ANGELUS

SILENT PRAYER AND ABSENT TREATMENT SERVICE

Prayer and concentration for absent healing. Prosperity and Health, opens the door to God's power.

THIS DIVINE SERVICE

Is conducted by Disciples of Christ and Christian Healers in the Central Baptist Church of Chicago, Illinois, every Sunday at 6:00 P.M. Send your name and address with your request for prayer of faith and you will witness God's power.

FREE WILL OFFERING WILL BE ACCEPTED

to carry on the work of the Kingdom of God on Earth. Send your name, address and request for help to:

Baptist Missionary Alliance Educational Fellowship,

P.O. Box 851

Gary, Indiana

The following Sunday the request will be placed before Jesus Christ Our Lord by the Brethren who have helped many to Health, Happiness, Prosperity and God Consciousness.

PREFACE

To all sincere souls who desire to demonstrate the powers of the Christ, this work is lovingly and sincerely dedicated. It will reveal to all who have an unbiased mind the sunlight of Eternal Wisdom and the healing power of Infinite Spirit. The star of the Wise Men of all ages will light the way of the seeker of Truth to primal Christianity which "healed the sick, raised the dead and gave victory over the grave" to Christ Jesus. All who can comprehend His message and live the life Divine can likewise gain victory over the grave.

The author is the founder of Super Mind Science, a Science of self mastery, healing and soul realization. He discovered the laws of life and the power of mind while in bodily distress and in need of healing. Since that time, he has labored to establish Schools and Churches based upon facts and demonstrations of the Godly powers inherent in man, not on beliefs. This volume of philosophy and Truth concerning God, man and the Scriptures, the first in a series of volumes on the subject, has been in demand for many years, and it was this demand which partially inspired the author to write.

The author studied most of the world's Bibles and religions and traveled for years in order to contact the world's greatest metaphysicians and Mind Scientists. He is indeed indebted to India and her great teachers for his own first enlightenment regarding Divine power, which was the stepping stone to the discovery of Super Mind Science.

Criticism naturally comes from those who cannot comprehend the vastness of this Science or from those who have not studied it. However, personal opinions and beliefs matter very little, for only those who can demonstrate the Science are qualified to judge. The author only asks that the reader have an open and unbiased mind and that he use reason when he peruses this volume. Then the profound Truths revealed herein will unfold to his consciousness just as light comes after darkness.

That the blessings of Truth, Love and Light be with the reader who is patient enough to read and mentally assimilate this unusual revelation of the Science of Life, is the sincere wish of the author.

DOCTOR WILLIAM ESTEP

CHAPTER I

DIVINE MIND

Divine Mind

Mind is universal, a power which alone manifests God. The Will to do good is the highest power of mind, it regenerates the world, lifts up the fallen, heals the sick and raises the dead. Sacrifice and self immolation with high aspirations is the golden key to contact with the Divine Mind, which is All-pervading, blissful Infinite Spirit.

Genders of Mind

This Divine Mind has two aspects, positive and negative. It is natural that the positive should lead the negative in every manifestation of life because it represents the Fatherhood principle inherent in life. Where the negative principle of mind overcomes the positive we find sin, sorrow, sickness and distress. Super Mind Science teaches the Christ way of mastering these negative conditions of mind; in it the student is taught to manifest his positive Will, united with the Will of God, against all disease, sin and sorrow. This Will of God or the Father, as Jesus called it, controls vital energies in the body. These energies are also positive and negative; no pain can exist where they flow freely and no sorrow can exist where one has control of them, for they are the basic principle of existence. Each and every Super Mind Scientist can control them at Will and can heal others as well as themselves. This power is the power demonstrated by Jesus, and to which He referred when He said (Mark 16; verse 17-18) "And these signs shall follow them that believe; in my name shall they cast out devils; they shall speak with new tongues. They shall take up serpents; and if they drink any deadly thing, it shall not hurt them; they shall lay hands on the sick and they shall recover".

Alleviation of Pains

When one controls the positive and negative life energies, these seeming miracles become easy to perform. In Super Mind Science these wonders take place daily, the blind receive their sight, the deaf hear and the lame walk, which is proof that we believe in Jesus; for if we fail to do these things we become as "empty

brass and tinkling cymbal". Prayer and belief alone cannot do these wonders; only a scientific knowledge of the life energies in the body, and a knowledge of the various states of mind and man's relation to the Divine Mind can accomplish these wonders. Jesus was the greatest of Mind Scientists and He commanded His disciples to do His Works.

**Thought
Manifestation**

Every thought, no matter how secret, is known to Divine Mind and weaves the drapery which clothes our spiritual self. In Super Mind Science we regulate the entry and manifestation of thoughts by controlling the thought center in the Solar Plexus, thus excluding the low negative thoughts and developing only the positive thoughts. This brings us in contact with Divine Mind which is All Good, Truth, Love and Light.

**Fourth
Dimensional**

Prayer is thought, and the result of prayer is the product of mind concentration — for does God have to informed or does He know your wants before you ask them? Thought sent out in earnest prayer sets in motion life currents and energies which control conditions and bring forth results. Direct concentration is far better than negative prayers, for in concentration we suspend thinking except on one subject, then by controlling the life currents in a positive state of mind, our thought travels in waves through the fourth dimension bringing us the results of our thought. Super Mind Scientists soon become master of this art. Do not praise God, for He needs no praise, but concentrate your mind on good, knowing that "I and my Father are One", and great powers will come to aid you in conquering the battle of life.

**Spiritual
Regeneration**

Goodness alone demonstrates the power of Truth, which is God. Love is the golden key to Divine Universal Mind; it sets in motion the regenerative power of God. "Love Ye One Another" is the Divine command, love means to regard your fellow-man with tolerance, kindness and brotherly feeling. This is one of the greatest manifestations of Divine Mind, which is All-Good, Life, Truth and Love.

**Reciprocation
of
Good**

The fount of creation is the ever present Divine Mind; you need but to accept its power. As it pours forth its beneficent

energies, man is uplifted toward the supreme light and wisdom! Contact this Divine Mind with understanding, and darkness becomes light, sickness becomes health and man is lifted to a plane of mastery, revealing his Divine Sonship of God.

Indulgence All weakness of the flesh originates in the
of sin of the carnal mind, it is not inflicted by
Weakness God, for can God and power bring forth
disease? No, only the opposite which is ignorance and negative
thoughts produces these manifestations. The cause lies in carnal
mind with all its selfishness and arrogance; the effect only is in the
body, so why doctor the effect and ignore the cause which is a
negative mind? Super Mind Science gives to the sincere student
the keys which open the secret doors of life, the energy centers,
making one positive and mentally powerful. Thus man can reflect
the Divine Being, for unless he is master of matter he fails to re-
flect the image and likeness of God. This can be accomplished by
concentration of energy, thought and desire. When one can per-
form this, they can stop pain instantly, heal any disease in their
body, control their mind, and contact Divine Mind at will. All
Super Mind Scientists who study the keys to the Science by sin-
cere application can perform these things, if they say they cannot,
they art not true followers of the Science, or they lack in their
knowledge of its principles and powers.

Self If we are grateful in our minds for the past
Dependence blessings we have received, then we will
silently concentrate on God and Good, and
ever be ready to help others, even as God would ever be ready
to help us, remembering that evil is negation, the absence of
good, and not a power. If we are truly grateful to God we
will do good and not continually thank God for blessings re-
ceived. We will realize that only doing good deeds can save
our soul and bring about immortality. Impress upon your mind
by concentration the vision of the Master as He healed the
sick and preached the Truth even in the face of physical death,
then emulate Him in the chambers of your mind. Do not be
a hypocrite who says that he is saved by believing, and yet
refuses to do the Divine Works of the Great Master, for such
hypocrites are the curse of the world!

Inexorable Laws The cries of those deceived by false doctrines are the fires in the mental torment which will plague their deceivers. Inner fervent desire to contact God face to face brings one in rapport with Divine Mind, but only a knowledge of the Science of Mind will bring practical results. Super Mind Science supplants faith with techniques and correct methods to control the powers producing life. First, one masters the positive and negative states and energies, then Solar Energy imbued with Infinite Spirit which flows through our bodies and brain. When these powers are controlled by the Will to overcome disease, they become the power and Will of God, overcoming all bodily congestion and making the mind positive and free.

Mind Indestructible "Know the Truth, and the Truth shall make you free" is the promise given to every seeker who enters Super Mind Science. Not one enters who can say they failed if they are sincere, for these energies are the life and the light of the world. The intelligence of Divine Mind functions within these energies, and where they flow freely pain is impossible, for would Godly energy and power create pain, or would Infinite Mind fail to heal the sick, or can man devise a plan of healing and helping which would be superior to the one originated by Almighty God whose fixed laws in Nature bring forth all creation? Divine Mind alone provides the universal remedy and cures all ills, and brings man in contact with God. Jesus called it the "Will of Him who sent Him into this world". Many Christians try to save their soul but neglect their body and mind, thinking that the hospital is superior to God's laboratory of Nature. They cannot see that their soul is in the body and that the body is the "Temple of the living God". Would God save one's soul who mistrusts Him in saving and healing the body, or would God acknowledge one who denies the very importance of the body, which is His Holy Temple?

Matter Sanctified People who say matter does not exist, fail to know that matter is energy, a moving force, that it is a manifestation of mind and is itself a Divine creation, sanctified by the presence of Divine Mind within it. Mind is powerless to create without energy and matter as an instrument, even as matter is powerless to

create its kind without Divine Mind. No one can cease sin without understanding mind control, for sin is a mental violation of the laws of Nature. The physical aspect of sin is not the entire sin, the mental purpose back of it constitutes the real sin, for mind will never forget, and man must answer for deeds done while in the body. Sin is destroyed when knowledge of Divine Mind begins. Negative influences cannot control one who is positive no more than darkness can control the light. No one who is positive mentally will continue to sin, for he will be about His Father's business.

Impunity Positiveness creates, while negation destroys.

From Super Mind Science makes all who apply

Temptation its methods positive. This develops constructive mental principles and does away with doubts, beliefs, dis-beliefs and ignorance and causes the mind to be illuminated, casting out its effulgent rays on the problems of life. This wisdom is contained in the keys to Super Mind Science; it demonstrates Truth, Love and Light through positive mental control and understanding of Divine Mind. Temptation is of the negative state of mind, not the positive; one who can control himself will not be receptive to negative and low temptations. When one contacts Divine Mind they become immune to sin and temptation because these low manifestations of carnal mind are the lack of this positive state and Divine contact.

Destruction God is Love, then to be Godly we must love
of one another. Sectarianism divides people,

Evil whereas the science of Divine Mind unites them. You cannot place old wine (Sectarianism) in new bottles (Mental Science) for they (beliefs) will expand and break, "seek ye therefore the kingdom of God (good) and all things shall be added unto you"—Prosperity, Health, Power, Truth, Light and Love, providing you know how to concentrate your mind on good. Generate the positive healing energies and direct them against disease, and destroy evil (disease), for all disease is the adversary of good. Can God be creator of pain, or would God punish innocent babes? No, only sin of carnal mind, void of understanding could cause pain and sorrow to manifest. If your soul is saved, then your body is healthy and your mind is free from malice, hatred and envy, otherwise you are lost in illusion believing that God wills you to be sick.

There can be no evil in Divine Will no more than sunshine can be in darkness, nor can there be weakness or disease in a body full of life energy, for pain is contraction and ease is expansion. Evil is mental congestion of a negative type and when positiveness of thought is manifest, it ceases to be, for the mind cannot manifest both light and darkness at the same moment—only one of the two is possible at the same instant.

Inalienable Science and Truth The scientific explanation of mind is, first, Divine Mind is positive, creative, constructive; second, carnal mind is mind misused, negative, destructive, changeable and illusive. The flesh is negative, a low manifestation of mind; spirit, soul and ego are a manifestation of higher mind. "Super Mind" is the higher, All-knowing or the true mind, knowing all Truth. "Science" is the methods of demonstrating this higher and more perfect Truth, Love and Light. Unhappiness is the result of carnal mind deceiving the individual; happiness is the result of the individual knowing immortal mind and its powers, or the Supreme Divine Infinite Spiritual Mind of the universe which knows no failures. When one attains to Truth, sin, sickness and mortal illusion disappear into nothingness, pain ceases and sorrow ends. God and misery do not agree; where one is the other is not, for God is Love, and disease is sin. As soon as one principle controls, the other is controlled; if sin and disease control then God is not manifesting, for will God submit to being controlled by evil, or can God be overcome by the adversary? The so-called devil has no power when God speaks through the Sonship of man, his greatest creation, when man is positive and possesses wisdom.

Omnipotent Will Energy Super Mind Science demonstrates first, the control of life energy, next the power of mind control, and third, the Divine Spiritual Will which, united with individual Will overcomes all congestion. This unity of Will demonstrates over all negation. Human theories of this Will matter very little, for only demonstrations are a reality, therefore we seek to prove all things and hold fast to that which is good. Human senses and carnal mind, without the sustaining power of a spiritualized Will, are inadequate in solving life's mysteries. This spiritualized Will power alone

can give man spiritual realization, it is contacted by concentration and meditation, not by belief.

Proof of Divinity The desire for wisdom is man's greatest means of soul progression and Divine Mind performs wonders through the Will of man and the laws of Nature. Supernaturalism belongs to an age of superstition and has no place in Divine Mind Science, for since we know how to control physical and mental energies, we can account for all phenomena. The mind governs the body, this is proven every time one thinks preceding a move of the body. This same energy which moves the limbs, when concentrated, removes disease, then Divine Mind seals the case, making it permanent. The author has proven that Super Mind Science has the one and only key known to man today which controls this energy and has demonstrated on many disbelievers successfully when all else had failed.

Subjugation of Disease Super Mind Science heals one disease as easy as another, for all disease is congestion, while energy is expansion; the energy which heals comes from the sun, while the power which causes the healing is of God or Supreme Infinite Mind. The physical is but an extension of the Divine and one is as real as the other. All powers are subservient to man when he learns the Truth, the Light and the Way. The blind have received their sight in Super Mind Science, as has the Author who was at one time blind; the deaf hear, and the lame walk. Students successfully heal their own families, and Physicians use it in their office with great success, because it is not a belief, but is a science. The proof of Mind Science is when it heals unbelievers, for Jesus often healed those whom He saw for the first time. Other so-called meta-physical healing systems using hypnosis and calling it Divine Mind Science have failed to meet this test. Suggestions or affirmations are the first step toward self hypnosis—these practices are used in many systems of healing today. Super Mind Science is opposite to these negative systems, for every Super Mind Scientist can heal and stop pain instantly without the use of any belief, whereas these other systems have Healers and Practitioners to heal their own members—if they are Divine in all their practices, then why do they require a Healer—why are they not their own Healer?

**Mental
Negation**

Only a negative sick person needs a Practitioner or Healer. In some of these healing methods one will notice that passes are usually made over the patient's face, these passes are the same used by hypnotists, they spread magnetism over the patient, then make them believe the pain is gone. The treatment lasts as long as the delusion remains; it is no wonder that their members are sick and need to be healed. In Super Mind Science, each student can heal and stop pain, and demonstrates in the Classes and Church the doctrine "they shall lay hands on the sick, and the sick shall recover". Many who have used suggestions, have become poverty stricken and cannot manage their own affairs, and it is not to be wondered at, since every suggestion used weakens the body and makes the person more susceptible to disease and poverty.

Superposition of Mind Science Super Mind Science is a positive science, it teaches how to use the united Will of man and God, demonstrating "I and My Father are One". Its principles will sometime in the future become the leading healing Science of the world. Many patients think they are healed in negative metaphysics, but in reality Nature has healed them while suggestions had them deluded into believing disease does not exist. If the premise that disease has no existence is true, then why do the negative Metaphysical Schools have Healers and Practitioners to heal disease? Also, if matter is a non-reality, then one asks, how could you heal it? Their form of reasoning is as defective as their understanding, for they say, "if God is real, then matter is illusion, if it is illusion, it does not exist". The abstract can never prove or disprove the concrete, the truth is that God is in matter and also in mind, only ignorance of the power of God, such as affirmations and auto-suggestions used over the mental faculties produce illusion. For instance, a suggestion that you cannot hear will cause deafness and a suggestion that your body does not exist will cause death of the body. No one is permitted by the laws of mind to mock God and His Divine laws of Nature, for no one can be wiser than their Creator.

**Mental
Illumination**

All evidence at hand proves that God created the material universe through the laws of positive and negative vibration. The positive is the leading power and the first to be applied in bring-

ing about a creation, the receptive or negative is the germinating power; both forces are necessary for a creation. Super Mind Science teaches the means and proper way to control the positive and negative powers of the body, mind and soul. These laws were revealed to the Founder while suffering with a terrible disease, and the reader may be assured that none of the knowledge was received from mortal mind, but was communicated to the writer through the voice of cosmic mind, while he was in the Spirit, or absent from the body. Some of the world's greatest revelations have come while the revelator was suffering. Super Mind Science was revealed so as to furnish the individual with a Science which would be a surcease for pain, also methods to overcome the evil and negative tendency of carnal mind, bringing about a spiritual state of mind.

Light and Power When Truth, Love and Light predominate in one's life, they will succeed, and they will know something of these laws regardless of whether they become a Super Mind Scientist or not. All intelligence is the result of mind action and power. The physical is only an instrument played by the master musician (mind), it responds to the planes of vibration of the consciousness of the individual. Positive, Divine mental activity brings about ease, prosperity and happiness. All other opposite conditions such as disease, sin, sorrow, failure and unhappiness are produced as a result of the negative force ruling.

Divine Harmony "Know the Truth and the Truth shall make Ye free"—the Truth makes one free only when the power which demonstrates mental freedom is revealed. Super Mind Science demonstrates all positive powers and teaches that all Truth is three-fold, Physical, Mental and Spiritual. In Super Mind Science one finds the following rules in all demonstrations, first, physical energy is increased; second, energy is directed by Will and concentration toward mastery of any condition—physical, mental or spiritual; third, Divine Mind is controlled within, which is the source of all health, happiness and power; this seals all demonstrations with permanent results. Other and more negative teachings operate on one plane only, this makes it impossible to consider them a Science, for Science demonstrates each and every time, while methods only physical, only mental or only spiritual are

inadequate to reach most of one's troubles. There are many temporary relief cases and seeming healings through these incomplete systems, because all negative patients secure temporary relief, but in Super Mind Science the cause of disease, which is congestion, is permanently overcome. The keys to this power which are the increasing of physical and mental energy and Divine power must be given by a competent teacher who has observed the methods discovered by the Founder and is duly authorized to teach the same.

**Mental
Reasoning**

Super Mind Science methods are directly opposite in principle to the negative suggestive methods usually used in mental healing.

Each and every method is based on the immutable laws of Nature and makes the student stronger mentally, physically and spiritually. The following questions are asked by a Super Mind Scientist in order that you may use your reasoning power:

1st. Can light overcome darkness?

2nd. Is it natural that darkness dispels light?

3rd. Is disease (congestion) more powerful than God and energy, or can it overcome the one who uses these powers?

4th. Is it natural that energy and God be overpowered by negation, disease, sin and failure?

5th. Can a method perfect and positive within itself fail to help one and yet control energy and Divine power?

If these powers should fail, God would be a failure, consequently all life would be in danger of complete extinction. These pillars of Truth support Super Mind Science and cannot be disproven by any type of Science, nor can the demonstrations be equalled in any Religion, Science or Belief. Super Mind Science is the greatest Physician, Teacher and Philosopher and interprets the Bible scientifically. Its wisdom is as perfect as Infinite Spirit, and was revealed to the Founder while suffering and concentrating on Infinite Spirit for a revelation, as taught by the Eastern Saints in the fastness of the Himalaya Mountains where the Prophets of India wrote the Vedas, man's first Divine revelation of Truth and power.

CHAPTER II

SUPPLICATION

"Jesus answered, and said unto them, 'Verily I say unto you, if Ye have faith and doubt not, Ye shall not only do this which is done unto the fig tree, but also if Ye shall say unto this mountain, be Thou removed and be Thou cast into the sea, it shall be done.'"

Saying Prayers

The true supplication which regenerates the sinner, also heals the sick, for it is the inner consciousness of the absolute power of God.

This consciousness is developed through an inner understanding of God, as spiritual principle beyond personality and limitation. Omnipotent and Omniscient beyond cognition of mortal mind. This intelligence manifests through spiritual energy and power, it heals the sick and brings ease to the mind. Intense prayer is intense mental concentration which accounts for the results obtained by praying to the Deity. One must approach in the spirit of self immolation through meekness of mind, seeking a spiritualization of their life and consciousness, in order to benefit by earnest prayer and desire.

Silent Desires

Our silent desires of the heart set in motion energies and powers which bring them into reality if we trust God and have a worthy

desire. The All-seeing Divine Mind has so constituted the powers of life that every just desire produces its own reward. A true prayer is a constant silent desire with an unselfish motive. In order that our desire be unselfish we must have perfect mind control, for carnal mind manifests strongest in the consciousness of one whose lower nature is uncontrolled. Super Mind Science teaches the proper way to attain this desired mind control, for it teaches the genders of mind. Low desires are but negative thoughts, while positive thoughts develop high exalted desires, prayer based upon a desire created from a positive thought brings forth its own answer. Justice, Love, Light and Truth are positive principles and prayers should be in harmony with these spiritual ideals.

God is Power Prayers of weakness from the mentality of an admitted sinner are a poor remedy for one's ills, for God being of positive, Divine principles does not harmonize with such prayers; weakness must be overcome, not tolerated and encouraged. God is Good and all prayer should conform to His Infinite Goodness. The one offering the supplication should remember also that God is a Creator, not a destroyer, therefore all prayers should be of a creative nature. Those who request God to save them should attempt first to save themselves, letting goodness overpower all evil in their life. Positive action of the mind regenerates man; negation, suggestions and affirmations break down the positive mental structure, therefore it is very important that the Will to do good be controlled in the silent supplication to God.

God Is Universal The Supreme Infinite Mind whom we call God is universal in manifestation, His divine laws, like His Being, are also universal, not individual. God does not conform to the boundaries and limitations of creeds and dogmas, the laws of Nature do not work by the permission of any certain religious creed, nor can any stay the hand of death when one has used up all their energy or violated Nature's immutable laws. However, man can change his destiny by a study of natural laws—for Nature is one with and manifests through Divine power.

Erroneous Pleas Pleas for power are unnecessary until we use the power at hand; Jesus said "the kingdom of heaven is at hand". Sincere, unspoken, Divine communion arouses this power to action, and God functioning through mind produces the results. Those negative mortals who ask God to change the laws of Nature will find that God does not violate His own immutable laws. The safest truth to depend on is "when mind concentrates, God operates", for every true power which is good for man is useless until it is concentrated. No power while scattered abroad in the universe takes definite effect on other powers, only when it is concentrated does it produce effect.

Spiritual Accuracy The laws of God and Nature work in perfect harmony, there can be no separation between these powers if success is achieved. The union and perfect harmony of mind and Nature's immutable laws is necessary in every prayer if one would seek a

demonstration of perfect results. The prayers of Jesus were answered immediately because He was in tune with the Infinite; His Will and the Will of the Father were one. In order that this co-ordination of man and God be established, each individual should work out their own salvation. Man must not sit idle and pray that God do his work for him, he must ever be alert and willing to do his own part. Spiritual illumination develops from one using their faculties as they should and from an intense desire to know God.

Theory and Ignorance Many admit in theory that God is All-powerful, but deny it in practice; when they are sick they seek drugs or other material remedies, yet theoretically they claim to believe that God is All-powerful. When all material remedies have failed which they usually place before God, then they begin fervent prayers for Divine aid. If God can aid them, then why wait until all man-made remedies have been tried in vain? Such theoretical religious ideas may serve as a moral restraint but their spiritual value is indeed small. Vain repetitions of belief do not sway God from Justice, Love, Mercy or Truth, they only serve as a power to delude those who are so negative mentally as to use them. The more ungrateful one is for Truth, Light and Love, the more they will be punished by the Law of Compensation and will suffer until they learn that "God is not to be mocked".

Selfish Pride Those who exhibit their selfishness by saying long prayers to be seen of men, would do better to remain silent, for they set in motion forces which destroy them or which later may be the cause of their undoing. Every one should remember to do Divine works and thereby glorify their Father in heaven. Divine Mind knows every deed which we commit while in the body, therefore there is no secret; let everyone be conscious of the All-seeing eye of Spirit.

Divine Petitions Constant petitions to God for help are unnecessary if man is doing his part. When one becomes spiritually illuminated their life will be well ordered; the fact that a life is always in difficulty, proves the lack of spiritual power in that life. Each good deed assists the spiritual energy to flow into our life, bringing us countless blessings and the desire to do more good. Health and

happiness are natural attributes of a spiritual life. We should serve God in our fellowman as well as in the universe. Jesus commanded those who love Him to do His works; if belief and affirmations were all that is necessary to save a soul, would He have taught other than that to His disciples? Seek therefore to emulate Him by doing the works which He did.

**Christ's
Image**

Engrave the image of Christ in your heart, picture in your mind how He healed the sick, walked on the water, overcame death and taught the Truth in the face of physical death. Then go on to accomplish His message, knowing God is Good but is no respecter of personalities or beliefs. Our Goodness or Godliness equals our mind control, therefore the Science of Christ is the Science of Mind. When one utters a silent prayer they should also silently take inventory of their own mentality and soul, seeing to what degree they merit reward.

**Sup
with
Him**

Learn to go inward to the very heart of your being and close out all the manifestations of earth, and sup with Christ. He awaits you in the silence of your own heart and soul, forget the world and focus your mind on His Infinite Power within. In the Divine recesses of your being, there exists Truth, Love and Divine Consciousness, seek to know this through intense devotion to Him, to His cause and to His purpose on earth. Learn to heal the sick, speak the Truth and do the Divine Works, then He will come into your being and sup with you. We meet Him on the plane of Infinite, impersonal love when we learn to know God and Christ as one supreme power, manifesting the human and Divine in one. You may be persecuted by the worldly, but bear your cross and let your road in life be one of gladness and not one of sadness, retain a constant prayer of devotion to good.

**Mortal
Devotion**

The outward mortal devotion, consisting of long prayers and formal ceremonies is far removed from Him "who seeth in secret and rewardeth openly". They deceive the poor deluded mortals who are unfortunate enough to believe them, but they are powerless before the Throne of Grace. Only the silent prayers, clothed in good intentions given from the heart are recognized by Divine Mind. These prayers enable one to follow in the footsteps of Christ, while audible prayers, ceremonies and beliefs

of mortal man cause one to tarry on the road of life. They cover hidden animal emotions with respectability and are the producers of hypocrisy.

**Spiritual
Truth**

True regeneration comes from a renewing of the mind, not from matter; this reforms the character and develops the inner perception of God. A constant cognition of God constitutes true conversion, while outward formal conversion is far from reality. One should remember "as Ye sow, so shall Ye reap" and conversion does not change that law. The most conversion does is to renew the mind and change one's mental outlook on life, for God is no respecter of personalities or ceremonies. Sowing spiritual seeds is the doing of good deeds, for "good seeds bringeth forth good fruit, while corrupt seeds bringeth forth corrupt fruit".

**Man's
Influence**

God continually influences matter, but matter cannot and does not influence God. The realization of this Godly influence brings man in harmony with Divine Love, his unawareness of it causes most of his troubles in life. Realization of the power of this influence over one's life is mental, not physical, therefore Mental Science comprehends it far better than formal theoretical religion. Every good deed is either compensated in this world or the next, no good goes unrewarded and no evil goes unpunished; the idea of one escaping just punishment through prayer would make God a partner of evil and crime. God is Love, therefore only prayers of love and power are answered, for who could induce a just God to be unjust, or a loving Father to do evil to His child? Carnal mind with all of its excuses has no power in the presence of one single ray of the Supreme Infinite Spirit, God.

**Evil
Overcome
By Good**

Good deeds destroy sin and make one's being the true "temple of the living God". Evil is non-existent when good manifests, therefore it is not a power, but is mere negation. When one begins to know Truth, Love and Light their consciousness becomes spiritually illuminated and they lose interest in sin and worldly pleasures. One who asks God to forgive their sins and then goes on sinning does not deserve forgiveness. A constant inner communion with God destroys sin and disease for these negative conditions are the absence of good and cannot exist in

the presence of one single ray of God. The Science of Mind teaches one how to become positive and thereby destroy sin, disease and finally overcome death, and we should always be thankful for it.

**Sin
Forgiveness**

When one commits sin the conscience registers guilt regardless of how many prayers one says, and the guilt will remain as long as the conscience registers remorse for the deed. The theological myth that man can forgive sin is contrary to reason, for matter cannot dictate to Spirit, nor can man rule, direct or advise God. If man with his poor judgment was given the power to remove guilt and to forgive sin, there would be a complete reversal of justice. Earthly hierarchies of political minded men may be a moral force but they have no spiritual power. They may write prayer books, but God has written all true prayer in the sincerity of purpose in the hearts of men. Earnest supplication expresses the love God has concealed in the heart, it is far superior to mortal man's repetition of unreasonable Pater Nosters. What the world needs is mind control in order to understand the nature of God.

**Unpardonable
Sin**

The taking of human life is an unpardonable sin, and there can be no forgiveness later. Jesus said "he who lives by the sword, shall die by the sword", meaning a spiritual death. It matters little what excuse man has for shedding blood, he may call it capital punishment, war or self-defense which are only mortal terms. So-called Christians who endorse the killing of their fellow-man are poor examples of the Christ principle.

**Other
Sin**

The other sin which most people overlook is the wholesale killing of animals for food. This type of food brings disease and death to those who eat it, for no one can kill God's creatures without the laws of life sentencing them to an early death. Super Mind Science deplors the killing of any of God's creatures and teaches its followers to be vegetarians, for man can live a healthier and cleaner life through abstaining from eating flesh. Prayers are useless as long as man disobeys the commandment "Thou shalt not kill". This commandment is a law forbidding the killing of every living creature, murder is only one aspect of its meaning. Jesus said "fear not those who would kill your

body, but fear those who would kill you unto the second death", for the freedom of the conscience is the life of the soul.

God God is Truth, Love and Life, therefore a
Is prayer that He give these qualities is a fool-
Love ish request, for how can He give other than
 Love and Truth? "As Ye sow, so shall Ye reap", whatsoever
 man merits he will receive, for "a good tree bringeth forth
 good fruit". Those who think God is unjust are thinking about
 God the way their own soul judges them, if they were just,
 they would see that God is just. Arrogance is related to conceit,
 while humility is a virtue related to Love. One should learn to
 be master and overcome disease and sin, and not continually
 seek pardon.

Sickness Sin is a violation of the laws of Nature and
Is a producer of disease. Jesus said to the sick
Sin "go and sin no more", knowing that if they
 obeyed Him they would be healthy and happy in the future.
 No one should expect God to stay the hand of Nature, for God
 is the author of natural laws, and no laws have been written by
 mortal man which are as complete as the laws of Nature. If
 one adopts the policy of non-participation in killing of any kind,
 their prayers will be more effective, for will God forgive one
 whose habit is to destroy life, or will He lengthen a life which
 is undeserving of His notice? One should study Nature and
 harmonize with the principles of Truth, Love and Light in every
 venture of life.

Emotional Emotional prayers are like emotional conver-
Prayers sion, they produce physical sensation and
 mental hallucinations. They do not impress
 God and their answer is temporary like their quality. Emotions
 are of the lower planes of matter, therefore emotional prayers
 are of a low order, and usually embody a selfish plea that God
 do something which would be unlike His divine, eternal prin-
 ciple. Prayers of the opposite type carry with them an uplifting
 appeal and therefore produce results. One must learn to say
 to the Tempter, "get thee behind me, Satan". Evil thoughts,
 which are the angels of Satan (adversary) must be overcome,
 then only correct prayers will be uttered.

Divine When one becomes a habitual sinner, asking
Consolation forgiveness through prayer while not yet
 overcoming sin, they soon develop into

hypocrites. They are theoretical Christians but deny the practicality of Christ's teachings, they think that the entire human family is as lacking in courage as they are and they use Divine consolation as an aid to sin. How ungodly this practice is, for would God who is all Love be a party to their willful sins?

Pureness of heart is the greatest virtue of man, next to that is honesty and sincerity of purpose. Many prayers are already answered before the mind of the supplicant gives them formation, for Divine Mind is All-knowing, therefore cognizant of all good. On the plane of Divinity, neither tenses or time exist, as the fourth dimension is immeasurable by mortal man, because it is God's domain. All temporal things are subject to decay and change because they exist only within the confines of the three dimensions—space, place and time. Earnest prayer manifested through a constant desire in the heart is fourth dimensional while selfish prayers are of the three dimensional world, this being the cause of them going unanswered. Therefore purge your consciousness of selfishness and do not utter selfish prayers, for God seeth in secret and knows your every purpose. Do not be deceived by thinking you can possess a secret, for all mind is Infinite Spirit; mind is not corporeal, therefore is spiritual. One must learn that God is in mind and must cease thinking of a material heaven.

Self Justification

Self justification constitutes one of the most common of mortal errors, for one is prone to criticise others and overlook their own shortcomings. They should "find the beam in their own eye before searching for the mote in another's eye". Inner prayer for wisdom will bring forth meekness, for arrogance is in itself ignorance and sin. Weakness of character is the result of sordid negative thinking on the part of man. Man should develop character by exercising his mind in the right direction, rather than trying to attain it through requesting God to make the changes for him. A prayer which pictures the lowness of one's character and acknowledges mental negation will do more harm than good, for one should express the unselfishness and perfection of God in all prayers.

Lofty Prayer

Lofty praying is useless unless a lofty effort is put forward, for we are compensated for our deeds and not for our opinions. If belief could build character, then the entire world would be filled

with wonderful people. When one can see the guidance of the Unseen Hand in Nature and in all life, they will know the Nature of God, this, however, requires study and inner understanding, which is a quality of the soul.

Honest endeavor is always rewarded, whereas many petitions go unrewarded. The overcoming of selfishness is a spiritual necessity, whereas the ideas of personality over Spirit produce inharmony in our being. Unless the overcoming methods are applied to master this mortal condition of mind, lofty praying will be useless, for will God help those who refuse to help themselves? When one's being is attuned with the Infinite, this philosophy will be found to be the greatest light on the Path of Life. One becomes grateful for Truth through suffering; materiality is the cause of suffering while its remedy lies in true spirituality. To follow in the footsteps of Jesus is one thing, while asserting you believe in Him is quite another. Crucifixion comes to the flesh ideas in one's life if they persistently follow Him.

Inner Introspection Inner contemplation where one takes stock of their own mental condition is the golden key to Divine realization, for God is in the center of our being. If our introspection is for the purpose of self enlightenment, it is Godly, for while in this state of consciousness one may send forth intense prayer and contact the God-head in the universe. However, if the motive is selfish the contact will not be made, but if it is right, one will find that this contact is the contact Jesus spoke of when He said, "I and My Father are One". It seals all vows and sets free a captive and deluded soul whose imprisonment in the body of matter confines it to the realm of the shadows of life. This at-onement is supreme peace manifest, and everyone should seek it that they may come to know the nature of Divine Mind. The Over-soul beckons to those who desire to overcome the sorrow of the physical world to come into Divine realization of Truth, Love and Light.

Highest Truth The highest understanding comes from direct contact with the Infinite, not from a belief in vicarious atonement. Jesus taught that the door to life was "straight and narrow, and few there be who enter therein", while the creeds teach an entirely opposite doctrine. They teach and quote the Disciple, John, who

says "for God so loved the world that He gave His only begotten Son, that all who believe in Him may have eternal life". Which is better, that we follow the Master or should we follow the Disciple? In this case you cannot follow both, for one teaches that few attain to life, while the other says that all who believe in Christ shall attain to life eternal. The condition of attaining rest and peace, in the teaching of Christ Jesus is "I am the Way and the Life, come unto Me all Ye that are weary and I will give you rest". The "coming" is mental, for we cannot go unto Him physically, the "rest" is a mental state of mental peace, therefore we must seek mentally in deep contemplation to see God within, overcome all disturbing material desires and God will be revealed within the center of our being.

Altar of Sacrifice Each seeker for Truth should find an altar of sacrifice within to be used when the mind desires to sin, mentally placing the desire on this altar, realizing that God is All in All, remembering the old commandment "Thou shalt have no other Gods before me". The giving up of a sinful desire should be accompanied by action of the will and concentration of the mind to overcome it, rather than with long emotional prayers. Jesus said "if thy right hand offend thee, cut it off", meaning if you are tempted by relative or friend to do sinful deeds, sever the friendship; inner prayer will give one the mental power to accomplish this. Mental Science gives one strength of character and the power of resistance. Christianity is a science, not a belief, therefore one needs to study the mental aspect of self control and mental discipline to become a Christian.

Walking in the Light When we walk in the Path of Light we learn to extend a helping hand to our fellowman, for the healing of the sick and the doing of good deeds are the brightest pictures which will remain in memory. We must learn to give physically, mentally and spiritually for, "Give Ye and Ye shall receive". The law of giving is one of the greatest aids to prosperity. Many fail to receive in life because they pray for more favors from God, yet they are too selfish to give. Materialism is the basis of most of human misery, while spirituality is an aid to success and happiness. Mental suggestion of success creates a delusion and fails to produce because it is negative, therefore not creative; only positive mental effort is truly productive of results.

Negative affirmations of belief or disbelief break down the mental structure. God is not to blame for one's failures, they are the result of one violating the immutable laws of mind, for mind being master of matter one must obey its laws. An understanding of the laws of gender of the mind reveals the true source of man's creative ability and the power within or his "Sonship of God".

Punishment for Transgression If sins were to go unpunished, the upward trend of human progress would soon stop, for only the consciousness that every sin shall cause punishment is the incentive for one to become better. A constant remission of sins on the part of God or Christ would encourage violation of the Divine laws and Commandments, therefore one should pray for power to master themselves and overcome the desire for sinning, rather than for forgiveness. Restitution is more important than confession of sins because it frees the consciousness from self condemnation. Everyone should strive to know God as Absolute Good. The reward for prayers equal their mental value, the emotional desire of the supplicant is not taken into consideration by the All-seeing Divine Mind of the universe. Prayer only sets in motion Divine Mind energies, it is not heard by a personality in the sky as some carnal minded people believe.

Reward for Petitions The reward for sincere petitions is always measured by the pureness of heart of the supplicant, it never exceeds their own goodness. The concept that God aids evil or those with evil intentions is erroneous. A constant effort to develop spirituality will make prayers more effective and give one peace of mind; to attain mental bliss, unselfishness is a necessary quality. The farther away one draws their consciousness from matter, giving up material aims and desires the closer it approaches God, for materialism is the power behind the throne in the world of sin and strife.

Silent Prayer Silent prayer is the prayer of wisdom expressing silently, its essence is sincerity. There is no element of conceit or false pride in silent prayer, however, the prayer when intensified, becomes positive mental concentration of mind powers. False or selfish prayers harm the sensitiveness of conscience while unselfish prayers draw one close to the Infinite. Every recess of the

inner being is illuminated when one expresses unselfish thoughts or does a good deed. This inner illumination is the at-one-ment with God to be desired.

Healing Prayer

The greatest healing prayer is to know that pure Infinite Spirit is present in every cell of our being, and that disease cannot exist in the presence of this Divine power. When one can control all healing powers as taught in Super Mind Science, disease cannot be stronger than God, nor can disease overpower the life healing energy which is directed by the super will force of one who knows the keys to its control. The good effect of prayer for the sick is in the fact that the positive energy in the person sick is aroused into action by the positive thoughts which are expressed by the one offering the prayer. Blind faith in God has some power to relieve disease, but is a negative, unscientific way of attaining results. The prayer of wisdom was the type uttered by Jesus. Every disease is the product of sin, either willful or in the form of ignorance, therefore one must seek to cast out disease, rather than heal the effect and let the cause remain.

Divine Methods

Jesus had a Divine method of healing disease. He usually laid His hands on the sick, which caused a circulation of life energy. After this application He uttered deep sincere commands to the Divine powers within to heal the person in accordance with their faith, which is one's mental concept of healing and of God: it is not an emotional excited state of consciousness. Those who are seemingly benefitted by prayers to a personal God are really benefitted by the power of suggestion to their mortal faculties, this type of healing is like mortal life, it is temporal and of an impermanent, transitory nature. Permanent help may be realized by the concentration of the consciousness in a devoted state on Infinite Spirit. This is easy to accomplish when one learns the laws of gender of the mind as taught in Super Mind Science. Love and power are of a universal nature and are revealed to those whose concept of life is broad and Universal. God is not influenced by the boundaries of creed, such limitation is physical, not spiritual.

**Spiritual
Concept**

The spiritual concept of life, is the idea of the All-ness of God and the transitory conditions of matter. This consciousness of spiritual values purifies the mental purposes of life and brings one close to the true reality of God. This realization is beyond all dogmatic assertion and creedalistic affirmation, it gives one comfort when in sorrow and heals the body through proper adjustment of life energies and powers. Mental consciousness of the Infinite in every cell of the body is the highest type of metaphysical realization, while a denial of matter is the greatest mental sin. It transgresses the law of God who created matter as the "Temple of the Living God"; denial of disease is mental ignorance. The refusal of man to admit his imperfection does away with opportunity to develop his spiritual faculties and is not a Christian doctrine. The true source of such teachings is a mis-concept of Buddhism. Christ taught in His statement of Divine at-one-ment that "I and My Father are One", which included His whole being—mind, body and soul. This is also a metaphysical concept not understood by the materialists.

**Infinite
Love**

Man transgresses the Divine Law and yet often goes with less punishment than he deserves. Infinite Love is merciful whereas carnal mind is sinful, if this were not true man would destroy himself before he learned the lesson that "sin never pays". The consciousness that man is master and not a slave is the true idea of the spiritual man, not of the carnal minded, willful sinner who ignores God until he is convinced he is about to make the transition from the visible to the invisible. While in a mental quandary he prays to a God whom previous to that time he had ignored and even detested for "sin hateth the way of righteousness". That which is spiritual is foolish unto the carnal minded while that which is carnal is foolish to those who have attained to the wisdom of Life Divine. The war between matter and Spirit is but the law of gender of the mind misunderstood by misguided mortals.

**Sincere
Desires**

Public demonstrations of fervent prayer seldom convey the sincere desire of an illumined soul. Usually such prayers are temporary outbursts of emotion from those who live so negative

that their consciousness condemns their deeds. Many times public prayers are but vain repetitions of words which have only external meaning, many times they have been learned from a prayer book whose purpose is to instruct those who read in what to say. Such books are written by mortal man with the premise in mind that they furnish quick words and formation of sentences to those who cannot express the convictions of their heart. These may be termed stereotyped formal prayers without spiritual realization on the part of the supplicant. Anyone who uses them trains their mind to be insincere, for all true prayers are written in the desires of the heart by the All-seeing Divine Mind. Can man improve on what God has done, or write words to express spiritual ideas fitting to each individual's spiritual needs? No, only the power of inner perception can reveal the thoughts needed for such spiritual upliftment. Material beauty is only an outward manifestation of a more perfect beauty. An oral prayer is only a crude reflection of the inner goodness and power of an inner prayer, uttered by the consciousness of one who has proved the utter lack of power in matter to give one health, peace or power. The fragrance of a flower and its beauty of color has no permanency. The flower is soon wafted away on the wings of the wind in the form of a powder invisible to material sight, the only lasting thing about it is its symbolical meaning, which is the unfoldment of the powers of the soul. The higher aspirations of a seeker of light is the greatest promise of good in this carnal minded world. Mental consciousness of God should extend into every cell in our body, bringing Infinite Spirit from a realm of obscurity to a prominent place in our lives, then we will really know "Mind over Matter".

**Mortal
Consciousness**

It is apparent to every careful observer that formal rites and ceremonies are failing as a remedy for sin and crime, also that they have failed for the last two thousand years, therefore a spiritualization of the consciousness of man is the only remedy for the present ills of life. Inner prayer which contacts God not only gives man a reassurance of the Divine presence but also heals the sick and brings spiritual power into manifestation. The prayer which Jesus prayed is a complete realization of the power of mind as taught in Super Mind Science. One should say it with the understanding that it is the key to mastery or Lord's Prayer, when scientifically interpreted. It is an ideal spiritual prayer when

Super Mind Science gives its meaning, however, this meaning is given in all sense of humility and is not intended to be construed as adding to the Lord's Prayer or taking anything away, it is only a brief analysis of the scientific philosophy it contains.

"Our Father which art in Heaven"

Oh, Infinite Spirit of Love invisible,

"Hallowed by Thy Name"

Thy sacredness be made known to man,

"Thy Kingdom come"

Thy goodness and power is now manifest,

"Thy Will be done on earth as it is in Heaven"

*Enable us to realize Thy Infinite Will in body and soul in
the form of unlimited power,*

"Give us this day our daily bread"

Provide us with earthly supply through Thy power,

"And forgive us our debts, as we forgive our debtors"

Mete out to us our just reward,

"And lead us not into temptation, but deliver us from evil"

Raise our consciousness to a knowledge of mastery of sin,

"For Thine is the kingdom and the power and the glory forever"

*For all things belong to Infinite Spirit and manifest
through Love.*

Amen.

CHAPTER III

SACRAMENT AND SALVATION

"Enter Ye in at the strait gate: for wide is the gate, and broad is the way, that leadeth to destruction, and many there be which go in there-at, because strait is the gate, and narrow is the way which leadeth unto life, and few there be that find it"—JESUS.

Divine Consciousness

Attaining immortality does not depend upon a creed, ritual, or a belief, for only a unity of man and God can accomplish this. Jesus taught conditional immortality, He did not teach that all who believe in a certain religion would attain to that sublime state of Divine Consciousness. This Divine state must be attained while one is on earth if they would be one of the few "who enters the straight gate to life" referred to by Jesus. Regardless of what one may believe, this is the truth about salvation as taught by Christ Jesus. No man-made ceremony can change the Divine law which governs soul salvation; no clerical pronouncement can alter the decision of a Just God of Love, Light and Truth. Jesus taught placing the responsibility on the individual, while His disciple, John, taught an opposite doctrine, or according to John there is an opposite statement made by Jesus concerning salvation, for it is written in John (Chapter 3, verse 16): "For God so loved the world that He gave His only Begotten Son, that whosoever believeth in Him should not perish, but have everlasting life." This teaching is salvation for the vast multitudes who affirm their belief in Christ, but does not coincide with the doctrine that "straight is the gate and narrow is the way which leadeth unto life, and few there be that find it". The contrast is between salvation by good deeds, and salvation by belief alone. Jesus gave a test for those who believed in Him, "the signs which were to follow them are namely, healing the sick, casting out demons and raising the dead".

Worldly Concept

The worldly minded say that belief is sufficient and that faith will save the soul, yet we are told in the Scripture that "faith without works is dead". Are we to continue to accept the empty

belief void of works, which has failed during the past two thousand years to give humanity health, mind control and peace of mind? Is it not better that we do the "works" and also possess the faith? Which is the safest road? One leads to light, health and happiness through Super Mind Science, the other is the path of darkness. The first requirement is a knowledge of the laws of mind, body and soul, demonstrated by Jesus. These laws are the genders of the mind which give the key to unlimited mental powers, and were used by the Master in creating the "food for the multitudes" and the "walking on water" and "raising from the dead". They are the positive laws of mental creation operated by the concentrated will of man and God unlimited, which also controls the subjective powers of mind as manifest in Nature.

Science of Mind The operation of the positive law of mental creation which gives man the power to "overcome the world" is the highest technique of "The Science of Mind". Through this law man becomes one with God and is reconciled to the first principle of Life and Truth through the harmonious blending of the powers of mind. Super Mind Science overcomes matter and gives the individual a glimpse of the "kingdom of God at hand". Disease, sorrow and sin are mastered through overcoming their cause, which is negation of the mind and an uncontrolled physical nature. Demonstration is the proof of power, and those not able to demonstrate the Divine powers of the Master have a poor concept of the reality of God. One will have to answer for deeds committed while in the body, not for the correctness of his belief, for reality is recognized by God while speculation is but a mental shadow. Materialism is the curse of this world while spirituality is the leaven in the bread of life. All who would overcome the flesh must set aside material beliefs and dependence on the physical senses, then spiritual healing accompanied by a permanent realization of the Divine Mind will manifest without interference.

Immortal Principles Immortal principles govern the laws of life, otherwise reproduction would cease. That which will remain of the individual represents the eternal principle of being, and upon dissolution of this body the inner self takes on another body of a more subtle nature. The good deeds of one's life are the lights of life in this

spiritual body, Paul says "for this mortal shall put on immortality". The identity remains the same as the earth identity in a sense but the changed condition causes the necessity of spiritual faculties of cognition. Human life is like a flame of fire, it is lighted in the morning, it burns all day, and while it may be called the same flame at night because it has continued to burn all day, its essence is continually changing as the fire consumes its fuel. The principle of the flame is eternal while the substance or fuel is temporal, thus man continues to change, at childhood he is one being, while in manhood he is the same identity, yet every cell in his body has changed since he was a child. The identity being of a permanent principle and nature, it does not change continually as matter does, but grows and develops and if one has the understanding of Divine Life and Truth it takes on permanent qualities. The identity must renounce the pomp and show of material change, and through a knowledge of mind become immortal. The sinless life of Jesus gave Him power over life and disease, and also made Him immortal. He lived and had His being on the plane of His Heavenly Father, and His attainment was reached by inward prayer, fasting and mental concentration on overcoming the world of matter, sin and disease.

At-one-ment in Christ At-one-ment in Christ gives one the power to heal the sick and live a life of unselfish love, it draws one away from the changing delusion of the corporeal world. The firmness of our resolve to reach the inner reality of Spirit will bear fruit according to our effort in overcoming the flesh. "Seek the kingdom of God or Good and all else shall be added unto you" is the Divine promise. If the student of life is sincere in seeking the kingdom within he will ever turn away from the babble of the unlearned, away from material sensation to dependence upon the Christ Spirit which is stronger than the flesh. One who knows the Truth will be willing to "work out their own salvation", while mental weaklings desire the prayers of others to attain salvation for them.

Holy Sacraments Holy Sacraments are only symbols, and are worth only the mental value of truth which they suggest to the mind. God did not design them or ordain them, they were written by man, and however good they may seem, they are of mortal significance only. Only

the desires of the heart which manifest in those who partake of them are Godly, if their desires are unselfish and of the Christ Spirit. Those who believe they can sin and escape payment of their debt to God's laws through the remission powers of a Sacrament or the application of so-called Holy Sacrament are deluded by a belief that God condones their evil deed. Super Mind Science places the responsibility of deeds upon the one who commits them because every day we see suffering caused by sins against the laws of Nature. The only true remedy for suffering is to break the attachment of the mind to material pleasure and all things temporal, desiring only spiritual power and Divine wisdom from the "kingdom of God within". Final deliverance is reached through mental effort, and no amount of vicarious effort on the part of another can change the necessity for this mental effort, for all sin is mental, likewise all atonement.

Lost Souls

Those who are so unfortunate as to believe that they can wait until they are ready to lay this mortal body down before seeking spiritual deliverance from sin and then attain salvation immediately, are the ones who comprise the legion of "Lost Souls". Inertia is death—action is life, therefore effort represents accomplishment while postponement represents failure. Those whose faith is for death alone will find life a hard master for "the way of the transgressor is hard". Inner illumination through self control is the remedy for the ills of this world and an assurance of eternal life in the invisible world or "our Father's house of many mansions".

Self Development

Self development comes from self reliance, weakness comes from depending on others. Super Mind Science instructs more than it sympathizes. The fact that one is willing to fight the battles of life is good cause to believe that they will win, only quitters and doubters are among those listed in the book of life as failures. Mental Science gives one the strength of mind to resist becoming one of the vast multitude who are the sufferers of this world. Divine law and justice demand the reformation of the sinful mind, not a re-statement of a dogmatic belief. The process by which man is made a new creature is the "renewing of the mind", a development of that "mind of mastership which was in Christ Jesus". The laws of Divine Mind demand that man seek the Truth for the Truth will never seek man. If the

reader would become master of life's problems then he must decide first to be an open minded seeker. The true salvation of man is to withdraw from the world of physical senses and enter into that Divine peace within. Those who pray to God to help them in their unbelief demonstrates the truth that no one can govern their mind until they learn the laws of mind. As faith is mental, it is acquired by a form of concentration, therefore those faithless mortals need to understand concentration.

**Theological
Speculation**

The ruination of lives on every hand is being witnessed because of the erroneous theological speculations which favor the weakness of the flesh. Theology speculates on the crucifixion as a ready means of forgiveness for weak mortals who live for pleasure only, but when misery overtakes them they appeal to God. This speculation fails to understand the philosophy of self mastery which was unfolded to the world through the crucifixion. The cross is a lesson in "spirit over flesh", "mind over matter", it teaches to the intelligent the lesson of overcoming a world of misery, sin and lust, also the glory of a spiritualized being who lives independent of matter, and shows the unreality of death to those who are truly enlightened. The appearing of Jesus after death proves the eternal reality in the principle of spiritual identity manifest in all who "doeth the Will of the Father". The ideal of God manifest in Jesus resides in all, but the proper way to bring it forth has been misconstrued due to the theological tendency to teach the remission of sin more than the mastery of the cause of sin, the flesh. The idea that the material blood of Jesus cleanses us from all sins is extremely lacking in spiritual ideality, it resembles the Pagan view rather than the Christian. His life was the beginning of a new spiritual understanding of God, therefore the shedding of blood would denote His great self control and power which made it possible for Him to challenge physical death and become its master. We also learn the lesson that if one is "at one with the God Spirit" it matters little what sinful minded men may do against us or what happens to the physical body for, as Jesus said before Pilate, "my kingdom is not of this world". The demonstrations of Jesus does not set aside the demonstrations of power others are supposed to show the world in order that they may be "doers of the Divine works". Constant preaching without teaching is not the remedy for the ills of man.

Proof of Divinity The requirements of those who are the followers of Jesus is that they perform the demonstrations He taught His disciples. He did not lessen the necessity of one knowing the "laws of life" or demonstrating over sin, disease and powers of the adversary (flesh). Without complaint He carried His cross up the "road of sorrow" to Calvary, for He knew how futile it was to try to explain Divine laws of Being to a sinful world. The flesh seldom hears the pleadings of Spirit, it more often persecutes those who challenge its claims. The explanation of this inner foundation of Truth is explained in Jesus' statements "I and My Father are One" and "No man cometh unto The Father, except by Me", meaning the universal Christ Spirit which He manifested. This Spirit when realized, heals the sick, lifts up the fallen and gives rest to the weary. His resurrection proved that He was Master of the "Science of Life" for he raised Himself according to a previous prediction. A belief in life would not have accomplished this wonderful demonstration, only a knowledge of the "Science of Life" could have given Him an accurate understanding of His ability to survive death.

Spirit in Matter Jesus proved that matter and Spirit cooperate, because the same Jesus seen in the flesh was the one and same raised from the dead. He did not deny matter. He overcame it with the power of Spirit. In demonstrating the power of Spirit in those afflicted with disease, He also healed them, which proves the truth of Pantheism, for He raised the flesh body to glory as well as the spiritual body. He proved by demonstration that God operates through the power of the consciousness and mind of man when man has the correct understanding of "the power within". This proves the doctrine of "there is no mind in matter" to be false and a lie, and disproves the auto-suggestion used by so-called Christians which is only a denial of matter, therefore false and contrary to the doctrines of Christ.

Sectarian Falsehoods Numerous sects use the resurrection of Jesus to prove the most impossible doctrines conceivable by man. To the Spiritualist His resurrection was a proof of spirit return, which of course was not the case. To the Christian Scientist it proves that the entire physical universe has no existence. If this premise is true then the physical Jesus had no existence, which is a complete denial

not only of the physical man Jesus, but also a denial of the reality of the flesh existence of all people as well. To the Orthodox Christian, Jesus is a blood sacrifice for the remission of sin and His resurrection was to make it easy to obtain a pardon.

Super Mind Scientist View To a Super Mind Scientist, Jesus' resurrection is an example of the highest form of mastership, given as practical proof before the entire world, proving that each individual can master the flesh, sin and disease. His healing was the best way to overcome disease ever demonstrated on this earth and was practical, not theoretical. It was to teach the world a method of overcoming pain, sin and sorrow by the application of a power which was at that time unheard of. The laying on of the hands was a means of contact between healer and patient, and a means of controlling healing energy or life currents, a method which all Super Mind Scientists understand. Jesus placed healing in the Church and demonstrated it in the Temples showing He preferred it to preaching and not doing, and for that reason it should be a practice in every Christian Church. Super Mind Science gives as a part of its ritual a weekly service for the benefit of all sick people where the Christ healing is performed scientifically, using the forces of Nature as well as the Christ power. Its aims is to re-establish Christianity in fact, not theory, as it was demonstrated by Jesus Christ. Thousands of seekers who have been healed is the proof that it succeeds.

Students of Jesus The system of performing healing and other demonstrations of power, including the relief of mental obsessions, called "possessed of demons" was a part of the curriculum in the School of Disciples taught by Jesus. There were seventy Disciples in all and only eleven of them succeeded in learning His "Science of Life", while the rest soon forgot His instructions. This proves the doctrine that "the harvest is ripe, but the reapers few", for there is always suffering and disease in the world to be overcome. The ones who were faithful became great teachers, healers and demonstrators of Divine powers which proved His science to be "The light of the World". The same is true of all faithful Super Mind Scientists, they overcome disease, poverty and sin, however, "many are called but few are chosen". The few are

the ones who are sincere and desire to become a demonstrator of the Christ powers, the many are the unfaithful. Why are the so-called Christians so opposed to the Christ healing? Do they believe He can save the soul, but is powerless to even stop a headache? Or is the God they worship weaker than man made healing systems? The writer is inclined to believe that they lack faith in the very doctrine they profess to believe. The Church should be interested in a body and mind saving program for "what profiteth a man if he should gain the whole world and lose his soul", or what can he give in exchange for his soul?

Soul	If a ceremony can save one soul by direct
Saving	influence with God, then why can it not save
Ceremonies	all souls at the same instant, for we are told

that God is no respecter of persons. The Science of Mind teaches one that salvation is a mental process, therefore can be better understood in Mental Science. No ceremony can take the place of soul development, only the actual doing of good deeds and the performing of Divine work is sufficient.

Authority	The demonstrations of power which Jesus
of	performed were the evidence of His Divine
Jesus	authority. He challenged the Rabbis and

Priests alike to prove their doctrines through works like He proved His. They met His challenge by falsely accusing Him of being a "winebibber and instrument of evil Bezelbub the 'Prince of devils'." The narrow minded of today accuse Mental Scientists of the same evil, which proves that there are few true Christians. There are many modern Pharisees who masquerade under the name of Christians, they have but changed their outer form, like "white sepulchres, white without but corrupt within". The Divine Mind Scientist knows that outer forms do not impress God, only the inner reality changes the results of acts and deeds. Jesus came to prove how powerless the formal ceremony of religion was, His idea was to establish a practical healing science and to show mankind how to overcome the flesh, thereby contacting the Heavenly Father. The idea that God sends suffering on mankind is contrary to all teachings and demonstrations given by Jesus. Man will continue to suffer until he understands the God which Jesus worshipped, the God of mastery over disease. Sin, weakness and submission are mortal, while overcoming is spiritual.

**Human
Relationship**

Human relationship did not enter into the picture of life which Jesus lived, for He taught that a "Prophet was not without honor, except in his own country, and his enemies were those of his own household". Many say "I would study and improve my mind but my family objects"; these have failed to realize that the all important issue is to possess knowledge and know God or be lost spiritually, and they usually suffer with disease while on earth. The living Christ is the spirit within, those who celebrate His death and fail to find Him in life are to be pitied for their lack of understanding and censured for their ignorance. Super Mind Scientists should heal them and try to cause them to see the error of their ways.

**Suffering
Predicted**

Jesus sent His disciples into the world with the injunction, "Behold I send you forth as sheep in the midst of wolves, be ye therefore wise as serpents and harmless as doves". The true disciples of Christ of today would do well to observe this command, for they face the same problems today which the disciples of the Master faced then. When you suffer for the cause of righteousness, remember it is "the cross to be borne" which Jesus described, and never resent persecution because it helps to develop the spiritual nature of those who must bear it.

**Spiritual
Birth of
Jesus**

The spiritual birth of Jesus illustrates "mind over matter" in the true sense of the word, and proves God to be the Father of all. Jesus said "call no man on earth Father, for there is but one Father of all, the Heavenly Father". Those religions who call their Priests "Father" are severely rebuked by this Scripture. They should remember the commandment "Thou shalt have no Gods before Me". The Christ spirit has been forever as principle Divine, the inner spark of Divinity in every individual.

**The
Wise
Men**

The Wise Men "from the East" were spiritual minded men who perceived the advent of "The Prince of Peace" through knowing the meaning of His star. They knew that the star represented individuality united to God, which was an old symbol even before the birth of Jesus. They made their offering to the Christ-child in the form of a Divine communion, while the material presents they brought were of little significance.

Man a Son of God Man as a "Son of God" is a truth, not a theory. Jesus said "Ye are sons of God", and "Ye and Me are brothers", which describes man as he is, spiritually. Super Mind Science has proven by the demonstrations of power and the glorious at-one-ment methods of mind power that His words were scientifically correct.

Life a Sacrament Our lives should be a sacrament unto the Most High, continually observed in the chambers of the mind. This type of sacrament makes life a pleasant journey and gives one peace of mind, for every time we overcome as taught in Super Mind Science we learn that delusion and the unawareness of God within has produced our trouble. All should learn to roll the materialistic stone away from the body, which is the tomb of the soul, and awaken to a life of Light and Truth through demonstration of Divine Mind power.

His Cup of Sorrow When Jesus was about to be crucified by the ignorant multitude, He realized what was to come, saying "Father if it be Thy Will that I shall drink this cup, let it not pass from Me, Thy Will not my Will be done." In that spirit He gave His life because the religions of His day hated the demonstrations of power which He gave, they were jealous of the spiritual reputations which He enjoyed. So likewise today the religions of materialism dispute the power and demonstrations of Divine Mind, but "children of light be not weary in well doing, your reward will be either in this world or the next".

Christ, The Spiritual Being The suffering on The Cross of Calvary was of the flesh, not once did the indwelling spirit suffer. This suffering, however, was real as far as mortal perception is concerned. How empty is the claim of those mortals who say the flesh is an illusion and does not exist. When compared with the supreme sacrifice of Christ which was His "mortal body", they should hide their face in shame for trying to take away from Him the glory of "overcoming the flesh". They use the most unintelligent form of hypnosis and the power of auto-suggestion, but would they "drink His cup"? or would the Orthodox Christian drink it? Have they shared the blood of "The New Covenant", the persecution which comes to those who do His Divine Works?

**Christ's
Ascension**

Instead of celebrating Christ's death as is the custom, Christians should celebrate His "overcoming death". His glorious ascension after His final meeting with His disciples lets us know now that "the Comforter has come", and also the "Spirit of Truth" which was promised by the Master, for the blind see, the deaf hear and the lame walk.

**Life
and
Light**

Super Mind Science was revealed to the author while he was blind and convalescing on a bed of sickness where the only mortal hope was death. While the mortal darkness and helplessness of matter seemed insurmountable, from the inner recess of his being came Light and Life. His sight and health returned and this wonderful Science was born from the demonstration of a super power in Nature. Divine, Unconquerable Infinite Spirit which controls the energy of life, heals mankind's ills and lights his way to "the throne of grace".

Illumination

With victory over disease and the flesh, comes illumination and direct knowledge of God, a permanent channel of communication between man and His Heavenly Father. The realization that this power and light is universal reforms the sinner and takes away the pleasure or illusion called pleasure, found in violating the laws of life.

**Material
Rituals**

Material rituals are empty in comparison to the inner illumination which purifies the mind, cleanses the body and lifts the consciousness to unknown heights of joy and peace. Every Super Mind Scientist who has overcome disease and sin has experienced that touch of Divinity which is a part of the demonstration of mastery over the lower self. Our Baptism which is Wisdom, follows with a love for healing the sick; our Eucharist is constant contact with God and the overpowering of evil or lower self.

**Spiritual
Contact of
Christ**

When self mastery is attained through correct concentration and realization of the God principle, spiritual contact with Christ is attained at Will. This Divine communion with Christ should be practiced daily by every Super Mind Scientist, for in the dawn of our scientific realization of "the power within" one needs the actual contact with the Master. As followers of Jesus we

are to emulate Him and imitate His mighty works, for we have the promise that "these works shall Ye do and even greater works shall Ye also do".

Comes as a Sword Jesus said "I come as a sword", meaning a spiritual sword which cuts down the tower of the flesh or Carnal Will, substituting therefor the Spiritual Will of a regenerated being, who having attained self control is in contact with Infinite Spirit. The road to the Calvary of the flesh is the parting of the ways with our worldly associates and companions in sin; the light of the world is attainment of spirituality. When one constantly contacts the Christ spirit, He becomes their beacon on the sea of Life.

Selfish Mentality Those who are selfish minded, having no time to do the Divine works, will awaken to a gray dawn in the final analysis from their conscience within. Jesus said we should attend to Our Heavenly Father's business, "heal the sick, preach the Truth and do all things which He has commanded us to do". This shows how empty is that selfish life where the Father's business is neglected and the fruits of Divine labor are lost. The record of suffering of those who do the Divine Will is the strength of the church, for it proves mastery over the flesh and complete renunciation of the flesh world for the unselfish Life Divine. The author long ago decided that a material life has nothing to offer except misery, sin sickness and death.

False Doctrines Jesus said to His Disciples "these signs shall follow them that believe; they shall speak with new tongues, and if they drink any deadly thing it shall not harm them, they shall lay hands on the sick and they shall recover". He did not say "My Disciples shall do this but them (meaning believers) in all times to come shall not possess this Divine power". These negative teachers of false doctrines who say that laying hands on the sick is mesmeric should read the instructions of the Master to His Disciples. He did not say "give suggestions to the sick or deny the existence of a disease, or pray for the sick", He said "they shall lay HANDS on the sick and they shall recover." Any so-called religions which deny this healing are, according to Jesus, unbelievers.

**Many
Substitutes**

Jesus spoke of the many substitutes which would be offered for His demonstrations, some saying I cast out demons in your name, others claiming other rewards for services rendered in His name. But to all substitutes for His genuine works of Spirit He said "depart from Me Ye workers of iniquity, I know Ye not".

**Modern
Pharisees**

Those who say "I was healed by medicine" or "I take communion" and others who say "I deny matter" will all be included in the curses placed upon the Pharisee, "who hath ears but hears not, and eyes but cannot see," for only the Divine works will prove the Christian Spirit of an individual. Super Mind Science teaches that this work must be accomplished and there is no other way of atonement or at-one-ment. The passing into immortality should be done while living instead of waiting until mortal death, for only such identity as we build will be all that we can hope to possess after mortal death.

**False
Beliefs**

The false belief that the soul is not in the body is mental suicide, for it tends to separate consciousness from mortal existence; such false beliefs cause much suffering in the world. The soul is the consciousness within of right and wrong, the soul center is in the Solar Plexus where the soul judges every thought which enters into our passageways of life energy and impulse.

**Man's
Being**

It is but natural that if we are to save the soul we must save the body, for man's being cannot be separated. Saving's one's soul in the church while their body is in the infirmary is impossible, and premature death is the price paid for ignorance of this principle. Man may walk a flowery path filled with sweet oratory while here on earth but his soul will find him out and he shall pay the price for neglecting his being. Sins of omission are as great as sins of commission regardless of whether the sinner is ignorant of the law of life violated or not.

**Death
Overcome**

Jesus overcame death because of His mental and spiritual power; His victory was the reward for healing the sick and doing the Divine works, not because He believed in a certain sectarian belief. Facts and demonstrations are scientific and mark the difference between Truth and false concept. When we say Mind we mean all intelligence. Science of Mind is the power that

comes from correct scientific demonstration of Divine Mind which gave Jesus victory over sin, lust and the body. That Truth and Science is the same today as then, we call it Super Mind Science because it is the highest realization of the scientific demonstration of the power of Mind and God. This Science has proven thousands of times that it overcomes disease and is mankind's Comforter, the spirit of Truth.

CHAPTER IV

THE HOLY EUCHARIST AND DIVINE SCIENCE

"I and My Father are One"—JESUS.

Atonement At-one-ment is the mental contact of mortal man with God—the complete purification of the body, symbolized by bread, and the mind symbolized by wine. The evidence of atonement is at-one-ment with God. Through this Divine mental unity, disease disappears and physical and mental harmony is established. In Super Mind Science the student is taught how to attain Divine unity through generating life energy and then how to form a mental contact with bliss. While experiencing this bliss God manifests, this establishes actual contact with the Infinite, rights all wrongs and makes one strong spiritually.

Responsibility The Divine Sacrament in itself cannot purify
for one, it is only a symbol no matter how per-
Actions formed. Jesus did not intend to relieve one of their responsibility and thus encourage weakness. He intended to charge everyone with their duty and then He instituted the Last Supper as a symbol of at-one-ment of Him, His Disciples and His Father. When mentally contacting God, one should remember "I and My Father are One" and "He who seeth Me has also seen the Father", "I am in you and you are in Me, Christ Jesus". The purification of mind comes from doing the Divine Will of Him who sent us into this world. The act of partaking of the Holy Sacrament or the Eucharist is not enough, for Jesus urged His followers to do His Works, and to use the communion only as a remembrance of Him, and to remember "Thou shalt worship no Gods before His Father who is in Heaven" (meaning invisible). The at-one-ment of Christ with God overcame the world (death) for death is of the world.

Jesus Jesus was sinless because He overcame the
Sinless influence of His body over His consciousness by fasting forty days in the wilderness. In doing this, He rejected the materialism of a temporal kingdom presented to His spiritual consciousness or His highest nature, by thoughts or adversaries. His power to rebuke the adversary

demonstrated the sinless nature of the Divine Mind fully manifesting through Him. The overcoming is mental, therefore no physical ceremony can take its place.

**His
Teaching**

Renounce the physical world and all it stands for, as all power belongs to God. Return blessings for curses, and do good unto those who use you ill, overcome evil with good, disease with power (energy) and darkness with light, then you will know the nature of God. Submission to disease or evil demonstrates a lack of wisdom and leads one to destruction, regardless of how many ceremonies he may indulge in. Jesus disregarded all formal religion and taught by demonstration, offering that as His authority, without asking endorsement from anyone on the mortal plane. He was fearless and positive, never taking a negative position. He taught by symbol and parable so that there would be many interpretations which are necessary to satisfy the different degrees of intelligence in the world. The universality of His teaching may be seen in the meaning of the parables.

**Victory
Over
Death**

Ceremonies will not result in deliverance from mortality, for "faith without works is dead" and "works without wisdom are dead". Those who believe that Jesus came to deliver dishonest persons from punishment by providing a means of escape, and that His suffering will earn them a heavenly reward are certainly ignorant of the true nature of God. True reformation is a mental process, not a physical one. Can the body sin when the mind is pure? Can the pure minded sin and transgress the Divine law? Or can one who is positive and creative mentally become a destroyer physically? All logic points to the fact that evil is negation, and spirituality is mental positiveness. Reformation then, is to possess mind and body control by being a positive master of creation. Super Mind Science teaches the proper way to reach this Super Mental State—"seek and Ye shall find". Victory over death means a positive spiritual "eternal consciousness" of God.

**Material
Remedies**

During years of suffering, the writer tried many so-called healing remedies but most of them proved worthless and many were a detriment more than a help. Finally despairing of finding material remedies of value in mastering the cause of disease, he

turned to the study of Divine Mind as a remedy. The methods of study were concentration and meditation and a diligent search of the Scriptures until finally the truth about disease was revealed. Disease is congestion and is the result of sin or violation of Nature's laws. Material Sciences have given many fanciful names to the numerous diseases which afflict mankind, yet all of them are the result of congestion and lack of life energies mentally, physically and spiritually. There is but one remedy, expansion, this comes from applying energy. Super Mind Science teaches how to demonstrate this healing energy after only a few minutes practice. This method is the result of years of study on the part of the Founder, for many theories of healing and auto-suggestion were tried before the tapping of this energy became a reality. The only true means of healing the body is through this energy and the mind, regardless of what method is applied. Medicine arouses a little of this energy which accounts for the healings through the use of medicine, the same can also be said of other healing systems.

God When Jesus healed the sick He taught "it
and is not I that doeth these things, but Him
Energy who sent me"; this is the highest truth about
 healing. Medicine or Healers do not heal the sick, it is God in Nature which alone heals. Every year hundreds die who have relied on medical remedies yet Theology endorses the use of medicine. The two, Theology and medicine work hand in hand and the sick, the poor and demented are the victims. Super Mind Science reveals to the seeker the direct way to control the energy which performs all healing, therefore it is the most successful way of energizing the body and overcoming the ills of humanity. Materialists try all different types of remedies but ignore the true remedy, the Christ energy and power, and they suffer as the result of their ignorance. Would God create man and make him a slave to drugs which man himself creates? No, for God is Creative, Energy, Power, Truth, Love and Light, the opposite of disease which is darkness, congestion, sin and ignorance. When Divine energy and power is used, disease becomes powerless, for all evil and disease is the result of negation.

Power Jesus' demonstrations of healing stand out
of like a star in a dark night, and are beyond
God all concepts of mortal man. Mortal remedies are paled into insignificance when one considers the energy

and power of God which flowed through the hands of Jesus and healed the blind, the deaf and the lame.

**Healing
Truth**

When we read the letters received from grateful people who have been rescued from disease of every kind and description through Super Mind Science, we are impressed beyond words with the greatness of Divine Mind and energy. It is this power and not ceremonies which Jesus came to establish.

**Divine
Harmony**

Why should man take communion when his mind and body are out of harmony with God? One should remember that demonstration of Divine power alone proves at-one-ment with the Infinite Father. The view which some hold that the sacrifice of Jesus is sufficient to atone for the sins of the whole world is erroneous, for each and everyone must give up the flesh and all it stands for.

**Blood
Sacrifice**

Jesus is not a receptacle for sins and mortal weakness. He stands as a Divine Teacher, a torchlight to suffering humanity and not as a blood sacrifice for the propitiation of the sins of the world. If this were the purpose, then why did Jesus heal the sick, raise the dead and pronounce all disease sin? Why all of these demonstrations to prove He was a sacrifice for the rest of the world? Was His raising from the dead a means of proving He alone masters the sins of man?

**Spiritual
Laws**

Jesus' examples of power were to prove that spirit (mind) is strong while the body is weak. His teachings were the Science of Life, that being the reason He selected seventy Disciples and taught them the laws of mind over matter, Spirit over flesh and character stronger than temptation.

**Raising
from the
Dead**

Jesus' raising after His crucifixion was to prove that the body is not the man, that it is only a dwelling place of Spirit or inner man. When the inner man is fully unfolded he becomes stronger than mortality; this is brought about by the Will of man becoming as the Divine Will, one with the Father, or as Jesus said "I and My Father are one". The realization of the I Am is stronger than negation, congestion and all body weakness.

Reality of Power Power is like electricity, until it is brought into action or demonstration it is unknown.

The works of Jesus were to make power realized as objective as well as subjective. He showed the world that the so-called laws of matter are inferior to spiritual power and intelligence which actually rules the lower manifestations of mind that we term matter. Super Mind Science goes on proving and doing the Divine demonstrations, showing the science Jesus taught to be infallible and the greatest science ever discovered by man. Every day we prove it superior to all mortal remedies.

Christ a Universal Spirit Christ is a universal principle and Jesus, the man, attained to Christhood through mastery of the flesh. The Christ principle is the idea of the Divine sonship of God revealed in man. Jesus said "even before the world I was in the bosom of My Father", showing the eternal nature of the Christ Spirit. The virgin birth of Jesus is to prove that the true fatherhood of man is God, the conception is to teach that God or Divinity is in every seed of life.

Man as Divine Son of God Man as the Son of God overcomes the world (flesh) and thus becomes the offspring of his Divine Father, the pure and changeless Spirit of All-knowing, All-seeing Universal power. His work of mastery over the elements, over disease and sin through Divine power is "the light of the world". Jesus commanded the people to worship God, His Father, and not Him, for well He knew that the flesh dims the brightness of Infinite Light, Truth and Love which is the only reality and power.

Materiality Versus Spirituality The betrayal of Jesus symbolizes the deception of matter which denies Spirit. When they came to arrest Him, He said "are Ye come out as against a thief with swords and with staves to take Me? I was with you in the Temple teaching and Ye took me not, but the Scriptures must be fulfilled". Here carnal mind used the forces of the material world to defeat the cause of Spirit. Every day we see fulfilled the prophecy of "matter seeking to overcome the Son of God". The Scriptures have many prophecies of this type, for the lower mentality which is negative, rebels against the higher which is positive, but finally the higher proves its power over the lower. Thus again we learn the power of Spirit.

**Saving
Power**

When Jesus said "for whosoever will save his life shall lose it, but whosoever shall lose his life for my sake and the gospels, the same shall be saved". This saying demonstrates that one who overcomes the body and lives a true life is very often likely to be attacked and killed by the materialists who preach saving through doctrine, instead of through Divine demonstration. When they witness Divine power in action, they desire to obstruct it by sin and the eliminating or destroying of the one who demonstrates it. Those who demonstrate mind over matter, Spirit over the worldly mind, cannot be destroyed, for they live on a plane of eternal at-one-ment with the Divine Father. "The same shall be saved" shows the permanence of the Divine Father-Mother God Spirit, which Jesus referred to as "Him who sent me into the world".

**Kingdom
of
God**

The Divine kingdom is here and now, not after death, and is proven in Mark 9:1, "and He said unto them, Verily I say unto you, that there be some of them that stand here, which shall not taste of death, till they have seen the kingdom of God come with power". The doctrine that man must die and then await the resurrection in order to realize God is the misconception of carnal mind. When at-one-ment becomes a reality one rises above the limitations of the flesh while living on earth here and now. The true power of atonement is at-one-ment mentally and spiritually with the Divine Father. The demonstrations of healing the sick and the giving of spiritual wisdom are the proofs of this Divine attainment.

**The
Passover**

The Passover which Jesus ate with His Disciples before His crucifixion was His last farewell to the world of matter, His triumph over the forces of darkness. Although a sad farewell to His Disciples, it was the beginning of His greatest success, the mastery of death, and victory over the grave. It was not a ritual for the forgiveness or pardon of sins, it was a gesture of the fearlessness and power of Spirit. It gave no cessions to mortal laws, or any respect to the dead beliefs of the followers of Moses who were to become the instrument of sin and kill Him for His proof of the doctrine of the supremacy of Mind and Spirit over matter, disease, and all the illusions of a sinful and negative world.

**A
Test**

Jesus asked them "can Ye drink of the cup that I drink of, and be baptized with the baptism I am baptized with" and they said unto Him, "we can". This was their great test, for that cup meant to stand the death of the physical body knowing, "Ye shall not be harmed, for you are not the body, but the Son of a living God". In Super Mind Science, the true Disciple will learn the true meaning of taking this cup. We have proven that man is not confined to his body but is a free agent in the universe, that he can lay down his mortal cloak and travel the heavenly way while his body rests in slumber, for death is only a sleep to those who know this Divine power.

**Truth
and
God**

Jesus looked upon them and said, "with men it is impossible but not with God, for with God all things are possible". Here the flesh and all of its negative doctrines of impossibility is rebuked and we learn that nothing is impossible to God. This includes healing the body, controlling the elements, the power to raise from the body with consciousness and power, and illuminating the understanding with Infinite Mind. The "bitter cup" of Jesus was His persecution. Are you as a Christian ready to be reviled for doing His Works? If so you drink from the "cup of bitterness" from your associates when you prove to them the Science of Mind over body.

**Carnal
Mind**

Most people seem to think that practicing the science which Jesus demonstrated is a disgrace. They forget that the Apostles were stoned as they passed from city to city healing the sick, which was works of the Church which Jesus founded. The Apostles were not ashamed of His science, but the Elders scoffed and said "what fanatical work is this", and declined to have anything to do with such a new religion where the followers were healers.

**Orthodox
Church**

For that reason the church of Jesus soon ceased to be, and an Orthodox form of worship based on the letter was founded three hundred years afterward. In it the sick were scorned and placed in hospitals and yet the cup and bread were passed, using it only as a symbol, rejecting it as a practice. Here and there a healer and Christian would come into understanding and

rebuke this form of hypocrisy and they would be burned at the stake, the Church being the persecutor. The suffering of martyrs was intense and the world witnessed the fulfilling of the persecutions foretold by Jesus.

Power "Blessed are Ye when they revile you and
of persecute you for My name's sake"—Jesus.

Spirit This should be the attitude of all who can demonstrate Super Mind Science, take your persecution in silence and enter Divine mental communion. The Comforter that was to come is none other than the Truth and power as demonstrated in Super Mind Science.

CHAPTER V

SOUL DELIVERANCE

"But I say unto you, Love your enemies, bless them that curse you, do good to them that hate you, and pray for them which despitefully use you, and persecute you; That ye may be children of your Father which is in heaven: for He maketh His sun to rise on the evil and on the good, and sendeth rain on the just and on the unjust."—JESUS.

Forbearance and Self Mastery The doctrine of Soul Deliverance from suffering taught by Jesus Christ requires the greatest mind control and spiritual wisdom, for only with such understanding can one turn the other cheek and invite the enemy to proceed with their idea of physically administering justice. Those who have known contact with God within know that God manifests Love, therefore regardless of what others do or say against us, we must never lower our consciousness to their plane of thought. If we do, we lose control of our mentality and sin against the All-knowing Divine Spirit within.

Violation of Love No one who would kill his enemy can ever claim the right to soul salvation regardless of what anyone may say on this subject. **Idea Is Unchristian** Those who use physical force and kill so-called criminals are more criminal than the one they kill, for they deliberately violate the idea and principle of Christ Love with full intention to destroy a so-called "enemy of society". Is society greater than God, or can society forgive them for killing their enemy?

Regardless of whether the killing be personal or political they are condemned by the law of Love. One may live down the sin of being a party to the killing of a criminal if they fast, pray, repent and demonstrate Divine Mind Science; otherwise their souls are lost for they fall under the condemnation of the Sermon on the Mount uttered by Jesus shortly before He was murdered in the name of "legal capital punishment". How anyone who claims to be a Christian, hoping for immortality can become a party to such gross violation of the law of Love, and hope for

deliverance and salvation is indeed a great mystery, for it is next to impossible for them to attain it.

**War
Denounced**

Jesus said "Those who kill with the sword, shall die by the sword", meaning the spiritual sword of guilt upon the conscience which causes the second death, or loss of "eternal consciousness". Jesus did not say this law would be suspended in case of war, for the Divine laws of Mind and Spirit are immutable and no amount of praying or sacrificing can change the law. One may change the conditions of their own mentality to conform with the Divine law, providing they know the Science of the Mind. If they do not overcome their sin while on earth it will overcome them in the next expression of life. If Jesus were on earth He would say, "rather than kill your fellowman, accept death of your body and save your soul for he who dieth for My sake shall live again". Upon these grounds of facts, Super Mind Science denounces war and killing in any form.

**Christian
Hypocrisy**

Hypocrites who love the ways of sin and spiritual darkness say that the doctrine of Christ is not practical. This is because they do not desire to give it a trial, they desire a life of sin, a death-bed repentance and a heavenly reward for wrong doing, but O, how foolish they are to think that God is deceived. Jesus said "I am the Way and the Life, you cannot serve Mammon and God at the same time". If the teachings of Christ are not practical to live by they will serve little benefit to die by. When one attains mind control they find that the Life Divine is the most satisfactory and the most practical to live by. Having overcome their lower nature, ceased to eat of flesh and corrupt food, they see how foolish it is to be attached to the things which kill; they become clean mentally, physically and spiritually and attain supreme happiness in the knowledge of "eternal consciousness". They become attached to God, and are lovers of the Divine work, healers of the sick and helpers of humanity.

**Unimportance
of**

Jesus said to His Disciples "no man can serve two Masters, for either he will hate the one and love the other or else he will hold to the one and despise the other; Ye cannot serve God and Mammon, therefore I say unto you, take no thought for your life, what Ye shall eat, or what Ye shall drink nor yet for your body what Ye shall put on; is not the life more than meat and

the body more than raiment". This doctrine requires the giving up of earthly ties and ideas in preference for the Divine life of Truth and Love. It shows the unimportance of all our earthly cares and teaches the doctrine of attachment to God through the understanding of "eternal consciousness". Seek not the things which create material attachment, but break down the barriers of flesh by the power of Will and Mind.

Whited Sepulchres of Today Those who call themselves Ministers of God, claiming the power to "save souls", yet endorse killing in law and war are denounced by Jesus who says "for Ye are like unto whited sepulchres which indeed appear beautiful outward but are within full of dead mens bones and of all uncleanness, even so Ye also outwardly appear righteous unto men but within Ye are full of hypocrisy and uncleanness". These modern Pharisees endorse war, capital punishment, physical torture of the so-called "enemies of society", imprisonment of children whose mentalities are negative; they persecute Divine healers and then utter long prayers in public to impress a sin loving world.

Selling the Soul They sell their soul for political advantage, not knowing that "eternal consciousness" is the only reality in human existence. They should be able to read the Scripture with the pure eye of Spirit and see how millions daily lose their soul in exchange for worldly misery, woe, sin and disease. Eternal consciousness would reveal this to them should they seek.

Heavenly Harmony Which is best, to sing a hymn to the physical senses or to attain to heavenly harmony? Heavenly harmony adjusts one's entire life, overcomes disease and sin, lifts up the fallen and rights all wrongs. The soul desires this harmony while the body seeks darkness, the battle between these forces is but a manifestation of the laws of gender of the mind. Super Mind Science teaches the methods which is the keyboard that produces the music of the soul, demonstrating the absolute power of creative Infinite Spirit, All-knowing, Eternal Universal Mind.

Soul Deliverance Those who desire Soul Deliverance will have to follow in the footsteps of the Master and bear their Cross. The precepts which conform to the teachings of the Master are also in Super Mind Science; they can be briefly stated as follows:

First. Non co-operation or participation in any type of killing or committing of a destructive deed.

Second. Mind and body control, attainment of the knowledge of the universal principle of Love, which is spiritual illumination through doing unselfish deeds.

Third. Becoming master of the art of concentration of the mind in order to attain mental purification, meditation in order that the soul wisdom may manifest, subduing of the flesh influence over the consciousness, ceasing to desire to sin; learning the art of passing beyond matter mentally at Will, or attainment of the eternal consciousness which Jesus demonstrated on the forty day fast "before overcoming the body".

Plan of Salvation This is the plan of salvation of Super Mind Science and is the safe road to immortality, it may seem difficult, but sweet is the nectar of life to those who live in "Life Divine". Every battle with the flesh makes the individual stronger to resist temptation and sin, for Mind is Master.

Other Roads to Spirituality The idea that everyone who prays a prayer of belief is saved from sin is preposterous and can easily be disproven. Many who think they are saved by such a simple process are often later found in misery, attacked by disease, courage gone and the "turbulent waters of life" or mortal consciousness disturbed to the extent that life seems not worth living. The cause lies in the fact that the lower nature and carnal mind still rule in that person's life, if they were on the correct road to spirituality they would be masters of health, doers of the Divine works, healers of the sick and would possess a calm Mind. Those who have attained to a little understanding of the great Light of Life "eternal consciousness", pass beyond this state of woe forever for they become master of self and cease to submit to matter.

Supreme Enlightenment Enlightenment is a mental process, not physical. One may possess great secular knowledge and yet be lacking in soul enlightenment, for the road to such mental illumination is the path of mental humility. Regardless of how great the wisdom of man may be, it is limited while its Creator is Universal and Unlimited. Supreme soul enlightenment comes to those who attain a well controlled Mind, it is the result of understanding the state of

"eternal consciousness". Those who are unwilling to overcome the flesh and all of its false promises will fail to understand Super Mind Science or apprehend its true importance.

Work of Love The spiritually minded take pleasure in laying hands on the sick, controlling the healing energies and stopping the pain and suffering of humanity. This willingness to help others is a part of the program of Soul Deliverance as taught in Super Mind Science. "Give unto the world that which you would have God give unto you" is the motto of all Super Mind Scientists.

Light of the World The Master said to His true Disciples "Ye are the light of the world", "a city that is set on a hill cannot be hid", this was because He had taught them how to heal the sick and teach people the Truth, it was not because they believed in a sect or preached certain precepts. His preference to a city set on a hill refers to those who demonstrate the powers of Spirit over matter, or who are conspicuous because of the good they do. Super Mind Scientists instructed in the keys of power contained in the methods of the Science and who live the life, are able to perform the spiritual demonstrations which made the Disciples of Christ outstanding.

Evil Classified Human ills can easily be classified in Mind Science. Through understanding the nature of disease and sin one can overcome the cause. Mind manifestation is of the two genders of mind, one creates through Divine harmony, while the other gender can become out of harmony with Divine laws and cause almost any kind of trouble. Positive mind force which is the Fatherhood principle represents health, success, wisdom, mastership, truth, love, endurance, creative life and light. Negative mind force, the feminine gender of mind represents the Motherhood principle so long as it harmonizes with the Fatherhood principle or masculine gender of mind. When it leads and overpowers the positive gender, inharmony in mentation is the result which in turn produces sin, disease, sorrow, suffering of many kinds, ignorance, superstition, lack of self control and mortal delusion.

Goodness Attained True goodness requires a positive mentality, which gives one the power to overcome evil. By becoming positive and overcoming the leadership of the negative state of mortal consciousness one

attains liberation from flesh influence, becomes an excellent healer, a wonderful teacher of others as well as the most commendable example of the Christ Wisdom. This is the reason every method in Super Mind Science is positive.

Overcome Evil Jesus taught that if someone smites you on
with the cheek you should turn the other, by this
Good He meant one cannot correct an evil act by committing an evil themselves, the proper way being to overcome evil with good. When one is tried in the fires of life it requires great mental power in order to obey that law since the impulse is to strike back at the one who strikes you. This instruction shows the necessity of self control in order to make it possible for one to live a Christian life.

Denouncers Those unfortunate mortals who denounce
of the Science of the Mind have yet to offer
Mind Science any other way by which man can attain the self control which Jesus possessed and taught His Disciples. Every year larger hospitals and insane institutions are constructed to take care of the vast army of suffering mortals who have followed those who preach that mind control and Mind Science is unnecessary. You never find a true "Mind Scientist" in such places for inner knowledge of God overcomes all such calamities. "The spirit is strong but the flesh is weak", yet many would tell you that the flesh is strong and the spirit is weak. They lay traps for themselves, dig ditches in the field of life then fall into them, for there is none so blind as him who will not see.

The Law The higher law of life beckons the sincere
of student of life onward and upward toward
Spirit Divine realization and "eternal consciousness". The price of victory may seem great, but there is no hope in mortality. The law of the Spirit is opposite and away from the desires of the flesh. Every day the two roads appear on the horizon of life and the question to decide is, will the pleasures of the flesh which produce misery be sacrificed for the pleasure of the Spirit which produces "eternal consciousness"? Super Mind Science says, "still the restlessness of the physical sense and listen to the music of the soul; reach inward and upward and attain to reality".

Mental Ascension The law governing mental ascension above to the sins of the world is one of dominating **Higher Life** the lower and harmonizing with the higher. The physical body continually suggests countless necessities which in truth no one needs. The voice of the tempter is the impulse of the carnal mind, but the student of the Science of Life must learn to say "get thee behind me, Satan" and overcome the wants of the flesh and develop the higher spiritual desires. This is the path of mastership. The less attachments one has to the mortal world the sooner they will attain to "eternal consciousness", because the attachments to earthly things are opposite to the Spirit.

Oneness When the Master was told His mother and of brethren desired to speak with Him, He **Life** stretched forth His hand toward His Disciples and said "behold My mother and My brethren, for whosoever shall do the Will of My Father which is in heaven the same is My brother and sister and mother". He had attained to "eternal consciousness" and knew the oneness of life, and also that the "me" and "mine" phase of consciousness is mortal, not eternal because it contains a selfish element. We must rise above relationship, possession and limitations, to the reality of the unlimited eternal spirit of Life, Light, Truth and Love.

Breaking The author broke many mortal barriers in of the pathway of life before the sunlight of **Barriers** Truth was revealed to him, showing him the cause of suffering and the way to peace. Finally the false show of the senses and their false concept were overcome and the obstructions were removed one by one. After a struggle with disease and lower self he stilled the waves of flesh sensations and was lifted up mentally beyond the veil of mortal life where heavenly harmony and eternal light were revealed as the only Eternal Reality. Since then it has been his desire to show the way to Soul Deliverance to all who are willing to learn the Science of Mastery.

A Glimpse When all mortal sensation had ceased and of the the organs of sense perception had been **Real** stilled through the art of mind control, the author's consciousness entered the eternal state where the life of all creatures was revealed to him as the life of God, where the celestial music of Divine harmony sang the song of peace

before the Throne of Grace, The Infinite Mind. During this period a glimpse of the reality flashed through the author's consciousness and then and there he knew the claims of the flesh to be false, the identity to possess an eternal quality, and God as the "Father of Life". This revelation followed a long fast and intense meditation on the Infinite Spirit. The experience cannot be described by ordinary speech, but—"seek and Ye shall find", "knock and the door shall be opened unto Ye". This is the attainment of "eternal consciousness".

Health and Peace Following the attainment of enlightenment, health and peace came as a natural consequence. After the author's enlightenment, the passageways of "the energy of life" were revealed to him and also the secrets of "the laws of life". Since that time thousands have been healed through these laws and powers; many students of the Science have attained to "eternal consciousness", and even children of tender years have gained a knowledge of self control, and a glimpse of the reality of life and God. Super Mind Science continues in its message of power and mastery, it has endured its cross and is rising from obscurity to a prominent place in many communities. Some day it will be recognized for what it is, "The Science which Jesus demonstrated", restored to a suffering world who are in need of a surcease from pain. It is not a new belief, but is a Science which all can demonstrate who are willing to overcome the flesh and know the Spirit. If you would aspire to become one of us, you must learn to know, for knowledge is power while ignorance is sin; illumination is Soul Deliverance.

Cleanliness of Mind and Body It is useless to observe only the laws of physical hygiene without also observing the law of mental hygiene, which is to keep low thoughts from disturbing the growth of the soul consciousness. If we do not we come under the rebuke of Jesus who said, "hypocrites observe merely the cleanliness of the outside of the platter, while they neglect the inside". Many habits of ignorance keep one from attaining Soul Deliverance. The habit of earthly attachment and the wasting of time are among the foremost of destructive habits, for low thoughts usually enter idle minds since they find fertile field for expression in the consciousness of those who find time only for selfish lusts and enjoyment.

Our Father's Business If we would be "about our Father's business" as Jesus was, we must apply ourselves to mastering the carnal impulses. Many loving mothers take up all their time teaching their children how to play, neglecting to teach them anything about the mind or how to think and later when they grow up and become criminal they are at a loss to understand the reason why. The world is full of misery because man has yet to learn how to enjoy life and how to distinguish the real from the false. Jesus said "he that soweth the good seed is the Son of Man", meaning that good thoughts and mental training make man a ruler of his destiny.

Positive Mind Power Never submit to sin or disease, remember Jesus taught "be it according to thy will", meaning you should mentally rebel against all destructive forces, never saying that you cannot overcome. Know that the kingdom of God is within, however it may require positive mental determination to cause it to manifest without. To be Super Minded you must learn to conquer evil and all forms of negation, knowing that none of these can equal the power of Infinite Mind. Your mind casts an image of your beliefs and influences your life accordingly, therefore let your mentality dwell only on facts and avoid negative influences.

Carnal Mind Carnal mind consists of the consciousness of matter, it is not permanent or immortal in quality. In order to understand Divine Mind one must be able to overcome the consciousness of carnal mind. Divine Mind consists of the knowledge of facts concerning life and God and has nothing to do with beliefs, for would Divine All-knowing Mind need to form a speculation regarding life? In order to demonstrate the power of Divine Mind one must overcome the delusions and conceited suggestions of carnal mind. Whenever you have a disbelief or a doubt, that is carnal mind making known its ignorance, when you have learned and know a definite fact, Divine Mind has spoken. When the consciousness dwells in carnal mind the result is sin.

Living in Truth In order to live in Truth one must cease telling others their beliefs or disbeliefs, for Truth begins only where beliefs end. A wise person always states what they know, a foolish mortal spends much time discussing what they believe or disbelieve. God is the creator of Truth, Truth being real it is easy to explain. Not so

many years ago this modern civilized world witnessed the wholesale slaughter of human beings, so-called Christians busy killing other so-called Christians. The reason was a false belief that the other nation was bad and therefore it was a blessing to humanity to kill them. Such ignorance is the curse of the world for one nation is no worse or no better than the others, only belief makes them seem so.

All Nations All nations have sinned and fallen short of
Have the glory of God because ignorant people
Sinned were mis-instructed by an ignorant clergy.

Just so long as the clergy denounces Divine Mind Science and stands for war and killing, that long will they fail to comprehend Jesus Christ, and the world will continue to bow down to a false soul saving doctrine. Each individual must become his own Saviour in a sense and take up his cross and follow Jesus.

The Path Mortal beings will cease to suffer only when
of they have learned the falsehood of beliefs
Peace and have attained to an understanding of facts. Creeds were written by man, they may infer many things, but they fall short in demonstrations. How many Christians can utter a prayer and cause an answer to be forthcoming? The author has proven that when prayer is accompanied with a knowledge of Divine Mind it is answered. When one learns the technique of demonstration they walk in the path of peace.

Mental While mentally reflecting on life, we per-
Reflection ceive that all greatness is due to the forming of a powerful character. In order to bring such character development forward one must think positive thoughts, for negative and carnal thoughts are the seeds that bring forth corrupt fruit. Exertion of the Will assists one in this direction, while the constant suggestion of an idea slows down the process of action. Action is life, inaction is death, therefore the doing of good deeds should be continuous. One should be careful what type of deeds reflect in their consciousness, for science has proven that the subconscious mind of man is very active every second during the day and night, it is performing subjectively the deeds one has reflected mentally, therefore life is a reflection of our mental action.

**Immortal
Principles**

The immortal principles which should be mentally reflected in one's mentality are thoughts of Power, Truth, Love, Good deeds and the liberation from flesh limitations. By so doing we build a Divine personality and attain to "eternal consciousness" quickly. Every Super Mind Scientist should remember to reflect only good, speak only of good, and not visualize or reflect the things that destroy, for our thoughts change the whole aspect of our life.

**Soul
Powers**

The power of the soul is the Divine All in All of Spirit, All-knowing, All-seeing, the same Infinite Spirit which is the ruling, creating and animating force in the entire universe. Man's illusion that his soul is other than this Divine influence is the cause of much of the world's misery. Super Mind Science demonstrates the Divine at-one-ment of man and God. Mind is the creator as well as illuminator of matter; everything in our life is the result of the influence of mind over matter.

**Constitution
of the
Universe**

Man, like the universe, is created according to the laws of gender of the mind, he is a universe within himself — a microcosm. When he awakens to the soul consciousness of Life, Light and Love he will find himself to be a manifestation of God, a Creator mentally more than physically. The Universal Being whom we term God represents all the positive good in the universe, while the carnal individual produces all the negative results of life which we term evil. God is the absence of evil and evil is the absence of good.

**Scientific
Understanding
of Soul**

The soul, in reality judges every thought, condemning the bad and commending the good, which proves soul to be a Divine Mind function. After physical life, the soul becomes the consciousness, providing it is surrounded by a record of good deeds, for the soul with an evil environment must either overcome the environment or lose its identity. This is the reason that one should overcome earthly attachments while on earth. In this manner they can attain to mastery of environment, overcoming evil with good, and knowing God through "eternal consciousness". The path of soul liberation leads away from selfishness toward this universal "eternal consciousness" which is the highest pinnacle reached through understanding of Divine Mind.

The student of this Metaphysical Science should remember the essentials of Soul Liberation.

Translation of Terms In Super Mind Science the following meanings are attached to the terms we use in expression:

Soul—The inner consciousness of man, his eternal quality.

Consciousness—The sum total of individual understanding.

Infinite Spirit—The Universal Creator of all things, called God.

Infinite Mind—The sum total of understanding and intelligence of the Infinite Spirit, the All in All in the universe, the Universal God Spirit or all pervading intelligence.

Matter—The agency through which mind expresses itself, three dimensional.

Divine Mind—The Universal consciousness of good only.

Science—That which can be demonstrated or proven.

Belief—A state of mortal mind, speculative—a supposition.

Eternal Reality—The Truth which changes not.

Teacher and Student A teacher of the laws of life can only point the way to Soul Deliverance, the student

must tread the path, having confidence in the teacher and knowing God is Good. This Science will only be comprehended by those who desire to see beyond a changing world; selfishness and personal beliefs can never change the laws of life described in this Science. The change will be made in the sincere student, for they will master disease and sin and learn to know the eternal reality through overcoming the flesh senses and unloading their consciousness. Then the consciousness may soar beyond matter through the mental process of Soul Deliverance until it cognizes the "eternal consciousness" or the positive understanding of soul immortality. Now that the way has been shown, the student should begin today to control the lower nature, set the Will and concentration against low desires, control the thought power, generate life energy, then go on to accomplishment for "the vineyard is large but the reapers are few".

CHAPTER VI

RENUNCIATION

"The Lord said unto my Lord, sit Thou at my right hand, until I make Thine enemies Thy footstool."—PSALM 110.

Eternal Victory

Know, Oh Disciples of Super Mind Science that if thou livest in the Infinite Spirit, every enemy including disease, sorrow, sin, negation of mind, personal feelings, attachments and earthly desires shall indeed become thy footstool. If you will renounce creeds made by men, personal vanity, and pursuit of the fleeting pleasures, you can know God. Learn the power which comes from exercising justice, kindness, gentleness and soft speech which reflect the quality of the soul, practice mental contentment and mildness of temper, keeping a firm control over passions. In this way cause the soul to grow toward freedom and away from the bondage of the flesh, overcome low desires by loving your fellowman as yourself, but do all of these things without thought of compensation. The hypocrites appear outwardly to be good, but inwardly they are corrupt, only those who practice the arts of self control and gentleness are really good. Seek to be the inner reality of Infinite Love, Wisdom and Truth, renounce the selfishness of a man made heaven, the folly of your forefathers, the low desires of your associates, and become a Light on the pathway of life. Avoid outer actions which will cause others to call you pious, remember only one is perfect and good, that one is God, man may imitate God but he can never equal Him.

Meditation and Introspection Renounce false claims of saintliness, exhibit your good qualities as natural attributes of your inner "I Am" consciousness. Renounce all outward forms of worship designed to be seen of men, acquire inner introspective spiritual vision through mentally beholding God in every living cell. In the beginning before Bibles were written, the Infinite Spirit appointed the teachers to this world and each teacher appears when the evolution of man demands his message. At the appointed time each teaches the Truth suited to his day and age. The Truth is reasonable and

easy to understand, while falsehood is complicated and often spoken in an unknown tongue. The teacher whose spiritual vision is opened always teaches a provable philosophy, this Truth leads to freedom of the soul. Super Mind Science is an appointed teaching and is also a Super Soul Science, it reveals Truth and illuminates the path of life for all who are sincere seekers of reality. Dear reader, stop and think, is your soul in bondage of fear, have you erected barriers between yourself and the Infinite Mind by giving negative suggestions to your own mentality? Let egotism and creedalistic hatred disappear from your mental horizon, break the fetters of negation, do not let anyone tell you they can save your soul, for the absolute truth is that you alone can save it. Accept only the reality of God, reject dead beliefs.

Mind Analysis

Inner devotion means inner contemplation, for God is enthroned in the center of your being, if you seek Him there you will find that "peace that passeth understanding". The mentality must be purged and analyzed in order that one may understand right from wrong, love from hate, ease from disease. This mental analysis must precede "soul freedom". When your soul is free, it will become the vehicle of your consciousness and you, Dear Reader, can explore the realm of soul even as you have explored the physical realm, for through the illumination of the soul, and mind analysis, we reach all planes of mind and also all planes of soul.

The Heavenly Realm

The author's vision, undimmed by flesh contact, has been able to explore that unseen realm where all spiritual life manifests in its true radiance, for only freedom of soul and renunciation of sin permit one to behold the heavenly hierarchy while yet in the flesh. Jesus said "the kingdom of heaven is at hand", "know ye not that the Father dwelleth within", "He who hath seen Me hath seen the Father, for He is in Me and I in Him". Jesus had renounced the flesh and all of its false show and had attained "soul freedom". This freedom will come to all who break down their small creedalistic consciousness, it is not a special gift; the price of this freedom is true spirituality. Will you Dear Reader attain it? It is for you if you desire it enough to attain the control of the body and calmness of mind. You must see beyond

the clouds of worldly sense reports into the clear blue spiritual ether where Infinite Spirit is All in All.

**Angelic
Host**

The Angelic Host is but the purified consciousness of those who passed beyond mortal delusion into spiritual reality. Your inner qualities are the gateway to freedom, providing you see the light of Truth and Love. In the progress of a soul, one must learn that overcoming is a natural attribute of the spiritual self, it is designed to deliver man from egotism, tyranny, vain glory, lust, anger, avarice, covetousness and low selfish deeds. All of those dark principles must not only be renounced but overcome, that the principle of Light, Truth and Love may shine forth. In Super Mind Science the keys to concentration and spiritual energy will solve this problem.

**Spiritual
Birth**

The idea of Super Mind Science is to overcome sin, we do not seek a pardon or other mental crutches, for man is now too dependent on others. We teach a positive method of mental regeneration, this new regeneration brings about the spiritual birth of man, cleanses his mind, his body and his soul. Intellectuality without accomplishment is like faith without works, it is dead. A living faith needs to be accompanied by a living works, (healing).

**Inner
Light**

Inner worship consists of doing good deeds without thought of gain, seeing reality and keeping the mind clean, above all gossip and low ideas. Inner zeal is a desire to serve the master "I Am" consciousness within which leads one on to the supreme understanding. As for those misguided mortals who seek others to save their soul, they are unfortunates produced by hypocritical religious systems which have no spiritual merits. Their ignorance and conceit follows them into their Church and Temples, they pollute holy places with their evil minds and low mentalities.

**Whited
Sepulchres**

Jesus called these mortals "whited sepulchres, clean without but corrupt within", for being filled with false pride, power, ostentation and lust, they are consumed in the fire of hate and greed. Nature will not preserve them, they are destroyed by a fire

kindled within themselves. Their hell of low desires kindles spiritual consuming fires, and annihilation awaits them after this life, for the law of compensation never forgets. The fires of this mental torment are fed by three powers, they are lust, anger and hatred, and regardless if they are ignorant or not they will stand before the judgment bar of life. At least their soul shall be judged by the "I Am" consciousness within its own self, for man is made in the "image of God" within, but not without. The part of man which can be lost is his identity, his memory or the mortal "me" consciousness. The "me" consciousness should be merged with the soul through spiritual unfoldment as taught in Super Mind Science. Those who renounce the lower nature will never know death, and if they understand the laws of life as revealed in Super Mind Science they will never need to suffer pain or sorrow.

Soul Salvation

Soul salvation begins with this renouncing and self mastery, and those who follow this path are safe and will never taste of death. Beware, however, that you do not go back to ignorance after you have reformed, for if you do your progress will become slower when you attempt self control again. Seek ever to attain the Divine union, and remain ever steadfast, for sincerity is the price of success. The soul desires contact with Infinite Spirit, but only the delusive faculties prevent this happy and blissful state from becoming a permanent reality in everyone's life. The spiritual illumination of man is according to this Divine union, each one reflects their own nature. Everyone's concept of God and Good decides their lot as well as governs their deeds, therefore seek to possess the highest good by having a high regard for Good and God.

Devils in One's Self

Man's concept of the Deity is only himself magnified to Infinity, likewise his devils and hells are but himself at his worst, or expressing his lower nature, for every mortal can conceive only that which is within himself. Every thought their conception may suggest as a far away place or state is within themselves only. Those who worship personal Gods, worship only that which consists of ~~other~~^{their} own personality, their delusion of a personal God in the sky is only a mirage on the horizon of their desert within.

God The true God of Infinity is beyond attributes, powers, features and personality. One
Is who performs meditations on reaching the
Love domain of Infinity can best realize God by exerting strong devotional love of the Infinite Spirit. The only true sacrifice is that of selfishness, all other sacrifices are vain. God is Love and spiritual love is an unselfish principle. Let those who desire to be spiritual become unselfish, then the methods of self control and analysis as taught in Super Mind Science will demonstrate as perfect as the laws of Nature, for they are based on the laws of Nature and God.

Renounce To know Love one must overcome hate, to
Darkness know power one must overcome weakness,
 to know immortal mind one must overcome mortal mind. Renounce darkness and cease to sin, for "this mortal must take on immortality" as Paul expressed it. Mortality thrives in darkness while immortality is gained through light. Lack of knowledge and understanding is but groping in the dark, while having knowledge and understanding is the Light that leads to wisdom.

Truth Truth cannot abide in one who lets their
and animal nature rule them, for light never
Light abides in darkness. When light enters, darkness leaves, when Truth is known, ignorance is overcome. Seek, therefore more light on the problems of life and more truth concerning Infinite Spirit if you desire to overcome ignorance. You are instructed to be ever calm in the face of adversity, overcome like and dislike, remain unchanged in the face of criticism or praise so that your consciousness may enter into Truth in its fullness with the Light of God ever manifesting.

Inspire Knowing God is Love, treat friend and foe
Others kindly, seeing God in both, however, do not
 let your foe lower your thoughts to a lower plane, but rather inspire them to do good by being an example of goodness yourself. Be ever the same in honor or disgrace, only know that within your conscience is light. When you give light to the world you will receive more light from God, give health to others you will receive health from the universe. If one opposes the Truth in you, become a greater light of Truth to them, willingly accepting your cross when it is the Will of the Divine Father.

Persecution by Others If someone persecutes you because of Super Mind Science, remember that Christ with all His power and glory was persecuted before you. Overcome your attachment to the world and most of your troubles will be over. Those who follow this doctrine will be many times blessed, they will be more fitted to enter the realm of immortality in a body of light and power. This Truth was revealed to the author through Divine revelation, after the opening of the clear eye of Spirit within. Nothing can be added to this Truth nor taken away, for it comes from the realm of eternity. Renunciation of the lower self and all its delusion is far better than meditation at periods on spiritual power. Those who imbibe this living water of Truth must seek always to be in constant communion with Infinite Spirit and become more and more unaware of the glamour and false show of carnal mind.

Growing in Grace By adopting this attitude one grows in grace, and life becomes like a sweet nectar, always pleasant, serene, calm and blissful. Jesus called this "that peace which passeth understanding". Those who abandon seeking for gain and glory, and who love their fellowman are dear to the Infinite Intelligence. The author would like to lead all to that Throne of Grace that they may glimpse the beauty of that changeless realm which he was fortunate enough to glimpse. "If thine eye be single, thy body shall be full of light" is the Divine promise of the ages. Those who have such illumination are ever at home, contented and calm in Infinite Spirit.

Constant Devotional Mental State Devotion should be a constant mental state, not a spasmodic outburst of false enthusiasm. A seeker for light should be a seeker of the calmness of mind first so Divine power can manifest uncongested. it is difficult for finite mind to understand Infinite Mind, the seen to understand the unseen, only intense devotion to good opens the spiritual vision of mankind. Austerities and fasting are worth only the value that is placed on them by the mental intention of the one who fasts. The subduing of the lower nature is a mental process, not a physical one, the physical aspect of the battle with lower nature is the least important. Matter argues with the consciousness and when one begins self-control it asserts its goodness, but only God is Good. In many languages God and Good are words which proceeded from a com-

mon origin. Godly thoughts are high, noble and perfect; flesh ideas are borned in the lower reproductive system of man. Divine thoughts are eternal reality while carnal thoughts are low manifestations of a higher power which have transmuted in the wrong direction.

The Doctrine of Trans- The doctrine of transubstantiation as taught in Catholicism is false. The bread and wine

Substantiation in the communion could not transmute and become the flesh and blood of Christ after one partakes of it. It is merely a symbol of the transmuting of life's energies, but ignorant theologians cannot distinguish between a symbol and the reality. All of the literal views of the Bible are incorrect speculations of mortal mind, only one with spiritual vision can discern the Truth which is the reality, and distinguish it from its symbol.

Parables and Symbols Jesus often spoke in parables or symbols so the wise would receive the real meaning, while the followers of dogmas would be

given only the wisdom of the outer form. One should not throw pearls before swine or give holy things to the dogs (meaning low minded) lest they turn and rend the one who befriends them. Only those who live in spiritual life will ever know the beauty and power of Super Mind Science, for it is not wise that the insincere should receive the inner knowledge the same as those who are sincere. Sin, sickness and death are the lot of those who live on the carnal plane of unreality, they do not belong to Divine Mind or to those who have renounced the outer forms of religion and have found the inner science of Truth. The lower nature stimulates the creations of Truth by calling attention to the wonders of a transitory and illusive world, which in comparison with Infinite Mind is but the shadow picture of a realm of reality, power, Truth, Love and Light. The soul of man seeks to escape from the outer by reaching the inner. The oneness of God disputes the permanence of the material universe, therefore, reality consists in the unchanging realm of Truth.

Find the Master There is a master key to the door of life, this key is in Super Mind Science and if

Key you desire it you must study the keys to the Science. Once you have found it, delusion will lose its hold upon you, and reality will become a permanent power within.

The meaning of the Divine symbology is herein given to show the reality as compared with its symbol.

FATHER, The Divine, All-pervading Infinite Spirit.

SON, The emanation of the Infinite called finite.

HOLY GHOST, The power of reproduction and regeneration.

The true emanation from the Infinite Spirit is the Christ which represents Love, Truth and Life. This emanation can become as the Infinite, thus overcoming the world, it is accomplished by The Holy Ghost or regeneration. This process requires a knowledge of Super Mind Science which demonstrates the power that is used by the individual to regenerate one's self.

Mind	All motion is due to mind, not matter, and
and	no regeneration is possible without change.

Motion	Change is motion, motion is mind, therefore generation or regeneration is entirely of mind. Mind ever moves onward and upward, only matter and mortal retard development, therefore become as mind continually changing for the better.
---------------	---

CHAPTER VII

LAWS OF LIFE AND MIND

"These are the statutes and judgements which ye shall observe to do in the land, which the Lord God of thy Father's giveth thee to possess it all the days that ye live upon the earth."

—DEUTERONOMY.

Supreme Law

All life from the remotest insect to the largest mammal is governed by the law and order of Mind. All things are governed by the supreme law of Infinite Spirit according to intelligence and the laws of gender. The author herein sets forth the facts concerning the supreme law and the lesser statutes of life, according to truth and fact as revealed in the study of the Scriptures and Super Mind Science.

Laws of Gender

The positive state of mind represents God manifesting as the supreme Infinite Father. This creative state of mind brings forth all life by its power of penetration. Anyone who desires success in life must learn to enter this state mentally so as to bring their desires into reality. This state being the one and same as the Infinite spiritual state, is unlimited in its power to create. It has unlimited power to create health, harmony and spiritual wisdom because in this state mind controls the positive life currents which in turn control the law of life and birth. In addition to controlling these positive life currents this state of mind can overcome all negative conditions.

Violation of the Law

Those who become negative mentally, violate the positive law of mind. The negative which represents illusion, disease and death sets in motion decaying energies and powers which react on the violator of the law of positive life. It causes them to be open to germs, microbes and all manner of disease. These diseases weaken the mental structure of the one who becomes negative, producing hallucinations, illusions, uncertainty, lack of self confidence, dishonesty, criminal ideas and all types of destructive mental forces. These powers if allowed to rule, develop spiritual negation, torment of the consciousness, and loss of immortality through oblivion.

To Obey the Law In order that one may avoid the penalty of disobeying the law of positive fatherhood mind, it is well for them to know what they must do to prevent that violation. In order to obey the law, one must learn to concentrate the mind, control the life energies, overcome speaking evil or doing evil, study life as a positive and negative manifestation, accept the good things in life and reject the practice of indulging in destructive habits. Super Mind Science teaches the proper way to generate life currents, concentrate the mind and attain perfect mental poise.

Evil Mental Practice Those who practice the following methods called "Mental Science" by undeveloped mortals are violating the positive laws of mind and life. Repeating affirmations, such as "mortal mind is evil", "matter is illusion", "disease has no existence", "I am power supreme", "there is no truth nor substance in matter", "God is all there is", "I am pure and holy" before they have learned the positive mental state and power are untrue, exaggerated formulas which reduce one's mentality to absolute negation, inducing falsehood, dishonesty, and lack of positive moral principles. Many of the unfortunate mortals following these systems "sit in the silence" and give selfish suggestions to someone's mind in order to attain personal gain.

Good Mental Practice Super Mind Science teaches the following methods which represent good mental practice. They are, concentration on becoming positive and creative mentally, healing the sick by silent thought power or the laying on of hands, concentrating to help those who desire it. It does not teach affirming that you are perfect until you have attained perfection. Rule the body and do not deny its existence because such denial makes the body negative and opens it to forces of death and disease. Further, such negative practices open the mind to obsessions and abnormal hallucinations. Acknowledge all the good you see, and more than that, all the good in the universe, seen and unseen for God is Good, Truth and Love.

Motherhood Principle of Mind The receptive motherhood principle or state of mind was never intended to precede the positive, and it serves a good purpose only when ruled by the positive. When the mind concentrates in a positive state, it controls the positive and negative energies and

regulates their flow. The visualization state which follows the concentrated state is termed "the motherhood principle of mind". Unless this state is preceded by the fatherhood or positive state, no mental creation can take place, whereas, if it is so preceded a certain demonstration can be assured.

**Life
Energies**

Jesus controlled the life energies and through them healed the sick and raised the dead. In Super Mind Science we have discovered how these positive and negative life energies enter the Solar Plexus, and thence travel to the brain, carrying with them every thought which reaches the brain. When the mind is positive, only thoughts which produce success and health reach the brain through this channel. This fact explains the power of a positive mentality to rule those who are negative and thus succeed in great tasks, for the positive minded person is a manifestation of the Infinite, Creative Spirit. When one is positive and yet meek and expresses Universal Love, they are a manifestation of the Christ Spirit.

**Positive
Healers**

Positive healers who are trained in the laws of mind and life as in Super Mind Science, express mentally and physically only the positive constructive thoughts which create health in the patient. They never express negation or the negative law previous to the positive because this type of expression would do harm rather than good. They first show the health seeker how to increase the life energy, then the healer assists the sick who are negative mentally to direct the positive life energy into the diseased part of the body. This starts the expansion processes in operation, then by the application of Divine power the body which was negative becomes positive and healthy. Then like Jesus we say "be it according to thy will".

**Harmony
in**

Mental Laws

Super Mind Science brings about complete harmony between the positive and negative laws of mind and life, proving that man can control these Divine creative energies and prolong his life. The student who keeps his body uncongested by daily generating these energies will not have body or mental poisons which congest the passageways of energy and power. No one can be successful in Mental Science without a knowledge of this law, for it is the basis of all creation. The methods of complete mental mastery of positive and negative life energy were discov-

ered by the author. As a result of this discovery thousands of successful healing demonstrations have been performed in Super Mind Science. God, being positive harmonizes with health, which accounts for the positive type individual being healthy and successful. Disease is negative and harmonizes with sin, plainly showing the failure, sickness and premature death of the negative type.

Lamb's Book of Life Around the body there is an astral light, this light registers the impressions of deeds done in the flesh. The negative deeds are condemned by the conscience as sin, while the positive represent the good and are sanctioned by the conscience. This record is the "Lamb's Book of Life". The negative deeds stand to condemn the life of the soul, because they are evil and do not conform to positive creative Divine law and heavenly harmony. When the soul is called upon to view the record of these deeds registered, it is called the "day of Judgment". If the positive outweighs the negative, one rises to "eternal consciousness", if the negative outweighs the positive, the result is oblivion.

Soul Annihilation Nature changes the form of all beings that violate her immutable laws, which calls to mind the judgment of the flesh "dust thou art and to dust thou returneth". The law of life is the law of Mind, for all life here and hereafter has its existence in Mind and no temporal belief can change either the record of life or the judgment of God. No amount of prayer can persuade negative to be positive, sin to become righteous or God to be evil.

Magnetic Law The law of magnetic attraction as taught in Super Mind Science causes the mind to vibrate in harmony with the magnetic pulsation which emanates from the sun. When positive control of magnetism is demonstrated, one will observe that "like attracts like", sinful thoughts attract sinful companions, thoughts of poverty attract poverty, thoughts of weakness attract sickness. This same law when understood can be operated in one's favor by learning how to create the magnetic vibration through concentration of the mind, and breath control as taught in Super Mind Science. This law then begins to attract the things in life we desire, such as health, harmony, happiness and spiritual power. The magnetic impulse can be felt by any apt student in a few moments after compliance with the law.

Theory and Practice Theory is one thing, but practice is quite another. In Super Mind Science the life energy can be controlled and the student can feel it by mentally conforming to the laws and mental states. No blind faith is required. The Science stands upon demonstration, not belief, for belief without positive demonstration to prove its contention is negative in itself. Super Mind Science demonstrates its teachings, while many systems give the student speculation and theory only.

Positive Sowing The sowing of positive mental seeds by positive mental methods is sure to produce results, for the law of sowing and reaping is a reality and produces its results. Super Mind Science conforms to this law by providing the proper means for the student to make the necessary mental effort to succeed. No amount of negative affirmations can take the place of this law. Theoretical disagreement with Super Mind Science will not alter the law of reaping according to what one has sown mentally, physically and spiritually. Theological speculation is no better than metaphysical speculation, it may sound more sacred to those unilluminated mortals but it cannot change the laws of mind. Those negative souls who confess sin without trying to overcome sin are tying mental millstones around their neck which will later draw them under the tide in the sea of life. Super Mind Science warns them, but cannot change them unless they express a desire to know the Truth, and learn the laws of mind and life and then conform to them, for God is no respecter of persons or religious beliefs.

Law of Sense Perception Man possesses five physical senses, however all sense perception is solely dependent on one sense, the sense of feeling. When feeling is removed from any sense organ it becomes powerless to function as an organ of correct perception. The feelings register bliss when one thinks of God, and register disturbance when one thinks evil or selfish thoughts. When the mind is correctly trained all sense perception becomes spiritual which changes one's outlook on life, revealing the Divine presence in every cell of the body and the eternal reality of soul perception. Then the two senses, intuition and intelligence, common to immor-

tality unfold and through them man cognizes the world unknown to mortal sense.

Laws of the Kingdom The laws of the Divine Kingdom are universal, functioning independent of the bounds of all sectarian religion, creeds and classes. Those who do the "will of the heavenly Father" as Jesus expressed it, obey the laws of His Kingdom. The laws consist of serving humanity unselfishly, healing the sick and comforting those in sorrow. A Super Mind Scientist being able to demonstrate the powers of life energies and conform to the laws of mind, has an excellent opportunity to conform to these Divine laws.

Laws Governing Sin When one becomes mentally negative through selfishness and greed, they worry over attachments, personal gain and desires. In doing so, they violate the laws of the Divine Kingdom, reaping disease, premature old age, many forms of misery, poverty and all manner of misfortune, for the laws governing sin mete out a punishment to all who violate the Divine laws of Truth, Love and Light. This same law applies to those who eat flesh, they are punished with body congestions and ailments all because they violate the Divine laws. Likewise, those who commit crime, though it may seem profitable are sure to lose, for the law of compensation metes out an exacting reward.

Laws of Conduct Many believe that they can gain or profit from evil, but that is only a great illusion of the flesh existence, for good alone is profitable. According to the laws of conduct, when one slanders another, their words set into motion evil powers which later return to them in diverse ways and injure them many fold, for "as ye sow, so shall ye reap". Violation of the laws of good behavior bring upon one the ridicule of those present besides making them subject to the fines and punishment meted out by the laws of man. There are other laws such as, hate begets hate, and thousands of conditions and unlimited forces which chastise man when he violates the laws of conduct. Those who take even an obscure part in killing another, such as a vote for death on a jury, set the laws of life against themselves, which brings sorrow and premature death, for "those who kill with the sword die by the sword". No one can escape the penalty of the laws of life, or by a prayer to God cause them to be changed.

Mind and Universal Love The laws of positive and negative mind force produce all the opposites, such as like and dislike, pleasure and pain, evil and good, low temperature and high temperature, anger and love, malice and kindness, ignorance and wisdom. The positive controls all the favorable sides of the opposites such as pleasure, good, love, etc. The manifestations of the negative or misdirected mind produce dislike, pain, evil, etc., however these principles exist only in the absence of Good or God.

Jesus and the Law Jesus said "I came not to destroy the law and the prophets, but to fulfill them", meaning He was born as an example of complete obedience to the laws of life. Through His strict obedience "He overcame the world" and overcame death. The law has never changed, it is the same today as it was then. It will be the same forever, for perfection changeth not, therefore those who obey the law now, can overcome disease, sin and death. This is proven in Super Mind Science by the demonstrations performed by students and "the healing of all manner of disease".

Mind Over Matter Mind controls matter. This law is as unchangeable as life itself, it has always been and always will be. Mind either builds one physically, mentally and spiritually or it tears them down. In order to comply with the law of mind over matter, one must learn body control and thought control, and develop the ability to rule the negative side of their nature through positive mind power. First, teach the mind that the Will is sovereign, then overcome all weaknesses, sinful tendencies, earthly attachments and uncertainties. Know that Infinite Spirit operates through the Will of man, and that the Will of man when used for good is a law unto itself. No law of mortal man can govern the acts of the Will, it is subject only to the law of God. Jesus said regarding the wonders He demonstrated, "it is not I that doeth these things, but Him who sent me".

Law of Science Super Mind Science says regarding its wonders, "it is not the Will of mortal man that doeth these things, but it is the Will of God working through man which performs these remarkable healings". As proof of the Divinity of this power, we offer testimony that "the lame walk, the deaf hear, and the blind see". The Will of mortal man in itself cannot perform such wonders, only the

Divine Will of Infinite Spirit can do so. The only accurate and Divine Science is one which shows the methods of demonstrating this Infinite Will.

Laws of Matter All suffering comes from following the laws of matter and depending on them as reliable to solve the problems of life. Where mind is not considered, the so-called laws of matter are so imperfect they do not even alleviate suffering humanity. In most instances, the laws of man which are supposed to be just, imprison a man without money, but set those free who have the price to deposit for security, therefore making it criminal for a man to be poor. Man's law is based upon value from a material standpoint, with the idea of revenge and punishment as a means of reforming weak minded mortals who think it is profitable to sin. Such concept shows the imperfect idea of law and order entertained by materialists.

The Law of Periodicity The Law of Periodicity is, that all things temporal, which includes sectarian religion, have an appointed time to function. After its period, it must give way to higher ideals and more exalted Truth, therefore the churches which claim to be the outcome of the ministry of Christ, yet endorse war and the killing of human beings under the name of capital punishment, have about served their purpose. They must now step aside for a scientific religion which teaches the presence of God in every human being, and also teaches the sacredness of life of every creature, and the training of the mentality to demonstrate Christianity in every day life. Creedalism will be destroyed through violence and possible bloodshed by those of their own rank, for those who kill with the sword shall die by the sword.

Signs of the Times "The signs of the times" indicate that even in the most orthodox Christian countries the intelligent people regard the Church as an institution of moral and physical good, but having no spiritual value, a political machine which favors the rich but ignores the poor. What a spectacle there would be if Christ returned to earth physically today! How far removed from His teachings He would find His so-called ministers of spirituality sitting on thrones, wearing crowns on their head! He would scorn their palaces of gold surrounded by soldiers with fixed bayonets who guard the supposed "holy man" in order to keep his own sub-

jects from assassinating him. What an upheaval there would be! How He would turn from these vicars who live in luxury like a king, while millions of the poor contribute their earnings to support them.

Law of Compensation When the law of compensation begins to collect from these false teachers, woe be unto them, for they shall perish beneath the fire of materialism, which they themselves kindled. They will be killed by those whom they have not taught that it is a sin to kill an enemy. They Will say "we are persecuted"; yes, because they have persecuted the "saints of God" in the past, for "as a man soweth, that shall he also reap". This law applies to church organizations as well as to individuals—none are exempt from this immutable law.

Condemn Christ Healing The modern Pharisees of orthodox belief condemn the Christ healing by the laying on of hands and directing power, just as the Pharisees of old condemned the Master. They claim that drugs and remedies are superior to His way of healing. They teach that although the teachings of Jesus are not practical to live by, they are ideal to die by. We ask, that if Jesus was the Son of God and had perfect wisdom, how could His healing be other than the most perfect healing method? If His teachings cannot stop pain, then by what power can they save a soul? Can one lose their body through ignorance and sin, and yet save the soul? These are the questions that should be answered by those who oppose the establishment of Super Mind Science both as a Science and a Religion.

Law of Cause and Effect Those who oppose the re-establishment of the works of Christ in the church, claim that His healing was for Himself and Disciples alone, yet Jesus said "these works shall ye also do, and even greater works shall ye do". He did not say "these works shall my first disciples do, but no one else shall do them". The law of cause and effect causes the premature death of millions of victims of such teachings every year. Millions enter eternity unprepared, lacking in the understanding of spiritual laws.

Law of Love The law of Love is, that all sincere Christians must heal the sick and do good deeds, "be up and care for the living, while the dead bury the dead". Those who obey the law of Love become as

the Son of God, "the light of this world". Super Mind Science stands firmly upon the laws of Spirit as demonstrated by Jesus, it rejects all empty beliefs which do not demonstrate the powers. One belief is as worthless as another as a means of salvation. Anyone who can stop pain, heal themselves and others, and perform other demonstrations taught by Jesus, we accept them as brothers emulating the same Truth, fruit of the same vine. Those who do the Divine works, the same are our brothers, and we work hand in hand.

The Law of Moses The law of Moses which was supposed to have Divine origin, gave the commandment "Thou shalt not kill", yet a little later we find the "God of Israel" very interested in war, advising how an enemy should be captured and all his goods taken away from him, and in some cases killing him. We notice that the Hebrews actually believed God blessed them for killing Gentiles. Either Moses had no Divine revelation or he communicated with a righteous God one day and a Satanic God the next, for the Infinite Universal Spirit of Love would not give such evil advice. It would never contradict Divine orders. Because of this evil aspect of the Law of Moses, Jesus came to fulfill and end that law, establishing in its stead the spiritual law of Love and Goodness. The only fault they could find with Jesus was His Divine Goodness.

Truth Ever the Same Many adversaries of the truth of Super Mind Science have found the same fault with it. Even though their body was healed through it, they deserted it and returned to their mental idols of weakness, because of its teachings of goodness and its condemnation of evil. Truth has ever been so received, for it is written "the world loveth darkness", but the beautiful light shed upon mind and Spirit in this Science will do away with much suffering. Many have been and will continue to be touched with the healing power of Truth, which alone is sufficient compensation for all the years of study on the part of the author, whose sole desire is to redeem mankind from the wages of sin and error.

Laws of Being Man's being is composed of mind or intelligence; body, a physical expression; soul, the inner reality or being of righteousness. When the inner self manifests, Divine demonstrations of power take place which are condemned by the materialist who says as

he did of old, "crucify him", yet he calls himself equal with God. Everywhere that the soul power comes forward, it is met with opposition from those who dwell in darkness mentally. However, the Law of Being is that Spirit will triumph, Truth will down falsehood and power will overcome weakness.

Fall of Dogmas Dogmas and man made creeds cannot give one soul satisfaction, which has resulted in millions seeking Truth outside of the churches. Materialistic creeds made by councils of politicians who robbed Christianity of its greatest power, that of Christ healing have now begun to wane. No amount of financial aid can save them, because they removed the most beautiful jewel in the spiritual crown of "Jesus, the Christ", namely the efficiency of His healing art. They delivered the sick unto the hands of materialist systems which completely ignore mind, God and Truth as a healing power.

Laws of Science Science consists of facts which are provable. If Christianity can be demonstrated, it is a Science. Science, if it cannot be demonstrated, it is a myth. If Super Mind Science which is based on the truth of Christianity is wrong, then Christianity could not be scientific or true. Some may say why call it Super Mind Science? The author answers that there are other lower or negative "Mind Science" systems which are directly opposite to this Science, therefore we explain, "Super" means higher, above, beyond. This is the truth of what Super Mind Science actually is, it is a much higher Science than any of those lesser Sciences which the public is wont to compare it with. It gives instructions in Truth, above and beyond any of the other sciences, our methods are positive and creative where theirs are efficient only when used by negative people.

Healing Without Belief Super Mind Science heals those who do not believe in it equally as well as those who believe in it. A disbeliever in our Science, an atheist, believer or follower in any other sect or creed, if he uses our method will be healed, because Science does not depend on belief. We consider those disbelievers with occult ideas the same as those who follow different ideas and creeds, for anyone can see even with material reasoning the logic of Super Mind Science, which teaches that disease is but congestion, and expansion which is ease is mental first and physical

last. Super Mind Science having the best expanding process, also the most perfect concentration method, heals the quickest.

Science of Mind Needed If all children were trained in Divine Mind Science there would be no morons or imbeciles. If every church taught a class in the keys of Super Mind Science as taught by the founder, there would be little use for hospitals, prisons or institutions for "feeble minded". The idea that the church should not teach scientific Truth is the greatest error of this age, for the church which does not mold character is doomed to failure. Only the institutions which attempt to save the entire man, and teach all of Christ's work can endure in the future. Super Mind Science, being scientific and logical meets that requirement.

Untruthful Teachings When the young people are taught that God sends suffering upon them, they are taught falsely. Only ignorance of the laws of life cause man to sin, which brings upon him the results of sins of omission and commission. What use is it to teach the young generation about the miracles of the past and deny the miracles of the present? The young say, "if God did wonders then, why can He not do them now, why should the world be left in darkness now"? Such teachings which imply that the laws of God change and that once He condoned healing and other wonders, but now turns a deaf ear to suffering humanity are untrue and will go down to destruction.

Physical Reality Those who attach such great importance to the physical virgin birth of Jesus regarding His body as being the real Jesus should be more concerned about His glorious life and works. They should learn the scientific Truth that matter can never be the father of a soul, only God is the Father of all souls. Spiritually we are all "Sons of God" made in His image, or in His spiritual likeness. All Masters of the physical nature discover that they can leave the body and also return to it at Will, therefore the body is not the real being at all, but is only a means to an end. True Divine Mind Scientists control their body, treat it well, then when they have attained spiritual wisdom, they will cast it aside as they would an old cloak. Those who master Super Mind Science will be able to perform this demonstration, for when mind is master, the flesh must obey.

Human Will When the truth regarding the Fatherhood of God, not only in the case of Jesus, but of every human soul is understood, then people will grasp the meaning of the saying of Jesus "ye are also sons of God". Then will human Will be understood as Divine Will, Truth as the power back of Will or the Will of God, and Science, the truth about being. Then also will the truth be revealed about mental quackery which denies that human Will is Divine, for can the soul which was created by Almighty God be ruled by human Will, or, how could there be other than Divine Will? The power that kills which seems to some to be the Will is simply the absence of Divine Will, a false force which exists only because of the absence of good or Divine Will. Evil has no power, it is negation, good alone has power.

Animal Magnetism There is no such thing as "animal magnetism" as an "evil power", for God does not create powers opposite to His Divine principles. Animal magnetism as evil is but mental delusion believed in by those unilluminated mortals who want an excuse for doing evil, like the orthodox Christian lays his faults at the feet of satan. Such mental crutches are only an excuse for mental weakness, for can a Son of God, a soul, possess an evil power common to animals? The answer is "no". All magnetism is good, otherwise God would not, nor could not be its creator. Super Mind Science receives all such negative beliefs as mortal hallucinations, false concept, and the absence of good.

Mental Devils With the passing of beliefs in devils that carry pitchforks comes the teachings of others that are just as bad. Teachings that consist of "animal magnetism", teachings that deny mortal existence, teachings that one does not need to improve themselves while here, but need only to wait until they reincarnate seven times before they attain wisdom. Systems that teach of the return of dead spirits to guide one, teachings of "black magic" or using the mind for evil; different types of teachings that attempt to hide under the name of "Occultist" or "Truth" teachings that evil spirits follow them or that some one is working evil powers on them, etc. All of these theories show the mental weakness and lack of mastership of the founders of the system who should have discovered that there are no evil powers. Evil manifests only in the absence of good, and when

one is shrouded in good no evil can harm them. Destruction comes from failure to do good, more than from doing evil.

Wisdom To attain wisdom is the greatest accomplishment and only lasting gift of this life.

Is

Priceless We read in the Proverbs the ancient saying, "For wisdom is better than rubies; and all the things that may be desired are not to be compared to it". Wisdom comes from understanding the mental values of life. Physical knowledge is good and has its values, but wisdom is priceless. Super Mind Science overcomes the materialistic view of life and brings into operation the spiritual, in this manner wisdom is acquired by all who adhere to its principles. Wisdom is a law unto itself, it has no part in foolish speculation or the vague beliefs of mortal man.

**Wise
Men**

Wise men say only what to them is knowledge or what they definitely know, but the foolish person wastes his time telling others his beliefs and disbeliefs. These uncontrolled minds and tongues many times disturb and confuse those seeking wisdom because of the untruths they state. A wise man says, "I know" when he speaks, a foolish man says, "I believe"; "by these signs ye shall know them". "A good tree bringeth forth good fruit, while a corrupt tree bringeth forth corrupt fruit", for wisdom is Law Divine, likened unto the Infinite Spiritual Intelligence.

**Keeping
Instruction**

It is written, "He is in the way of life that keepeth instruction, but he that refuseth reproof erreth", which is a true law. When one believes they are perfect and wise, arrogance and sin become a part of their mental delusion. The wisdom of Solomon says "Treasures of wickedness profit nothing, but righteousness delivereth from death, The Lord will not suffer the soul of the righteous to famish". This is indeed the promise of Truth and wisdom, for health and prosperity come from obeying the Divine laws of Life and Being.

**Self
Justification**

They way of a fool seems righteous to him, nevertheless he comes under the lash of the law. Ignorance of the law is no excuse, for knowledge is available to all. Ignorance is a sin of omission or commission and those who say "I do not understand Mind Science, therefore I will not be punished for violating the laws of mind" err in their judgment for every day thousands die

because they are ignorant of the laws of life, they violate the law of wisdom and must suffer the consequences.

Results of Mental Error Deceit and evil negation cause one to imagine evil, this is the first violation of mental laws. The effect of this violation is that when once the evil has been imagined, it is soon accomplished. Although the cause was imaginery or purely mental, the effect is physical, therefore the cause being mental, all evil is of the carnal mind. Man punishes the body for what the mental faculty commits instead of correcting the cause. One who is merciful to others recognizes the mental weakness of his fellowman, but the cruel at heart are evil minded and are doomed to destruction through the law of compensation.

Truth Is Eternal Truth is eternal while lies are temporal, therefore, no lie will destroy this Science, for it is built on the solid rock of Truth, Love and Light. That which is Truth is eternal goodness, as permanent as God, and more accurate than time. Let every Super Mind Scientist take refuge in the eternal principle of Truth, and keep an open mind to Truth.

Preserving the Righteous The righteous shall inherit the earth, but the wicked shall be consumed by the fire of their own passion and lust. All good things can be enjoyed by those who control their thoughts, bear up under persecution, and yet exhibit the Godly qualities of Truth and Love. "The light of the righteous shall be bright, but the light of the wicked shall be put out", or their sinful identity lost, for the laws of the Divine kingdom preserve only the good.

Words of Truth The lips of the wise speak Truth, but the heart of the wicked refuseth to hear until suffering causes them to harken. Some learn by study, and others through misery and suffering. The wise student learns and avoids trouble while one slow to learn is also slow to be rescued from the consequences of their folly. Many come to Super Mind Science only to overcome certain suffering, then when they are relieved they return again to the fold of sin and ignorance. Their state in the last instance is worse than in the first.

**Eternal
Consciousness**

The doctrine of "eternal consciousness" and the method of attaining it is the most important philosophy in Super Mind Science. Paul says, "For we know that if our earthly house of this tabernacle were dissolved, we have a building of God, an house not made with hands, eternal in the heavens". To attain to this full knowledge of heavenly things while we yet live on earth is indeed important. Super Mind Science in the teachings of "the door of the soul" which leads to "eternal consciousness" offers a method of attaining this wonderful knowledge.

**Unreality
of**

Death

In death there is no reality, for life is in mind. Paul instructing the Corinthians says, "Always bearing about in the body the dying of the Lord, Jesus, that the life also of Jesus might be made manifest in our body". The meaning of this is that we should be spiritually conscious in our body knowing that we have an inner body which is not subject to death. Super Mind Science demonstrates the actual existence of this body which is not subject to death.

Stress the

Life of

Jesus

So many assert their belief in the death and resurrection of Jesus, yet they do not notice His beautiful life or endeavor to live according to His teachings. When one attains to correct knowledge of Mind Science they will be able to see the necessity of knowing rather than believing. The facts concerning life is an attractive study, but the superstitious beliefs regarding life is a dead study which leads to death. If all churches would teach people how to live and how to think instead of what to think and how to die, they would be more successful and their members more happy.

Knowing

While

Living

The Scripture for the doctrine that one may know the immortal life while on earth is "I knew a man in Christ above fourteen years ago, (whether in the body, I cannot tell; or whether out of the body, I cannot tell: God knoweth): such an one caught up to the third heaven". (2 Corinthians 12:2). This teaching places the approval of Christ upon the practice of leaving the body at will. The author has had this experience countless times since the Immortal Life Divine was revealed to him.

Persecution of The persecution which Mental Science has endured is great proof of its Divine mission.

Mental Science Why religions oppose mind control yet expect people to cease sinning is a mystery, for the most positive person fails to be able to follow the teachings of Christ without a study of mind control. Even Christ required the fast and solitude of the wilderness in order to follow the doctrine which He preached. The power of the Infinite Spirit is strong and lifts up those whose consciousness is spiritual and whose ideals are exalted above the flesh. Those who persecute Mental Science will receive the reward of the flesh, which is disease and death.

Law of Christ The great law of Christ is to "bear ye one another's burdens" which means, heal the sick, restore sight to the blind, hearing to the deaf, and teach the Truth to the poor. It means being willing to fulfill the law by demonstrations of Divine power, following in the footsteps of Truth, Love and Light. The laws of mind are the laws of life, therefore no one can understand life unless they study and understand the mind.

Christ a Mystic When the Master was on earth He continually preached against the formal ceremonies and ritualism of the Jews. The killing of innocent lambs to appease a supposed angry God was repugnant to Him, for what God of Love would require the blood of an innocent creature in order to buy His favor? Jesus called these Pharisees and hypocrites who believed in outer ceremonies "whited sepulchres, white without but corrupt within". How little did He think that two thousand years later a so-called Christian Church would compare Him with a slaughtered lamb who had to be killed in order to satisfy a God who demanded His innocent blood as a remission of the sins of the world. God would have to be a vicious demon to demand such an unreasonable price for His favor. Christ's victory over death was the important demonstration to be considered, not the advantage gained by willful sinners through His death.

The Wise Men of the East The title of "the wise men" conferred on the Mystics of the Orient by translators of the New Testament is indeed a fitting title. They were wise in their knowledge of the "secret doctrine of the East" which was advanced Mental Science of that time,

however their true title was "Magi". According to the original Greek version, Magi means one who performs seeming wonders or miracles through forces generally unknown or occult. These Wise Men having a full understanding of the importance of the birth of the Christ child came seeking Him to welcome Him to this earth. While the Christian Church may desire to conceal their personalities, it is well known in India, Persia and Egypt that they were Mystic Astrologers, Mental Scientists and Adepts.

**Matthew's
Record**

The record attributed to Matthew concerning the birth of Jesus was explicit in saying they were Magi. However, the English translators changed this term to "Wise Men" because they hated mysticism and did not want it associated with the birth of Jesus Christ, for the word Magi has always been accepted as meaning "wonder worker". The birth of the Master was expected by the Masters of Eastern Spiritual wisdom, but was unknown to the orthodox Jews. This plainly shows which school of thought Jesus belonged to, for He became the greatest of all Magi, or wonder workers.

**His
Star**

The Wise Men announced "they were searching for Him because they had seen His star in the East". Now the star referred to was the conjunction of Saturn and Jupiter in the constellation of Pisces which was later joined by Mars in the year 748. Kepler's records of astronomy calculated in the year of 1604 and since verified, shows this to be a fact. This conjunction was first calculated to be seven years before the birth of Christ, but later was found that the correct date was the year of His birth. When this conjunction appeared, there was a star formed from the stars in the heavens, a "star of stars" making a six pointed star or the symbol of the Master. The Wise Men knew because of this great star formation that the "Master of Masters" had been born.

**Astrology
of
Judah**

The sign of Pisces in Occult Astrology which is practically unknown to the western world was the star of Judah, therefore the Wise Men observed that the Master was to be born in Judah or near there. Knowing this, they began a journey which required a year to reach Bethlehem, reaching there shortly after the birth of Jesus. The orthodox idea of a traveling star is

unfounded, it is an unscientific invention, like many other of their theories. This star of Judah was observed only by trained Masters of the astrological lore of India and Egypt. The star, being an emblem of the Great White Lodge of Adepts, was continually before them mentally until they found "Jesus, the babe".

Denial of Astrology The Christian church has denied the value of Oriental Astrology and classed it as base superstition. They deny the association of astrologers with the birth of Jesus. Super Mind Science teaches that there is a true astrology, but also realizes that the system now in use in the western world is not the genuine, it is but a fragment of the original spiritual system.

Proof of Assertion The author offers as material proof of his contention that the Wise Men were astrologers, the comment of the New International Encyclopedia, which is a standard educational work. It states that "some early Christians accepted astrology while many rejected it", it also states that "the Wise Men were Chaldean Magi or astrologers". The church has never successfully disproved this teaching or disputed the Standard Encyclopedias which all seem to agree on this point.

Eastern Brotherhoods of Masters The author who traveled in the Far East learned many wonderful facts concerning Life and Being from the Brotherhoods of Adepts and Eastern Ascetics. He learned much of the unknown life of Jesus not recorded in the New Testament, some of which he gives in this work in order to throw light on the true life of Jesus. The Masters of the Far East never dispute Jesus, but teach that all who believe in Him must do His works and in doing so become like Him. They teach His glorious life as an example for all to follow, they do not teach His death as a means of excusing those who sin against the laws of Nature.

Version of Jews The Jews expected a Messiah to be born in Bethlehem who was supposed to be a warrior king and would bring back the glory of Judah. However, the "king of peace" expected by the Masters of the East was to be a spiritual Master, their prophecy was written in the stars and was fulfilled. This proves Jesus to have

been the Master expected by the Brotherhood of Mystic Adepts. The offerings of gold, symbol of the mind; frankincense, symbol of the soul purified by Divine Godly union; myrrh, symbol of the body, which were given to the babe by the Wise Men further proves the truth of Jesus being welcomed symbolically as a great spiritual Master.

Wise Men As soon as the Wise Men inquired for the
Guided "Great Master" the Jews thought they
in Dream meant the "King of the Jews" which the prophets of Israel had foretold. They began to look diligently for the supposed "new born King" which aroused the jealousy of Herod who planned the death of the child through a ruse worked to fool the Wise Men. However, while asleep, knowing as they did, the art of leaving the body, they were told in a so-called "dream" of the evil intentions of Herod. This is mind reading on the Astral Plane and is the same as is demonstrated in the method of the door of the soul in Super Mind Science. This art was communicated to the author by a Magi.

Watch After the visit of the Magi, the Brotherhood
Over sent other travelers who occasionally met
Jesus the Christ child and instructed Him in the Eastern lore of mysticism. They knew that He was a pure soul who had never lived in a body before, a direct incarnation of God Spirit, and therefore was destined to raise the dead and overcome death. While Jesus was growing up He was many times instructed by "strange travelers" who came to Nazareth where He made His home. When He was thirteen years old He had been schooled in the Hebrew mysticism by Jewish teachers and also in the occult mysteries of India, Persia and Arabia.

Feast The feast of the Passover which occurred in
of the April was one of the most sacred ceremonies
Passover of Judahism. It was in remembrance of the angel of death which swept over all of Egypt's land smiting the first born child of all the Egyptians, but sparing the homes of the children of Israel who had marked their houses with sacrificial blood, so the angel would not make a mistake and kill their children. Jesus had just entered His thirteenth year and was to attend the Passover where for the first time He could sit at the feast table with the Elders of Israel.

Jesus at the Temple At the Temple were assembled all of the great Mystic Adepts of Judahism who were expert Kabalist or workers of prophecies through the science of numbers. While Joseph and Mary were saying their prayers Jesus searched out these great Seers, for His interest was in wisdom, not in orthodox ceremonies. Soon He found them discussing Hebrew mysteries, and became so interested that He forgot His father, Joseph, and His mother, Mary, who had attended the Passover with Him. Jesus was disgusted with the sight of blood from the slaying of innocent lambs who had been sacrificed in order to appease an unusual God therefore, He engaged in an argument with the Doctors of Theology against blood sacrifice, using the teachings of the travelers from the East as a basis for His argument.

Jesus Lost The parents of Jesus were so occupied with the events of the Passover that they had forgotten about Him until they were ready to leave, when they were informed by pilgrims that He had preceded them. They began their return journey home, but found after a two day journey that the boy had not preceded them. Quite anxious, they arose early one morning and returned to Jerusalem where they searched for two days in the Temple Courtyard. Finally they discovered Jesus teaching the laws of life to men who were aged Philosophers, and they were listening to Him, astonished at His sayings.

Expressing Higher Mental Science Jesus expounded truths of the mystic teachings of India, also the wisdom religion, or higher Mental Science, teaching the sacredness of life and the law of Love. All were astounded at the wisdom of the child. When His teaching ended, His mother reproached Him saying, "we were distressed about you". Then Jesus answered "why sought ye me", saying "know ye not that I must be in my Father's house, about my Father's business". This was the birth of the great mastership of Jesus. From this point until Jesus reaches thirty years of age the New Testament is silent about His life, however, the Occult lore of the Mystic Orient begins where it leaves off.

Magi Sent to Bring Jesus Following the incident at the Passover a Magi appeared in Nazareth on a mission from the Brotherhood. His mission was to persuade the parents of Jesus to let Him go with the Magi to India

to a Himalaya mountain religious retreat where He would be prepared for His Divine mission to the world. This they consented to, and Jesus left with the Magi to enter a school of the "Secret Doctrine" of the Wise Men of the Far East.

Travels in Orient He remained with this Magi for three years. After this, desiring to travel and meet great Saints, He began to be a wanderer. He wandered through India, Egypt and Persia, denouncing the rich and befriending the poor. He meditated and came into great power spiritually. He was ordered to leave some cities because He denounced the priests and kings; He was regarded as a radical, a socialist, a disturber of customs.

Religious Renegade He was known in many places as a "religious renegade" who challenged all authority, and hated the holy priest-craft. However, this opposition was mild in comparison to what awaited Him when He returned to Judah where as a "born Rabbi" He was to try to overthrow blood sacrifice and Judah's hypocrisy. He little dreamed that death awaited Him for interfering with the priest-craft business of Judah.

Returns to Judah When Jesus had visited all of the great religious retreats of India, Persia and Egypt, He decided to return to His homeland. About one year before His baptism by John He returned to Judah and spent all of His time with the mystic Brotherhood of the Essenees. Here He met His cousin, later known as "John, the Baptist" who was studying the mystic arts of that Brotherhood. Jesus was recognized by the Masters of the Order as "The coming Messiah", and they ordered John, the Baptist, to go and prepare the "way for the Master". This he did by preaching "repent ye for the kingdom of heaven is at hand", "The Master cometh", etc.

Jesus Baptized One day while John was preaching, Jesus appeared suddenly without previous warning and asked to be baptized by John, for He felt that since He had been taught and helped by the greatest Saints He should demonstrate the spirit of humility which was one of their teachings. John at first refused to baptize Him on the grounds that He was so much more spiritually advanced than he (John) was.

**John
Consents**

John finally consented, however, and baptized Jesus, then followed the voice from heaven pronouncing Jesus "The Son of God in whom He is well pleased". Jesus was startled by this unexpected demonstration of power and later decided to find out its true meaning. After meditation He decided to go down in the wilderness, where alone with God He could fast, pray and concentrate His mind until His soul received the revelation of His future mission which the Magi had told Him about many times. So began the forty-day fast which proved His mastership and gave Him His Divine revelation. In this revelation the prophecy of His death, His raising from the dead and ascension, the betrayals of Judas and Peter passed before him like a panoramic view. As the mental picture of these events flashed before His mind, He was tempted but overcame the tempter.

**Begins
Ministry**

After His trials were over He began His ministry performing wonders as all Master Magi do, healing the sick and curing mental obsessions, using the Secret Doctrine of the East. While performing these wonders He selected His students, establishing centers of instruction and founding a Brotherhood of disciples, preparing to be killed by those priests whose business He injured through His teachings. The church-minded orthodox may say that there is no proof of this mystic life of Jesus. The author would remind them of the thousands of changes in the translation of the Bible, the rejection of hundreds of pages of doctrine as unfit to be a part of the Bible, which included also a book said to be written by Jesus, Himself. Much of the writings attributed to Matthew were also rejected. While this doctrine of Jesus is not in the New Testament, sufficient proof of it can be found by a close observer. The rest is legend as known in the Brotherhood Schools where the author received his Spritual enlightenment.

**From
Death
Unto Life**

The Jews thought that after their political influences had killed Jesus by framing His death, that the end of His teachings would soon come, but they misjudged His power, for He passed from "death unto life". His plans were so well laid that His death remains as the greatest curse to Judahism, and because of it the Jewish religion has suffered much, and the Jewish people more. Not only did His death encourage His doctrines, but it gave Him

the opportunity to overcome death with spirituality and prove a doctrine for superior to the Law of Moses. The Brotherhood of Adepts where the Magi came from was the place where the author also studied Mind Science previous to the founding of Super Mind Science. Let each Super Mind Scientist be true to the teachings of Christ and great will be the success of this reinstatement of the True Christianity. All other views of Christianity fail to account for its demonstrations of power.

Missing Testimony

The New Testament is not only silent regarding nearly eighteen years of the life of Jesus, the Christ, but many of its statements fail to harmonize. Some of those are in giving the genealogy of our Lord, Jesus Christ. From David, they show Him to be the son of Joseph, providing one counts Christ as the fourteenth generation from David. Matthew speaks of Jesus as "the son of the Holy Ghost", Luke speaks of the visit of the Angel, Gabriel, to inform Mary of her conception. Mark and John begin writing the gospel with the events which happened in the time of the young manhood of Jesus, disregarding His birth in their accounts. The New Testament also relates that there are many things concerning Jesus not recorded in the books thereof. The author hopes he has thrown light upon those things which the Divine Will has destined should be made known at this time.

The Truth

The Truth is more wonderful than fiction, it reveals the causes and effects. Super Mind Science desires only to redeem mankind through Truth, it does not wish to be a critic. Its methods of controlling life energy enable everyone to demonstrate Christianity. The life currents of Super Mind Science are the same powers used by Jesus to raise the dead and heal the sick. The author studied them while traveling in India, Egypt and Arabia in the same surroundings where Jesus became a Master. While there he witnessed a Magi drink three glasses of deadly poison, fulfilling the prophecy "and if they drink any deadly thing, it shall not hurt them". The prophets of the Far East appeared to the author from behind stone walls and talked to him, and foretold how Super Mind Science would re-establish the pure undefiled "Christianity". This prophecy is now being fulfilled. May the blessings of Infinite Spirit rest upon every true Super Mind Scientist and may their works continue to glorify "Our Father who art in heaven".

You have unlimited power to create
Health, Prosperity and Healing within you.

SUPER MIND SCIENCE

12 Lesson course will reveal God within.

Thousands have found it the key to life. The most Scientific and powerful work on the subject of Christian Metaphysics ever written.

How to Heal Yourself and Others.

The power of Mind over Matter.

How to perfectly concentrate your mind.

The law of magnetic attraction for prosperity.

How to overcome the negation of mind.

God's law of Body and mind control.

Are some of the powers explained and demonstrated in Super Mind Science, Which has been taught to approximately 300,000 people in Many Countries of the World. This course contains actual Techniques for demonstrations of the power of the mind. The Founder Dr. William Estep is a famous Physician, Minister of the Gospel and Scientist.
