

TREATISE NO. 2

Science At Last Finds God

"I will declare to thee that utmost lore,
Whole and particular, which, when thou knowest,
Leaveth no more to thee that utmost lore,
Of many thousand mortals, one, perchance,
Striveth for Truth, and of those few that strive—
Nay, and rise high—one only—here and there—
Knoweth Me, as I am, the very Truth."

TREATISE NO. 2

Science At Last Finds God

by

EDWIN J. DINGLE, F.R.G.S.

(Founder of The Science of Mentalphysics)

(Copyright, 1939, The Institute of Mentalphysics)

¶ What will appear in this treatise will be of profound interest, and, possibly of vital importance to you who read—to your general physical, mental and spiritual well-being . . . to your success and happiness . . . to your whole life. I would suggest that you read it carefully and without prejudice. Let there be no doubt about it—what Science is discovering and making available to every clear-thinking man today will beneficially or detrimentally affect you and me in due time, just as we make ourselves conversant with what is taking place. Become familiar with the new findings of modern science as it explains what is called religion, and we shall benefit; disregard it, and go on in the same old ruts as most people do, square pegs in round holes, and we shall suffer. Wise are we if we take time by the forelock and realize that to be forewarned is to be forearmed.

IN VIEW of the fact that there has long been a battle between science and religion, I ask you to read again the title of this Treatise, "Science At Last Finds God." For this battle that has been waged ever since man learned to think is now definitely waning. Hard-headed, matter-of-fact men of science, men who would be the last to accept a Supreme Architect without overwhelming evidence, who hitherto have refused to see anything in the universe but a soulless machine, have at last found HIM.

part of the universe acts as if aware of what is going on in every other part. Indeed, Einstein's laws, which are now generally accepted, indicate that the universe does not act according to purely mechanical principles. It appears to act according to the thought of One Great Deciding Mind. Here again, the scientist is saying the same thing as our religious teachers — except that the prophets call this Mind "God."

The Unknowable Fourth Dimension The mechanical, materialistic interpretation of the universe, which science formerly favored, pictured the universe in only three dimensions — length, width and height. Our minds, our very words, are unable to picture four or more dimensions. Yet the law of relativity and kindred discoveries now show that the universe cannot be restricted to three dimensions. Four dimensions, sometimes seven, are required in the mathematical calculations of scientists. Formerly this kind of mathematics was considered an abstraction—a plaything of mathematicians, having no application in life. Now it is found to be the *Law* of that *Deciding Mind*, by which the Universe and all its life are governed.

All Former Conceptions Mistaken Even space and time are not what they appear to be. All former conceptions are mistaken. The words have not yet been invented which can describe the *real truth* — that is why the recent profound discoveries can be understood only by advanced mathematicians and cannot even be explained to others. The average man can know only that time and space, ourselves and the universe, as we know them through our senses, are *illusions*. *Isn't this what our great religious teachers have been trying to tell us all along?*

God Described as a Mathematical Thinker Gravitation is now being explained, not as a mechanical attraction, but a Law or Discipline imposed on the universe by a *Deciding Mind* — the mind of what one scientist describes as a "*Mathematical Thinker*." *What can this mathematical thinker be but God?*

God is ALL There Is One of the world's greatest astronomers, in a recent book, infers that all objects "exist in the mind of an eternal being." If so, then we human beings are simply atoms in the mind of the Eternal Thinker, and, like the atom, *simply a center*, somewhat more elaborate, of *His thought*. "In the beginning was the Word, and the Word was

with God, and the Word was God." And that is all there is now — all that remains of you or me or anything else when Science searches for ultimate truth.

SCIENCE LEADS THE RETURN TO RELIGION

MANY intelligent people, influenced by a formerly materialistic science, have abandoned religion. *Now, guided by the very science that led them astray, they are returning to a new and deeply spiritual interpretation of life.*

Those mystics and prophets, who proclaimed thousands of years ago the truth that science now proves, were Giants indeed. They have told us about a Way of Living in Harmony with the Will or Law of God which can lift us to almost unbelievable heights of achievement. One after another of their maxims, proverbs, parables, and rules are now being confirmed by psychology as *scientifically sound*. Their Way of Living is often advanced by many psychiatrists as the *only healthy way*, the *One Path* that does not lead to ruin and disaster.

*The Only
Healthy Way
of Living*

Psychologists are finding it true that "Greater things than these shall ye do also" — incredible as this may appear to minds that persist in ignoring the fourth dimension — which science now confirms. They are finding that our conscious mind is limited by its very nature. Quite properly it is called the *objective* mind, because it can operate only on the material or three-dimensional plane. But the *unconscious mind* within us is *not* so limited. It is capable of feats and powers which our limited conscious mind cannot even comprehend.

*Psychology
Supports
The Miracles*

HOW TO BE MASTER OF YOUR LIFE AND CIRCUMSTANCES

The time has come to turn again to the teachings of the prophets, in the light of recent scientific discoveries, and claim for ourselves the great power, the rich and abundant life, to which they testified.

First, let us look into the *one thing upon which practically all prophets and religions agree* — the power of "faith." Incidentally, the science of psychology and psychiatry likewise recognize this power. With *scientific and religious authorities both agreeing*, there is no longer much excuse for YOU not to believe in it. *And there is still less excuse for your not enjoying*

*Where
ALL
Religions
Agree*

its great benefits.

"THE BROAD-MINDED SEE THE KERNEL OF TRUTH
IN ALL THE WARRING FAITHS . . . THE NARROW-
MINDED SEE ONLY THE DIFFERENCES."—*Confucius.*

What is "faith"? As the great prophets used the word, faith is a *feeling* rather than a belief, equally powerful with many different creeds. It is the

**Belief
Is Not
Faith**

emotion that gives power to your thought or belief — whatever this may be. Thought without emotion is powerless, hardly more than idle

fancy. That is why few people have been able to demonstrate the power of faith. Most get the impression that intellectual belief of itself can work miracles. Thought turns on the switch, but the dynamo that gives POWER is emotion.

From time immemorial it has been realized that *true faith*, when understood and deeply *felt*, gives a man a joy, a consolation, a courage and a power, that is almost without bounds. None can measure the power of faith. It *has* achieved wonders, it *has* transformed lives, healed the sick, wrought seeming miracles, raised the dead. Inspired by faith, men have conquered empires, built fortunes, released whole nations from tyranny, swayed the opinions and emotions of millions, changed the entire course of history, invented nearly everything that the mind of man could imagine a hundred years ago, created the great edifice of medical and material science, built the glorious nation in which we live. Men "walk by faith, not by sight." (2 Cor., 7).

All religions have their record of faith cures. Such cures are not a monopoly of any one of them. The authenticated miracles of Lourdes show that

**Faith
Cures
In All
Religions**

some attain through the Catholic Faith. Every great denomination of the Protestant Church has records of similar incidents. New Thought, Christian Science, other philosophies of similar turn, all can furnish illustrations. Indeed, every good psychologist and psychiatrist can give instances in his own practice of the overwhelming power of an abiding conviction of almost any kind — whether religious or not — in aiding almost miraculous cures, in changing character and personality, in substituting success for failure in all fields of human experience. *Even man's faith in himself, if felt deeply enough so that it has the emotional depth of true religion, gives such power. Napoleon's was such a faith.*

If you are weak, unsuccessful, unhealthy, lacking in power of character or personality, it is because the emotion, the *feeling* required to give power to

your belief, is insufficient. *Your lack is not necessarily because your beliefs are wrong, but because your feelings are.*

NONE CAN KNOW WHAT GREAT FAITH IS UNTIL HE HAS EXPERIENCED IT. Ponder well this last sentence, "*until he has experienced it.*" Until then, it is a mere word of which everyone *thinks* he knows the meaning, but of which only one in a thousand has a *partial* conception, one in ten thousand a *practical understanding*, and only a few Wise Men, headed by that certain humble Carpenter of Galilee, a true and *complete* knowledge. We can *know* only what we have *experienced* of faith, the *far greater faith* that some *others* have experienced is *beyond our understanding*.

*Why
Few
Understand*

Mere belief cannot, of itself, give power. Our intellect or objective mind which forms our beliefs, operates only on the material or three-dimensional plane. It can comprehend nothing else. *Whatever* belief it forms *cannot* be the *whole* truth. But our emotions and intuition operate in the unconscious mind and are not subject to such material limitations. Therefore the feeling of Faith, if great enough, can perform that which is, in other circumstances, *unbelievable* to our intellect.

*Unbelievable
Power*

If we admit, as we *must*, that back of all degrees of consciousness is the universal, cosmic urge to *be* more, why have the seers and the prophets through all time — even the Carpenter of Galilee — been misunderstood by all except a few? If we admit, as we must, after what we have so far read in this treatise, that every human being has behind his or her consciousness the sum of *Cosmic Consciousness*, why have the sages and seers, the prophets and the philosophers of the past been ignored? Because their essential message can no more be explained in words than Einstein's Laws can be. The latter can explain himself only in mathematical formulae, because there *are* no words by which fourth-dimensional or multi-dimensional matters may be described to a mind with three-dimensional habits of thinking.

*The Hidden
Message
of the
Prophets*

But, in meditating upon the words of our great religious teachers, many an inspired man or woman, through feeling, has caught a glimpse of the real meaning, and thus has acquired the faith that rises *above* the limitations of time and space and things physical, the faith that truly makes possible "greater things than these."

*Rising
Above All
Limitation*

Decide, Today, That You, Too, Shall Do "Greater Things Than These"

Why let yourself be robbed of the great power of faith? Determine that the *great things* it has done for others, *it shall do also for you!* Now that

How To Be Master Instead of Victim

you know that it is a feeling rather than a belief, that skeptical intellect of yours need no longer stand in your way. You can have the *feeling* with almost *any* worthy be-

lief. Therefore, revive *your* religious convictions, *whatever* they may be, and *begin to use them* to create that all-powerful feeling of faith through which you may become *master of your world* instead of its *victim*. Learn, through the teachings of the Science of Mentalphysics, *how to make your religion a thing of power*. Make no mistake — the religion of your childhood — any beautiful religion in fact — can help you if you will go into it *deeply enough*, if you will scientifically learn *certain methods and practices for applying it*, which have been known to a chosen few in each generation. If you have given up religion, *you have given up more than you know*.

You cannot return to your former beliefs? Then get others, and get them quickly. Don't waste months and years deciding *what* to believe. Take a

Dominion Over All the Earth

few essential truths that you *can* accept, and start *living* and *feeling* them, as shown in the Science of Mentalphysics. Start to seek the

"dominion" promised you by those great prophets who knew whereof they spoke—over life and death, over circumstance and fear, over success and failure, over disease and want and frustration. Start the victorious life. You wish for greater things, do you not? Remember, then, that *Faith can make them yours*. None can permanently stop him who *feels* his destiny, none can prevent the ultimate triumph of him who has an overpowering feeling of faith; for your faith is your mind at its best, its bravest, its truest, and its most powerful.

HOW THE SCIENCE OF MENTALPHYSICS CAN HELP YOU

IN Mentalphysics a remarkable *method* is taught for transforming mere belief into the sublime *feeling* of faith, a method that you can use with almost *any* creed or religious conviction

Surprising Results

—a method that can be used with a creed of your own invention, if none of the accepted beliefs suits you. This method is extremely effective in developing

the power of faith more quickly. Thousands have been surprised by the *results*, ways of realizing truth little known in the modern world. In Mentalphysics we are concerned, not so much with your beliefs, but with the *scientific method* of building them—*whatever* they are—into an ever-growing, profoundly inspiring feeling of faith.

These methods have been used for thousands of years by mystics and adepts, prophets and masters. They have been used with many different forms of religion. Men may differ in intellectual beliefs, but *in the feeling of faith the great ones are in unison.*

If you are a Protestant, the Science of Mentalphysics should help you to be a better one; if a Catholic, it may help you understand better the sublime emotions which inspired St. Augustine, St. Bernard, and St. Francis of Assisi; if a Jew, it may inspire in you the spiritual strength of the prophets; if a Unitarian, it should help put life and power into your intellectual conception of Unity. If your mental habits permit only a belief in a Supreme Intelligence, without the detail of organized religions, then Mentalphysics can help you to convert this intellectuality into a matter of deepest feeling—a faith that may shake the world. Why be satisfied with a mere *intellectual* belief, without *power*, when it can be made into a *Force almost beyond resisting*—which may make you master instead of slave—genius instead of failure—leader instead of follower—victor instead of loser—gloriously living instead of ailing or dead?

As a man thinks, so is he NOT—unless he also *feels*. The true quotation is “As a man thinketh IN HIS HEART, so is he.” Let Mentalphysics teach you the way to pass your thoughts from your head to your heart, your feelings. That is the Way of Power, of Joy, Happiness, of Strength and Victory. It is *The Way*—the “path” of all true seekers. Start upon it today. Let nothing deter you. Take from Life what is rightfully yours, assume the Noble Place for which you were destined, be the Conqueror that you can be—and ARE.

*A Force
Beyond
Measure*

*Victory!
Strength!
Happiness!
Success!*

In the case of copper, this energy offers little resistance to the passage of electricity, which travels through it at 186,000 miles a second. However, the energy in the wire resists light, and, therefore, makes the copper *appear* to be solid to your eye. It resists penetration, and, therefore, makes the copper *feel* solid to your hand. *Your sense of sight and touch deceive you.*

**Believe Not
What you see**

Indeed, man is continually deceived by his senses, for our sight, our hearing, our touch, our taste, are merely channels by which we interpret things in the *outer* universe. The senses do not allow us to know things as they really are, but are designed simply to cope with the ordinary *surface* problems of life. Our senses are *not* adapted to solve the riddle of the universe. We get closer to a solution through the more sensitive and accurate instruments of science. We get still closer to the Final Truth through the *Spirit of Life within us*, as I shall explain later.

**Getting
Closer to
Truth**

Now, going back a little, these infinitesimal centers of energy within the atom are absolutely intangible. They are called electrical, but no one knows *what* electricity is. It might just as well be called spirit as energy — *some scientists declare it to be a mental concept — a thought.* The entire universe is made up of these intangible atoms, and mysterious waves equally intangible. As one of the greatest living astronomers has written, the universe "*looks more like a great thought than a great machine.*"

**Universe
Not a Mere
Machine**

Every material thing — your body, your pencil, your food and drink and home, the world, the sun, the stars, are simply *differing concentrations of energy and waves.* And these are just other names for *thought or spirit.* This is "That" in which we live and move and have our being. Every atom of visible, material substance, when scientifically examined, is found to be kept in motion by this *energy, or thought or spirit* — in other words, by a *Universal Intelligence within it-self.* Ancient scientists and the prophets who declared that the Holy Spirit is everywhere, pervading everything, appear to be right, after all — though men led themselves astray into the belief that "God" was something away, apart, beyond, separate; and we have awaited the findings of science to prove otherwise.

**There IS
A Holy
Spirit**

This spirit, or energy, seems to have great wisdom — Omniscience. As one scientist expressed it, *every*

At last we are on solid ground. At last you and I, the man-in-the-street, may know that there is a scientific basis for the teachings of the great prophets.

**Prophets
Confirmed**

With this spectacular admission by science that it "at last finds God," a profound change of thought has come. These quiet determined scientists do not

**A World
Transformed**

have the habit of proclaiming their discoveries amid tumult and shouting. Though they reverse the entire philosophy of a materialistic age, the average man is hardly aware of it. When mankind at large does become aware, the world will be transformed in a few years. Already, however, YOU may use this new-found knowledge to transform *your* world, as I shall show you later. You may use it to reach heights you never before achieved — to make yourself a master instead of a slave, strong instead of weak, gloriously happy instead of discontent, mentally powerful, financially free, a giant compared to what you have been, with a vibrant gracious personality that sweeps all before it.

Before I go into detail about the wonderful new life now before you, as a result of this new-found knowledge, I hope you will bear with me as I briefly

**A New
Life
For You**

summarize certain recent discoveries of science. It is hard to explain briefly the ultimate truth of science which we are at last approaching.

If you find the next few paragraphs tedious, just skim through them to get the general idea. Later on, you will see that they lead to momentous news — *the most important forward step in your whole life.*

AMAZING DISCOVERIES OF SCIENCE

FOR centuries, as you know, science has been materialistic. It has tried to explain man and the entire universe mechanically or chemically. Now recent discoveries show that its entire conception of the nature of matter has been false. The

**Materialism
Discarded**

smallest unit of matter, the atom, was formerly supposed to be solid and indivisible. Now it is found to be as empty of solids as a great hall with a few flies whirling around. If an atom could be magnified to the size of the hall, you would see a few whirling particles in a vast emptiness. Even these particles would not be solid, however, but simply centers of energy. No wonder electricity can pass through a copper wire as if nothing at all were there! From a material standpoint, *there is nothing there except energy!*

Mentalphysics Offered At Minimum Cost

Though the benefits to be expected from Mentalphysics should be worth hundreds, even thousands of dollars, we ask Initiates only for sufficient donations to carry on the work: There is necessarily expense incurred in record keeping, in preparing and issuing the messages, preparation of printed and photographic material. This and the constant enlargement of our efforts require a small minimum donation from each Initiate. The required donation, to be sent with the information blank, is \$5.00. This is sent to us before study can begin. Thereafter, the required monthly contribution is \$2.00. If student wishes to discontinue, he may do so at any time by notifying us to that effect.

By continuing this monthly contribution, you have the right of advancing in the Great Revelation as far as you desire to go. So long as you remain a member, four messages monthly will be mailed to you. Many find the messages so inspiring and helpful that they NEVER want them stopped, but the very first messages that you receive should show you that you are well on your way, and not long thereafter you should begin to perceive ACTUAL RESULTS. We urge all students, however, to complete the entire twenty-six week Initiate Course, in fairness to themselves and their own wondrous powers.

HOW THE GREAT MESSAGES COME TO YOU— OUR METHOD OF PRESENTING THE SCIENCE OF MENTALPHYSICS

Every thinking man and woman, young or old, is consciously or unconsciously seeking what Mentalphysics teaches.

When you enter as a member of the Institute of Mentalphysics, this is your official procedure. During the whole of your progress, you are in direct touch with your Guide, Edwin J. Dingle, our Preceptor and President of this Institute. You are dealing with a human, helpful and considerate man, who has made your troubles and your purposes the study of many years.

You Receive Upon Acceptance

1. *First Week's Message*—"Guidance for the Initiate"—a manuscript of great usefulness and profound interest.

2. *Second Week's Message* — "Entering the Gate" — a manuscript unfolding your tremendous possibilities.

3. *Photographic Material*—illustrating practices for you to make use of *immediately* in forwarding your purposes:

4. *Printed Matter*—explaining some of the principles, so far as we can know them today, behind the strange methods.

5. *The Method Itself*—the first revelation, which you can apply at once, and see *the effect for yourself*.

NOTE: The methods and practices, effective as they are, can be used by anyone of ordinary intelligence. The principles, however, are given for those keen minds who delight in scientific and philosophical inquiry. Enough is offered in the first installment alone to give to such a month's rare adventure into little known but astonishing mysteries of life. Many of them are today unexplainable, and may not be explained until science has advanced a thousand years or more. We only know that they work—how and why must be left, in a great measure, for future ages to discover.

You Receive Each Month Thereafter

Four weekly messages and photographic material. Methods for special purposes. Practices designed to mould your life, in all aspects, into the beautiful and triumphant pattern in which it *can* be moulded.

After 26 Weeks

Complete review of your progress, with full examination at no extra cost to you. Then, if examination is satisfactory, you are given a Diploma signed by the Preceptor Emeritus, testifying that you have successfully passed the examination.

PERSONAL SERVICE

Edwin J. Dingle and his Staff are ever at the service of his students to assist them by personal letters in their practice of the principles of Mentalphysics. Counsel is the result of vast experience with students throughout the world as well as personal observation and consultation arising out of personally conducted classes in Los Angeles.

NOTE ON EDWIN J. DINGLE

¶ Edwin John Dingle, F.R.G.S., not only has a very distinguished record of achievement as a geographical explorer, but has explored the realm of thought and spirit of China, India and Tibet. He is probably the only white man who lived in a Tibetan Monastery for nine months and emerged again to mingle actively in the every-day affairs of the busy Western world. In penetrating the mysteries of the inscrutable East he acquired a fund of valuable knowledge regarding the verities of life which so often find no place in the philosophies of the Occident. This knowledge he presents in a most entertaining and scientific way, for Edwin J. Dingle is not only a forceful and dynamic speaker, but is a born interpreter of things pertaining to the spirit.

¶ During his sojourn in the United States he has helped thousands to solve their life problems, and it is confidently believed that, no matter whether YOUR problems be in the physical, mental or spiritual realm, Edwin J. Dingle will point the way to enable you to make your life an infinitely more abundant success.

¶ In a word, the truths that he imparts in his teachings lead first toward improved physical development, then to intellectual improvement and true spiritual illumination. To those who are seeking health, success, the secret of remaining young and full of vigor, together with the transcending knowledge of the Art of Living, we would extend a most hearty invitation to read this modern teacher. For it is seldom that Oriental philosophy and strictly scientific thought are interpreted and made perfectly clear to the Western mind, so as to be readily adapted to our busy, everyday life. Many of the Oriental mystics find it difficult, if not impossible, to accomplish this purpose.

¶ It can only be emphasized that Edwin J. Dingle, on the other hand, is an eminently practical man who, through experience, has a comprehensive grasp of Occidental psychology and American aims and ambitions. His own life was literally transformed by the philosophy that he teaches, and it is a tribute to his interest in humanity that his greatest desire is to help his fellows.

¶ As a result of many years' experimentation with his own mind and body, Edwin J. Dingle evolved Mentalphysics, which is so fascinating in its appeal that it is not to be wondered at that his lecture halls are usually crowded to the doors. On the Pacific Coast and in the Eastern States, Edwin J. Dingle has a host of friends who can trace their change in general outlook on life to the first lecture they heard him deliver. As an author he has a string of books to his credit, many of which are standard works on various phases of the Orient.

¶ Mentalphysics has developed during the first decade of its existence into a great spiritual science with many thousands of students throughout the world.
