sudden decisions and sudden ideas, as this period is adverse to these activities.

Your positive days are the 8th, 17th and 26th of this month, days when you harmonize with the ruling powers. These days favor all your interests.

Your negative days are the 4th, 13th, 22nd and 31st of the month. As you know, you are a person who has experienced great hardships, therefore on these negative days be especially careful, watch your movements in traveling on trains, in cars, and in crossing streets.

You will experience great mental depression this month, but you should remember that darkness always precedes the dawn. There are better times ahead and you can look forward with pleasure to the ending of the great cycle next month.

You are now doing better in business than you did last month and you find people more agreeable than last month. Take advantage of this opportunity and do all things which you have been postponing for a long time.

You are looking forward to better times, so do not be discouraged. Anyone can give up, but a real person holds on and conquers adversity. God loves a conquerer, or as John, the Divine says, "Blessed are they who overcometh".

DECEMBER

This month closes a year of chaos and we prepare for the end of a great universal cycle during the coming year. You must now prepare for the prophecy written in the Great Pyramid "that economic conditions existing on a selfish basis pass through their last evolution", and there is but one year more of the present order of things. Then the entire world is to be shaken by revelations unknown at this time.

During this month we celebrate the birth of Christ, but how few follow Him in doing His works. He should learn deep metaphysical philosophy, practice body and mind control, and prepare in earnest to meet his Creator as an illumined being, full of the vibration of life and being. After 49 one's life belongs to God. He should become a teacher of the young and set high examples of goodness, if he desires to fulfill his immortal destiny.
STUDY

The year of 1934 should be a year of study. Never in the history of the world was it more necessary to be informed on political economy and the markets of the world. Sociological problems are arising that must be solved, and a great door of opportunity will be open to those who understand economic conditions and plan accordingly to meet them.

Study should also be given to metaphysical work, as many seeming difficulties can be easily disposed of by the one who knows and uses the laws given to us in the study of Metaphysics.

1934

This is a year of sudden happenings. The ruling power enters the "Unknown Quantities" of life, leaving the world in a sad plight. Curtailment of markets and business is caused by government interference. Disease strikes suddenly, therefore, reader, be prepared through a knowledge of Super Mind Science for this emergency.

Earthquakes in South America, Japan and Italy are predicted, suddenly, wiping out many lives.

Germany will exchange shots with a border nation, but war will be averted.

The dollar will be steady in the exchanges of the world, but President Roosevelt will make many enemies in trying to aid in an economical way. He will be misunderstood. He will also be very ill during this year.

Finances in general will be undependable. The depression still persists, but 1935 will about see the end of it. Here the author urges you to secure your copy of Cosmology for 1935, as many very interesting events are prophesied.
