## FOREWORD — Our Goal

I have been a Christian Crusader all my life. I have met many leaders and would-be leaders but most of them lack the vision to attain to their objective. There are not very many leaders in America today for most of them are all right up to a certain point and then they compromise—and he who compromises is lost. I no longer take them seriously. It is too late in the day to take seriously men and women who make excuses instead of getting results.

Very few leaders, spiritual or otherwise, realize what the Man of Galilee came for. He came to give us the abundant life; but that abundant life can only be reached by obedience to spiritual life. I have been actually fighting Communism since 1917, but as I have stated before fighting Communism is not enough, and hating any individual or group will not enable you to reach our goal. I can truthfully say I do not hate any individual or group. We have the same problem today as Jesus had in His day—we are fighting the Forces of Darkness, the Synagogue of Satan, and Jesus named the Synagogue of Satan.

Now the time is come when we must have a clear vision and the courage to work towards it. Merely fighting the Forces of Evil is not enough; we must have a constructive program. If all real patriotic Americans would work with Willis Stone on his program to put over the 23rd Amendment, we would draw the enemy's fire, we would steal his ammunition, we would make him impotent.

Another thing we must do is to realize that God is not impotent, that He is in this picture, and we must "seek first the Kingdom of God and His righteousness," then the way will open up for us to attain our goal. Negative fighting will never accomplish our purpose; we must put on the whole armour of God and realize that we are a part of the Christ Army. I am fortunate inasmuch as I am conscious of the great spiritual Army now being assembled on the other planes and on this plane. We must realize that we have a Leader, and that Leader is He whom we call the "lowly Nazarene." You and I must tune in on Him and feel that invincible power that He has.

Family worship is a part and parcel of this work for that is when you plug in on that invincible power. If you have never learned to do that you don't know what you have missed. Jesus the Christed One is not an abstract individual; He is a power plant and He is now coming to set up His Kingdom on this earth plane not in the sky. It is already established in the heaven world, and He is coming to set it up on our earth.

Now the time is come to present the picture to you as it exists on the Higher Planes. As you read the message in this book you cannot fail to realize and to see first, that there is a definite program and plan and secondly, that we have a Leader that we can depend upon. I charge you to read this message, to spread this message as quickly as possible because it will put new life into professing Christians who accept this message. It will give them the realization that the Christ Army is invincible, that it cannot and will not fail. Many professing Christians are crushed as they view the picture that will enable them to rise above all negative things and forces; it will show them how they can be part of this positive Christ Army. Every one who reads this book has an obligation to spread this message as quickly as possible.

You and I must do something more than believe, we must be active workers in this Christ Army, the Army of Light. I am trying to inspire in you the desire to enlist and become an active worker. I am going out on the end of a limb to print 5,000 copies of this book, and they ought to be all in circulation in 90 days. That goal can be reached if every one of you have a part in this. I have no doubt about the outcome; it is already settled in God's scheme of things. "Seek ye first the Kingdom of God and His rightness and all other things will be added unto you." Those who can afford should buy these books by the hundreds and put them into the hands of key men and women, men and women who are today floundering. Rejoice and be glad because we have a real invincible Leader.

I am not asking you to do this for my sake; I am asking you to do it that you may be consistent with the things you say you believe. You have got to quit singing "In the Sweet Bye and Bye." You have got to have a more militant attitude and sing, "Onward Christian Soldiers." Your future is wrapped up in this package whether you realize it or not. Spread this constructive message as it is revealed from the Higher Planes from the various teachers who are working on the Christ Ray—and they get their inspiration from Him, and you can do likewise. I eagerly await your response. In producing this material, I have done my part; now it is up to you. What is your answer?

## INTRODUCTION

The writer has been a student of all phases of prophecy for nearly 60 years. There never was a time in the history of the world when people were so anxious to have a foretaste of coming events.

Now there are various sources of prophecy: first, we have the Holy Bible which is approximately one-third prophecy although you would never think so if you listened to the average sermon emanating from the average church. Next, in my opinion, is astrology, and then the great Pyramid of Gizeh.

Then come the various psychic sources. And here is where confusion often creeps in. Jesus said, "In My Father's house are many mansions." To the average Christian that is not very clear and explicit. Let me try to explain—substitute the word "planes" for mansions and you will have a better understanding.

Now the bulk of psychic prophecy does not come from a very high source. These planes are like rungs of a ladder. Naturally those on the highest rungs of the ladder have a better view of things around them than those on the lower. That is why the average spirit mediums often disagree with each other—their vision is all right as far as it goes but it doesn't go high enough.

My study of the other side of life leads me to believe there are 12 planes and each one subdivided seven times. Those on the first plane or any division thereof are strictly limited. Their judgment is based on what is visible in the immediate future. Let me give you an example: One well-known spiritualist in 1950 said, "Princess Margaret will marry Peter Townsend." Well, there is no evidence that she will. Any astrologer could have told that medium that she would not because there was no evidence on the physical plane. Now don't be too hard on this medium. The medium saw a man resembling Peter Townsend and jumped to the conclusion that it was Peter. Now you take the picture of Townsend and put it alongside of Armstrong-Jones and you will see a striking resemblance. Then again take the picture of Princess Margaret and the Belgian girl Peter did marry and there again is a striking resemblance.

Now those on the highest plane get a clearer picture and do not fall into that error if they were trained prophets. Nor would the astrologer be apt to fall into that error because the astrologer would not be fooled by resemblance but would analyze the individual chart. I have known prophecies coming from the third and fourth and fifth planes—which means there are some 28 to 30 subdivisions below their plane—and yet they were in error. I have received prophecies from George Washington and Abraham Lincoln, who are supposed to be on the fifth plane, yet they were in error because—as per the illustration I have given—they judged by appearances and then jumped to conclusions. Some day I will publish those letters.

A few months ago Abraham Lincoln through a medium in Pelley's headquarters, stated that Castro was not a Communist

but a patriot of the first water. You can see today that he was in error. I violently disagreed with that prophecy at that time from physical facts alone, but when I saw Uranus crossing Castro's Sun I knew that was a dangerous sign. Uranus, by the way, is the ruling planet of Russia, and Russia's ruling planet dominated his Sun; that is, it was the motivating force in his life. You can judge for yourselves by the results today.

Now these prophecies in this book were received in different parts of the world, and mostly were collected by a source in New Zealand. In this collection of prophecies you will note one entitled: "The Philosopher, Plato" and speaks of the perfect republic about to be established. Personally I was deeply impressed with Plato's message and he says, "I am Plato and I am on the seventh orbit of your solar system, from the 7th plane." I may say very rarely do you get anything from above the fifth plane, so I want you to study Plato's prophecy very deeply because I believe it to be accurate, based on my own knowledge and experience.

I am not only an astrologer but I am a keen student of Bible prophecy, and to a lesser degree of the prophecies from the various students of the great Pyramid of Gizeh. I believe God Almighty gave us the Written Bible and the ancient science of Astrology, and it is a science regardless of those critics who know little or nothing about the subject first hand.

Of course, you have the various psychics and all these types are described in your Bible, such as trance mediums, automatic writing, impingement from the higher planes, and that means inspirational messages picked up the same way the radio picks up from the broadcast station so it is possible for you and me to receive messages from the Man of Galilee. I know whereof I speak for I have received many such.

I have many in my band from the higher planes who are guiding and directing me, and I have received oil paintings from some of these teachers on the higher planes. Only a few days ago I received one, and on the back is this inscription: "Father Joseph for William Kullgren." The artist in her letter says, "I have reason to believe that Joseph was the physical father of Jesus." If this be so—and I believe it is—it confirms the statement in the book COMMUNICATIONS WITH THE SPIRIT WORLD by Johannes Greber, who makes the statement that both Mary and Joseph were in trance condition and that Jesus had entranced Joseph. Therefore, there was a spiritual seed from Jesus as well as a physical seed from Joseph, so strictly speaking that does not contradict the Bible at all. If you want to check on this, get a copy of COMMUNICATIONS WITH THE SPIRIT WORLD, price \$5.00 plus sales tax, and you will find it on page 311 on THE HUMAN BIRTH OF JESUS.

Greber states that the passage referring to the birth of Jesus was incorrectly interpreted. Jesus took possession of the body of Joseph, and as Gabriel stepped out Jesus entered in. This explanation does not weaken the Biblical version; it explains the modus

way, that was the real marriage of Joseph and Mary in a spiritual sense. A marriage is the uniting of forces. A marriage ceremony is merely a legal recognition of that fact. You say that is rather unconventional. True, but when did spiritual things or God work in a conventional manner? Spiritual manifestations are decidedly unconventional, and so when a male and female come together that is their real marriage whether they realize it or not.

Now I hope this explanation or introduction will help you to evaluate or understand better some of these prophecies. If they do, it is going to help to prepare you for events that are going to unfold in the very near future, and I beseech you to spread this message if you want to help the coming Messiah as He returns to earth because His task will be much easier if he meets people who are educated and know what to expect. I am convinced after a life-long study of all phases of prophecy that the Messiah is about to return, and that He is contacting hundreds and perhaps thousands of mediums throughout the world and that they will be the advanced guard of His disciples on earth when He returns.

I have dedicated my life to this high purpose; everything in my life is secondary. My mission is similar to that of John the Baptist in his day, namely, to help prepare the way for that great Soul Who is coming and Who is to set up a new system based on Divine spiritual Laws which were given long before the time of Moses and then repeated to him. I have sacrificed everything that a human being holds dear to this Cause, including a very substantial fortune.

The Master appeared to me in a vision more than 50 years ago. It startled and shocked me, nevertheless I accepted it for what it was. Through the intervening years I have received many messages from Him, and so have thousands of others throughout the world. Most of these souls are in very lowly positions in life and they lack the ability to deliver their messages to the world. I have published for nearly 35 years—I have that ability; I have a vehicle the BEACON LIGHT HERALD published monthly. Many readers know I have published my messages from the Master received by myself and others.

Now I am presenting to you once again the opportunity to enlist in the Christ Army. It is a very rare privilege that I am extending to you in His name. This introduction was outlined to me in the early hours of the morning on March the 22nd. By the way, most of my inspirational messages were received between one and three in the morning, so I seldom get any sleep after midnight, one o'clock at the latest. Will you accept this offer from the Master to enlist in His Army and to spread the good news of His coming to deliver mankind from slavery? We are in bondage just as the ancient Israelites were, and Moses in that day came to deliver them. Christ is coming to free, first the Anglo Saxon World from bondage.

He will smash our present monetary system first for we are in bondage through our present monetary system and system of taxation. It may be difficult for you to accept this statement but I say

operandi or the method in which it was accomplished. By the without fear of successful contradiction your eyes will pop with astonishment as the plan unfolds in 1961, '62 and '63. I believe the old system will be passed away by 1965. Our present Babylonian system of money or finance will be wrecked as described in the Book of Revelation. Militarism will be wrecked beyond redemption chiefly because the monetary system will be changed, also the system of taxation.

In the realm of religion much that goes for Christianity is nothing of the kind. Pure Christianity as Christ taught did not survive the days of Constantine. Constantine never accepted Christianity; he took over and grafted the old Babylonian system onto Christianity; matter of fact he blended with the teachings of the early Christians.

Yes, my friends, the Man of Galilee is coming to set up a new system. In the meantime you and I can do much missionary work to enlighten the religious world of what the Kingdom of God, or the good news of the Kingdom, really consists of. Help to educate your neighbors to this new line of thinking. Yes, the mighty Church of Rome is going to crash; that is the "Great Harlot" of religion. If the Church of Rome and the Church of England and their offshoots were to disappear tomorrow, it would leave a great vacuum and people would be panicky. Therefore, we must fill that vacuum now so that the transition will be as painless as possible.

You professing Christians should have no difficulty in accepting this platform because it is all in your Bible. Any real student of the Great Pyramid of Gizeh and many spiritually minded astrologers will more than confirm what I have stated. Astrology is of Divine origin. If it weren't, it would not work. No edict of man can bring to fulfillment the indications of the planets. No man-made philosophy or edict could control the tide as the Sun and Moon do, especially the latter. This is all of Divine origin.

Will you join me in this great crusade? It is necessary for me to have a quick response to this book that I may be able to meet my printer's bills. On faith we are going to print 5,000 copies, first edition. I am extending to you a rare opportunity and a privilege to help prepare the masses of the English-speaking world for the coming of the Messiah. All those who resist His coming will be destroyed physically because there can and will be no opposition to His will, for He is the personal representative of God Almighty, the Creator of heaven and earth. Advanced copies will be sent to key men and women and those who do not catch the vision will be sorry later on.

Yours in the Master's Service

William Kullgren

# SIGNS IN THE SKIES

(Explanations and Forecasts Given By Ashtar of Venus)

**Reasons for Phenomena of August 1959 (20/8/59).**

**Question:** Why is there so much activity around the Nelson district just now in the way of flying saucers?

We have, as we have told you aforetime, sent to you some in this your month of August. Not yet is that time past for even as yet before the end of this month you will note many wonderful things in your atmosphere and also there will be some movements of your earth which have been occurring and which will occur in numerous places upon your globe. The disturbance is caused of course by the situation of many of the planets at the present time; and also you, my dear ones, are sending up into your atmosphere, and even far away into space, many various forms of radiations which will cause disturbance not only upon your globe called the Earth, but also to some extent upon those of our own planets. We are naturally now inclined to gain further knowledge of mankind and we are proposing to send to you some ambassadors so that we of those other realms have but your peace and happiness at heart. We would try too to show you the way to bring peace and happiness upon your globe, but unfortunately at the present time there is so much sanguinary kind of trouble that we do not want to be involved. Nor do we find that we can quell it to the extent which we desire.

**Question:** Ashtar, will these ambassadors come in the spirit or in the flesh?

They will come in the flesh but must choose a suitable time lest mankind should run to riot or experience extreme fear.

## "Another Sun Will Enter Your Solar System"

(31/8/59)

(The following information was given to confirm a statement made in "My Contact with Flying Saucers" by Dino Kraspedon - a statement which the group has been discussing. Kraspedon who claims to have had information given him by a Captain of a space ship from a satellite of Jupiter - a space ship which landed in Brazil - writes that towards the end of this century a second Sun will enter our solar system taking up its position near our present one. This will result, we are told, in all the planets of our system being forced further from the center of the system, so that the Earth will then travel in the present orbit of the Asteroids and Pluto, the outermost plane, will be entirely ejected from our system. During these readjustments the Moon, it is stated, will be forced away from the Earth and will become a planet in orbit round the two suns.)

Well another sun will enter your solar system, my friends, and when it does come, this twin of your own sun, then you will find that the axis of your Earth will change and also that the conditions upon your world will be very different from now. There will be more warmth and the ice will be dissolved and there will be other changes that perhaps you would not care for in your present state. The change of life upon your globe will be of great consequence but that change will be most suitable for the occupants thereof. You, my dear children, will not be here to see these things for they will come but slowly but also surely.

## A Face Will Appear in the Sky

(3/8/59)

Dear friends of Shan, I would not put fear within your hearts, but there will appear in the sky a great and wonderful vision of a face which will look down upon you all. Then will many be in utmost fear. These things are coming unto you and the shakings and the tremblings of your earth will be great. There will come, too, considerable changes in the physical attributes of those who dwell upon Shan. These mutations will result from those radiations which you are sending forth into your atmosphere. Nothing is surer.

Question: For better or for worse please, Ashtar?

At first it may appear that it will be for the worse but as time goes on and life is enabled to face these radiations then there will arise many forms of being in the physical which will be of greater and finer forces. So all these things that appear to you to come as disasters will come to you as enlightenment and advancement.

Question: Can you tell us about that face that will appear in the sky, please Ashtar? Whom will it represent?

This face will be that all powerful Being who will look upon you all and know each one - your individual thoughts and feelings. Let me tell you that the Master will come and that face will appear all over the world. Even now, my children, you are advancing and that form of vision which you call television will develop to so great an extent that it will be to you not merely as a small film but as reality. It will be as if these visions are real beside you. Each one within his own home will be able to sit and hear the voice of the Divine, the voice that will sound throughout the whole world. The face and the figure that will appear to you of the Great One will be seen in these visions upon your world. All these things will be; always has it been prophesied. And when the greatest of the darkness comes upon you, when man takes no note of many things and lives not for a while until he is again re-created, then you, my children, will know in the spirit that God is all things and has power to do anything. He will put upon your globe beings not perhaps as yourselves, but with greater spiritual attributes and you, my children, will be enabled to give these forms life and to go forth and do your duty and that which is so necessary for your well being. Great

radiance will envelop all mankind and all His creatures once again. I would say, my children, despair not for all is well and that wonderful Being who is of all, who is as ourselves - we who dwell in the heavens and you who dwell in the material world - this Great One, this Creator, is yours to take unto yourselves.

Farewell, God be with you and keep you forever.

## Lights in the Sky Over London

(7/9/59)

Question: Can you explain the signs in the skies which are reported to have been over London?

We, my children, are there. We have sent forth our forces and they are gradually being observed by many. We are hoping that as times goes on the man observes us more minutely, we will be enabled to gain touch with safety and that we will all be in harmony together. But unfortunately man is a creature of militarism and he is aggressive and might go forward and try to hurt and to disarm us. So we must be careful ere we descend. Some of us are now upon your world Shan and are going amongst you showing many the way and gradually letting a word fall here and there trying to make humanity become used to the thought that we are walking amongst you. But we must not as yet let mankind know too much because he would take us and try to destroy us. And we, in defense, although much against our will, might do harm to humanity and that is not our desire.

Question: For the sake of the listeners, would you mind describing that light that was in the sky?

We sent forth our ships and some saw the light that was there. It was wonderful of course. Our lights are often dissimilar to those which you yourselves show but you are at last finding that those forms of electricity which are being used now in your own realm, those lights which you call neon lights and which can be of many beautiful colours, are but form of gas into which these electric charges are being sent that causes these different lights. We have these sciences down to a fine art and know what can be done. So, often when we descend to you, you will see strange and wonderful colours. Our space men often appear to you as if they were as yourselves but they could not comfortably live in your particular form of atmosphere. It depends entirely where they come from. Those from Venus can breathe in your atmosphere though with a little discomfort perhaps, and you yourselves, if you were to come to that planet, would find that you were quite able to live there. After a little while you would become more used to our atmosphere and to the heavy moisture which we have.

Question: Ashtar, the shooting stars we see - are they shooting stars or not,

Some are and some are not. Some are what you know as meteors that strike your atmosphere and descend upon your planet in different places. But some are our ships. I heard you speak of shooting stars. Well two\* of those were not shooting stars but our ships which had been sent out to observe your particular harbour. (We are trying to gain knowledge of your own world as we know that within the next few years many tremors - I think you call them earthquakes - are coming to your planet, and that in this place where you are now dwelling there will be both tremors and eruptions of some of your volcanoes. But do not be too startled because gradually the warnings will come and the tremors will give you notice when you must depart from some of those places in which you are now living.

\*These were seen over Rangitoto (an island in the Auckland Harbour) by a member of the group.

How the Foolishness of Man Is, Even Now,  
Affecting the Physical Body  
(Avita, 6/10/59)

Let all men know that it is most necessary at this time that they should agree one with the other and cease from all those terrible murderous acts which they have done from the beginning. In fact they simply MUST do that because, if they do not, then this world will be utterly destroyed. We of the spirit know this to be the perfect truth. Man must agree with man and those that have not the love of humanity in their hearts must be discarded.

It is most necessary that they should refrain from putting forth into the atmosphere those things which will fall upon them and destroy them and their children and their children's children. Even as a result of what men have done up to the present there will be upon this world much sorrow because of the afflictions that will come upon the young. The destruction has already started. Leucemia, that form of blood anemia which is a destruction of the red corpuscles in the blood of man, is now descending upon this planet and those scientists who have the knowledge and the power must at once seek ways and means of averting this sorrow. Alas for those who have the young of these days! Do not envy these ones because the sorrow will descend upon the Earth through the foolishness of man. Let them now stay these things. If they do not so, man will convert himself into different forms and those creatures of the Earth that dwell therein, those who browse upon the grass and the fishes that are in the sea, will each have much malformation and thou wilt take these things into thy physical being. It will not do much harm to those of many years but I pray for the help of those who are with young and those who are young. Great sorrow is descending upon them already because of the foolishness of those who think they know better than the Almighty Creator of all.

Question: Can you not offer us any protective measures?

We do our utmost but man continues in his foolishness. He cannot destroy that which he has disturbed from beneath the earth, that which the Creator placed there for the good of the world which He created. Man has taken it from below the earth where it was put that much good might come; but man having found these powers, these metals, these forms of destruction, is using them for a purpose which was not intended in the beginning. So now he must train himself so that he may learn of many things which will discard this sorrow which is descending upon all mankind. In thine atmosphere, in the years to come, there will be falling upon thee many things which are not desirable but which will give to man sorrow of the physical body.

Advance! Go forward, O my friends! Let thy scientists who in their foolishness have brought these evils upon thee seek for those things which will stay the disintegration of the physical body. By the help from those of the Inner Light and by the many things which will be inspired into the minds of some will these sorrows be stayed.

Question: Is that the only way the remedies can come, friend, through inspiration from the scientists?

The only way, my friends, because the Creator gave to thee that Inner Light so that thou wouldst gain the inspiration to destroy that which was not for perfection of thyself. Go forward, my children. Pray for help. Take to thyself that which is good for thy body for it is of necessity to do so. To regard these things as if they were of no account is very foolish. Man taketh within him many things that are undesirable for his physical being. Depart from bloodshed for it is not necessary and many are destroyed thereby. Depart from me, thou people of sorrow for thou knowest not the things that in thy foolishness thou doest unto thine, our physical bodies. Depart now from the teachings of the Almighty Father, He who gave thee purity of the waters, He who gave thee to indulge in the rains from the heavens. He has given thee so much, yet thou who are of the physical man thinkest that thou knowest more than the Eternal Father; but it is unto disaster that thou goest if thou wilt take of those things which are not good for thy being. Farewell.

Question: Who is speaking, please?

I, my friend, am Avita. I have not spoken to thee before. I know the course in which thou are going and these things must be averted from thee by the wisdom of those who have thy future in their hands.

O Light Eternal, descent upon thee.

## A Former Inhabitant of Lucifer Speaks to Earth

(21/9/59)

I who speak to you am one who once dwelt upon Lucifer. I have come to speak to you of the Dark Star (Earth) to warn you that if thou dost not evolve to greater heights thou wilt find that there will come unto thee much illusion and sorrow.

Question: Is Lucifer a planet, friend?

I, my friend, am now upon that planet which thou callest Venus but I was once upon that planet called Lucifer which long aeons of time ago disintegrated into many pieces - where there has been nothing since but chaos.

Question: What is its name now in the heavens?

It is Lucifer. It is a belt of Asteroids in that place where mankind with his mathematical ability was enabled to find that there ought to be another planet. When he found that there could be none there then he concluded that this belt of Asteroids was a planet which had disintegrated and become as nothing.

At the time of its destruction there were many who had great ambitions but they knew not how to control the forces which they had acquired within their hands. In their ignorance they were gaining too much of the horrifying things and they themselves were impure in character in every way. There were none that were able and allowed to continue in existence as physical beings for the Almighty was not satisfied with the form which they were taking. So they were destroyed utterly and, although the spirits of some, that part of them which was not of a physical nature, went on to other places, still they were not allowed to develop upon those other planets in their natural physical form, but only if they adopted the same physical form as the other inhabitants of the particular globes on which they wished to incarnate. When the people of Lucifer, in the blackness of their hearts, destroyed themselves, the Almighty allowed their spiritual selves to reincarnate that they might receive lessons and chastisement while going through these different evolvments. It was great and brought their spiritual being into a greater clarity and beauty.

Beware lest you in your foolishness bring upon your planet Earth the same fate as that which befell Lucifer long aeons ago. You now are gaining knowledge and inspiration has been sent unto you so that you may be able to evolve and make for yourselves vehicles that you may go forth to other places; for, if you desire to destroy your own habitation, then it is necessary that some of you should go forth and gain some other home, some other place in which to dwell; for only by doing so will you as beings continue which you would be able to dwell. Before the great disaster comes to exist. There are many worlds that require seeding and upon to your own habitation man must gain much knowledge and the

time will be stayed until he has found a way of going to inhabit other globes. Until that time comes man will not be allowed to destroy his own habitation.

Question: How long ago was Lucifer destroyed?

That, my friend, was before you had any history upon your planet - long aeons of time ago. As you know, your world existed many many millions of years before what you call Noah's flood. You will learn in time that this world of yours was civilized for 190 thousand years before that which you call the flood. In your world there were many wise people of that time. Do not imagine, my friends, that you are the greatest civilization that has ever dwelt upon your particular planet. Your world was not always exactly as it is at this time. Constantly is it changing just as all the other worlds in the many universes are. At one time the hills and the mountains that you now see were beneath the ocean as many of your scientists have discovered. Many of your lands that now exist were once joined together. This is very obvious to even yourselves for you have observed that many animals that are similar have traveled from one point to another and could not have done so unless they had had dry land to go upon. And, my friends, thou knowest that many of the beaches are high up on your hills; there are found many shells and marine formations which at one time were beneath the ocean.

And so your world continues to change continually and many wonderful civilizations are unknown to man of the present time because he has not been enabled to gain their history. Yet if he would delve further he would find often among the great deserts many of the wonderful creations of man. In that place which thou callest the Gobi Desert thou wilt find great cities hidden and if mankind would but continue to delve he would find much interest and much information in many ways and forms. As yet he knows but little of his beginning. He began long aeons of time ago; he came from the waters and developed into a creature of the land. The Lord of all provided him with all that it was necessary that he should have and yet he praises Him not and will not say that the Almighty God lives. If he but knew these things from the beginning, his acts would be so different. He defies the words of the heavens. O my dear ones, defy not for the Lord is powerful. He has you all in His hands and in His way thou wilt go even if thou desirest it not, for thou wilt be refined and sharpened and become a finer and more beautiful instrument in His hands. I would say farewell to thee.

Question: Are you a physical being from Venus or a spiritual being?

I am a spiritual being. My name is Ahalius. My being, my spirit, came from that planet that was dissolved many aeons of time ago but I have come forth often again and yet again I will go forth because my time is not yet to be enfolded.

God bless you all and keep you.

## Ashtar Speaks of the Light of the Spirit

Dear friends of Shan, I am here to speak with you and so delighted to be with you, as always. I would that I could be with thee in the material form and that thou wouldst know and see with thy physical eyes that we are with thee. I know that you are pleased to speak a few words with me at this time and we look forward to being with you that we may incline our hearts together and lift ourselves into the Eternal Light and be as one with our Creator; for we know that He is ever with us, that we cannot depart from Him, that He surrounds and permeates our very being always. Not only at one time or for only a little time, not only at night or in the morning, but always He is with us. We feel him surrounding us, rejoicing at our joys and sorrowing at our sorrows.

Question: How do you visualize the presence of the Creator please, Ashtar?

That presence is ever with thee. Thou canst feel it permeating thy being. It is an everliving, an ever overpowering energy which infiltrates into thee and gives thee the light, the life also which thou hast. If that Life, that Light, were not with thee thou couldst not visualize anything for thou wouldst not be; and those things that surround thee thou couldst not appreciate for thou wouldst be as nothing. You can feel this light infiltrating through thy being. Wait and listen and thou wilt hear that wonderful sound which permeates all the existence and all the spheres and planets. They go on murmuring the name of the Creator. If thou callest this to thyself thou wilt find that there is in thy physical being something greater and more beautiful, and the peace that is within thee will be more intense. Even when thou leavest the physical body thou wilt find that thou art gliding into that Eternal Light and the ecstasy that will be thine will be most marvelous.

Fortunate it is, perhaps, for mankind that he has such a great attachment for his own physical being because otherwise he would desire to go on and enter into that larger life and, although the yearning may be great that this should be, still, upon the physical plane he must continue to do those things that are necessary for him; because he must have that soul as you my children, call it, purified and made more wonderful and better and greater. So detest not thyself that thou are emerged in the physical being because it is most necessary for thy fulfilment. When, however, thou are taken therefrom, the rejoicings in the heavens will be great that one again has come to be with them to rejoice and be greater and happier.

O dear ones, O dear children of Shan, realize that all is given to thee for a purpose so that thou wilt come eventually to that Eternal Joy and gain for thyself the beauty of holiness, love and peace. Pour forth from thyself this love of all, **FOR LOVE IS THE KEYNOTE OF GOD, THE ETERNAL**, and there is nothing else that

is worthy of His love and joy. The love that you give to the Father of all who has given thee so much will be returned to thee a hundredfold. O my friends, my dear children of Shan, listen to my words and ever sing the praises of the Everlasting, that Energy which is so wonderful, that Eternal Light which thou canst take into thyself if thou so desirest it. Sit, my dear ones, in meditation. At least twice a day lift thyself into the Eternal Light if thou desirest the inspiration that can be sent unto thee. Let your heart lift upward into that place of all, that pure eternity and, even when thou hast distress of body, fear not; for all is well with thee. Oft there are sent to thee these discrepancies in the physical body to stay thee from more harmful unnecessary things which otherwise thou mightest do; or perhaps they are sent so that thy mind might be filled with the Light of the Almighty and that thou wilt know that thou are in His presence and that He ever has thee in His arms enfolding thee and awaiting thy arrival upon the higher plane of light. The blessings that have been sent unto thee. O my dear ones, are many and we would develop in thee that form of being which will enable thee to send forth more light unto the peoples of the Earth. All of you who now are in the presence will gain this power of sending forth light from yourselves.

My dear ones, I am most desirous that these things should be sent forth to the people who dwell on Shan for they require much. In each one of you here present in the flesh there dwells this spiritual light and you may, if you so desire it, become great leaders of the people for forth from this lighted landing place there goes forth a brilliant light which will give to humanity great happiness. The peace that will descend upon this unhappy world of Shan will be greatly to the credit of this small circle that meets within the temple to hear the words from the higher spiritual realm.

Question: What length of time should we give to the broadcasting of the light, Ashtar?

It would be desirous that you should give of your time 15 minutes to send forth the light of healing and peace and joy over your whole world of Shan for, while you are in the silence and sending forth these beams of light, you are being enabled to send messages of joy and peace all over your world. Those that you send these wishes to will feel vibrating within them this spiritual Light and they will do their utmost to avoid doing harm to the beings who dwell upon your world.

Question: Is the light that is sent out helping to shorten the days of tribulation?

It is so. The average people of your world of Shan are good at heart. The good are in the majority. Those that have a lower form of thought are but few in comparison to those who have peace and the love of happiness in their hearts, - the love of their fellow men. There are many of you who dwell upon Shan who are beautifully and happily of a spiritual form and who try their utmost

to help their fellows and do that which is good in the sight of the Lord; but those few who discard those wonderful aspirations make themselves more thoroughly felt because they make a great shouting and a great noise so that it discards and covers up those grand and beautiful thoughts that arise from those who are the children of God.

These others are but young in soul. They will eventually find that they have the joy of the Lord in their hearts and to them will come comfort. Then will they try their utmost to help those of their fellows. But a little while and all will be of great grandeur upon your world of Shan. Unfortunately for a little while those who shout and bellow in the wind, those who know but little, will cause trouble and tribulation, but, by the power of love and kindness and toleration, all will become beautiful upon Shan and never again will man depart from the laws of the Almighty Father. Do not be dismayed, dear ones, when you see within your "daily papers" words of those many departures from the laws of God, because these are but few among the many. Remember always that many have aspired unto the Holy Father and will gain that Light unto themselves and be enabled to send it forth unto those others who have little as yet of the Light of the Spirit.

O dear children of Shan, you allow to be born upon your planet many who would not be with you if you had the law of God within yourselves. You allow those who are not of much account to produce of those creatures which are of a lower order and but young, very young souls. You develop them and protect them and let them also produce from themselves others who are of even a lower order. You can state this if you desire but you who dwell here and speak with me have but little power and your leaders who dwell upon Shan take not this into their minds or their thoughts. They should take from those the power of producing others and then all would develop as they are upon those other worlds where the Lord is the predominant ruler of all being.

Farewell, dear children. The divine Spirit, that Holy Light be ever with you. Let the inspiration that comes unto you be developed and be evolved into words that are as lightnings and will be thrown forth to those who dwell upon Shan and those who desire the words from the Spirit. I have great joy in knowing that thou followest the words of my teachings.

NADA

I must come for just a little. You know it makes me feel so humble when I look at all those wonderful beings that surround us here. How fortunate we are that they should come to speak with us. They are still here with us and they all look so very beautiful and are looking with smiles of love and joy on us. I will say goodbye for a while and God bless you all.

## Ashtarbeulah Answers Questions

I hear you inquiring about me and so I came to speak to you. If you desire to ask me any questions, I will answer, if it is desirable.

Question: What do you advise us to do Ashtarbeulah to increase our psychic qualities?

You are doing that which you can, I know, dear ones, but you can also refine yourselves and make your thoughts and your aspirations even higher than they already are. Many of you, dear ones, take into your physical bodies many things that are not desirable and it is difficult for us to get past this physical form which you have and to instill into your minds the thoughts which we would give to you. Do you not, dear ones, ever sit in meditation and take the words from the higher life, those words which we try to give you? If you would take these words and put them down, then you would find that you were gaining an inspiration from our realm.

Question: Did you once live on the Earth plane, Ashtarbeulah?

No. I have not dwelt in the flesh on the Earth at all. I dwelt on Venus and have been there several times but before that I dwelt in another galaxy, that of Agaman, far away from this.

Question: Agaman?

That is so. You have spoken the word. How difficult we find it to speak the names of places! You see we send a vision to the instrument; that is how we are enabled to speak your language. The instrument unconsciously interprets the vision into the language which is suitable for you to hear. If we were going to another nation we also would be able to put forth these things to that instrument who was being used although she spoke in quite a different language. We are able to put the language through many different instruments but not always as correctly as we would desire. So many aeons have passed since I dwelt on Venus that I have become quite enabled to speak the many languages of your world myself. We gain knowledge of the peoples of the many places of this and other galaxies and learn to understand their thoughts and their speech.

Question: Where is the spirit of the instrument now, Ashtarbeulah?

The spirit stands aside and we make it quite unconscious for the moment. At first we took the spirit to many places but now we find that we just need to displace the entity and step in ourselves. We gain control of the brain of the instrument. As you know, the great nerves that come from the brain pass down the back of the neck to the right hand and control the whole body. Well it is essential for us to gain control of that because if we did not we could not put any actions or any words through to you. The great power that is over the body comes from the brain and only by gaining control of that can we ensure that we will give you that which you desire.

Farewell, dear ones. God be with you always.

## “In My Father’s House are Many Mansions”

(Aminabad 7/9/59)

I would come now and speak to you, I who spoke to you many long months ago. I am Aminabad who once dwelt in the flesh upon your Earth as one of the Israelitish race. I was one who came to speak with those who needed my advice - but they took it not very often. Ahab, the wicked king, was one who took no notice of my words and he went forth and came to disaster.

There are so many who divert their way into the wrong path and because of these things much unhappiness is sent unto them though perhaps not only in that same life. For, my dear ones, thou knowest that oft thou returneth into the flesh but not always to dwell upon this place where thou now art. In the heavens here are many places to which you may go. Thou mayest incarnate upon a star many many light years from this one which you call Earth, or perhaps upon other nearer places of the hemispheres. Thou mayest even go into life in some slower system that thou canst not see at all from this place where thou dwellest, for there are many wonderful things and the creation and the Creator are more wonderful than thou canst conceive of. Man, as he gains intelligence and knowledge, will be enabled to go forth to some of those nearer worlds which he will enjoy and be astounded at; but in the physical being he will never be able to go to the many far places. Thou knowest that there are enormous and wonderful worlds that are revolving around other worlds even as in that which thou callest the atom which is but as one of the larger systems in miniature. Thou knowest that, in the atom, particles revolve around an inmost sun which I have heard that thou callest a nucleus or proton. The electrons are as the worlds that surround these many suns (nuclei) and upon them there can be living entities. You, my dear ones, may not be enabled to see them because of the intense minuteness but they are there.

Well, my dear ones, I was speaking about those many wonderful hemispheres which are in your so-called sky. My children, you cannot see perfectly but often if thou takest thy night glasses and lookest up into your heavens you will observe as it were a single light. But if thou wouldst focus thy glasses upon this light and enlarge it thou wilt find that it often divides the single light into several discs, not larger but more minute. Thou wilt observe perhaps that these are several mighty lights though they have appeared to you as a single light. They are marvellous and huge globes many many light years from each other and surrounding each of them are their satellites which revolve around them. As thou goest forth, as thou seest these things, thou wilt observe perhaps often many of these suns shining unto thee with a different form of light, some

blue, some green, some red and some a wonderful lunar shade of white. These various colours that come from them are caused by the different forms of gases and metals that are upon these great and mighty worlds. How wonderful are all these things!

As thou canst understand, my friends, it is not necessary that all those who dwell in these far distant systems should be built as thou art. They are made suitable for their environment as thou knowest. Even thou of your own planet seest various types of creatures each one suited for the elements in which it dwells. And so it is upon these great and glorious worlds. Some of these worlds are so enormous and so heavy that thou couldst not live upon them in your present physical form; because of their great gravitational force thou wouldst be pressed flat and thou couldst not move from them. Gravitation is a wonderful power which the Almighty Father has created so that thou wouldst not fly off thine own habitation. For, if there were no gravitation whatever, thou wouldst find that thou wouldst be swept into space. I know that many of you desire to depart from your own place of habitation and to go forth to these other dwellings but you will have to learn first of many things. In outer space there is no gravitation whatever and you would find that you would gradually become larger and larger and eventually explode. This happens, for example, when those creatures who dwell in the depths of the sea are brought upward into the lower pressure of your atmosphere. They gradually swell and then their organism bursts and they can live no longer. That, my children, could become the case with man if he took no notice of such things and went forward into outer space. Where there is no air he cannot live and where there is no pressure he cannot live. Thou are built to stand the great pressure of thine own atmosphere. If thou wert to go forth to these other places thou wouldst find that there were great dissimilarities between them. Some are of light gravitation and consequently thou wouldst find that if thou wert to try to walk upon these places thou wouldst leap to great heights and might cover in one step a mile or even more. There are many things for thy scientists to consider as yet ere they may go forth into these places for the Creator made thee each one suitable to thine environment.

Many imagine that thine animal body is the only kind that is made in the likeness of the Creator but they are utterly ignorant. It is the soul and the spirit which is as the Creator, not the dress that thou wearest. The bodily form must suit the environment of the place in which it dwells. There are many beings who have intelligence which is similar or even greater than thine own but who are utterly dissimilar to you physically. Yet they are not monstrosities. Thou wouldst be the monstrosity if thou camest to dwell where these ones are. How narrow mankind still is in his views! He will not advance unfortunately but ultimately the philosophers

and those who know better will discard those foolish thoughts which they now have and will acknowledge that the animal body which they possess in this world is not suited for other environments than that in which it now dwells.

I would leave thee and give thee the blessings that can be brought to thee if thou liftest thyself into the Inmost Light, that Spiritual Essence which is all things. The Heavenly Father pours His love and blessings upon you and keep you ever in His Holy Light.

## Acquisition of Knowledge During the Sleep State

Each night when you come to us you go to places of instruction to receive information which is sent from the Inmost Source to help you. There are many all over your world at the present moment receiving instruction in different forms and different ways. Not always can we actually speak but we can inspire and we can also control the mind of many people and make them put down upon the script those things which we have put into their minds. There are many many at this present time. As you have been informed, at this time, many will see visions. Many will hear the harmonies of the spheres and many will go forth and speak to the people and give the word to mankind and try their utmost to heal and speak of the good things that have been to man.

Question: Will that be the knowledge they have acquired in their sleep state, Ashtar?

That is so because continually you come to us. Do not disregard those things which you may remember when you arouse yourself from that which you think is the deepest sleep but try to keep these things in your mind. I know it is difficult to bring the spiritual thoughts right into the physical brain and even when you bring these things they are illusive and fade away very quickly. I would say that if you would impart these things that you remember at once upon waking or, if you could write these things down, then they would stay in the brain of the physical body and you would be enabled to think of these things.

## A Being From a Satellite of Aldebaran Speaks

You peculiar people! You are very peculiar people! You are not just like me. I have my red fur. You are different. You have not got these pretty high ears I have.

Question: Well, you have come from another planet, have you?

That is so. I come from yonder light, white far away. I came from Bethel, far away, near Aldebaran. It is one of the worlds which

goes round Aldebaran. I am a female being but I am not like you. I walk on my hind legs and I bend backwards. I have ears that stand erect and I am covered with nice soft fine fur. You are terribly naked people!

Question: Well, why do you wear fur?

I have the fur to keep me warm. I need it.

Question: Is it cold at Aldebaran?

It is very cold. A lot of white - what do you call it? - white dust all over the place and a lot of things you can see through - a kind of glass. Is it glass?

Remark: Ice.

Yes. We see right through it.

Question: What has brought you to us please, friend?

I was called to speak to you and so I came.

Question: Who called you?

The man called Adebuis came to me and said I should come down to show you that there are other beings like to yourselves but with different form.

Remark: You seem to have a lot of intelligence, friend!

I am similar to you within but my physical body is not the same. I have the same feelings and thoughts and I love and I hate and I long for many things just the same as you do.

Remark: We in this group do not hate.

No. Perhaps you are the nice ones but there are many haters too in your country and many who have no control of their feelings - less even than we have, because we try our best to control all our beings and to live a life so that all will be happy together.

Question: Do you worship the Creator?

We know that there is One but we know also that there are many others who can intrude themselves and hurt us if we do not follow the right light. We know that there is a line which we must follow and that if we diverge to either side of that line then we will fall into the marshes and will gain much sorrow; for in the marshes are many unpleasant beings and we must go forward right on the light.

Question: Does Jesus visit your planet?

No, not that One, but there was one great one who came to help us.

Question: Do the beings on your planet fight one another in war?

At times they are just like you. They kill one another and some of those beings on our planet eat one another the same as on your planet. There is very little difference except in the shape of us. We know, we are able to see you. We are brought frequently to observe your antics. So we know that you do more cruel things than even we do. But there are many of you also who are trying to be good just the same as on our own planet. We despise those who would hurt one another on our planet too and we try to be good. We

love our own young as you do but we have more sense in some ways than you do because we see that our young obey us and do the things that they should. If not, they go to the dark place where they must learn many things, but we help them as much as we can. We notice that you on your planet let your young do awful things. We never see our young doing the terrible things that you do. Your young snatch things from one another and they - (what do you call it?) - steal. Is that the word? Well, our young do not do that. They are taught to give.

Question: Are your homes underground?

We are on the rocks. We live on the rocks and, if we can find a comfortable cave to live in, there we dwell because around us is much cold and snow. We have a coat all over us like you have on your heads only. It is thick and warm and suited for our world. If you could only see us! If you could see my family sitting around! We have learnt the use of the steam that comes out of the earth. It is warming and helps us very much.

Question: How many children have you?

Well, my dear friend, I could not count them very well because I get ten at a time and they come frequently, every - I do not know how you count your days at all - but every time that the climate changes I have my little ones in my warm and quiet place which I have dug out in the snow. Under the snow I have my little ones and when the climate changes again, when the light comes, then I come out with my little ones and we hunt around. We eat of the moss that is beneath the snow which starts into growth when the light comes around.

Question: Is your planet dark at some periods?

It is very dark at times and then the light comes. There are many different kinds of places in our world, just as there are in yours. Some are deep in liquid; some have the snow. Others have the gum that sticks and we must not go there for we would be embedded and might not be able to get again into the light but be down in the - I don't know what you call it; it is like black sticky stuff - mud. It goes down very deep and if we get entangled in it we would find it very difficult. Also we might meet the inhabitants who are not of a nice character for they would eat us and we would not get out of the mud again.

Question: Do you travel from one planet to another?

Only when we are invited to come. It is only now that I have been brought to speak to you.

Question: How did you travel here?

They put me on the beam of light and told me that it would be good if I would speak to you. So I am now speaking but they tell me I must depart in case I give my feelings to this instrument that I am using and I do not want to do that. Neither do those who have brought me here. So I must go. God bless you.

## The Lord of the Flame Speaks

Listen to my voice, O ye children of Earth. Open thine ears and listen to the voice of the speaker. I who came from the Innermost Life, I who am ever with thee, I who have spoken to many and who go forward through the Earth speaking to all who will hear my voice, I have come to thee, O children of Earth, to help thee and to show thee the way that thou must follow for thou must hear the voice. In thy spirit it will appear and those things which thou requirest, those things which thou wilt accept, will be sent to thee and given to thee. The words that come from the spiritual realm to thee must give thee great joy and peace of heart because thou knowest that thou art not just as thou art at present. Thou art something much more wonderful, much more Divine and much purer and greater. Those things that wilt be of great gain to thee will be given to thee if thou wilt but apply thyself to the higher realms and wilt bring into thyself thoughts of the higher life. Then wilt thou praise the heavens. Thou wilt praise the Inmost Source of Energy from which all these things proceed and which are given to thee so abundantly.

O my children of Earth, listen to me. I speak the words from the Almighty One, those words which thou must obey. If thou desirest to be sinless, it can be given to thee. Only apply thyself. Lift up thy soul into the higher realms and those things which destroy the spirit, those things which deteriorate the body, will be sent from thee and will harm thee no more; for only must thou obey the laws of the Almighty, those laws of right which have been sent to thee.

Question: Who speaks please?

O dear ones, I am here with thee. I am one who has spoken aforetime to thee. I who am the Lord of the Flame am with thee now and, if thine eye were but open and thou couldst discern me and couldst see these things which surround thee, thou wouldst praise the might of the living God who has created thee. Thou art of Himself and we who are of the Spirit are His servants to do His bidding. O ye children of Earth, obedient thou must be to the laws of the Almighty if thou desirest to advance into the higher realms. Much has been given to thee, much thou hast of beauty and of joy if thou wilt but discern it. If thou wilt but know that these things are sent to thee! Thou hast thwarted the Divine Law often but you, my children, have been sent on the way of life. Often your path has diverted to other ways but still the Divine Source, that One, the Inmost Energy, has sent us, His messengers, to you so that we may bring you again into the Higher Life. These things that come to you, these lessons that are given to you, you have brought to yourselves with your sinful hearts, those hearts that have become dark. So far from the Divine Source have ye wandered that only by chastisement can ye be brought again into the way of life. Oft the Divine Father has sent us in love to scourge ye into the path of life. My children of Earth, if you could but note these things, you would

find that the love of God is so intense that only as a Father chastises His children for their own and peculiar good does the Divine One chastise ye. Many things will come to you, my children of Earth, many sorrows perhaps which you will take to yourselves as sorrows; but if ye but knew it you would find that these sorrows are for your eternal joy. As you go forward, when you have the voice calling to you, when you find those inspirations which come to you, those beautiful words that come from the Inmost Source, then you will note that your joy is ineffable and that the ecstasy which you receive of peace and happiness will be intense.

O my children, lift yourselves into the Eternal Light. I, the Lord of the Flame, speak to thee and would take thee to the Eternal Light. As time goes on you will find that there will infiltrate into you who live in the flesh many of those spiritual attributes that are so necessary and these things that will come to you will raise all those who dwell upon the Earth into the higher realm.

Farewell, my children of Earth. The Eternal Father sends you all those benefits which are so good for you physically and spiritually.

Nada Comments:

I must come and speak to you just for a little while. You know that very bright spirit that just came here was standing here in all his flaming lights and if you could have only seen the wonderful power and the wonderful lights that seem to shoot from him! That is the only way I can express it because the light was very very wonderful and mostly it seemed to be in wings of flame. I have before seen him but he comes not very often to speak with us.

## BEING TRUE

From "MESSAGES OF LIGHT, Given in His Name"

"To thyself be true, and thou canst not be false to any man."

Many do not understand the significance of this saying. They think being true to self means getting for themselves as much as possible, even if this getting for themselves brings ruin or injures another. By "self" in the quotation is meant one's Higher Self, the center of the individual, his God-spark divine.

One cannot be sincerely true to his High-Self, this God within, this Christ within, without being true to all men. "Love thy neighbor as thy self," the Master said. Loving thy neighbor ye cannot harm him. Loving thy true High-Self ye cannot harm thyself.

True love is not selfish love, is not self-seeking. True love is of God; it completely erases from consciousness the baser motives of catering to the desires of carnal man. True love puts the interests of the mate, friend, or neighbor first, and does nothing to injure these.

Be true to this Higher Self within ye. Be true and it will follow as inevitably the night the day, and the day the night, that ye will truly love thy neighbor as thy self.

Given by Paul, an Apostle of our Lord and Saviour, Jesus Christ in His Name.

Amen.

## “Lighted Landing Fields” or “Landing Points” (Ashtar)

From groups such as yourselves who sit in prayer and who open themselves unto the higher forces a wonderful light shines forth and is seen by those who come from the higher spheres. We note these lights and may descend and gain contacts with them. As thou knowest, my children, and, as thou hast often been informed, thou hast only to lift thyself into this light and thou wilt gain much and thou wilt also be in contact with that Divine Light; for it descends upon these landing points. There are many in many countries who await the Presence and who would gain contact with those who are on the spiritual side of life. How easy, my children, it is and how happy are those hearts who gain this contact with the Divine. Dost thou not feel thy heart lift, dost thou not feel an inflow of the Presence of the Divine when thou liftest thyself up into the Divine Light? From each of thy places of worship, from each of thy temples there goes forth that wondrous fluid which is sent forward into the Eternal Light and becomes one with itself. If within these habitations there is love and beauty and the thoughts for all mankind then this is acceptable to the Eternal Father, He who created all things for Himself.

### A Conversation With Nada the Doorkeeper (1/6/59)

I must speak just for a little while. Of course you know that I am only Nada.

Question: How is Mary, Nada?

She is getting on very well. She is a dear little black baby girl and is going to become something very wonderful because her mother and father are great in the way of the spirit. Although they are black they are very spiritual in their thoughts and will help Mary. She will become a great leader. Her father is a great chieftain who will send her to be educated in the universities of the West that she may be able to instruct her own people in all kinds of ways.

The women of these races are coming forward just as the women of your own race have done and they will give to you all much upliftment for the female is inclined to be more spiritually perfect than the male who has so much interest in other fields and so many different forms of amusement which are not of the spirit. It is better for the mothers of the races to be of that form of character because they are the mothers of the world.

Of course, Mary is right out of the spirit life now unless she

comes at night sometimes when she is asleep. But she is not up to that yet because the brain of the child is still very immature. The brain has to grow up and become interpenetrated with the spiritual brain and it takes a little while. It is all very peculiar is it not?  
Question: Do we see you when we come over at night?

Often we see and speak with you and take you to different places but unfortunately you only now and again get a little peep in a dream and it comes in a very peculiar way.

Question: What did you do on Earth, Nada?

I was just at school and I had only left school when I got consumption and died. It was not very long before I came here. But O I don't mind! I love it! It is much nicer here than where I was before. I am having a really lovely time in a beautiful place.

Question: You don't want to come back to Earth, Nada?

O no, no! Did you ever hear any of us wanting to come back to Earth? It is so lovely where we are and it is so easy to live. You know often it was hard to live in the flesh. There were many worries and troubles which we could not always overcome but now we do not have any of that sort of thing. We have lots of fun.

Question: What do you really do?

Well, I do so many things. This is only one of the things I do.

Question: Do you live in a house?

Well, I don't know just now. I stay in the institution. It is beautiful and there are a lot of other girls with me. We have a lovely time together and we are being taught by the higher ones so many things. This is one of the things that I have to do and afterwards I am hoping that I will be able to take charge of some of the children to teach them. You know, I love the children. They are so sweet and of course they have to be taught many things because after all they are only children still. Even the fact of losing your body does not mean that you have altered very much; you still have to go on. The fact of dying does not make you very good or very bad. You are just the same.

Question: What food do you eat, Nada?

Well we can get anything we like if we fancy it but I don't feel so interested in food now. There are so many other interesting things to do that eating seems to be past. You see my spiritual body does not need that kind of thing and the knowledge that I get is food for me now. It is all mind here, you know, and you do not need nourishment for the physical body, but you do need nourishment for the mind.

Question: Do you go in for deep breathing?

No. I don't do very much of that either because you see I am not a physical being. I am a spirit and I do not need all those kinds of things.

Question: How do you dress, Nada?

Well, I will describe what I am wearing now. It is a pale blue robe that goes over my shoulders and comes right down to nearly

between my ankles and knees and I have a belt around my waist and part of it is thrown over my shoulder to confine the material so that it fits well.

Question: Do the teachers wear blue robes?

Some do and some don't. Many of them wear grey or yellow and it depends upon the things that they are teaching at the time. Some wear the same shade of blue as I am wearing but there are many others of us who wear blue of all different shades. I like that soft pretty blue that I am now wearing. It is not like your sky and it is not dim; it is a softer colour, and it has a bit of grey in it, I think that makes it not too blue.

Question: What is the material of your gown?

It is made from the strands of the air. I must go. God bless you all.

## PEACE

From "MESSAGES OF LIGHT, Given in His Name"

(Vision: And Peace gushed forth from the mountain side like a mighty river, and I plunged therein and bathed my head and face and arms and hands and let the waters thereof flow over me, until all the parts of my inner being were fused into one harmonious whole and became integrated in Peace.)

The Lord's Peace flows forth from Its Source with tremendous power at all times for man to contact and become at Peace with himself and the World.

But man builds his own inner turmoil and sends this out in thought forms throughout the world and the unaware bathe in this turmoil rather than in the Father's River of Peace, and so turmoil grows apace and Peace is not felt.

Ye, who have once contacted the Peace of the Father that passeth all understanding, can watch thy thoughts more constantly and see to it that thou dost send forth this Peace of the Father, rather than the world's turmoil. Also, having once sensed that Power of His Peace, it is thine own fault if ye let it go from thee no matter what the circumstances.

Peace within, sent forth through thought to the world without, is a mighty weapon in the service of the Lord. And then think ye not that thought sent out is of no avail. It availeth much. Send out in thy thoughts the feeling and inner sensing of the Mighty River of Peace of the Father that passeth all understanding and ye will know that ye broadcast His Power for Good. Amen.

Given in the presence of the Angel of Peace and in the Name of the Lord Jehovah God by Prince Michael.

## A Tibetan Lama Speaks On the Human Aura

(13/7/59)

The Light dwells ever with thee. O dear friends, I have not been with you before. My name is Rinshaw and I have come to speak to you of sundry things which you desire to know. I will inform thee about that Light - the aura as you call it - which surrounds and denotes the condition of the physical body. When the coloration is grey it denotes lack of physical health or indicates that the person has an objectionable character - for those of objectionable character have many unpleasant colorations surrounding them. We of the spirit and you also who can get a vision of this aura are enabled to know whether the condition of health is high or low. We know, too, those ones of whom we must be wary and those in whom we can confide. You who dwell in the flesh have this power also to a certain extent for often when you meet one you are repelled and you know not why. That is a warning. If you had your third eye opened you would see that the aura of such a one was of an undesirable colour. If you would try your utmost to be aware of these things and open your eyes then you would never be taken advantage of by any other beings for their auras would warn you.

You have often wondered why you are attracted to some more than to others. Well, my dear friends, that is because their auras are like your own or of a coloration which attracts yours. If your men of medicine would but open their third eye they would very easily be enabled to diagnose the troubles that afflict the human frame. Where you have an ailment in the physical body there forms a greyish patch which infiltrates often through the brighter and more beautiful colours within your aura. This essence which you send forth from yourselves can also cause inflictions to others who may be near you for if you have a hasty temperament and send forth flashes of vivid red into the atmosphere then it can cause a rousing of the disposition of others who are surrounding you. You have heard of mass psychology, my dear friends, and how when a mob gets together they gradually become so intense on the unpleasant things which they desire to do that often even those of a gentle disposition show an unpleasant attitude. So a mob of any kind which has become infiltrated with the same sort of colouring could cause considerable trouble. These things oft have happened in mankind. He is a very peculiar creature and often when men get together who have much of the same attitude towards the physical life then they think as one and give the impression of being twin souls. But antagonism can be flashed forth also and through the aura it can become antagonistic to another. You feel these things though you understand them not; but hate begets hate, love begets love and so on, through the emanation from the aura. You, my friends, have somewhat of the same coloration in

your auras. Some have not perhaps as bright an aura as others owing to physical disability but that can be helped by trying your utmost to draw to yourselves the Inmost Energy. To you it will come if you so desire it and the Light that infiltrates from your own aura will gradually become as the aura of the Inmost Energy and they will cling together. This Source of Energy will gradually flow into your own aura so that eventually it will become perfect and beautiful and pure.

We of the spirit are fortunate that we can see these things but you in your ignorance, dear ones, you imagine that you have a certain drawing power to others who are of the same kind as yourselves, but it is the flow of the aura into the other. Your aura is as it were an enveloping light all around you, larger at your head where the mind is and tapering down to the feet. The auras of some people extend only a few inches from the physical body while others may extend for several feet. The possessors of these wide auras can send forth power to others because their aura can overlap those who are near enough to feel the influence.

We who see much go to the meetings of worship where many raise their emanations upwards to the Divine One. From them there comes one beautiful mass which is mainly of a lovely blue kind and we see this bright glorious emanation surging upward into the atmosphere and surrounding all those who have the same object in view. From these places of worship we see this Light ascending and it is gathered and is become permeated with Divine Light which comes from the Inmost Energy.

I, my friends, am but a lama of Tibet. I am even yet in the physical body and have lived many years and I can come to speak to you at times. Farewell, my friends, I have many things to do. I go.

## The Power Within Man

Do you realize, my children, that you have within yourselves great powers which you can use if you desire to put them to the best? It is not necessary for man to labour in pain and suffering if he so desires to illuminate himself and draw to himself those greater powers.

Question: Where does he draw them from please, Ashtar?

From the Inward Source of all, from that Energy which is ever around you, that Radiant Energy that is so wonderful and which surrounds you ever and from which you need never depart. Draw it into yourselves and that which will be given to you will be of great wonder. You have no need to have pain and suffering.

Question: Do we draw it in with the Holy Breath?

With the Holy Breath you can draw these things. Look towards the rising sun in the morning. Open your windows and draw

in this Breath of Life which is yours but for the asking. Also in the evening hour open yourselves to the Light and ever you will gain that great and wonderful thing which you desire, that Light that comes to you from the Inmost Source, that wonderful Energy which ever surrounds you. Draw into yourselves these wonderful things in deep and mighty breaths that there may come to you healing and joy. That Spirit which you yourselves possess will find this Inward Light and you will gather to yourselves all that is most desirable.

## When the Call Comes

(Ashtar 27/7/59)

It is put into the hearts of those who still dwell in the flesh that they should treasure their earthly existence and endeavour to keep the physical body in a desirable state free from sickness and sorrow so that it may continue to be used by the spirit. This desire must be kept in your hearts for, if it were not, many would leap forward from the flesh that they might go to the higher life. This would not be advisable because you have entered physical life for the purpose of furthering your development. But, my dear ones, you know that you will not always dwell in the flesh and when the time comes that you are ready for the higher life it is not desirable that your way should be stayed even though that Wonderful One could heal your body. To each of you, at the suitable time, there will come the great call and you must answer it. Then will you go forward to greater joy and gain a finer and more beautiful body in which you will be able to function to much greater purpose than now. There is nothing to despair of, my children, when the call comes.

Many, of course, who come to the spiritual realm are unprepared and are afraid for they cannot imagine that they have departed from the physical life and know not where they are. But it is our duty to comfort them and to direct them to the places which are most suited for their evolution. It is our duty, too, to send for their dear ones who have passed over before them so that they may meet them and know that they are still with them. How delightful to us it is to see the many happy reunions that occur in this wonderful place of light!

Remark: How perfect the Divine organization is, Ashtar! We often think and remark upon it.

It is most wonderful! The Creator of all knows all and has arranged these things to the utmost. Let no one give you the word that there is no Creator of the universe. He dwells with you and around you, is in the midst of all. He is the Light of the universe, a Wonderful Being who knows all, hears all, sees all - a Spirit of purity, glory, honour and power. How wonderful is this One, how worthy of praise! And, my dear children of Shan, you are all of Him, you belong to Him, you can speak to Him and you can hear His voice if you so develop yourselves.

When you come into the spiritual realms there will come into your minds all those things that you have done and those things which you have left undone while in the physical body. The thought of those things that you have left undone but would have done will be to you of great sorrow while many things that you have done of which you think little, things which have been for the glory of the Divine Energy, will enlarge and become of greater Light and you will have much joy and will go forward to that place to which your good works have entitled you.

Question: Are all these works done and left undone recorded in the aura?

Not altogether in the aura are these things recorded but upon that recording of the world, that part of those records which are kept forever in the ether.\* Nothing, no act that ye do, is omitted; all things are recorded, even the consequences of those things that you should have done but left undone, omissions which perhaps you have not regarded as sins but appear so in the eyes of the Almighty. All your acts and omissions are recorded and found for your sorrow or for your justification.

### A Message of Comfort From the Angel Azrael

Blessings upon you, my children, you who dwell in the flesh! I would speak to you, I who am Azrael. I have spoken to you before my children, you who some day will meet me and whom I will take in my arms. Fear me not, my children of earth, for I am gentle. I love you and will take you to the footstool of the Almighty Father where you will dwell in peace and all will be well with you. O my children, I take you from the sorrows of the earth, from those troubles and sicknesses that afflict your body. I discard it from you and take you into my gentle keeping. You call me the Angel of Death but that I am not for I take you in my keeping and give you everlasting life. All will be well with you when I enfold you in my arms and take you to the footstool of the Almighty Father, who will pour His blessings and His benefits upon you.

O Eternal Father, Creator, keep us we pray and help these Thy children. Let them fear nought. O God Eternal, let them realize that Thou art with them, that Thou hast sent Thine angels to keep them and guard them from the beginning of their earthly life to the end. How happy they will be when they realize that they will gain eternal life and that Thou hast them in Thy keeping. We who are Thy servants will help them and they will find that nought can injure them, for we surround them with Thy Eternal Light. O God Creator help us, we pray!

### A Comment on Azrael by Mary, the Doorkeeper

Azrael is the great angel. He is so beautiful, so wonderful, so lovely! It is hard for me to describe that one. He comes with the billows of light flowing from him. He has the most wonderful

colours and the most beautiful face that you ever could imagine. You need not fear when Azrael comes to you for he will come to you all in time - he comes to all who are of the flesh. He came for me and, though I was young and feared death, I was overjoyed when Azrael came and took me to himself and brought me into this lovely home where I have dwelt ever since; for the peace that came to my heart was most wonderful and to you it will come too. In his train he brings those whom you have loved and who have loved you, for they also will come to welcome you. It is most marvellous and when we have all lived our life in the flesh and have stayed there as long as it is necessary for us to learn those things which we must do, then the Almighty Father sends word to Azrael that it is time for us to leave our fleshly tabernacle and come to the spirit plane. So the great Azrael gathers those whom the individual has loved and comes with them to take that one to himself and bring him into the Eternal Light. I have spoken and I think we have really had sufficient for this night, so after we say a little prayer for help and health and happiness I think we will go.

O God Eternal, pour Thy blessings upon this group, these who know that Thou art the Eternal Father. Let us O God be near Thee. Let us know that Thou sendest forth to us Thy beams of Light from Thy Eternal Heart, that love, that glory, that beauty where Thou dwellest. We would know, for Thou art the Centre of all things. Nothing passes from the worlds without Thou knowest. From Thee there comes the ray to each individual one, to each one who dwells upon these many globes, for Thou O God art all. Thou hast a plan O Father for each one of us so that we will come to be in the Eternal Home. Amen.

### Love - Human and Divine

(Source Anonymous)

This is an inquiry into the nature of Love. All recognizes its power; every human desires it. It is the ground work of all happiness as ultimately the quality of all true success. The mightiest force in the Universe - it is so instinctive in life - so far reaching and comprehensive in its action that it has been described as the foundation quality of Divinity - God is Love.

That is the root of the matter. Love is the ever active re-creative propulsive power in the Universe which inspires the movement of atoms, and men proportionately. That which a man loves he cannot really be separated from; that which a man loves he must inevitably reach. The bonds thus forged are unbreakable, bringing souls together to learn still deeper and purer reaches of love together.

In the first stages of human development the love power is largely compounded with self interest. A man loves but mostly for

what the beloved object brings to him. His love is largely projected love of self.

The greatest love makes no demands - it is conditionless and free. Perhaps it loves the more tenderly the more weakness is apparent in the beloved. The Master, Jesus Christ, can love the most abandoned wretch because such a soul has so great a need of understanding love. True love is loving in spite of all because with Divine Intuition it sees not what man is but what he may become. To Love is to share our life with another, trying to help him at the level where he stands not from our own. In the school of life in this world we slowly learn to love and all that it means because there is really no other lesson to learn, and as the Love-power in us grows the field of its activities widens and deepens.

Love takes on different characteristics according to its direction. Love looking up to those above is Adoration Love; Love looking down on ignorance and sin is compassion; Love between equals is comradeship, co-operation, fellowship. We adore our loved one's strength, we compassionate his weakness and hand in hand with him we know the joy of mutual service, effort side by side. The Love Power takes on different aspects with the character of the relationship held to the beloved one. Thus the protective love of Fatherhood - the cherishing Love of Motherhood - the companionship of brotherly or sisterly love - the comradeship, the staunch loyalty of friendship - these are variations of Love according to the way of approach provided in life to souls between whom a bond is forming. The most peculiar aspect of all, because fraught with unique possibilities is the love relationship of husband and wife. In this an element comes strongly into play which is more or less latent in any other and is concentrated here for a very unique and tremendous purpose. So important is this and so badly misunderstood that the subject requires very patient elucidation.

Let us think then we who love: How do we love? Is our love of self transformed into the likeness of its angelic counterpart, or is it that desire to serve - that longing for the good of our beloved which is true love? If our love for our beloved is mostly self pleasure in his presence, love to us, that is the smallest way of Love. Not that being loved is wrong. Even Jesus Christ took pleasure in the love of His Disciples and even God is glad when He is loved. But as the Love-Power grows it is more and more glad to do the loving, more and more desirous to serve the increase the other's highest good. Do we Love? or do we love being loved only?

The selflessness of our loving may also be tested by the lessening amount of pain that physical separation brings; by the steadfastness of our loving when that separation is long continued. When love entirely escapes the clinging bonds of self it becomes a greater love, it is pure and free and is no longer human but Divine.

When the Christ consciousness is born within the heart man

begins to love as God loves and to live in the joy and peace which passes human understanding. Drawn by Love through every stage of loving he finds himself a Radiator and transcriber of Love in service forever. To love as man, makes us happy now. To love as God is bliss unspeakable.

God who is love is most manifest in Jesus Christ and He was most highly exalted by virtue of His peculiar office and powers. We know Him as the Christ without. But the same seed of Love and Life immortal lies in every human heart. On its growth and increasing power depend the happiness and well-being of men. This is the Christ within whose development is stimulated, drawn out, by the contemplation and following of the teachings of the Christ without.

What is the God in us but the Love Power in us? The immortal Beauty that finally conquers everything. Hence whosoever believeth in Love shall not perish but ultimately gain conscious Eternal Life.

Through the whole universe the Love Power of God works that inherent attractive force which is over drawing together, unifying, organizing, and when it has succeeded, mightily and sweetly ordering all things.

In the lowest realms of nature it keeps atoms and molecules as well as suns and planets revolving in harmonious relationships. Sometimes as its negative pole it acts as repulsion and the great mystery of Hate is; that is the Love Power reversed and therefore convertible into Love. Note this with an enemy who is made a friend. The love is strong in proportion to the previous hate. But human love interests us most of all. Human love means life and joy; human hate unhappiness and death. How shall we purify and expand our powers of living? By meditating on and practicing loving watchfulness, helpfulness, service; by seeking out that which is admirable, lovable, beautiful in all things; by looking ever upwards and consecrating love by dedication and worship; by striving as much as possible to eliminate the thought of self; asking for no return, looking for no gratitude. If we can do this we will bring to birth a power which will hereafter divinise and redeem our souls.

So, friends, when we know of the mighty Power of Love we can bring it more and more into our lives, and greater still by giving it forth we bring it forth in others. If you have a friend who is antagonistic towards you, you will find the barriers of hate or dislike will fall away - you will soon begin to sense that love has overcome. The great teaching of the Power of Love is what Jesus came to earth to teach. If men would only cultivate that Love in their hearts there would be a way out of all life's difficulties.

It is a parent's duty to instill into the minds of the child of the wonderful personality of Jesus ever holding before him the example

he should follow. Let him know that Perfect Love casteth out fear. Let the Bible story book be an open book in the home. Let us reason with our children what Christ would have done in every problem that presents itself to the young mind. We would have more tolerance, more love, more patience, more forgiveness in our hearts. To have the mind of Christ let each one of us say over and over again until it becomes a part of us: "Divine Love fills my mind and thrills every cell in my body with its Perfect Life."

This living the life of Love does not mean the living of a pious or sanctimonious life; it means a joyousness and Peace and the living of a richer and a fuller life - a life well lived.

## GRACE

(Hawkes Bay Circle)

All beings are divinely conceived in the Mind of God, but few there be who express the fulness of their divinity. He but exists whose life is motivated only by outer, or material things. He lives who obeys the urges of the self-divine. The difference in the two states is like light and darkness; one soul bears witness to the inner radiance, the other bears witness likewise but to the lack of spiritual understanding.

That which is called "Grace" is a state of being permanently expressing the qualities of divinity - purity of mind, kindness of heart, good will of purpose, selfless service, toleration and always compassion towards the less enlightened, never condemnation, but love and ever present example towards good. The Forces of Grace are legion - the Springs of the Life Divine inexhaustible in the outflow of power and with this Knowing - this supreme mark of kinship with the All Good or life force within, man can and does manifest the fulness of life as it should be lived.

Why hover between the two states - between mere existence or true living - when the acceptance or rejection is a personal choice? No good can come from persuasion by another however good the intentions of a self-appointed teacher, except the recipient be attuned to the way of life as lived by those who have ascended beyond limitation. The only way of inner unfoldment is through the desire within to move in harmony with Law - fixed immutable and eternally sustained by the Law Giver. The natural outcome of interior harmony of a life so lived in constant diligence to self-improvement brings the life-forces of the spirit into the soul and the sequence is grace - or divine oneness with man-in-God and God-in-man.

There are no by-paths towards the summit of this achievement but only a straight onward ever upward glorious dawning consciousness of the truth of Self and God, without division and where all other souls as units in the life sustaining grace mingle and merge and all are united within the Love Supreme - each seemingly separate unit an indispensable link with the unbroken chain

which is never uncoupled but remains united - unsevered by time or circumstance throughout eternity's march to perfection through grace for all men. This is the only way of life; all else is but poor imitation. It need not take eternities of so-called time to have the inner realization of this truth. It already is. Man has but to recognize the self-of-God and live it in time's allowance of the necessary period, long or short, to express divinity while yet clothed in the mortal body. There is much to gain and nothing to lose by this Knowing for it can be better accomplished in the mantle of flesh than later in the finer vehicles not designed for purging the earth dross although even in the more rarified vehicles of the Self, there is always the refining of the mind which is the storehouse of soul memory which is everlasting.

Blessed souls of Earth encased in the dense vehicle of flesh, "Let your light so shine before me, who see your good works and glorify your Father which is in heaven." And as Heaven is within - a state of consciousness - the light which shines before men is your own contribution to truth within. You do glorify your God-within by self expression of the laws of your being and you partake of, and participate of, the grace which enables the character so that the inner radiance becomes the outer radiance - the glorification of life lived as one who Knows the Truth which has set him free.

Thoughts are things vibrating life currents of energy in the Etheric stratosphere surrounding the Earth. Minds in tune can receive the rays through their own receptive minds. Thus it is, man and the Masters of Wisdom have the daily bread which is sustenance from planes transcending the octaves of the planes inferior.

Blessings indeed abide with you who make record of our passing and keep the temple within ever receptive. Few there be who inwardly hear the soundless harmonies of spiritual life-waves and to all such whose organism is sensitively attuned to the thoughts of the Inner Dwellers we say our thanks, in like manner - silent soundless and in Peace Supreme. It matters not who we are - only that we are. Let that concern you only which shall help you all towards your great destiny as servers in the Vineyard of Life. Peace.

Oh Light within the sleeping breast,  
Radiate thine inner glow,  
To shed by thy Divine Behest,  
Its Grace to men of Earth below.

## Further Teachings by Sol-Ashtar

(Sept. 1959)

Good evening Universarians and friends of Universarius. We are coming to you this evening on the new frequencies which we have been transmitting to you. We come first tonight to tell you about what Universarius means. You have been given this word to use in your associations. What is the meaning? UNVERSARIUS is the oneness, the allness, the oneness of music; the oneness of all things that are contained within the universal cosmos which is the body of the Creator which is the contents of all that He has created. It is the meaning of all that is, of all that ever was or ever shall be. This is SOL-ASTAR from the constellation of ANTARES who has volunteered to be your teacher in this great movement.

Now tonight we would give a little of the historic development of your planet, not as it pertains to the past, but something that you should know. It shall pertain to cycles - the cycles that have been on your planet, the cycles that have come and gone yet as they pertain to the present enfoldment of your earth to its fullness and into the Operation Deliverance which is now at hand. Know that there must be upon your planet a reconstruction in order that the spiritual unfoldment of its people shall be completed. You have wondered perhaps why it has been necessary in times past that your planet should go through these physical changes.

Let us ask you the question why can you not be ushered into the Aquarian and Kosmon Age without a transformation of the physical surface of your earth? Let us answer this question briefly as we know it. First of all, there is a law in the universe that states that all must be in harmony, all must be in unison for the highest manifestations of the laws of the Cosmos. Therefore it is absolutely necessary that in times past your planet has gone through its turmoil, its change of surface and direction aspects which bring about and have brought about in times past, a reorientation, so to speak, of the values of life, of your solar system and the basic laws upon which it operates and upon which human life is based.

So know that the things which are to come are a part of the Cosmic Plan and must be directed unto your dwelling place in order that the higher spiritual development may take place through the people upon its surface.

We have time only to give a brief outline of some of the things that are transpiring upon your planet. We would give you this as briefly as possible. There are some things which are in your minds and which we would like to tell you about and which would be interesting to you, and which we must have you know before you can comprehend the entire picture that is presented to your minds by all of those who come to you from the realms of Cosmic Light.

You have observed perhaps that the space craft so-called which have been coming to your planet have diminished of late. We are talking of the actual sightings or the actual visitations. In the year which has just passed, that is the year 1958, the greatest activity in your history was manifest by those of our command and of the ASHTAR COMMAND who were preparing and tabulating the record which must go to the record centre before any operation of a major nature can take place so that in the year 1959 which you are now in, the actual sightings of our craft have been diminished by a great margin. You have been wondering about this and wondering if we have deserted you.

No, on the contrary, our activities have been remarkably changed from one of physical visitation to one of spiritual unfoldment as is now being beamed to you and has been in the past.

Let us give you, if you can comprehend in your finite measurement of your inspiration, that which we have been doing upon your planet. The vast number of so-called "flying saucers", (you have many names for them, "UFO's", "space craft",) have been coming to you in the past year in the quantity of upwards of 30 million which we have had in your atmosphere. These have been enumerators of your planet. What do we mean by enumerators? They have been taking a census - a census of your brothers and sisters, a census of your physical equipment, a census of your mental ability, stability, physical worth, so to speak, and all of these have been transmitted through a central point. This central point through which these communications and these records have been beamed, know—and this will come perhaps as a surprise—but we want you to know this because it is very important in the future of your activities. The CENTER upon which the records have been converged is the asteroid which you know as CERES. This is close to the other asteroid upon which your beloved ESU or JESUS, as some prefer to call Him, is now stationed.

Know that He is not alone upon this plateau. There are hundreds of the Ascended Masters with Him there. We will name only a few — St. Germain, Moses, Elias and Enoch who are now working upon the records which have been transferred to this place. These records which are converged upon this plateau are assimilated, tabulated and run through human machines, similar to those of your so-called Univac, except that they are human in all respects and we do not require in our civilization or upon our essential activities machines of this type. We have developed much greater assimilation of data and knowledge by thought forms, by thought wave and by the concentration of knowledge upon a pinpoint of recording which is far beyond your imagination.

After these records have been assembled, they are correlated as to their general significance and general dissertations and then they are transmitted in condensed form to the plateau of ARROS where they are further looked upon by those who have in charge

the Operation Deliverance of your planet. So know children of the Light that all of your thoughts, all of your Earth actions, all that you are thinking, all that you are doing, all of the evil-so-called as you call it - although we have told you there is no evil, that evil and good is only relative - and all of this is being transmitted and tabulated to us so that we shall know upon these plateaux. These are not the only ones but I have given you this information that you might be able to understand more about why our activity is directed into certain phases at one time and to certain phases at another time.

We also have many more things to tell you about, but we will reserve them to some future time. We will leave you with the thought that we will give you information very shortly as to the past cycles of your planet. Know now that there is emerging in your oceans on one side the continent of Atlantis which is now approximately ten thousand feet above the level of the ocean floor. This will rise in a short time and will be the first to make its appearance. Not at the place where the largest peak is now manifest, but a short distance away another will rise at a short time much more rapidly than the one that is coming up now.

We will tell you about the cycles of the past; we will tell you about the rise and fall of Lemuria, or as you have many names for this continent: MU, WHAGA, PAN and others that have been given unto it. We will tell you about Atlantis and we will go far beyond these two and tell you about the seven cycles which preceded these two which you have in legend which have been misconstrued in some instances, but upon which you have a great deal of information. Most of it is true, but some is not particularly authentic. So we will give you at another time more about the past of your planet so that you may be able to come up to the present time in regard to those things which must transpire and take place in order that the travail of your planet may not be too great.

One more point that we would give you tonight. Oh friends! - and this is important to you because you have been much concerned about and you have discussed it and even some of our brothers of space have discussed it with you - that is your concern about the so-called retreats which you are planning and which you have thought to revert to in times of stress. Read your Scripture about the three loyal sons SHADRACH, Mechack and Abednego who were cast into the fiery furnace. There was no scorching flame which touched them. There was with them a FOURTH figure which was of great brilliance and great power and this FOURTH figure will be with you when the fiery furnace comes to your planet. So be not concerned my children about the place where ye shall go, for ye shall be taken up or left. You shall be perhaps in the midst of the fiery furnace, but it shall not scar you, it shall not sear you,

it shall not touch you because you have the promise of your Scriptures. You have the promise of all the sacred books if you will read them correctly. They all tell you the same story that you are projected into this lower region, and if you will project your thoughts into the higher echelons of space, into the higher etheric realms, you shall be protected from all harm whether it may be now or whether it may be in the future. So be not concerned about these places that you are to prepare for they are only temporary.

Yes, we will give you instructions when the proper time comes which is not too far away. Be not concerned with them at the present moment. Be concerned with giving out the information to those who will receive it, the information which you have received.

We would give you one more point for telling whether or not the messages which you are receiving are authentic and are coming from us as we have given them to you. If you are told to keep any of the messages secret which are given to you know then that they are messages from the lower planes. We have no secrets in the Cosmic Realms of the Universal because all is open for all to understand and all to see. There is within the Book of Life which is the open book before you now, and you have only to read and turn its pages, so that you will understand and see the glory and the Light that comes from the Cosmic realms. You have only to attune your consciousness to these cosmic realms so that you may see for yourself.

You do not need these channels, you do not need this Light for it shines within your soul. There is nothing within the Cosmos that is hidden from you if you will open your eyes, open your ears and your mouth to give out that which you receive. So hold it not back my dear children. If you have received anything that is of value in this great Age, this cosmic development which we are about to bring to your planet, you are not doing your duty if you hold it unto yourselves. This book that we have opened up for you will be a brighter book, it will have a star upon its pages. It will have the Star of Bethlehem above the sacred shrine upon which we will give you these messages. He shall open your eyes and your ears also and you shall hear and understand that which you do not understand at the present time. All will receive; not just these channels, not just those who have been seeking and working with us from the so-called outer space, but every person who is attuned to the cosmic consciousness will receive the messages that we have to give them. So there are no secrets in the Cosmos. If you are told to keep anything secret, or if you are told to keep it to yourself, know that it is from the lower echelons of space. Know that there are some who are trying to interfere with your development work; but they mostly come from your planet. For we have cleaned the heavens of most of the spirits. We have been working in conjunction, not only with the ASHTAR COMMAND but the High Raised Angel who is now in charge of your cosmic development in the

heavens surrounding your planet. You would be surprised if you knew the name of this cosmic being. We will not give this to you at the present time. There is a reason. Some of you would not accept it and some of you would whisper it upon your tongues and it would be perhaps a wagging thing which would do more harm than good. Know that there are three - as you have been given the Trinity before. There is always a Trinity of Life. There will always be a trinity of life; the material, the mental and the spiritual which is always upon you and upon which you cannot exist were it not for these three things.

We are working together and know that the Great Day will dawn before you know that it is here; but we will let you know when it shall start, and when it shall be time for you to gather together to any place of safety. Be not concerned about these things.

Now we have given you many things which we wanted you to know and we will give you more as time goes on. We cannot give it to you all at once because you cannot assimilate it, and we do not have the time to give it to you. So now my beloved ones, we will give you an opportunity as this is the first time that we have come to this channel. We are grateful for this channel that he has given over his entire consciousness to us and has resolved that he shall not be afraid because we have given to him greater glory in this thing than he could imagine that he has ever seen.

We will give at this time an opportunity for a very short time if there are any questions upon the things which we have touched upon, we will be very happy to answer them very briefly; but the time is running out and you must make them brief if it is possible. We will answer a few questions now if you have them to ask of us. Question: Should we make some preparation for these retreats such as food or buildings? Shall we begin now?

My beloved ones, you have received this inspiration, you have received this instruction even from our brothers of space, so we shall not refute that which has been given to thee; but what we want to do tonight was to assure you that this was not your principle activity at this time. This will be given to you at a future time and you will be instructed and given more specific instructions as to the place, what you will need and what you will need to take to these retreats. These are in some places necessary; but be not concerned until we give you certain instruction. There are those who have been selected to give you these instructions. We will not be able to give you this specific information; so follow the instructions as they have been given to you, if these instructions have been specific. Do not emphasize or go to extremes upon this phase of your Operation Deliverance at this particular time. It will be given to you in due time.

Question: Where are you speaking from?

At the moment I am stationed in a so-called space ship close to the asteroid CERES of which I have spoken and I am observing some of the activities which are going on upon this plateau. Know that we are still using and will continue to use the relay station which was established on the outskirts of Mars so that the frequency which is being beamed to you will come at all times upon a specific beam and not as in former times upon different frequencies which were confusing, and which confused the channels and even those who were broadcasting.

Question: I would like to know SOL-ASTAR how old you are and something of your history.

Yes. I will give this to you at a future time. I had intended to give you some of this. I will give a very brief outline. Know that I was associated upon the continent of Lemuria before it was submerged in the Pacific Ocean. I was associated with Captha which has been now translated to you as APH, who was in charge of the submergence of the continent of Lemuria. Also it may be interesting to you to know that the channel through which I am now speaking is, or was, from one of your planets by the name CONDOR in the CONSTELLATION OF ANTARES. That is one method or THE method by which we became en rapport with this movement and because we had volunteered for this mission to be your teacher from the SOL-STAROS GALACTIC PACT - that this channel would be in complete rapport even before we had started this movement of which as you all know he was mostly responsible through our inspiration and direction. We will give you more of this at a later time when we go into the past of your planet, which we do not have time to touch upon tonight.

I will leave you now, dear children, and pronounce upon you the benediction of all of those who are working with us here in the outer realms, the benediction of those who are working with you, for you, and of you, for you know that you are all One, one attunement, one cosmic group, no matter where you may be or what you may be doing. So now we will hold our hands above you and bless you and hope that you will receive messages of greater value as time goes on, greater inspiration. I am SOL-ASTAR from the SOL-STARIS GALACTIC PACT bidding you one and all a very blessed and wonderful good night.

## Anchor Points

(Sol-Ashtar Sept. 1959)

Good evening children of Light! Again we would come to you and give you more information about some of the spiritual and material needs and concepts which have been projected in times past. This is your teacher and mentor SOL-ASTAR. I have not come to you for some time but I would give you a short dissertation this night entitled ANCHOR POINTS.

You know that I and my brothers and sisters in space have organized this group and given to this channel many things many months ago which he did not understand and of which you had no part. One of these themes, so to speak, or designations was what was given to him as anchor points. Long before he knew anything about me or space craft or planetary communication or travel, it was given that there would be established upon this continent four ANCHOR POINTS. We want to confirm and verify these former impressions and give you more information about the anchor points which have been established and what is about to be established.

What is an anchor point? An anchor point is a place of cosmic information, and let us say, illumination which is given to the people of earth for their advancement and enlightenment. Now ye well know that this group and this city is an anchor point in this continent. This was not the first anchor point that was established. The letter which you have received and has been read to you tonight establishes another anchor point. (A letter was read from the "Bridge to Freedom") which was established long before your group came into its existence.

Now there is being formed and is almost in the, let us say, exotic stage, an anchor point in Miami, Florida. They have another teacher and the anchor point in New York has another teacher. So these anchor points are now being formed. There will be another one which has not yet been established and not yet decided upon in the southwestern part of your country. The location has not been decided upon because of many factors which we cannot go into now. It cannot be too close to the place which will have a seething mass of heterogeneous chisms and isms and unholy relationships and unions; but it is rapidly being formed into a going concern which shall soon emanate and be in rapport with all of the others.

If you will draw a line between these various anchor points, you will have what we might term a clothes line, or an imaginary line. We are going to use some symbology so that you will understand what we are talking about. This will not form a square, it will not

form a rectangle; but it will be a geometrical figure. Now we would like to carry this symbology a little further, so that you will understand it better.

Let us say that there is a clothesline or an imaginary line connecting your anchor point and the one in New York. There will be another line connecting the anchor point with the one in Florida, the one in Florida connected to the one perhaps in the northern part of Mexico, or the inland part of California, or Arizona which has not been established as yet. Then there will be another line going directly to you. Now what are we going to hang on this clothesline? You are going to hang a line full of clean clothes, so to speak; clothes symbolizing the souls of men and women with whom you come into contact, cleansed, not by the blood of the Lamb as millions would have you believe, but cleansed by the purity and whiteness of the driven snow. The snowflakes that form geometric figures upon your window panes and the purity of this snow, the purity of thy thoughts as has been given to you this night will cleanse these souls from all impurity, and they will be hung up so that the world may look upon them, so that the world may see that there are souls that have been cleansed; that there are souls that are not afraid to turn their faces unto the light, who are not afraid to be hung on a line for all to see. They will be manifested in many ways. They will flap so to speak in the breeze. They will be purified by the sunlight of love that shall shine down upon them.

Now let us carry this simile a little further. In order to be an anchor point, it must be buried deep into the ground. Therefore, these anchor points must be very deeply buried into the consciousness of those who are holding them up, and who are surrounding them and holding them into space. They must be able to hold this clothesline; they must be able to hold all who shall want to get on it and be purified and cleansed.

Now if you will draw when you get home, or any time, a line diagonally from each one of these anchor points, you will have a cross. At the point where these lines cross, you will have another anchor point. However, know ye my children that this will NOT be an anchor point of Earth. It will be an anchor point in the GREAT ETERNAL COSMOS of the Creator's Universe. It will be an umbrella which shall be held up by the hand of the Almighty; and it shall be an anchor point which shall hold the other four in their places. You shall be held and you shall be protected by this umbrella. It shall not protect all of the Earth beneath it, but it shall protect those who are on the clothesline from the burning sands and the burning sun. It shall protect them from all evil; but this umbrella shall also protect the rest of the people of Earth from complete destruction. This umbrella shall be in four parts.

There is also a symbology in the four lines which you have drawn from the catty corner of these anchor points. If you will count them, you will find that there are eight lines counting all of the lines which you have drawn. What does the symbol repre-

sent? The symbol eight represents balance, or the two worlds - your world and the world of eternity. Therefore, there shall be a balance in the eight, or the four - the eight is an octave of the four.

So, my beloved friends, as I have come to you on many occasions, as I have given you symbology, as I have given you instruction, light, and inspiration for all of the trials and tribulations through which you have passed, I give you this tonight as a symbol of that which shall come; as a symbol of that which you should hold to very tightly. You are to become in rapport with all of these other anchor points. You should start with the one of which you know and that is you should exchange in any way that you feel or see fit, communication and literature, and all of the things that are necessary to stretch this clothesline from this anchor point to that one. Then when the other one is established very soon, you will learn of it and we will stretch the clothesline and we will help you stretch it to this other anchor point. We will help you to draw the diagonals and we will help you to place the umbrella so that you shall not be in any danger whatsoever.

Remember now this umbrella that envelopes you and is floating above you which is not held by an anchor point of Earth, but is held by the anchor point of the universal Creator of all Life so that you shall be a point upward which shall sustain, which shall promote, which shall promulgate the forces of Light and the forces of Darkness, shall have no effect upon your anchor point - or upon any other of these which are now being established. Know also that this is not limited to your continent. The reason that I have not been with you lately is because I have been establishing another anchor point upon another place. This one is the beginning of a similar triangle upon the other continent. This one anchor point that is now being established is in Australia. The name of the city is Auckland.\* Auckland, Australia, is now being established as an anchor point which will spread and which will be a figure 6 instead of the figure four that has been given to you. This will be a complicated geometrical figure which we will give you later. Know that you are not, so to speak, the only pebbles on the beach. There are others who are in rapport with us, and we are working with them very earnestly and very quickly for this must be done quickly so that you will become acquainted with these other points. All at once and very rapidly you will see the Light shining into this darkened world. You will see a brilliant light that shall come from the great healer who has come to you - Jesus the Christ. You will see the Christ Consciousness in your life and it shall penetrate to the uttermost parts of the Earth and those who do not know anything about this will be enlightened to a certain extent. There will be no darkness upon your Earth when this great tranquillity and transformation takes place. It will not be in the twinkling of an eye. It will not be in a few years even yet to come. We only have the begin-

ning, and we are only now trying to establish with you, and the enlightened people upon your planet, anchor points which shall help us to establish the Kingdom of God upon your planet.

So now, as I have told you many times, call upon me, but call upon your Creator. Call upon your mentor, call upon the Christ Consciousness, upon the Christ Himself, who is ever ready and willing to walk with thee, by thy side. He shall come to thee again soon, and give thee more inspiration and wisdom for thy pathway as it lies through the thorns and brambles and the rocks as thou dost climb to the lighthouse to light the lamp that shall penetrate the darkness, not only of thy planet, but the darkness of all the Universe. Thy planet shall be, and shall remain the most beautiful, the most wise, and the most glorious in all of thy galaxy.

I will not give thee more for I have come to thee in peace; I have come to thee in Light. I want to give thee encouragement for I am still thy teacher. I am only one; for thou hast a higher teacher, a greater one than I who shall guide thee in all ways of life. This is SOL-ASTAR leaving you in peace and harmony which is the watchword of thy group. Amen.

Channel: Zelrun Karsleigh.

\*For the benefit of overseas readers the editor would point out that Auckland is in New Zealand which is 1200 miles S. E. of the continent of Australia. A new group was formed near Sydney in Australia during 1959 but the Auckland group had then been in existence for over two years. As Mr. Karsleigh has since commented, Sol-Atar's words were "a bit garbled". At the time this communication was received none of the Universarium Group knew anything about any group in either Auckland or Australia.

### Comment by Zosma of Antares

You have just listened to SOL-ASTAR who is the head of the Astaros Command, the Galactic Past of the Confederation of the Universal Brotherhood of the Cosmic Light of which ye, everyone, are a part. I am ZOSMA from the giant constellation of ANTARES which is also named under my name ZOSMA.

We have come from regions beyond, to help thee understand thyself and the greater universes. We are here at the Father's Will and because of that great compulsion of love that we feel for the Earth's people. In the past we trod the same path as you and we know and understand the tribulations and the sufferings that you are now going through during the cycles of changes. Know that we are in conjunction with your Ashtar Command which is in that great light of your thoughts and presence. Know that you are in direct contact with all of the mighty beings of light. They are waiting for thee to open thy mind to receive and to know that they

will transcend and project to thee cosmic instruction for thy well being. We are near at hand now in thy very presence. We are closer with thee in thought than we would be in person. You will understand the full meaning of this concept when you go further into thy inner being and realize that all things are but one thought - God. God is the Only essence there is. Without thought the universes could not have been and you could not have been. There always was the Universal Thought that brought forth all life, all creatively, all that is in thy presence and beingness.

Now I will leave thee in peace and understanding in that great Light that embraces all.

## Are You Ready?

From MESSAGES OF LIGHT, Given in His Name

Are you READY? Are you ready to serve the Lord Christ Jesus and to bring His Kingdom to earth? Are you prepared to do this service? The usual worker in the Light says "Yes" eagerly and sincerely. And then the trials and tests assail ye and ye falter. Many fall by the wayside. The more ye are called upon to meet trials the wider becomes thy vision in understanding similar trials of others.

Narrow is the Path to the Father and few there be who find it. When the Path is narrow that one walks upon, the smallest object across it makes the going difficult. Did ye ever walk in a freshly formed narrow path across a snow field? If ye have ye can remember how thou didst stumble and how difficult it was to hold to the center of such a path. But though ye did stumble and step out of it from time to time, thy crossing of the snowy field made the path a little plainer and easier for the one following after thee.

And so it is with thy earth life. As ye blaze the trail and smooth down obstacles, those following after can observe how ye overcome these obstacles, and if they are seekers after Light, they can gain courage by having watched thee overcome, when they find the Path to the Father carries them at times on a dimly marked path of their own.

Life is never easy except for those on pleasure bent, who for the time being seem to be coasting on smoothness. But the smoothness does not last. All must be faced with problems, according to their strength. As they overcome self, more is given, because the scope of the worker in the Light broadens constantly to take in a wider and wider field, if he is willing to pay the price of serving the Lord. If he isn't, he can stop at any point and look after his own interests entirely.

Choose ye this day whom ye will serve. This choosing goes on every day of thy life for each day thou livest in this day. Ye take one day at a time as ye take one step at a time. Sufficient unto the

day is the evil thereof. And may I add also "the good thereof?" One day at a time—so thy work for the Lord one day at a time. See that each day is lived in His Name and thy days, as thy steps, will surely and without fail lead ye to the Father, and the Son, and ye will hear the Voice say: "Well done, thou good and faithful servant. To thee I give this crown of Life." Amen.

Given by John Phyllos in the Name of Christ Jesus and the Lord Jehovah God. Amen.

### Beings from Outer Space Speak to Earth

## ASHTAR DISCUSSES THE DEVELOPMENT OF THE SOUL

(1.3.60)

We, who are of the Eternal Light, come to thee my dear children, enveloping thee in utmost love as the Master Jesus did. We continue to love thee although we know that often you stray from us and will not be led. We note the thoughts and feelings of all creatures and look upon you as you yourselves look upon a tiny babe in arms whom you still love in spite of its many tantrums. In your own way you desire to go and, as you have been given free will to do what you desire, so often you attempt to do that which would be disastrous to yourselves.

If you but knew how many there are of us! There are many many more in this life which you cannot see than have ever existed upon these various globes. If you could but see the myriads and myriads of beings that surround all things! They are of all variety and of all stages. When God the Eternal desires to send forth that which you call a new soul, then He sends it forth as Himself. It may be placed at the beginning within a flower or a tree or even within a creature of what you regard as a lower order, for it must ascend and come into matter continually until it becomes of a higher and better order. That is what you term reincarnation. It is the best way for the soul to learn those many things that it should know.

You who dwell in the human body, as you call it, have developed upward and will continue to develop to a higher sphere. That form which will develop upon your earth, still in matter, will become

of greater power and will be enabled to do many things which you have not known of. From the smallest it has come to the greatest in matter. Upon this your world Shan there are developing many who have this super-form of life and they will be enabled to do many marvellous and wonderful things because we are sending unto them from afar much inspiration so that you will learn of those many disabilities which you have brought upon yourselves. We are sending to you many cures. Many of those things which you think may be disastrous to you are but sent to cure you of other ailments which you have already and which you have brought upon yourselves. O my friends, I am with you but how can I explain this path of life which is sent forth and must develop?

Question: Ashtar, how many lives would it take for man to reach the stage where we are now?

Many lives and still you must continue ever improving, ever learning until you become as an off-shoot of the Divine and develop into eternal life where matter means nought. Still you go on developing even when you go hence from the physical body; you must still ascend continually ever developing until you can be as God Himself.

Question: Does a soul that goes into a flower ever go into human form?

It becomes eventually a human form but takes many eons of time to do so. It is in that way that it starts living in your world of Shan - a small and quiet and modest form of life but still a life that has been given from God who created all things and breathed into the nostrils of all creation so that they had of Himself that life which He has given. That is why, my dear ones, we of the spirit say that you should not destroy that life which the Divine has given to those of his creatures, unless they are harmful to your being. It is utterly wrong that you should destroy them for God gave that life and to you it should be utterly sacred.

Question: Ashtar can you give us any further information about what might happen on April 8th.

You will find that word will come from the Americas. They are not always right in these points for, as you know, time in our spiritual realm is not as it is in the material world. The date given may not be quite correct but many of those ships in the air which you call saucers should be noted in the month which is to come as many will be surrounding this planet.

Many of you imagine and desire that the Divine Father will send to you very soon that One whom you call the Master. But the time is not yet. Much is to come to this world of Shan ere that One descends - much adversity and much worry - and man must advance in his ideas. Now that he has gained the knowledge of how to destroy humanity and knows of the repercussions which would follow were he to use his knowledge for destructive purposes, and as he is beginning to learn that it is the law that as he gives he

will receive, he will realize that it is foolish to destroy. So advancement will come to him and then the Master will come in His love and His glory to give knowledge and help to those of your world.

Remark: Thank you for speaking to us this morning Ashtar.\*

I was delighted to be enabled to be with you all and to speak with you although I would that I could have spoken longer but I would not detain you. I desired to let you know that I was with you. I bless them all. May they go forth doing that which is most desirable to the all-highest, sending forth the knowledge of the Everlasting Love that nothing is destroyed and that God has love for all creation.

Farewell, God be with thee.

\*For the first time Ashtar spoke to those assembled at the fortnightly meetings of the Herald of the New Age, held in the Friends' Meeting House. Over 80 people were present. The "instrument" used by the Inner Circle, who rarely attends the large group meetings, happened to be present, sitting near the back of the hall.

At these meetings it is the general practice to go "into the silence" for fifteen minutes. On this occasion, however, the silence was broken after only a few minutes by the loud masculine voice of Ashtar who continued to speak for five or ten minutes. The instrument, an elderly Scottish lady of the Presbyterian faith, was unaware of what happened until she was informed later. She thought she had merely dosed for a while during the meditation.

## LIFE ON A PLANET CALLED "BINKA"

(1.3.60)

I come to speak to you, O people of the Star of Darkness. I have come from a world of beauty, from the bright and wonderful world of Binka where there are many beings like unto myself.

I see around this temple the beautiful grass which is of the same green colour as those grasses that lie in the deep valleys in my world. And I see you, O my friends, you who are not as I am.

You of your world are like unto those things that come in the night very quickly - those pale growths which we eat. What is the word you use? The Mushroom! I cannot think of the word in your language because it is different from my own. I have to allow the brain of the instrument to interpret into your language and it is a little strange. But we are managing not at all so badly! We ourselves are of wonderful colouring but of course I know that you of that Dark Star are not in the brightness to any great extent and that you are suited for your environment whereas we are suited to ours. I myself admire my own world which is only natural.

Question: Are you formed in the same shape as we are, my friend?

We, my friends, are of the same material plane as yourselves but we are not of the same form. But when I enter my veneta I do see beings in a minor form upon your planet which resemble ourselves in shape but are not of as high an intellect. Our legs are longer than yours and we can do many things that you cannot do because we have four of those things which you call hands. Ours are of a much better kind too. We think how fortunate you would be if you had four of those limbs instead of two, but otherwise we admire your form. It is well developed and you are able to do a great deal with your two hands, but if you had four you would be able to do twice as much.

Question: Do you live in houses on your planet?

We have beautiful buildings and we have nurseries where our children are treated as they should be. There are no delinquents upon my planet because they are conditioned from the beginning. They are all workers. On my planet there are 500,000,000 beings like unto myself in form and we have much that we do. There are also many other beings some of whom are somewhat as you seem but of a smaller kind and not as well developed in the intellect. These we have living with us in our homes. We care for them and feed them and pet them. My dear mate loves that one which she possesses. It is but small and is loved, this little creature, and we give it many things.

Question: How did you come by the little creature?

They are born in my planet. There are many of them. They have not, as yet, as much intellect as we possess and are not as intelligent, I am told, as you are, but they have great opportunities. They are given much love by us, the love which should be given to our own young. Our females especially desire these little creatures to stay with them so that they may pet them and love them for many of our mates are much hurt because they are not allowed to bring up their own young; for our children are sent to great nurseries, great towers, where they are schooled and taught.

Question: Do you worship the Creator where you dwell?

We know of that great and divine Light which shines upon us ever and we can see many of those beings like unto ourselves and like unto you who are not of the flesh or the material form. We also are able to send forth many of these things which you call — I cannot get the word— Anyway they are things that fly in the air and on into the airless spaces where they make use of the magnetic forces. We are too far away from your system to enter into your places, nor would it be wise to come to you because you might fear us even though our minds are as yours. We think very much as you do but - and I am not saying this out of conceit - our advancement in many of the sciences is greater than yours is at present.

I must depart because the mind of one here tells me that I have used your instrument sufficiently. I transported myself to see you and I have been speaking to you by sending the flow to this

your instrument. I admit that I was at first a little concerned at the idea of sending my thoughts through that one who sits there with you, that one whose light shows us that we can use her to give to your our words.

The Divine Light be with you all my friends of the Dark Star, and may you realize that upon many mansions of the Eternal Light there are different forms suited to the many dissimilar environments.

## SINCE MAN WALKED WITH GOD IN THE GARDEN OF EDEN

A TALK BY ADAM

(8.3.60)

And man goest forth to his work for work ennobleth a man. So I speak, I who have not spoken to thee before. I, Adam, the first man who became conscious of the Eternal Light. I speak to thee in thine own tongue but it was not that which I spoke. I will speak to thee as I spoke of yore . . (Here he spoke in another language.)

As thou observest O mankind - thou who have come from my loins, thou who livest now in the latter days - I, who was of the beginning, am speaking unto thee for thou knowest not much although thy minds have developed somewhat. Although thou hast many things within thy hands, still thou art not happy my children; although thou hast descended into matter still thou art not happy. Thou enjoyest not these things which thou art ambitious to possess for they are as dust and ashes within thy mouth. Thou goest forth with the speed of light; thou hurlest thyself through the air. Yet thou art not happy as we were in our garden of beauty.

Question: What was your state in those days Adam?

I was as of light, as of light we were. We spoke with our Creator oft. We had many attributes which now thou hast not for thou hast used thy minds to other purposes and sin has descended into that world that was created with so much beauty. Not only canst thou blame myself for those things but thou canst blame thyself for thou has descended. Thou thinkest but of those things which thou possessest, and disease and sadness have descended upon the world because of those things which man has done. He imagined he knew better than the Creator of all; He has parted from the beginnings and he has come to disaster. Also he has created within himself many abortions which have become to him of great harm; he suffers from all diseases because of the wickedness of his soul and of his mind. And still he goes on bringing on to himself many disasters until the physical body is becoming as nought and many are losing their minds. When man was created there was no deformity in the body or in the mind and now alas I look upon my descendants and I grieve for them for they have traversed forth and they have become an abortion in the eyes of all that was pure and good.

Question: Will you give us an interpretation of the tree of knowledge of good and evil that was reported to have been in the Garden of Eden?

That was in the Garden of Eden and the meaning there was the descent of man into matter. He became and he knew because he realized many of the things and the beginnings of those horrors and diseases which he brought forth into his own body. He departed from the teachings of the Almighty. No longer could he speak with the Father of the whole creation for he had disobeyed the words of the Great Spirit and he went forth. But it was not that actual tree of knowledge which he desired. He desired to go on in his own way and he cast from him those words that he had received from the Almighty God. When he walked with God in the Garden of the World which was most beautiful and luxurious he took to himself the thoughts of his own mind and so became as one law. He tried his utmost to change those things which the Almighty had made and as he went on he developed many malformations. He took to himself the blood of the creatures that the Almighty has created and became of a vicious temperament; he trained those creatures of the gentler nature for his own uses. Still man goes forth doing those things which, in the end, will cause his progeny to be of a different kind, for mutations will come upon the earth and many abortions, as he has already proved. You see these things upon the streets within your cities; you see and observe many things that should not be. Many of your people have no mind for ought because they can think of nought; the majority are becoming as if they were not of any kind whatsoever for their minds and their decisions have fled from them and they know not anything.

Question: How many rebirths have you had since the days when you became conscious, Adam?

Many times have I dwelt upon this earth since I first came forth from the womb of time and I have brought in very many attributes. I have come as a King, and as a priest; I have come as a beggar and have begged of those who would not give me aid but I speak to you as Adam who you are taught was the first man created. That one was not created as is denoted but God breathed into the nostrils of all creatures and gave to them of Himself, of that life which no man can give to anything whatsoever. Oft he has desired to create life but it has been impossible for him for he is not God.

Question: Were you made of the dust of the ground Adam?

Not as described. Those things are beautiful stories from the beginning of time. Man has evolved from the dust of the earth although he evolved in water at first. He became, he moved, he arose, he came forth from the waters and he became an animal of the land of some note. Also he gained much knowledge and as he

evolved from the lower orders he became man, man as thou seest at this time. Myriads are the years that pass ere man evolves. Still he is evolving somewhat but it is to a dire and sorrowful end that he is taking himself, because he has not followed the law which was to replenish the earth copiously and to live simply and in great beauty. He has been arrogant and cruel. God gave him a spirit which he could use to make all things as of Him but he has used it to a sorrowful and a dire purpose so that now upon this world there is much that makes it a purgatory to many who live upon it in poverty, disease and in hunger.

Question: Have you evolved away out of the physical form?

Man I was, man I am, and man continuously will I be; for I am not but one — I am many. I am myriads. I exist continuously until the order comes that I depart, and I disintegrate into nothing at all. Then the Power of All will re-create and make all things new.

## A Priest of Ancient Babylon Speaks on the Evolution of Man.

(8.3.60)

Man was as the dust but like all other creatures he became life in the waters which covered the earth. As thou knowest, my friends, from the beginning thou hast evolved. Man was not created as he now is, but the consciousness that came to him made him different from others. From the waters he rose; he was but as an amoeba in the waters at the beginning but that was not man. The amoeba was but one single cell and as the cells increased so other forms of creatures grew. As thou knowest, children, when a child is conceived it goes through different forms in the womb, until it comes into light as mankind and when it is born it still must gain; it must gain in weight and in mind and in form until it becomes that which now inhabits the earth. This creature which thou callest man has been given hands which it may use but its massive brain, its mentality, is the greatest of all creatures that have been created upon this your earth. He evolved from the lowest order and it is of no discredit to man because the Creator had eternity to do his wonderful works upon all the worlds that thou seest, and such things are still happening. Many worlds are still covered with water so that the creatures that inhabit them are still of the waters; but many other beings on other worlds have evolved much further than man upon earth and are of an ethereal and more beautiful nature. Man must continue to learn for he must become a superman eventually and then something that is far higher. Unfortunately he has diverted his knowledge to other ends and continually brings into your world those who are malformed in the brain and in the body. Also because of his own sins and his lack of mind and his many wrong ways of providing for those that are under his domination he has given to his offspring many diseases and many sorrows.

Question: Was the first man bi-sexual please friend, and how did the sexes become divided?

Men were once hermaphrodites like the amoeba and the lower orders but when the physical bodies developed to a higher form they became divided into man and woman — Male and female created He them and always they are seeking one another so that again they may be joined in the eternal life. They will be united eventually and then the unity of spirit will be great and mankind will gain greater knowledge. He will know the way in which he has erred and will go forth and do that which is wiser and better for his own kind. He is going forward little by little. It is a very slow process, I will admit, but continuously other spirits try to guide man into the right path so that he will not thoroughly injure his own development. He will become as of God Himself but he must develop further in these ways.

Question: Who are you friend?

We who are of the spirit have much joy in being able to help thee O my children. I was one who dwelt upon your earth in the days gone by. I was a priest of the great palaces of Babylon. I was an instructor in philosophy and mankind followed me and still will do so. My words have been many times carved and written in the pamphlets but much has been lost and besides the words are not now known. Thou wilt find anon some form which will show thee and give thee teachings which thou hast not yet found out. Upon the deserts thou must seek and thou wilt find the truth of these things. Beneath the sands of the desert much is hidden, but the winds will blow and the sands will be dispersed, and thou wilt gain much more knowledge than thou hast at this moment. Thou wilt find upon the bare rocks many interesting things that now thou knowest not of; thou wilt find the ancient civilizations which existed long ere thou camest upon earth.

Question: Will that be in the Sahara desert friend?

Partly there and partly in the Gobi desert. Under the sea also much will be found. As thou knowest in thy world three quarters of the area is still under water but as the seas will recede, there will be found marvellous creatures. They will be found and thou wilt be astounded. Many things that have been hidden will be brought to light and the knowledge of man will be considerably increased and he will go forth to a better era. He will destroy that which is evil within himself and those things that are causing him to become degraded because, as his knowledge becomes greater, he will see the trend on which he is now going, and will try his utmost to turn himself into a greater and finer being.

I, Nahamican am speaking unto thee O my children The future that thou has before thee is very great and wonderful, but thou must do thine utmost to stay the bloodshed and the sorrows and wars that are descending upon thee as a result of thine own deeds. Thou hast become as a blood-thirsty animal; thou destroyest the creatures of the Almighty. My children take heed and go not too far away from the laws that have been given unto thee.

## Philosophy And Love Will Bring Great Joy To The World

I have come to speak for just a little while, my friends. I was a philosopher who thought deeply on many things. My name was Sophocles. I, of course, observed man as he was at my time. He erred often but it mattered not because he would eventually find himself again. It is better to take notice of the advancement of mankind and of his achievements for he has developed greatly and achieved much in the short time that he has existed upon the world in his present form. But has still far to go and if he does not disintegrate himself in his utter foolishness and will take time to consider things then he will find a finer philosophy on many subjects and will be more contented with the conditions in which he dwells.

The cause of the troubles upon the world is the lack of philosophy. If, instead of desiring to achieve that which is beyond his grasp, man would be content with that which is near unto him and which he can gain without great effort, then he would find that all these troubles that are descending upon the world would be extinguished and that the health of the multitudes would be considerably greater. Man has always tried to achieve that which is beyond his reach and it is only in this your present day that he is at last beginning to realise the ill effects of this. He is finding that many who now live are confined in great establishments because of that energy that they have been using for wrong purposes, and is realizing that those who live in peace and quietness achieve more and have better physical and mental health than those who continually rush hither and thither trying to do many things at once so that they may acquire many worldly goods.

The acquisition of wealth is considered of great importance by the present generation and always has been since man left the trees and the woods and came as an inquisitive creature to gain possessions for himself that he might be in advance of his fellows. Man desires to enslave his fellows even, whenever he can do so without causing himself much trouble, and he has done this for many hundreds of years.

Now there is advancing a form of philosophy and morality that will gradually permeate the whole world and will cause man to lose that aggressive joy of possessions. He will come to consider possessions but as a nuisance and a tie and as a hindrance to his mental and physical development. You have observed, my friends, that those who are intellectually profounded have not as a rule great possessions and that those who have possessions of great variety are often lacking in commonsense. If the wealthy would only divide their many possessions they would find that their peace of mind would be greater and also that they would have considerably raised the conditions of many of the people who now reside with them upon this globe.

I myself had few possessions. I was content with just the gown I was clothed in and a place whereon to lay my head; but I thought deeply and my name has gone forth for many generations while the names of the kings and princes and those of great wealth have been lost in the passage of time. Only morality and philosophy and mental attainment will continue to be of any use to mankind and to the world as it gains in age. Let me tell you that many wealthy people have gone forth from this life, this material life, leaving no sign upon the records of time, whereas most of those who have given knowledge and help to mankind have been remembered; and even if their actual names have been forgotten yet those things that they have done have continued to live on. And so it will be to the end. I will now depart. Let the love of the Great Spirit and His Light infiltrate into thy very being and keep thee — and mayst thou philosophize as thou shouldst, for philosophy and love will bring great joy to the world.

## “Let All Creatures Praise The Lord For He Is Good.”

(Neopolus 28.3.60)

Open thine ears O sons of man and listen to the words that are spoken, those words that go forth from the Holy and Divine Light of all, who has sent forth from Himself many to speak unto mankind so that ye may know of His Being. Praise the Divine One, He who surrounds thee, He in whom thou dwellest, He who has given to thee the breath of life; for He is worthy of praise of all His creations.

Let all creatures praise the Lord for He is good, He is Holy, He is perfect. Let the trees clap their hands, the flowers send forth their perfume and all things praise the Lord in His Heaven; for He made them so that they would send forth to Him from themselves that soul which He has endowed them with.

Let the rivers flow; let the birds sing from their homes that they have built; let them speak unto thee in their own words and let all things rejoice that they have been created by that Holy One, that One who lives forever and of whom thou art a part.

O children listen to the voice of the speaker. Thou must lift thyself into the Holy Light. Open thyself to the inflow of that marvellous Light which is sent forth unto thee. Let this Light permeate thy very being. Know that love eternal flows forth unto thee and praise the Father of all these things that He has given thee the breath of life and also that He has given unto thee that consciousness so that thou wilt be enabled to know that He is unto thee as a Father.

Thou, O people, have been put upon these several worlds so that you may honour Him in the process of your evolution to the greater things of Life, so that you may be enabled in your greater consciousness to become one with God and to dwell with Him forever in eternity.

I, who am speaking unto thee, am one who has known of many things for many eons of time. My name was Neopolus. I have spoken to many but not before have I come to this particular landing field to speak unto thee. O my children who dwell here in this place, let thy light shine before men. Let thy work be most wonderful and show forth that which the Lord has given unto thee. Show forth the words of His Love and show forth those wonderful works of healing, that power which he has given unto thee that thou must go forth and help thy fellow beings. Thou canst do these things my children, if only thy power is rightly placed so that the Lord God can give to thee the radiance of His Presence.

Question: Can you give us any instruction as to how, we as a group, may co-operate with you better than we do?

From you there flows much of that form of Light which thou canst send forth unto others. Thou canst continually help thy brethern. Place within thy minds the images of those whom thou from thine inmost heart desire to help and then a healing fluid will flow forth from thee into their consciousness.

Farewell O ye children of man. Praise the Divine Father for He has sent to thee all things and in His mercy will aid thee along that way that thou art going.

## A Conversation Between Worlds 246 Light Years Apart

(22.3.60)

I could see you. I used my "spatagus"\* and saw you and so I thought I would speak to you.

Question: Where do you come from?

I am of Akindingda.

Question: Where is that?

It is 246 light years from you. Do you know that I am able to see you - you who are of the people who live on that world that circles around the naked sun? I see you who have the bright light in that world. I am pointing my spatagus at you so that I can see you. I have been able to send a train of light to you so that I can speak. I am a scientist of my own world. You have not seen it from your world yet. If you could see it you would be astonished for we are not as you are and can do many things that you cannot do. Excuse me, my friends, if I do not speak very well yet for our words are not as yours.

Question: Whom do you worship?

We worship the Great Maker of all. We live and we take not of those things which we see you take. When we desire of nourishment we bring into ourselves of the different forces that are surrounding us and come from different places - things that are in a form that can be absorbed by us. But when you desire of nourishment you eat one another we notice. You absorb one another into

your own system. We do not do that. We absorb other things.

I am speaking from my planet and from my tower of Akin-dinga. My tower is very tall. It projects many many thousands of feet beyond our atmosphere. You could not live in our atmosphere because it is of heat too intense and also there are many things that would poison you.

Question: Why did you choose to speak to us?

We had a meeting and we put out - what you call binoculars - upon your particular planet and we saw you sitting in the light. So it attracted us. We are not of any hurt to you. We would not injure you in the slightest.

Question: Do you see many fields of light on this planet?

We noticed many many fields of light but this one we noted most because the light that was coming from it was exceedingly bright. We hoped we would be able to speak to you.

You could not imagine this place where we live because it is so very very hot. You could not live here. Only people of our consistency live in this particular place. We would like to show it you but it would not be good for you and so we will not.

Question: What is the population of your planet, friend?

There are many millions and millions in our place and they have much to do. We see that you move around considerably but it is not necessary for us to move from place to place as we have found ways of sending thought messages to each other and we use our thoughts to do those things which are necessary.

Remark: You seem to have a lot of intelligence.

We have, my friend. There is knowledge within us. I am told that I must not use this instrument much longer so I cannot speak further. May the Divine Father bless thee. He whom all worship be with thee.

**A Comment By Ashtar.** I thought that I had better speak to you. Our friend was having a perspective of the views on some of the planets.

Remark: We do not understand how a being 246 light years away could talk to us from that distance. Could you explain?

These things we understand but such subjects are too vast for the human mind to grasp and we would not give you more than you can absorb. You cannot as yet absorb readily even comparatively small things. We show you other creations and let them come into contact with you when we so desire it but there is a great gulf fixed between many of these worlds and your own. You are perfect for your environment and these other creations are perfect for theirs, but it is unnecessary and would be undesirable for you to visit one another at this time of your evolvment. We give you a little information on these things now and again so that we may help and interest you and bring you to realize how marvellous are the creations of the Almighty God, that One who is the Source of all the wonders of all the universes and continues creating everlastingly.

## On The Origin and Development of Races: A Talk By One Who Dwelt In China

(22.3.60)

I have the honour of being of an ancient race of China. I Wing Fong greet you.

The Chinese are again coming into the limelight, as you call it, my friends, and will do much good for all peoples. You think that they know little but within their vast country there are many great philosophers and others of high intellect who will gain influence over those who now go forth to fight and take of the blood of the other races. When we gather these together and cast out from those thought of blood which at present they are inclined to have, China will become a great friend to you all. But first of all my people must be able to put from them the thought that they are looked down upon and discarded by other nations.

The Chinese are of a fine and industrious nature and make good citizens in any country. They have within their hearts thoughts of deep love for the little ones, their parents, and their grandparents and try to help each other. They do not degrade their family life with feelings of dislike and antagonism and consequently they will, in this respect, be of much gain to the many nations in this world. They will go forth and will intermarry into the different nations and will infuse into them a great love of family, greater industry, a greater form of philosophy and greater adulation for the beauties of the Higher Light. So it will go on. In the end there will be many diversities of people but they will be as one; no one race will think itself the most important and all will realize that none is more important than another in the eyes of the Holy One who created all.

The original human race developed in China and the great Gobi desert, as you call it - the place where I dwelt; but the original race were not as the Chinese are at present. From the centre of my country they advanced forth and ultimately spread to the farthest places of the world; and the different climates and environments in these different places developed them into the various forms which you see today.

Question: Are the Negroes and Indians off-shoots of this original race?

They and you yourselves are all equally so. If you go forth to the north of America you will find that the Indians which you see there have a similarity to the Chinese. The places where they have dwelt have made them as they are. In the hard and rough places of the world there have developed a taller type of people. As you

know, my friends, the coloured races of Africa are not so industrious as those who dwell in the cold countries where man has to earn his living in a harder way. The man who is able to lie and sleep in the sunshine and to rise and take his food from those trees and shrubs that grow beside him, needs not to be industrious. He becomes, to a certain degree, physically and mentally degraded; but the man who has to fight his way, who has to use his muscle and his brain, becomes of greater development. If man does physical work he gains in strength but otherwise he becomes weak; and if man uses not his brain he gains little knowledge and becomes mentally weak. Many at present, in your country, have a great lack of brains. Your homes of medicine are full of such people who have gone against the law that man must work physically and mentally.

Farewell. God be with you, my dear children, you who are an off-shoot of that race of which I came and who have become adapted as was desirous by the Inmost Light and Power of All. The Divine Light descend upon you.

---

#### **A FURTHER EXPLANATION BY ASHTAR:**

Question: Ashtar did we understand Wing Fong correctly when he said that all races originated from the Chinese race?

He did not say from the Chinese race but from a form which developed in that part of the world. China is a vast country as thou knowest and was the cradle of mankind. You all come from the same ancestors but the many many years of evolution which the Divine Father has allowed and the different environments and different wanderings of these creatures have resulted in the development of different physical and mental characteristics. If white men were to stay in this country, with no infiltration from your other white races, you would find that, gradually, the race would become of a different hue and a different form. Only by a constant infiltration of the Europeans from the polar countries can New Zealand continue to remain a white man's country; for, if there were no such infiltration, your people would gradually become browner. Besides, their physical development would alter because, in the warmer countries such as yours, food can be produced in abundance and so life is comparatively easy. All such conditions contribute towards the development of different forms in humanity but you have all come from the original creation. And the cradle of the human race was China.

## SONS OF GOD

### An Explanation By Nethopola of Venus

Greetings O children of Shan I., Nethopola am speaking to you. I am one who has not spoken before although I am from Venus and my friends and my brethren, the "White Brethren" come here to be with you; but now I would like to give you information on the subjects that you have been discussing.

In the beginning there was one—the Eternal Father. He was all things. He was Himself. He rested in the many places and throughout the many universes and he desired companionship. So He created from Himself many to be companions unto Him and sent them forth for their development. He created also many who could be unto Him as sons. As an earthly father creates his own, as he loves his own, so did the Divine Spirit create those who were to be as His own.

And it came about that the lower creations of the Father began to depart from the way of right, thwarting the desire and the intentions of that great and wonderful Being and going forth as they themselves desired and not in the way of the Holy Spirit. So One who was as a son unto the Holy Spirit offered to go forth and incarnate as a human being that He might help mankind - this One who is adored and admired by the Angels and other sons of God.

When he came into the flesh - this One who is adored and admired by the angels and the other sons of God - He came but as a poor working man because from this grade of society there comes more spiritual beauty and thought than from those who are lavished and surrounded by prosperity and luxury. Those who have such prosperity and luxury oft care not for the knowledge of spiritual things because they have so many material joys that matter to them means adulation, prosperity and luxury. To the poor however there comes more open enlightenment and on them descend many gifts and blessings from the Father. So that wonderful Son of the Father came unto you in His love and beauty to help you.

We of the spirit acknowledge His omnipotence. We acknowledge those wonderful things that were in His being, those qualities that were of God Himself; and if you will acknowledge that One and will lift your souls in faith unto Him - if you will believe that He can heal you of your sorrows and your troubles of the flesh - then you will be healed, but only according to your faith will it be. Even that Great One could not heal when the belief was not there; for He came to you as man, with all the failings and the weaknesses of man. He is your brother in very truth for you are also the children of the Almighty Father. Each of you has a spirit which has come from God Himself and, although many have become of larger enlightenment, still it is necessary that you should also advance to that height.

You will do so. Perhaps not at this moment, but you will ultimately become one again with the All Father. For are you not of Himself and have you not beauty of His Light within you?

Question: Will you pronounce the name of that Great Father of us all?

"Om" that Great Spirit, that Eternal One, He whose name murmurs through the trees, in the waters and as the music of the spheres as they roll on in their paths. Try thine utmost to speak that wonderful name for "Om" is the name of that God who said "I am that I am". Lift your souls my children. In the morning when the sun arises listen to that name and you will hear the murmurs. At your window you should stand and draw into yourselves the breath of the Almighty Father and you will hear His name murmuring continuously. It never ceases although it is overclouded by your many works of matter. Listen to this wonderful voice for you have within your hearts the desire for enlightenment and we of the spirit will do our utmost to help you.

Question: Will you tell us the name of the Son who came in the flesh?

"Jesus" He was called by humanity, which means "saviour." He was the Messiah that was spoken of by the ancient prophets from the beginning of history. He became as man himself with all the attributes that were of man. If He had not done so, if He had come as God, then those things which He did would have been attributed to His Divinity. But He came as man to show man the way. He was tempted as man and He resisted those temptations of the flesh. He desired to help all people, to surround all humanity with His love, for man needed this more than any of the other spheres that the Almighty had created.

Question: Was He conceived as other men are?

Joseph was His father in the flesh and Mary was a virgin until she conceived and became the mother of that One. Theology has desired to make of Jesus, the man, God Himself, but He is part of God just as we are all part of God created from Himself. Jesus was the son of God and oft He called you His brethren; and Jesus did not lie. He could not lie because it was against his desire. All men will be enfolded again in the joy and beauty of that Life Eternal to which you are all heirs. Not one portion of God can be destroyed and as you yourself are a portion of that wonderful omnipotent Soul you will go on ever being more purified; for that life which you have been given is of God Himself.

Often when this Great One sees mankind heading for great disaster He sends His sons to speak to you and to lead you again in the way of light. Fear not, and let none say unto you that those Beings that speak to you are of evil, for they are not.\* You are protected because of your great aspirations. When you uplift your

souls unto the Father with those beliefs within your hearts, nought can hurt you and disaster cannot come unto you. Go forth, my children, helping and loving all. Keep yourselves in purity and beauty.

\* This paragraph refers to a previous discussion by the members of the group on the subject of protection from evil entitles and the advice given by John (1. John 4.1.) "Try the spirits whether they are of God."

### A CLOSING PRAYER BY ELFREDA THE HEALING ANGEL

O Father Eternal, Thou Creator of all, Thou Who hast made all from Thyself keep us we pray. Keep Thy creatures and let us know that Thou art ever with us. Let us see the Light which surrounds us with Thy Presence and keep us in all our ways. Keep us in our going out and our comings in and let us live for Thee. O Father give forth love as thy Son did eternally and does to the end of all. O Father help us and help our brethren who are still imprisoned in the flesh. Keep them and let them know that Thy Presence is ever with them. Let them fear not but go forth carrying Thy Light before them and keeping Thy eternal will.

## PRAISE AND GRATITUDE

From MESSAGES OF LIGHT Given in His Name

In the Name of the Lord Jehovah God and Christ Jesus, I, Dr. Montzelle, salute ye all this beautiful Sabbath day. Praise ye the Father and the Son; Praise Him all creatures on earth plane. Praise, praise, praise.

Ye mortals forget not thy praise and gratitude. The old hymn says: "Count thy many blessings, count them one by one." Mankind is mostly ungrateful for what he has, never takes time to take stock of his assets, and always wanting more and more, usually things that he doesn't need.

When ye take an inventory of thy blessings, both material and spiritual blessings, and ye see the gifts of thy Father and render thanks for them, ye become less eager to chase after baubles.

Never fail to voice thy praise and gratitude many times a day to the Father, knowing, thereby that ye bless the earth and help to make it fruitful according to His Plan for His humanity.

Always thy constructive thoughts aid The Plan, and the destructive thought hinders. In this way the most materially insignificant person on earth ranks with the most prominent one, in his ability to help with the Father's Plan. Spiritually there are no insignificant ones. All are prominent according as they work constructively with the Father. So keep on with thy praise and gratitude, knowing ye thereby bless mankind as well as thyself.

Dr. Montzelle hath instructed in the Name of the Lord Jehovah God this day. Amen.

### Plutana of Venus Speaks of the Coming Golden Age

(9.11.58)

Good Evening! I am Plutana. I have been waiting to speak a few words about the Golden Age that is coming. This will be a period for the advancement of the soul, mind and body. It will be more mental than the age you have just passed, and as you enter into this Age of Cosmic Light, you will find the Light descending to you from both the inner and outer realms. It is not too far off . . . merely a few years, and you will not have long to wait. It will come quicker than you can wink your eye!

There will be many experiences to teach you how to use the Laws of Divine Consciousness, and we can only repeat the admonition "Stop, look and listen, for the time is nigh." If you find us reiterating these remarks time and again, it is only that we wish to anchor you in the spirit which ye are, that ye may aspire and learn more about yourself and God. Ye must be joyful; be happy! Many experiences will be very trying but remember that God is teaching you how to be silent and still — how to know good from evil that you may become strong in the faith.

Time is short. Coming up are the old continents that were submerged many thousands of years ago. They are rising gradually out of the sea — and parts of these continents will be seen and known once again. There will be earthquakes in many areas and places all over the world. So be not troubled. These trials will take place before all these changes can be effected. Search thy heart and do everything diligently, knowing that this work must be accomplished within as well as without — the work that only these tests and trials may bring forth and which you will find may be blessings in disguise.

Be ye prepared, and ye shall know the time! Be ye ready for the Light doing good for one and another and co-operating that the way may be made straight. This is the only way! Listen unto Him and ye will not stray into the pathway that is longer, but will find the straight and well-travelled narrow way wherein you will find the Lord as the CENTRE of all things; for He is the PATH without end in the consciousness of thy being. I shall leave you now so that others may speak who possess greater understanding and power. Visha Nana!

Remark: Thank you! We will be happy to hear from you again, and may we offer you our heartfelt thanks for this message. Be-

fore you go though, will you identify yourself more fully?

I am Plutana from Venus—a lady pilotess. I operate “menas” — that is what we call control panels. I also act as a communicator and frequently contact people who are receptive to the conscious awareness of our purpose of helping them.

I must be leaving . . . and thank you. I am being called away!

## Greetings From Nepto of Neptune

(9.11.58)

I am NEPTO from Neptune! I am glad to be here, O Seekers of the Light Eternal! God is Light and Light is Love, and Love is the FOUNDATION of the Universe, and the Universe is the foundation of LOVE, and ye are one with the Light Eternal, and ye are sons and daughters of that Light Eternal, and ye are partakers of the Wisdom of His Creations and His endless progression through mankind. Ye have chosen the Light Eternal, or you would not be in this meeting.

We are stationed out in galactic space in our OCTU Space Craft. Our planet is known to thee as the mystical planet of your solar system. We vibrate on that frequency and we have come through that frequency vibration of Neptune.

Remark: This is the highest vibration we have ever experienced!

I am glad this is so. Yes, I shall try to assist you in your desires and wishes if they be of the Light I am Nepto - 9 - NA 9.

Q: What is the reason for the nine?

Neptune is the ninth planet in the solar system. NA is for Neptune. NA is the positive force activity of the Father's creation, and this is our frequency, our galactic space frequency. We are of a very high vibration. We are giants in thy sight. We are giant beings of Cosmic Light, and we do unto thee service in the Light for we, too, are a part of the GREAT I AM, the same GREAT I AM of which ye are a part.

Would you be interested in knowing something of our planet's life? While our size may be considered fantastic to your measurement, our height, which is on the average of nine feet, is in proportion to the gigantic size of our planet. The etheric dimension of our planet is larger, the molecular structure is larger, and hence our bodies are larger in comparison than yours. We who are of Neptune gravitate in our atomic structure to that frequency that is of a

higher evolution and development in Cosmic Mind.

Shall we explain that in our solar system there is a certain development of thought and being that is a part of our Solar Logos. There is a Logos of this system of planets, and there is a Solar Logos for other solar system beyond our own, and throughout galactic space. Each system has its own spiral of evolution in a manner similar to the spiral of evolution of the microcosmic man. Now we will not need to consider any other evolutionary development, only as it pertains to the likeness of man, for MAN is the image of the whole because life is endless, and is throughout the universe. The Universe is the body of I AM and I AM is the All Eternal Light, impregnating, impenetrating, and infiltrating all life throughout the Universe. He is the Beginning without End and the End without Beginning.

We shall assist you in all types of things to come but our mission is a little different from that of the rest of the planetary visitors, our brothers of space of the Universe. Our mission is a little different but it is of the Light and Godly Might.

Remark: As I understand it, you have just been observing us and will not take any part until we are farther along with the New Age and require your assistance. Is that right?

That is correct. ....

## An Evening's Session With Ashtar, Esu and Leto (Exact date not given. Late 1958 or early 1959)

LETO SPEAKING: Greetings! Be raised in Thy consciousness to the atmosphere of this little level that I may be heard! I can speak to you of the Wisdom of the Infinite Light, that which you already know, but only tolerate, and so do not digest. Be heard within thy soul and climb not the ladder without knowing, but be ye ever tolerant of the Voice of the Infinite through sound, both in music and in words, lest ye be misled.

Hear me! I am not the one upon whom you called\* but I am ONE transmitting from Universal Mind, speaking to souls of great hunger, desiring to hear words that will teach the Mighty Truth of Life. GO into the mountains of your very inner soul and KNOW Thyself before thou wouldst climb the ladder of perfect knowledge. It is not a difficult task; it is not impossible to accomplish.

This is but the simple way taught by OUR BROTHER, HE who said: "Come ye unto the Father as little children and you will be shown the way." Ye will be shown the way step by step, inch by inch, and thought by thought.

BEHOLD, the Light dwelleth in the leaf of the grass and the grain of the sand, and the stone, needle within needle of the pine, and within them is greater wisdom than man has to this day expressed in all of his glorification of self accomplishment, for he has the universe to work with and the good trees and earth, the air, and the water; yet we came not to hear these simple lessons that Thou hast laid down in kindergarten but we came to give you the lessons of the inner soul; knowest thou thyself?

Has thou gazed deeply within thee? Hast thou understood the principle of God within each other? Does the pulse of your heart give you the rhythm of truth? Man is a world within a world, within a world, within a world, and yet knows nothing of himself.

It is simple. It is TOO simple for it is too small a grain of sand, this truth that ye need to know. Man must have something to digest which is of mystic darkness, height, solidity, or an impossibility. This is what his creation has brought upon himself in body and soul and yet he holds a world within a world in the world of man, his mind, body and soul.

\* The Group had asked for Ashtar.

Hurry not to perfect these lest ye go astray, but go slowly and thoroughly and meekly and know thyself, and love ye another, and be forever at peace! ..... PEACE ..... PEACE ..... PEACE!

ASHTAR SPEAKING: Good Evening! Blessings of Life to all Earthlings! Beloved Ones, I believe you know who I am?

Remark by Group in Unison: Yes — We believe it is ASHTAR!

ASHTAR continues: Yes, this means a guardian, a helper, an emissary of the Light Eternal! I need not comment on too much — that is, on things that have already been said concerning the Divine pathway! Too much has been said already, and things may get boring after a time, although we cannot say these things too much because life is like unto an endless ladder, an endless stairway climbing upward — up and up — into the everlasting, the ever moving, the ever progressing, the ever-lasting PRESENCE of His Being. You are now breathing His Being. You are the MOTHER, the FATHER CREATOR; you are living in HIM!

The Spark of Light becomes STARLIGHT unto the climbing of the ladder unto Thine own self. Know ye that the stars of the universe are Beings, Cosmic Beings who have ascended, or evolved upon a higher spiral of Cosmic Light. Attune thyself to the Cosmic Voice that speaks through music, that speaks through sound, that speaks through air, that speaks through light; every living thing speaks His Voice — the Voice of the Spheres! When you know this and feel this and be this, you are truly in His Being; you are in the eternal state of His Being.

May these words I speak be a wand yielding Golden Light to encircle you — surround and caress you in the work you are doing and all other groups throughout this planet, and may they be a verification that we are with you, and that you are with us because we are in the ALL-LIGHT in ONENESS of thought and purpose

for a renewal of the Light-Forces of this planet. You are in that light; we are in that Light! I have not spoken to you before but now I have spoken because of the wishes of Esu. Blessings to all of our loved ones of earth. May the cosmic wheel — the wheel that is within a wheel, figuratively speaking - sweep you up and release you into that great Presence and the Universal Mind. Remember to keep your feet on the ground and your mind amongst the stars for your foundation in Christ will rock the earth; truth will change the earth; and the illumination of this planet earth will come into the freedom that the Masters have long envisioned for you to receive. With our assistance we trust there will be no dissolution or destruction which was so dangerously near.

Remark: We thank you. We accept that challenge, Ashtar. We will do our best to fulfill the confidence that has been placed in us and in those who have been working elsewhere.

I shall withdraw, and in the Name of the All-Light, blessings! ADO-MOK-KAN-SHAKA. In the Light of the EVERLASTING, your destiny is the GOLDEN Destiny! RIVE-REVONKA - VISHAN - VI-SHAN-KA-VO! MASA-DO, Masa-Do!

ESU SPEAKS: BELOVED SOULS OF MY LIFE there was once a time when I made the statement to the world of My Time and Place that where "two or three or more are gathered together in My Name, there I AM in the midst of them." Ye have gathered in this dwelling place, and I say unto you that where two or three or more are gathered to worship with sincere love and humility there shall I stand in their midst, and I also ask you to remember that this shall be for others of the Ascended Host of Light besides Myself for we have many Flowers, and many Jewels of Life to offer which anyone who has not yet attained unto the ascension of their being cannot give to anyone. It is a most blessed EVENT when any who are in the unascended state gather together — if they be sincere — for by working together they can gather their forces for greater effort and service to mankind. In this day there is great need to stand together and call forth the Mighty Powers of the Ascended Host of Light, for as ye call forth these powers in harmony and in truth, you shall set forth into Motion the Powers of the Universe at your command, and shall bring into greater action the Ascended Master Consciousness in all of your physical affairs.

There are those who work at one place for many, many years. Many years they do the same kind of job, work at the same place of business, and NEVER do anything to learn something new or different. I say unto you that it is good to be steadfast in your physical affairs, to love your family, and to strive in service to others, but HOW MUCH BETTER it would be to learn how to keep your attention on the Greater Perfection of Life than may come to you by keeping your attention on the Mighty I AM Presence of which ye are a part in My Heart. As you learn how to keep your attention upon your own I AM Presence and use all Space Beings of Light, you open for yourself a step forward in the USE of Greater Powers

than you have now, and you can only do this by making a greater demand on the Cosmic Law.

Therefore, in calling forth Our Consciousness, close thy eyes, open thy mind, and project outward thy thoughts into space, and visualize the ONE with heart and mind, and we will be with you for there is no limitation in Higher Divine Mind. There ceases to be limitation as ye progress in an understanding of this Great Cosmic Truth of which ye are a part.

O How frequently you are caught up in the world illusion! You do not see clearly the Path that is strewn with thorns, and that keeps you bound to the wheel of death and servitude. There is a Beginning and there is an End; there is a line to be drawn where you must learn to perceive. Truth that will set you free from these outer conditions which bind you to the wheel of one incarnation after another. You must awaken to your reality of life and demand the outer self to instill itself into the Heart of the Presence, where you will RISE above these dangers, catastrophies and thought of disasters. Be not dismayed if I say that I am NOT greater than you but like you as one of My Fellowmen, that, though you may consider me the Higher, I am, indeed, the lower, seeking constantly ever to bring unto you the truth of these Great Gifts so that you will become stronger and reach unto our OUTPOST and Dimension of LIFE.

In time to come, I shall make an Appearance to the people of earth to give Life new meaning and purpose but you must be prepared for this transmission of Light into your consciousness lest it pass you by and you know it not. If I AM Consciousness is to come to THEE, you must reach out your Hand and Believe in Cosmic Consciousness, THINK about Perfect Understanding and FEEL in your heart Perfect Enlightenment to give your existence ESSENCE, and to OPEN a channel for greater ACTION of Love in Truth and Light. So, beloved Souls, be not dismayed by troubles and tribulations for when they come in thy pathway, they are only obstacles to prove that you can throw off these yokes that would bind you. for Divine Light cannot be given to you until you do. You can do this best by transcending your limitations and thoughts of love, thoughts of goodness, of understanding, and healing, projecting them from you as Great Beams of Light, Love and Purity. This is your service, your duty, and your desire to mankind. So go on your way and stretch outward thy hand, and expand thyself in thy doing, keeping ever entrenched in the Cosmic Light from My Heart and Presence through I AM that sent Me to you, which ye called forth earlier in the evening.

NOW if you will stretch out your hands and concentrate for a moment on the finger tips of your fingers you will feel the healing force and Cosmic Healing Rays going forth into space. Let it surge for a moment. Send it forth that you may know this Great Surging

Action of My Love for Thee, and through thee. All is well; all is wonderful; all is PERFECT, and as it should be. Know this and you will learn to see all life with the EYES OF PERFECTION. Thank you! That is enough as I merely wanted you to see and try to feel this surging energy flowing into your being. Feel it, and you will know it as it is from the Cosmos, from the endless creative forces of Life.

Q: What is the cause of this feeling I have of lead in my hands? Is that because of healing energy going into the hands, or going out?

You are receiving energy but if your hands feel heavy this is caused by the condition of the blood, or from tension in holding out your hands. Inhale deeply and exhale fast, a few times, to clear carbon dioxide from the blood. It will help to change molecular action and circulation.

Q: Can we receive healing for one who is in this house who needs it? She has just come home from the hospital, and is in need of healing.

She is already receiving healing! May the Light be in her! Just send healing to her.

Remark: Yes, not only physically, but mentally, and spiritually as well!

Keep thy pathway straight because there is only One Highest Patriarch and that is the Father of your being. BA-CHIN-KO BA DE-O MANA-CHI-KO NIN KO BADO, MANA BA CHINCO, I AM the key and the KEYHOLE — Both through the DOORWAY of the Inner and Outer SELF into Eternity. I send you My Love. Thank you and Good Night!

LETO SPEAKS AGAIN: It may be only superfluous to say that God is Love after so much has been said about it but you are seeking, yourself, to enter into space consciousness and to receive of this space achievement, let us forever remember "In the beginning was the word, and the word was God, and the Word was of God." This is your key; God is Love; Love is Light and when you desire to reach SHAMBALLA to reach perfect understanding enlightenment, or of progress in the Universal Cosmos, you may do so by scientifically searching to serve humanity in the flesh, but you should remember the password; "God is Love, Love is Light" and that He calls to our brother upon the earth to lift up his countenance to the Light, and these are but channels revealing the way, speaking words of Truth as they may seem to be. Know ye, however, that truth is a fleeting thing, not to be cast off lightly, or to be put on as a cloak to carry you over the puddle, but is as a JEWEL which you should polish, and reclaim, and CHERISH as your very own. Truth is a changing condition, changing from one moment to the next, and never quite the same. So we must send forth this thought of Love to you. Fear not, lest you be interfered with. Give

no power unto the darkness, or to the ones who might interfere for as you mention them you build up a proportionate attention and you are giving them power. Please, when this thought of disruption, interference, and correction is needed, say over again, a million times if need be — God is LOVE, Love is LIGHT, and no shades can exist in a HOUSE OF LIGHT.

This is LETO!

## Mon-Ka Of Mars Discusses Earth's Rocket Programme

14/4/59.

WELCOME AGAIN MY CHILDREN - STUDENTS - to the science classroom where we shall study for a few moments the Cosmic Science of the universe and give you some of the answers to the problems which confront you.

I am Mon-ka from Mars. We would prefer that you call it Maras for that is the name which was originally given to our planet. Ye of earth have known it as Mars. Also know that ye have a tendency to abbreviate things. You have a tendency to rush to and fro, hither and yon, stirring up things around you, chopping them off and to do things half way with only a little smattering here and there — starting too many things with nothing finished. That is the cause primarily of your chaos and confusion upon your planet at the present time. There are abbreviations and shortages of plans for development of useful things for all people. Only part of the people can utilize these things.

You are spending enormous sums of money on programmes which are completely useless, which are completely contrary to the Cosmic Concept which we of outer space have conceived for our planet and which we are utilizing.

We have in mind at the present time your program of rocket development. If you are not careful this will develop not only into a rocket programme but a RACKET PROGRAMME which it already has become. We are interested in these rockets because you have placed them in the atmosphere of your earth. You have been placing them beyond the earth's atmosphere also rockets that are detrimental not only to your atmosphere but to us as well.

Money is being spent to recover the so-called nose cones of these rockets on their return to earth. We want to give you a little information at this about one or two of these nose cones which you shall never recover. When one of the important rockets was sent into stellar space a few months ago, SIX of our space craft intercepted and took the so-called nose cone of this rocket as it was ready to recede back into your atmosphere. We took it by placing a magnetic field around it. It was taken to our planet for observation and study. But know ye also that THIS FACT IS KNOWN TO YOUR MILITARY because it appeared upon the radar screens of one of

the observation points. This information is being WITHHELD and is strictly taboo. Those who saw it and recorded it have been suppressed and relieved of their duty with penalty of death if they should reveal any fraction of what took place.

Know ye also that a report will be forthcoming from our planet and will be given one in HIGH AUTHORITY when the proper time arrives. It will be a mystery where this report came from because none upon your planet will know of the information contained therein. Know ye that there is great confusion upon your Planet SHAN; there is great chaos in the minds and hearts of those who are in authority. There is consternation — yea, among those on BOTH SIDES of this so-called fence. This confusion and chaos will continue for sometime yet, until it reaches a crescendo when someone may make a mistake.

Know ye that when this mistake is made—and should a missile containing a war head emerge from either side of the fence, we will intercept it. We will remove by magnetic field the firing pin from this war head and will return the missile to the place from whence it came. This will be not only a mystery but will also add consternation and they will not know what has happened.

We are keeping close watch upon your science. Some of it is very GOOD. Some of it will advance your civilization; some will RETARD it for thousands of years. There is one method by which you can accomplish the progression of your planet and that is by your thoughts — for THOUGHTS are THINGS! As this little group is gathered here along with hundreds of others throughout this galaxy of yours, know ye that much of the confusion and chaos can be alleviated by THOUGHT POWER alone. If you think rightly, you will live rightly. If you project your thoughts correctly to those in AUTHORITY, they will stop and ponder whether or not their actions are correct. You may be able to avert many things upon your planet which have been predicted to come to pass.

We of MARAS have not been idle; we have not just been waiting and watching. We have been doing. We have been on the alert to see that nothing happens, that no one makes a mistake which will be fatal to both your civilization and your planet. But know ye that some damage has already been done. This damage we cannot rectify because, as you have been told by others, we can only place certain obstacles in the way which will prevent a major catastrophe. The minor ones will come and they will come quickly so that it will be over with SOONER than you have expected — even sooner than some of us have predicted! Be not dismayed but be alert and be as channels of LIGHT at all times, telling those about you what you have learned, what you see and what we have told you of truth. We are chiefly concerned with your science, your religion, and your spirituality. The two must go hand in hand. Your religion must become more scientific and your science must become more religious. We will recede again because we cannot give you too much. Good night! May God bless you abundantly . . . .

## Monka of Mars Gives A Further Discourse on Interplanetary Communication

Greetings, people of earth. I am Monka. It is indeed my privilege to address all of you at this time. I have consented to several questions presented by your people. You may proceed.

Q: Monka, many people have enquired about the way your people have found to communicate with people of earth. Do you care to enumerate the ways or some of the ways in which this is done?

Regarding the various methods we have of communicating with your peoples, we face a number of unique problems. Let us say that the determining factor, first of all, in any communication is the method of reception employed. In reception we have the methods of impressing upon the minds of various individuals, through both mechanical and what your people would call electronic means, by employment of certain fields of force that may be beamed in various directions to cover either a large or small area. By using these beams we may transmit data or information. This information may be converted to the type of receiver used. Let us say that in the case of one who is an adept and that which is known to your people as impressed writing, that the mind of the individual, so employed as a receiver, is conditioned by choice, or by the impression of an external field. The mind then unconsciously directs and controls the necessary muscular reactions to form a style of penmanship and also of the characters to form the words into the language used. In this manner a complete communication may be delivered while the individual is used as such a receiver.

In the next instance, where the reception known as radio is employed, the communication may be delivered either directly by one of our large communication centres on a planet, or through relaying facilities of one of our space-craft which, in turn, is broadcast upon waves electro-magnetic in nature. These waves are then received by ordinary means of radio communication. We can beam this type of reception over a large area, or it can be confined to very narrow limits.

Another type of communication involves what is known as impressing information upon what your people refer to as a beam of light. In this case there are certain types of material that display qualities that are sensitive to light vibrations known as infra-red. A special receiver already known by your people is capable of receiving pulsations of infra-red light and converting them into audible sounds. It may be scoffed at by some, but infra-red rays of light are capable of greater span of distance than any form of

communication known upon your planet. We have for a great period of time used this as one method for a permanent network of inter-galactic communications.

Perhaps one of the most interesting methods of communication used by us is yet known in our terminology as a tensor beam. In this instance a cone-shaped field of magnetic radiation of a wave length, unknown to your present technology, is projected by either a craft in your immediate vicinity or directly from one of our larger communication centres. This which is called a tensor beam consists of three types of magnetic phenomena occurring simultaneously. Let us call them for the sake of illustration, a core surrounded by two concentric tubular layers of magnetic substance. The central core is a type of magnetic radiation two inches in diameter which when projected, acts on the brain of the receiving person. The inter-tubular layers control the immediate physical environment of the receiving person and extends exactly four inches beyond the area of the body of the person engaged in reception. This picks up the emanations of the mind of the individuals present about the receiving person. This serves as a carrier for returning their thought to our monitor.

Q: Monka, how are you able to express yourself in so many different languages?

For your information, we have at our disposal a device which does not rely on vocal translations of our language into yours, although it can be so employed. The method used consists of a suitable field of induction which picks up our thoughts directly and then converts them into impulses suitable for transmission by tensor beam, which in turn are interpreted and acted upon by the mind of the receiving person. This device which we call an ediphone is the machine used to translate our thoughts into impulses and suitable for transmission. A translation into your language in the case of the tensor beam is accomplished through the mind of the receiver. I might mention that the effects of a tensor beam communication on an individual results in several interesting factors. One factor in our communication is the sometimes limiting effects imposed by the scope of the receiving person's vocabulary. Often, however, entirely new concepts are implanted upon the mind of the receiving person. This is dependent upon the degree to which the receiver is in tune with the transmitting station. A mechanical vocalator is used where radio or light beam is the communication method employed. Let us explain that the mechanical vocalator is a device which converts thought into oral expression.

Q: Monka, have your people on any occasion used the medium of the telephone for communication purposes.

This medium of communication can be utilized on occasion; however we do not favour this method. When it is so employed, the mechanics needed could result in a failure of the circuits involved in the communication or, in some instances, replacement of your equipment.

Remark: Thank you, Monka. This is enlightening and refreshing information.

## On Interplanetary Communication. An Explanation by Kebo-Sha of Saturn.

21/4/59

I am Kebo-Sha from Saturn. No knowledge, no substance of LIGHT is withheld from any inhabitant of the universe who asks in LOVE and LIGHT and opens the heart and mind to receive that LIGHT and knowledge of Universal Wisdom of the ages.

You have asked and you shall receive\*.

You thought this message should have been from Maras. The Saturnians and the Martians work in very close conjunction. These are very complicated matters for your finite minds of earth to grasp. They are not mysteries but operate upon the inexorable laws of the universe which apply to man, beast or rock and the knowledge of these laws are available to all inhabitants of the universe just for the asking.

Your Channel number is Y 785. Generally speaking we have three different TYPES of what you term broadcasts to your planet Shan. These are not frequencies but TYPES of transmission which you call by various names; tensor beam, telethought, solotron, etc. But for your understanding we have termed them X, Y, and Z rays. Your associated channel of the Light with whom you are in complete rapport and must remain so at all times and under ALL circumstances, trying and otherwise, is tuned to the X rays. We are developing another channel in your group who will receive, if all goes well, on the Z rays.

Know ye that all of these so-called channels are important for the unfoldment of disciples of the LIGHT on the upward spiral and let there be no jealousy or discord of any kind relative to this reception, thinking that one is "higher" than the other, for you know that God or the Creator of the Infinite Intelligence or whatever appellation you wish to use is no respecter of persons and least of His creations is just as important as the Highest. We have been experimenting with you and developing you for months. The exact frequency of your reception has not been decided. The number preceding the letter indicates the frequency band of transmission; the letter the TYPE or atomic structure of the "rays" and the numerals the identification number of the channel, of which we

have now catalogued and indexed in OUR communication centre on Mars, over 12,000 channels, past present and future, which are to be used in "Operation Deliverance" now imminent for your planet Shan. We coined this word for you a matter of years ago before you knew much about what we were trying to accomplish.

Now to clarify some of your confusion and give a little more scientific information on our methods and engineering. The "Broadcasts" to you — we will use this term although it is not quite descriptive — is beamed to you from a point approximately 20,000 miles out from Mars on a direct line with the axis of Polaris. The angle of transmission is approximately 65 degrees from this line and must be constantly compensated for, due to semi-constant deviation of your planet's orbit. We use the term semi-constant here, as this will be explained to you at a future time. It has to do with the lunatics on your planet who are now exploding atomic bombs.

\* For an explanation of interplanetary communication.

The space station from which your Y-rays originate on this Celestial roadway is known in your parlance as Shas-talla. In order to satisfy your curiosity as to why we do not broadcast to you direct from the communication centre on Mars, be it known to you that we have hundreds of such arrangements known as relay stations, and this arrangement is necessary in some cases from an engineering standpoint.

In the case of the Y-rays, they are of such frequency and atomic structure that they would be absorbed by the "magnetic" field of Mars and would not get out of her atmosphere just as your radio waves are bounced back by your atmosphere and do not go beyond that point. There is also another advantage to a relay station. Any message, anywhere within the receiving range, even from another galaxy may be "converted" to the frequency beamed to you much the same as you convert frequencies in your radio and TV receivers. I am beaming this message to you now directly from our communication centre on Saturn, which, in your confusion, you thought should be coming from Mars, but I am using a frequency which can be easily received at the relay station and then converted into X, Y and Z rays whichever the occasion demands.

I hope this will clarify for you some of your erroneous thinking that these Etheric Beings are coming to you and your beloved X channel on different frequencies. Yes, it is true that each of us have different frequencies which we use to beam our messages to the relay station, but it all comes to you on ONE frequency. What you have erroneously classified as frequency is units of POWER. Our unit of power is known as the DICRON. One dicron of our units is comparable to 1 million of your watts. Incidentally the power used in the transmission to you last Sunday was of the order of 20,000 dicrons. An entire treatise can be written on this subject alone and at a future time we will give more information about it.

But let us go into the matter of power a little further. As I said before, we have been experimenting with you for many months both

as to the proper frequency and power to which you could tune your consciousness for efficient reception. We have not assigned the exact frequency as yet, but it is tentatively agreed upon and is very close to the frequency upon which you are receiving this message. It is slightly different from that used on Sunday.

Why did we send you out to Blesthaven Sunday night? Certainly NOT for a ride in one of our Celestial vehicles or even a sighting. We wanted the X and Y channels to be close together for a very important experiment which we felt necessary to be carried out. The experiment came out to our complete satisfaction and we thank you for your obedience, because nothing can be accomplished in the work which you and this group has been assigned to without OBEDIENCE, and obedience to the minutest mandate is necessary even if it appears to you at the moment silly or fruitless. It all fits into the complete cosmic plan. So, carry on, OBEY, PRAY, MEDITATE, WRITE, SPEAK or whatever else we give you to do without hesitation, complaint or recrimination and this goes for ALL children of the Light, wherever they are, and whatever they are, whether they are Universariums, Unariusians, Aetheriusians or what have you.

Now a few more words about power. No matter how much power we expend in the transmission of a message, it is of no value unless you have a receiver. We will liken this whole thing to your radio system so you can understand it. You have the crystal set and you have your multitube super-heterodynes that operate a speaker. You are now receiving on a crystal set. It is not necessary that you operate a speaker because there is no one to whom to speak. All that is necessary in this case, is that the motive power from your body is sufficient to transmit the messages received to the keys of the typewriter. All inspirational writing is received in this manner — on a crystal set, so to speak, whether it is transmitted from our relay stations in the ethers or whether it comes from the etheric CENTRE of communication in the Atmospherian Heavens. Know ye that there is one there too. You will learn about this later. Now what happened Sunday? You had present a very powerful “5 tube superheterodyne” which acts as an audio amplifier to bring to the vocal chords of either the X or Y channels the messages we desire to transmit and you desire to receive. In the case of a group, the group as a whole becomes a part and parcel of the receiver. You only had a 5-tube receiver Sunday night, but each tube was functioning at its maximum efficiency and developed enough speaker power to bring in each channel clearly. The mechanics of this is not clear to even your advanced technical mind but will be revealed to you as time goes on.

Let us suppose that there is within a group desirous of receiv-

ing messages some person who is not in harmony with the philosophy or teachings or even present for the purpose of detecting fraud in the procedure. If the group is large and there is a preponderance of efficiently functioning "tubes" there will be little effect upon the reception, but if the group is very small and the same conditions prevail, the "bad tube" might have the effect of "short circuiting" the entire receiver and we would be in the position of having set up our equipment in inviting our speakers and broadcasting to a "dead" receiver.

As a final word, let me stress what obedience means - obedience to the minutest detail or inspiration or instruction. It means first the deflation of the ego, and my beloved channel of Light, you have much ego yet to deflate. You were much concerned on many occasions when you were left out of a meeting or could not be the big "I".

Oh, how long? How long? How long, ye children of the Light will ye carry around you this ego as a millstone about your neck? There were several of our children who resented the fact that they could not go with you on your mission Sunday night. You obeyed our instructions to the letter. They obeyed also but begrudgingly, thinking that your ego was manifesting when it was only their own and not yours. You did not know what your mission was, and felt disappointed and thought that perhaps you had done something wrong and felt guilty for excluding those who we definitely told you beforehand should not be sent. Not until now did you know the answer, but know ye that we will not suspend you long in the spider's web of doubt — only so long as it is necessary to hold on a certain plane of consciousness where we can apply the refining fire of our alchemical laboratory to your karmic ego.

In order to give you further release from this web, I will inform you that the message you received while waiting at Blesthaven, "What shall we do with Karsleigh and Roberts?" was transmitted only a few megacycles from the frequency we had selected for you and was transmitted only to test the sharpness of your selectivity. Also the instruction to be patient and wait, was NOT for a sighting, but that you would stay there long enough that we could complete the experiment which was completed to our complete satisfaction.

Your co-channel X was much disturbed that he could not receive anything, but that was all a part of the experiment. We have been beaming to you some of the same information he had been receiving simultaneously on your respective rays and we wanted to be sure that they would not mix, or heterodyne, so to speak and mix you up. This is a difficult task, even for us, with our advanced technological knowledge, and your obedience to our instruction had advanced this research and knowledge both on our plane and yours, even though you had to be baptized with "fire" to co-operate on this important mission.

Obedience! Obedience! Obedience! O, ye children of the Light, when will you learn to obey, not only the Voice within, but the outward manifestations of the Voice that bids you emerge from the caverns of darkness into the eternal light of the New Age, where darkness cannot exist.

So, now, we from what you call outer space, pronounce upon you our benediction not alone as a channel of LIGHT but as a Disciple of the Christ within you and whose Disciple of old, Esu, shall soon dispel the darkness of your planet Shan, by an effulgence hitherto unknown in our galaxy.

## The Master Answers Questions

(9/2/59)

GOOD EVENING BELOVED ONES OF THE ETERNAL LIGHT:

I have come for I AM with you always within your beings. Peace, tranquility, serenity be with you! Know ye, my beloved ones, that I AM not the Creator; know ye I AM only a Son of the Light which you too, in time will become; for you have all the potentials of Christ-Light — of becoming a Christ Being — within you . . . becoming ONE with the Infinite ever-present within you . . . truths without end flowing through you and transcending from you.

KNOW that I SHALL RETURN in the NEW AGE which is now becoming manifest, becoming a reality only through the assistance and aid of your beings. It is the Light within you awakened and transcending forth unto those who do not yet understand the Light. Illuminate them for this is the ONLY WAY that you shall have the Kingdom of God in this New Dispensation. You are the instruments and channels of the Light. Be not concerned with "indifferences" in the masses but be concerned with the ones who are willing to understand and learn the eternal truth that is to come unto this planet SHAN.

Know ye that indeed, ye are the sons and daughters of God, gods in potential. For you see you are the Infinite within yourself—within the I AM PRESENCE that is within you. When I spoke unto the people in ages pasts I said, "I AM" meaning the I AM PRESENCE that is within you shall be your Teacher, your Guardian, and your Illuminator, THE MASTER, for you will be the designers of your own destinies in life here and life beyond this immediate realm.

Know there are troublous storms raging throughout the atmosphere of your planet — EARTH. All seems calm, collected and serene, but it is not. Underneath are fires burning, trying to destroy that which is to come forth. Be not dismayed if things break out and tribulations seem to arise in your midst for you will not be harmed by these changes. You will be protected by the tube of Light that is surrounding your beings. This tube of Light can be

experienced and felt as you travel your chosen pathway unto the life eternal, into the realms of eternal joy, peace and happiness — eternal wisdom, eternal knowledge — everything that is eternal. You need not be dismayed because we are with you. The united Forces of the Legions of Light from other planets, other solar systems, and other universes are with you. This great destruction — and I say IF it must come — that is coming will be for those who do not want to live in the divine law, the ones who cannot understand or are rebellious and who do not want to accept the truth of true being that is. Know ye that ye shall not be in this destruction. We shall send out space craft unto you when the time is ready and you shall be taken or protected from all that is below. Know ye that the time is very short! Know ye are the ones to help to awaken the ones who are ready to be drawn into this Light.

Q: How can we know who are the ones to be taken? Is there some sign we can go by?

You will know when the time of emergency arises who will be taken. Only the Father knoweth this! We do not judge who is taken and who is not. But if you have the Light WITHIN you it will be evident and we shall see it, and you shall be taken. The ones who are not of the Light must go through this destruction for they shall be in due time removed to other places for their evolution. But remember, that does not destroy them — only temporarily their physical vehicle. They must learn the difficult road because these are laggards who must go through further experience. We must hurry in this great task because time is short and we have shortened the time so that the destruction and time of reconstruction is not prolonged. Know ye that a NEW HEAVEN will be upon the foundation of the Earth. The Kingdom of the Infinite Light will be here.

People from other worlds, other planets, will come unto thee. All shall be ONE. I liken them unto your neighbours. But the ones who do not want to live in the divine law cannot be permitted to escape the Earth into space, into that area of life-consciousness that you call space, because they must first have Me in their hearts before they can venture into the Infinite Mansions of the Father's house — the universe. If man were permitted to go out in his grievous needs and deeds he could indeed conquer one thing and call it his own when, in reality, all is of THE FATHER and nothing belongs to man. It is only for man to use. The Father created all for man to use, and everything belongs to everyone, not one man.

Anything less is greed for power and possession and will not be permitted in any way. You see, that is what the Dark Forces of the planet Earth are trying to do at this time. They are trying to send out missiles and other things of destruction to conquer the Earth, then the Moon, then Mars, then Venus. But they will not do this. THEY WILL NOT DO THIS! The United Forces of Light will

come by the millions to change the concepts of the world, and to defend you, beloved ones of the Light.

Q: Can you tell us the nature of this destruction you say will come?

You must become aware of the dangers of exploding hydrogen. It will not — if it comes — be complete, but it will be great enough to awaken mankind. It is too bad to know that the mass-thinking of man must learn the hard way by going through such trials. If only he could respond to the INNER VOICE within his being then he could KNOW beyond all doubt what is to be in his being and world. The I AM PRESENCE always knows all of this knowledge for it is of creation. Yes, there will be great Earth changes. There is bound to be, for mankind must be cleansed; he must learn how to give up these ties of the mind that bind. An old continent may arise and return unto you from beneath the sea. This United States is to be built into a new foundation with fertile soils that will be for the New Age, the New Era, the Light of the planet Earth.

Q: Does this mean that man will all be destroyed from off the face of the Earth at that time?

No; there will be changes, not total destruction. This cleansing process is necessary for the reconstruction of earth.

Q: How can we further the Kingdom of Truth while we are here now?

Know ye that ye are like beacons of Light sending forth, even when you are saying nothing. Know, do, dare, and be silent! Be examples of truth of what you believe and know to be! This is most important at this time, because if you do not ground and anchor yourselves in what you believe now — why later it shall be more difficult to steady yourself with what you now have received. Others will see this Light in you and act and respond unto it according to how they are affected. Then you will carry on from there. DO NOT FORCE ANYTHING, but let all progress naturally and let all think these things over so that they may advance according to their own God pathway.

Q: Who is the Creator, and what is His Name?

His name is in the wind. The Creator is the UNIVERSAL SPIRIT — THE ALLNESS of Life. IT is both feminine and masculine, positive and negative. It is the Universal Mind embracing all You see, my beloved ones, in the so-called beginning, even before the EARTH existed, even before any universes existed, ALL WAS, ALL IS and ALL EVER SHALL BE THROUGHOUT ETERNITY. This allness is divine intelligence; for nothing can come forth out of nothing. There has to be SOMETHING because, if there were not, you would not be. This divine intelligence IS NOW in your being, in your Higher Self that you are now becoming slowly and gradually aware of in your consciousness. Sacrifice is of the Higher Self; selfishness is the opposite, of the lower self, which binds one to matter. Matter is nothing in itself but frozen spirit. So actually

all is spirit, only materialized according to the mind activity of one's being. Know ye that these things will come to you when you least expect them . . . the realization of them.

Q: How much of our Bible is reliable? We know that it has been translated so many times that we wonder what has been the original Bible and how much is not? Which Bible would you say we should use at the present time that will give us the clearest meaning of what you would have us to know?

Look about you, look WITHIN your beings. Use your eyes, use your ears, use the faculties that you have. This is the best Bible — life experience is the best teacher. There is truth in ALL things — not all truth but some truth. You never reach the ultimate of truth; it is eternal. Truth may be truth one day and the next day it may not be. The ONE and ONLY truth is that HE IS the CREATIVE SPIRIT in you; HE IS or you would not be! The Creative Spirit is transcending love which is the foundation of the universe, the foundation of all life, love, wisdom and the power will be given unto you when you are ready to receive the higher things.

Q: Should we discard our present Bible then?

No. Many things written in the Bible are true. The words I have spoken therein are true; but some of the histories are not. Judge for yourself. Be not concerned with histories. Be concerned with TODAY. NOW — or how it relates to the past in LIVE history — is the most important of all. The eternalness of Being is NOW — living in the NOW. There is no past and no future. ALL THAT IS NOW! ALL IS IN THE NOW.

Q: Would you encourage us to read the present-day messages that are coming through the various channels? Are they nearer the truth and the Light than the epistles as we have them in the New Testament?

Be it according unto you what you think truth is. You believe what you want to believe. If it is truth it shall stand forth like a beacon of light. There is no one absolute thing! All is change - constant change. You were not the same today as you were yesterday. Always you are changing. It is according unto you how fast you want to change from the lower to the higher.

Q: What was your name on Earth and what was the name of the religious group to which you belonged?

Some called me Jesus and some called me Joshua, Ishuah, Immanuel; but now the present name I prefer is ESU — ESU meaning "the ascended one" meaning that I had controlled — became master over the elements of matter and ascended what you call death. The name of the organization or "religion" as you call it, was the ESSENESES. The Essenes, my children, were a group of devoted souls who maintained a secret school. The secret teachings were only for those few who were of the Light because, were the dark forces to learn of these truths, they would use them for their own destruction. The secret teachings from the Universal Brother-

hood of the Light can only be given to those who are of the Lord — who work for the constructiveness of mankind and to help their fellowmen. It is an universal brotherhood and has come from times past . . . through the ages upon this planet. Other planetary beings from other worlds come to join in the movement of helping the people of Earth. Anyone who believes in the Light and is working for the good of mankind is a part of the White Brotherhood. We are in the invisible realms of the planet Earth, but we also become visible at times according to our mission, according to what we are trying to bring forth. 1

Q: Could you give us some information concerning the Cities of St. John that lie to the East of us here?

The City of St. John is in the Mount Hood area which is another one of the mountains of the forces of Light. The mountains are places of spiritual manifestations — retreats and spiritual foci of energy for the White Brotherhood — Mt. Shasta, Mt. Hood, the Teutons, and Mt. Washington. MANY ARE BEING MATERIALIZED FROM THE ETHERS OF SPACE FOR THE SECRET TEACHINGS TO BE TAUGHT UNTO THE PEOPLE OF EARTH — THOSE WHO ARE READY. These cities are unseen though they are there. They were built there in times past for the same purpose that we are now building them again.

Q: Will they help us in spreading this information concerning the Light that is coming into the world?

Yes. There will be certain groups who will be informed where to go in the mountains to receive experience and teachings according to their advancement and active faith.

Q: What must we do that we may be taken for a ride in a space ship?

Certain ones are taken for rides, but mostly it is for what WE want to accomplish. I know that you all here would like to take a trip; but it isn't that easy. It is because some can not withstand the vibration. There still is much work to be done.

Q: Is it wrong to eat meat?

Not if you do not think so, but in time you will see that it has a lower vibration, and anything taken into the body will affect the cells of that body. You might say that it is a secondary food whereas the vegetable kingdom is better — and fruit. If you eat meat it means that you must kill and to kill is to create FEAR vibrations in the animals. When you partake of this meat you become part of that fear of the animals that you have eaten. Do not be concerned right now, but let your desire within you decide what you should eat, or not eat. If you desire to have it taken away then it will be taken away. It is not the best; but on the other hand it will not harm if you go in moderation. Do not eat pork because it is the lowest of all in its vibration. You may eat beef; but if you do — CONCENTRATE it with light energy before you eat it. Visualize a VIOLET RAY BEAM through yourself upward and through the meat. Think this and it shall go forth and transmute the lower

atomic structure. If you can overcome eating meat do so because it will only hinder you in your ascension into Light.

Q: How about fish, and fowl?

You cannot expect to undo all that has been done through the years in one day. This takes time, beloved ones . . . time, and it is all according to you and your will to succeed. We have lots of time, but you have little time.

Q: We have little time! Can you explain this to us?

Time is a concept of man in the third dimensional world. If we say there is only thirty years left to millennial we mean it is the time you have to progress into the spiritual realms of Light or be among those taken to another classroom, another body in space of lower grade and density. It means that the planet EARTH must come into the understanding of Spiritual PEACE or it will be destroyed, and there is nothing that can be done to prevent it. It is all a part of the individual action of each soul who is in embodiment at this time.

Q: Does this mean the whole earth?

No — just the surface!

Q: You mean this will be the hydrogen bomb of which you spoke before?

No, this will be by our means. The FIAT has gone forth; it is for you to accept, and become a part of this NEW-AGE Kingdom.

Q: Then you mean this experience of the hydrogen bomb might come before then?

YES . . . .

Q: Is that part of the prophecy that we have of the terrible tribulation?

Yes: this is not a 'scare' programme. This is a real danger.

Q: Will you come and manifest yourself to help the children of Light in bringing the truth to the people of the world?

I will appear in the sky as a projection from the great star ship — SHANSHEA that is orbiting your planet, making a second moon. I will come forth through the beam of Light. It will be only My IMAGE you will see at first. It will differ from what a lot of people may expect. Not all will know that I AM here for it is individual and will be for those who have ME within their hearts.

Q: Is this as we are taught in Revelations about the Armies of Heaven that will follow you when you come to Earth?

Yes. At first, there will be the IMAGE, then a space ship will descend and land and I will come forth. Not all will know that I am here but those who are prepared FROM WITHIN will be notified. Many will come.

Q: Will everyone see the projection in the cloud? Will it be seen over the entire Earth at the same instant, or will it be over a period of a day or so?

It will be seen by many at a certain time, held for a time long enough for all to see; then we will make a wordly announcement

through all communications - through television, radio, and all instruments that we can use notifying all that we are coming.

Q: Can sincere study and the practice of Shin, or Zen, Buddhism lead to truth?

Buddha is the Christ of His people. I was the Christ of this nation and other peoples through the line of Israel as it has been expanded through the years from the time of the Divine Covenant with Abraham by the All-Father. Anyone who is trying to send forth truth is Christ. Christ means 'all knowledge, knowledge of truth.' There are many ways to the heavenly Father — MANY WAYS. Even the savages have ways unto the Father. There are MANY ways that you can find the God within you — above and through you.

Q: Can you tell us about the Jewish race? There is so much being said concerning the Hebrews as to what part they will play. Do they truly hold the important role that the Bible gives them?

The Hebrews are a people that are not at all any different from any Anglo-Saxon nation, or any other nation. All are the body of the Divine Spirit, all are individualizations and manifestation of His Creation.

Q: The returning of the Jews to Palestine - is that a sign which God has given us that the time for Thy coming is near?

There are many signs given unto man that you may know and receive. It is one sign you can interpret for truth.

Q: We have been told that you have incarnated many times on the Earth. Is this so?

My children, it is very difficult for you to understand; but that is the truth. I have come and worked in many different bodies and have incarnated many times. Many Masters of the Light have incarnated many times, each time coming as a different person with a different name — yet the same Being. The incarnation is not the ultimate plan but it enables us to help mankind as much as we can on this particular plane.

Q: We understand that our Bible has been garbled as to its original spiritual intent. What can we believe especially of our King James version?

If the Bible that you read says that Love is ALL, Truth is ALL, Wisdom is ALL, Life Eternal is ALL, then that is ALL that you need to read. That is in itself ALL. If you read it with the viewpoint of the higher, inner self, it will begin to reveal many things to you that you may not now see.

Q: Could you give us a message for the group at this time that would help us in our ability to work more in the Light and to overcome the evil powers and forces that are about us?

If you feel not in harmony, ill at ease, think of the Light RAY BEAM or FLAME going upward throughout your body into your affairs, and then visualize the tube of Light around thy being, com-

pletely encompassing your being. In this way you will protect yourself from these negative forces and all that is not of the Light. It helps to enfold and build this into your outward consciousness, and serves as a CUP OF LIGHT for us on the Ascended plane to dissolve out these conditions. Light always gives forth Light and nothing else.

Q: Can we help others by thinking of the Light around them to help them come into this knowledge?

Yes; anything you do from your knowlegde and use of the I AM Presence is helpful. What you do for others to help free them will help you but you have to learn the technique.

Q: What can we do to help our sons to understand and grow into this Light?

Do not force; you can only do so much at a time for they are in the growing stage. They must grow naturally by experience. You can only tell them so much but if you do it in the right way they will accept it finally. Some of these things must be experienced before there is belief. Try to live by example as much as possible. You need not say anything but make your CALLS through your Presence to us, and we will help you as much as possible.

I am sorry but this is all I can give you now. The etheric energies are being depleted. May we meet again as you travel the ROYAL ROAD to greater enlightenment and greater understanding; and until we meet again may there BE Peace Eternal, Light Eternal with you always, my beloved ones of the Cosmic Light.

## Contributions From Various Other Sources The Keys of the Kingdom

(Hawkes Bay, N. Z.)

Peace be with thee. Hast thou ought to say in this little hour with thee, when speakest the voice of the voiceless? Art thou one with the Father? Then, so be it, together we traverse the paths of peace and, to our common good, together we peruse the manuscripts of Heaven, to nourish and bless our eternal life. We are all one in mind and will, and in our undivided love for the life which is ours and yours.

Greetings from the realms of Light from one who has long been a dweller there. Words! What are they? Thoughts are living forces, and by thought we reach mind to mind, from world to world, encompassing this universe of life. There be a mixture of ancient and modern pharseeology, but be not confused, one grows accustomed to a manner of speech, even in thought. It is long since I have spoken in words, and it comes strange to my understanding.

Unto thee I give the Keys of the Kingdom of Love. Is there ought else thou couldst wish? If there be given great gifts on earth,

then dost thou give full appreciation of heart for the gift and the giver. But give not to us your appreciation of heart my dear; we be but the humble dispenser of these good gifts of our Father. Tis His will we obey, and we have no will apart from His; so be you thankful therefore for these gifts of the spirit to our great God, or Allah, as one with powerful mind (whom thou art conscious of in thy presence) would say. Let us mingle together then in thought, and find now solutions of thy problems.

What are the Keys of the Kingdom? The Key is Love — universal — Love which embraces all manner of created life - in nature, in animal, in human, in Angel, in Archangel, and in every living creature. Love is Life; without it there is no life; there is annihilation, extinction and nothing. Thou art evolved out of the love essence of God; in His breath is the seed of life. If it were not so there would be no consciousness, no self of which to be conscious. The seat of consciousness is in the soul and the essence of the soul-force is Love. To be aware of this Truth thou has to be re-born in the likeness of that from whence thou came. Thy life upon earth is for the purpose of development of thy power of love, to create for thyself a dwelling worthy to house thy Father. When thine eyes were blinded, thou didst not see —, when thine ears were deaf thou didst not hear, when thy soul slept thou wert unconscious of ought but thy lesser world and its demands upon thy senses. But when thine eyes were opened, and thine ears were unblocked, and thy mind was awake to thy divine heritage, thou then didst FIRST taste of the joys of that which is yet to be and partook of thy nourishment and wert refreshed. Upon thy reflecting pool thy sight was cast and thou sawest there the mirage of thy world and, liking it not, thou didst set about to build anew, and when once again thine eyes sought the pool of reflecting light, thou didst see a fairer vision.

The change was wrought by the miracle of love, and when thine eyes again besought the pool of reflecting light, thou didst see thy Father's face, and it pleased thee. Dost understand my speech in parable? So be it! When thine eye beheld for the first time thy Father's Face, thou wert afear'd and covered thine eyes, but when thine eyes grew accustomed to the light, thou didst gaze in full and, seeing, thou didst understand. All this thou didst do in thy past generation, in thy other world experiences. Now thou art awake and ready to be given the Keys of the Kingdom and, whether thou receivest them now or later, thou wilt benefit by the knowledge and thy dawning light.

Thou now lightest thy lamp with good oil, and it will fail thee not or go out and leave thee in darkness. Love covereth thee like a cloak, and sheltereth thee from storm but, unless thy will be strong, thou canst not avail thyself of all thy Father's gift of life. In wisdom wert thou created and thy seed was sown in good soil to bring forth a strong virile tree which spreadeth its leaves and reacheth out to embrace others in the shelter of its overspreading branches. The Key was given thee in Love's wisdom to open the door to thy

perfect understanding. When thou sawest through thy glasses, darkly, thou didst see but a short distance and perceived not further afield; now thou hast cast away thy glasses and seest with thy sight undimmed, and seeing thou art well pleased.

Thou now hast thy mission to fulfil for thy probation is over. thou art a disciple of the Light which cannot be hid and thou hast to give an account of thy ministry to thy Father who gave thee thy life and thy power to discriminate between the false and the true. Thy soul was redeemed from thy lowly beginnings and didst find the light of truth and became one with the Prophet of Nazareth; and thy way was made plain before thee . . .

It was Love alone which brooded over thee from thy youth, into thy nativity and unto thy resurrection from the death of thy early mistakes. It is love which restoreth thy soul. In the darkest hour before dawn Love sheltered thee and kept thee from harm. All thy life thou hast been blessed in it, and now thou stretchest forth thy hand to receive the Keys of the Kingdom.

The first key is Love, and it is the greatest Key; the second is wisdom; the third is understanding, the fourth is compassion; the fifth is sympathy; the sixth, disconcernment, and the seventh embraces all in its consciousness - it is God, the giver of all thy gifts. Receive thy Keys and go Forth and use them, each in its own separate administration and in its proper place; but use the first Key to unlock thy door to the portals of thy mind where are recorded all thy other treasures gathered during thy long journey from state to state and world to world.

Thy knowledge brings thee thy responsibility. Thou canst be false to no man while thou art true to thyself, for thou houseth a God who is not deceived, and thy service beareth the mark of thy Creator. Thou camest forth from the love essence of the Father, and now thou takest thy return journey back to the Source from whence thou camest . . .

Thy light is thy guide, thy soul thy teacher, and thy heart the revealer of all thou hast been since thy heart receiveth its knowledge from One who errs not. Thou art released from thy early bondage. Go forth in peace and love for all. If thou hast thy soul quickened to the voice of the voiceless thou hast learned much but, if not, the delay of thine understanding matters not, for time is not, eternity is everything, and Love is eternal. Peace be with thee and thine for evermore.

## The Philosophy of Love

(Hawkes Bay.)

Receive the benediction of the Cosmic Hosts and partake of the radiations of the divine substance of Life, Light and Love.

Looking inside the storehouse of memory we find much to bless us in our hours of tribulations as well as in our hours of joy. There was a beacon set upon a hill, the hill of Calvary and one Man became the Light of the world. The Light still sheds radiant beams of energy towards mankind and ever will while the earth plane continues to hold within its atmosphere those created in the essence of vital energy called love - the love which embraces within itself ALL of mankind until the whole race lives, moves and breathes in its atmosphere. No other emotion felt within the human heart has the power to raise the self OUT OF SELF, like the beneficent influence of love. It causes man to become god-like in quality that his actions yearn towards the good and true. No one who truly lives can ever be labelled with the stigma of selfishness or disregard for others. Its power-filled influence is to create in the heart the vibration of self-less-ness. Love which IS love is universal, it absorbs all the lesser vibrations of man's earthly conception of things and refines all the dross of the littleness of these lesser loves of self and changes them into the force of godliness or goodness. It takes ALL human-kind into the great throbbing heart which pulsates at a rate of never-ending, never ceasing activity until the purpose for which it was created comes into Life and ALL men bow in subjection to its unfailing guidance in every sphere and progress.

This is the Law of God - nothing more or nothing less than the force of Cosmic energy called Love. We have said that no man who truly loves is selfish; it could not be otherwise. The very radiation of this 'essence of life' active within the heart tends always OUTWARD; it never seeks self aggrandizement, or ever desires things for self, except when the self SHARES what it has with others. It spends itself in giving! giving!

Love of self is not God-like. It does not desire the good of others but only is concerned with the comfort and well-being of the person concerned. It is self-esteem not love. God is not concerned with His PERSONAL self but only with His power to use that self in blessing and upliftment for ALL created things. The love of which we speak is expressed in every worthy action. Man can say he loves when his heart is filled with compassionate understanding - the understanding which makes him FEEL sorrow in another's trouble or his brother's need, without words, without the utterance of plea or petition from his brother in need, by just sensing from the heart of God a fellow creature's heart. When man or woman can feel sorrow in another's trouble, can feel joy in another's joy, can feel

the innate goodness of one who sins and does not judge, can feel unworthy to pass judgment on fallen man, when he can say he feels these emotions he is beginning to love with God, and one day he will be as God in his power to lift the fallen, to succour the sorrowing, to raise the dead (in bondage) and USE his life in living every breath in service.

This is not merely idealistic; it is practical. All men MUST ultimately come to KNOW this truth before they can wear the garb of a Master who feels the pulsations of the Universe in his own heart. While there is left one lonely soul on earth the Master will not rest; He must raise ALL men to the Father - the 'higher self' - and to the pinnacle of perfection by the force of his imghty love - love made MANIFEST ON EARTH. The Master works in the silence in the human heart. The subject chosen does His will after centuries of preparation to use the mighty energy called by the sweet name - LOVE. No man loves who profanes his speech with unworthy utterances, who deviates from true speech in blasphemy of holy things. He does not love when he uses his strength to hurt a weaker human being or treats any soul unkindly in thought, word or deed. No man loves who will not be tolerant towards ALL other men. All lesser qualities expressed by man are limitations - they imitate but do not possess. Unless you make ANYTHING your own by personal use it is USE-LESS to you; it is only a theory not a practice. The greatest and highest power in life is Love; it is God Hmself, and all He does works toward perfection. Unless you express yourself in loving-ness-in-action, you have not lived - you vegetate and are not as much use in the world as the smallest insect because even that follows an instinct to do something worthy of its existence. So all students on the Path are learning HOW TO LOVE and how to USE the mighty weapon for the blessing of others.

All then can, with pride of possession, proclaim themselves neophytes on the Path, for they are the humble followers of the Great Teacher who gave the world its golden key of Love. The different schools of learning use different methods to unfold their Love consciousness and all methods have their merits in so far as they are stepping stones to the awakening of the self to the power within to reveal the higher attributes of the soul. Growth is slow by reason of man's UNWILLINGNESS TO LEARN.

When the heart emotion is FELT continuously as a living active power it operates its energy to good without ceasing. It never misses an opportunity to serve - the smallest service done with love in the heart which beats in attunement with them to do their work, just as surely as the one who is Teacher does his — all work together for good. One of the highest demonstrations vouchsafed to men is to feel love in his HEART. Pity the one who cannot feel for he is surely bereft of the Light. And to all followers of the Great Teacher we

say that your greatest advancement comes to you when your personal thoughts reflect the purity of divine love. It is the greatest and grandest experience any man can have to **FEEL** within himself pure holy radiations of Christ-like thoughts penetrate every cell of his being with power; he is literally baptised anew in the Waters of Life. All who use the positive forces of life in action, love; all who use the negative forces in life, dissipate their energy and do **NOT** love. When the human heart is quickened in the spirit ready to feel this divine pulsation within, it must first of all learn to overcome faults and failings and all obstacles, to surmount the difficulty of giving up habits which bind the self to earthly tastes and desires.

Above all overcome the tendency to see flaws in others. No student on the Path can progress while the eye beholds the 'undeveloped' good in another, in personal judgment. Learn first to see the good, then feel the good, and expect with a lively expectancy the hidden good to manifest. Be so busy on self improvement that you will be too fully occupied to notice your brother's conduct. Temper your opinion (never judgment) with mercy. That is to say, speak in kindly tones of your brother and awaken within him the desire to **OVERCOME** also. Even the greatest of Masters could not have loved so perfectly had He not first of all overcome the weaknesses of the flesh. In learning to **OVERCOME** learn also to **BECOME**, to do the things, say the things, live the things which will unfold these higher qualities of your soul self. Deliberately set out to **CONQUER** and to **WIN** using love as your guide and philosopher, seeking the esteem of no man, asking favours of none save the reward within of personal reprimand or commendation for work well done according to the voice of the 'Spirit of truth' who does not condemn or judge you but only directs you and guides you and leads you to the Light of Understanding.

Live Love in every experience of life - that is in **ALL** your actions. Act in accordance with the higher dictates of the supreme intelligence within you. Have a goal; then set out to achieve your highest ambition and soon the old ways will give place to the new and you will become worthy of the spirit of truth within you to reveal still more of the splendour of things to come. Use soft speech in your conversations with man - much noise and the loud cackling never had much power to raise an edifice or structure which supports the lofty 'Throne of God'.

This Love of which we speak is the same Love as was expressed in the sojourn of the Great Teacher; the self same love which expresses itself in a mother's heart in the heart of all who 'love unselfishly'. There is only **ONE** love; it is Universal, covering the worlds in space seen and unseen with its emanations of perfection. When you unwittingly trample on the heart of man, you hurt and misuse the power. Between man and man there should be only con-

sideration and courtesy and the willingness to serve - never to hurt or treat unkindly. When love is used universally its power will express perfection and every man, woman, child, animal and all nature will do the will of God - which is to love without ceasing. Then there can be no more wars of bloodshed; there can be no more poverty or lack, or want of any good thing; there will no longer be any need to fill the institutions with the maimed and the sick in mind or body for that is all rooted in selfishness in the undisciplined heart of man who has been led astray by the false things of the outer self.

The inner-self with its CONTROLLED attributes of mind serves humanity to the highest good of all, knowing the immutable law that LIFE IS LOVE. We are using channels all over the earth plane to teach man that the way of transgression is the way of retrogression and he must repay. Open the windows of the soul, beloved students on the Path, and let the rays of the Rosy Cross illumine your WAY to that Peace Profound which no man can have, except by way of the Cross - the overcoming process of purification and the finding of the lost key of memory to teach of the loving Parent - God. We used to say 'God of our heart' but now we say 'Love of our heart' for it is the ONLY power by which we participate in the mysteries of the Soul.

In benediction we come, in Love we leave, and in memory we hold you in the perfection of a great love - a love that overcomes death, defeats the wrong application of power and brings the blessing to all of life, Light and Love. We thank you.

Pass on our thoughts to all who would honour us with their desire to FEEL the TRUTH in our unspoken thoughts expressed so perfectly by one who is an adept in the art of recording these Messages of Love - Peace be with you all.

Arnedas.

(Received through M.L.C. of U.S.A.)

FAITH is as a shining thread of Light, leading straight to the Heart of God! Faith and Prayer are an indestructible cable of Light reaching to the Highest Heaven, making a return circuit to the sender bearing the Healing Ray, the Ray of Supply, the Ray of Joy.

Let your asking be filled with Light and your needs shall be supplied an hundredfold. This is the Law, given in many parables by our Lord, Jesus the Christ. Think upon this until realization comes; that AS ye ask ye shall receive! GOD IS!

I am of the Brotherhood.

## As Breaks The Light Of A New Day

(Channel: "EPH")

One day, many centuries ago, a group of Christ's disciples standing upon a hillside watched Him ascend into the clouds and heard a Voice saying, "Why stand ye gazing into the heavens?" "This same Jesus," the Voice said, "will return in like manner as ye have seen Him go!" This Finale to the Resurrection Story has been recounted to millions of reverent listeners every Eastertide, and through the intervening centuries countless thousands of believers have watched and prayed for the fulfilling of that Promise.

Untold numbers have openly scoffed at the possibility of any such denouncement and have ridiculed the idea that such a "Kingdom" as Christ proposed to set up on this Earth could be within the range of possibilities. Viewing the people of the planet Shan at this time, individually and enmasse, one can scarcely blame them for arriving at such a conclusion. Yet, remembering Jesus' own words regarding what would come to pass immediately preceding His promised return, does it not become apparent that He knew precisely what terrible conditions would prevail prior to His visible re-appearance upon the Earth? When in the entire history of mankind has there been such an array of disastrous occurrences ratifying the biblical prophecies foretelling "Wars and rumours of wars," floods, famine, earthquakes in divers places, hurricanes, volcanoes and other dire calamities" so grievous that men's hearts shall quake with fear?" All this corroboration of events so long foretold is daily spread before us by every media presented by the press for public information. I merely call it to your attention that you may intelligently appraise the situation as of the present time.

Just as the birth of the Christ Child was foretold so many many years before it took place and described in such detail that it was readily recognized when it occurred, so the prediction of Christs re-appearance mentioned a number of distinguishing features by which its near approach might be apprehended. As has been pointed out repeatedly in the past, the days and hours recorded by your calendars and "precision watches" have little meaning and less importance to Those who measure "Time" by the clock of milestones in achievements and the "Calendar" of events which must precede the culmination of any predestined crisis in earthly destiny.

Any date given by Those who contact mortals must be viewed as APPROXIMATE, since there is no exact translation of "Time" as we in eternity know it, into the artificial terms peculiar to mortals. This applies to events of Cosmic import, not necessarily to trivial happenings of daily life which are the direct result of causes easily ascertained, dependent on earthly measurements of time.

Is not Time, as you know it, rather an arbitrary thing? It is 9 o'clock in California . . . you phone a friend in New York. As you talk to him FIVE MINUTES LATER he mentions it is midnight.

Are your clocks both correct? Someone writes of the "lovely summer weather in Australia . . . why don't you fly down for a visit?" You glance at your calendar. It is January . . . a snow storm is raging. Is the calendar at fault? Was the "eternity" you spent in the hospital waiting to know if the operation was successful REALLY only two hours? Are your dependable time-pieces the only gauge of "Time" even on the Earth?

No matter how serious the outlook may be, it is incumbent upon us to take to heart the admonition of our Master to "Rejoice!" when these evidences of impending doom appear all over the world, "Knowing that your deliverance draweth nigh."

The question often arises as to how, in the case of a "predestined" occurrence men's actions (constructive or destructive) can either hasten or delay such a predetermined decision on the part of the arbiters of earthly destiny. Yet, a clear concept of the nature of "Time" is essential as a factor in the enactment of such a contretemps, plainly indicating the extreme importance of men's thoughts and consequent acts, since they exert a powerful influence on the MARCH OF EVENTS toward the Plan of the Creator or its submergence into a quagmire of unpardonable maliciousness and indescribable confusion.

No man or group of men can hope to convert or reform the world at this time. Even the Lord Himself could not do that without the supreme authority given Him to remove those opposed to His commands. WHY? Because every living soul possesses that one amazing Gift he cannot escape . . . God's Gift of "Free Will!" Neither can he escape his responsibility, for the use he makes of the marvelous Gift determines his future status in the world soon to be rehabilitated under the Divine Supervision of our coming Prince of Peace!

Learned scientists have made splendid progress in their discovery and manipulation of many intangible etheric forces and the reactions caused by their fusion in various ways with known forces and concrete substances. Yet it would be folly to expect the best of them to know just what will happen when unknown Cosmic Forces are released into the atmosphere of the Earth.

There are as many different areas of human consciousness to be reached in the transformation of the world as there are material changes to be made. Coincident with the bombardment of the planet itself by powerful atomic currents of a highly beneficial effectiveness, operating through unknown properties of Light in its creative function . . . there will be broadcast from Celestial sources veritable cloudbursts of Love, Joy, Peace, Kindliness and Generosity. This will so influence every type of human being then on Earth . . . mentally, morally, spiritually, intellectually and physically . . . that they will gladly undertake and easily accomplish tasks formerly beyond their ability. New desires, ideas and ener-

gies will be awakened which they did not know they possessed and each will confer with his neighbour to determine how they may co-operate for best results.

As you follow through in your own minds these hints of anticipated changes in the entire motivation and pattern of earthly living, you will be able to add many attractive details to the picture. So tremendous will be the improvements in living conditions in every country that past suffering and privations will be forgotten. Could any prospect be more thrilling? Await with joyous anticipation each fresh sign of His coming! Be prepared to do your part in the re-modeling of a badly distorted world.

My personal assurance that, as one of His beloved disciples, your present safety and future happiness are in capable hands.

Yours in the service of our Master,

"C. N."

## Ashtar Stresses the Importance of Light

(E. P. H. of U.S.A.)

To any who have lived in the iridescent Light of these higher realms for many millions of years, it is only natural that Darkness should be abhorrent. It is also natural that (when in the pursuance of duty such Darkness is encountered) such an one would use every means within his power to dispel that Darkness. From the standpoint of those dwelling in the serene Light of conscious "One-ness" with the omniscient Father of Light, no more appalling fate can befall anyone than to be deprived of Light, either by deliberate choice or being forced to accept the darkness of intolerable conditions they are helpless to rectify or escape. This latter, however, need not necessarily extinguish their own Spirit-light!

We might explain that we existing in the higher vibratory orbits do not see those in dense physical embodiment clearly until we have mastered the ability which comes from diligent practice

or unless we use an instrument similar to your "eye-glasses" or binoculars, altho' our "TV screens" depict any scenes and people we wish. You can, perhaps, picture our homes on seeing an entire planet submerged in a heavy fog of ever increasing density, in many regions assuming the appearance of an impenetrable wall of opposition to the tiniest ray of Light. Approaching close to observe this phenomenon, however, we discovered MANY groups of inhabitants who possessed sufficient light to shed their beams about them and lighten the gloom. Even in the darkest regions there were tiny, twinkling lights which could not be obliterated by the surrounding Darkness. The dazzling blaze of artificial lights we encountered often appeared to blind the inhabitants to the evil designs of those who diverted this marvellous blessing to their own perverted purposes. When we lowered our own vibratory rate to become visible and attract the attention of those we hoped to rescue from mental and spiritual anesthesia, to our dismay we found few who whole-heartedly accepted our ambassadors to this darkened planet. Ensuing events are more or less familiar to you.

My present object in addressing you is to stress the extreme importance of LIGHT as it pertains to the present and the future destiny of you individually and of the entire planet. In this materialistic, earthly phase so many are fixing their attention almost exclusively on MORE possessions, MORE technical skill, MORE speed, MORE scientific knowledge, MORE probing of the Unknown Universe . . . and all too little on the development of those spiritual aptitudes without which one cannot hope to reach the higher levels of existence in what you term "Outer Space." We do not by any means condemn these material achievements but hold them in the highest esteem when used for constructive purposes in accord with

Has it occurred to you that in descriptions of life on advanced planets no mention is made of lamps and other artificial lighting devices? And in your Holy Writ you read they have no need of the sun by day etc. When your Heavenly Father sent Jesus Christ to earth to give Light to those who dwelt in Darkness, it was not to teach them the mysteries of electricity, important as that knowledge is. His mission was to teach men the secret of lighting the whole world with a glowing indestructible, spiritual illumination which would dispel the awful pall of Darkness surrounding the globe

Beginning with the simplest rudiments of God-like living, He sought to lead them step by step into an understanding of those laws governing the manipulation of the highest forces in the Universe, all operating under the greatest law of all . . . the LAW OF LOVE! DIVINE LOVE! What was the first lesson He taught? To the will of God.

love our Great Creator with a heart single to His Honour and Glory! This was the nucleus of the reign of Light and Life He came to inaugurate. Was this glorious Gift of Light accepted by the world? It was not!

He opened the portals of Heaven to wondering mortals through His tragic death and showed them a Pathway of Light leading to an Eternal Lifetime of Light, Love and Joy! This Pathway of Light may begin on the earth plane with the faintest flicker of a sincere desire to help someone in distress, to share a crust of bread, to offer shelter to a homeless one, comfort to someone grief-stricken. When fanned into a flame by some such deed of loving kindness, this light becomes merged in the Pathway of Light. For this Royal Highway of Light leading to Life Immortal is paved, not with the coarse materials of which visible roads are constructed, but with the precious gems of Love, Compassion, Kindness, Service, Courage and Faith!

It is now common knowledge that far distant, glittering orbs of Light may be (conceivably) peopled by God-created entities possessing intelligence, although possibly housed in bodies differing from those you now occupy. These could, by a stretch of man's imagination, be entirely invisible to mortal eyes. It is at this point of speculative logic we would remind you that for untold centuries millions of earth people have believed (upon evidence to them convincing) that upon leaving their physical bodies they would be clad in etheric bodies, similar in appearance but divested of the annoying afflictions and limitations of the bodies just vacated.

An important fact connected with this transformation merits your attention! Mortals discern objects beyond their touch through eyesight. When this is destroyed they live in a world of physical darkness, UNTIL . . . and this is the amazing fact which so thrills all refugees from the prison-house of flesh . . . until that enchanted moment when their spirit eyes first behold the wonders of these higher realms where loved ones meet and greet them with welcoming smiles! This gives us great joy save for one tragic fact! Those who have destroyed their spirit eyesight by ignoring God's creative laws arrive in these higher vibratory octaves in a sad state of "blindness" which is almost hopeless when they refuse all offers of assistance by the teachers sent to enlighten them.

I have not touched upon the scientific implications involved, having purposely restricted my remarks to the obvious advantages of cultivating a sensitivity to the finer soul attributes which ensure your ever-expanding ability to participate in the life of joyous adventure awaiting you when you join your "Space Friends" in a World of LIGHT, LOVE and indescribable BEAUTY!

## The Philosopher, Plato, Speaks of the Perfect Republic About to Be Established

(20/6/59)

Good evening, my beloved children. This is a difficult task which I am attempting tonight - to come to thee from far off reaches of space. It is a duty which has not been assigned to me but which I have volunteered to take upon my shoulders for the deliverance and the help of the people upon your Earth SHAN. I am PLATO and I have come to the Seventh Orbit of your Solar System from the Seventh Plane of the Nirvanian Fields of Light in order that I may assist you. I have come with a company of which you cannot conceive to assist you in the establishment of the New Age, the establishment of the PERFECT REPUBLIC. I tried in times gone by, some twenty-one centuries, to impress my colleagues and my people of Greece to establish upon the Earth a perfect government of the people, by the people, and for the people. But I was repressed, I was rejected and my philosophy came to naught because I was many centuries ahead of my time. Now I am privileged to come again to this planet, not in close proximity but to observe and to help thee in the establishment of a perfect government which shall come to your planet in a very short time.

I have at my disposal an ARAVAGNA some thirty miles in length, some twenty miles in width. And I have with me a host of the Angels of Light who have volunteered to come for this important mission. We have just arrived in your Solar System. In time very short you will have upon the pages of your newspapers and your radio the observation of a strange object in your Solar System which cannot be defined. We will be there waiting and watching for the developments which are being now enhanced and governed by those from OTHER Solar Systems and from your own galaxy who are trying to impress little groups like this one of the necessity for action and not words.

You must act and you must act quickly. Your planet could go into dissolution, but we know that this will not take place for it has been proclaimed in the Nirvanian Fields and the Etheric Spaces that this shall not be. Thy planet has a future. It has a place in the galaxies of this Universal Cosmos. It shall be a beautiful place upon which to live in the future. It will take time; it will take travail; it will take many things which ye know not of.

Tonight we would beam this message to you of faith and cheer. For we are here; we are ready to help you. Not in the sense that your OTHER GUESTS have been and your OTHER SPACE FRIENDS but we will watch very carefully the developments which are coming to your planet so that at the proper time we may be able to put into operation the ideals which we projected centuries

ago upon this planet. We hoped then that it would not be necessary for you to go through the travail, the agony of spirit, and the agony of life which has come about through the errors not only of materialistic things, but the errors of spiritual and mental thinking as well.

We would give you a little idea of the importance of your operation and the importance of what has been attempted upon your planet. The call has gone out into ALL the Universal Cosmos. We are not the only ones who have heard it for it has been echoed BACK AND FORTH through the caverns of space.

On our eventful voyage in our Etherian space craft as we came into your orbit we came in contact with others who know of your condition. It would be interesting if we could tell you a little about our trip from the outer space where we are engaged in the edification and enlightenment of other spheres and realms. Know ye that ye are not the only planet and only galaxy which is going through travail; for there are many more. We have passed close to three of them. We were told about them by those who welcomed us from their ARAVANZAS and ARAVAGNAS which came in great glory to greet us and to help us to understand more about what is going on upon the planet SHAN.

So you know that the word has gone out into the outer space what you are passing through — the great travail. Your time is not long for this travail. Take heart and take courage. Be ye faithful unto all those who have spoken to you this night and all of those who will speak to you in times to come of the things that ye must do in order to bring about this transformation from a lower to a higher realm. Know ye that ye are only one of many MANY selected ones who shall help in this great deliverance which is coming to your planet.

We would enlighten you this night upon why we are here. We are not here to deliver you; we are not here to interfere in your affairs. We are not here to give you messages of spiritual nature perhaps; but we are here to help you to ESTABLISH YOUR GOVERNMENT WHICH WILL BE A WORLD GOVERNMENT BASED upon spiritual values - upon justice, love and wisdom. Spiritual power is coming to your universal minds; you are receiving it. The Universal Mind is the ONLY MIND that will establish this government, the only MIND that can find the answers to your problems. These problems will be solved. All problems in the universe are solvable if you will only look to that CREATOR who has created you and those who have spoken to you — especially the great Masters and the GREAT MASTER who has spoken to you often in your little group.

Incidentally, we might tell you that on your trip into your galaxy we came very close to the plateau upon which your beloved ESU is now preparing for the deliverance of your planet. He came

in a space ship within ten thousand miles of ours to greet us and bid us Godspeed upon our mission. He told us that He would see us again soon for He is coming in His GLORY AND MIGHT! In all His messages that He has given He said He would come; but not as you have thought. In Spirit FIRST, THEN in the power and the glory that is manifest in the firmaments of your heavens He will come. You will see that God reigns supreme and man is only the instrument through which this supremacy may be realized.

Be not discouraged about the government of your planet for it has many errors at the present time which will be corrected and which you will correct as you go along. It will be corrected in a manner which shall be pleasing to ALL who are within the galaxies that are watching your planet and are endeavoring to help you in any way they may find advantageous to your knowledge and understanding.

Now we would bless you. My associates in centuries gone by - ARISTOTLE and SOCRATES - also come again to thee to bless thee and to give thee assurance that you will not go astray.

Hundreds and thousands of groups of this type throughout this planet shall come in unison and become in rapport with one another in order that we may be able to establish you in a great spiritual government. I have written and have tried to impress the people of Earth many centuries ago that this shall be a perfect Republic in which justice shall rule and the spirit of truth shall be manifest in all dealings with men among men and with men among spirits and with men and their CREATOR and with those in outer space. There shall be a JUBILEE, there shall be a gathering in. There shall not be wailing and gnashing of teeth; but there shall be rejoicing in the heavens although you may have some wailing upon your planet BEFORE this purge can be brought about, BEFORE this deliverance can be gotten into its higher phases.

Watch your INFORMATION SERVICES to know that they are very much confused as to what is taking place in the firmament of the heavens. Your telescopes of power will be able to detect us as we are PARKED, so to speak, in your atmosphere. We will STAY here until this "Operation Deliverance" is accomplished. We will be ready and willing to inspire the leaders who shall be brought forth. There will be many of them and they will be a surprise to you for you know not now who they are. You think you know some of them but there will be leaders of whom you have never heard. They will lead your nation and your world into a world of love, a world of wisdom, a world of knowledge that shall be a glory in the Universal Cosmos. We shall rejoice because we have been able to accomplish this; because we have been able to help in the thing which we failed to do many centuries ago. So we are rejoicing this night with our company here that we can come to you to give you these messages.

There shall be many catastrophes and many things coming to you which you shall wonder about and which you shall say should not come to any people; but they must needs come for this is a purging operation; they will be necessary in order to establish the government which you shall come into as time and space go on.

We have come from timeless space and spaceless time. It is very hard for us to be used to a time element. We will not delay you longer; but at a later time we may have a message which will be of encouragement — more of a scientific and governmental nature. For you have received and you are receiving the spirit of truth. You are receiving all of those things which are necessary unto your spiritual advancement and development. Heed all of these messages which come to you. Live by them, work by them, think by them and do by them as you would as a commander in an army. For ye are truly an ARMY OF LIGHT. Ye are part of that army of Light which shall be the Light of the World and who shall bring into this world light, peace, love and joy in the Great Cosmos in which your planet is revolving. The New Age is just around the corner and you are to be congratulated because you have knowledge of this.

There are many who are going blindly about their duties, going blindly about their degradation — knowing not that they even live - thinking they are just a machine. They are here to be something to be looked at or to be kicked about or something to kick others about. We thank you folks that you are not of this nature, that you are of a higher self and that your vibrations can be raised unto the cosmic heavens so that you shall receive light, wisdom, love, knowledge and power from the Eternal Creator who has given you Light that He might manifest through you. For He cannot manifest through a rock or a blade of grass or a tree. He must manifest through a human soul. Ye are part of that manifestation of the great cosmos, the Great Spirit and the Great God and His Son who came to you to teach you how to make this manifestation. Through error and gross neglect of your duties you came to a point where you could not manifest the Spirit of the living God; but you manifested everything else that came about in a manner which was not commensurate with the things you were told to do by the great teachers and the MASTER of the past.

Now I will recede and tell you again that this is PLATO. I have come from a long distance to speak to you tonight. I hope you will give your attention to all things that come to you for attention is now what you need. You need not words, you need not messages; you need attention to duty — that duty which calls you to the Etheric Counterpart of your planet which is in a higher sphere than you have ever encountered before.

We would bid you all good night and we leave our love and blessing that will remain with you as long as ye shall be faithful unto the Light that has been given to you.

I am now in the Seventh Orbit of your galaxy vibrating to and fro with the revolutions of your planet observing and intercommunicating with all of your space craft and your guests who are helping you in every way. Good night and God bless you from the Grecian philosopher who in times past tried to impress the world but was not heeded. May the blessings of your Master ESU and all of those who have come along the pathway to greet us rest and abide with you now and always unto the great COSMIC DAY when you shall reap the harvest which you are sowing here in this little group tonight. May the God who has created you be with you to help you to see and KNOW the Light of His Wisdom, his love and His power. Good night.

## Mary The Mother of Jesus Speaks To The Mothers of the World

(8.3.60)

Holy, Holy, Holy is the Lord God of Heaven.

O ye who have worshipped at the footstool of my Son, I have come to speak to thee for I know that thou art thirsting for the words that come from the heavens. Not before have I come to thee, but constantly I watch and I pour my love over all the world as the Lord does also for thee.

O ye mothers of the world listen to me for I also have suffered as thou hast, I whose heart was torn and whose sorrow was so great. I have known deep sorrow; I have known adversity; I have known the loss of a son so that with thee I can sympathise as thou knowest. With thee I will ever be.

O ye mothers of this world, this world that was called the world of sin, I gave my Son so that He might be a Light unto thee, so that thou might find Him at last and live in the Eternal Light.

O ye mothers of the world, know that I am as thee and that although I now dwell in the Celestial Light I am still with thee and in thine hearts I ever dwell. Dear children, thou who art come up through sorrow, know that ever thou wilt live in the eternal world with me.

Question: How may we help the children of the world?

Send forth your thoughts of kindness and love to them even as My Son and I, His mother, are continually doing. Forever we give of ourselves to the little ones.

Note: Before Mary spoke she was seen by two seers of the group. At first she appeared in the distance as a form of light and then she approached closer as a being enveloped in light and colour. From the point of the crown which rested on her head, and from the lower part of her apparel, there shone forth rays of light which resembled bright jewels of various colours. As the figure drew nearer still, the face could be seen appearing and then disappearing in the bright light.

## BONAPARTE'S MESSAGE

From "The Psychic Observer", November 25, 1950

I have been permitted to use this power to convey a few thoughts to you and the world in which you dwell. I have been informed that your mission is that of carrying to the blighted hearts of your brothers the joyous message of man's immortality or victory over death, and at this time, I wish to offer my congratulations and to thank you for this earnest desire for truth which has enabled the spirit world to break through the dark wall of ignorance that has been thrown over the minds of mortals so long.

"But sir, we, in the spirit life, rejoice that not far in the distance a bright light will dawn upon your world and shed its effulgent rays of truth over the dark and benighted minds of God's children who are clothed in a mantle of darkness which the dictators have woven from threads of sin and crime.

"We thank God that angel hands are about to strip off this robe of darkness and clothe humanity in the bright garment of divine truth.

"Oh, my mortal friend, how my soul rejoices that I am permitted to return to earth and find an organization through which I can convey my blessing to a world in which my blind ambition had sown seeds of discord and strife, that grew up in my poor, unhappy land, a bitter curse to La Belle France, which today lies broken and bleeding in the dust, crushed beneath the iron heel of ambitious men.

"Had I, in my time, made a wise use of talents God had enriched me, to benefit humanity instead of for self aggrandisement, for world fame, I should not now have been a wanderer through the dark spheres of earth to find work I ought to have done before I left there; but I clothed my mind in darkness; I covered myself with fame and renown; I was the hero of the age, and the world bowed in homage to my will.

"I never thought that a controlling power was above this world or that I was simply an instrument in unseen hands.

"Had I been governed by wisdom and worked for the best interests of humanity, instead of usurping all power, I should not have to return to earth in humble supplicance and acknowledge my faults to the world. But my Master left on record His truth for He said, 'Except ye become as little children, ye cannot enter the kingdom of heaven' and I now willingly humble myself in the dust to become like a child, to atone for the wrongs of my past.

"I am willing to work among the poor and lowly ones of earth to alleviate the ignorant and down-trodden. to become their teacher and companion, where I once ruled and made them my slaves to do my bidding. Thus, are the mighty ones of earth brought low in this world of spirit where justice is king, where we meet reward for the deeds in the body.

"Oh, my mortal friend, could you be made to realize the laws which govern and control spirits in the celestial world, you would then understand the divine right of kings to rule over God's children. The angel world has one acknowledged king and that is the Christ principle. He declared His kingdom was not of earth, for this earth was not prepared for it, but He taught His disciples to pray, 'Thy Kingdom come, Thy will be done on earth as it is in heaven,' for He knew the time would come when His teachings would be recognized on earth.

"Gloriously is she advancing step by step, opening the eyes of the blind to new beauties to a love of truth, rousing up the minds of the people all over the world, preparing them for the second coming of the Christ principle (not Christ Himself) that must and will rule our world after cessation of the bloody holocaust now upon us.

"Then will the world become regenerated; then men and women will learn to obey these teachings for His answer contains all truth which He made to the Pharisees, when He said, 'Do unto others as ye would be done by.' On these hang all the law.

Now, when your rulers will make laws to benefit the whole human family instead of benefiting the few on earth and for self-aggrandizement, then will people learn to really live.

"He never asked man to obey creeds and dogmas of man's inventions. His were simple and plain rules, but there are those who have made strange inventions of His teachings — they have hewn out broken cisterns that can hold no water. They hold the world in darkness and in crime; they are responsible for the crimes of earth and the many wrongs done to humanity. For these crimes, they have to suffer, for as you measure to your fellowman, so God will deal with you.

"This is justice which all must bend to, in spirit life, rich or poor, for all are held alike, since God is no respecter of persons. When the Christ principles are once thoroughly understood and the banner of truth permitted to wave from the watch tower, without being pulled down by ungodly hands sustained by ruling persons, then will people live up to the teachings, for He said to His followers: 'A new commandment I give unto you that ye love one another.'

"When will that time come? When people will love as Christ loved his fellow men and brethern. He was willing to sacrifice for the principles He taught and give His life for truth's sake, to satisfy priests and rulers who believed not His teachings. This day would they destroy their fellow men who dare to differ with His principles which are filling the world with power today.

"Thus has He prepared the way of truth to manifest to this generation and opened the portals of the spirit world, two thousand years ago. He told them that He would return to earth in spirit and in power for the Christ spirit must manifest in the heart of humanity.

"Let men beware how he treats the spirit which is knocking at the door on man's inner temple, and shutting out the power of spirit communication, for only by opening wide the door between the two planes and welcoming back your loving friends, can we impart to humanity the joys of heaven and the pangs of hell.

"Not the orthodox hell of fire, but a hell such as men feel for wrongs done on earth life, a remorse of soul that bows it in the dust of humility and makes them plead like the rich man to be sent back to earth to warn his brethern which he left behind. This is the great power and truth which is to rule the world and dethrone the dictators as it did me.

"For this do we come back to plead with humanity, to receive us as you would your loving friends who had gone before. For every spirit is now trying to come back and prepare the minds of mortals for post-war conditions. Startling events are fast crowding themselves upon the heels of time.

"Kingdoms and empires now fallen will rise no more. All crowned heads will be uncrowned, thrones that are propped by the bayonet will sink forever in the dark waters of oblivion. Republics which are rising in the future will in fact become governments of the people. Then will the world on earth become a theocratic government, then will Christ's kingdom come on earth as it is in heaven.

"This my friend, is the future and that future not far in the distance. This is the great millenium which is to crown the world in glory. This is what spirits and mortals who are controlled by wise and good angels are trying to accomplish and will succeed with the help of mortals like yourself by the end of the great struggle on the battlefield of Asia.

"This much of the future I am permitted to unfold to your mind, hoping you will treasure them in your heart as words of wisdom spoken through one of God's chosen oracles, as one who has been granted power to convey to earth's children messages from the immortal spheres.

"I now thank those who have granted me this privilege. Trusting that you will receive this from a wanderer in spirit spheres, one who seeks the light.

Fondly, gratefully,  
Napoleon Bonaparte

## Love and Understanding, the Key to All Doors

Universarium Foundation, August 15, 1960, Portland, Oregon  
Good evening my dear ones:

This is ESU, the one whom thou hast called Jesus the Christ. I have come in many ways and under many names. I come to thee, to this group, as ESU because this is the spiritual name which I have chosen to give unto you. I will not take the time to enlarge upon the reasons why I have chosen this name, for this particular group. I have come to two other groups in the same manner and using the same name.

The only thing that I want to give you tonight is a key. If you will hold out your hands upturned I will place in each of your right hands a key. In your left hand you have a lock. Now place your hands together and I will unlock for you a door that will lead you into the portals of light, into the portals of the future, into the portals of eternal happiness, and into the portals wherein you shall be able to ascertain the things that you have been striving for.

This will not come easy, for YOU must unlock the lock on this door. And you must open this door. Beyond it lie many hidden things which are now ready to be revealed unto thee by thy teachers and those Great Ones who have come to you along with those who will come to you yet. There will be some new teachers added to your group.

In this great moment I would admonish thee to listen carefully to the teacher who has been chosen as the sponsor now of your group, the Great RAMA. In his humbleness and submission to cosmic truth he makes the affirmation that he is not a great teacher. He is a Great One; and we have given him the assignment to come to you on regular occasions to give you cosmic truth, the truth that shall set you free.

I will be with him and he will be with me. So if I come not unto thee each time you will know that I am overshadowing him. Many of the great masters who have come to thee in times past, and who will come in times to come are overshadowing this teacher who has come to you. He will give thee great instruction of the things which you shall do and of those things which shall come to pass.

Be not hasty in thy judgments, be not hasty in thy murmurings for greater knowledge; for knowledge comes in the proper time and at the proper place. Knowledge will come to thee as a great light that shall shine from the heavens above and that shall come as the Cosmic Light that shall shed its effulgence into not only this group but to all in this area who shall come into your midst.

Draw them in unto you like a magnet. Give them love and give them understanding. Give them not criticism as you have been doing tonight; although it has been somewhat constructive. Yet

CRITICIZE NO ONE FOR THEY ARE HUMAN. They are upon your planet for a specific work and they have been instructed to do that work.

My beloved ones, we have not been able to choose those who have been able to do the highest for the cosmic advancement for thy planet SHAN. We have to take and use those who are best fitted with a certain talent and with a certain kind of vortex which can be revolved about an axis that will emanate light of a certain frequency. You here in this little group are emanating a very high frequency that shall soon be felt over all the planet. As we have told you many times, it shall grow in strength and intensity for it shall go unto all the Earth, not only in this community and area; but it shall be given to ALL who are willing and ready to receive it.

Do not force those who are not ready to receive. When you do you are wasting your energies. Rather place your energies as you have placed them this night, to those who need the healing power of the physical and the healing power of the spiritual. In that way you will be able to help them. Ye shall do this in the future in great emulation, greater harmony and greater power than you have done in the past.

Again I would give you this key. You shall hold it tightly. Hold it as thou wouldst hold a golden nugget; for it is the key that will unlock the door. What is this key? You have been told about it so MANY times. Shall I repeat it again? That key is LOVE AND UNDERSTANDING . . . love for your fellow creatures, love for all of the creations of the great JEHOVA who has created all things in the universe. He has given you light, He has given you life, He has given you sustenance and power.

Go to thy places and use this key to unlock all doors of effulgence, all doors of abundance. You have been concerned about the abundance of material things. This key will unlock abundance if you will use it properly. We will give you instructions as time goes by that you may be able to use this key in unlocking not only the spiritual but the material substance which you will need.

As I stand upon the Mount of Transfiguration I will bless thee again and you will feel My presence with you. I hold my hand alternately upon each and every one of you in this group and bless you most abundantly for ye are doing the work that has been assigned to you. You shall not falter nor fall by the wayside although the way seems dark and the darkness sometimes engulfs.

You should affirm that you ARE light, the Christ light, and that it shall shine from you. Surround thyself with a tube of light and it shall penetrate thy very being and all shall be well with thee. All shall be well with all who come in contact with thee. You will be a power and a good to all who shall shake your hand or look into your eyes or find your vibration in their presence.

Now I must leave thee for there are others who would come. If there is within thee that earnest desire to seek after truth and

light thou shalt be enlightened all along the way. Bless thee again. I give thee My peace, I give thee My light, I give thee My love and understanding. I am ESU whom thou hast called the Christ. Thou hast been told what the Christ is, for thou art the Christ as much as I. We are all one; I am only thy Elder Brother. We are all brethern together upon thy planet and the great galaxies of the universal supply house of the Father's Kingdom.

Now I go again to leave thee in peace for thou and thou alone art the emanators of earthly light. (By this He did not mean only this group but ALL Earth's peoples. We cannot emanate earthly light; all we can do is to emanate Christ light). You shall reflect this as it shall be given thee in greater glory and power as you go forth to the mission which we have given to thee. I bless thee again, O Children of SHAN, for thou art children. Yet thou art the sons and daughters of the Most High. Thou art brothers and sisters to me . . . the everlasting Christ light.

Amen, amen, and amen. So be it unto thee.

## A Warning Message

Just as there will be great tidal waves — “the sea and the waves roaring,” and great winds, and great earthquakes in the earth's physical realm, just so will there be great winds of the Holy Spirit with great waves of His Power, and great shakings in the Spiritual Realm; for everything that can be shaken, shall be shaken, that those things which cannot be shaken will remain!

Truly, truly, I will overturn, and overturn, and overturn, and will uncover, and uncover, and uncover all the backsliden, hypocritical, adulturous Preachers, who try to make the warnings of My Prophets of none effect to their people; and will destroy their works until they will have to cry out for mercy in real acceptance, or they will lose their souls! For the bed is shorter than a man can stretch himself on it, and the covering narrower than he can wrap himself in it!

For He that planted the ear, shall He not hear the lies and false slanders against my true servants? And He that formed the eye, shall He not see their evil works, and how they are swift to run to do evil, and slow to do doog? Know ye that I will surely visit for these things and my wrath will come upon all, who claim to be the Ministers of Righteousness, and hold the truth in unrighteousness; whose end shall be according to their works!

## THE SILENCE

From "MESSAGES OF LIGHT, Given in His Name"

It is well to sit quietly and penetrate the Stillness within one's self and listen for the Voice of God and for His Spiritual teachers. If mankind as a whole had not drawn away from His inner Silence, he would not have drawn away from God as he has done.

The priests in the Temples in older days kept this contact for a time and taught the people the Will of God. But even these, through greed and selfish desire, lost this ability but continued to make their followers believe they still had it, even down to modern times.

The priests were in a measure responsible for the loss of the consciousness of the Silence within each one in that they trained the people to look to them rather than getting Wisdom first-hand from the Father.

Man has already begun the slow, weary path back to the Father. Some there are who have learned to listen for the Will of God to sound forth within their own Silence, but these are few.

All who are on the Lord's Path must learn this and practice it daily and become more and more proficient. The day is long passed when one can gain salvation by depending on a fellow man. Each must work out his own salvation now, and to do this he must find the Stillness within himself, where he can go to meet His Maker and Creator, the Lord of All and to learn His Will.

I, Phyris, hath instructed thee this day in His Name.      Amen.

## CONCLUSION

We have published a monthly magazine for more than 30 years. My first message was in 1926 and in 1930 it came out in magazine form. We suggest that you keep in touch with our activities because each month we give vital information pertaining to the physical facts that are happening in our every-day life as well as inspirational messages from the Higher Planes.

Materialism or a social Gospel is being preached in our churches today, but that is not the message our Master came to proclaim. His message was of the coming Kingdom, which is going to be established on the physical plane in the comparatively near future, and it is important that you and I cooperate with His efforts. In the near future our churches of all denominations are going to be confounded and condemned because most of the present day churches are political in nature. They are teaching a social Gospel that is foreign to our Beloved Leader. Today more than ever He is saying: "Come out from among them and be ye separate."

They are the "tares" that are going to be burned up and the false leaders with them. We are told to "withdraw until the indignation be passed." The burning up of the "tares" will make huge bonfires, and those bonfires will largely be in the backward races such as Africa, which is now in flames, and China, India and Russia. Regardless of man's opinions and activities, the Kingdom of God is going to be set up on this earth, but all the evil doers will first be destroyed.

Can you not see the body blows being administered to "The Great Harlot"? Roman Catholic countries are falling into the net of Communism because the Church is not a spiritual organization, rather it is striving for temporal power. Its objectives and plans are similar to that of the Communists, and "when you see these things" that are now prevailing "rejoice for your redemption draweth nigh." If you are spiritually attuned, you will be lead out of the firing line into a place of safety, and you will ally yourselves with people whose motto is "All for one and one for all."

Follow your inner guidance; keep in touch with our activities through our magazine, the BEACON LIGHT HERALD, which will help you strengthen your faith in God and our Beloved Leader, the Man of Galilee. Many churches are teaching that Christ is God. Not so! As the Scriptures say: "He is the Son of God" but He is the Father's Representative of this solar system. The day is not far distant when every eye will behold Him in the sky, but I believe that day is much closer than many of our religious leaders are teaching. In the 21st Chapter of Luke it tells: "That the sun, moon and stars" will proclaim this message—that is astrology. Astrology and the Great Pyramid are the two witnesses to your Bible. Again I say: "When you see these things, rejoice for your redemption draweth nigh."

We also carry a large stock of books in harmony with this message. We will gladly send you a sample copy of the magazine. Address: William Kullgren, Box 756, Atascadero, California.
